**RISKS IN RELATION TO THE FIRST OFFER**

This being the first public issue of Equity Shares of our Company, there has been no formal market for the Equity Shares. The face value of equity shares is ₹2 each. The Floor Price, the Cap Price and the Offer Price (as determined by our Company, in consultation with the BRLMs), on the basis of the assessment of market demand for the equity shares by way of the book building process, as stated in “Basis for Offer Price” on page 180, should not be considered to be indicative of the market price of the equity shares after the equity shares are listed. No assurance can be given regarding an active and/or sustained trading in the equity shares or regarding the price at which the equity shares will be traded after listing.

**GENERAL RISK**

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in this Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer, including the risks involved. The equity shares have not been recommended or approved by the Securities and Exchange Board of India (“SEBI”), nor does SEBI guarantee the accuracy or adequacy of the contents of this Red Herring Prospectus. Specific attention of the investors is invited to “Risk Factors” on page 34.

**ISSUER’S AND SELLING SHAREHOLDERS’ ABSOLUTE RESPONSIBILITY**

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Red Herring Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions, misleading in any material respect. Further, each of the Selling Shareholders, severally and not jointly, accept responsibility for and confirms only the statements specifically made by such Selling Shareholder in this Red Herring Prospectus to the extent of information specifically pertain to it and/or its respective portion of the Offered Shares and assumes responsibility that such statements are true and correct in all material respects and are not misleading in any material respect. However, each Selling Shareholder, severally and not jointly, does not assume any responsibility for any other statements and undertakings, including without limitation, any and all of the statements and undertakings made by or in relation to our Company or its business or any other Selling Shareholders or any other person, in this Red Herring Prospectus.

### **Financial and other Data**

Unless stated otherwise or the context otherwise requires, the financial information and financial ratios in this Red Herring Prospectus have been derived from our Restated Consolidated Financial Information. The Restated Consolidated Financial Information has been prepared to comply in all material respects with the Indian Accounting Standards as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time), presentation requirements of division II of Schedule III to the Companies Act, 2013, as applicable to the financial statements and other relevant provisions of the Companies Act, 2013. The Restated Consolidated Financial Information of the Company and its subsidiaries (the Company and its subsidiaries together referred to as the “**Group**”), comprise of the Restated Consolidated Statement of Assets and Liabilities as at September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023, the Restated Consolidated Statements of Profit and Loss (including other comprehensive income), the Restated Consolidated Statement of Changes in Equity, the Restated Consolidated Cash Flow Statement for the six months period ended September 30, 2025 and September 30, 2024 and years ended March 31, 2025, March 31, 2024, and March 31, 2023, the Summary Statement of Material Accounting Policies, and other explanatory information, as approved by the Board of Directors of the Company at their meeting held on October 19, 2025 for the purpose of inclusion in this Red Herring Prospectus prepared by the Company in connection with its proposed Initial Public Offer of equity shares. The Restated Consolidated Financial Information have been compiled from Audited Consolidated Ind AS financial statements of the Group as at and for six months period ended September 30, 2025 and September 30, 2024 and the years ended March 31, 2025, March 31, 2024, and March 31, 2023 prepared in accordance with the Indian Accounting Standards as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meetings held on October 19, 2025, April 30, 2025, June 14, 2024 and September 6, 2023, respectively. For further information, see “*Financial Statements*” beginning on page 391.

The financial information for the six months period ended September 30, 2025 and September 30, 2024 are not indicative of annual results and are not comparable with annual financial information for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023.

Further, during Fiscal 2025, we changed our business model for campaign services and entered into new arrangements with our service providers pursuant to which, we act as an agent and not as a principal for campaign services transactions. Accordingly, the revenue generated from campaign services during Fiscal 2025 has been recorded on a net basis (i.e., net of cost of campaign services) in our Restated Consolidated Statement of Profit and Loss. However, in Fiscal 2024 and Fiscal 2023, income from cost of campaign services was recognized on a gross basis as we acted as principals for campaign services transactions. Accordingly, the corresponding cost of campaign services was recognized as an expense in our Restated Consolidated Statement of Profit and Loss for the said Fiscals. Unless the context indicates otherwise and to ensure comparability of revenue from operations

for the years presented in our Restated Consolidated Financial Information, 'Net Revenue' (defined as revenue from operations less cost of campaign services) has also been disclosed for all the presented years in applicable sections of this Red Herring Prospectus. Any reference in this Red Herring Prospectus to 'Revenue' or 'revenue from operations' is to revenue from operations as appearing in our Restated Consolidated Financial Information while any reference to 'Net Revenue' is to revenue from operations less cost of campaign services.

There are significant differences between Ind AS, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Red Herring Prospectus should, accordingly, be limited. For risks relating to significant differences between Ind AS and other accounting principles see "*Risk Factors – Significant differences exist between Ind AS and other accounting principles, such as Indian GAAP, U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.*" on page 99.

Our Company's financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular financial year or fiscal are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a year in this Red Herring Prospectus are to a calendar year and references to a Fiscal/Fiscal Year/ Financial Year are to the year ended on March 31, of that calendar year.

Unless the context otherwise indicates, any percentage amounts (other than the KPIs and other operational metrics), as set forth in "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 34, 268 and 467, respectively, and elsewhere in this Red Herring Prospectus have been calculated on the basis of the Restated Consolidated Financial Information of our Company.

Certain figures contained in this Red Herring Prospectus, including financial information, have been subject to rounding adjustments. All decimals have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

### **Non-GAAP Financial Measures**

In evaluating our business, we consider and use certain non-GAAP financial measures and statistical information, such as Net Revenue, Revenue (net of campaign service cost), EBITDA, EBITDA Margin, EBITDA Margin (Net Revenue), Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted EBITDA Margin (Net Revenue), Restated Profit/(Loss) before tax Margin, Restated Profit / (Loss) before tax (Net Revenue) Margin, Restated Profit / (Loss) for the Year, Restated Profit / (Loss) for the Year (Net Revenue) Margin, Debt to Equity Ratio, Return on Capital Employed, Net Worth, Return on Net Worth and Net Asset Value per Equity Share, which are not required by, or presented in accordance with, Ind AS or any other generally accepted accounting principles. These non-GAAP financial measures and statistical information are not a measurement of our financial performance or liquidity under Ind AS or any other generally accepted accounting principles and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the year or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS or any other generally accepted accounting principles. We compute and disclose such non-GAAP financial measures and statistical information as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of companies such as us. These non-GAAP financial measures and other statistical information may not be computed on the basis of any standard methodology that is applicable across the industry and, therefore, may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies.

Certain of our non-GAAP financial measures and statistical information (referred to as KPIs) are disclosed in “*Basis for Offer Price – Key Performance Indicators (KPIs)*” on page 185.

For the risks relating to our non-GAAP financial measures and statistical information, see “*Risk Factors – We have in this Red Herring Prospectus included certain non-GAAP financial and operational measures and certain other industry measures related to our operations and financial performance that may vary from any standard methodology that is applicable across the SaaS industry. We rely on certain assumptions and estimates to calculate such measures, therefore such measures may not be comparable with financial, operational or industry related statistical information of similar nomenclature computed and presented by other similar companies.*” on page 87.

## **Industry and Market Data**

Unless stated otherwise, industry and market data used in this Red Herring Prospectus has been obtained or derived from the report titled “*Customer Loyalty and Engagement Software Market Overview*” dated October 2025 (“**Zinnov Report**”), which is exclusively prepared for the purpose of the Offer and issued by Zinnov and is commissioned and paid for by our Company. Zinnov was appointed by our Company pursuant to the engagement letter dated February 19, 2025. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. This Red Herring Prospectus contains certain data and statistics from the Zinnov Report, which will be available on the website of our Company at <https://www.capillarytech.com/investors/>.

Zinnov is an independent agency which has no relationship with our Company, our Subsidiaries, our Promoters, Promoter Group, Group Companies, any of our Shareholders, Directors or Key Managerial Personnel or Senior Management Personnel.

For details of risks in relation to the Zinnov Report, see “*Risk Factors – Industry information included in this Red Herring Prospectus has been derived from an industry report exclusively commissioned and paid for by our Company for such purpose.*” on page 88.

Although the industry and market data used in this Red Herring Prospectus is reliable, industry sources and publications may base their information on estimates and assumptions that may prove to be incorrect. The data used in these sources may have been reclassified by us for the purposes of presentation. Data from these sources may also not be comparable.

The extent to which the market and industry data presented in this Red Herring Prospectus is meaningful depends upon the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different market and industry sources.

Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors*” on page 34. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI ICDR Regulations, the section “*Basis for Offer Price*” on page 180 includes information relating to our peer group companies. Such information has been derived from publicly available sources.

### DISCLAIMER

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or any state securities laws in the United States, and unless so registered may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, such Equity Shares are being offered and sold (i) outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur; and (ii) within the United States to “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act), pursuant to the private placement exemption set out in Section 4(a) of the U.S. Securities Act.

## FORWARD-LOOKING STATEMENTS

This Red Herring Prospectus contains certain statements which are not statements of historical fact and may be described as “forward-looking statements”. These forward-looking statements include statements which can generally be identified by words or phrases such as “aim”, “anticipate”, “are likely”, “believe”, “continue”, “expect”, “estimate”, “intend”, “likely to”, “objective”, “may”, “plan”, “propose”, “project”, “will”, “will continue”, “seek to”, “will likely”, “will pursue”, or other words or phrases of similar import. Similarly, statements that describe our Company’s strategies, objectives, plans or goals are also forward-looking statements. However, these are not the exclusive means of identifying forward-looking statements.

These forward-looking statements, whether made by us or a third-party, are based on our current plans, estimates, presumptions and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

This may be due to risks or uncertainties or assumptions associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in the industry and incidence of any natural calamities and/or acts of violence.

For a further discussion of factors that could cause our actual results to differ from our expectations, see “*Risk Factors*”, “*Our Business*” “*Industry Overview*”, and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 34, 268, 229 and 467, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance.

Although the assumptions on which such forward-looking statements are based are reasonable, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect the current views of our Company as on the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on the management’s belief and assumptions, which in turn are based on currently available information. Although the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions as well as statements based on them could prove to be inaccurate. Neither our Company, the Selling Shareholders, our Directors, the BRLMs, nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with regulatory requirements, our Company will ensure that investors in India are informed of material developments from the date of filing of this Red Herring Prospectus with the RoC until receipt of final listing and trading approvals by the Stock Exchanges for this Offer. The Selling Shareholders shall ensure that they will keep our Company and the BRLMs informed of all developments pertaining to Offered Shares and themselves, that may be material from the context of the Offer from the date of filing of this Red Herring Prospectus with the RoC until receipt of final listing and trading approvals by the Stock Exchanges for this Offer.

## SUMMARY OF THE OFFER DOCUMENT

This section is a general summary of certain disclosures included in this Red Herring Prospectus and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Red Herring Prospectus or the Prospectus when filed, or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Red Herring Prospectus, including the sections titled “Risk Factors”, “The Offer”, “Capital Structure”, “Objects of the Offer”, “Industry Overview”, “Our Business”, “Our Promoters and Promoter Group”, “Restated Consolidated Financial Information”, “Outstanding Litigation and Material Developments”, “Offer Procedure”, and “Description of Equity Shares and Terms of Articles of Association” beginning on pages 34, 103, 120, 158, 229, 268, 384, 398, 525, 572 and 594, respectively of this Red Herring Prospectus.

### Summary of primary business of our Company

We are a software product company offering artificial intelligence-based cloud-native Software-as-a-Service (“SaaS”) products and solutions primarily to Enterprise Customers (defined as customers contributing more than ₹ 4.00 million in revenue from operations in the six-month period ended September 30, 2025 and September 30, 2024 and ₹ 8.00 million in revenue from operations in a Fiscal) globally. Our diversified product suite which includes our advanced loyalty management platform (*Loyalty+*), connected engagement platform (*Engage+*), predictive analytics platform (*Insights+*), rewards management platform (*Rewards+*) and customer data platform allow our customers to run end-to-end loyalty programs, get a comprehensive view of consumers and offer unified, crosschannel strategies that deliver a real-time omni-channel, personalized, and consistent experience for consumers.

For further information, see “Our Business” beginning on page 268.

### Summary of industry in which our Company operates

According to the Zinnov Report, the global loyalty market is valued at USD 16.6 billion in Fiscal 2024 and is expected to grow significantly, reaching USD 26.8 billion by 2029, projecting a growth rate of 10% from 2024 to 2029. Changing end-user demographics, growing expenditure on loyalty programs, rapid growth in the applications of AI and analytics, and appreciation for online reward management solutions are adding to the loyalty market growth. As the customer engagement and loyalty landscape matures, SaaS players are evolving beyond traditional models, embracing hybrid strategies that combine the scale of horizontal solutions with the depth of vertical specialization. (Source: Zinnov Report, page 254)

Restated profit/ (loss) for the period/year	10.33	(68.22)	132.80	(593.78)	(877.19)

Particulars	As at and for the six months period ended		As at and for the Fiscal period ended		
	September 30, 2025	September 30, 2024	March 31, 2025	March 31, 2024	March 31, 2023
Restated earnings per share from continuing operations					
- Basic	0.14	(1.40)	1.93	(12.15)	(17.63)
- Diluted	0.14	(1.40)	1.91	(12.15)	(17.63)
Net asset value per equity share	68.59	60.62	65.03	79.20	19.77
Borrowings	889.38	460.26	1,000.94	771.66	1,474.71

Notes:

- The above information has been derived from the Restated Consolidated Financial Information.
- Basic earnings per share (₹) = Basic EPS is calculated by dividing Profit/ (loss) attributable to equity shareholders of the Parent Company for basic/ diluted EPS for continuing operations by the weighted average number of equity shares outstanding during the period/year. The weighted average number of equity shares outstanding during the six months period ended September 30, 2025, and September 30, 2024 and Fiscals 2025, 2024 and 2023 was 73.32, 73.23, 73.25 million, 56.27 million and 50.24 million respectively.
- Diluted earnings per share (₹) = Diluted EPS is calculated by dividing Profit/ (loss) attributable to equity shareholders of the Parent Company for basic/ diluted EPS for continuing operations by the weighted average number of equity shares adjusted for the effect of dilution. Weighted average number of equity shares adjusted for the effect of dilution are computed as a sum of weighted average number of equity shares outstanding during the period/year and effect of dilution due to employee share options. Weighted average number of equity shares adjusted for the effect of dilution during the six months period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 was 74.26, 74.42, 74.03 million, 57.09 million and 50.46 million respectively.
- Net asset value per equity share = Net worth as of the end of the period/Fiscal divided by the weighted average outstanding equity shares considered for diluted EPS as the end of the period/period.
- "net worth" means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation, amalgamation and capital reserve. For further details, see Note 13 and 14 of the "Restated Consolidated Financial Information" on page 427 and 429 and "Other Financial Information - Reconciliation of Non-GAAP Measures" on page 466.
- Borrowings represents the sum of current and non-current borrowings.
- For reconciliation of Non-GAAP measures, please see "Other Financial Information – Reconciliation of Non-GAAP Measures" on page 466.

For further details see "Financial Statements", "Other Financial Information" and "Basis for Offer Price" on pages 391, 465 and 180, respectively.

## Risk Factors

Specific attention of Investors is invited to the section "Risk Factors" on page 34. Certain important factors that could cause actual results to differ materially from our Company's expectations include, but are not limited to, the following:

1. We generate a significant portion of our revenues from a limited number of customers. Our top five and top 10 customers contributed to 38.60% and 55.70% of our revenue from operations in the six-month period ended September 30, 2025, and 43.35% and 58.71%, in Fiscal 2025, respectively. Any loss or reduction of business or termination of contracts from/by these customers could reduce our revenues and materially adversely affect our business, results of operations, financial condition, and cash flows.
2. We derive a significant portion of our revenue from customers located in North America. In the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 our revenue from the customers located in North America accounted for 56.01%, 57.20%, 56.59%, 48.09% and 20.00%, respectively, of our revenue from operations. Any adverse developments in North America could adversely affect our business, results of operations, cash flows and financial condition.
3. We may be unable to attract new customers in a cost-effective manner which may adversely affect our business, cash flows, results of operations and financial condition.
4. Our success is dependent on our ability to develop and innovate our platform, products and solutions in a cost efficient and timely manner. Any failure to do so or inability of our products/solutions to satisfy our customers or perform as desired could adversely impact our business, results of operations, cash flows and financial condition.

5. We have incurred losses of ₹68.22 million in the six-month period ended September 30, 2024 and ₹593.78 million in Fiscal 2024 and ₹877.19 million in Fiscal 2023 and certain of our Material Subsidiaries have also incurred losses in the past and we may experience losses in the future which could result in an adverse effect on our business, cash flows and financial condition.
6. We have undertaken, and may continue to undertake strategic acquisitions, which we may fail to integrate efficiently and which may not perform in line with our expectations or may be prone to other contingencies.
7. We are significantly dependent on our employees for our business operations (including for design, development and maintenance of our products and platform, customer acquisition and retention) and we incur significant expenses in relation to meeting our obligations towards our employees. The loss of, or our inability to hire, retain, train, and motivate qualified personnel could adversely affect our business, results of operations and financial condition.
8. We have had negative cash flows (including cash flows generated from our operating activities) in the recent past and may, in the future, experience similar negative cash flows.
9. We propose to utilize a portion of the Net Proceeds to undertake inorganic growth through acquisitions for which the target(s) are yet to be identified, and may not be identified until the listing and trading of the Equity Shares, and which acquisitions may not be successfully concluded. As on the date of this Red Herring Prospectus, we have not entered into any definitive arrangements or identified any targets towards any of our future acquisitions. If the Net Proceeds proposed to be utilized towards funding inorganic growth through acquisitions are insufficient for the cost of our proposed acquisitions and other strategic initiative, we may have to seek alternative forms of funding.
10. We rely on third-party service providers including data centers and cloud computing providers, and any interruption or delay in service from these facilities could impair the delivery of our products and adversely impact our business and results of operations. Further, any increase in fee charged by such service providers may have an adverse impact on our profitability.

Investors are advised to read the risk factors carefully before taking an investment decision in the Offer. For further details on the afore-mentioned risk factors, please see, “*Risk Factors*” on page 34.

### Summary of Contingent Liabilities of our Company

The following is a summary table of our contingent liabilities as at September 30, 2025 as per Ind AS 37 as derived from the Restated Consolidated Financial Information

(₹ in million)

S. No.	Particulars	As at September 30, 2025
1.	Bank guarantees outstanding	3.91

*Note: The Honourable Supreme Court of India in the month of February 2019 had passed a judgement relating to definition of wages under the Provident Fund Act, 1952. The management is of the view that there are interpretative challenges on the application of the judgement retrospectively. In the absence of reliable measurement of the provision for earlier periods/years, the Company has made a provision for provident fund contribution pursuant to the judgement only from the date of Supreme Court Order. The Company will evaluate its position and update its provision, if required, on receiving further clarity on the subject. The Company does not expect any material impact of the same.*

For further details, see “*Financial Statements – Restated Consolidated Financial Information - Note 34 – Contingent Liabilities*” and “*Risk Factors - We have contingent liabilities and our financial condition could be adversely affected if any of these contingent liabilities materialize*” on pages 444 and 73 respectively.

## SECTION II: RISK FACTORS

*An investment in equity shares involves a high degree of risk. Investors should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. We have described the risks and uncertainties that we believe are material, but these risks and uncertainties may not be the only risks relevant to us, the Equity Shares, or the industry in which we currently operate or propose to operate in. Additional risks and uncertainties, not currently known to us or that we currently do not deem material may also adversely affect our business, results of operations, cash flows and financial condition. The risks set out in this section may not be exhaustive and additional risks and uncertainties, not currently known to us or that we currently do not deem material, may arise or may become material in the future and may also adversely affect our business, results of operations, cash flows, financial condition and/or prospects. If any of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment. In order to obtain a complete understanding of our Company and our business, prospective investors should read this section in conjunction with “Our Business”, “Industry Overview”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, “Key Regulations and Policies” and “Financial Information” on pages 268, 229, 467, 325 and 391, respectively, as well as the other financial and statistical information contained in this Red Herring Prospectus. In making an investment decision, prospective investors must rely on their own examination of us and our business and the terms of the Offer including the merits and risks involved. Potential investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Offer. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. Unless the context otherwise indicates, all references to the terms “we”, “us” and “our” are to our Company and our Subsidiaries on a consolidated basis. Our Financial Year commences on April 1 and ends on March 31 of the subsequent year, and references to a particular Financial Year are to the 12 months ended March 31 of that year.*

*During Fiscal 2025, we changed our business model for campaign services and entered into new arrangements with our service providers pursuant to which, we act as an agent and not as a principal for campaign services transactions. Accordingly, the revenue generated from campaign services during the six-month period ended September 30, 2025, September 30, 2024 and Fiscal 2025 has been recorded on a net basis (i.e., net of cost of campaign services) in our Restated Consolidated Statement of Profit and Loss. However, in Fiscal 2024 and Fiscal 2023, income from cost of campaign services was recognized on a gross basis as we acted as principals for campaign services transactions. Accordingly, the corresponding cost of campaign services was recognized as an expense in our Restated Consolidated Statement of Profit and Loss for the said periods/Fiscals. Unless the context indicates otherwise and to ensure comparability of revenue from operations for the periods/years presented in our Restated Consolidated Financial Information, ‘Net Revenue’ (defined as revenue from operations less cost of campaign services) has been disclosed for all the presented periods/years in the section “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 467. Any reference in this section to ‘Revenue’ or ‘revenue from operations’ is to revenue from operations as appearing in our Restated Consolidated Financial Information while any reference to ‘Net Revenue’ is to revenue from operations less cost of campaign services. Unless otherwise indicated or the context otherwise requires, the financial information included in this Red Herring Prospectus for the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 are derived from our Restated Consolidated Financial Information (collectively referred to as the “**Restated Consolidated Financial Information**”). For further information, see “Certain Conventions, Use of Financial Information, Industry and Market Data and Currency of Presentation – Financial and Other Data” on page 17. Our financial year commences on April 1 and ends on March 31, and references to a particular financial year are to the 12 months ended March 31 of that year.*

*Unless otherwise indicated, industry and market data used in this section has been derived from industry publications, in particular, the report titled “Customer Loyalty and Engagement Software Market Overview” dated October, 2025 (the “**Zinnov Report**”), exclusively prepared and issued by Zinnov who was appointed pursuant to the engagement letter dated February 19, 2025, and exclusively commissioned by and paid for by our Company in connection with the Offer. ## Internal Risk Factors

1. **We generate a significant portion of our revenues from a limited number of customers. Our top five and top 10 customers contributed to 38.60% and 55.70% of our revenue from operations in the six-month period ended September 30, 2025, and 43.35% and 58.71%, in Fiscal 2025, respectively. Any loss or reduction of business or termination of contracts from/by these customers could reduce our revenues and materially adversely affect our business, results of operations, financial condition, and cash flows.**

We have derived and may, in the foreseeable future, continue to derive a significant portion of our revenues from a limited number of customers. Set forth below are certain details regarding revenues derived from our top customer, top five customers and top ten customers for the periods/years indicated:

Our ability to maintain ongoing relationships with these customers is essential to the growth and profitability of our business. Services and solutions we provide to customers, and revenues generated from those services, may decline or vary as per the varying needs of our customers. A major customer in one year may not provide the same level of revenues for us in any subsequent year. The loss of one or more key customers for any reason, such as an inability to negotiate acceptable terms, disputes, customers adverse financial changes like bankruptcy, mergers, declining sales, delayed requirements, or work stoppages, could negatively impact our business, operations, and financial condition. There have been instances in the six-month period ended September 30, 2025 and the past three Fiscals, wherein we experienced reduction in revenues from a customer due to uncontrollable factors such as pause / temporary intermission of program. For instance, in Fiscal 2024, a credit card issuer that partnered with one of our customers, an automobile manufacturer acquired through our *Rewards+* Acquisition, stopped its consumer lending business. This impacted our customer's ability to run its card loyalty program. Consequently, our contract with this customer was not renewed, leading to a revenue reduction of ₹153.64 million in Fiscal 2025 for our Subsidiary, Capillary Brierley. We cannot assure you that we will not be adversely affected in the future due to such uncontrollable factors.

The agreements we enter into with our customers are renewed/ auto-renewed, either on an annual basis or in some cases are for a period of three to ten years or unless terminated by either party to an agreement. The minimum term of contracts with our top 10 customers during the six-month period ended September 30, 2025 and Fiscal 2025 was three years. Therefore, we must seek to obtain new engagements when our current engagements are successfully completed or are terminated as well as maintain relationships with existing customers and secure new customers to expand our business. Further, while there have been no material instances of termination of contract prior to completion of the term or loss of or reduction in revenues from our repeat customers in the six-month period ended September 30, 2025 and in the past three Fiscals, the loss or diminution in business from any of our customers primarily repeat customers could have a material adverse effect on our revenue from contracts with customers and results of operations. We may not be able to renew our contracts on favourable terms or at all, or to replace any customer that elects to terminate or not renew its contract with us, which could materially and

adversely affect our business, financial condition, cash flows and results of operations. Further, terminations or delays in engagements may make it difficult to plan our project resource requirement.

Further, a number of factors other than our performance could cause the loss of or reduction in business or revenues from a customer, and these factors are not predictable. For example, a customer may decide to reduce spending on technology services or sourcing from us due to a challenging economic environment or other factors, both internal and external, or relating to its business, may be involved in a litigation or may wind up. Further, factors which are not in our or our customers' control such as the socio-political situation in a particular country or the outbreak of a contagious disease may also impact our business adversely. These factors, among others, may include customers pursuing a corporate restructuring, facing pricing pressure, changing outsourcing strategy, switching to other providers or moving such work in-house. While we have not had any such instances during the six-month period ended September 30, 2025 and in the last three Fiscals, we cannot assure you that such instances will not impact us in the future. The loss of any of our major customers, or a significant decrease in the volume of services we provide or the price at which we sell our services to them could materially adversely affect our business, results of operations, financial condition, and cash flows.

**2. We derive a significant portion of our revenue from customers located in North America. In the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 our revenue from the customers located in North America accounted for 56.01%, 57.20%, 56.59%, 48.09% and 20.00%, respectively, of our revenue from operations. Any adverse developments in North America could adversely affect our business, results of operations, cash flows and financial condition.**

We derived a significant portion of our revenue from operations from customers located in North America in the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023. Further, as part of our growth strategies, we intend to further expand our presence in the United States and pursue further acquisitions in North America. The table below sets forth the details of our revenues based on the location of our customers, and also expressed as a percentage of our revenue from operations, for the periods/years indicated:

(1) North America includes United States, Mexico and Canada.

(2) Asia-Pacific includes India, South-East Asia and Japan.

(3) EMEA includes the Middle East and European Union.

The contribution of our customers in North America to our overall revenue in the six-month period ended September 30, 2025 and the last three Fiscals has increased significantly. Specifically, pursuant to our acquisition, in September 2021, of Persuade Loyalty, LLC (renamed to Capillary Technologies LLC) and Persuade Holdings, Inc. (which was since wound-up on June 2, 2023) (together “**Persuade Group**”), we have experienced significant growth in North America. For further information, see “ – We have undertaken, and may continue to undertake strategic acquisitions, which we may fail to integrate efficiently and which may not perform in line with our expectations or may be prone to other contingencies.” on page 43. Persuade Group’s revenues increased as indicated below in such periods/years.

We also acquired Brierley and Partners, Inc. (*renamed as Capillary Brierley Inc.*) (“**B+P**”) in April 2023 and Kognitiv in May 2025 operating primarily in the North American markets.

Concentration of our revenues from North America heightens our exposure to adverse developments related to competition, as well as economic, political, regulatory circumstances including on account of any on-going economic slowdown and inflationary trends. Further, any political and social uncertainty in North America may cause capital flows and domestic investment to become more volatile. Any adverse development that affects the overall economy of North America or sectors or industries in which our customers operate, could have an adverse effect on our business, cash flows, financial condition and results of operations. While there have not been any adverse developments in the North American market that have had an impact on our business and results of operations during the six-month period ended September 30, 2025 and the last three Fiscals, we cannot assure you that such instances will not arise in the future.

Further, deterioration of financial condition or business prospects of our customers located in North America could reduce their requirement for our services and result in a significant decrease in the revenues we derive from these customers. The table below sets forth details of our revenue from top 10 customers located in the North America for the periods/years indicated, which are also expressed as a percentage of our revenue from operations:

Particulars	Six-month period ended September 30, 2025		Six-month period ended September 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)

We cannot assure you that we will be able to maintain historic levels of business from our customers located in North America and particularly in the United States, or that we will be able to reduce geographic concentration in the future.

**3. We may be unable to attract new customers in a cost-effective manner which may adversely affect our business, cash flows, results of operations and financial condition.**

In order to grow our business, we must continue to attract new customers in a cost-effective manner and enable such customers to realise the benefits associated with our platform, products and solutions, so that we get sufficient opportunity to further enhance these relationships and generate continuous revenue from such customers. However, customer acquisition costs may be high, and certain engagements, particularly with smaller customers may initially yield limited revenues. If such customers do not scale their engagement with us, or if we are unable to increase transaction volumes or pricing, we may be unable to recover our acquisition costs, affecting our profitability.

Set forth are certain details regarding our customer base as of the dates indicated:

Particulars	September 30, 2025	March 31, 2025	March 31, 2024	March 31, 2023
Number of customers	110	98	111	112

Number of brands	413	393	398	339

Set forth are certain details regarding our customer acquisition cost for the periods/years indicated:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023

(1) Customer acquisition cost is computed as is computed sales and marketing spends plus / (minus) the loss / (profit) earned on installation income.

(2) Customer acquisition cost, as a percentage of Net Revenue (%) is calculated as sales and marketing spends plus / (minus) the loss / (profit) earned on installation income divided by Net Revenue multiplied by 100 for the respective period/Fiscal.

Our New Annual Contract Value or New ACV, i.e., computed as aggregate of all annual recurring revenues contracted during the respective Fiscal, where annual recurring revenues represent the active recurring contract values over a twelve month period from licensed subscriptions and committed professional services, have also increased over the six-month period ended September 30, 2025 and September 30, 2024 and the last three Fiscals which may not be sustainable if we are unable to retain our existing customers. Set forth below are details of our New ACV:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023
New ACV (₹ million)	386.96	311.36	1,223.59	1,145.92	578.65

Further our growth strategy involves, in part, upon increasing sales of our offerings to new and existing Enterprise Customers, which we define as customers contributing more than ₹ 4.00 million in revenue from operations in the six-month period ended September 30, 2025 and September 30, 2024 and ₹ 8.00 million in revenue from operations in a Fiscal. These customers play a key role in our growth strategy but may present additional risks such as higher expectations, longer sales cycles, and greater negotiation leverage. Our results of operations depend in part on sales to Enterprise Customers. These customers also generally have multiple requirements for enhancing the consumer experience. Set forth below are details of our revenues derived from Enterprise Customers in the corresponding periods/years:

Particulars	Six-month period ended September 30, 2025		Six-month period ended September 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)	Revenue (₹ million)	Percentage of Revenue from Operations (%)
Revenue from Operations from Enterprise Customers	3,528.57	98.23%	2,793.18	97.26%	5,818.44	97.26%	5,125.64	97.61%	2,342.97	91.75%

Customer retention continues to be a pressing challenge across industries, with each sector experiencing unique pain points that hinder sustained engagement. Solving retention isn't just about solving churn—it's about building enduring, personalized relationships at scale, which may have an impact on the cost of customer retention. We have also expanded into new verticals in the six-month period ended September 30, 2025 and the last three Fiscals such as healthcare with an American healthcare company as our customer that provides technology services, CPG with Polycab India Limited ("Polycab") and an Indian adhesives manufacturing company and BFSI with a European bank offering financial services focused on supporting personal and business growth. Our transaction volumes with customers in new industry verticals generally start out lower and if such businesses do not grow, if we are unable to set our prices higher and if we are unable to increase our transaction volumes with such

customers, we may not be able to recoup the costs of our growth strategy, which would adversely impact our business, results of operation, and financial condition. For instance, in Fiscal 2024, we entered into a five-year contract with a passenger airline company. For the first year, the annual license fee is fixed, regardless of the number of loyalty transactions. In the second and third years, the fee is fixed for up to five million transactions, with additional fees for any transactions beyond this threshold. For the fourth and fifth years, the fixed fee and minimum transaction commitment will be mutually agreed upon before the fourth year begins, based on the program's performance in the first three years.

In addition, for Enterprise Customers we face competition from other companies offering solutions that traditionally target Enterprise Customers, service providers, and government entities and that may have pre-existing relationships or purchase commitments from such customers. In addition, Enterprise Customers leverage increased purchasing power in negotiating contractual arrangements with us; require us to include more stringent requirements in our worldwide support contracts, such as stricter support response times and penalties for any failure to meet support requirements; and longer sales cycles, particularly during periods of economic slowdown which result in increased sales cycle and the associated risk that substantial time and resources may be spent on a potential customer that elects not to purchase our offerings. There have been instances in the six-month period ended September 30, 2025 and the past three Fiscals wherein we lost certain Enterprise Customers. For instance, we lost three Enterprise Customers in Fiscal 2023, including a Switzerland based biotechnology company due to a combination of cost considerations and organizational changes, an established Indian shoe company which discontinued our services after transitioning to a different platform and a conglomerate in Vietnam which opted to build and use their own internal solution, consequently leading to a loss of revenue of ₹40.00 million, ₹35.10 million and ₹11.49 million, respectively, in Fiscal 2024. Further, we lost one Enterprise Customer each in Fiscal 2024 and 2025, including an ethnic wear clothing brand in India which discontinued our services after transitioning to a different platform leading to a loss of revenue of ₹9.19 million in Fiscal 2025 and an American children's magazine which disengaged from loyalty programs leading to a loss of revenue of ₹16.91 million in Fiscal 2026. While the afore-mentioned instances did not materially impact our financial condition, we cannot assure you that our business, financial condition and results of operations will not be adversely affected in the future due to such instances. Further, we may not be able to attract new customers for a variety of reasons, including as a result of their use of traditional approaches to customer relationship management, lack of willingness of customers to adopt loyalty programmes, internal timing or budget or the pricing of our products and solutions compared to products and services offered by our competitors. After a customer makes a decision to purchase or subscribe to our products, we also typically help them implement our platform and products within their organisation, including providing training and addressing their technological needs, and these processes in certain cases may involve significant onboarding time before we start recognizing revenue from such customers. See also, “ – *Our success is dependent on our ability to develop and innovate our platform, products and solutions in a cost efficient and timely manner. Any failure to do so or inability of our products/solutions to satisfy our customers or perform as desired could adversely impact our business, results of operations, cash flows and financial condition.*” on page 40.

**4. *Our success is dependent on our ability to develop and innovate our platform, products and solutions in a cost efficient and timely manner. Any failure to do so or inability of our products/solutions to satisfy our customers or perform as desired could adversely impact our business, results of operations, cash flows and financial condition.***

The attractiveness of our platform, products and solutions depends on our ability to innovate. To remain competitive, we must continue to develop and expand our product and service offerings. We must also continue to enhance and improve our data analytical capabilities, platform interface and technology infrastructure. We have in recent times dedicated a considerable amount of our research and development expenditure on machine learning and predictive AI-based technologies. For instance, our investments in aiRA, our AI research assistant, launched in May 2023 with subsequent releases and adoption covering functionalities like automated campaign setup, AI-powered filters that help our customers analyse and predict transactions, lapses, responses and time slots.

\* Represents overall investment made by us in research and design, product and platform development and maintenance including investment in maintenance of platform, non manpower costs such as software subscription and other tool charges as well as manpower costs for research and design and product and platform development. The expenditure in relation to manpower cost for research and design and product and platform development through employees and professionals engaged by us through third party agencies is ₹ 219.85 million, ₹ 247.67 million, ₹ 507.86 million, ₹346.98 million and ₹ 270.65 million in the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 respectively.

These efforts may require us to develop internally, or to obtain license for, increasingly complex technologies. In addition, new products and services and technologies developed and introduced by competitors could render our products and services obsolete if we fail to upgrade existing products, services and technologies. While there have not been any such instances during the six-month period ended September 30, 2025 and in the last three Fiscals where introduction of new products by our peers or rivals have led to our products being rendered obsolete, there have been instances where our products were rendered unsustainable. For instance, *Anywhere Commerce+* as a product is being discontinued owing to unsustainable scale of e-commerce operations due to competition from companies in the same industry, pursuant to which our Company has derecognized net carrying value of assets of ₹ 6.49 million in Fiscal 2025. There can be no assurance that such instances will not occur in future thereby rendering our products obsolete or unsustainable.

Developing and integrating new products, services and technologies into our existing platform and infrastructure may be expensive and time-consuming. Furthermore, any new features and functions may contain undetected errors and may not achieve market acceptance at introduction. The average time taken by us to develop new products varies based on the product. Further, we carry out continuous improvements to its existing products to release different versions and enhancements of such products. We may experience delays while developing and introducing new products and services for a variety of reasons, some of which may be beyond our control, such as difficulties in developing models, acquiring data and adapting to particular operating environments. While there have not been any instances during the six-month period ended September 30, 2025 and in the last three Fiscals where there has been a delay in developing new products, there have been a few instances in the past where there have been delays in implementation of software, resulting in loss in revenue from contract with customers, particularly in cases where our revenues commence from the day where our customers' operations go-live. For instance, in Fiscal 2025 where delay in implementation of a software impacted the go-live date thereby resulting in loss in revenue from operations of ₹ 154.37 million in Fiscal 2025. We cannot assure you that such instances will not occur in the future. Further, if customer personnel are not well-trained in the use of our platform and products, customers may defer the deployment of our platform, products and services, may deploy them in a more limited manner than originally anticipated, or may not deploy them at all. In addition, once a product is developed, we make continuous enhancements to such products. We may not succeed in incorporating new technologies or may incur substantial expenses in order to do so. If we fail to develop, introduce, acquire or incorporate new features, functions or technologies timely and effectively, our products and services may lose appeal, be rejected or experience delayed acceptance by the market. Consequently, our business, financial performance and prospects could be materially and adversely affected.

In addition, if our customers do not use our platform and products as intended, it may result in inadequate performance or outcomes of our platform. It is possible that our platform and products may also be intentionally misused or abused by customers or their employees or third parties who obtain access and use of our platform and products. Our customers could misuse our Software as a Service ("SaaS") solutions by, among other things, transmitting negative messages or website links to harmful applications, sending unsolicited commercial email, reproducing and distributing copyrighted material without permission, reporting inaccurate or fraudulent data and engaging in illegal activity. Any such use of our suite of SaaS solutions could damage our reputation and could subject us to claims for damages, defamation, negligence or fraud. We rely on contractual representations made to us by our customers that their use of our SaaS solutions will comply with our policies and applicable law. While

there have been a few instances with no financial impact during the six-month period ended September 30, 2025 and in the last three Fiscals, we cannot assure you that such instances will not occur in the future or will not have financial impact. Corrective action taken by us included adding an additional layer of fraud detection rule engine which helped in detecting multiple entries of a single mobile number and also introduced a one-time password lead verification of mobile numbers. Even if claims asserted against us do not result in liability, we may incur substantial costs in investigating and defending against such claims, or our reputation may be damaged. If we are found liable in connection with our customers' activities, we could be required to pay fines or penalties, redesign our SaaS solutions or otherwise expend resources to remedy any damages caused by such actions and to avoid future liability.

5. ***We have incurred losses of ₹68.22 million in the six-month period ended September 30, 2024 and ₹593.78 million in Fiscal 2024 and ₹877.19 million in Fiscal 2023 and certain of our Material Subsidiaries have also incurred losses in the past and we may experience losses in the future which could result in an adverse effect on our business, cash flows and financial condition.***

Our Company and some of our Subsidiaries have incurred losses in the past and may experience losses in the future. The following table sets forth our profits / (losses) on a consolidated basis and for our Material Subsidiaries for the periods/years indicated:

\*\*Capillary Europe was acquired on April 1, 2023. Therefore, the financial information for Fiscal 2023 is not available. Capillary Brierley was acquired on April 1, 2023. Therefore, the financial information for Fiscal 2023 is not available.

Note: Our other Material Subsidiary, namely Capillary Pte. Ltd., has not incurred losses in any of the last three Fiscals and thus has not been included in the above table.

Our loss was primarily on account of investments done during the six-month period ended September 30, 2024, Fiscal 2024 and Fiscal 2023 primarily in our sales and marketing function to expand our presence in North America by acquiring new customers, along with increased investment in technology research, development and maintenance functions to expand our contribution from new industry verticals such as energy retail, consumer packaged goods, healthcare and BFSI and telecommunications.

Our technology research, development and maintenance cost as a percentage of revenue from operations increased during the said periods/ years as set forth below:

\* Includes cost towards maintenance of platform, software subscription and other tool charges in addition to research and development expenditure on employees and professionals engaged by us through third party agencies. The above represents the charge made to our Restated Consolidated Statement of Profit and Loss on account of the above, due to which our profitability was impacted for the respective Fiscals.

Set forth below are certain details regarding our sales and marketing expenditure for the periods/ years indicated:

For further information, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Results Of Operations For the six-month period ended September 30, 2025 and September 30, 2024 and Fiscal 2025, 2024 And 2023” on page 496.

While we have turned profitable in Fiscal 2025, our costs may increase over time and our losses may recur given that we expect to make investments towards growing our business and in product development. These efforts may be costlier than we expect and may not result in increased revenue or growth in our business. In order to improve profitability, we deployed a strategy to pivot our business to focus on Enterprise Customers and transition from lower margin, high service expectation customers, mid-market and small and medium-sized customers. However, any failure to increase our revenue sufficiently to keep pace with our investments and other expenses could prevent us from maintaining or increasing profitability or positive cash flow on a consistent basis. If we are unable to successfully address these risks and challenges as we encounter them, our business, cash flows, financial condition and results of operations could be adversely affected. If we are unable to generate adequate revenue growth and manage our expenses and cash flows, we may incur significant losses in the future.

**6. We have undertaken, and may continue to undertake strategic acquisitions, which we may fail to integrate efficiently and which may not perform in line with our expectations or may be prone to other contingencies.**

In the past, we have made acquisitions with the objective of expanding our service capabilities and gaining access to new customers. Further, as part of our growth strategy, we are focused on evaluating opportunities to grow through inorganic means. Set forth below are the acquisitions done by us in the six-month period ended September 30, 2025 and the last five years.

\* Kognitiv includes acquisition of shares of Kognitiv Solutions Inc., incorporated in Canada and assets consisting of business intellectual property rights of Loyalty Solutions Holdings US Inc. and certain assets and liabilities of Kognitiv US LLC with effect from May 1, 2025.

<sup>^</sup> We developed a new product named Rewards+, utilising the assets of Digital Connect business acquired from Tenergy LLC.

<sup>#</sup> The entity was closed on June 2, 2023 on account of internal restructuring and there was no continuing business in the entity.

These acquisitions complement and synergise with our existing product and service offerings, thereby providing us with new capabilities to serve our existing consumers and acquire new customers.

Further, the assets of Digital Connect business acquired from Tenergy LLC in June 2023 has given us entry into the EU market, a region with significant growth potential for loyalty and customer engagement solutions and the acquisition of Kognitiv in 2025 has enabled us to penetrate further in the North American market. For further information of such investments and acquisitions, see “History and Certain Corporate Matters – Major events and milestones” and “Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamation, any revaluation of assets, etc., in the last 10 years” on pages 338 and 340, respectively. Some of these entities or businesses were loss making at the time of the acquisition and could drain our resources, if we

are unable to successfully grow these businesses in a profitable manner. Set forth below are the key financial parameters of the loss making companies acquired by us in the six-month period ended September 30, 2025 and September 30, 2024 and the last three Fiscals.

\*\*Acquired in Fiscal 2023 and thus audited financial information for such Fiscal is not available.

Further, *Anywhere Commerce+* as a product has been discontinued owing to the unsustainable scale of e-commerce operations as a result of competition from businesses in similar lines of business. Moreover, our digital business acquired through the Persuade Group acquisition has been discontinued in Fiscal 2025 pursuant to our focus on scaling enterprise-grade loyalty solutions. For more information, please refer to “*Management’s Discussion and Analysis of Financial Condition and Results of Operations - Fiscal 2025 Compared To Fiscal 2024 - Discontinued Operations*” on page 495. Such instances in the future, could be very time-consuming, expensive and could divert our management’s attention and other resources. While there have not been any past acquisitions, strategic alliances or investments by our Company or our Subsidiaries that have caused any disruption in their business, there can be no assurance that future acquisitions, strategic alliances or investments by our Company or our Subsidiaries will not result in any disruption to the business.

In the future, we may invest in additional businesses or acquire services/ businesses from entities that we believe could complement or expand our business. However, integrating the operations of these businesses successfully or otherwise realizing any of the anticipated benefits of such investments, including anticipated cost savings and additional revenue opportunities, involves a number of potential challenges. In the past there have been certain instances of challenges pursuant to certain acquisitions. For instance, the acquired customers might not agree to migrate due to the migration plans not being in accordance with the acquired customers’ expectations and we have had instances in the past where one of our customers involved in affordable luxury jewellery business in North America acquired pursuant to an acquired entity has refused to migrate to our platform, thereby resulting in potential non-renewal of their contract with us, there can be no assurance we will be able to integrate our future acquisitions without any such difficulties. Also, we may be unable to continue acquiring new companies in a cost-efficient manner in the future and these activities may be time-consuming, and we may encounter unexpected difficulties or inefficiencies or incur unexpected costs, including: our inability to achieve the operating synergies anticipated; diversion of management attention from on-going business concerns to integration matters; unforeseen or undisclosed liabilities and integration costs; incurring liabilities from such businesses for infringement of intellectual property rights or other claims for which we may not be successful in seeking indemnification; failing to realize the potential cost savings or other financial benefits and/or the strategic benefits of the investment; and entry into unfamiliar markets.

Target businesses may have liabilities or adverse operating issues that we may have failed to discover through due diligence prior to the investment. In particular, to the extent that prior owners of any businesses or properties failed to comply with or otherwise violated applicable laws or regulations, or failed to fulfil their contractual obligations to customers, we, as the successor, may be financially responsible for these violations and failures and may suffer financial or reputational harm or otherwise be adversely affected. As a result, if we fail to properly evaluate acquisitions or investments, we may not achieve the anticipated benefits of any such acquisitions, and we may incur costs in excess of what we anticipate. The failure to successfully integrate the operations or otherwise to realize any of the anticipated benefits of the investment/ acquisition could have an adverse effect on our business, results of operations, financial condition and cash flows.

**7. We are significantly dependent on our employees for our business operations (including for design, development and maintenance of our products and platform, customer acquisition and retention) and we incur significant expenses in relation to meeting our obligations towards our employees. The loss of, or**

***our inability to hire, retain, train, and motivate qualified personnel could adversely affect our business, results of operations and financial condition.***

Our ability to compete in the highly competitive technology industry depends upon our ability to attract, motivate, and retain qualified personnel. The research, design, development and maintenance of our products and platform is heavily dependent on our engineers, product managers and data scientists for understanding client needs and delivering customised solutions, interpreting complex customer data and translating into strategies and driving innovation to deliver complex AI based solutions. Thus, our employees are central to our business where innovation is key. Set forth below are the details of our employee base and the attrition rate for our employees for the period/years indicated:

Particulars	Six-month period ended September 30, 2025	Fiscal 2025	Fiscal 2024	Fiscal 2023

Number of employees exited	62	129	131	137
Attrition Rate*	8.91%	19.03%	20.89%	25.42%

\*Attrition rate is calculated as number of employees who left during a specific period divided by the average number of employees during that period.

\*\*Represents numbers of employees as at the end of the period/Fiscal.

The loss of the services of our key personnel and any of our other executive officers, and our inability to find suitable replacements, could result in a decline in sales, delays in product development, and harm to our business and operations. While we have a business succession policy to ensure availability of individuals to assume leadership roles in a time of need, mitigate risk associated with the loss of experienced leadership and to ensure that operations continue to run smoothly after the business' important people move on to new opportunities, retire or pass away, we cannot guarantee that we will be able to recruit and retain qualified and capable employees. We may incur significant costs to attract and recruit skilled personnel. A substantial portion of our expenses is attributable to employee benefits. These include salaries, wages and bonus, gratuity expenses, share based payments, contribution to provident and other funds, and staff welfare and training and recruitment expenses. In particular, our employees including engineers, technology and product managers, and sales and marketing professionals are instrumental in understanding client needs, interpreting complex customer data, and delivering customised, AI-driven solutions. Innovation is central to our business model, and our employees are key drivers of that innovation. We have incurred significant employee benefit expenses in recent periods/ years, and we expect these costs to continue to be substantial as we scale our operations and compete for talent. Set forth below are the details of expenditure incurred by us towards our employee base in the six-month period ended September 30, 2025 and September 30, 2024 and in the last three Fiscals:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023

<sup>##</sup> Excludes research and design expenditure on professionals engaged by us through third-party agencies.

Any increase in our employee cost, whether due to market competition, inflationary pressures, regulatory changes, or the need to offer more attractive compensation packages, could adversely affect our profitability. Moreover, if we are unable to effectively manage these costs or maintain a motivated and high-performing workforce, our business, financial condition, and results of operations could be materially and adversely impacted. While there have not been any such instances during the six-month period ended September 30, 2025 and in the last three Fiscals, we cannot assure you that we will not be adversely impacted in the future. Given how we have expanded

and with the introduction and amendment of various labour and employment related legislations that apply to our operations, our employee benefit expenses may increase in future. For further information, see “Key Regulations and Policies” and “Key Regulations and Policies - Laws Applicable to our Material Subsidiaries” on pages 325 and 331. Any increase in our employee benefit expense without a corresponding increase in our revenues could have an adverse impact on our business, financial condition, results of operations and cash flows. Further, as we continue to expand our operations and also move into new geographies, we will need to attract and recruit skilled personnel in those geographic areas, but it may be challenging for us to find the right resources at efficient cost and compete with traditional local employers in these regions for skilled talent. If we fail to attract new personnel or fail to retain and motivate our current personnel who are capable of meeting our growing technical, operational, and managerial requirements on a timely basis or at all, our business may be adversely affected.

**8. We have had negative cash flows (including cash flows generated from our operating activities) in the recent past and may, in the future, experience similar negative cash flows.**

We have experienced negative cash flows from operating activities in the six-month period ended September 30, 2024 and Fiscal 2025 and Fiscal 2023. The following table sets forth information relating to our cash flows in the six-month period ended September 30, 2025 and September 30, 2024 and in last three Fiscals:

Particulars	Six-month period ended September 30,		Fiscal		
	2025	2024	2025	2024	2023
	(₹ million)				
Net cash generated from / (used in) operating activities	554.60	(534.62)	(461.99)	971.35	(200.58)
Net cash (used in) / generated from investing activities	(1,973.41)	(694.53)	635.78	(1,845.25)	(936.19)
Net cash (used in) / generated from financing activities	(181.10)	(370.81)	132.59	2,177.61	1,365.72

Negative cash flows from operating activities in the six-month period ended September 30, 2024, Fiscal 2025 and Fiscal 2023 were on account of negative working capital changes. The working capital adjustments of ₹ (867.11) million and ₹ (1,263.90) million in the six-month period ended September 30, 2024 and Fiscal 2025, respectively, were primarily on account of increase in trade receivables, other financial assets and other assets by ₹ 341.00 million and ₹ 421.80 million in the six-month period ended September 30, 2024 and in Fiscal 2025, respectively, and decrease in non-current and current other financial liabilities. This was largely driven by a reduction in contract liabilities - deferred revenue by ₹ 411.07 million and ₹ 575.92 million for the six-month period ended September 30, 2024 and Fiscal 2025, respectively, due to annual upfront billing to a customer in the last quarter of Fiscal 2024. The working capital adjustment of ₹ (294.88) million in Fiscal 2023 were primarily on account of increase in trade receivables by ₹ 289.29 million, primarily due to accumulation of certain receivables falling due in the next fiscal in accordance with contractual billing schedules.

Further, our cash flows from operating activities improved to ₹ 971.35 million in Fiscal 2024 due to increase in revenue from operations from ₹ 2,553.72 million in Fiscal 2023 to ₹ 5,251.00 million in Fiscal 2024, primarily due to an increase in retainership and other services from ₹ 1,564.31 million in Fiscal 2023 to ₹ 4,021.29 million in Fiscal 2024 primarily due to acquisition of its Subsidiaries, B+P and the Rewards+ Acquisition and organic growth through retention of existing customers and new customer acquisitions, and an increase in installation revenue from ₹ 419.56 million in Fiscal 2023 to ₹ 746.69 million in Fiscal 2024 primarily due to the aforementioned acquisitions and installation revenue from migration of acquired customers to its platform.

In addition, our restated loss before exceptional items and tax from continuing operations was ₹752.60 million and restated profit before tax from discontinued operations was ₹113.58 million during the Fiscal 2024, which is majorly set off by non-cash adjustment of depreciation and amortisation expenses amounting to ₹582.20 million. Additionally, favourable working capital movements contributed to the positive cash flow from operating activities. These included a decrease in trade receivables of ₹564.87 million, increase in other financial assets and other assets (current and non-current) of ₹705.71 million and increase in non-current and current other financial & other liabilities of ₹830.29 million.

For further information, see “Management Discussion and Analysis of Financial Condition and Results of Operation – Management’s Discussion and Analysis of Financial Conditions and Results of Operations – Cash Flows” on page 510.

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. We cannot assure you that our net cash flows will be positive in the future. If we experience negative cash flows in the future, our results of operations may be adversely affected.

**9. We propose to utilize a portion of the Net Proceeds to undertake inorganic growth through acquisitions for which the target(s) are yet to be identified, and may not be identified until the listing and trading of the Equity Shares, and which acquisitions may not be successfully concluded. As on the date of this Red Herring Prospectus, we have not entered into any definitive arrangements or identified any targets towards any of our future acquisitions. If the Net Proceeds proposed to be utilized towards funding inorganic growth through acquisitions are insufficient for the cost of our proposed acquisitions and other strategic initiative, we may have to seek alternative forms of funding.**

We propose to utilize ₹[●] million from the Net Proceeds, constituting [●]% of our Net Proceeds, towards funding inorganic growth through acquisitions and general corporate purposes as set forth in “*Objects of the Offer – Funding inorganic growth through unidentified acquisitions and general corporate purposes*” on page 170. As on the date of this Red Herring Prospectus, we have not entered into any definitive arrangements or identified any targets towards any of our future acquisitions. Although we have identified broad aspects based on which we intend to utilize the Net Proceeds towards this object, as on the date of this Red Herring Prospectus, we have not identified the specific acquisitions which will be undertaken by our Company. We will from time to time continue to seek attractive inorganic opportunities that may be within India, outside India or both, that we believe will fit well with our strategic business objectives and growth strategies. Further, it is also possible that we may not be able to identify suitable targets, or that if we do identify suitable targets, we may not be able to complete those transactions on terms commercially acceptable to us or at all and/or be able to complete all aspects of the acquisition process and/or receive relevant regulatory clearances (as applicable) in a timely manner or at all.

The amount of Net Proceeds to be used for each individual acquisition and/ or investments will be based on our management’s decision and may not be the total value or cost of any such investments, but is expected to provide us with sufficient financial leverage to pursue such investments in the future. The actual deployment of funds will also depend on a number of factors, including the timing, nature, size and number of acquisitions undertaken in a particular period, as well as general factors affecting our results of operation, financial condition and access to capital. These factors will also determine the form of investment for these potential acquisitions, i.e., whether they will be directly done by our Company or through investments in our Subsidiaries in the form of equity, debt or any other instrument or combination thereof, or whether these will be in the nature of partnerships or joint ventures. Acquisitions and inorganic growth initiatives may be undertaken as share-based transactions, including share swaps, or a combination thereof, or be undertaken as cash transactions.

Our inability to identify suitable targets and complete such transactions may adversely affect our competitiveness and growth prospects. Further, we will from time to time continue to seek attractive inorganic opportunities that will fit well with our strategic business objectives and growth strategies. The amounts deployed towards such initiatives may not be the total value or cost of such acquisitions or investments, resulting in a shortfall in raising requisite capital from the Net Proceeds towards such acquisitions or investments. While we cannot quantify the amount that will be used towards such initiatives as of the date of this Red Herring Prospectus since such amount will be computed upon determination of the Offer Price, upon conclusion of the book-building process and will be updated in the Prospectus prior to filing with the RoC, however, the cumulative amount to be utilized towards inorganic growth through acquisition and general corporate purposes shall not exceed 35% of the Gross Proceeds in compliance with the SEBI ICDR Regulations. Further, the amount utilized for our object of ‘*Funding inorganic growth through acquisitions*’ shall not exceed 25% of the Gross Proceeds in compliance with the SEBI ICDR Regulations. Further, the utilization of Net Proceeds towards funding inorganic growth through unidentified acquisitions and general corporate purposes shall be done in such a manner to ensure that we do not utilise more than 50% of the proceeds from Fresh Issue towards funding any capital expenditure (including towards funding the unidentified acquisitions). Consequently, we may be required to explore a range of options to raise requisite capital, if any, including internal accruals or debt financing from third party lenders or institutions. In the event we are unable to identify or conclude transactions for potential inorganic growth to the extent of ₹[●] million or a part thereof over a period of next three Fiscals from the date of listing or within such period as may be disclosed in the Prospectus, we may utilise the balance amount for any other purposes only in accordance with Sections 13(8) and 27 of the Companies Act, 2013. This will entail an authorisation by the shareholders in a general meeting by way of a special resolution to vary the object and an exit opportunity by our Promoter to the shareholders who do not agree to such proposal to vary the objects, in accordance with applicable laws. For further information, see “*Objects of Offer - Variation in Objects*” on page 178.

Our ability to achieve benefits from future strategic and inorganic growth opportunities, if any, will largely depend upon whether we are able to integrate the acquired businesses into the rest of our Company and/ our Subsidiaries, as applicable, in an efficient and effective manner. The integration and the achievement of synergies requires, among other things, coordination of business development and employee retention, hiring and training policies, as well as the alignment of products, sales and marketing operations, compliance and control procedures, and information and software systems. Any difficulties encountered in combining operations could result in higher integration costs and lower savings than expected. The failure to successfully integrate an acquired business or the inability to realise the anticipated benefits of such acquisitions could significantly increase our expenses, which, without a commensurate increase in total revenue, would lead to a decrease in net revenue.

In addition, acquired businesses may have unknown or contingent liabilities, including liabilities for failure to comply with relevant laws and regulations, and we may become liable for the past activities of such businesses. Further, we may be subject to various obligations or restrictions under the relevant transaction or shareholders' agreements which may, as the case may be, prevent us from disposing or acquiring shares in the subject entities, or force our Company to sell or acquire shares in the subject entities where it may not otherwise have decided to.

**10. We rely on third-party service providers including data centers and cloud computing providers, and any interruption or delay in service from these facilities could impair the delivery of our products and adversely impact our business and results of operations. Further, any increase in fee charged by such service providers may have an adverse impact on our profitability.**

Our technology infrastructure is built on a scalable, cloud-based architecture that allows our customers to process large volumes of data on a real-time basis and ensure high-speed, secure and stable performance on a large scale to accommodate and support the increased complexity and diversity of their business operations. Thus, adequate performance of the cloud infrastructure is key for our operations. We rely on external service providers to provide us cloud native services. We, from time to time, enter into private pricing agreements and arrangements with technology service providers for the provision of technology and cloud infrastructure services. For instance we through one of our Material Subsidiaries, Capillary Pte. Ltd had executed two private pricing addendums, with a prominent third-party cloud infrastructure provider (“**Service Provider**”) each dated September 22, 2023 one of which was amended through an amendment agreement dated October 30, 2024, (“**Erstwhile Technology Agreements**”), for a period of five years from October 1, 2023 until September 30, 2028, pursuant to which we had made annual spend commitment. However, given the increased usage requirement of technology and cloud infrastructure services over the historical years, two renewed private pricing addendums have been entered into with the Service Provider each dated September 30, 2025, (“**Technology Agreements**”), for a period of five years from October 1, 2025 until September 30, 2030, pursuant to which we have made the following annual spend commitment (“**Annual Commit**”) that applies to our Company and Subsidiaries:

Particulars	Contract year				
	October 1, 2025 to September 30, 2026	October 1, 2026 to September 30, 2027	October 1, 2027 to September 30, 2028	October 1, 2028 to September 30, 2029	October 1, 2029 to September 30, 2030
Spend Commitment (in USD million)	7.10	7.40	7.70	8.00	8.50
Spend Commitment (in ₹ million)	629.91	656.53	683.14	709.76	754.12

\* For the purposes of these estimations, a conversion rate of 1 USD = ₹88.72 as on September 30, 2025 has been considered.

The table below sets out the software and server charges, including our server, software and other tool charges paid to various external service providers for the six-month period ended September 30, 2025 and Fiscals 2025, 2024 and 2023, respectively, on a consolidated basis:

Any increase in the charges levied by external service providers could impact our profitability. Further, given that we serve our clients from third-party data centers and cloud computing providers located around the world, some of these facilities may be located in areas prone to natural disasters and may experience events such as earthquakes, floods, fires, severe weather events, power loss, computer or telecommunication failures, service outages or losses, and similar events. They may also be subject to break-ins, sabotage, intentional acts of vandalism and similar misconduct or cybersecurity issues, human error, terrorism, improper operation, unauthorized entry and data loss. In the event of significant physical damage to any of these data centers, it may take a significant period of time to achieve full resumption of our services, and our disaster recovery planning may not account for all eventualities. In addition, such third-party services and/or products may cause errors or defects in, or failures of, the services or solutions we provide. We may also incur significant costs for using alternative equipment or taking other actions in preparation for, or in reaction to, events that damage the data centers that we use. Although we carry business interruption insurance, it may not be sufficient to compensate us for the potentially significant losses, including the potential harm to the future growth of our business that may result from interruptions in our services or products.

Any impairment of our or our clients’ data or interruptions in the functioning of our offerings, whether due to damage to, or failure of, third-party data centers and cloud computing providers, may reduce our revenue, result in significant fines, cause us to issue credits or pay penalties, subject us to claims for indemnification and other claims, litigation or disputes, result in regulatory investigations or other inquiries, cause our clients to terminate their subscriptions and adversely affect our reputation, renewal rates and our ability to attract new clients. Further, while we have not experienced any termination of our arrangement with our third-party data centers in the past, we cannot assure you that this will not happen in the future. If for any reason our arrangement with one or more of the third-party data centers we use is terminated, we could incur additional expense in arranging for new facilities and support. In addition, the failure of the data centers to meet our capacity requirements could result in interruptions in the availability of our SaaS solutions or impair the functionality of our SaaS solutions, which could adversely affect our business. Our business operations will also be adversely effected if our existing and potential clients believe our services are unreliable or not secure.

**11. Our Statutory Auditors have included certain qualifications in relation to reporting on other legal and regulatory requirements which do not require any adjustments in the Restated Consolidated Financial Information, for the years ended March 31, 2025, March 31, 2024, and March 31, 2023. We cannot assure you that any similar or other qualifications, will not form part of our financial statements for the future fiscal periods, which could have an adverse effect on our reputation, the trading price of the Equity Shares, results of operations, cash flows and financial condition.**

Our Statutory Auditors have included certain qualifications which do not require any adjustments in the Restated Consolidated Financial Information, as at and for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 and included the following paragraphs in relation to reporting on other legal and regulatory requirements:

***For the year ended March 31, 2025***

*“In our opinion, proper books of accounts as required by law relating to the preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except that the back-up of the books of accounts and other books and paper maintained in electronic mode has not been maintained on servers physically located in India, on a daily basis by the Holding Company.*

*Based on our examination which included test checks, except for instance mentioned below, the Holding Company, in respect of financial year commencing on or after April 1, 2023, has used accounting software for maintaining its books of accounts which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, other than the consequential impact of the exceptions given below and furthermore, except for matters mentioned below, the audit trail has been preserved by the Holding Company as per the statutory requirements for record retention. The Holding Company has used an accounting software operated by a third-party service provider for maintenance of accounting records. In the absence of any information on existence of audit trail (edit logs) for any direct changes made at the database level in the 'Independent Service Auditor's Assurance Reports on the Description of Controls, their Design and Operating Effectiveness' [Type 2 report] issued in accordance with ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information and ISAE 3402, Assurance Reports on Controls at a Service Organization], we are unable to comment on whether the audit trail feature with respect to the database of this software was enabled and operated throughout the year.”*

***For the year ended March 31, 2024***

For further information, see, “**Restated Consolidated Financial Information – Annexure VII - Statement of Restated Adjustments to the Audited Consolidated Financial Statements**” on page 462. We cannot assure you that any similar qualifications or other matters, will not form part of our financial statements for the future fiscal periods, which could subject us to additional liabilities due to which our reputation and financial condition may be adversely affected.

**12. *If we experience a cyber security breach or other security incident or unauthorised parties otherwise obtain access to our customers' data or our data, our platform and products may be perceived as not being secure, our reputation may be harmed, demand for our platform and products may be reduced and we may incur significant liabilities.***

We collect, manage, store, transmit and otherwise process vast amounts of data including personally identifiable information (“PII”) as part of our business and operations and manage our data through third-party data centres that we use. We have in the past, in Fiscal 2019 been subject to phishing and malware attacks on our erstwhile Anywhere Commerce+ platform. While these attacks have not resulted in any adverse impact on our Company or resulted in any financial impact, they have resulted in service downtime. We may, in the future, continue to be subject to cybersecurity attacks by third parties or internally seeking unauthorised access to our data or to disrupt our ability to provide our platform and products.

While we have taken steps to protect the security of the information that we handle, including having a cyber security policy which contains a data recovery plan and a cyber liability insurance, ensuring that our operations are ISO certified and PCI and SOC II compliant, there can be no assurance that any security measures that we or our third-party service providers have implemented will be effective against current or future security threats. Our security measures or those of our third-party service providers could fail and result in unauthorised access to or use of our platform and products or unauthorised, accidental or unlawful access to, or disclosure, modification, misuse, loss or destruction of, our or our customers' data. A substantial portion of our business is with Enterprise Customers, who often require particular focus on data security, protection and privacy issues, and any actual or perceived cybersecurity breach or other security incident may have an especially large impact on the attractiveness of our platform and products to our customer base.

In addition, computer malware, computer hacking, fraudulent use, social engineering (such as, spear phishing attacks), ransomware, credential stuffing, denial of service attacks, supply chain attacks, and general malicious activity have become more prevalent, and such incidents or incident attempts may occur in the future. Any actual or perceived failure to maintain the performance, reliability, confidentiality, integrity, and availability of our platform and products to the satisfaction of our customers may harm our reputation and our ability to retain existing customers and attract new customers.

Customers who lose confidence in the security of our platform and products as the result of an actual or perceived cybersecurity breach or other security incident may curtail or stop using our services, which may cause our reputation to suffer or result in widespread negative publicity. Additionally, we may incur significant harm including legal and regulatory exposure, including governmental or third-party lawsuits, disputes, investigations, orders, regulatory fines, penalties for violation of applicable laws or regulations or other liabilities and negative financial impacts, which may have a material adverse effect on our business, results of operations and financial condition. In addition, we are also subject to onerous data protection and privacy laws such as the General Data Protection Regulation (“GDPR”) as well as other international and local regulations in these jurisdictions, breaches of which could cause significant losses and penalties adversely affecting our business, results of operations and financial condition. For further information, see “ – *We are subject to various Indian and international laws and regulations regarding privacy and data security, and we or our customers may be subject to regulations related to the handling and transfer of certain types of sensitive and confidential information. Any failure to comply with these laws and regulations could impose significant penal burden and could adversely impact our business and results of operations.*” on page 55.

**13. *A majority of our revenues are dependent on a limited number of industry verticals. Customers in retail, healthcare, BFSI and telecommunications verticals contributed to 63.83%, 63.39%, 64.08%, 56.60% and 50.19% of our revenue from operations in six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 respectively. Any decrease in demand for services in these industry verticals could reduce our revenues and materially adversely affect our business, results of operations, financial condition, and cash flows.***

A substantial portion of our customers are concentrated in the retail, healthcare and BFSI and telecommunications verticals. Our business is therefore largely dependent on the demand for our services from customers in these industries. The following table presents the contribution from verticals to our revenues in the relevant periods:

Industry	Six-month period ended September 30, 2025		Six-month period ended September 30, 2024

A downturn in the retail sector, a slowdown or reversal of the trend to outsource customer relationship management (“CRM”) or loyalty management services or the introduction of regulations that restrict companies from engaging external vendors could result in a decrease in the demand for our services and adversely affect our business, results of operations, financial condition, and cash flows. Additionally, as of September 30, 2025, our healthcare vertical comprises seven customers, and loss of any single customers or decrease in demand of our services from any customer in the healthcare vertical could adversely affect our business, results of operations, financial condition, and cash flows.

External risks such as global pandemics could also adversely affect the industry verticals that we operate in. For instance, we extended increased discounts to certain of our customers across verticals on account of the COVID-19 pandemic in Fiscal 2022 and 2021, amounting to ₹ 5.82 million in Fiscal 2022 million and ₹ 82.54 million in Fiscal 2021. Further, our customers may experience rapid changes in their prospects, substantial price competition and pressure on their financial condition and results of operations. This, in turn, may result in increasing pressure on us from customers in these key industries to provide additional discounts, which could adversely affect our business, results of operations, financial condition, and cash flows.

***14. If our third-party service providers and key vendors are not able to or do not fulfil their service obligations, our operations could be disrupted and our operating results could be harmed.***

We depend on a number of service providers and key vendors, such as software and hardware vendors, outsourced hosting providers and hardware and software maintenance providers who are critical to our operations. Set forth below are certain details regarding our expenses incurred on our top 10 vendors, including as a percentage of our total expenses:

Particulars	Six-month period ended September 30,				Fiscal					
	2025		2024		2025		2024		2023	
	Amount (₹ million)	Percentage of Total Expenses (%)	Amount (₹ million)	Percentage of Total Expenses (%)	Amount (₹ million)	Percentage of Total Expenses (%)	Amount (₹ million)	Percentage of Total Expenses (%)	Amount (₹ million)	Percentage of Total Expenses (%)
Expenses incurred towards our top 10 vendors	707.40	21.92%	708.66	25.99%	1,354.00	25.39%	1,200.71	22.36%	804.48	24.78%

References to 'Vendor' are to vendors in a particular Fiscal and do not refer to the same vendors across all Fiscals.

These service providers and vendors are involved in our offerings, communications equipment, hardware and software and related support and maintenance. For instance, we primarily rely on a single vendor for our cloud hosting services. In the event of any disruptions from such third-party vendors, our operations may be adversely impacted. However, for certain of our key vendors, we have alternate vendors who provide similar services within limited scope. In addition, our operations could be disrupted if we do not successfully manage relationships with our service providers, if they do not perform or are unable to perform agreed-upon services, or if they are unwilling to make their services available to us at reasonable prices. While there have been no instances of failure to perform by third parties during the six-month period ended September 30, 2025 and in the last three fiscals, our service providers and vendors do not perform their service obligations, it could adversely affect our reputation, business, financial condition and results of operations.

**15. We are exposed to credit risk from our customers and the recoverability of our trade receivables is subject to uncertainties.**

We typically allow a credit period on payment terms of up to 90 days to our customers who enter into contracts in relation to our platform and solutions, and are therefore exposed to credit risk from our customers. Set forth below are certain details regarding our trade receivables, and provision for doubtful trade receivables and advances:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023

Bad debt written-off (₹ million)	-	-	-	35.78	8.42
Bad debt written-off, as a percentage of Revenue from Operations (%)	-	-	-	0.68%	0.33%

\* Loss allowances under expected credit loss model includes bad debt written-off during the period/year.

The decrease in trade receivable days was primarily due to shorter payment terms being agreed upon either during contract renewals or when signing new customers. We also have a Board approved policy with respect to provisioning of aged receivables for managing and accounting for potential losses from overdue accounts, maintaining financial accuracy and transparency. In the event we are unable to collect receivables, it could impact our working capital cycle and increase our working capital requirements, which could have a negative impact on our financial condition, results of operations and cash flows. Further, if any of our customers declare bankruptcy, they may terminate their agreements with us, or we may not be able to recoup the full payment of fees owed to us. For instance, due to bankruptcy declared by our customer in North America engaged in apparel retail in Fiscal 2024, we have not been able to recover the entire fees owed to us resulting in non-recovery of ₹ 79.91 million of trade receivables. We cannot assure you that our business, financial condition and results of operations will not be adversely affected in future on account of similar instances.

A customer's ability to make payments on a timely basis depends on various factors such as general economic and market conditions and the customer's cash flow position, which are out of our control. We have experienced delays and non-recovery during the six-month period ended September 30, 2025 and in the past three Fiscals, in receiving payments from our customers. While in certain cases we have served legal notices wherein we received the dues post sending the notices, in certain cases it has not been effective. There is no assurance that our customers will pay us on a timely basis or at all, which may adversely affect the recoverability of our trade receivables, or that we will be able to efficiently manage our provision for bad and doubtful debts and such instances in the future may adversely affect our cash flow position and our ability to meet our working capital requirements. Under certain agreements with our customers, contractually, we have the right to invoke breach of contract on delayed payments but have avoided doing this in light of our customers' inability to pay due to their business issues. Defaults in making payments to us on projects for which we have already incurred significant costs and expenditures can materially and adversely affect our results of operations and reduce our financial resources that would otherwise be available for other purposes. In the event we are unable to recover such payments, our business, financial condition and results of operations could be adversely affected.

***16. We are subject to various Indian and international laws and regulations regarding privacy and data security, and we or our customers may be subject to regulations related to the handling and transfer of certain types of sensitive and confidential information. Any failure to comply with these laws and regulations could impose significant penal burden and could adversely impact our business and results of operations.***

In our processing of transactions, we receive and store a large volume of personally identifiable data. This data is increasingly subject to legislations and regulations such as the Indian Information Technology Act, 2000 (“**IT Act**”), as amended, which would subject us to civil and criminal liability including compensation to persons affected, penalties and imprisonment for various cyber related offences including from any negligence by us in implementing and maintaining reasonable security practices and procedures with respect to sensitive personal data or information that we possess in our computer systems, networks, databases and software. The IT Act also imposes stringent punishment, including imprisonment in case a person (including an intermediary), while providing services as per a contract, accesses, reveals or discloses personal information about another individual in violation of the contract or without consent of such other individual, knowing it will cause wrongful loss or wrongful gain.

The Department of Information Technology, Ministry of Electronics and Information Technology (“**MEITY**”), Government of India has also implemented other privacy laws, including the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011 (“**IT Security Rules**”), which impose limitations and restrictions on the collection, use and disclosure of personal information. It also mandates body corporates to adopt a privacy policy, to obtain consent from data subjects for collecting or transferring their sensitive personal data or information and intimate them about recipients of such collected data, as a mechanism of establishing a robust security standard. Additionally, the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021 (“**IT Intermediary Rules**”) requires intermediaries (respectively) receiving, storing, transmitting or providing any service with respect to electronic messages to not knowingly host, publish, transmit, select or modify any information prohibited under these IT Intermediary Rules and to disable hosting, publishing, transmission, selection or modification of such information once they become aware of it, as well as specifying the due diligence to be observed by intermediaries.

In the European Union, the GDPR, requires companies to implement and remain compliant with regulations regarding the handling of personal data, including its use, protection and the ability of persons whose data is stored to correct or delete such data about themselves. We are currently in compliance with the GDPR of the European Union which helps us remain compliant with major privacy regulations worldwide, to the extent applicable to our

Company in relation to its business. The EU has proposed the Regulation on Privacy and Electronic Communications, which, if adopted, would impose new obligations on the use of personal information in the context of electronic communications, particularly with respect to online tracking technologies and direct marketing. Our handling of data is subject to a variety of laws and regulations, including regulation by various government agencies, such as the Federal Trade Commission (“FTC”), and various state, local and foreign agencies. Our data handling also is subject to contractual obligations and industry standards. The U.S. federal and various state and foreign governments have adopted or proposed limitations on the collection, distribution, use and storage of data relating to individuals, including the use of contact information and other data for marketing, advertising and other communications with individuals and businesses. In the United States, various laws and regulations apply to the collection, processing, disclosure and security of certain types of data. Additionally, the FTC and many state attorneys general are interpreting federal and state consumer protection laws as imposing standards for the online collection, use, dissemination and security of data. Additionally, with our acquisition of Optum as a customer, we are also required to comply with Health Insurance Portability and Accountability Act (“HIPAA”), a 1996 US legislation establishing federal standards protecting sensitive health information from disclosure without patient's consent.

Other countries in Asia, Europe and Latin America have passed or are considering similar privacy regulations, resulting in additional compliance burdens and uncertainty as to how some of these laws will be interpreted. Any liability we may incur for violation of such laws and regulations and related costs of compliance and other burdens may adversely affect our business and profitability. While there have not been any instances in the past three Fiscals, of incurring liability for violation of applicable laws in Asia, Europe and Latin America, we could be adversely affected if legislation or regulations are expanded to require changes in our business practices or if governing jurisdictions interpret or implement their legislation or regulations in ways that negatively affect our business, results of operations or financial condition. Further, any new geographies we enter into could subject us to additional regulatory requirements and any failure to comply with such requirements could adversely impact our business and results of operations.

Further, the DPDP Act, a comprehensive legal framework governing digital personal data protection in India, received the assent of the President on August 11, 2023. The DPDP Act, has replaced the existing data protection provision, as contained in Section 43A of the IT Act. The DPDP Act provides for the processing of digital personal data in a manner that recognises both the rights of individuals to protect their personal data and the need to process personal data for lawful purposes and matters incidental thereto. The DPDP Act imposes obligations on us including that personal data may be processed only for a lawful purpose after obtaining the consent of the data principal to whom the personal data relates, or for certain legitimate uses. A notice must be given before seeking consent. The consent obtained shall be free, specific, informed, unconditional and unambiguous with a clear affirmative action, and shall signify an agreement to the processing of her personal data for the specified purpose and be limited to such personal data as is necessary for such specified purpose. The Indian Ministry of Electronics and Information Technology, Government of India has also released the Draft Digital Personal Data Protection Rules, 2025 (“**Draft DPDP Rules**”) for public consultation. The Draft DPDP Rules regulate the processing of personal data in India, ensuring that the privacy rights of individuals are protected. If these or similar legislation are enacted, we may incur additional compliance costs, it may affect us in ways that we are currently unable to predict and our business, results of operation and financial condition may be adversely affected.

While we are currently in compliance with the provisions of the aforementioned laws and other applicable laws in relation to data security and privacy, to the extent applicable to our operations, there can be no assurance that we will be in compliance with such laws in the future. Further, while we are ISO 27001:2013 certified for information security management system and PCI DSS certified for all customer servicing, internal processes and technologies and SOC 2 Type 2 Attested for the CRM and Loyalty services, we cannot assure you that we will always be able to obtain required certifications and accreditations in future. For further details, see “*Our Business – Data Protection and Cybersecurity*” on page 313. For more details in relation to the other key statutes, rules, and regulations regarding privacy and data security applicable to us, please refer to “*Key Regulations and Policies*” on page 325.

While we are currently compliant with applicable global and Indian laws related to information technology space, any failure, or perceived failure, by us to comply with our privacy policies or any applicable regulatory requirements or privacy protection-related laws, rules and regulations could result in proceedings or actions against us by governmental entities or others. These proceedings or actions may subject us to significant penalties and negative publicity, require us to change our business model or practices, increase our costs and severely disrupt our business. As we expand our operations, we may be subject to additional laws in other jurisdictions where our users and business partners of our platform are located. The laws, rules and regulations of other

jurisdictions may impose on us more stringent or conflicting requirements with harsh penalties for non-compliance than those in India, and the compliance with such requirements could require significant resources and result in substantial costs, which may materially and adversely affect our business, financial condition, results of operations and prospects.

**17. Our inability to effectively execute our growth strategy could have an adverse effect on our business, results of operations and financial condition.**

We have demonstrated consistent growth and operational efficiency, driven by our strategic initiatives and a strong market presence. We have experienced, and may continue to experience, rapid growth and organisational change, which has placed, and may continue to place, significant demands on our management, operational and financial resources. In addition, we operate globally and enter into contracts related to our platform and products. We plan to continue to expand our international operations into other countries and in particular into the North America and Europe in the future, which will place additional demands on our resources and operations. We have also experienced significant growth in the number of enterprises, end users, transactions and amount of data that our platform, product offerings and associated hosting infrastructure support.

The table below sets forth certain financial and operational information for the periods/years indicated:

Particulars	As at and for the six-month period ended September 30,		As at and for the year ended March 31,		
	2025	2024	2025	2024	2023

Notes:

- (1) Net Revenue is computed as Revenue from Operations less cost of campaign services.
- (2) Net Revenue Growth (%) is calculated as a percentage of Net Revenue of the relevant period/year minus Net Revenue of the preceding period/year, divided by Net Revenue of the preceding period/year.
- (3) EBITDA refers to Earnings before interest expense, taxes, depreciation and amortisation and Exceptional Items as disclosed in our Restated Consolidated Financial Information.
- (4) EBITDA Margin (%) is computed as percentage of EBITDA divided by Revenue from Operations for the respective period/Fiscal.
- (5) ARR refers to Aggregate of all Net Revenue from the most recent quarter multiplied by 4. Annual Recurring Revenues refers to the active recurring contract values over a 12 month period.
- (6) New ACV refers as aggregate of all annual recurring revenues contracted during the respective Fiscal, where annual recurring revenues represent the active recurring contract values over a twelve month period from licensed subscriptions and committed professional services.
- (7) NRR rate is computed as Net Revenue for the current Fiscal from all customers existing at the end of previous Fiscal divided by Net Revenue generated from the same customers in the previous Fiscal multiplied by 100.
- (8) Consumers on platform refers to number of consumers on our platform with a unique mobile number or personal identifiable information on the platform as at the end of the period/Fiscal.
- (9) Transactions processed refers to the number of invoices or transactions that have been processed by our platform for our customers.

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our growth strategies include, developing new features and solutions, expanding our client base, and expanding our presence geographically.

In recent years, our focus has been to improve our NRR and become profitable. In order to improve profitability, we deployed a strategy to pivot our business to focus on Enterprise Customers and transition from lower margin and high service reliant customers. We have maintained a robust NRR from existing customers. Our NRR rate i.e., ability to retain existing customers and expand revenue from those same customers over time was 115.42%, 143.48%, 121.25%, 112.68% and 139.01% for the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023, respectively. For further information, see “Our Business – Strategies”, “Our Business – Our Growth Path” and “Management Discussion and Analysis of Financial Condition and

*Results of Operation – Management’s Discussion and Analysis of Financial Conditions and Results of Operations – Significant Factors Affecting our Results of Operations and Financial Condition – Ability to improve gross margins, profitability and sales efficiency”* on pages 300, 276, and 470, respectively. Our ability to achieve our growth strategies will be subject to a range of factors, including our ability to identify market opportunities, demands and trends in the industry, develop features and solutions that meet our clients’ requirements, compete with existing companies in our markets, consistently exercising effective quality control, and hire and train qualified personnel. Many of these factors are beyond our control and there is no assurance that we will succeed in implementing our strategy. Further, as we expand our operations, enter new markets and regions and attempt to increase revenue generated from our existing customers, we may be unable to manage our business and/or retain existing customers efficiently, which could result in decreased NRR and affect the quality of our services, and may adversely affect our reputation. Such expansion also increases the challenges involved in developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, internal control and other internal systems, recruiting, training and retaining management, technical and marketing personnel in the relevant geographies.

Our business growth could be a strain on our resources. There can be no assurance that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. Our inability to manage our business and implement our growth strategy could have a material adverse effect on our business, financial condition and profitability.

**18. If we are unable to develop and maintain successful relationships with partners or if we fail to effectively expand our sales and marketing relationships, we may not be able to increase our customer base and achieve broader market acceptance of our SaaS solutions and our business, operating results, cash flows and financial condition could be adversely affected.**

We have been primarily dependent on our direct sales force to sell subscriptions to our platform and services. In addition, we have a network of regional and global partners which we work with to align go-to-market initiatives and deliver value to our customers. However, our reliance on these partners for new business can be unpredictable, as we are required to ensure delivery and customer relationships. Additionally, our partners who do not have an exclusive relationship with us, may also choose to work with our competitors.

In addition, we have also entered into agreements with certain marketing agents whereby we pay marketing agents amounts based on the referrals generated by such agents. Set forth below are details of commission and advisory paid to sales channel partners and advisors:

Particulars	Six-month period ended September 30,				Fiscal					
	2025		2024		2025		2024		2023	
	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)
Commissions and advisory fees paid to sales channel partners and advisors	23.66	0.66%	16.01	0.56%	37.90	0.63%	25.64	0.49%	19.98	0.78%

While there have been no instances of default or failure to comply with obligations under our agreements by the marketing agents/partners, there can be no assurance that such marketing agents will be able to secure additional business for us which could have an adverse impact on our results of operations, cash flows and financial condition. Additionally we cannot assure that there will be no discrepancies regarding the interpretation of obligations under the agreements with these marketing agents or partners.

We believe that continued growth in our business is dependent upon identifying, developing, and maintaining strategic relationships with additional partners that can drive substantial revenue. If we fail to maintain our relationship with our current partners or identify additional partners in a timely and cost-effective manner, or at all, or are unable to assist our current and future partners in independently selling and deploying our products, our

business, results of operations, and financial condition could be adversely affected. They may also cease marketing our platform with limited or no notice and with little or no penalty. Additionally, customer retention and expansion attributable to customers acquired through our partners may differ significantly from customers acquired through our direct sales efforts. Further, if our partners do not effectively market and sell our products, or fail to meet the needs of our customers, our reputation and ability to grow our business may also be adversely affected.

Increasing our customer base and achieving broader market acceptance of our suite of SaaS solutions will depend on our ability to expand our sales and marketing teams and their capabilities to obtain new customers and sell additional products and services to existing customers. As of September 30, 2025, March 31, 2025, 2024, 2023, our sales team comprised 14, 12, 17 and 12 professionals, respectively. We believe there is significant competition for direct sales professionals with the skills and technical knowledge that we require, and we may be unable to hire or retain sufficient numbers of qualified individuals in the future. Our ability to achieve future revenue growth will depend on our success in recruiting, training and retaining sufficient numbers of direct sales professionals. We have a 'Recruitment Process Document' that sets out internal processes to be followed by our Company in relation to the recruitment process from selection of external resources till they join our Company. New and planned hires require significant training and time before they become fully productive, and may not become as productive as quickly as we anticipate. Our growth prospects may be adversely impacted if our efforts to expand, train and retain our direct sales team do not generate a corresponding significant increase in revenue.

***19. Our offices, including our Registered and Corporate Office, are located on premises that is held by us on a lease and license basis. If these leases and license agreements are terminated or not renewed and we are not able to identify alternative premises on terms acceptable to us, it could adversely affect our business, financial condition, results of operations, and cash flows.***

We operate on a global scale with operations in 47 countries as of September 30, 2025, and having a presence across eight international offices. Most of our offices, including our Registered and Corporate Office, are located on premises that we operate pursuant to a lease or license agreements. For further information on the lease costs of all properties leased by us including our Registered and Corporate Office, see "Our Business – Properties" on page 320. The lease agreements for our Registered and Corporate Office is valid until December 31, 2025 and is extended for an additional period of one year commencing from January 1, 2026, post which our Company may renew the lease agreements. Additionally, one of our Subsidiaries, Capillary Technologies Inc. operates their principal-office in 800 West El Camino Real, Suite 120 Mountain View, CA – 94040 without a formal lease agreement in place. If we are unable to renew or extend these agreements on commercially acceptable terms, or at all, we may have to relocate our Registered and Corporate Office. Further, we may be required to renegotiate rent or other terms and conditions of such agreements.

We may also be required by the landlord to relocate to another location adjacent to the leased premises at a short notice of three months as prescribed in the lease agreements, and we may not be able to identify and obtain possession of an alternate location, in a short period of time.

The agreements for our offices entered into by us may include a lock-in period ("Lock-in Period") that extends for the entire tenure of the lease, with the exception of three offices: (i) our office in Mysuru and the office of our subsidiary, Capillary Technologies LLC, located in Minneapolis, Minnesota, USA, both of which have a two-year lock-in period; (ii) our office in Pune, which does not have a lock-in period; and (iii) our office in Dubai, which has a lock-in period of 12 months. The tenure of our lease agreements typically ranges from six months to three years. During the relevant Lock-in Period, we are restricted from exercising our right to terminate the lease. In the past three Fiscals, two of our lease agreements were terminated due to reasons including moving to larger office spaces and commercial considerations. While such instances did not have any material adverse impact on our operations, we cannot assure that our business and financial condition will not be adversely affected in the future. Any decision to discontinue operations on such leased premises would therefore adversely affect our financial condition and cash flows.

In addition, lease agreements are required to be duly registered and adequately stamped under Indian law and if any one of our lease agreements is not duly registered and adequately stamped, we may face challenges in enforcing them and they may be inadmissible as evidence in a court in India subject to penalties along with the requisite stamp duty prescribed under applicable Indian law being paid. For instance, the lease agreements in relation to our offices located in Bengaluru, Pune and Mysuru, are not adequately stamped or registered by our Company which may pose legal and financial risks, including unenforceability in court, penalties, exposure to landlord disputes and lack of business continuity.

Occurrence of any of the above events may have a material adverse effect on our business, results of operations, financial condition, and cash flows. Further, any adverse impact on the ownership rights of our landlords may impede our effective future operations. We may also face the risk of being evicted in the event that our landlords allege a breach on our part of any terms under these lease/ leave and license agreements and there is no assurance that we will be able to identify suitable locations to re-locate our operations.

**20. The market for customer relationship and loyalty management Software as a Service (“SaaS”) solutions is relatively new and emerging. If the market develops more slowly or differently than we expect, our business, growth prospects and financial condition would be adversely affected.**

The market for customer relationship and loyalty management SaaS solutions, such as ours, is relatively new and may not achieve or sustain high levels of demand and market acceptance. The future growth of our business depends both on the acceptance and expansion of emerging loyalty management solutions. Even if these solutions become widely adopted, our suite of customer relationship and loyalty management SaaS solutions may not continue to be utilized by our existing customers or we may not acquire new customers. Organizations may not make significant investments in customer relationship and loyalty management SaaS solutions and may not purchase services and solutions to address their customer relationship and loyalty management requirements. If customer relationship and loyalty management SaaS solutions are not widely adopted, or the market for such SaaS solutions does not develop as we expect, our business, growth prospects and financial condition would be adversely affected.

**21. Our Company, certain of our Subsidiaries, and our Directors are involved in outstanding legal proceedings. Any adverse outcome in such proceedings may have an adverse impact on our reputation, business, financial condition, results of operations and cash flows.**

The summary of outstanding matters set out below includes details of criminal proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation (as defined in the section “Outstanding Litigation and Other Material Developments” on page 525 involving our Company and our Subsidiary. A summary of outstanding litigation proceedings involving our Company, our Subsidiaries, our Promoters, our Directors, our Key Managerial Personnels, our Senior Management and our Group Company as on the date of this Red Herring Prospectus is provided below:

<sup>#</sup>The following proceedings are not quantifiable: (i) the first case pertains to a notice that has been issued to Capillary Technologies India Limited, under section 92CA(2) of Income Tax Act, 1961, Computation of Arm's Length Price-Assessment Year 2023-24. The amount in dispute or demand cannot be quantified at this stage of proceedings; and (ii) the second case pertains to a notice that has been issued to our Company under section 142(1) of Income Tax Act, 1961, for the assessment year 2023-24 seeking submission of certain documents including audit reports, bank statements, agreements and information pertaining to certain intangible assets and unsecured loans of our Company. The amount in dispute or demand cannot be

quantified at this stage of proceedings; and (iii) two cases pertaining to notices for GST audit that have been issued to our Company under Section 65 of CGST Act, 2017, for the Fiscals 2024 and 2023 to furnish books of accounts and necessary information pertaining to our Company, as may be required, for timely completion of the audit. The amount in dispute or demand cannot be quantified at this stage of proceedings.

\*The amounts in dispute or demand cannot be quantified at the current stage. For further details, see "Outstanding Litigation and Material Developments" on page 525.

&Pertains to a notice issued under Section 142(1), IT Act for Fiscal 2024 for the submission of certain documents of CTIPL including detailed background of its activities, financial statements, etc. The amount cannot be quantified at this stage of proceedings.

Note: There is no pending litigation involving our Group Companies which will have a material impact on our Company.

There can be no assurance that these legal proceedings will be decided in our favour or in favour of our Subsidiaries and our directors. In addition, we cannot assure you that no additional liability will arise out of these proceedings. Decisions in such proceedings adverse to our interests may have an adverse effect on our business, results of operations and financial condition.

Further, certain members of our Promoter Group may be involved in legal proceedings. While none of the members of Promoter Group are involved in our business operations, any matter, specifically regulatory matters, which are not decided in their favour may have an impact on our reputation on account of us being associated with the said entities. For instance, one of the members of our Promoter Group, Gowthami Agro Industries Private Limited, has received a notice seeking information regarding its business operations, issued by a special investigations team constituted by the Government of Andhra Pradesh in connection with the liquor policy implemented by the erstwhile Government of Andhra Pradesh in October 2019. Further, Jaipal Reddy Amireddy, in his capacity as the director of MS Biotech Private Limited (both being members of our Promoter Group) received a summon from the Directorate of Enforcement, seeking his attendance and submission of certain documents in connection with the said matter. Subsequently, the SIT has filed charge sheets against certain third-party individuals and entities who have been named as accused, which does not include any of the aforementioned promoter group members. While the said matter does not have any direct impact on us, any unfavourable development in the said matter could impact the reputation of our Promoter Group and our Company.

**22. We changed our business model for campaign services in Fiscal 2025. Accordingly, there are certain differences in the manner in which revenue from campaign services has been recognized in the Restated Consolidated Statement of Profit and Loss for Fiscal 2024 and Fiscal 2023 as compared to six-month period ended September 30, 2025 and Fiscal 2025.**

During Fiscal 2025, we changed our business model for campaign services and entered into new arrangements with our service providers pursuant to which, we act as an agent and not as a principal for campaign services transactions. Accordingly, the revenue generated from campaign services during six-month period ended September 30, 2025, September 30, 2024 and Fiscal 2025 has been recorded on a net basis (i.e., net of cost of campaign services) in our Restated Consolidated Statement of Profit and Loss. However, during Fiscal 2024 and Fiscal 2023, income from cost of campaign services was recognized on a gross basis as we acted as principals for campaign services transactions. Accordingly, the corresponding cost of campaign services was recognized as an expense in our Restated Consolidated Statement of Profit and Loss for the said period/Fiscals. As a result of this change in business model for Fiscal 2025, our Restated Consolidated Statement of Profit and Loss for Fiscal 2024 and Fiscal 2023, are not comparable and should not be misinterpreted to this extent with our Restated Consolidated Statement of Profit and Loss in six-month period ended September 30, 2025, September 30, 2024 and Fiscal 2025. For further information, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Restated Consolidated Financial Information – Note 23" on pages 467 and 435.

**23. If we fail to integrate our offerings with a variety of operating systems, software applications and hardware that are developed by others, our service may become less marketable and less competitive or obsolete, and our operating results would be harmed.**

Our success depends on the inter-operability of our platform and solutions with third-party operating systems, applications, data and devices that we have not developed and do not control. If we fail to integrate our offerings with a variety of operating systems, software applications and hardware that are developed by others, our service may become less marketable and less competitive or obsolete, and our operating results would be harmed.

Changes in such operating systems, applications, data or devices that degrade the functionality of our platform or solutions or give preferential treatment to competitive software could adversely affect the adoption and usage of our platform. We may not be successful in adapting our platform or solutions to operate effectively with these applications, data or devices. If it is difficult for our customers to access and use our platform or solutions, or if our platform or solutions cannot connect a broadening range of applications, data and devices, then our customer growth and retention may be harmed, and our business and operating results could be adversely affected.

Enterprise cloud deployments utilize multiple third-party platforms and technologies, and these technologies are updated to new versions at a rapid pace. As a result, we deliver frequent updates to our solutions designed to maintain compatibility and support for our customers' changing technology environments and ensure our solutions' ability to continue to monitor the customer's applications. If our solutions fail to work with any one or more of these technologies or applications, or if our customers fail to install the most recent updates and versions of our solutions that we offer, our solutions will be unable to continuously monitor our customer's critical business applications. We typically face such incidents at the time of integrating our offerings with our customers' IT infrastructure. While there have not been any instances of non-integration of our products, systems or applications with third party operating systems during the six-month period ended September 30, 2025 and in the past three Fiscals, there can be no assurance that such instances will not occur in future.

Ensuring that our solutions are up-to-date and compatible with the technology and enterprise cloud platforms utilized by our customers is critical to our success. We work with technology and cloud platform providers to understand and align updates to their product roadmaps and engage in early access and other programs to ensure compatibility of our solutions with the technology vendor's generally available release. If our relations with our technology vendors cease, we may be unable to deliver these updates, or if our customers fail to install the most recent updates and versions of our solutions that we offer, then our customers' ability to benefit from our solution may decrease significantly and, in some instances, may require the customer to de-install our solution due to the incompatibility of our solution with the customer's applications. Accordingly, customers may choose to terminate or cancel their subscription, which could have an adverse impact on our results of operations, prospectus, cash flows and financial condition.

**24. Our reliance on borrowings to fund our working capital requirements has increased during the six-month period ended September 30, 2025 and the last three Fiscals and any inability to refinance or repay such borrowings in a timely manner could adversely affect our business, results of operations, financial condition and cash flows.**

We have increasingly relied on borrowings including short-term borrowings to meet our working capital requirements, primarily on account of delays in collections from customers, to enable timely payments to vendors to ensure uninterrupted supply of services, and for advances paid to service providers. Set forth below are outstanding amount of our borrowings as at the dates indicated:

Particulars	September 30, 2025	September 30, 2024	March 31, 2025	March 31, 2024	March 31, 2023
Borrowings (₹ million) *	876.07	447.70	988.12	729.97	1,042.65

\*Represents current portion of borrowings.

While such borrowings have enabled us to manage our liquidity position and sustain operations, continued dependence on short-term debt exposes us to refinancing risks, liquidity pressures and potential increases in financing costs. Any inability to refinance existing borrowings on commercially reasonable terms or to arrange for alternative sources of funding in a timely manner may adversely impact our ability to meet our working capital requirements. While there have not been any such instances during the six-month period ended September 30, 2025 and in the last three Fiscals, we cannot assure you that we will not be adversely impacted in the future. Further, a sustained increase in short-term debt could result in higher finance costs, pressure on our cash flows, and may adversely affect our business, financial condition and results of operations.

**25. We propose to utilise ₹ 1,430 million from the Net Proceeds towards funding our cloud infrastructure cost. We have entered into certain arrangements with technology service providers and have made certain annual spend commitments which are higher than the amount proposed to be utilised from the Net Proceeds towards funding our cloud infrastructure cost. Any inability to incur such expenditures in full will strain our resources and, may result in variations in the deployment of Net Proceeds.**

As part of developing our technology infrastructure and optimising our platform performance through external cloud servers, we have entered into certain private pricing agreements and arrangements with technology service providers for the provision of technology and cloud infrastructure services, pursuant to which we have made certain annual spend commitments which is the minimum amount required to be spent annually under the relevant arrangements. These annual spend commitments allow us to benefit from discounted pricing and preferential commercial terms, thereby resulting in overall cost efficiencies and helping scalability of our Company's platform, while ensuring continuity and reliability in its cloud infrastructure operations. Failing to meet these annual commitments may require us to pay the shortfall amount to the service provider. For details, please see "Objects

of the Offer – Funding our cloud infrastructure cost – Historical expenditure software and server charges” on page 160.

We propose to utilise a portion of the Net Proceeds towards funding and expanding our cloud infrastructure by leveraging the services provided by external service providers, as disclosed under “Objects of the Offer – Funding our cloud infrastructure cost – Proposed utilisation of Net proceeds” on page 162.

We have historically incurred higher costs towards cloud infrastructure costs than the applicable annual spend commitments under the agreements with third-party cloud infrastructure providers. However, given the increased usage requirement of technology and cloud infrastructure services over the historical years, two renewed private pricing addendums have been entered into with the Service Provider each dated September 30, 2025, (“Technology Agreements”), for a period of five years from October 1, 2025 until September 30, 2030, pursuant to which we have made the following increased annual spend commitment (“Annual Commit”) that applies to our Company and Subsidiaries:

Particulars	Contract year				
	October 1, 2025 to September 30, 2026	October 1, 2026 to September 30, 2027	October 1, 2027 to September 30, 2028	October 1, 2028 to September 30, 2029	October 1, 2029 to September 30, 2030
Spend Commitment (in USD million)	7.10	7.40	7.70	8.00	8.50
Spend Commitment (in ₹ million)	629.91	656.53	683.14	709.76	754.12

\* For the purposes of these estimations, a conversion rate of 1 USD = ₹88.72 as on September 30, 2025 has been considered

If we fail to meet these annual commitments, we will be required to pay the shortfall amount to the service provider thereby straining our resources.

Further, any shortfall in actual expenditure compared to the proposed utilisation may result in a revision or variation in the deployment of the Net Proceeds.

**26. There have been certain instances of delays in payment of statutory dues by our Company in the past. Any delay in payment of statutory dues by our Company in future, may result in the imposition of penalties and in turn may have an adverse effect on our business, financial condition, results of operation and cash flows.**

We are required to pay certain statutory dues including provident fund contributions under the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, employee state insurance contributions (“ESIC”) under the Employees’ State Insurance Act, 1948, profession tax, property tax, tax deduction at source (“TDS”), labour welfare fund and GST. - (1) The delay is attributable to (i) due to non-fulfilment of requirements related to linking of employees' Aadhar number with the employees' provident fund records or instances where the employee has not updated his/her Aadhar number in the provident fund records and (ii) due to oversight in certain instances.

While our Company has implemented processes of monthly tracking and reconciliation of all the statutory dues required to be deducted and paid to relevant government authorities, we cannot assure you that we will not be subject to penalties and fines in the future for delays in payment of statutory dues, which may have an adverse impact on our business, results of operations, financial condition and cash flows. Further, there have been no instances of delays in the payment of gratuity amount during the six-month period ended September 30, 2025 and however there have been certain instances of delays in the payment of gratuity amount during in past three Fiscals. We cannot assure that such instances will not occur in future and will not have a material adverse impact on our financial condition and results of operations.

**27. The financial information of certain of our foreign Subsidiaries, which are not material, included in the Restated Consolidated Financial Information have not been audited and are based on management information, due to which our consolidated financial statements and investor confidence may be adversely affected.**

We have included the financial information of certain of our foreign Subsidiaries, namely, Capillary Technologies (Shanghai) Co Ltd for the six-month period ended September 30, 2025 and September 30, 2024 and Fiscal 2025, Fiscal 2024 and Fiscal 2023, Kognitiv Solutions Inc. While the unaudited financial information in case of Capillary Technologies (Malaysia) Sdn Bhd and PT Capillary Technologies Indonesia for the six-month period ended September 30, 2024 was considered for the purpose of preparation of the restated consolidated financial information, the said entities were subsequently audited on which audit opinions dated October 17, 2025 were issued for the six-month period ended September 30, 2024. There are no material differences between audited and unaudited financial information considered in preparation of the restated consolidated financial information for the above specified period in case of such entities.

Further, the Restated Consolidated Financial Information is in compliance with the provisions of the SEBI ICDR Regulations as the combined total unaudited information of the turnover or net-worth or profits before tax included in the Restated Consolidated Financial Information in relation to the above-mentioned Subsidiaries does not exceed 20% of the turnover or net-worth or profits before tax of the Restated Consolidated Financial Information for the six-month period ended September 30, 2025 and September 30, 2024 and the years ended March 31, 2025, March 31, 2024, and March 31, 2023. While the auditors have stated that such financial information is not material to our Company and their opinion has not been modified in this regard, reliance on unaudited financial information carries the risk of potential misstatements or inaccuracies.

**28. We have witnessed delays in repayment of loans/borrowings in the past for which our Statutory Auditors have included certain remarks in the Companies (Auditor's Report) Order, 2020, for the years ended March 31, 2024 and March 31, 2023. We cannot assure you that any similar or other matters prescribed under the Companies (Auditor's Report) Order, 2020, will not form part of our financial statements for the future fiscal periods, which could have an adverse effect on our reputation, the trading price of the Equity Shares, results of operations, cash flows and financial condition.**

We have witnessed delays in repayment of loans/borrowings in Fiscal 2023 and Fiscal 2022 for which our Statutory Auditors have included the following remarks in the annexure to their audit reports on the Companies (Auditor's Report) Order, 2020 for the years ended March 31, 2024 and March 31, 2023, including certain other matters:

(ix) (e) Our Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, except for the following:

Nature of Fund Taken	Name of Lender	Amount Involved (₹ million)	Name of Subsidiary	Relation	Nature of Transaction for which Funds were Utilized
Short-term borrowings from body corporate	Gameberry Labs Private Limited	230.06	Capillary Pte. Ltd	Wholly owned Subsidiary	Investments in equity shares

(xvii) Our Company has incurred cash losses in the year ended March 31, 2023 and in the immediately preceding financial years amounting to ₹ 130.61 million and ₹ 185.42 million, respectively.

For further information, see, “Restated Consolidated Financial Information – Annexure VII - Statement of Restated Adjustments to the Audited Consolidated Financial Statements” on page 462.

While we have not witnessed any delay in payment of principal or interest on any borrowings in Fiscal 2025, we cannot assure you we will not witness such delays in the future. We cannot assure you that any similar remarks or other matters prescribed under the Companies (Auditor’s Report) Order, 2020, will not form part of our financial statements for the future fiscal periods, which could subject us to additional liabilities due to which our reputation and financial condition may be adversely affected.

**29. Our corporate Promoter issued share warrants to one of our customers as part of our revenue contract. The cost of issuing such warrants are recognized in our books of accounts and may continue to impact our revenue, profitability and assets until the entire cost of such warrant issuance is amortised.**

Our corporate Promoter, CTIPL, issued share warrants to one of our customers during six-month period ended September 30, 2025 and during Fiscal 2024 and we (comprising our Company and its Subsidiaries) considered the cost of such warrants as non-cash consideration paid to acquire the contract with the customer. Further, the benefits of securing the contract with the customer are received by us and accordingly, we have recognised a capital contribution from our corporate Promoter, CTIPL for the warrants issued. However, given that the warrants

held by the customer have been issued by our corporate Promoter, CTIPL and have not been issued by our Company or Subsidiaries, the conversion of these warrants will have no impact on the shareholding pattern of our Company or its Subsidiaries.

We are continuously aiming to increase our revenue from customers across various industry verticals. In Fiscal 2024, we got an opportunity to provide healthcare offerings to a US based healthcare conglomerate. The customer to whom the warrants have been issued by our corporate Promoter is part of the said conglomerate. Securing the commercial agreement with the said conglomerate also facilitated the strengthening of our presence in the United States. Accordingly, the issuance of warrants to the customer by CTIPL was undertaken on a one-time basis to ensure the customer's long-term commitment in procuring the healthcare offerings from us as per the terms of the commercial arrangement.

As per Ind AS 115, consideration payable to a customer for obtaining a contract is accounted as a reduction of revenue instead of being treated as an expense. Since the benefits from the warrant issuance by our corporate Promoter, CTIPL, which was a non-cash consideration are derived over a period of time, we have recognised a deferred contract cost at the inception of the contract. This shall be amortised on a systematic basis over the tenure of the contract.

The transaction included the following accounting treatment:

In Fiscal 2024, our Company, on a consolidated basis, followed the following accounting treatment:

*Balance Sheet*

- (i) Equity and Liabilities: recognized ₹ 926.15 million as "Other Equity" under the head "Capital contribution from Ultimate Holding Company"
- (ii) Assets: recognized contractual customer assets of ₹ 912.16 million (being the cost of issuing warrants aggregating to ₹ 926.15 million minus amortisation for Fiscal 2024 aggregating to ₹ 13.99 million), of which ₹ 805.03 million classified as "Other non-current assets" and ₹ 107.13 million was classified as "Other current assets".

*Statement of Profit and Loss*

- (i) Recognized net revenue from operations of ₹ 119.26 million from the customer (computed as gross revenue of ₹ 133.25 million minus amortisation of cost of issuance of warrant of ₹ 13.99 million)

In Fiscal 2025, our Company, on a consolidated basis, followed the following accounting treatment:

*Balance Sheet*

- (i) Assets: recognized ₹ 55.34 million as amortisation for Fiscal 2025 and reduced it from "Other non-current and current assets" to the same extent. Post such amortisation, the outstanding balance of unamortised amount as of Fiscal 2025 of contractual customer assets aggregated to ₹ 856.82 million (of which "Other non-current assets" aggregated to ₹ 750.48 million and "Other current assets" aggregated to ₹ 106.34 million)

*Statement of Profit and Loss*

- (i) Recognized net revenue from operations of ₹ 989.28 million from the customer (computed as gross revenue aggregating to ₹ 1,044.62 million minus amortisation of cost of warrant issuance of ₹ 55.34 million).

In six-month period ended September 30, 2024, our Company, on a consolidated basis, followed the following accounting treatment:

*Balance Sheet*

- (i) Assets: recognized ₹ 48.83 million as amortisation for six-month period ended September 30, 2024 and reduced it from "Other non-current and current assets" to the same extent. Post such amortisation, the outstanding balance of unamortised amount as of September 30, 2024 of contractual customer assets aggregated to ₹ 863.33 million (of which "Other non-current assets" aggregated to ₹ 732.57 million and "Other current assets" aggregated to ₹ 130.76 million).

### Statement of Profit and Loss

- (i) Recognized net revenue from operations of ₹ 413.03 million from the customer (computed as gross revenue aggregating to ₹ 461.86 million minus amortisation of cost of warrant issuance of ₹ 48.83 million).

In six-month period ended September 30, 2025, our Company, on a consolidated basis, followed the following accounting treatment:

### Balance Sheet

- (i) Equity and liabilities: recognized ₹ 35.49 million as “Other Equity” under the head “Capital contribution from Ultimate Holding Company”
- (ii) Assets: recognized ₹ 39.56 million as amortisation for six-month period ended September 30, 2025 and reduced it from “Other non-current and current assets” to the same extent. Post such amortisation, the outstanding balance of unamortised amount as of September 30, 2025 of contractual customer assets aggregated to ₹ 852.75 million (of which “Other non-current assets” aggregated to ₹ 665.17 million and “Other current assets” aggregated to ₹ 187.58 million).

### Statement of Profit and Loss

- (i) Recognized net revenue from operations of ₹ 516.64 million from the customer (computed as gross revenue aggregating to ₹ 556.20 million minus amortisation of cost of warrant issuance of ₹ 39.56 million).

While this accounting treatment is consistent with applicable standards, any future challenge to the classification, valuation, or amortization of these warrants whether by auditors, regulators, or other stakeholders could result in restatements, adjustments to our financial statements, or adverse commentary. For further information, see “Restated Consolidated Financial Information – Annexure VII - Statement of Restated Adjustments to the Audited Consolidated Financial Statements - Part B: Material regrouping” on page 462.

The cost of these warrants shall be amortised over the tenure of the commercial agreement with the customer viz by Fiscal 2029. As of September 30, 2025, the unamortized contractual customer assets was ₹ 852.75 million, which will continue to reduce reported revenue over the remaining contract period and will thereby impact our revenue and profitability until fully amortised. Any adverse interpretation of this transaction or its impact on our financial reporting could negatively affect our reputation, revenue from operations, financial condition and cash flows.

### **30. An inability to maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.**

We have obtained insurance policies in connection with our operations including professional liability insurance, general liability plus policy, crime insurance and cyber liability insurance, package policy for assets, and directors’ and officers’ insurance. For further information, see “Our Business – Insurance” on page 319.

The following table sets forth details on our amount of insured assets, insurance coverage made and amount of insured assets for the period/years indicated:

Particulars	As of September 30, 2025	As of		
		March 31, 2025	March 31, 2024	March 31, 2023
Amount of insured assets* (₹ in million)	37.81	34.27	31.21	22.56
Insured assets as percentage of total assets (%)	0.42%	0.41%	0.36%	0.48%
Total insurance premium costs <sup>(1)</sup> (₹ in million)	10.95	16.26	8.37	5.40

\* Insured assets include: Electronic software development unit, portable equipment-software and portable equipment

(1) Total insurance premium cost includes all the insurance taken by our company as per note no. 28 of Restated Consolidated Financial Information.

Note: The table is exclusive of insurance taken except for on assets of our Company and its Subsidiaries.

In relation to assets where the value is not ascertainable, our Company and our Subsidiaries have total insurance cover of ₹ 9,781.09 million for active insurance policies as at September 30, 2025. Further, under a cyber security

insurance policy taken under our Subsidiary, CTL we have filed for an insurance claim of ₹ 76.86 million in Fiscal 2025 on account of claim due to alleged incorrect reporting of consumed points as expired. While there were no other claims made against our existing policies during the six-month period ended September 30, 2025 and in Fiscal 2025, 2024 and 2023, we cannot assure you that the aforementioned claim will be in our favor or there will be no such instances in the future which may impact our results of operations.

While there have not been any instances during the six-month period ended September 30, 2025 and in the past three Fiscals, where claims made by us have exceeded the insurance coverage obtained by us and we believe that the insurance coverage which we maintain would be reasonably adequate to cover the normal risks associated with the operation of our business, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. Our insurance policies may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance or exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial condition may be adversely affected.

***31. Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders' approval.***

We propose to utilise the Net Proceeds towards (i) funding our cloud infrastructure cost; (ii) investment in research, designing and development of our products and platform; (iii) investment in purchase of computer systems for our business; and (iv) funding inorganic growth through unidentified acquisitions and general corporate purposes. For further information of the proposed objects of the Offer, see “*Objects of the Offer*” on page 158. The planned use of the Net Proceeds is based on current conditions and is subject to changes in external circumstances, costs, other financial conditions or business strategies. The deployment of the Net Proceeds is based on management estimates, current circumstances of our business, prevailing market conditions and has not been appraised by any bank, financial institution or other independent party. These estimates may be inaccurate, and we may require additional funds to implement the purposes of the Issue. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. Any delay in our schedule of implementation may cause us to incur additional costs. Such time and cost overruns may adversely impact our business, financial condition, results of operations and cash flows. Further, pending utilization of Net Proceeds towards the Objects of the Issue, our Company will have the flexibility to deploy the Net Proceeds and to deposit the Net Proceeds temporarily in deposits with one or more scheduled commercial banks included in Second Schedule of Reserve Bank of India Act, 1939, as may be approved by our Board or a duly constituted committee thereof. In accordance with Sections 13(8) and 27 of the Companies Act 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake a variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the objects of the Offer or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on the Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, or vary the terms of any contract referred to in the Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

***32. Our Promoter, CTIPL is interested in businesses similar to ours, which may result in conflicts of interest.***

Our Promoter, CTIPL has made certain investments in the past, which, according to their charter documents engage in businesses similar to ours, which may result in conflicts of interest. For further information, see “*Our Promoters and Promoter Group*” on page 384. We cannot assure you that our Promoter, CTIPL will not compete with our existing business or undertake any competing business in future, or any future business that we may undertake or that its interests will not conflict with ours. Further, in cases of conflict, there can be no assurance that our Promoter, CTIPL will not favour any of their interests in such other businesses. Any such future conflict, or situations where our Promoter, CTIPL decides to divert opportunities or conduct business through their other business interests, could have a material adverse effect on our business, reputation, results of operations, financial condition, and cash flows.

**33. Inability to attain desired customer growth amid rising customer acquisition costs may adversely affect our business, results of operations, financial condition and cash flows.**

Our customer acquisition costs have increased significantly during the six-month period ended September 30, 2025 and September 30, 2024 and the last three Fiscals, while our total number of customers has declined. This increase was primarily driven by higher sales and marketing expenditures aimed at expanding our presence in North America and acquiring new customers. Set forth below are details regarding our customer acquisition cost for the periods/years indicated:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023
Customer acquisition cost <sup>(1)</sup> (₹ million)	654.81	505.74	1,067.95	872.57	535.85
Customer acquisition cost, as a percentage of Net Revenue (%) <sup>(2)</sup>	18.23%	17.61%	17.85%	18.05%	25.88%

(1) Customer acquisition cost is computed as is computed sales and marketing spends plus / (minus) the loss / (profit) earned on installation income.

(2) Customer acquisition cost, as a percentage of Net Revenue (%) is calculated as sales and marketing spends plus / (minus) the loss / (profit) earned on installation income divided by Net Revenue multiplied by 100 for the respective period/Fiscal.

Set forth are certain details regarding our customer base as of the dates indicated:

Particulars	September 30, 2025	March 31, 2025	March 31, 2024	March 31, 2023
Number of customers	110	98	111	112

Due to a reduction in profit earned from installation income from ₹ 53.43 million in the six-month period ended September 30, 2024 to a loss of ₹ 153.90 million in the six-month period ended September 30, 2025 and from ₹ 229.88 million in Fiscal 2024 to ₹ 21.29 million in Fiscal 2025, respectively, our CAC, increased by 29.48% for six-month period ended September 30, 2025 from ₹ 505.74 million for six-month period ended September 30, 2024 to ₹ 654.81 million for six-month period ended September 30, 2025 and by 22.39% from ₹ 872.57 million in Fiscal 2024 to ₹ 1,067.95 million in Fiscal 2025.

The reduced profitability from installation income is primarily attributable to platform migration projects undertaken for our customers acquired through inorganic expansion, where our strategy of offering attractive migration plans to the customers have resulted in reduced margins from these projects. Further, two acquisitions in Fiscal 2024 combined with a corresponding increase in CAC compared to Fiscal 2023, have contributed to this trend as a result of business expansion & increased sales and marketing personnel and non-personnel costs where resources for new customer acquisition and existing customer expansion were integrated during the period. If we are unable to effectively manage our customer acquisition costs, improve customer retention, or successfully convert acquired customers to our platform, our business, financial condition, cash flows, and results of operations may be adversely affected.

**34. The market for platform loyalty-tech and Martech solutions is subject to certain threats and challenges, which if materialize, may adversely affect our business, results of operations, financial condition and cash flows.**

We operate in a rapidly evolving SaaS environment, particularly within the loyalty-tech and customer engagement

domains. This exposes us to a range of business, operational and market-related risks. We face intense competition from global SaaS providers, niche players and traditional loyalty agencies increasingly adopting AI and automation. To maintain our market position, we must continuously differentiate our offerings and innovate as technological disruption and shifting customer expectations demand ongoing product evolution. Failure to keep pace with developments in AI, automation and data privacy may reduce the relevance of our solutions.

In addition, customer retention is critical for our business, given our reliance on long-term enterprise contracts. Delays in renewals, loss of key accounts or reduced customer spending due to macroeconomic conditions could adversely impact our financial performance. Our global operations also expose us to regulatory, geopolitical and foreign exchange risks and inadequate cross-border compliance or limited regional diversification may disrupt our international business. Talent acquisition and retention are essential for scaling, particularly in competitive markets such as India and Singapore. Increased competition for skilled professionals may lead to higher employee costs and execution challenges. We also handle sensitive customer data across sectors. While there have not been any such instances during the six-month period ended September 30, 2025 and in the last three Fiscals, any breach or failure in data governance could result in reputational damage, legal exposure and regulatory scrutiny. For further information, see “*Industry Overview – Threats and challenges to Capillary products and services*” on page 266.

**35. If the carrying value of our goodwill and other intangible assets is impaired or amortization expenses remain high, our business, financial condition, results of operations may be adversely affected.**

We have recognized significant goodwill and intangible assets as a result of our acquisitions. Set forth below are certain details our goodwill and other intangible assets as at the periods/ years indicated:

Particulars	As at September 30, 2025	As at September 30, 2024	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
Goodwill (₹ million)	2,910.53	1,847.66	1,884.98	1,838.44	1,652.92
Goodwill as a percentage of our total assets (%)	32.62%	23.51%	22.48%	21.11%	35.44%
Other Intangible assets (₹ million)	1,489.63	911.14	1,030.39	1,111.88	543.87
Other Intangible assets as a percentage of our total assets (%)	16.69%	11.59%	12.29%	12.76%	11.66%

For further information see, “*Restated Consolidated Financial Information – Note – 5 - Other Intangible assets and Intangible Assets Under Development*” on page 419.

The carrying value of goodwill and intangibles is dependent on our management estimates of the future performance of the acquired businesses, expected synergies and projected cash flows. If our acquired businesses fail to perform in line with expectations or if there are adverse changes in the business, industry, economic or regulatory environment, we may be required to record impairment losses. Any such impairment could have a material adverse effect on our results of operations, financial condition and prospects.

Further, amortisation of intangible assets arising from these acquisitions constitute a significant non-cash expense and materially reduces our reported profitability, although it does not impact our operating cash flows. For further information on our acquisitions see, “*Our Business – Our Growth Path*” on page 276.

Set forth below are certain details our amortisation of intangible assets for the periods/ years indicated:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023
Amortisation of intangible assets (₹ million)	323.15	281.79	539.03	510.83	321.25
Amortisation of intangible assets as a percentage of our total assets (%)	3.62%	3.59%	6.43%	5.86%	6.89%

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023
Amortisation of intangible assets as a percentage of our EBITDA (%)	81.15%	117.06%	68.60%	(3,426.09)%	(55.07)%

Our Company conducts an impairment assessment for goodwill at each reporting date in accordance with the applicable accounting standards. Based on the assessment performed, no impairment loss has been recognised in the past. Recurring amortisation charges, together with any potential impairment losses, could materially and adversely impact our net profit, net worth and return on equity, and may also adversely affect investor perception of our financial performance. Accordingly, our significant goodwill and intangible assets, and the heavy amortisation associated with them, may expose us to the risk of material adverse effects on our business, financial condition, results of operations and prospects.

**36. We are unable to trace some of our corporate records such as challans for certain form filings. Further, there have been delays in relation to reporting requirements like failure to file certain forms with RBI in respect of issuance of securities by our Company within the prescribed timelines and have compounded such delays under FEMA, 1999 and the rules made thereunder and paid the compounding fee. Further, we had also filed a compounding application before the Company Law Board, Chennai, in connection with the delay in holding the annual general meeting of our Company. We cannot assure you that no legal proceedings or regulatory actions will be initiated against us in the future in relation to any such discrepancies.**

Certain of our Company's challans with respect to the Form-2 filed in relation to allotments dated May 4, 2012; May 30, 2012 and December 29, 2012 and July 1, 2013 are not traceable as the relevant information was not available in the records maintained by our Company or on the online portal of the Ministry of Corporate Affairs.

Additionally, in relation to the allotments made to our Promoter, CTIPL, there have been delays in reporting the foreign in-ward remittances and delay in filing of certain form FC-GPRs under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 ("TISPRO Regulations"), beyond the stipulated period of 30 days. For further details in relation to the transactions where there have been delays, please see "Capital Structure – Equity Share capital history of our Company" on page 121. We had sought compounding of the delay in foreign inward remittances and delay in FC-GPRs, both of which were compounded by RBI with a penalty of ₹ 0.31 million for the delay in reporting inward remittances and a penalty of ₹ 0.98 million for the delay in FC-GPRs, each of which were paid by our Company. While non-compliances in respect of regulatory filings are reviewed by our compliance divisions, we cannot assure you that our compliance systems will be successful at all times in identifying such non-compliances. If we are subject to any further penalties or other regulatory actions under provisions of FEMA, our reputation could be adversely affected. In addition to the above, there have been certain delays in filing of the form FC-GPR with respect to the allotments dated March 29, 2023, September 29, 2023, October 5, 2023 and February 23, 2024, for which the late fees was paid by our Company.

Further, for the financial year ending March 31, 2013, we could not convene our annual general meetings within the timeline as stipulated under Section 166 of the Companies Act, 1956. Consequently, we suo moto filed a compounding application under section 621A of the Companies Act, 1956 before the Registrar of Companies, Karnataka at Bengaluru, praying for compounding the offence relating to contravention of section 166 of the Companies Act, 1956, which was later forwarded to the Company Law Board, Chennai ("CLB"). The application was heard by the CLB, and in accordance with the order dated August 27, 2015, we, along with our then Directors, were instructed to remit a compounding fee aggregating to an amount of ₹ 0.18 million with the Ministry of Corporate Affairs, Chennai which was remitted by our Company. The CLB subsequently, pursuant to an order dated September 8, 2015, had compounded the offence against us.

We cannot assure you that RBI or any other regulatory authorities or courts will not take any action(s) or initiate proceeding(s) against us in relation to such regulatory filings or corporate actions or that we will not be subject to any penalties imposed by the relevant regulatory authority in this respect. Any such action could have an adverse effect on our business, impact our operations, effect cash flows and financial condition.

**37. We have contingent liabilities and our financial condition could be adversely affected if any of these contingent liabilities materialize.**

As of September 30, 2025, September 30, 2024 and March 31, 2025, 2024, 2023, our contingent liabilities as per Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets basis the Restated Consolidated Financial Information of our Company, were as follows:

Particulars	As of September 30, 2025		As of March 31,		
	2025	2024	2025	2024	2023
	(₹ million)				
Bank guarantees outstanding	3.91	3.91	3.91	3.91	4.68

Note: The Honourable Supreme Court of India in the month of February 2019 had passed a judgement relating to definition of wages under the Provident Fund Act, 1952. The management is of the view that there are interpretative challenges on the application of the judgement retrospectively. In the absence of reliable measurement of the provision for earlier periods/years, the Company has made a provision for provident fund contribution pursuant to the judgement only from the date of Supreme Court Order. The Company will evaluate its position and update its provision, if required, on receiving further clarity on the subject. The Company does not expect any material impact of the same.

We also cannot assure you that we will not have any additional contingent liabilities in future. If any such contingent liabilities materialize or if at any time, we are compelled to pay all or a material proportion of these contingent liabilities, our financial condition and results of operation may be adversely affected.

**38. If the prices we charge for our solutions and services are unacceptable to our customers, our business, results of operations, financial condition and cash flows will be adversely affected.**

As the market for our solutions matures, or as new or existing competitors introduce new products or services that compete with ours, we may experience pricing pressure on account of pricing becoming unacceptable to our customers and accordingly, we may be unable to renew our agreements with existing customers or attract new customers based on our current pricing model. We cannot assure you that, in future we will not be required to change our pricing model or reduce our prices, which could adversely affect our revenue, gross margin and operating results. Pricing decisions may also impact the mix of adoption among our subscription models, and negatively impact our overall revenue. If we are, for any reason, required to reduce our prices, our revenue from operations, profitability, financial position and cash flow may be adversely affected.

We typically adopt the following approach for pricing our services: (i) Subscription: our SaaS subscription pricing model is based on the number of loyalty transactions processed annually, the active loyalty members on the platform, and the number of stores using our platform. In addition, subscription revenues from our Rewards+ platform depend on the type and volume of offers redeemed. By dynamically linking our prices to metrics related to platform activity and service usage, we ensure that our revenue grows as customers expand their use of our solutions across multiple regions or divisions, supporting long-term account value growth; (ii) Campaigns: fees paid by customers to us for every message including text messages, email or ad-words that they send out from our platform; and (iii) Setup: setup revenues are revenues we charge customers for the integration / configurations to our platform to take a customer live. For further information, see “Our Business – Contractual Terms and Pricing” on page 315. While in the last five years, we have not changed our pricing model, we may be required to otherwise change our pricing model from time to time, including as a result of competition, global economic conditions, general reductions in our customers’ spending levels, pricing studies, or changes in how our products are broadly consumed.

We have introduced the following new products and features for the years indicated:

Particulars	Year of Launch
Launch of Multiple Loyalty Programs (‘MLP’) for organisation-unified loyalty programs across brands, stores and countries.	Fiscal 2023
Industry vertical specific customised User Interface (‘UI’) on Insights+.	Fiscal 2023
Launch of Journeys in Engage+, our connected engagement platform (engagement automation interface that enables creation of scenario-based flows to engage with customers throughout their lifecycle).	Fiscal 2023
Launch of aiRA (Our AI research assistant for content marketers) across our product suite.	Fiscal 2024
Enhancement of aiRA capabilities (creatives co-pilot, promotions co-pilot and aiRA for mobile push notifications)	Fiscal 2024
Launch of Promotions 2.0 on Loyalty+, now allowing brands to club diverse promotions together, cross-sell products and create offers that can be unlocked by a specific target segment	Fiscal 2024
Development of Rewards+ post acquisition of Digital Connect from Tenergy Group	Fiscal 2024

Particulars	Year of Launch
Vulcan framework on <i>Insights+</i> , a customisable UI allowing users to create customised UI screens & embed them on Capillary platform.	Fiscal 2025
Cashback engine, offer quality control management and customer segmentation enhancements in <i>Rewards+</i>	Fiscal 2025

Moreover, as we continue to target selling our products and services to larger organisations, who account for a large portion of our business, these larger organisations may demand substantial price concessions. If we are unable to modify or develop pricing models and strategies that are attractive to existing and prospective customers, while enabling us to significantly grow our sales and revenue relative to our associated costs and expenses in a reasonable period of time, our business, cash flows, financial condition, and results of operations may be adversely impacted. For further information, see “- *We may be unable to attract new customers in a cost-effective manner which may adversely affect our business, cash flows, results of operations and financial condition.*” on page 38.

**39. *Grants of stock options under our employee stock option plans may result in a charge to our statement of profit and loss and will, to that extent, reduce our profits or increase our losses.***

Our Company, pursuant to the resolutions passed by our Board in its meeting dated October 29, 2021 and our Shareholders in its meeting dated October 29, 2021, adopted ESOP 2021. For further information, see “*Capital Structure*” on page 120. As on the date of this Red Herring Prospectus, we have granted options under our ESOP 2021 and may in future grant further options or establish other employee stock option schemes or plans, under which eligible employees may participate, subject to the requisite approvals having been obtained.

ESOP 2021 has been prepared to attract and retain talent in and within our Company, encourage employees to strive to perform better and incentivize such employees who exhibit traits appreciated by our Company. The vesting schedule is to be determined by the administrator of ESOP 2021 with a minimum gap of one year between the grant of options and the first vesting schedule. Out of total options, i.e., 7,291,000 options, which is 9.94 % of the paid-up share capital of our Company as on the date of this Red Herring Prospectus, 2,961,948 options are outstanding which is 4.04% of the paid-up share capital of our Company as on the date of this Red Herring Prospectus. One option will be equal to one Equity Share of our Company, accordingly, there shall be dilution of capital at the time of exercise of such options in accordance with its vesting schedule. ESOP 2021 is in compliance and shall continue to be in compliance with the SEBI SBEB Regulations. For further information see, “*Capital Structure - Notes to Capital Structure – Employee stock option scheme*” on page 152.

Our Company follows the fair value method for the accounting of employee compensation cost on options granted, pursuant to which the fair value of options on the date of grant is recognized in our profit and loss statement equal to the product of the number of Equity Shares granted and the fair value as at the date of grant on a straight line basis over the graded vesting period of options, the minimum period being one year from the date of grant of options. The granted options remaining valid and outstanding at the end of each Fiscal will get fair valued and our Company will record in its profit and loss account, employee stock option expenses equivalent to the number of options vesting in that respective Fiscal multiplied by the fair value of each option so determined. Out of the 2,961,948 options outstanding of our Company as on the date of this Red Herring Prospectus, the following table sets forth the number of options due to vest in the current and upcoming Fiscals:

Particulars	Fiscal 2027	Six-months period ended March 31, 2026
Number of options vesting	1,034,595	103,773

Under Ind AS, the grant of stock options under ESOPs will result in a charge to our statement of profit or loss under share based payments expenses equal to the fair value of options as at the date of grant. The fair value of options will be amortized over the vesting period of these stock options. Pursuant to the one-time grant, we have experienced an increase in the charge to our statement of profit or loss in Fiscal 2023 compared with that in the six-month period ended September 30, 2025, Fiscal 2025 and 2024.

Further, we may continue to introduce similar employee stock option schemes in the future, where we issue options to our employees at substantial discount to the market price of Equity Shares, which may have an adverse impact on our results of operations and financial condition and also dilute the holding of shareholders in our Company.

**40. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.***

We have in the ordinary course of business entered into transactions with related parties in the past and from time to time, we may enter into related party transactions in the future. For details regarding our related party transactions during the six-month period ended September 30, 2025 and September 30, 2024 and for the Financial Years 2025, 2024 and 2023, see “*Summary of the Offer Document – Summary of related party transactions*” on page 27 and “*Financial Statements – Restated Consolidated Financial Information – Note 35 Related Party Disclosures under Ind AS-24*” on page 445. Our related party transactions primarily include remuneration to our KMPs and their relatives, directors’ sitting fees, issuance of equity shares, payment of interest on borrowings, etc. While all such transactions have been conducted on an arm’s length basis, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. Further, it is likely that we may enter into additional related party transactions in the future.

The transactions with our related party customers have been conducted in the ordinary course of business, in accordance with the provisions of applicable laws and on an arm’s length basis and have not been prejudicial to the interests of our Company. It is likely that we will continue to enter into such related party transactions in the future. Some of these transactions may require capital outlay and there can be no assurance that we will be able to make a return on these investments. Although all related-party transactions that we may enter into will be subject to our audit committee, board of directors or shareholder approval, as may be required under the Companies Act, 2013 and the SEBI Listing Regulations, we cannot assure you that such transactions, individually or in the aggregate, will perform as expected/ result in the benefit envisaged therein, or that we could not have undertaken such transactions on more favourable terms with any unrelated parties.

***41. We are required to comply with certain restrictive covenants under our financing agreements. Any non-compliance may lead to, amongst others, accelerated repayment schedule, enforcement of security and suspension of further drawdowns, which may adversely affect our business, results of operations, financial condition and cash flows.***

Some of the financing arrangements entered into by us include conditions that require our Company to obtain respective lenders’ consent prior to carrying out certain activities and entering into certain transactions. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Some of the corporate actions that require prior consents from certain lenders include, amongst others, changes to the (a) capital structure or shareholding pattern of our Company or Promoters, (b) ownership or control of our Company, (c) management of our Company and (d) constitutional documents of our Company. While we have received consents from lenders as required for the purposes of this Offer, failure to comply with such covenants in the future may restrict or delay certain actions or initiatives that we may propose to take from time to time. There are no subsisting instances of defaults or overdue in repayment of loans (principal or interest) by our Company and its Subsidiaries in the six-month period ended September 30, 2025 and the last three years, except certain delays in payment of interest and principal for one of our lenders, Innoven Capital India Private Limited in Fiscals 2024 and 2023. For further information see “*Restated Consolidated Financial Information – Annexure VII - Statement of Restated Adjustments to the Audited Consolidated Financial Statements*” on page 462.

While there have been no other instances of defaults in debt servicing made by our Company or our Subsidiaries and accordingly no actions have been taken by any lender, we cannot assure you that any of the lenders will not take any action in future in respect of such defaults by our Company.

A failure to observe the covenants under our financing arrangements or to obtain necessary consents/ waivers may lead to acceleration of amounts due under such facilities and triggering of cross default provisions. If the obligations under any of our financing documents are accelerated, we may have to dedicate a portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. In addition, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing.

***42. Failure to protect our intellectual property rights could adversely affect our business and our brand.***

Companies in the software and technology industries, including some of our current and potential competitors, own large numbers of patents, copyrights, trademarks and trade secrets and frequently enter into litigation based on allegations of infringement or other violations of intellectual property rights. In addition, many of these companies have the capability to dedicate substantially greater resources to enforce their intellectual property rights and to defend claims that may be brought against them. Such third parties, including certain of these leading

companies and non-practicing entities, may assert patent, copyright, trademark or other intellectual property rights against us, our technology partners or our customers.

We take care to ensure that we comply with the intellectual property rights of third parties and we do not have any ongoing disputes and have not received any alleged infringement claims in the past, we cannot determine with certainty whether we are infringing upon any existing third-party intellectual property rights. There may be third-party intellectual property rights, that cover or claim to cover significant aspects of our technologies or business methods. We may be exposed to increased risk of being the subject of intellectual property infringement claims as a result of acquisitions, as, among other things, we have a lower level of visibility into the development process with respect to such technology or the care taken to safeguard against infringement risks. Any intellectual property claims, with or without merit, could be very time-consuming, could be expensive to settle or litigate and could divert our management's attention and other resources. These claims could also subject us to significant liability for damages, potentially including enhanced statutory damages if we are found to have willfully infringed patents or other intellectual property rights. These claims could also result in our having to stop using technology found to be in violation of a third-party's rights. We might be required to seek a license for the intellectual property, which may not be available on reasonable terms or at all. Even if a license were available, we could be required to pay significant royalties, which would increase our operating expenses. Such risks will increase as we continue to expand our operations and product offerings. As a result, we may be required to develop alternative non-infringing technology, which could require significant effort and expense. If we cannot license or develop technology for any infringing aspect of our business, we would be forced to limit or stop sales of our offerings and may be unable to compete effectively. While such claims by third parties have not been made to us historically, the occurrence of any of the foregoing would adversely affect our business operations and financial results.

Likewise, we possess particular intellectual property rights as well. Our success and ability to compete depends, in part, on our ability to protect our trade secrets, trademarks, know-how, confidential information, proprietary methods and technologies and other intellectual property and proprietary rights, so that we can prevent others from using our inventions, proprietary information and property. We generally rely on common law trade secret and trademark laws, and confidentiality or license agreements with our employees, consultants, vendors, customers and other third parties, and generally limit access to and distribution of our proprietary information, in order to protect our intellectual property rights and maintain our competitive position. However, we cannot guarantee that the steps we take to protect our intellectual property rights will be effective.

As on the date of this Red Herring Prospectus, our Company owns ten valid and registered trademarks in India, which were initially assigned to our Material Subsidiary, CPL by our Promoter under the deed of assignment of intellectual property dated November 20, 2021 and February 26, 2023 and further assigned by CPL to our Company pursuant to the deed of assignment of intellectual property dated February 28, 2023, for which we have valid registration certificates from the Trade Marks Registry, Government of India under the Trade Marks Act, 1999, as amended ("**Trade Marks Act**"). Additionally, as on the date of this Red Herring Prospectus, our Company has made applications for registration/renewal of 23 trademarks under various classes before the Trade Marks Registry under the Trade Marks Act, which are pending at various stages in India. Further, our Company has made applications for the registration of three trademarks under classes 9, 35 and 42, before the United States Patent and Trademark Office, which are pending under the status "LIVE/APPLICATION/Awaiting Examination". Additionally, Capillary Brierley and Capillary Technologies Inc. have provided consent to our Company to use any of its intellectual property rights under its respective consent letters, each dated April 1, 2024. Furthermore, CTIPL and CPL have provided consent under consent letter dated April 1, 2024 to our Company to use two patents, one registered in the United States and one registered in Singapore. For further information, see, "*Government and Other Approvals – Intellectual Property - Material Subsidiaries*" on page 538.

As we expand our activities globally, our exposure to unauthorised copying and use of our products and platform capabilities and proprietary information will likely increase. We are currently unable to measure the full extent of this unauthorised use of our products, platform capabilities, software, and proprietary information. We believe, however, that such unauthorised use can be expected to be an issue that negatively impacts our revenue and financial results. Additional uncertainty may result from recent and future changes to intellectual property legislation and from interpretations of the intellectual property laws by applicable courts and agencies. Further, although we endeavour to enter into non-disclosure agreements with our employees, licensees and others who may have access to confidential and proprietary information, we cannot assure that these agreements or other steps we have taken will prevent unauthorised use, disclosure or reverse engineering of our technology. Moreover, third parties may independently develop technologies or products that compete with ours, and we may be unable to prevent this competition.

We might be required to spend significant resources to defend, monitor, and protect our intellectual property rights, such as by initiating claims or litigation against third parties for infringement of our proprietary rights or to establish the validity of our proprietary rights. However, we may not prevail in any lawsuits that we initiate, and the damages or other remedies awarded, if any, may not be adequate to compensate us for the harm suffered. Additionally, we may provoke third parties to assert counterclaims against us. Any litigation, whether or not it is resolved in our favour, could result in significant expense to us and divert the efforts of our technical and management personnel, which may adversely affect our business operations or financial results. For any of these reasons, despite our efforts, we may be unable to prevent third parties from infringing upon or misappropriating our intellectual property. If we fail to protect our intellectual property rights adequately, our competitors might gain access to our technology or use of our brand, and our business and brand might be adversely affected.

**43. Our brand is integral to our success. If we fail to effectively maintain, promote and enhance our brand, our business and competitive advantage may be harmed.**

We believe that maintaining, promoting and enhancing our “Capillary” brand and our various product brands is critical to maintaining and expanding our business. Maintaining and enhancing our brand depends largely on our ability to continue to provide quality, well-designed, useful, reliable, and innovative SaaS solutions, which we cannot assure you we will do successfully.

We believe the importance of brand recognition will increase as competition in our market increases. In addition to our ability to provide reliable and useful SaaS solutions at competitive prices, the successful promotion of our brand will also depend on the effectiveness of our marketing efforts. We market our platform and products through our direct sales force, regional channels partners, and a number of free traffic sources, including customers’ word-of-mouth referrals, and participate in events, blogs and getting featured on product review websites. We have incurred and expect to incur significant costs and expenses to market our brand and we intend to continue such efforts. Set forth below are certain details regarding our business promotion expenditure:

Particulars	Six-month period ended September 30,				Fiscal					
	2025		2024		2025		2024		2023	
	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)
Business promotion expenses	55.24	1.54%	60.95	2.12%	117.81	1.97%	110.85	2.11%	120.35	4.71%

We cannot assure you, however, that our business promotion expenses will lead to increasing revenue, and even if they did, such increases in revenue might not be sufficient to offset the expenses incurred.

**44. Issues related to the development and use of artificial intelligence (“AI”), including generative AI (“Gen AI”) could lead to changes in our customers’ operations, give rise to legal and/or regulatory action, damage our reputation or otherwise materially harm our business. The integration of Gen AI in our tools and platforms also exposes us to additional data security and privacy risks.**

We currently incorporate AI technology in certain of our services and solutions and in our business operations. Our research and development of such technology remains ongoing. AI presents risks, challenges, and unintended consequences that could affect our and our customers’ adoption and use of this technology. The implementation of AI will not completely eliminate the need for jobs for humans. AI algorithms and training methodologies may be flawed. Additionally, AI technologies are complex and rapidly evolving, and we face significant competition in the market and from other companies regarding such technologies. The adoption of Gen AI by various industries could lead to changes in our customers’ operations. By adopting Gen AI, our customers may develop in-house capabilities which could impact the extent to which customers rely on us and reduce their need for our services.

While we aim to develop and use AI responsibly and attempt to identify and mitigate ethical and legal issues presented by its use, we may be unsuccessful in identifying or resolving issues before they arise. AI-related issues, deficiencies and/or failures could (i) give rise to legal and/or regulatory action, including with respect to proposed legislation regulating AI in jurisdictions such as the United States and the United Kingdom, and as a result of new applications of existing data protection, privacy, intellectual property, and other laws; (ii) damage our reputation; or (iii) otherwise materially harm our business.

In addition, we have been integrating Gen AI into our own tools and platforms. Integrating Gen AI poses significant data privacy and security risks. While Gen AI offers significant benefits, it also has its own unique challenges. Any unintended breach of our data could adversely impact our business and reputation. Further, Gen AI is still an evolving technology. Our ability to develop and implement up-to-date Gen AI offerings in a timely or cost-effective manner will impact our ability to retain and attract customers and our future revenue growth and earnings.

Moreover, staying compliant with evolving laws, regulations, and industry standards pertaining to AI may impose significant operational costs and constrain our ability to develop, deploy, or employ AI technologies. Failing to adapt appropriately to this evolving regulatory environment could result in legal liability, regulatory actions, and damage to our brand and reputation. There have been certain initiatives undertaken by government agencies in India regarding the regulation of AI such as the National Strategy for Artificial Intelligence, introduced by NITI Aayog in June 2018, which emphasizes the need to align India's regulatory standards with global norms to ensure that its AI technologies are globally competitive and compliant with international human rights standards by proposing a two-tiered structure to address India's AI research aspirations. These include (a) the Centre of Research Excellence ("CORE") focused developing better understanding of existing core research and pushing technology frontiers through creation of new knowledge, and (b) International Centers of Transformational Artificial Intelligence ("ICTAI") with a mandate of developing and deploying application-based research. Private sector collaboration is envisioned to be a key aspect of ICTAIs. For further information applicable to technology, AI, data security and privacy risks, see "*Key Regulations and Policies in India*" beginning on page 325.

#### **45. We are subject to risks associated with expansion into new geographic regions.**

We conduct our business across emerging and developed markets and serve customers across countries primarily in Asia and in North America. As of September 30, 2025 we operate on a global scale, serving customers in 47 countries, across India, United States, United Kingdom, Germany, Netherlands, United Arab Emirates, Saudi Arabia, Singapore, Indonesia, Malaysia, Thailand, Vietnam, Philippines, Japan, Australia and New Zealand. As of the date of this Red Herring Prospectus, we are in the process of shutting down our China office owing to a strategic shutdown of our China operations, which included five customers that generated revenue of ₹ 44.83 million in Fiscal 2023. The shutdown is due to low growth rates in recent years, both in acquiring new customers and expanding existing ones. The markets in which we operate are diverse and fragmented, with varying levels of economic and infrastructure development and distinct legal and regulatory systems, and do not operate seamlessly across borders as a single or common market.

Expansion into new geographic regions subjects us to various challenges, including those relating to our lack of familiarity with the culture, local laws and regulations and economic conditions of these new regions, language barriers, difficulties in staffing and managing such operations, and the lack of brand recognition and reputation in such regions. For instance, we are focussing on our go-to-market efforts towards expanding in the United States. We are also in the process of identifying other acquisition targets in the loyalty and allied spaces that could complement our existing portfolio and also allow us to tap the market in the United States. Further, we intend to continue exploring inorganic opportunities for expansion, and venture selectively and prudently into other evolved markets like Europe. For further information, see "*Our Business – Strategies – Expand Presence in the United States and Pursue Further Acquisitions in North America and Other Regions*" on page 301. The risks involved in entering new geographic markets and expanding operations, may be higher than expected, and we may face significant competition in such markets.

By expanding into new geographical regions, we could be subject to additional risks associated with establishing and conducting operations, including: compliance with a wide range of laws, regulations and practices, including uncertainties associated with changes in laws, regulations and practices and their interpretation; foreign ownership constraints and uncertainties with new local business partners; local language preferences and service requirements; fluctuations in foreign currency exchange rates; inability to effectively enforce contractual or legal rights and adverse tax consequences; differing accounting standards and interpretations; stringent as well as differing labour and other regulations; differing domestic and foreign customs, tariffs and taxes; exposure to expropriation or other government actions; political, economic and social instability; attracting quality talent in new geographies; physical presence of offices; understanding of local employment laws; and adherence to local data security requirements and laws.

Further, the regulatory regime in some of the territories we operate in continues to evolve at a rapid pace and may be unclear or inconsistent or open to conflicting interpretation. A number of our agreements with customers are governed by laws other than Indian law. We cannot assure you that in the event of a dispute under such agreements, we will be able to successfully defend our position, and any adverse decision may adversely impact our financial

position, results of operations and cash flows. If we are unable to manage our global operations successfully, our financial results could be adversely affected, which may impact profit margins or make it increasingly difficult for us to conduct business in foreign markets.

We intend to continue to expand our offerings, as well as our customer base, within existing regions where we operate and to various other jurisdictions and in particular, North America. We may have limited or no experience in marketing, developing and deploying our offerings in such jurisdictions, and may require considerable management attention and resources for managing our growing business across markets. Further, any restriction on repatriation of money to India from countries where we have operations, may result in overexposure on the cash being accumulated for our overseas operations, which may have an adverse impact on our cash flows, results of operations and profitability.

***46. Our Company is, and will continue to be, a foreign owned and controlled company under Indian law, and will be subject to certain restrictions under law in its capacity as a foreign owned and controlled company.***

Our Company is, and following the listing of our Company on the Stock Exchanges, shall continue to be, a foreign owned and controlled company in terms of the foreign exchange regulations in India, which may restrict our ability to obtain domestic borrowings for purposes of making capital investments in Indian companies. Further, as a company incorporated in India, our Company is also subject to foreign exchange regulations relating to investments and reporting requirements for any foreign investments received by our Company. Further, in the event that our Company or Subsidiaries hold any investments or businesses in a foreign jurisdiction, it shall be subject to the extant foreign exchange regulations in respect of outbound investments, and the ability of our Company or any of our Subsidiaries to make such investments depends on the limits available to the investing entity for making overseas direct investments. If we are unable to raise additional funds on acceptable terms, or at all, our business, results of operations and financial condition may be adversely affected.

***47. We recognize revenue over the term of our customer contracts. Consequently, downturns or upturns in new sales may not be immediately reflected in our operating results and may be difficult to discern.***

We generally recognize revenue from subscriptions for our products and solutions over the term of the subscription. As such, downturns or upturns in new business may not be immediately reflected in our operating results. We generally recognize revenue from customers over a term of 12 to 60 months. As a result, most of the revenue we report in each quarter is the result of continued and new contracts during previous quarters. Consequently, a decline in new or renewed subscriptions in any one quarter may not be reflected in our revenue results for that quarter. Any such decline, however, will negatively impact our revenue in future quarters. Accordingly, the effect of significant downturns in sales and market acceptance of our products and solutions, and changes in our attrition rate, may not be fully reflected in our results of operations until future periods. Our revenue model also makes it difficult for us to rapidly increase our revenue through additional sales in any period, as revenue from new customers must be recognized over the applicable term.

***48. We are subject to certain obligations under our master service agreements with our customers and a failure to comply with standards required by our customers under our master service agreements with our customers could harm our reputation, result in product liability claims and significant costs to us, impair our ability to enter into future contracts in relation to our platform and products, and serve our existing customers.***

Our services and solutions are typically subject to stringent scheduling requirements, extensive technical specifications and other obligations, including in relation to data security, as specified by our customers in their respective master service agreements with us. Some of our contracts with our customers also involve exclusivity arrangements including with respect to proprietary rights for use of software and intellectual property or unique pricing terms, compliance of which could impact our business, cash flows, prospects, results of operations, and financial condition. Further, for any variations in such specifications or our obligations, we are typically required to discuss with and / or obtain prior consent from our customers and as mutually agreed between the parties to the respective contracts. Our agreements also require us to indemnify our customers for losses arising out of, among other things, non-performance or breach of our obligations, infringement of intellectual property rights and negligence. We have a professional indemnity insurance in place which covers our product liability claims. Typically, the liability of our Company extends to annual subscription fees for the first three years of the agreement any other remedy as may be available to the customers under the applicable law. In certain contracts, the liability could even extend beyond the contract value especially in cases of security and/or data leakage. While we have not incurred any loss arising out of, among other things, non-performance or breach of obligations, infringement of intellectual property rights and negligence and have not incurred any liability or faced any claims

that extend beyond the contract value, especially in cases of security breach, breach of confidentiality arising due to wilful misconduct, gross negligence or fraud by our Company, breach of intellectual property rights, or breach of applicable laws, that are in the nature of consequential losses or indirect losses, there can be no assurance that we will not incur an such losses or similar liability in future. We are also required under certain agreements to pay liquidated damages in the event of non-compliances. While there have been no instances during the six-month period ended September 30, 2025 and in the past three Fiscals, where we have not been able to comply with certain specifications or have been unable to comply with our obligations under such agreements and there have not been any material losses to our operations, any such failure on our part in the future may lead to termination of the agreement, loss of business with our customers, loss of reputation and loss of goodwill.

Further, the software underlying our platform and services is complex and may contain or be perceived as containing design issues, defects or errors, that could be difficult to detect and correct, particularly when first introduced or when new features or capabilities are released. Any real or perceived defects, errors, failures, bugs or vulnerabilities could result in negative publicity, cybersecurity breaches and other data security, privacy, access, retention issues, performance issues and customer terminations and may impair our ability to enter into master service agreements with our customers for our platform, products and solutions in the future. Some errors, bugs or vulnerabilities inherently may be difficult to detect and may only be discovered after code has been released for external or internal use. The costs incurred in correcting any defects in our platform and products may be substantial and could adversely affect our results of operations. For example, we may need to expend significant financial and development resources to analyse, correct, eliminate, or work around errors or defects or to address and eliminate vulnerabilities. Although we continually test our platform and products for defects and work with customers through our customer support organisation to identify and correct errors, we have sometimes identified defects or errors on our platform and products, and defects or errors are likely to occur again in the future. There have been instances where certain defects or errors have been identified post-release. For instance, there were instances of incorrect customer communication regarding loyalty points or vouchers held by the end-consumer of the customer which had resulted in a certain loss to the customer. Such instances expose us to financial liabilities and indemnity obligations to our customers. While we report these defects and errors on internal tickets and are resolved as part of our agile development programme, and have obtained an errors and omission insurance policy, there can be no assurance that we will not be liable for penalties or any liabilities in future.

Any defects that cause interruptions to the availability of our platform and products or other performance issues could result in, among other things: lost revenue or delayed market acceptance and contracts in relation to our platform and products; early termination of customer agreements or loss of customers; credits or refunds to customers; product liability lawsuits and other claims against us; diversion of development resources; increased expenses associated with remedying any defect, including increased technical support costs; injury to our brand and reputation; and increased maintenance and warranty costs. While our master service agreements with our customers typically contain limitations and disclaimers that purport to limit our liability for damages, such limitations and disclaimers may not be enforced by a court or other tribunal or otherwise effectively protect us from such claims. The combination of our insurance coverage, cash flows and reserves may not be adequate to satisfy product liabilities we may incur in the future. Even meritless claims could subject us to adverse publicity, hinder us from securing insurance coverage in the future, require us to incur significant legal fees, decrease demand for the platform or any products that we successfully develop, divert management's attention, and force us to limit or forgo further development and commercialisation of the platform and these products. Such defects or quality issues could therefore harm our reputation, result in significant costs to us, and materially affect our business, results of operations and financial condition.

#### ***49. We are subject to transfer pricing regulations in respect of transactions with our foreign Subsidiaries.***

Indian transfer-pricing regulations require that any international transaction involving associated enterprises be at an arm's-length price. Transactions among us and our Subsidiaries may be considered such transactions. Accordingly, we determine the pricing among our entities on the basis of detailed functional and economic analysis involving benchmarking against transactions among entities that are not under common control. If the income tax authorities review any of our tax returns and determine that the transfer price applied was not appropriate, we may incur increased tax liabilities, including accrued interest and penalties. It is further noted that certain transfer pricing assessments under the Income Tax Act, 1961, are currently pending against our Company. The final determination of the arm's length nature of such transactions is subject to the outcomes of these assessments, and any adjustments resulting from the same. The amount of taxes we pay in different jurisdictions may depend on the application of the tax laws of the various jurisdictions, to our international business activities, changes in tax rates, new or revised tax laws or interpretations of existing tax laws and policies, and our ability to operate our business in a manner consistent with our corporate structure and intercompany arrangements. The taxing authorities of the jurisdictions in which we operate may challenge our methodologies for pricing

intercompany transactions pursuant to our intercompany arrangements or disagree with our determinations as to the income and expenses attributable to specific jurisdictions. If such a challenge or disagreement were to occur, and our position was not sustained, we could be required to pay additional taxes, interest and penalties, which could result in one-time tax charges, higher effective tax rates, reduced cash flows and lower overall profitability of our operations.

**50. *The market in which we participate is intensely competitive, and if we do not compete effectively, our operating results could be harmed.***

The market for platform loyalty-tech and Martech solutions is highly competitive, rapidly evolving and subject to changing technology, shifting customer needs and frequent introductions of new products and services. Many prospective customers have invested substantial personnel and financial resources to implement and integrate their current enterprise software into their businesses and therefore may be reluctant or unwilling to migrate away from their current solution to an enterprise cloud computing application service. Additionally, third-party developers may be reluctant to build application services on our platform since they have invested in other competing technology platforms.

Our current competitors include: internally developed enterprise applications (by our potential customers' IT departments); vendors of packaged business software, as well as companies offering enterprise apps delivered through on-premises offerings from enterprise software application vendors and cloud computing application service providers, either individually or with others; software companies that provide their product or service free of charge as a single product or when bundled with other offerings, or only charge a premium for advanced features and functionality; vendors who offer software tailored to specific services that are more directed toward those specific services than our full suite of service offerings; suppliers of traditional business intelligence and data preparation products, as well as business analytics software companies; integration software vendors and other companies offering integration or API solutions; marketing vendors, which may specialize in advertising, targeting, messaging, or campaign automation; and traditional platform development environment companies and cloud computing development platform companies who may develop toolsets and products that allow customers to build new apps that run on the customers' current infrastructure or as hosted services. For further information, see "*Industry Overview*" on page 229.

In addition, we may face more competition as we expand our product offerings. Some of our current and potential competitors may have competitive advantages, such as greater name recognition, longer operating histories, more significant installed bases, broader geographic scope, broader suites of service offerings and larger marketing budgets, as well as substantially greater financial, technical, personnel and other resources. In addition, many of our current and potential competitors have established marketing relationships and access to larger customer bases, and have major distribution agreements with consultants, system integrators and resellers. We also experience competition from smaller, younger competitors that may be more agile in responding to customers' demands. These competitors may be able to respond more quickly and effectively than we can to new or changing opportunities, technologies, standards or customer requirements or provide competitive pricing. As a result, even if our services are more effective than the products and services that our competitors offer, potential customers might select competitive products and services in lieu of purchasing our services. Accordingly, we may not be able to compete successfully against our current and future competitors, which could negatively impact our future sales and adversely affect our business, results of operation and financial condition.

**51. *We may suffer disruptions, outages, defects, and other performance and quality problems with our artificial intelligence suite or with the public cloud and internet infrastructure on which it relies.***

Our business, brand, reputation, and ability to attract and retain customers depend upon the satisfactory performance, reliability, and availability of our products and solutions. Our continued growth depends, in part, on the ability of our existing and potential customers to utilize our solutions 24 hours a day, seven days a week, without interruption or degradation of performance. Interruptions in these systems, whether due to system failures, computer viruses, software errors, physical or electronic break-ins, or malicious hacks or attacks on our systems (such as denial of service attacks), could affect the security and availability of our services on our platform and prevent or inhibit the ability of users to access our platform or services. In addition, the software, internal applications, and systems underlying our products are complex and may not be error-free. We may encounter technical problems when we attempt to enhance our software, internal applications, and systems. Any inefficiencies, errors, or technical problems with our software, internal applications, and systems could reduce the quality of our products and services or interfere with our customers' use of our products and services, which could reduce demand, lower our revenues, and increase our costs. We also rely on third parties for cloud server hosting

facilities and cloud computing platforms. Any interruption in these third-party services or deterioration in the performance of these services, regardless of the cause, could also be disruptive to our business.

While we have not experienced any disruptions, data loss, outages, and other performance problems with our infrastructure due to a variety of factors, including infrastructure changes, introductions of new functionality, human or software errors, capacity constraints, denial-of-service attacks, ransomware attacks, or other security-related incidents, we cannot assure you that these will not happen in the future. In some instances, we may not be able to identify the cause or causes of these performance problems immediately or in a short time. We may not be able to maintain the level of service and performance required by our customers. If our platform is unavailable or if customers are unable to utilise our products within a reasonable amount of time, or at all, our business and financial condition would be adversely affected.

**52. Our rewards management platform, Rewards+, is dependent on third-party rewards partners and merchants. Any failure or fluctuations in services provided by third-party rewards partnerships can adversely affect our results of operations and financial condition.**

Our rewards management platform, *Rewards+*, is a rewards marketplace offering gift cards, cashbacks, travel redemptions, and exclusive partner deals. *Rewards+* offers a wide range of curated, high-quality rewards and redemption options, including gift cards, cashback, travel vouchers, and exclusive offers from global brands. Revenue generated from the *Rewards+* platform are driven by content and offers hosted thereon, which are sourced from multiple third-party merchants and offer aggregators. This dependency is subject to a number of risks, including platform integration risks, where successful integration with third-party platforms is crucial for seamless operation, and any integration issues can lead to disruptions in service delivery and negatively impact user experience. Additionally, programming errors or technical glitches can result in points being incorrectly awarded, which can undermine user trust and satisfaction, and require timely resolution to maintain the integrity of the *Rewards+* platform.

The continuous supply and availability of offers from third-party merchants are essential for maintaining the attractiveness of the *Rewards+* platform, and any interruptions or inconsistencies in offer availability can affect revenue generation. Further, any third-party platform downtime or technical issues can lead to temporary unavailability of offers, impacting the overall performance and reliability of the *Rewards+* platform. Additionally, changes in business terms, conflicts, or termination of agreements with third-party merchants, can affect the stability and continuity of the *Rewards+* platform's offerings, non-compliance of regulatory requirements by third-party merchants and offer aggregators can lead to legal issues and affect the reputation and operations of the *Rewards+* platform. Further, market and competitive risks can influence the availability and quality of offers from third-party merchants, and changes in market conditions or competitive pressures can impact the *Rewards+* platform's ability to attract and retain users. While we have not had any such instances during the six-month period ended September 30, 2025 and in the last three fiscals, we cannot assure you that we will not be adversely affected due to failure or fluctuations in third-party rewards partnerships.

**53. Exchange rate fluctuations may adversely affect our results of operations as some portion of our revenues and expenditures are denominated in foreign currencies.**

We are exposed to foreign exchange related risks as a portion of our revenue from contracts with customers are in foreign currency, including the US Dollar. A significant or frequent fluctuation in the exchange rate between the Indian Rupee and other currencies, may adversely affect our results of operations. We do not maintain a hedging policy to mitigate losses arising out of foreign exchange fluctuation and we do not have any separate policy in relation to obtaining debt facilities. We have not obtained any forward contracts in relation to hedging foreign exchange exposure during the six-month period ended September 30, 2025 and in the past three Fiscals. The exchange rate between the Indian Rupee and foreign currencies, primarily the US Dollar, has fluctuated in the past and our results of operations have been impacted by such fluctuations in the past and may be impacted by such fluctuations in the future. For example, during times of strengthening of the Indian Rupee, we expect that our revenue from offerings overseas will generally be negatively impacted as foreign currency received will be translated into fewer Indian Rupees. Set forth below are details of our debt equity ratio and our loss/ (gain) on account of foreign exchange fluctuation (net):

Particulars	As of/ For the six-month period ended September 30,		As of/ For the Fiscal ended March 31,		
	2025	2024	2025	2024	2023
	(₹ million, except ratios)				

Debt Equity Ratio <sup>(1)</sup>	0.15	0.09	0.18	0.14	0.79
Loss/ (gain) on account of foreign exchange fluctuations (net) (₹ million)	3.79	(12.36)	7.24	26.85	(25.40)
Loss/ (gain) on account of foreign exchange fluctuations (net), as a percentage of Revenue from Operations	0.11%	(0.43)%	0.12%	0.51%	(0.99) %

<sup>(1)</sup> Debt to Equity ratio is calculated as Borrowings divided by total equity as of the last date of the relevant period. Borrowings is the sum of current borrowings and non-current borrowings. For further information, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Reconciliation of Debt to Equity Ratio" on page 478.

However, the converse positive effect of depreciation in the Indian Rupee may not be sustained or may not show an appreciable impact in our results of operations in any given financial period due to other variables impacting our business and results of operations during the same period. Accordingly, any appreciation or depreciation of the Indian Rupee against these currencies can impact our results of operations. We may from time to time be required to make provisions for foreign exchange differences in accordance with accounting standards. Further, due to the time gap between the accounting of purchases and actual payments, the foreign exchange rate at which the purchase is recorded in the books of accounts may vary with the foreign exchange rate at which the payment is made, thereby benefiting or affecting us negatively, depending on the appreciation or depreciation of the Rupee. We may, therefore, be exposed to risks arising from exchange rate fluctuations and we may not be able to pass on all losses on account of foreign currency fluctuations to our customers, and as a result, suffer losses on account of foreign currency fluctuations. There is no guarantee that we may be able to manage our foreign currency risk effectively or mitigate exchange exposures, at all times and our inability may harm our results of operations and cause our results to fluctuate and/or decline.

**54. We incorporate technology from third-parties into our solutions, and our inability to obtain or maintain rights to the technology could harm our business.**

We incorporate technology from third-parties into our solutions. The contracts entered into by us third-party technology solution providers contain representations stating that the software or services they provide do not in any manner infringe any third party intellectual property rights. We also have provisions in our contract with such vendors to indemnify against losses, claims or damages that we may incur on account of such infringement, if any. Depending upon business requirements and applicable laws, we also undertake due diligence on such vendors to ensure that they have requisite licenses and other certifications available, as may be applicable. We cannot be certain that our suppliers and licensors are not infringing the intellectual property rights of third-parties or that the suppliers and licensors have sufficient rights to the technology in all jurisdictions in which we may offer our solutions and perform services. Some of our agreements with our suppliers and licensors may be terminated for convenience by them. If we are unable to obtain or maintain rights to any of this technology because of intellectual property infringement claims brought by third parties against our suppliers and licensors or against us, or if we are unable to continue to obtain such technology or enter into new agreements on commercially reasonable terms, our ability to develop and sell solutions and services containing such technology could be severely limited, and our business could be harmed. While we have not experienced any material instances of non-fulfilment of service obligations by our third-party service providers, we cannot assure you that this will be the case in the future. Additionally, if we are unable to obtain necessary technology from third parties, we may be forced to acquire or develop alternative technology, which may require significant time, cost and effort and may be of lower quality or performance standards. This would limit and delay our ability to offer new or competitive products and increase our costs of production. If alternative technology cannot be obtained or developed, we may not be able to offer certain functionality as part of our solutions and services. As a result, our margins, market share and results of operations could be significantly harmed.

**55. We may need to seek additional financing in the future to support our growth strategies. Any failure to raise additional financing could have an adverse effect on our business, results of operations, financial condition and cash flows.**

We will continue to incur significant expenditure in maintaining and growing our existing infrastructure, develop and implement new technologies as part of our platform and solutions. Our strategy to grow our business may require us to raise additional funds for our working capital or long-term business plans or for refinancing our outstanding debts. While we have historically funded our capital expenditure primarily through long-term debts and equity infusions, we cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. If our internally generated capital resources and available credit facilities are insufficient to finance our capital expenditure and growth plans, we may, in the future, have to seek additional financing from third parties, including banks, venture capital funds, joint-venture partners and other

strategic investors. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. There are no subsisting instances of defaults or overdue in repayment of loans (principal or interest) by our Company and its Subsidiaries in the last three years, except certain delays in payment of interest and principal for one of our lenders, Innoven Capital India Private Limited in Fiscals 2024 and 2023. For further information see “*Restated Consolidated Financial Information – Annexure VII - Statement of Restated Adjustments to the Audited Consolidated Financial Statements*” on page 462.

While there have been no other instances of defaults in debt servicing made by our Company or our Subsidiaries or Group Company and accordingly no actions have been taken by any lender, we cannot assure you that any of the lenders will not take any action in future in respect of such defaults by our Company. For further information, see “ – *We are required to comply with certain restrictive covenants under our financing agreements. Any non-compliance may lead to, amongst others, accelerated repayment schedule, enforcement of security and suspension of further drawdowns, which may adversely affect our business, results of operations, financial condition and cash flows.*” Our financing agreements may contain terms and conditions that may restrict our ability to operate and manage our business, such as terms and conditions that require us to use our assets, including our cash balances, as collateral for our indebtedness. If we are unable to obtain such financing in a timely manner, at a reasonable cost and on acceptable terms or at all, we may be forced to delay our expansion plans, downsize or abandon such plans, which may materially and adversely affect our business, financial condition and results of operations, as well as our future prospects. We may also be required to finance our growth, whether organic or inorganic, through future equity offerings, which may lead to the dilution of investors’ shareholdings in us. See, “ – *Any future issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding and sale of Equity Shares by shareholders with significant shareholding may adversely affect the trading price of the Equity Shares.*” below. We may also be restrained from raising funds from foreign investors as a result of regulatory policies and frameworks.

***56. The services agreements entered with certain of our customers and vendors are required to be stamped in accordance with the relevant state stamp duty legislation and registered under the Registration Act, 1908. Any failure to register and/or appropriately pay stamp duty on such agreements may affect our ability to enforce such agreements.***

Certain services agreements we enter into with our customers and vendors are required to be stamped in accordance with the relevant state stamp duty legislation and registered under the Registration Act, 1908. Such agreements which are (i) unregistered, may be declared legally invalid/unenforceable or inadmissible as evidence in legal proceedings, (ii) if unstamped or insufficiently stamped, may be declared inadmissible as evidence in a court in India and we may be required to pay the stamp duty or additional stamp duty and fines as per the relevant Stamp Acts in the concerned states. Such payments could have an adverse effect on our business, results of operations, cash flows and financial condition. In the event of any dispute arising out of such unstamped or inadequately stamped and/or unregistered services agreements, we may not be able to effectively enforce our contractual rights arising out of such agreements which may have a material adverse impact on our business.

Certain of our services agreements entered in the past have not been registered as required under the Registration Act, 1908 and not stamped in accordance with the relevant state stamp duty legislation. There can be no assurance that all our agreements have been and will be registered in accordance with the requirements of the Registration Act, 1908 and that appropriate stamp duty has been and will be paid in respect of all such agreements. While we strive to register all our services agreements, we cannot assure you that we may be able to register and appropriately pay stamp duty in the future. Any failure to register and appropriately pay stamp duty may affect our ability to enforce such agreements which may cause disruptions in our operations. or result in legal proceedings, involving our Company and its officials, requiring us to devote management and financial resources in prosecution of such proceedings.

Further, in addition to inadmissibility and unenforceability of unregistered or unstamped/insufficiently stamped services agreements in a court of law which could result in our Company incurring financial liabilities due to adverse judgments and may cause reputational damage to our Company, any person, which may include the KMPs or other officials of our Company, who issues, endorses, transfers, signs or executes such services agreements which are not duly stamped, shall be punishable with a fine which may extend to five hundred rupees as per section 62 of the Stamp Act, 1899.

**57. *Our use of open source software could adversely affect our ability to offer our products and services and subject us to possible litigation.***

We use certain open source software in connection with our development of technology infrastructure. From time-to-time, companies that use open source software have faced claims challenging the use of open source software and/or compliance with open source license terms. We could be subject to suits by parties claiming ownership of what we believe to be open source software, or claiming non-compliance with open source licensing terms. While there have not been any instances where third parties have claimed ownership of what we believe to be open source software and there has been no litigation against us in this regard during the six-month period ended September 30, 2025 and in the past three Fiscals, there can be no assurance that no such instances or litigation may arise in future. Some open source licenses require users who distribute software containing open source to make available all or part of such software, which in some circumstances could include valuable proprietary code of the user. While we monitor the use of open source software and try to ensure that none is used in a manner that would require us to disclose our proprietary source code or that would otherwise breach the terms of an open source agreement, such use could inadvertently occur, in part because open source license terms are often ambiguous. Any requirement to disclose our proprietary source code or pay damages for breach of contract could be harmful to our business, results of operations or financial condition, and could help our competitors develop customer relationship and loyalty management products and services that are similar to or better than ours.

**58. *Internal or external fraud or misconduct or misrepresentation or mis-selling by our employees could adversely affect our reputation and our results of operations.***

Our business may expose us to the risk of fraud, misappropriation or misrepresentation or unauthorized transactions by our representatives and employees which could result in binding us to transactions that exceed authorised limits or present unacceptable risks. Further, we may be subject to regulatory or other proceedings in connection with any unauthorized transaction, fraud or misappropriation or misrepresentation or mis-selling by our representatives and employees, which could adversely affect our goodwill. Employee misconduct or mis-selling or misrepresentation could also involve the improper use or disclosure of confidential information, breach of any applicable confidentiality agreement, misappropriation or misuse of any third-party intellectual property rights which could result in regulatory sanctions, penalties and serious reputational or financial harm. In addition, employees may utilize our confidential information and technology to start their own businesses and become our competitors. While we have not experienced any past instances of fraud, misconduct, misrepresentation, mis-selling of current and ex-employees, we cannot assure you that this will continue to be the case in the future. Further, although we have systems in place to prevent and deter fraudulent activities by our employees that include detailed background verification, a whistle blower policy and vigil mechanism policy, employee awareness sessions, and a separate committee that monitors such instances, there can be no assurance that such systems will be effective in all cases. Any instances of such fraud or misconduct or mis-selling could adversely affect our reputation, business, results of operations, cash flows and financial condition.

**59. *Failure to obtain or renew approvals, licenses, registrations and permits to operate our business in a timely manner, or at all, may adversely affect our business, financial condition, cash flows and results of operations.***

We are required to obtain certain approvals, registrations, permissions and licenses from regulatory authorities, to carry out/ undertake our operations. These approvals, licenses, registrations and permissions may be subject to numerous conditions and we cannot assure you that we will be able to continuously meet such conditions. If we fail to obtain some or all of these approvals or licenses, or renewals thereof, in a timely manner or at all, or if we fail to comply with applicable conditions or it is claimed that we have breached any such conditions, our license or permission for carrying on a particular activity may be suspended or cancelled and we may not be able to carry on such activity, which could adversely affect our business, results of operations, cash flows and financial condition. For further information on the nature of approvals and licenses required for our business, see “Government and Other Approvals” on page 532.

The wordmark in relation to the name of our Company, “Capillary”, is registered under class 9, however, our two applications for renewal under class 35 and 42 are currently pending before the Trade Marks Registry, Government of India. Additionally, we have applied for the registration of our Company logo, as well as various wordmarks and logos associated with our products. While the applications have successfully passed the formalities check with the relevant authorities, they have not been registered. While there have not been any instances during the six-month period ended September 30, 2025 and in the past three Fiscals, where applications made by us for statutory approvals have been denied or refused to be renewed, there can be no assurance that applications for the aforementioned trademarks will not be denied, refused or renewed in future. Failure to secure registration or renewal of our wordmarks or logos could have a material adverse impact on our operations as it

may (a) cause a loss of exclusive rights to use the trademark, allowing third-parties to use identical or deceptively similar marks and causing brand dilution, (b) expose our Company to litigation initiated by third parties claiming prior rights over marks similar to that of our Company, and (c) disrupt our marketing and branding strategies and prevent us from carrying out our business. Furthermore, the absence of registered trademarks may also result in loss of goodwill associated with our products and services, and incurring of significant costs and penalties to our Company.

Additionally, any unfavourable changes in or interpretations of existing laws, or the promulgation of new laws, governing our business and operations could require us to obtain additional licenses and approvals. Regulatory authorities could also impose notices and other orders on us if we fail to obtain any required licenses or approvals.

We may also face claims and incur significant liabilities if found liable or partially liable for any injuries, damages or losses. Claims against us may exceed the amount of our insurance coverage or may not be covered by insurance at all. Government authorities may also impose significant fines on us or require us to adopt costly preventive measures.

There is no assurance that such approvals and licenses will be granted or renewed in a timely manner or at all by the relevant governmental or regulatory authorities. Failure to obtain or renew such approvals and licenses in a timely manner would make our operations non-compliant with applicable laws and may result in imposition of penalties by relevant authorities, and may also prevent us from carrying out our business. Our licenses and approvals are subject to various conditions, including periodic renewal and maintenance standards. Any actual or alleged failure on our part to comply with the terms and conditions of such regulatory licenses and registrations could expose us to legal action, compliance costs or liabilities, or could affect our ability to continue to operate at the locations or in the manner in which we have been operating thus far.

Any of the foregoing could disrupt our services, cause us to incur substantial expenses and divert the time and attention of our management, which may have a material adverse effect on our business, financial condition, cash flows and results of operations.

**60. *We have in this Red Herring Prospectus included certain non-GAAP financial and operational measures and certain other industry measures related to our operations and financial performance that may vary from any standard methodology that is applicable across the SaaS industry. We rely on certain assumptions and estimates to calculate such measures, therefore such measures may not be comparable with financial, operational or industry related statistical information of similar nomenclature computed and presented by other similar companies.***

Certain non-GAAP financial measures and certain other industry measures relating to our operations and financial performance have been included in this Red Herring Prospectus. We compute and disclose such non-GAAP financial and operational measures, and such other industry related statistical and operational information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of SaaS businesses, many of which provide such non-GAAP financial and operational measures, and other industry related statistical and operational information.

These non-GAAP financial and operational measures, and such other industry related statistical and operational information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial and operational measures, and industry related statistical information of similar nomenclature that may be computed and presented by other companies pursuing similar business. We have derived certain industry information in this Red Herring Prospectus from the Zinnov Report, and the Zinnov Report highlights certain industry and market data relating to us and our competitors, which may not be based on any standard methodology and are subject to various assumptions.

Further, as the industry in which we operate continues to evolve, the measures by which we evaluate our business may change over time. In addition, if the internal tools we use to track these measures under-count or over-count performance or contain algorithmic or other technical errors, the data and/or reports we generate may not be accurate. We calculate measures using internal tools, which are not independently verified by a third party. Such supplemental financial and operational information is therefore of limited utility as an analytical tool, and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of the Restated Consolidated Financial Information of our Company disclosed elsewhere in this Red Herring Prospectus. While we have not experienced any issues on account of such tools in the past, there can be no

assurance that there will not be any issues or such tools will be accurate going forward. Also, see “ – *Industry information included in this Red Herring Prospectus has been derived from an industry report exclusively commissioned by and paid for by us for such purpose.*” on page 88.

**61. *After the completion of the Offer, our Promoters will continue to collectively hold substantial shareholding in our Company.***

As on the date of this Red Herring Prospectus, our Promoters holds 67.83% of the issued share capital (except vested ESOPs) of our Company, and upon completion of the Offer, our Promoters will hold [●]% of our Equity Share capital). For details of their shareholding pre and post Offer, see “*Capital Structure*” on page 120. After the completion of the Offer, our Promoters will continue to collectively hold substantial shareholding in our Company, and will continue to exercise significant influence over our business policies and affairs and all matters requiring Shareholders’ approval, including the composition of our Board, the adoption of amendments to our certificate of incorporation, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditures. This concentration of ownership also may delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of these stockholders. The interests of the Promoters as our controlling shareholder could conflict with our interests or the interests of its other shareholders. We cannot assure you that the Promoters will act to resolve any conflicts of interest in our favour and any such conflict may adversely affect our ability to execute our business strategy or to operate our business. For further details in relation to the interests of our Promoters in our Company, please see “*Our Promoters and Promoter Group*”, “*Our Management*” on pages 384 and 359 respectively.

**62. *Industry information included in this Red Herring Prospectus has been derived from an industry report exclusively commissioned and paid for by our Company for such purpose.***

We have voluntarily availed the services of an independent third-party research agency, Zinnov appointed on February 19, 2025, to prepare an industry report titled “*Customer Loyalty and Engagement Software Market Overview*” dated October, 2025, exclusively for purposes of inclusion of such information in this Red Herring Prospectus. Given the scope and extent of the Zinnov Report, disclosures are limited to certain excerpts and the Zinnov Report has not been reproduced in its entirety in the Red Herring Prospectus. The report is a paid report that has been commissioned by our Company, and is subject to various limitations and based upon certain assumptions that are subjective in nature. Zinnov has, pursuant to their consent letter dated October 28, 2025, confirmed that they are an independent agency, and confirmed that they are not related to our Company, Promoters, Promoter Group, Group Company, Directors or Key Managerial Personnel. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Red Herring Prospectus.

**63. *Certain Directors and Key Managerial Personnel are interested in our Company’s performance in addition to their remuneration and reimbursement of expenses.***

Certain of our Directors and Key Managerial Personnel are interested in our Company, in addition to regular remuneration including fees and commission, if any, payable to them for attending meetings of the Board or committees thereof or benefits and reimbursement of expenses payable to them under the articles of association. For the payments that are made by our Company to related parties, see “*Summary of the Offer Document – Summary of Related Party Transactions*” on page 27. Such interests are to the extent of their shareholding in our Company, Equity Shares that may be subscribed by and allotted to their relatives and the entities with which they are associated as promoters, directors, partners, proprietors, or trustees or to the companies, firms, and trusts, in which they are interested as directors, promoters, members, partners, and trustees, pursuant to the Offer and to the extent of any dividend payable to them and other distributions in respect of such Equity Shares thereon. Additionally, certain of our Directors may be deemed to be interested in the contracts, transactions, agreements, or arrangements entered into or to be entered into by our Company with any company in which they hold directorships or any partnership firm in which they are partners. We cannot assure you that our Directors and Key Managerial Personnel will exercise their rights to the benefit and best interest of our Company. As Shareholders of our Company, our Directors or Key Managerial Personnel, may take or block actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders.

**64. Our funding requirements and the proposed deployment of Net Proceeds are not appraised by any independent agency, which may affect our business and results of operations.**

We intend to use the Net Proceeds for the purposes described in “*Objects of the Offer*” on page 158 of this Red Herring Prospectus. Our funding requirements are based on management estimates and our current business plans have not been appraised by any bank or financial institution. The deployment of the Net Proceeds will be at the discretion of our Board. However, the deployment of the Net Proceeds will be monitored by a monitoring agency appointed pursuant to the SEBI ICDR Regulations. We may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, such as interest rate fluctuations, changes in input cost and other financial and operational factors.

Various risks and uncertainties, including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. We may also use funds for future businesses which may have risks significantly different from what we currently face or may expect. Further, we may not be able to attract personnel with sufficient skills or sufficiently train our personnel to manage our expansion plans.

Further, while our Company intends to utilise ₹ [●] million of the Net Proceeds for strategic investments and acquisitions, it has currently not estimated specific amounts that will be deployed towards such object. However, such utilisation shall be done in such a manner to ensure that our Company does not utilise more than 50% of the proceeds from Fresh Issue towards funding any capital expenditure (including towards funding the unidentified acquisitions). The exact amounts that will be utilised from the Net Proceeds towards funding our strategic investments and acquisitions will depend upon our business plans, market conditions, our Board’s analysis of economic trends and business requirements, competitive landscape, ability to identify and conclude inorganic acquisitions as well as general factors affecting our results of operations, financial condition and access to capital. Furthermore, our strategic investments and acquisitions could be delayed due to failure to receive regulatory approvals, technical difficulties, human resource, technological or other resource constraints, or for other unforeseen reasons, events or circumstances. Similarly, our investment in product development, investments in technology and other growth initiatives may not result in the desired growth (including in our user base) that we expect to achieve.

Accordingly, prospective investors in the Offer will need to rely upon our management’s judgment with respect to the use of proceeds. If we are unable to deploy the Net Proceeds in a timely or an efficient manner, it may affect our business and results of operations.

**65. Any future issuance of Equity Shares or securities convertible into Equity Shares by us or sales of Equity Shares by our Promoters could adversely affect the trading price of the Equity Shares.**

As disclosed in “*Capital Structure*” on page 120, an aggregate of 20.00% of our fully diluted post-Offer capital held by our Promoters shall be considered as minimum Promoters’ contribution and locked in for a period of eighteen months and the Promoters shareholding in excess of 20% of the fully diluted post-Offer Equity Share capital shall be locked-in for a period of six months from the date of Allotment. There can be no assurance that we will not issue additional Equity Shares or that our Promoter will not sell, pledge or encumber the Equity Shares during the lock -in period, as permitted under applicable laws. Further, pursuant to the constitution of our Promoter, CTIPL, read with terms of indemnity and exit agreement executed amongst CTIPL and its shareholders, in the event CTIPL is participating as a Selling Shareholder in the Offer for Sale, then CTIPL is under an obligation to provide an exit to its shareholders in accordance with the terms specified therein, from the proceeds of such sale its Equity Shares in our Company in accordance with applicable laws. For further details, see “*History and Certain Corporate Matters – Other Material Agreements – Indemnity and Exit Agreement*” and “*– After the completion of the Offer, our Promoters will continue to collectively hold substantial shareholding in our Company.*” on pages 357 and 88, respectively. Such sales of Equity Shares by our Promoters could also adversely affect the trading price of the Equity Shares. Further, any future issuances of Equity Shares or convertible securities including issuance of Equity Shares to eligible employees (as defined in the ESOP 2021) could dilute the holdings of our Shareholders and adversely affect the trading price of the Equity Shares. Such securities may also be issued at prices below the Offer Price. Such securities may also be issued at prices below the Offer Price.

**66. We have, in the last 12 months, issued Equity Shares at a price that could be lower than the Offer Price.**

We have issued Equity Shares at prices that could be lower than the Offer Price during the last one year from the date of this Red Herring Prospectus. Set out below are the details of such issuances:

Date of Allotment	Number of Equity Shares Allotted	Face Value per Equity Share (₹)	Issue Price per Equity Share (₹)	Nature of Consideration	Nature of Allotment	Details of Allottees	
January 18, 2025	94,785	2.00	526.70	Cash	Preferential allotment	Name of allottee	Equity shares allotted
						Filter Capital India Fund I	94,785

The prices at which Equity Shares were issued by us in the past year should not be taken to be indicative of the Price Band, Offer Price and the trading price of our Equity Shares after listing.

**67. *Inability to maintain adequate internal controls may affect our ability to effectively manage our operations, resulting in errors or information lapses.***

As we continue to expand, our success depends on our ability to effectively utilize our resources and maintain internal controls. We may need to modify and improve our financial and management control processes, reporting systems and procedures and other internal controls and compliance procedures to meet our evolving business needs. While we have not experienced any material failures in our internal controls, we cannot assure you that this will be the case in the future, that our current internal controls are sufficient or that we will be able to maintain adequate internal controls. If we are unable to improve our controls, systems and procedures, they may become ineffective and adversely affect our ability to manage our operations resulting in errors or information lapses that affect our business. Our efforts in improving our internal control systems may not result in eliminating all risks. If we are not successful in discovering and eliminating weaknesses in our internal controls, our ability to manage our business in future effectively may materially and adversely be affected.

**68. *Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.***

Our Company has not declared dividends in the past. While our declaration of dividends is at the discretion of our Board and subject to Shareholder approval as set out in the section titled “*Dividend Policy*” on page 390, the amount of future dividend payments by our Company, if any, will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. Our ability to pay dividends in the future will depend on a number of factors, including liquidity position, profits, capital requirements, financial commitments and financial requirements including business expansion plans, cost of borrowings, other corporate actions and other relevant or material factors considered relevant by our Board, and external factors, such as the state of the economy and capital markets, applicable taxes including dividend distribution tax, regulatory changes and other relevant or material factors considered relevant by our Board. The declaration and payment of dividends will be recommended by the Board of Directors and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act, 2013. We may retain all future earnings, if any, for use in the operations and expansion of the business. As a result, we may not declare dividends in the foreseeable future. We cannot assure you that we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders’ investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

**69. *Our customers may engage in certain transactions in or with countries or persons that are subject to U.S. and other sanctions.***

U.S. law generally prohibits U.S. persons from directly or indirectly investing or otherwise doing business in or with certain countries that are the subject of comprehensive sanctions and with certain persons or businesses that have been specially designated by the OFAC or other U.S. government agencies. Other governments and international or regional organizations also administer similar economic sanctions. While we have implemented internal controls to ensure compliance with applicable sanctions regulations and restrictions, since we carry on business with customers with global operations, we may not have any control over whether such customers transact business with entities subject to such sanctions regimes. Although we do believe that our operations are not in violation of any applicable sanctions regimes, if it were determined that our customers are involved in transactions that are in violation of any such sanctions regimes, we could be subject to penalties, and our reputation and future business prospects could be adversely affected.

**70. The average cost of acquisition of Equity Shares by the Selling Shareholders may be less than the Offer Price.**

The average cost of acquisition per Equity Share for the Selling Shareholders as at the date of this Red Herring Prospectus is set forth below:

S. No.	Name of the Shareholder	Number of Equity Shares held	Average cost of acquisition per equity shares of face value ₹ 2 each (in ₹)
<b>Promoter Selling Shareholder</b>			
1.	CTIPL	48,008,006 <sup>(1)</sup>	35.52
<b>Investor Selling Shareholder</b>			
2.	Trudy Holdings	3,290,769	319.33

*\*As certified by Saini Pati Shah & Co LLP, chartered accountants, with FRN 137904W/W100622, pursuant to their certificate dated November 7, 2025.*

*(1) Excludes 24 equity shares of face value ₹2 each held by Bollam Sridhar in his capacity as the nominee of CTIPL.*

**71. Our Company will not receive any proceeds from the Offer for Sale.**

The Offer comprises a Fresh Issue and an Offer for Sale by the Selling Shareholders. Our Company will not receive any proceeds from the Offer for Sale. The proceeds from the Offer for Sale (after applicable deductions) will be transferred to each of the Selling Shareholders, in proportion to its respective portion of the Equity Shares transferred by each of them in the Offer for Sale and will not result in any creation of value for us or in respect of your investment in our Company.

**External Risk Factors**

**72. Political, economic or other factors that are beyond our control may have an adverse effect on our business, financial position, cash flows and results of operations.**

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located elsewhere, including India. Adverse economic developments, such as rising fiscal or trade deficit, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

We are dependent on domestic, regional and global economic and market conditions particularly North America, Asia and Europe, where most of our revenue from operations is generated. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our solutions may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the countries in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

**73. Anti-outsourcing legislation, if adopted in the countries where our customers are based, could adversely affect our business, cash flows, financial condition and results of operations and impair our ability to service our customers.**

The issue of companies outsourcing services to organisations operating in other countries is a topic of political discussion in many countries, including the United States, which is our largest source of revenue from operations. Given the on-going debate over this issue, the introduction and consideration of other restrictive legislation is possible. If enacted, such measures may broaden restrictions on outsourcing by federal and state government agencies and on government contracts with firms that outsource services directly or indirectly, impact private

industry with measures such as tax disincentives or intellectual property transfer restrictions, and/or restrict the use of certain business visas. In the event that any of these measures becomes law, our ability to service our customers could be impaired and our business, financial condition, cash flows and results of operations could be adversely affected.

Current or prospective customers may elect to perform certain services themselves or may be discouraged from transferring services from onshore to offshore IT services providers to avoid negative perceptions that may be associated with using an offshore IT services provider. Any slowdown or reversal of the existing industry trends toward offshore outsourcing would seriously harm our ability to compete effectively with competitors that provide services from within the country in which our customers operate. While we have not experienced any instances of anti-outsourcing legislation adversely affecting our business, financial condition, cash flows, or results of operations in the last three Fiscals, we cannot assure you that such instances will not arise in the future.

***74. Natural or man-made disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.***

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19 and man-made disasters, including acts of war, terrorist attacks and other events which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or countries to who we sell our products could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1, and H1N1 strains of influenza in birds and swine, COVID-19 and more recently, the SARS-CoV-2 virus and the monkeypox virus. Future outbreaks of the COVID-19 virus or a similar contagious disease could adversely affect the global economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business and the trading price of the Equity Shares.

***75. Any adverse application or interpretation of the competition laws in India including the Competition Act, 2002, as amended, could adversely affect our business, results of operations and financial condition.***

The Competition Act, 2002, as amended (“**Competition Act**”) was enacted for the purpose of preventing practices that have or are likely to have an adverse effect on competition in India and has mandated the Competition Commission of India (“**CCI**”) to prevent such practices. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition (“**AAEC**”) is considered void and results in the imposition of substantial monetary penalties. Furthermore, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of customers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC.

The Competition Act also prohibits abuse of a dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of any director, manager, secretary or other officer of such company, that person shall also be guilty of the contravention and may be punished.

On March 4, 2011, the GoI notified and brought into force the provisions under the Competition Act in relation to combinations (the “**Combination Regulation Provisions**”) with effect from June 1, 2011. The Combination Regulation Provisions require that acquisition of shares, voting rights, assets or control or mergers or amalgamations, which cross the prescribed asset and turnover based thresholds, be mandatorily notified to and pre-approved by the CCI. In addition, on May 11, 2011, the CCI issued the final Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011, as amended, which sets out the mechanism for implementation of the Combination Regulation Provisions under the Competition Act. The manner in which the Competition Act and the CCI affect the business environment in India may adversely affect our business, financial condition and results of operations.

The Competition (Amendment) Act, 2023 (“**Competition Amendment Act**”) was notified on April 11, 2023, which amends the Competition Act and give the CCI additional powers to prevent practices that harm competition and the interests of consumers. The Competition Amendment Act, *inter alia*, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI from 210 days to 150 days and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position.

The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed or undertaken by us, or any enforcement proceedings initiated by CCI for alleged violation of provisions of the Competition Act may have an adverse impact on our business, financial condition, results of operations and prospects.

**76. A slowdown in economic growth in India could cause our business to suffer.**

Our performance and the growth of our business are necessarily dependent on the health of the overall Indian economy. Any slowdown in the Indian economy or future volatility in global commodity prices could adversely affect our business. Additionally, an increase in trade deficit, a downgrading in India’s sovereign debt rating or a decline in India’s foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. Any downturn in the macroeconomic environment in India could also adversely affect our business, results of operations, financial condition and the trading price of the Equity Shares.

India’s economy could be adversely affected by a general rise in interest rates, adverse weather conditions affecting agriculture, commodity and energy prices as well as various other factors. A slowdown in the Indian economy could adversely affect the policy of the Government of India towards our industry, which may in turn adversely affect our financial performance and our ability to implement our business strategy. The Indian economy is also influenced by economic and market conditions in other countries, particularly emerging market conditions in Asia. A decline in India’s foreign exchange reserves may also affect liquidity and interest rates in the Indian economy, which could adversely impact our financial condition. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business and results of operations and the market price of the Equity Shares. In addition, the recent decline in Indian markets is primarily due to significant sell-offs by Foreign Institutional Investors (FIIs) due to high valuations of Indian equities, a strengthening US dollar, and rising US bond yields, which have made US investments more attractive. Additionally, concerns over high inflation in India and weaker-than-expected corporate earnings have diminished investor certainty.

India has from time to time experienced instances of social, religious and civil unrest and hostilities between neighbouring countries. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a greater perception that investments in Indian companies involve higher degrees of risk. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy.

Other factors which may adversely affect the Indian economy are scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing of our developments and expansions; volatility in, and actual or perceived trends in trading activity on India’s principal stock exchanges; changes in India’s tax, trade, fiscal or monetary policies; political instability, terrorism or military conflict in India or in countries in the region or globally, including in India’s various neighbouring countries; occurrence of natural or man-made disasters; infectious disease outbreaks or other serious public health concerns; prevailing regional or global economic conditions, including in India’s principal export markets; and other significant regulatory or economic developments in or affecting India.

**77. A downgrade in ratings of India and other jurisdictions we operate in may affect the trading price of the Equity Shares.**

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any adverse revisions to credit ratings for India and other jurisdictions we operate in by international rating agencies may adversely impact our ability to raise additional financing or refinance our outstanding debt. This could have an adverse effect on our ability to fund our growth on favourable terms and consequently adversely affect our business and financial performance and the price of the Equity Shares.

**78. Financial instability in other countries may cause increased volatility in Indian financial markets.**

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States of America, Europe and certain emerging economies in Asia. In particular, the ongoing military conflicts between Russia and Ukraine and Israel and Hamas could result in increased volatility in, or damage to, the worldwide financial markets and economy. Increased economic volatility and trade restrictions could result in increased volatility in the markets for certain securities and commodities and may cause inflation. Any worldwide financial instability including possibility of default in the US debt market may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilising effects. A recent development in the United States' regarding the decision to increase the H-1B visa application fee to USD 100,000, effective September 21, 2025, has significantly impacted Indian IT companies, which rely heavily on H-1B visas to deploy skilled professionals to U.S. projects. The increased cost has led to reduced onshore rotations, greater reliance on offshore delivery models, and pressure on margins for Indian IT firms. Further, in 2025, in the United States, the Trump administration has continued to impose tariffs on Indian businesses as part of its "*Fair and Reciprocal Plan*". These tariffs target various sectors, including steel, aluminum, and other goods, aiming to address perceived trade imbalances. The tariffs have created additional pressure on Indian exporters, particularly in the IT sector, with Indian IT companies, which have significant business in the US, facing increased costs and uncertainties. This has led to a decline in stock prices for some major IT firms.

These developments, or the perception that any of them could occur, have had and may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have an adverse effect on our business, financial condition, cash flows and results of operations and reduce the price of the Equity Shares.

***79. Changing laws, rules or regulations and legal uncertainties in India, including adverse application of taxation laws and regulations, may adversely affect our business, results of operations, financial condition and cash flows.***

The regulatory and policy environment in which we operate is evolving and is subject to change. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

Further, any future amendments may affect our tax benefits such as exemptions for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemptions for interest received in respect of tax-free bonds, and long-term capital gains on equity shares. Changes in capital gains tax or tax on capital market transactions or the sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance. We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have an adverse effect on our business.

In addition, For instance, the GoI has recently introduced the Code on Social Security, 2020 ("**Social Security Code**"); the Occupational Safety, Health and Working Conditions Code, 2020; the Industrial Relations Code, 2020 and the Code on Wages, 2019, which consolidate, subsume and replace numerous existing central labour legislations (collectively, the "**Labour Codes**"). Certain portions of the Code on Wages, 2019 and Code on Social Security, 2020, have come into force upon notification dated December 18, 2020 and May 3, 2023, respectively, by the Ministry of Labour and Employment. The remaining provisions of these codes shall become effective as

and when notified by the Government of India. While the rules for implementation under these codes have not been notified, we are yet to determine the impact of all or some such laws on our business and operations which may restrict our ability to grow our business in the future and increase our expenses. For instance, under the Social Security Code, a new concept of deemed remuneration has been introduced, such that where an employee receives more than half (or such other percentage as may be notified by the Central Government) of their total remuneration in the form of allowances and other amounts that are not included within the definition of wages under the Social Security Code, the excess amount received shall be deemed as remuneration and accordingly be added to wages for the purposes of the Social Security Code and the compulsory contribution to be made towards the employees' provident fund. For further information, see "*Key Regulations and Policies*" on page 325. The implementation of such laws may increase our employee costs, thereby adversely affecting our business, results of operations, cash flows and financial condition.

We cannot predict the impact of any changes in or interpretations of existing, or the promulgation of, new laws, rules and regulations applicable to us and our business. Unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us, our business, operations or group structure being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and expend resources relating to compliance with such new requirements, which may also require significant management time, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent maybe time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, cash flows, financial condition and prospects. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our financial conditions, cash flows and results of operations.

***80. If inflation were to rise in India, we might not be able to increase the prices of our services at a proportional rate in order to pass costs on to our customers thereby reducing our margins.***

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of wages and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our customers, whether entirely or in part, and may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase the price of our products to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the Government of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future. In such a case, our business, results of operations, financial condition and cash flows may be adversely affected

***81. A third-party could be prevented from acquiring control of us post this Offer, because of anti-takeover provisions under Indian law.***

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Offer. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market

price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

**82. *Investors may not be able to enforce a judgment of a foreign court against us, our Directors, the Book Running Lead Managers or any of their directors and executive officers in India respectively, except by way of a lawsuit in India.***

Our Company is a company incorporated under the laws of India and all of our Directors are located in India. A majority of our assets, our Key Managerial Personnel and officers are also located in India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce judgments obtained against such parties outside India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if that court was of the view that the amount of damages awarded was excessive or inconsistent with public policy, or if judgments are in breach or contrary to Indian law. In addition, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to execute such a judgment or to repatriate outside India any amounts recovered.

Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Code of Civil Procedure, 1908. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, such as the United Kingdom, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements established in the Indian Code of Civil Procedure, 1908. The CPC only permits the enforcement and execution of monetary decrees in the reciprocating jurisdiction, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India, including the United States, cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be directly enforceable in India. The party in whose favour a final foreign judgment in a non-reciprocating territory is rendered may bring a fresh suit in a competent court in India based on the final judgment within three years of obtaining such final judgment. However, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with the public policy in India.

**83. *The trading volume and market price of the Equity Shares may be volatile following the Offer.***

The market price of the Equity Shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- quarterly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of key management personnel;
- changes in exchange rates;
- fluctuations in stock market prices and volume;
- general geopolitical, economic and stock market conditions; and
- Changes in relation to any of the factors listed above could adversely affect the price of the Equity Shares.

**84. *The Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer.***

The Offer Price of the Equity Shares will be determined by our Company and the Selling Shareholder in consultation with the Book Running Lead Managers through the Book Building Process. This price will be based

on numerous factors, as described under “*Basis for Offer Price*” on page 180 and may not be indicative of the market price for the Equity Shares after the Offer. The market price of the Equity Shares could be subject to significant fluctuations after the Offer, and may decline below the Offer Price. We cannot assure you that you will be able to resell their Equity Shares at or above the Offer Price.

**85. *The Equity Shares have never been publicly traded and the Offer may not result in an active or liquid market for the Equity Shares. Further, the price of the Equity Shares may be volatile, and the investors may be unable to resell the Equity Shares immediately or at or above the Offer Price, or at all.***

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the stock exchanges may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. In accordance with Indian law and practice, final approval for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Offer and until our Equity Shares have been issued and allotted. Such approval will require the submission of all other relevant documents authorizing the issuance of our Equity Shares. In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on the Stock Exchanges within a prescribed time. Accordingly, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all and there could be a failure or delay in listing our Equity Shares on the Stock Exchanges, which would adversely affect your ability to sell our Equity Shares. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India and volatility in the Stock Exchanges and securities markets elsewhere in the world.

**86. *The Indian tax regime has undergone substantial changes which could adversely affect our business and the trading price of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares. The Finance Act, 2019 has clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. Further, the Government of India announced the union budget for Fiscal 2026, following which the Finance Act, 2025 (“**Finance Act**”) received the President’s assent on March 29, 2025 and became effective on April 1, 2025. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. Investors are advised to consult their own tax advisors to understand their tax liability as per the laws prevailing on the date of disposal of Equity Shares.

Further, any change in Indian tax laws could have an effect on our operations. For instance, the Income Tax Act, 1961 (“**IT Act**”) was amended to provide domestic companies an option to pay corporate income tax at the effective rate of 25.17% (inclusive of applicable surcharge and health and education cess), as compared to an effective rate of 34.94% (inclusive of applicable surcharge and health and education cess), provided such companies do not claim certain specified deductions or exemptions. Further, where a company has opted to pay the reduced corporate tax rate, the minimum alternate tax provisions would not be applicable. Any such future amendments may affect our ability to claim exemptions that we have historically benefited from, and such exemptions may no longer be available to us. Additionally, the Union Cabinet, Government of India has recently approved the Income Tax Bill, 2025 which inter alia, proposes to amend the income tax regime and replace the Income Tax Act, 1961. The Income Tax Bill, 2025 is proposed to be enacted and come into force on April 1, 2026. There is no certainty on the impact of the Income Tax Bill, 2025, once enacted, on tax laws or other regulations, which may adversely affect our business, financial condition, results of operations or on the industry in which we operate.

Another instance is that earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax (“**DDT**”), in the hands of the company at an effective rate of 20.56% (inclusive of applicable surcharge and cess). Such dividends were generally exempt from tax in the hands of the shareholders. However, under the Finance Act 2020, any dividends paid by an Indian company will be subject to tax in the hands of the

shareholders at applicable rates. Such taxes will be withheld by the Indian company paying dividends. Further, the Finance Act, 2021, which followed, removed the requirement for DDT to be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident. We may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends. We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether if at all, any laws or regulations would have an adverse effect on our business. Further, any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability. In addition, we may be subject to tax related inquiries and claims. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

***87. Any future issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding and sale of Equity Shares by shareholders with significant shareholding may adversely affect the trading price of the Equity Shares.***

We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares including through exercise of employee stock options, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

***88. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.***

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. As provided in the foreign exchange controls currently in effect in India, the RBI has provided that the price at which the Equity Shares are transferred be calculated in accordance with internationally accepted pricing methodology for the valuation of shares at an arm's length basis, and a higher (or lower, as applicable) price per share may not be permitted. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all. Further, due to possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains during periods of price increase or limiting losses during periods of price decline.

The Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of the Equity Shares will be paid in Indian Rupees and subsequently converted into appropriate foreign currency for repatriation. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the net proceeds received by shareholders.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Non-debt Rules, all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of the Equity Shares is situated in or is a citizen of any such country, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. While the term "beneficial owner" is defined under the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and the General Financial Rules, 2017, neither the foreign direct investment policy nor the FEMA Rules provide a definition of the term "beneficial owner". The interpretation of "beneficial owner" and

enforcement of this regulatory change involves certain uncertainties, which may have an adverse effect on our ability to raise foreign capital. Further, there is uncertainty regarding the timeline within which the said approval from the GoI may be obtained, if at all.

We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 592.

**89. Significant differences exist between Ind AS and other accounting principles, such as Indian GAAP, U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.**

Our Restated Consolidated Financial Information for Fiscals 2025, 2024 and 2023 derived from our audited financial statements as at and for the years ended March 31, 2025, 2024 and 2023; each prepared in accordance with Indian Accounting Standard 34 (Ind AS 34) as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India and restated in accordance with the SEBI ICDR Regulations from time to time and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India.

Ind AS differs in certain significant respects from Indian GAAP, IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should be limited accordingly.

**90. The Offer Price of our Equity Shares, our price-to-earnings ratio and market capitalization to revenue from operations may not be indicative of the trading price of our Equity Shares upon listing on the Stock Exchanges subsequent to the Offer and, as a result, you may lose a significant part or all of your investment.**

Our revenue from operations for Fiscal 2025 was ₹ 5,982.59 million. Further, restated profit for the year for the Fiscal 2025 was ₹ 132.80 million. The table below provides details of price to earnings ratio and market capitalization to revenue from operations for Fiscal 2025:

Particulars	Ratio vis-à-vis Floor Price	Ratio vis-à-vis Cap Price
	<i>(In multiples, unless otherwise specified)</i>	
Market capitalization to Revenue from Operations	[●]	[●]
Price-to-earnings ratio	[●]	[●]

*\*To be populated at Prospectus stage.*

The determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLMs. The relevant financial parameters based on which the Price Band will be determined shall be disclosed in the advertisement that will be issued for the publication of the Price Band. Further, the Offer Price of the Equity Shares is determined on the basis of assessment of market demand for the Equity Shares offered through the book-building process prescribed under the SEBI ICDR Regulations, and certain quantitative and qualitative factors as set out in the section “*Basis for the Offer Price*” on page 180 and the Offer Price, multiples and ratios may not be indicative of the market price of our Company on listing or thereafter.

Prior to the Offer, there has been no public market for our Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Accordingly, any valuation exercise undertaken for the purposes of the Offer by our Company, in consultation with the BRLMs, would not be based on a benchmark with our industry peers. The relevant financial parameters based on which the Price Band would be determined shall be disclosed in the advertisement that would be issued for publication of the Price Band.

The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, announcements by third parties or governmental entities of significant claims or proceedings against us, volatility in the securities markets in India and other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. As a result, we cannot assure you that an active market will develop, or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing. Further, the market price of the Equity Shares may decline below the Offer Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price.

***91. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid, and Retail Individual Investors are not permitted to withdraw their Bids after closure of the Bid/ Offer Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/ Offer Period and withdraw their Bids until the Bid/ Offer Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment pursuant to the Offer, within three Working Days from the Bid/ Offer Closing Date or such other timeline as may be prescribed under applicable law, events affecting the investors' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, or changes to our business or financial condition could arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events could limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

***92. Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.***

Under the Companies Act 2013 a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

***93. Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.***

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and wide-spread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder our Company than as a shareholder of an entity in another jurisdiction.

***94. The requirements of being a publicly listed company may strain our resources.***

We are not a publicly listed company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did

not incur as an unlisted company. We will be subject to the SEBI Listing Regulations, which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies.

Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

***95. U.S. holders should consider the impact of the passive foreign investment company ("PFIC") rules in connection with an investment in our Equity Shares.***

A non-U.S. corporation will be a PFIC if either (i) 75% or more of its gross income is passive income or (ii) 50% or more of the total value of its assets is attributable to assets, including cash, that produce or are held for the production of passive income. Our Company will be treated as owning its proportionate share of the assets and earning its proportionate share of the income of any other corporation in which it owns, directly or indirectly, 25% or more (by value) of the stock.

Based on the current and expected composition of our Company's and the Subsidiaries income and assets, including the expected cash proceeds from this offering, our Company does not expect to be a PFIC for the current year or any future years. However, no assurance can be given that our Company will or will not be considered a PFIC in the current or future years. The determination of whether or not our Company is a PFIC is a factual determination that is made annually after the end of each taxable year, and there can be no assurance that our Company will not be considered a PFIC in the current taxable year or any future taxable year because, among other reasons, (i) the composition of our Company's and the Subsidiaries' income and assets will vary over time, and (ii) the manner of the application of relevant rules is uncertain in several respects. Further, our Company's PFIC status may depend on the market price of its Equity Shares, which may fluctuate considerably.

***96. Subsequent to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measures and Graded Surveillance Measures by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.***

SEBI and the Stock Exchanges, in the past, have introduced various pre-emptive surveillance measures with respect to the shares of listed companies in India (the "Listed Securities") in order to enhance market integrity, safeguard the interests of investors and potential market abuses. In addition to various surveillance measures already implemented, and in order to further safeguard the interest of investors, the SEBI and the Stock Exchanges have introduced additional surveillance measures ("ASM") and graded surveillance measures ("GSM"). ASM is conducted by the Stock Exchanges on Listed Securities with surveillance concerns based on certain objective parameters such as price-to-earnings ratio, percentage of delivery, customer concentration, variation in volume of shares and volatility of shares, among other things. GSM is conducted by the Stock Exchanges on Listed Securities where their price quoted on the Stock Exchanges is not commensurate with, among other things, the financial performance and financial condition measures such as earnings, book value, fixed assets, net worth, other measures such as price-to-earnings multiple and market capitalization.

Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, and low trading volumes as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, limiting trading frequency or freezing of price on the upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on the market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company. Any such instance may result in a loss of our reputation and diversion of our management's attention and may also decrease the market price of our Equity Shares which could cause you to lose some or all of your investment.

***97. Indian legal principles may differ from those that would apply to a company in another jurisdiction. Thus, rights of shareholders under Indian laws may differ to those under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights, including in relation to class actions, under Indian law may not be similar to shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

- (3) Our Company may, in consultation with the Book Running Lead Managers, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the QIB Portion. 5% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For further details, see “Offer Procedure” on page 572.
- (4) Subject to valid Bids being received at or above the Offer Price, undersubscription in any portion except the QIB Portion, would be allowed to be met with spill over from any other category, or combination of categories, as applicable, at the discretion of our Company, in consultation with the BRLMs and the Designated Stock Exchange, subject to applicable law. In the event of under-subscription in the Offer as described in “Terms of the Offer – Minimum Subscription” on page 565, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b) of the SCRR, the Allotment for the balance valid Bids will be made proportionately towards Fresh Issue and the Offered Shares. Undersubscription, if any, in the QIB Portion (excluding the Anchor Investor Portion) will not be allowed to be met with spill-over from other categories or a combination of categories.
- (5) Subject to valid Bids being received at, or above, the Offer Price.
- (6) Allocation to Bidders in all categories, except Anchor Investors, if any, Non-Institutional Investors and Retail Individual Investors, shall be made on a proportionate basis subject to valid Bids received at or above the Offer Price. The allocation to each Retail Individual Investor shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis. Allocation to Anchor Investors shall be on a discretionary basis. For details, see “Offer Procedure” on page 572. The allocation to each Non-Institutional Investor shall not be less than the minimum Non-Institutional Investor application size, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI ICDR Regulations. Further, (a) 1/3<sup>rd</sup> of the portion available to Non-Institutional Investors shall be reserved for applicants with application size of more than ₹0.20 million and up to ₹1.00 million and (b) 2/3<sup>rd</sup> of the portion available to Non-Institutional Investors shall be reserved for applicants with application size of more than ₹1.00 million. Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of Non-Institutional Investors.
- (7) The initial Allotment to an Eligible Employee in the Employee Reservation Portion shall not exceed ₹0.20 million, however, an Eligible Employee may submit a Bid for a maximum Bid Amount of ₹0.50 million under the Employee Reservation Portion. Only in the event of an undersubscription in the Employee Reservation Portion, the unsubscribed portion may be Allotted on a proportionate basis to Eligible Employees Bidding in the Employee Reservation Portion, for a value in excess of ₹0.20 million, subject to the total Allotment to an Eligible Employee not exceeding ₹0.50 million. The unsubscribed portion if any, in the Employee Reservation Portion (after allocation up to ₹0.50 million), shall be added back to the Net Offer. Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid in the Net Issue and such Bids will not be treated as multiple Bids subject to applicable limits.
- (8) Our Company, in consultation with the BRLMs, may offer an Employee Discount of up to 10% to the Offer Price (equivalent of ₹[●] per Equity Share), which shall be announced at least two Working Days prior to the Bid/Offer Opening Date.

For details in relation to the terms of the Offer, see “Terms of the Offer” on page 560. For details, including in relation to grounds for rejection of Bids, refer to “Offer Structure” and “Offer Procedure” on pages 567 and 572, respectively.

### **Book Building Process**

Book building, in the context of the Offer, refers to the process of collection of Bids from investors on the basis of this Red Herring Prospectus and the Bid cum Application Forms and the Revision Forms within the Price Band. The Price Band and the minimum Bid Lot size will be decided by our Company, in consultation with the BRLMs, and will be advertised in all editions of Business Standard, an English national daily newspaper, all editions of Business Standard, a Hindi national daily newspaper and the Bengaluru edition of Vishwavani, a Kannada daily newspaper (Kannada being the regional language of Karnataka, where our Registered Office is located), at least two Working Days prior to the Bid/Offer Opening Date and shall be made available to the Stock Exchanges for the purposes of uploading on their respective websites. The Offer Price shall be determined by our Company, in consultation with the BRLMs, after the Bid/Offer Closing Date. For details, see “*Offer Procedure – Book Building Procedure*” on page 573.

All Bidders, other than Anchor Investors, shall only participate through the ASBA process by providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs. UPI Bidders shall participate through the ASBA process using the UPI Mechanism. Anchor Investors are not permitted to participate in the Offer through the ASBA process. Pursuant to SEBI ICDR Master Circular, all individual bidders in initial public offerings whose application sizes are up to ₹0.50 million shall use the UPI Mechanism.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Investors subject to the Bid Amount being upto ₹0.20 million, and Eligible Employees Bidding in the Employee Reservation Portion can revise their Bids during the Bid/ Offer Period and withdraw their Bids until the Bid/ Offer Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bidding Date. Allocation to QIBs (other than Anchor Investors) will be on a proportionate basis while allocation to Anchor Investors will be on a discretionary basis and allocation to the Non-Institutional Investors will be in a manner as may be introduced under applicable laws. For further details, see “*Terms of the Offer*” and “*Offer Procedure*” beginning on pages 560 and 572, respectively.

**Each Bidder by submitting a Bid in the Offer, will be deemed to have acknowledged the above restrictions and the terms of the Offer.**

**The Book Building Process and the Bidding process are subject to change from time to time, and the Bidders are advised to make their own judgment about investment through the aforesaid processes prior to submitting a Bid in the Offer.**

**Bidders should note that the Offer is also subject to (i) filing of the Prospectus by our Company with the RoC; and (ii) our Company obtaining final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment.**

For further details on the method and procedure for Bidding, and illustration of the Book Building Process and the price discovery process see “*Offer Procedure*”, “*Offer Structure*” and “*Terms of the Offer*” beginning on pages 572, 567 and 560, respectively. For details in relation to filing of this Red Herring Prospectus see “*-Filing*” on page 117.

### **Underwriting Agreement**

Prior to the filing of the Prospectus with the RoC, as applicable, and in accordance with the nature of underwriting which is determined in accordance with Regulation 40(3) of SEBI ICDR Regulations, our Company and the Selling Shareholders will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Offer. The extent of underwriting obligations and the Bids to be underwritten by each Underwriter shall be as per the Underwriting Agreement. Pursuant to the terms of the Underwriting

Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions to closing, as specified therein.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

*(The Underwriting Agreement, by and amongst the Company, Selling Shareholders and the Underwriters, will be executed prior to the filing of the Prospectus with the RoC. This portion has been intentionally left blank and will be filled in before filing of the Prospectus with the RoC)*

<b>Name, address, telephone and email of the Underwriters</b>	<b>Indicative number of Equity Shares to be underwritten</b>	<b>Amount underwritten (₹ in million)</b>
[●]	[●]	[●]
[●]	[●]	[●]
[●]	[●]	[●]
[●]	[●]	[●]

The abovementioned underwriting commitment is indicative and will be finalized after determination of the Offer Price and Basis of Allotment and actual allocation in accordance with the SEBI ICDR Regulations, and will be subject to the provisions of Regulation 40(2) of the SEBI ICDR Regulations.

In the opinion of our Board of Directors (based on representations made to our Company by the Underwriters), the resources of the Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with the SEBI under Section 12(1) of the SEBI Act read with the SEBI Merchant Bankers Regulations or registered as brokers with the Stock Exchange(s). Our Board/IPO Committee, at its meeting held on [●], has accepted and entered into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitments. Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them in accordance with the Underwriting Agreement.

Note:

The above was prior to our Company undertaking of split of equity shares of face value ₹10 into 5 equity shares of ₹2 each in November 2021.

\* The above price has been derived based on the consideration paid by each holder of CCPS at time of allotment of CCPS divided by the number of equity shares allotted to respective Shareholders upon conversion.

### 3. Compulsorily convertible debentures

As on date of this Red Herring Prospectus, our Company does not have any outstanding CCDs. The following table sets forth the history of CCDs of our Company:

Date of allotment of CCDs	Number of CCDs allotted	Face value per CCD (in ₹)	Issue price per CCD (₹)	Nature of allotment	Nature of Consideration	List of allottees	
						Name of allottee	CCDs allotted
October 30, 2023	5,524,350	2.00	308.00	Private Placement*	Cash	Ronal Holdings LLC (formerly known as Avataar II Co-Investment II Limited)	5,524,350

\* Our Company inadvertently attached the old version of the shareholders resolution instead of the modified version in the Form MGT-14 filed with the RoC, which did not correctly capture the terms of the issuance of compulsorily convertible debentures. To rectify the same we filed a clarification letter intimating dated October 27, 2023, with the RoC regarding the same and a revised Form MGT-14. For details see, "Risk Factors – We are unable to trace some of our corporate records such as challans for certain form filings. Further, there have been delays in relation to reporting requirements like failure to file certain forms with RBI in respect of issuance of securities by our Company within the prescribed timelines and have compounded such delays under FEMA, 1999 and the rules made thereunder and paid the compounding fee. Further, we had also filed a compounding application before the Company Law Board, Chennai, in connection with the delay in holding the annual general meeting of the Company. We cannot assure you that no legal proceedings or regulatory actions will be initiated against us in the future in relation to any such discrepancies." on page 73.

<sup>(1)</sup> The consideration of ₹1,701.50 million was paid by Ronal Holdings LLC at the time of allotment of CCDs. 5,524,350 equity shares of face value ₹2 each were allotted to Ronal Holdings LLC pursuant to conversion of CCDs and the resultant price per equity share translates to ₹308 per equity share

<sup>(2)</sup> For names of allottees of Equity Shares pursuant to conversion of CCDs, see "– Notes to the Capital Structure - Equity Share capital history of our Company" on page 121.

#### Terms of conversion of CCDs

- (c) Our Promoters have given consent to include such number of Equity Shares held by them as may constitute 20% of the fully diluted post-Offer Equity Share capital of our Company as Minimum Promoters Contribution. Our Promoters have agreed not to sell, transfer, charge, pledge or otherwise encumber in any manner, the Minimum Promoters Contribution from the date of filing this Red Herring Prospectus until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.
- (d) Our Company undertakes that the Equity Shares that shall be locked-in are not and will not be ineligible for computation of Minimum Promoters Contribution in terms of Regulation 15 of the SEBI ICDR Regulations. In this connection, we confirm the following:
- (i) The Equity Shares offered for Minimum Promoters Contribution do not include Equity Shares acquired in the three immediately preceding years from the date of the Draft Red Herring Prospectus (a) for consideration other than cash involving revaluation of assets or capitalization of intangible assets; or (b) resulting from a bonus issue of Equity Shares out of revaluation reserves or unrealized profits of our Company or from a bonus issuance against Equity Shares, which are otherwise ineligible for computation of Minimum Promoters Contribution;

- (ii) The Minimum Promoters Contribution does not include any Equity Shares acquired during the immediately preceding one year from the date of the Draft Red Herring Prospectus at a price lower than the price at which the Equity Shares are being offered to the public in the Offer;
- (iii) Our Company has not been formed by the conversion of a partnership firm or a limited liability partnership firm into a company and hence, no Equity Shares have been issued in the one year immediately preceding the date of the Draft Red Herring Prospectus pursuant to conversion from a partnership firm or a limited liability partnership; and
- (iv) The Equity Shares forming part of the Minimum Promoters Contribution are not subject to any pledge with any creditor.

## 12. Details of Equity Shares locked-in for six months

In terms of Regulation 17 of the SEBI ICDR Regulations, the entire pre-Offer Equity Share capital of our Company held by persons other than our Promoters will be locked-in for a period of six months from the date of Allotment except for (i) the Equity Shares offered pursuant to the Offer for Sale; and (ii) any Equity Shares held by a VCF or Category I AIF or Category II AIF or foreign venture capital investors (as defined under the SEBI (Foreign Venture Capital Investor) Regulations, 2009) (“FVCI”), as applicable, provided that (a) such Equity Shares shall be locked in for a period of at least six months prescribed under the SEBI ICDR Regulations from the date of purchase by such shareholders and (b) such VCF or AIF of category I or category II or a FVCI holds, individually or with persons acting in concert, less than 20% of pre-Offer Equity Share capital of the Company (on a fully diluted basis).

Except Filter Capital India Fund I and HDFC AMC Select AIF FOF-I, as on the date of this Red Herring Prospectus, none of our Equity Shares are held by any VCF or Category I AIF or Category II AIF or FVCI.

Any unsubscribed portion of the Offered Shares would also be locked-in as required under the SEBI ICDR Regulations.

## 13. Lock-in of Equity Shares Allotted to Anchor Investors

Any Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in the following manner: There shall be a lock-in of 90 days on 50% of the Equity Shares Allotted to the Anchor Investors from the date of Allotment, and a lock-in of 30 days on the remaining 50% of the Equity Shares Allotted to the Anchor Investors from the date of Allotment.

## 14. Recording on non-transferability of Equity Shares locked-in

As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.

## 15. Other requirements in respect of lock-in

Pursuant to Regulation 21 of the SEBI ICDR Regulations, Equity Shares held by our Promoters and locked-in, as mentioned above, may be pledged as collateral security for a loan with a scheduled commercial bank, a public financial institution, Systemically Important Non-Banking Financial Company or a deposit accepting housing finance company, subject to the following:

- (a) With respect to the Equity Shares locked-in for six months from the date of Allotment, such pledge of the Equity Shares must be one of the terms of the sanction of the loan.
- (b) With respect to the Equity Shares locked-in as Minimum Promoters Contribution for 18 months from the date of Allotment, the loan must have been granted to our Company for the purpose of financing one or more of the objects of the Offer.

However, the relevant lock-in period shall continue post the invocation of the pledge referenced above, and the relevant transferee shall not be eligible to transfer to the Equity Shares till the relevant lock-in period has expired in terms of the SEBI ICDR Regulations.

In terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by our Promoters and locked-in, may be transferred to any member of our Promoter Group or a new promoter, subject to continuation of lock-in applicable with the transferee for the remaining period and compliance with provisions of the Takeover Regulations.

Further, in terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by persons other than our Promoters prior to the Offer and locked-in for a period of six months, may be transferred to any other person holding Equity Shares which are locked in along with the Equity Shares proposed to be transferred, subject to the continuation of the lock in with the transferee and compliance with the provisions of the Takeover Regulations.

The Equity Shares are fully paid-up and there are no partly paid-up Equity Shares as on the date of this Red Herring Prospectus.

### **Employee stock option**

Pursuant to the resolutions passed by our Board and our Shareholders in its meetings each dated October 29, 2021, our Company instituted the Capillary Employee Stock Option Scheme – 2021 (“**ESOP 2021**”). The ESOP 2021 was last amended by resolutions of our Board and Shareholders dated April 30, 2025 and May 30, 2025, respectively. The ESOP Scheme – 2021 has been implemented directly. ESOP 2021 has been prepared to attract and retain talent in and within our Company, encourage employees to strive to perform better and incentivize such employees who exhibit traits appreciated by our Company.

The ESOP 2021 has been instituted in compliance with the relevant provisions of the Companies Act and the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 (“**SBEB Regulations**”) and shall continue to be in compliance with the SBEB Regulations and the relevant provisions of the Companies Act, post listing of Equity Shares pursuant to the Offer.

As on the date of this Red Herring Prospectus, under the ESOP 2021, an aggregate of 2,961,948 options have been outstanding, an aggregate of 834,685 options have been vested and an aggregate of 2,127,263 options have been unvested. All options have been granted only to the employees of our Company in compliance with the relevant provisions of the Companies Act, 2013.

Further, as on the date of this Red Herring Prospectus, our Company has issued Equity Shares under ESOP 2021 only once. On November 15, 2023, i.e. during the quarter ending December 31, 2023, 571,064 equity shares of face value ₹2 each were allotted to certain employees at a price of ₹2 per Equity Share pursuant to the exercise of employees stock options. For details, please refer “- *Equity Share Capital History of our Company*” on page 121.

## OBJECTS OF THE OFFER

The Offer comprises a Fresh Issue of up to [●] equity shares of face value ₹2 each, aggregating up to ₹3,450.00 million by our Company and an Offer for Sale of up to 9,228,796 equity shares of face value ₹2 each, aggregating up to ₹[●] million by the Selling Shareholders. For details, see “*The Offer*” beginning on page 103.

### Offer for Sale

Our Company will not receive any proceeds from the Offer for Sale. The proceeds of the Offer for Sale shall be received by the Selling Shareholders and will not form part of the Net Proceeds. Each of the Selling Shareholders will be entitled to its respective portion of the proceeds of the Offer for Sale after deducting its respective proportion of the Offer expenses and relevant taxes thereon. For further details, please see “– *Offer Expenses*” on page 175.

### Fresh Issue

The details of the proceeds from the Fresh Issue are summarised in the following table:

Particulars	Estimated amount (in ₹ million)
Gross proceeds of the Fresh Issue	3,450.00
(Less) Offer expenses in relation to the Fresh Issue <sup>(1)(2)</sup>	[●]
<b>Net Proceeds<sup>(3)</sup></b>	<b>[●]</b>

<sup>(1)</sup> For details with respect to sharing of fees and expenses amongst our Company and the Selling Shareholders, please refer to “– *Offer Expenses*” on page 175.

<sup>(2)</sup> To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC.

### Net Proceeds

Our Company proposes to utilize the Net Proceeds towards funding the following objects (collectively, referred to as the “**Objects**”):

1. Funding our cloud infrastructure cost;
2. Investment in research, designing and development of our products and platform;
3. Investment in purchase of computer systems for our business; and
4. Funding inorganic growth through unidentified acquisitions and general corporate purposes.

In addition, our Company expects to receive the benefits of listing of the Equity Shares on the Stock Exchanges which will result in the enhancement of our brand name and creation of a public market for our Equity Shares in India.

The main objects clause and the objects incidental and ancillary to the main objects as set out in the Memorandum of Association enables us: (i) to undertake our existing business activities; and (ii) to undertake the activities for which the funds are being raised by us through the Fresh Issue.

### Utilisation of Net Proceeds

The Net Proceeds are proposed to be utilised in the manner set forth below:

<b>Net Proceeds<sup>(1)</sup></b>	[●]	[●]	[●]	[●]

<sup>(1)</sup> To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC. The cumulative amount to be utilised for general corporate purposes and towards unidentified acquisitions shall not, in aggregate, exceed 35% of the gross proceeds, out of which the amounts to be utilized towards either of (i) general corporate purposes, or (ii) unidentified acquisitions will not exceed 25% of the gross proceeds. Further, the utilization of Net Proceeds towards funding inorganic growth through unidentified acquisitions and general corporate purposes shall be done in such a manner to ensure that we do not utilise more than 50% of the proceeds from Fresh Issue towards funding any capital expenditure (including towards funding the unidentified acquisitions).

The fund requirements, deployment of funds and the intended use of the Net Proceeds as described in this Red Herring Prospectus are based on our current business plan, management estimates, and current circumstances of our business, all of which are subject to change. The actual utilisation and deployment of funds are dependent on a number of factors, including the timing of completion of the Offer, prevailing market conditions, our ability to expand our business, acquire new customers and retain our existing customers, our relationship with and the pricing of the products and services offered by technology vendor and service providers, current and valid quotations from the third party vendors which are subject to change in the future, access to qualified human resources, inorganic and geographic expansion opportunities, other commercial and technical considerations, which are subject to change and may not be within the control of our management, as well as general factors affecting our results of operations, financial condition, access to capital, business and strategy. The above fund requirements and deployment of funds have not been appraised by any external agency or any bank or financial institution or any other independent agency. For further information on factors that may affect our internal management estimates, see “*Risk Factors – Our funding requirements and the proposed deployment of Net Proceeds are not appraised by any independent agency, which may affect our business and results of operations.*” on page 89.

We may have to revise our funding requirements and deployment, as required, at the discretion of our management, and in accordance with applicable laws on account of internal factors such as our business and growth strategies and other external factors such as changes in the business environment and interest rate fluctuations, costs and other charges, competitive and regulatory landscape, our ability to identify and consummate new business initiatives which may or may not be within the control of our management. This may entail rescheduling the proposed utilisation of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to Shareholders’ approval in compliance with applicable laws.

Subject to Shareholders’ approval in compliance with applicable law, in case of variations in the actual utilisation of funds, in case of any surplus amount after utilization of the Net Proceeds towards any of the aforementioned Objects, we may use such surplus amount towards other Objects as set out above, provided that (a) the total amount to be utilized towards either general corporate purposes or funding inorganic growth through acquisitions, individually, does not exceed 25% of the Gross Proceeds in accordance with applicable law, and (b) the cumulative amount to be utilized for general corporate purposes and funding inorganic growth through unidentified acquisitions shall not exceed 35% of the Gross Proceeds. Further, the utilization of Net Proceeds towards funding inorganic growth through unidentified acquisitions and general corporate purposes shall be done in such a manner to ensure that the Company does not utilise more than 50% of the proceeds from Fresh Issue towards funding any capital expenditure (including towards funding the unidentified acquisitions).

Subject to applicable law, in case of a shortfall in raising requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders.

To the extent we are unable to utilise any portion of the Net Proceeds towards the aforementioned Objects, per the estimated schedule of deployment specified above, due to factors such as (i) the timing of completion of the Offer; (ii) market conditions outside the control of our Company; and (iii) any other economic, business and commercial considerations, the remaining Net Proceeds shall be utilized in the subsequent Fiscal as may be determined by our Company, in accordance with applicable laws. However, our Company shall not vary the Objects without being authorised to do so by our shareholders, in the event of a rescheduling of the deployment of the Net Proceeds beyond Fiscal 2029. For further details, please see “- *Variation in Objects*” on page 178.

## Details of the Objects

### 1. Funding our cloud infrastructure cost.

Our technology infrastructure is built on a scalable, cloud-based architecture that allows our customers to process large volumes of data on a real-time basis and ensure high-speed, secure and stable performance on a large scale to accommodate and support the increased complexity and diversity of their business operations. Our cloud platform is built to integrate seamlessly with the customer’s existing technology stack.

Cloud-native services also enable testing new features in a time efficient manner and introducing innovations to the market without heavy upfront infrastructure investment. Thus, using services of external cloud servers benefits us and our business in several ways, including:

- (i) saving the significant upfront investments and time required to build a private cloud infrastructure comprising of data centers, hardware, networking, staffing, maintenance, etc;
- (ii) aiding scalability with access to global data centres enabling us to serve our clients across jurisdictions;
- (iii) providing access to a variety of complex tools enabling us to drive innovation, platform development and provide customised solutions for our customers driving focus on our core business.

Our robust third-party cloud ecosystem featuring container orchestration, infrastructure as code, document-oriented databases, cloud storage, and comprehensive monitoring tools enable us to provide advanced offerings like segmentation, workflow management, event streaming, and data engineering. Our cloud-based infrastructure setup ensures optimal performance, reliability, and agility across our customer engagement solutions.

### Historical expenditure software and server charges

The table below sets out the software and server charges, including our server, software and other tool charges paid to various external service providers for the six months period ended September 30, 2025 and Fiscals 2025, 2024 and 2023, respectively, on a consolidated basis:

\*\* includes cost towards software and other tools used for service delivery to customers.

For details, see “Restated Consolidated Financial Information” on page 398.

We, from time to time, enter into private pricing agreements and arrangements with technology service providers for the provision of technology and cloud infrastructure services. For instance we through one of our Material Subsidiaries, Capillary Pte. Ltd had executed two private pricing addendums, with a prominent third-party cloud infrastructure provider (“**Service Provider**”) each dated September 22, 2023 one of which was amended through an amendment agreement dated October 30, 2024, (“**Erstwhile Technology Agreements**”), for a period of five years from October 1, 2023 until September 30, 2028, pursuant to which we had made annual spend commitment. However, given the increased usage requirement of technology and cloud infrastructure services over the historical years, two renewed private pricing addendums have been entered into with the Service Provider each dated September 30, 2025, (“**Technology Agreements**”), for a period of five years from October 1, 2025 until September 30, 2030, pursuant to which we have made the following annual spend commitment (“**Annual Commit**”) that applies to our Company and Subsidiaries:

Particulars	Contract year				
	October 1, 2025 to September 30, 2026	October 1, 2026 to September 30, 2027	October 1, 2027 to September 30, 2028	October 1, 2028 to September 30, 2029	October 1, 2029 to September 30, 2030
Spend Commitment (in USD million)	7.10	7.40	7.70	8.00	8.50
Spend Commitment (in ₹ million)	629.91	656.53	683.14	709.76	754.12

\* For the purposes of these estimations, a conversion rate of 1 USD = ₹88.72 as on September 30, 2025 has been considered

We have also signed up for savings plan provided by the Service Provider pursuant to which we avail Compute Services (*defined below*) at fixed hourly rates on committing to availing the Compute Services for a specified tenure (“**Savings Plan**”).

We avail a bouquet of services and utilise several tools provided by Service Provider, including the following:

- (i) *Compute services*. It provides scalable computing capacity in the cloud and allows users to run virtual machines with customisable configurations or run code in response to events without provisioning servers (“**Compute Services**”).
- (ii) *Container services*. Helps in deploying, managing, and scaling containerised applications (“**Container Services**”).
- (iii) *Storage and data Services*. Offers secure, scalable, and durable storage options and is widely used object storage service, ideal for backup, archival, and big data. Additionally, we avail monitoring and management services that help maintain performance, security and reliability across the cloud infrastructure (“**Storage, Data and Monitoring Services**”).
- (iv) *Networking Services*. Enables secure, scalable, and high-performance connectivity and lets users create isolated networks within the cloud computing platform, defining IP ranges, subnets, and routing rules along with container solutions, and storage and data services. (“**Networking Services**”).

(the Container Services, Storage, Data and Monitoring Services, and Network Services are collectively referred to as “**Storage, Container and Networking Services**”).

We have incurred an aggregate cost of ₹1,517.32 million towards Service Provider for the various services availed and tools utilised, including for Compute Services, and Storage, Container and Network Services, during the six months period ended September 30, 2025 and Fiscals 2025, 2024 and 2023 as set forth below:

Particulars	Six months period ended September 30, 2025		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (in ₹ million)	% of Software and Server charges	Amount (in ₹ million)	% of Software and Server charges	Amount (in ₹ million)	% of Software and Server charges	Amount (in ₹ million)	% of Software and Server charges
Compute Services	127.04	19.89%	201.51	21.86%	132.35	14.14%	108.04	36.17%

<b>Cost towards the Service Provider</b>	<b>325.24</b>	<b>50.91%</b>	<b>518.57</b>	<b>56.25%</b>	<b>424.89</b>	<b>45.40%</b>	<b>248.62</b>	<b>83.23%</b>

As certified by Saini Pati Shah & Co LLP, chartered accountants, with FRN 137904W/W100622, pursuant to their certificate dated November 7, 2025.

In accordance with the Erstwhile Technology Agreement and current Technology Agreement, the Annual Commit is the minimum amount required to be spent for each contract year, failing which we are required to pay the shortfall amount to the Service Provider. We have historically paid significantly higher amounts towards fees to the Service Provider. Our cost towards the Service Provider as a percentage of Annual Commit made under Erstwhile Technology Agreement (which includes payment towards Compute Commit) for the six months period ended September 30, 2025 was 284.01%, for Fiscal 2025 was 226.42% and for the period starting October 1, 2023 to March 31, 2024 was 190.98%. There was no arrangement with the Service Provider for the period between April 1, 2022 till September 30, 2023 under the Erstwhile Technology Agreement. Thus, as set out in the above paragraphs, we have entered into the modified Technology Agreement agreeing to a higher Annual Commit given the high historical usage and our expected growth.

For risk pertaining to our reliance on third-party service providers, see “Risk Factors – We rely on third-party service providers including data centers and cloud computing providers, and any interruption or delay in service from these facilities could impair the delivery of our products and adversely impact our business and results of operations. Further, any increase in fee charged by such service providers may have an adverse impact on our profitability.” on page 49.

#### **Proposed utilisation of Net Proceeds**

Historically, our strategic investments and costs incurred on our cloud infrastructure has facilitated in optimising platform performance and ensuring our ability to efficiently manage our increasing transaction volumes. The number of consumers on our platform have increased consistently over the years. The table below sets out the increases in our consumers, as well as loyalty transactions processed per hour in the six months ended September 30, 2025 and Fiscals 2025, 2024 and 2023:

Particulars	Six months period ended September 30, 2025	Fiscal 2025	Fiscal 2024	Fiscal 2023
Number of consumers (in million)	1,819	1,256	1,132	969
Percentage increase in number of consumers (%)	NA	11.00%	16.78%	NA
Number of loyalty transactions per hour (in million)	0.16	0.18	0.15	0.10
Percentage increase in number of loyalty transactions per hour (%)	NA	21.72%	53.57%	NA

As certified by Saini Pati Shah & Co LLP, chartered accountants, with FRN 137904W/W100622, pursuant to their certificate dated November 7, 2025.

In order to keep pace with evolving customer needs and enhance overall efficiency, we plan to continue funding and expanding our cloud infrastructure including leveraging the services provided by external vendors.

We intend to utilize up to ₹1,430.00 million of the Net Proceeds towards funding our cloud infrastructure cost, to be deployed as follows, through payments to be made by our Company or Subsidiaries. The balance portion of Annual Commit and any additional expenses towards cloud infrastructure will be met by any means available to us, including internal accruals.

Particulars	Fiscal 2026	Fiscal 2027	Fiscal 2028
Proposed utilisation of Net proceeds towards cloud infrastructure cost	150.00	640.00	640.00

None of our Directors, Key Managerial Personnel, Senior Management Personnel, Promoters, members of our Promoter Group and our Group Companies have any interest in the proposed investment to be made by our Company towards this Object.

## 2. Investment in research, designing and development of our products and platform

We provide a comprehensive set of artificial intelligence (“AI”) led cloud-native Software-as-a-Service (“SaaS”) products for customer relationship management (“CRM”) and the loyalty management industry. According to the Zinnov Report, our expertise, advanced technology, and ability to deliver measurable business impact have enabled a significant client base including fortune 500 companies across industries. Further, according to the Zinnov Report, unlike traditional solutions that focus on isolated aspects of loyalty, our advanced loyalty management platform (*Loyalty+*), connected engagement platform (*Engage+*), predictive analytics platform (*Insights+*), rewards management platform (*Rewards+*) and customer data platform (“CDP”) allow our customers to run end-to-end loyalty programs throughout the customer value chain, and provide an integrated approach that combines customer data, advanced analytics, and AI-driven engagement. We leverage AI and machine learning (ML) technology to deliver personalized experiences to our customers.

Research and development (“R&D”) activities undertaken by us play a significant role in the sustainable growth of our business, as such R&D initiatives drive innovation, improve product quality, enhance the user experience, and ultimately help us achieve competitive advantage and sustainable growth. This makes R&D a necessary on-going and strategic activity. Our investments in R&D enable us to develop new features, explore emerging technologies, address industry specific challenges and help us cater to the constantly evolving market needs. Such R&D activities involve developing new products, integrating new technologies and developing new functionalities for our existing product offerings.

The research, design, development and maintenance of our products and platform is heavily dependent on our engineers, product managers and data scientists for understanding client needs and delivering customised solutions, interpreting complex customer data and translating into strategies and driving innovation to deliver complex AI based solutions. Thus, our employees are central to our business where innovation is key. For risk pertaining to our reliance on qualified personnel, see “*Risk Factors – We are significantly dependent on our employees for our business operations (including for design, development and maintenance of our products and platform, customer acquisition and retention) and we incur significant expenses in relation to meeting our obligations towards our employees. The loss of, or our inability to hire, retain, train, and motivate qualified personnel could adversely affect our business, results of operations and financial condition.*” on page 45.

### *Product research and design*

We continuously explore new technologies, assess their feasibility, and identify potential risks early in the development process (“**Research and Design**”). Our Research and Design team which consists of forty-four employees as at September 30, 2025, and third-party contractors is a multidisciplinary function focused on shaping product direction, validating decisions through research, and ensuring rapid and quality delivery. The Research and Design team, consisting of engineers and marketing personnel, plays a role in the engineering, design, marketing and customer success. It contributes to product excellence through strategy, design input, documentation, and quality assurance (QA) automation enablement. Their core responsibilities include:

- (i) conducting market research and competitive analysis to identify opportunities and threats and inform product decisions;
- (ii) defining and iterating product goals in alignment with our overall objectives and market opportunities;

- (iii) carrying out internal and external engagements to deliver elegant, user-centric experiences rooted in real, evolving customer needs;
- (iv) collaboration with cross-functional teams including the engineering, design, marketing, sales and customer support teams to ensure successful product development and launch;
- (v) preparation and publication of product roadmaps that outlines key features, milestones, and timelines;
- (vi) own the creation and maintenance of detailed databases of appropriate reference materials, including research, usability tests and design specifications;
- (vii) managing the entire product lifecycle from conception to end-of-life, ensuring continuous improvement and customer satisfaction; and
- (viii) acting as a bridge between product requirements and automated testing design.

#### *Product and platform development*

We consistently customise and improvise our product offerings and endeavour to build industry specific SaaS solutions by introducing new products for consumers, developing the existing technology in-house and invest in revenue generating features (collectively with other activities towards development of our offerings, “**Product and Platform Development**”). We are dependent on our Product and Platform Development team and also use the services of few third-party service providers for assisting and executing Product and Platform Development activities.

Our focus in the current Fiscal and last three Fiscals were towards development of new features to our existing products, development of new products and integration with our customers’ existing technology stack.

Set forth below are the details of product offerings and the significant developments undertaken in our existing product offerings during the current Fiscal and Fiscals 2025, 2024 and 2023:

- (i) **Loyalty+**: a configurable, AI-powered loyalty program software that enhances brand engagement and repeat purchases. Our major focus within this product was, *inter alia*, development of loyalty rule engine, which helps in scaling and improves usability of the loyalty scale engine.

For instance, we built rewards catalogue to support for various redemption schemes like gift cards, and cashback etc., with customer’s personalization for a conglomerate in India which enabled them to simplify the handling of coupons and made loyalty programs more flexible and easier to manage.

- (ii) **Insights+**: an analytics platform that aggregates multi-channel consumer data, cleanses and enriches it, and provides actionable insights. It supports ad-hoc analysis, key performance indicators tracking of the customers, behavioural funnels, and automated segment uploads with robust role-based access. Our major focus within this product was development of a business reporting tool, which helps in analysing customer data.

For instance, we built unified reporting across subsidiaries of large customers, allowing cross-brand performance analysis and segmentation for an enterprise which enabled precision targeting of its customers.

- (iii) **Engage+**: a marketing automation platform that helps businesses run personalized campaigns across email, short message service (SMS), social media and in-store. It features performance dashboards, campaign search and filters, audience management, social media integration, role-based access and advanced reporting. Our major focus within this product was development of the ‘journey builders’, a feature that guides customers through a personalized experience throughout their consumer lifecycle aimed at building loyalty and increased engagement.

For instance, we built smart personalization incorporating various communication channels and ways to track campaign goals, and tools to understand what’s driving results. We also made it easier for large multi-brand companies to engage customers across all their brands.

- (iv) **CDP**: a real-time customer data platform that unifies and utilizes customer data for personalized experiences. It has features which enable data management, seamless connections, personalized care and fraud prevention. Our main focus has been on providing features for big enterprise customers and ensuring the platform is stable.

For instance, we created the connected organizations feature to help multi-brand companies manage loyalty programs worldwide for an enterprise.

Set forth below are the details of new product offerings developed during the current Fiscal and Fiscals 2025, 2024 and 2023:

- (i) **Rewards+<sup>^</sup>**: a comprehensive loyalty and rewards solution designed to enhance customer engagement and drive profitability for businesses that leverages AI and ML, gamification, and a broad rewards network to offer personalized customer experiences. Our major focus within this product was building a dynamic rewards marketplace, offering a wide array of benefits, including card-linked offers, coupons, gift cards, cashback, and discounts and other offers on categories such as entertainment, travel, retail, and dining.

These features offer more ways to earn, beyond just the usual points system for our BFSI and telecom customers.

<sup>^</sup> We developed a new product named Rewards+, utilising the assets of Digital Connect business acquired from Tenergy LLC

- (ii) **Healthcare offerings**: a loyalty solution for the healthcare industry that enhances patient engagement and retention through personalized programs. It fosters long-term relationships by offering customized rewards, personalized communication, and analytics to track patient behaviour and outcomes. Our major focus within this product has been development of an application for healthcare industry which helps in developing healthy habits amongst the consumers.

For example, we created a feature for a healthcare client, that allows to earn rewards by reaching daily step goals or completing fitness challenges.

For details pertaining to our product offerings and case studies please see “Our Business – Our Products” and “Our Business – Case Studies” on page 270 and 308.

### **Historical manpower expenditure on Research and Design, and Product and Platform Development**

Our Research and Design, and Product and Platform Development activities are undertaken by diverse base of employees comprising of engineers with varied skillsets, and third-party service providers. The manpower cost towards Research and Design, and Product and Platform Development consists of (i) payment of salaries to our in-house personnel; and (ii) fees to professionals engaged by us through third party agencies. Further, we continuously invest in attracting quality tech talent to enhance the use and reach of our platform.

The table below sets forth the details of employees and professionals engaged by us through third party agencies contributing to Research and Design expenditure, and Product and Platform Development in the six months period ended September 30, 2025 and the Fiscals 2025, 2024, and 2023 along with cost incurred towards them:

### **Proposed utilization of Net Proceeds**

We believe that sustained investment in AI and research and development activities will be critical to maintaining our competitive edge. As we aim to expand into new industry verticals and deepen our presence in global markets, we will need a broader portfolio of AI-powered loyalty product features to effectively serve diverse customer needs across geographies. Developing such solutions will require continuous investment and innovation in advanced AI models, data infrastructure, and personalisation engines to ensure relevance and effectiveness.

For instance, in certain emerging markets such as APAC, companies are looking to extensively adopt loyalty management software and embark on various efforts to improve brand loyalty and encourage repeat purchases. Further, according to the Zinnov Report, in markets such as EMEA, changing end-user demographics, growing expenditure on loyalty programs, rapid growth in the applications of AI and analytics, and appreciation for online reward management solutions are adding to the loyalty market growth. We believe these factors pose a significant opportunity for scalable, AI-first solutions that can accelerate digital transformation and customer retention.

Additionally, we intend to focus on leveraging technological advancements in areas such as real-time analytics, behavioral segmentation, predictive loyalty, and omnichannel orchestration. These capabilities are not only expected to strengthen the value proposition of our products but are also expected to improve platform efficiency.

#### *Research and Design*

Our key focus areas under Research and Design include:

##### 1. ***API-first loyalty management***

Building a comprehensive API platform for seamless integration of loyalty programs, supporting real-time member benefits and flexible points management.

##### 2. ***Product experience***

Developing an intuitive self-service platform enabling businesses to independently manage loyalty programs, create promotions, and configure rules

##### 3. ***Enterprise readiness:***

Implementing enterprise-grade features including advanced reporting, data exports, compliance tools, and multi-level account management

4. ***Kognitiv and other migrations:***

Implementing real-time audiences, integrating segmentation and audiences, simplifying tiers and merging/simplifying the incentives stack

5. ***Experimentation and generative loyalty:***

Creating an AI-powered platform for testing and optimising customer journeys with personalised experiences and targeted promotions

6. ***Immersive loyalty experience:***

Implementing innovative gamification features including dynamic leaderboards, mystery rewards, and flexible redemption options

7. ***Coalition management:***

Building a comprehensive partner ecosystem platform with automated onboarding, settlement systems, and partner promotion tools

*Product and Platform Development*

We will continue to develop and add new features to our existing offerings, namely, of Loyalty+, Insights+, Engage+, CDP, Rewards+ and the healthcare offerings in future to, *inter alia*, (i) drive our growth; and (ii) enable precise customer segmentation, real-time offer personalization, and smarter loyalty program management across industries and geographies.

Additionally, we will deploy the Net Proceeds towards building the following features within our existing product offerings:

1. ***Sandbox:*** an offering being developed under Loyalty+ and CDP, that creates a sandbox environment to simulate real-world scenarios, allowing teams to test and validate systems in a controlled setting. Our major focus in the next three Fiscals will be towards development of features like API call testing, data synchronization validation, campaign logic adjustments, and the ability to replicate real-time conditions to test new functionalities and integrations.
2. ***Loyalty + UX:*** a feature that revamps the Loyalty+ platform's user interface to simplify program management and enhance user experience. Our major focus in the next three Fiscals will be towards development of features like a streamlined design that prioritizes ease of navigation, advanced performance metrics, and new tools to boost user engagement and enhance overall platform usability.
3. ***AI Enhancements.*** An integration of advanced AI features, including predictive analytics, personalized recommendations, and real-time insights. Our major focus in the next three Fiscals will be towards development of new features within our existing product offerings which will enable customers to, *inter alia*, (i) personalize their content and loyalty programs to increase customer lifetime value (ii) cross-sell products; (iii) automate repetitive tasks; and (iv) optimize the timing and difficulty of challenges, and streamline business-as-usual (BAU) operations for stakeholders. The AI tools are embedded in platforms like Loyalty+ and Engage+, significantly improving operational speed and decision-making accuracy.

We will also continue to develop new offerings in the future to, *inter alia*, (i) diversify our revenue streams; and (ii) develop industry-specific loyalty solutions that cater to the unique needs of various sectors.

For the purposes of the above, we will need to invest in retaining and further strengthening our technical teams with relevant skill-sets to build, support, manage and enhance our existing products and also build new products which will allow us to cater to different customer segments, invest in the required tools and platforms to improve our existing products and develop new products. Owing to the nature of our business, for optimum

utilisation of the technology, research, designing and development of new products, innovating and introducing new features to existing products and a seamless experience of our platform, we are in constant lookout for skilled personnel and maintain focus on retention thereof. Accordingly, due to the competition for skilled technology and data personnel in the Indian, US and other markets in which we operate, hiring and retaining appropriate personnel requires significant infusion of funds and resources by us. For details, please see “*Risk Factors – We are significantly dependent on our employees for our business operations (including for design, development and maintenance of our products and platform, customer acquisition and retention) and we incur significant expenses in relation to meeting our obligations towards our employees. The loss of, or our inability to hire, retain, train, and motivate qualified personnel could adversely affect our business, results of operations and financial condition.*” on page 45. We may also outsource certain services relating to the above aspects to external professionals sourced from service providers.

Pursuant to a resolution dated October 28, 2025, our Board has approved the utilisation of ₹715.81 million from the Net Proceeds to strengthen our Research and Design and Product and Platform Development capabilities.

Further, set forth below are the details of deployment of Net Proceeds towards Research and Design, and Product and Platform Development:

### 3. Investment in purchase of computer systems for our business

We propose to purchase computer systems from a portion of the Net Proceeds aggregating to ₹103.42 million, to aid in the running of our business. We have in the past invested, and continue to invest, in our information technology equipment in order to improve our efficiency and support development of our platform to meet changing customer requirements and expectations. The expenditure on procurement of computer systems help us in enhancing the overall efficiency and productivity of our workforce by equipping teams with modern, high-performance computing devices, replacing technologically obsolete hardware assets, supporting business continuity, data management and secure access in both on premises and hybrid work environment.

We have also instituted a computer systems replacement policy, effective from August 10, 2024 (“**Computer Systems Replacement Policy**”), to establish guidelines for efficient utilisation and replacement of the computers used by our employees every four (4) years. The necessity of the Computer Systems Replacement Policy is to ensure that employees have access to reliable, secure, and efficient computing resources to effectively perform their duties. The policy applies to all employees who have been issued computers by the organization and covers the replacement, recycling, and reassignment of computers that have reached the end of their useful life.

The details of our historical investment in purchasing/acquiring computer systems for the six months period ended September 30, 2025 and Fiscals 2025, 2024 and 2023 are set forth below:

All quotations received from the vendors mentioned above are valid as on the date of this Red Herring Prospectus. However, since we have not entered into any definitive agreement / raised purchase orders with the vendor, there can be no assurance that the same vendor would be engaged to eventually supply laptops of the same configuration or at the same costs. Hence, the purchase of laptops and proposed deployment is subject to final terms and conditions agreed with the vendor including configuration, costs, delivery schedules and other factors prevailing at that time. Further, we may purchase laptops of different configuration, make and model depending upon the system and technology upgrades, timing of such purchases and our requirements at that time. The prices mentioned in the quotations and as stated above exclude applicable taxes. Such additional taxes shall be funded from internal accruals, if applicable. Further, the actual purchase price and delivery periods may be subject to change at the time of placing of the orders. If there is any increase in the costs of the laptops, the additional costs shall be paid by us from our internal accruals.

None of our Directors, Key Managerial Personnel, Senior Management Personnel, Promoters, members of our Promoter Group and our Group Companies have any interest in the proposed investment to be made by our Company towards this Object.

#### **4. Funding inorganic growth through unidentified acquisitions and general corporate purposes**

Our Company proposes to deploy the balance Net Proceeds aggregating to ₹[●] million towards funding inorganic growth through unidentified acquisitions and general corporate purposes, in a manner as approved by our Board from time to time, subject to such amount to be utilised for general corporate purposes and towards unidentified acquisitions not, in aggregate, exceeding 35% of the Gross Proceeds, out of which the amounts to be utilised towards either of (i) general corporate purposes, or (ii) unidentified acquisitions and other strategic initiatives shall not exceed 25% of the Gross Proceeds.

Further, the utilization of Net Proceeds towards funding inorganic growth through unidentified acquisitions and general corporate purposes shall be done in such a manner to ensure that the Company does not utilise more than 50% of the proceeds from Fresh Issue towards funding any capital expenditure (including towards funding the unidentified acquisitions).

##### *(a) Funding inorganic growth through unidentified acquisitions*

In pursuit of our overall strategy to continue scaling our business, we intend to keep pursuing strategic investments and acquisitions which are complementary to our business to enhance our product and service capabilities and offerings. We intend to continue to selectively pursue opportunities for evaluating potential targets for strategic investments, acquisitions, and partnerships, based on following criteria:

- (i) acquiring businesses that complement our product and service offerings which are able to synergise with our existing business model, thereby providing us new capabilities to serve our existing consumers.

For instance, in September 2021, we made a strategic investment pursuant to which we acquired Persuade Loyalty, LLC and Persuade Holdings, Inc. and completed our first acquisition in the US market. This acquisition gave us presence in the US market and access to client base comprising multiple Fortune 100 and Fortune 500 companies as customers, which we believe can serve as a growth engine for our operations particularly in North America.

- (ii) Acquiring technology and consulting companies focused on loyalty, rewards, engagement, and promotions that provide solutions across the entire customer value chain, with the goal of integrating these digital capabilities into Capillary's platform to strengthen our end-to-end offerings.
- (iii) acquiring technology infrastructure thereby enhancing our service/product offerings;
- (iv) 'acqui-hire' opportunities, wherein we acquire a company and its experienced and skilled team, to further strengthen our existing ecosystem;
- (v) enhance our service capabilities both internally and externally through investments in the loyalty segments; and
- (vi) Focusing on acquiring companies/businesses which help in penetrating further in North America and other markets including Europe.

According to the Zinnov Report, there is an untapped potential in the enterprise market in Asia-Pacific, EMEA and the North American regions, projecting a significant growth rate of 16.6%, 8.7% and 5.2%, respectively from years 2024 to 2029. The US enterprise loyalty market, valued at approximately USD 5 billion in 2024, is dominated by a large number of small players, with 75-80% of the market already using some loyalty solution, loyalty solutions are highly sticky. According to the Zinnov Report, many of these players have outdated technology stacks and low EBITDA, requiring modernization investments. As part of our strategy, we will target companies that have a strong enterprise sales presence and a well-established US footprint and selectively expand into evolved markets such as Europe, following a similar strategy. We target companies with revenues in the range of USD 10 million – USD 20 million with enterprise sales and presence within the

United States for acquisition. For further details, see “*Our Business – Strategies – Expand Presence in the United States and Pursue Further Acquisitions in North America and Other Regions*” on page 301.

We have spent an aggregate amount of to ₹4,389.07 million on acquisitions in the past five years through our Material Subsidiaries, CPL and CTL. The table below summarizes the key acquisitions that we have undertaken in the past five years:

With the above acquisitions, we have demonstrated our ability to migrate businesses onto our platform. By selecting acquisitions that complement our existing capabilities, we ensure seamless integration and synergy through our comprehensive suite of solutions and cross-selling options. Our disciplined approach to acquisitions has allowed us to scale businesses and integrate them into our broader ecosystem. For example, pursuant to acquiring Persuade Group in September 2021, we have experienced significant growth in the United States. Persuade Group's revenues increased from ₹505.52 million in Fiscal 2023 to ₹ 1,078.08 million in Fiscal 2024 and ₹ 2,121.95 million in Fiscal 2025, representing 19.80%, 20.53% and 35.47% of our revenue from operations in such years, respectively. Given Persuade Group's strong customer base, including Fortune 100 and Fortune 500 companies, and cash-positive operations, we intended to further invest in North America. Focusing on our expansion in North America, we subsequently acquired B+P in April 2023 and Kognitiv in May 2025 operating primarily in the North American markets.

For further details, see "*History and Certain Corporate Matters - Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamation, any revaluation of assets, etc. in the last 10 years*" on page 340. Also, see "*Our Business – Our Growth Path – Inorganic Growth*" on page 280.

Our ability to identify value generating acquisition targets, integrate them seamlessly, and drive sustained growth underscores our strength in market consolidation and strategic expansion. For further details, see "*Our Business - Proven Playbook to Integrate and Turnaround Acquired Businesses*" on page 294.

#### *Rationale for future inorganic initiatives*

The actual deployment of funds will depend on a number of factors, including the timing, nature, size and number of acquisitions undertaken, as well as general factors affecting our results of operation, financial condition and access to capital. We continue to pursue inorganic acquisitions to drive sustained growth that underscores our strength in market consolidation and strategic expansion. While we continue to invest significantly towards Product Research and Design, and Product and Platform Development, we believe that inorganic growth will also be a viable method for enhancing our product offerings, acquiring high quality engineering talent or for acquiring specialised technologies enabling us to enter new geographies.

#### *Proposed form of investment and nature of benefit expected to accrue:*

The criteria discussed above will also influence the form of investment for these potential acquisition and strategic partnership prospects, i.e., whether they will involve equity, debt or any other instrument or combination thereof. At this stage, we cannot identify any potential strategic investments or acquisitions, the investment or acquisition process or the size and whether the form of investment will be equity, debt or any other instrument or combination thereof, or any such investment platform or if such acquisition will be in domestic market or outside India or both. The portion of the Net Proceeds, allocated towards this object of the Offer may not be the total value or cost of any such strategic initiatives, but is expected to provide us with sufficient financial leverage to enter into binding agreements. In the event that there is a shortfall of funds required for such strategic initiatives, such shortfall shall be met through our internal accruals and/or debt financing or any combination thereof.

Further, in accordance with the SEBI Listing Regulations, with respect to such acquisitions proposed to be made from the Net Proceeds, our Company will disclose to the Stock Exchanges, the required details of the acquisition, including name of the target entity, cost of acquisition and nature of acquisition, at the relevant stages as prescribed therein.

#### *Investment process for acquisitions*

Our acquisition strategy is primarily driven by our Board. We have established a dedicated mergers and acquisitions function to accelerate growth through strategic acquisitions in fragmented, high-value markets. The typical framework and process followed by us for acquisitions involves identifying the strategic investments or acquisitions based on the criteria set out above, entering into requisite non-disclosure agreements and conducting diligence of the target. On satisfactory conclusion of the diligence exercise, we enter into definitive agreements after the approval of our Board and the Shareholders, if required under applicable law. The proposed inorganic acquisitions shall be undertaken in accordance with the applicable laws, including the Companies Act, 2013, FEMA and the regulations notified thereunder, as the case may be. As on the date of this Red Herring Prospectus, we have not entered into any definitive agreements in relation to any proposed strategic investments or acquisitions for which we intend to utilize Net Proceeds. For risk

pertaining to funding inorganic growth through unidentified acquisitions, see “*Risk Factors - We propose to utilize a portion of the Net Proceeds to undertake inorganic growth through acquisitions for which the target(s) are yet to be identified, and may not be identified until the listing and trading of the Equity Shares, and which acquisitions may not be successfully concluded. As on the date of this Red Herring Prospectus, we have not entered into any definitive arrangements or identified any targets towards any of our future acquisitions. If the Net Proceeds proposed to be utilized towards funding inorganic growth through acquisitions are insufficient for the cost of our proposed acquisitions and other strategic initiative, we may have to seek alternative forms of funding.*” on page 48.

Our Company will utilise the portion of Net Proceeds earmarked towards this Object by Fiscal 2028 as per schedule of deployment specified under “- *Proposed schedule of implementation and deployment of Net Proceeds*” in accordance with applicable laws.

*(b) General corporate purposes*

The general corporate purposes for which our Company proposes to utilise the Net Proceeds include, without limitation, (i) meeting ongoing general corporate contingencies and exigencies and business requirements of our Company and subsidiaries, (ii) expenses incurred by us in the ordinary course of business, (iii) employee and other personnel expenses incurred by us, (iv) brand building and other marketing expenses, (v) working capital requirements (vi) any other purpose, as may be approved by our Board or a duly constituted committee thereof from time to time, subject to compliance with applicable law, including provisions of the Companies Act.

The allocation or quantum of utilisation of funds towards the specific purposes described above will be determined by the Board, based on our business requirements and other relevant considerations (including applicable law), from time to time. Our management, in accordance with the policies of the Board, shall have the flexibility in utilising surplus amounts, if any. The amount to be utilised from the Net Proceeds towards general corporate purpose shall not be used for utilisation for any of the other identified objects of the Offer.

**Offer expenses**

The total expenses of the Offer are estimated to be approximately ₹[●] million. The expenses of this Offer include, among others, listing fees, underwriting fees, selling commission and brokerage, fees payable to the BRLMs, legal counsels, the Registrar to the Offer, Escrow Collection Bank and Sponsor Bank(s) to the Offer, including the processing fee to the SCSBs for processing application forms, underwriting commission, brokerage and selling commission payable to members of the Syndicate, Registered Brokers, RTAs and CDPs, printing and stationery expenses, advertising and marketing expenses, fees payable to consultants and Statutory Auditors for deliverables in connection with the Offer and all other incidental and miscellaneous expenses for listing the Equity Shares on the Stock Exchanges.

Our Audit Committee and the Monitoring Agency will monitor the utilization of the Gross Proceeds and the Monitoring Agency shall submit the report required under Regulation 41(2) of the SEBI ICDR Regulation, on a quarterly basis, until such time as the Gross Proceeds have been utilised in full. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay. Our Company will disclose the utilization of the Gross Proceeds, including interim use under a separate head in its balance sheet for such periods as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable laws or regulations, clearly specifying the purposes for which the Gross Proceeds have been utilized. Our Company will also, in its balance sheet for the applicable periods, provide details, if any, in relation to all such Gross Proceeds that have not been utilized, if any, of such currently unutilized Gross Proceeds.

Pursuant to Regulation 32(3) and Part C of Schedule II of the SEBI Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Gross Proceeds. The Audit Committee shall make recommendations to our Board for further action, if appropriate. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than those stated in this Red Herring Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Gross Proceeds remain unutilized. The statement shall be certified by the statutory auditors of our Company. Furthermore, in accordance with Regulation 32(1) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilization of the proceeds of the Fresh Issue from the Objects as stated above; and (ii) details of category wise variations in the actual utilization of the proceeds of the Fresh Issue from the Objects as stated above. This information will also be published in all editions of Business Standard, an English national daily newspaper, all editions of Business Standard, a Hindi national daily newspaper and the Bengaluru edition of Vishwavani, a Kannada daily newspaper (Kannada being the regional language of Karnataka, where our Registered Office is located) simultaneously with the interim or annual financial results and explanation for such variation (if any) will be included in our Director's report, after placing the same before the Audit Committee.

### **Variation in Objects**

In accordance with Sections 13(8) and 27 of the Companies Act, 2013 and applicable rules thereunder, our Company shall not vary the Objects of the Offer unless our Company is authorized to do so by way of a special

resolution of its Shareholders and such variation will be in accordance with the applicable laws including the Companies Act, 2013 and the SEBI ICDR Regulations. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (“**Postal Ballot Notice**”) shall specify the prescribed details as required under the Companies Act, 2013 and applicable rules and such Postal Ballot Notice shall be placed on website of our Company. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English national daily newspaper, one in a Hindi national daily newspaper and one in Kannada daily newspaper (Kannada being the regional language of Karnataka, where our Registered and Corporate Office is situated) in accordance with the Companies Act, 2013 and applicable rules. Our Promoters will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the Objects, at such price, and in such manner, in accordance with Section 13(8) and other applicable provisions of the Companies Act, our Articles of Association, and the SEBI ICDR Regulations.

#### **Other confirmations**

Except to the extent of the proceeds received by the Selling Shareholders pursuant to the Offer for Sale portion, none of our Promoters, members of the Promoter Group, Group Companies, Directors, Key Managerial Personnel or Senior Management Personnel will receive any portion of the Gross Proceeds (except any portion of Offer Expenses paid, if any) and there are no existing or anticipated transactions in relation to utilization of the Net Proceeds with our Promoters or members of the Promoter Group, Group Companies, Directors, Key Managerial Personnel or Senior Management Personnel. Further, except in the ordinary course of business, there is no existing or anticipated interest of such individuals and entities in the Objects as set out above.

## BASIS FOR OFFER PRICE

The Price Band, Floor Price and Offer Price will be determined by our Company, in consultation with the BRLMs, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of the quantitative and qualitative factors described below. The face value of the Equity Shares is ₹ 2 each and the Offer Price is [●] times the face value of the Equity Shares. Investors should also refer to “*Our Business*”, “*Risk Factors*”, “*Financial Statements*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” on pages 268, 34, 391 and 467, respectively, to have an informed view before making an investment decision.

### Qualitative factors

Some of the qualitative factors which form the basis for computing the Offer Price are set forth below:

#### 1. *Trusted Partner in Loyalty Solutions*

- We provide a comprehensive set of AI-led SaaS products for customer relationship management (“CRM”) and the loyalty management industry. According to the Zinnov report, we have established ourselves as a leader in the global loyalty solutions industry in terms of email marketing tools, marketing automation platforms, loyalty solutions, rewards programs, account-based marketing tool (“ABM”), customer support tools, CDP, CRM and analytics / business intelligence tools.
- Number of consumers hosted by our platform has increased to over 1.82 billion as of September 30, 2025 and 1.46 billion as of September 30, 2024 and 1.26 billion as of March 31, 2025 from over 1.13 billion, as of March 31, 2024 and over 0.97 billion, as of March 31, 2023. We processed 0.16 million, 0.18 million, 0.15 million and 0.10 million loyalty transactions per hour in the Six-month period ended September 30, 2025 and Fiscals 2025, 2024 and 2023, respectively According to the Zinnov Report, our platform is proven to handle large volume of transactions and dynamic swings in usage thus garnering a significant client base including Fortune 500 companies.

#### 2. *Comprehensive Solutions and Scalable Cloud-Based Infrastructure with Seamless Integration for Diverse Segments*

- Our solutions are adaptable and scalable and are used across a diverse range of industries including retail, financial services, travel, hospitality, healthcare and consumer packaged goods. Additionally, our platform supports multiple use cases, enabling enterprises to integrate loyalty programs with their broader customer engagement strategies which include:
- Multiple loyalty program and coalitions for Retailers and Conglomerates - Our multiple loyalty program functionality allows retailers and conglomerates to manage multiple loyalty schemes under one platform, and aids to customize rewards and integrate with existing systems.
- Customer and fleet loyalty for Energy retail - Our ability to run customer loyalty and fleet loyalty simultaneously on the same platform has helped us acquire notable customers in the energy retail industry including global energy and petrochemical companies.
- Channel loyalty for consumer packaged goods (“CPG”) - In the CPG vertical, channel loyalty refers to strategies aimed at building relationships with retailers, distributors, and other intermediaries who help bring products to market. We offer a comprehensive loyalty management solution for CPG brands that focuses on engaging and incentivizing these channels.

#### 3. *Diverse Long-Term Customer Relationships with High Net Revenue Retention*

- A key aspect of our success is our ability to forge long-term relationships with global brands. A significant portion of our NRR is driven by growth of our existing customers, demonstrating our ability to grow alongside our customers. Our NRR has been robust and was 115.42% in the six-month period ended September 30, 2025, 143.48% in the six-month period ended September 30, 2024 and 139.01% in Fiscal 2023, 112.68% in Fiscal 2024, 121.25% in Fiscal 2025.

- In our experience, we create exit barriers for customers by offering solutions that provide significant value and convenience. These features make it difficult for customers to switch to competitors, as they would lose out on these incentives leading to negligible churn rates of 9.64%, 8.50% 5.98%, 5.61% and 9.68% for the Six-month period ended September 30, 2025, and September 30, 2024, and Fiscals 2025, 2024 and 2023, respectively.

#### 4. *Proven Playbook to Integrate and Turnaround Acquired Businesses*

- We have developed a playbook for managing acquisitions and their integration. This framework includes strategies for offering discounts and managing customer transitions. Our ability to identify acquisition targets, integrate them seamlessly, and drive sustained growth underscores our strength in market consolidation and strategic expansion.
- Our disciplined approach to acquisitions has allowed us to scale businesses and integrate them into our broader ecosystem. For instance, following our acquisition of Persuade Group in September 2021, we established a significant presence in the United States. Persuade Group has multiple Fortune 100 and Fortune 500 companies as its customers. Our revenues from operations have grown from ₹ 2,553.72 million in Fiscal 2023 to ₹ 5,982.59 million in Fiscal 2025 at a CAGR of 53.06%, while Persuade Group has delivered revenues of ₹ 1,019.52 million, ₹ 1,007.47 million, ₹ 2,121.95 million, ₹ 1,078.08 million and ₹ 505.52 million for the Six-month period ended September 30 2025, and September 30 2024 and Fiscals 2025, 2024 and 2023, respectively.

#### 5. *Experienced Leadership Team backed by Marquee Investor Base*

- We are led by a team of experienced professionals with extensive experience in the loyalty and CRM space. Our senior management team’s expertise and industry relationships have helped us grow our operations. Our Founder and Managing Director and Chief Executive Officer, Aneesh Reddy Boddu has extensive entrepreneurial experience and has been recognized by Fortune India Magazine as one of the “40 under 40”- India’s Brightest Young Business Minds. Our Executive Director, Chief Financial Officer and Chief Operating Officer, Anant Choubey, also an alumnus of Indian Institute of Technology, Kharagpur, has been with us since our inception and has been pivotal in building our expansion from India into South East Asia and our growth through our various acquisitions.
- We have also benefited from investments by Peak XV Partners and AVP I Fund in our Promoter, AVP Fund II, Ronal Holdings LLC and Trudy Holdings in our Company and Filter Capital India Fund I in both our Company and our Promoter.

For details, see “*Our Business – Our Strengths*” on page 284.

#### **Quantitative factors**

The information presented below relating to us is based on the Restated Consolidated Financial Information. For further information, see “*Financial Statements*” and “*Other Financial Information*” beginning on pages 391 and 465 respectively.

Some of the quantitative factors which may form the basis for calculating the Offer Price are as follows:

#### **I. Basic and diluted earnings/ (loss) per share (“EPS”) from continuing operations**

Financial Year / Period	Basic EPS (₹)	Diluted EPS (₹)	Weight
March 31, 2025	1.93	1.91	3
March 31, 2024	(12.15)	(12.15)	2
March 31, 2023	(17.63)	(17.63)	1
<b>Weighted Average</b>	<b>(6.02)</b>	<b>(6.03)</b>	-
Six-month period ended September 30, 2025	0.14	0.14	-
Six-month period ended September 30, 2024	(1.40)	(1.40)	-

Notes:

- The figures above are derived from the Restated Consolidated Financial Information.
- Weighted average is aggregate of period/year wise weighted EPS divided by the aggregate of weights i.e. (EPS x Weight) for each period/year divided by total of weights. Weights have been determined by our Company.

- c) Basic and diluted earnings / (loss) per share are computed in accordance with Indian Accounting Standard 33 notified under the Companies (Indian Accounting Standards) Rules of 2015 (as amended) read with the requirements of SEBI ICDR Regulations.

The ratios have been computed as below:

- Basic earnings per share (₹) = Basic EPS is calculated by dividing Profit/ (loss) attributable to equity shareholders of the Parent Company for basic/ diluted EPS for continuing operations by the weighted average number of equity shares outstanding during the period/ year. The weighted average number of equity shares outstanding during six-month period ended September 30, 2025, September 30, 2024, Fiscal 2025, 2024 and 2023 was 73.32 million, 73.23 million, 73.25 million, 56.27 million and 50.24 million respectively.
- Diluted earnings per share (₹) = Diluted EPS is calculated by dividing Profit/ (loss) attributable to equity shareholders of the Parent Company for basic/ diluted EPS for continuing operations by the weighted average number of equity shares adjusted for the effect of dilution. Weighted average number of equity shares adjusted for the effect of dilution are computed as a sum of weighted average number of equity shares outstanding during the period/ year and effect of dilution due to employee share options. Weighted average number of equity shares adjusted for the effect of dilution during Six-month period ended September 30, 2025, September 30, 2024, Fiscals 2025, 2024 and 2023 was 74.26 million, 74.42 million, 74.03 million, 57.09 million and 50.46 million respectively.

## II. Price/Earning (“P/E”) ratio in relation to Price Band of ₹[●] to ₹[●] per Equity Share:

Particulars	P/E at the Floor Price (number of times)*	P/E at the Cap Price (number of times)*
Based on basic EPS for Fiscal 2025	[●]	[●]
Based on diluted EPS for Fiscal 2025	[●]	[●]

\*To be computed after finalization of price band.

## III. Industry Peer Group P/E ratio

Based on the peer group information (excluding our Company) given below in this section, the highest, lowest and industry average P/E ratio are set forth below:

Particulars	Industry P/E (based on diluted EPS)
Highest	40.07
Lowest	28.60
Average	34.33

Note: The highest and lowest industry P/E shown above is based on the peer set provided below under “Comparison with listed industry peers”. The industry average has been calculated as the arithmetic average P/E of the peer set provided below, except Braze Inc. since it recorded a negative EPS during Fiscal 2025 and except HubSpot, Inc., whereby the P/E ratio is not meaningful.

## IV. Return on Net Worth (“RoNW”)

Financial Year / Period	RoNW (%)	Weight
March 31, 2025	2.85%	3
March 31, 2024	(21.52)%	2
March 31, 2023	(135.93)%	1
<b>Weighted Average</b>	<b>(28.41)%</b>	-
Six-month period ended September 30, 2025	0.22%	-
Six-month period ended September 30, 2024	(1.51)%	-

Notes:

- Return on Net Worth (%) = Restated profit/ (loss) for the period/year for the Fiscal divided by the average of Net Worth of the relevant Fiscal/ period and previous Fiscal/ period.
- Net Worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation, amalgamation and capital reserve. For further details, see Note 13 and 14 of the “Restated Consolidated Financial Information” on page 427 and 429 and “Other Financial Information - Reconciliation of Non-GAAP Measures” on page 466.
- The weighted average RoNW is a product of RoNW for Fiscals 2025, 2024 and 2023 and respective assigned weight, dividing the resultant by total aggregate weight. Weights have been determined by our Company.

## V. Net asset value (“NAV”) per Equity Share (face value of ₹ 2 each)

Net Asset Value per Equity Share	(₹)
As on September 30, 2025	68.59
As on March 31, 2025	65.03

Net Asset Value per Equity Share	(₹)
After the Offer	
(i) Floor Price*	[●]
(ii) Cap Price*	[●]
(iii) Offer Price^	[●]

\* To be computed after finalization of price band

^ To be determined on conclusion of the Book Building Process.

Notes:

1. The above calculations are based on the Restated Consolidated Financial Information for the Fiscal 2025.

- Net asset value per equity share = Net worth as of the end of the period/ Fiscal divided by the weighted average outstanding equity shares considered for diluted EPS as at the end of the period/ Fiscal. For further details, see Note 30 of the "Restated Consolidated Financial Information" on page 440.
- Net Worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation, amalgamation and capital reserve. For further details, see Note 13 and 14 of the "Restated Consolidated Financial Information" on page 427 and 429 and "Other Financial Information - Reconciliation of Non-GAAP Measures" on page 466.
- Weighted average number of equity shares adjusted for the effect of dilution during Six-month period ended September 30, 2025, 30 September 2024, Fiscal 2025, 2024 and 2023 was 74.26 Million, 74.42 million, 74.03 million, 57.09 million and 50.46 million respectively.

## Rationale for selection of Listed Industry Peers

Our AI-led SaaS products offer loyalty management, customer relationship management (“CRM”) and customer engagement solutions and enable customers globally to run loyalty programs for their consumers and channel partners. We are recognized as the global market leader in loyalty and engagement management in terms of number of product offerings in Fiscal 2025. For the purpose of selection of our peer set, as there are no Indian publicly listed SaaS firms which offer pure-play CRM and customer engagement solutions, we have focussed on **globally listed CRM and customer engagement SaaS firms**. All these companies derive majority of their revenue from subscription-based services, consistent with standard SaaS operating models and provide CRM and customer engagement offerings.

Company	Category	Revenue Model	Revenue emanating regions
Salesforce, Inc.	Listed Global CRM and Customer Engagement SaaS firms	Majority of the revenue is derived from subscription-based Software-as-a-Service model	A large share of revenue from North America and balance largely from EMEA and APAC
Adobe Inc.			
Hubspot, Inc.			
Braze, Inc.			Majority revenue generated from USA

While we have identified the industry peers listed above that are CRM and customer engagement focussed SaaS firms, there are no pure-play loyalty management SaaS providers listed in India or Globally. The loyalty management market is characterized by a strong presence of players focusing on post-purchase/retention and horizontal offerings, with specialized emphasis on marketing automation platforms, loyalty solutions, personalized marketing, and customer data analysis. However, such players, Indian and global, in the loyalty management space are unlisted.

## VII. Key Performance Indicators (“KPIs”)

The table below sets forth the details of the KPIs that our Company considers have a bearing for arriving at the basis for Offer Price. The KPIs disclosed below have been used historically by our Company to understand and analyze our business performance, which in result, help us in analyzing the growth of business in comparison to our peers. The Bidders can refer to the below-mentioned KPIs, being a combination of financial and operational metrics, to make an assessment of our performance in various business verticals and make an informed decision.

The KPIs disclosed below have been approved and confirmed by a resolution of our Audit Committee dated November 7, 2025 and certified by our Managing Director and Chief Executive Officer, Aneesh Reddy Boddu, on behalf of the management of our Company by way of certificate dated November 7, 2025. The management and the members of our Audit Committee have confirmed that the KPIs disclosed below have been identified and disclosed in accordance with the SEBI ICDR Regulations and the Industry Standards on Key Performance Indicators Disclosures in the Draft Offer Document and Offer Document (“**KPI Standards**”). Further, the management and members of our Audit Committee have verified the details of all KPIs pertaining to our Company and confirmed that the KPIs pertaining to our Company, as disclosed below, have been identified from the Selected Data as defined in KPI Standards (which also includes the data disclosed to investors at any point of time during the three years prior to the date of filing of this Red Herring Prospectus) and have been subject to verification and certification by Saini Pati Shah & Co LLP, Chartered Accountants (with FRN 137904W/W100622), pursuant to certificate dated November 7, 2025, which has been included as part of the “*Material Contracts and Documents for Inspections*” beginning on page 621.

For details of our other operating metrics disclosed elsewhere in this Red Herring Prospectus, see “*Our Business*”, and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” beginning on pages 268 and 467 of this RHP, respectively. We have described and defined the KPIs, as applicable, in the section “*Definitions and Abbreviations – Key performance Indicators*” on page 14.

The presentation of these KPIs is not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Information. We use these KPIs to evaluate our financial and operating performance.

Our Company confirms that it shall continue to disclose all the KPIs included in this section on a periodic basis, at least once in a year (or any lesser period as determined by our Board of our Company), until the later of (a) one year after the date of listing of the Equity Shares on the Stock Exchanges; and (ii) complete utilisation of the proceeds of the Offer as disclosed in “*Objects of the Offer*” on page 158, or for such other duration as may be required under the SEBI ICDR Regulations.

The list of our KPIs along with brief explanation of the relevance of the KPI for our business operations are set forth below.

### Explanation for the KPI metrics

KPIs	Description of the KPI
Revenue from operations	Revenue from operations is used to track the revenue of our business operations and in turn helps assess our overall financial performance and size of our operations
Net Revenue	Net Revenue, which is Revenue from operations net of cost of campaign services, enables us to track our revenue for historical years basis our current business model. During Fiscal 2025, we made certain changes to our business model for campaign services pursuant to which we now act as agents and not as principals for campaign services transactions. Accordingly, the income generated from campaign services during Fiscal 2025 has been recorded on a net basis (net of cost of campaign services) in our Restated Consolidated Financial Information of Profit and Loss. However, in Fiscal 2024 and Fiscal 2023, income from campaign services was recognized on a gross basis as principal for campaign services transactions and the corresponding cost of campaign services was recognized as an expense in our Restated Consolidated Financial Information of Profit and Loss. To ensure comparability of the Revenue from operations, we track Net Revenue as a metric to assess our performance
Net Revenue Growth (%)	Net Revenue growth (%) represents year-on-year growth of our business operations in terms of Net Revenue generated by us
Subscription Revenue or Retainership Revenue	Subscription Revenue or Revenue from retainership and other services is a key component of our Revenue from operations, representing our core business income generated from customers through software subscription
Subscription Revenue (% of Revenue from operations)	Subscription Revenue (% of Revenue from operations) represents our core business income generated. This metric is driven by customer retention rather than one-time sales, thereby providing greater consistency & predictability to our overall revenue profile
Other Services Revenue	Other Services Revenue represents the breakdown of revenue from installation and campaigns and represents our non-core business operations
Geographical Revenue Split	Geographical Revenue Split helps us track the regional growth of our customers and the revenue generated from them
Subscription Gross Margin (%)	Subscription Gross Margin (%) represents the profitability generated from our core business operations, which is recurring in nature. It enables us to track and monitor the health of our business model and ability to profitably further scale our business.
Earnings before interest expense, taxes, depreciation and amortisation before exceptional items ("EBITDA")	EBITDA is used by us to evaluate our operational profitability, as it focuses on our core business performance before considering the impact of capital and financing decisions.
EBITDA Margin (%)	EBITDA margin (%) is an indicator of the operational profitability and financial performance of our business
EBITDA Margin (Net Revenue) (%)	EBITDA Margin (Net Revenue) (%) is an indicator of the operational profitability and financial performance of our business after netting off cost of campaign services to align with our current business model
Adjusted EBITDA	Adjusted EBITDA is used to evaluate our operational profitability, as it focuses on our core business performance after eliminating the impact non core income (such as income generated from our investments) and non core expenses (such as ESOP related expenses)
Adjusted EBITDA Margin (%)	Adjusted EBITDA margin (%) is used to evaluate our operational profitability, as it focuses on our core business performance before the impact of capital & financing decisions and certain non-cash charges such as ESOPs
Adjusted EBITDA Margin (Net Revenue) (%)	Adjusted EBITDA Margin (Net Revenue) % is used to evaluate our operational profitability as a % of Net Revenue, as it focuses on the core business performance before the impact of capital & financing decisions and certain non-cash charges such as ESOPs after netting off cost of campaign services to align with our current business model
Profit/(loss) before tax ("PBT")	Profit/ (loss) before tax (PBT) provides information regarding the overall profitability or loss of our business before tax outflows which is a non-operational metric and hence gives a clearer view of profits generated by our business
Profit/(loss) before tax Margin ("PBT Margin") (%)	PBT Margin (%) is used to evaluate our overall profitability before tax outflows as a % of Revenue from Operations, as it focuses on the overall business

<b>KPIs</b>	<b>Description of the KPI</b>
Profit/(loss) before tax Margin (Net Revenue) (%)	Profit/(loss) before tax Margin (Net Revenue) (%) is used to evaluate our overall profitability margin before tax outflows after netting off cost of campaign services to align with our current business model
Profit/(Loss) after Tax from Continuing Operations ("PAT")	Provides information regarding the overall profitability or loss of our business
Profit/(Loss) after Tax from Continuing Operations Margin ("PAT Margin") (%)	PAT Margin (%) is used to evaluate our overall profitability as a % of Revenue from Operations, as it focuses on the overall business
Profit/(Loss) after Tax from Continuing Operations Margin as % of Net Revenue	Used to evaluate our overall profitability margin after netting off cost of campaign services to align with our current business model
Annual Recurring Revenue ("ARR")	ARR represents the revenue generated by our company which is recurring in nature from sources such as subscriptions, including committed revenue from signed contracts and directly reflects the health of the core business
New Annual Contract Value ("New ACV")	New Annual Contract Value ("New ACV") reflects our ability to scale recurring revenues year on year by measuring new recurring revenues contracted with newly acquired customers or from expansion of existing customers.
Net Revenue Retention ("NRR") Rate %	NRR Rate reflects our ability to retain existing customers and expand revenue from such customers over a period/fiscal
Customer Acquisition Cost ("CAC") as a % of Net Revenue	CAC as a % of Net Revenue, represents the total cost to acquire a new contract and take the same live and helps us track the quantum of our spend to acquire a new customer and expand an existing customer as a % of Net Revenue to align with our current business model
Payback Period	Payback period gives us the time required to recover the acquisition cost of a customer & reflects our company's efficiency in new customer acquisition and existing customer expansion.
Fortune 500 Clients	Fortune 500 Clients refers to the number of Brands/Clients in the Forbes' Fortune 500 list and helps us track the increase in our large customer base
Consumers on platform	Number of consumers on our platform reflects the size of our business as well as our ability to accommodate a given scale of usage
Transactions processed	Number of transactions processed reflects the size of our business as well as our ability to accommodate a given scale of usage

**Subject: Statement of special tax benefits ('the Statement') available to Capillary Technologies India Limited ('the Company') and its shareholders prepared in accordance with the requirement under Schedule VI –Part A -Clause (9) (L) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ('the SEBI ICDR Regulations')**

This report is issued in accordance with the Engagement Letter dated 30 April 2025.

We hereby report that the enclosed **Annexures II and III** prepared by the Company, initialled by us for identification purpose, states the special tax benefits available to the Company and its shareholders, under direct and indirect taxes (together '**the Tax Laws**'), presently in force in India as on the 28 October 2025 which are defined in **Annexure I**. These special tax benefits are dependent on the Company and its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company and its shareholders to derive these special tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company may face in the future and accordingly, the Company and its shareholders may or may not choose to fulfil.

The benefits discussed in the enclosed **Annexures II and III** cover the special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to the Company and its shareholders. Further, the preparation of the enclosed **Annexures II and III** and its contents is the responsibility of the Management of the Company and has been approved by the Board of Directors of the Company at its meeting held on 28 October 2025. We were informed that the Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. Further, the benefits discussed in the Annexures II and III are not exhaustive. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares of the Company (the 'Proposed Offer') particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the special tax benefits, which an investor can avail. Neither we are suggesting nor advising the investors to invest money based on the Statement.

We conducted our examination in accordance with the “Guidance Note on Reports or Certificates for Special Purposes (Revised 2016)” (the ‘Guidance Note’) issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.

We have complied with the relevant applicable requirements of the Standard on Quality Control (“SQC”) 1, Quality Control for Firms that perform Audits and Reviews of Historical Financial information, and Other Assurance and Related Services Engagements.

We do not express any opinion or provide any assurance as to whether:

1. the Company and its shareholders will continue to obtain these special tax benefits in future; or
2. the conditions prescribed for availing the special tax benefits where applicable, have been/would be met with.

The contents of the enclosed Annexures are based on the information, explanation and representations obtained from the Company, and on the basis of our understanding of the business activities and operations of the Company.

Our views expressed herein are based on the facts and assumptions indicated to us. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our views are based on the existing provisions of the Tax Laws and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to the Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to the Company and any other person in respect of this Statement, except as per applicable law.

This report is addressed to and is provided to enable the Board of Directors of the Company to include this report in the Red Herring Prospectus and Prospectus prepared in connection with the Proposed Offer to be filed by the Company with the Securities and Exchange Board of India and the concerned stock exchanges and Registrar Of Companies, Karnataka at Bangalore It is not to be used, referred to or distributed for any other purpose without our prior written consent.

## Annexure - II

### Statement of Special Direct Tax Benefits Available to Capillary Technologies India Limited ('the Company') and its Shareholders under the applicable Direct Tax Laws in India – The Income Tax Act, 1961

Outlined below are the special tax benefits available to the Company and its Shareholders under the Income-tax Act, 1961 as amended by the Finance Act, 2025 (herein after referred to as 'the Act') read along with applicable Income-tax Rules 1962, Circulars and Notifications issued thereunder (hereafter referred to as 'Income Tax Regulations') (collectively referred as 'Income Tax Laws'). These special direct tax benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant Income Tax Laws.

#### A. Special Direct Tax Benefits available to the Company

##### 1. Lower corporate tax rate on income of domestic companies – Section 115BAA of the Act

With effect from Assessment Year ('AY') 2020-21 relevant to Financial Year ('FY') 2019-20 a company has an option to pay income tax on its total income at a concessional tax rate of 25.168% (22% plus surcharge of 10% and cess of 4%) under section ('u/s') 115BAA of the Act, provided the company complies with the conditions prescribed u/s 115BAA of the Act.

The following deductions/ exemptions shall not be allowed to a company opting for low tax rates u/s 115BAA of the Act:

- i. Deduction under the provisions of Section 10AA of the Act (deduction for units in Special Economic Zone);
- ii. Deduction under clause (iia) of sub-section (1) of Section 32 of the Act (Additional depreciation);
- iii. Deduction u/s 32AD, Section 33AB or Section 33ABA of the Act (Investment allowance in backward areas, Investment deposit account, site restoration fund);
- iv. Deduction under sub-clause (ii) or sub-clause (iia) or sub-clause (iii) of sub-section (1) or sub-section (2AA) or subsection (2AB) of Section 35 of the Act (Expenditure on scientific research);
- v. Deduction u/s 35AD or Section 35CCC of the Act (Deduction for specified business, agricultural extension project);
- vi. Deduction u/s 35CCD of the Act (Expenditure on skill development);
- vii. Deduction under any provisions of Chapter VI-A of the Act other than the provisions of Section 80JJAA or Section 80M of the Act;
- viii. Deduction u/s 80LA of the Act other than deduction applicable to a Unit in the International Financial Services Centre, as referred to in sub-section (1A) of Section 80LA of the Act;
- ix. Set off of any loss carried forward or depreciation from any earlier AY(s), if such loss or depreciation is attributable to any of the aforementioned deductions/incentives; and
- x. Set off of any loss or allowance for unabsorbed depreciation deemed so u/s 72A of the Act, if such loss or depreciation is attributable to any of the aforementioned deductions/incentives.

Further, the provisions of Section 115JB of the Act i.e., Minimum Alternate Tax ('MAT') shall not apply where the company has opted to pay tax u/s 115BAA of the Act, as specified under sub-section (5A) of Section 115JB of the Act. Additionally, the company will not be entitled to utilise any brought forward MAT credit, if any.

A company can exercise the option to apply for the concessional tax rate by filing Form 10IC on or before the due date of filing return of income u/s 139(1) of the Act and such option once exercised shall apply to all subsequent AYs.

Note: The Company has already opted for the beneficial tax regime u/s 115BAA of the Act, and therefore, is eligible for a concessional effective tax rate of 25.168% (including applicable surcharge and health and education cess) subject to fulfilment of above conditions.

##### 2. Deduction in respect of employment of new employees – Section 80JJAA of the Act

As per Section 80JJAA of the Act, where a company is subject to tax audit u/s 44AB of the Act and derives

income from business, it shall be allowed to claim a deduction of an amount equal to 30% of additional employee cost incurred in the course of such business in a previous year, for three consecutive AYs including the AY relevant to the previous year in which such additional employment cost is incurred.

The eligibility to claim the deduction is subject to fulfilment of prescribed conditions specified in sub-section (2) of Section 80JJAA of the Act. Further, to claim the aforesaid deduction, it is required to furnish the report of an accountant electronically in Form 10DA containing the particulars of deduction prior to the due date of filing tax audit report as per section 44AB of the Act.

At the time of filing Income tax return for AY 2024-25, the Company has not claimed the afore mentioned deduction and would be eligible to claim the said deduction, subject to fulfilment of prescribed conditions.

**3. Deduction in respect of inter-corporate dividends – Section 80M of the Act**

As per the provisions of Section 80M of the Act, inserted with effect from AY 2021-22 if a domestic company is in receipt of dividend from any other domestic company or a foreign company or a business trust, in a previous year, it will be allowed to claim a deduction of amount equal to the said dividend, not exceeding the amount of dividend distributed by the company on or before one month prior to due date of furnishing the income-tax return u/s 139(1) of the Act for the relevant previous year.

At the time of filing Income tax return for AY 2024-25, the Company did not claim the afore-mentioned deduction and would be eligible to claim the said deduction subject to fulfilment of prescribed conditions.

**4. Set-off & Carry Forward of Business Losses**

As per the provisions of Section 72 of the Act, where the company has carried forward business loss, the same can be carried forward up to next eight AYs from the AY in which the loss was incurred and can be adjusted only against Income from business or profession.

At the time of filing Income tax return for AY 2024-25, the Company has carried forward business losses to subsequent AYs. The Company shall be eligible to claim the benefit of the same subject to fulfilment of prescribed conditions under Section 79 of the Act.

**5. Set-off & carry forward of Unabsorbed Depreciation**

As per the provisions of subsection 2 of Section 32 of the Act, where a company does not have sufficient profits or gains for any previous year to cover the depreciation allowance for that year, the remaining unabsorbed depreciation shall be carried forward to subsequent AYs for an indefinite period until it is fully absorbed and set off against future profits of subsequent AYs.

At the time of filing Income tax return for AY 2024-25, the Company has carried forward unabsorbed depreciation to subsequent AYs.

**6. Deduction of expenditure in connection with extension of an undertaking - Section 35D of the Act**

As per Section 35D of the Act, an assessee is eligible to claim deduction of expenditure, being underwriting commission, brokerage, and charges for drafting, typing, printing and advertisement of the prospectus incurred in connection with expansion of its undertaking upon fulfilment of conditions as laid down under the Act. The deduction u/s 35D of the Act is allowable for an amount equal to one-fifth of such expenditure for each of five successive previous years beginning with the previous year in which the extension of the undertaking is completed. The Company shall be eligible to claim the deduction subject to fulfilment of prescribed conditions.

**7. Amortization of expenditure in case of amalgamation or demerger – Section 35DD of the Act**

As per Section 35DD of the Act, an assessee, being an Indian company, is eligible to claim deduction of any expenditure incurred wholly and exclusively for the purposes of amalgamation or demerger of an undertaking. The deduction u/s 35DD of the Act is allowable for an amount equal to one-fifth of such expenditure for each of the five successive previous years beginning with the previous year in which the amalgamation or demerger takes place. The Company shall be eligible to claim the deduction subject to fulfilment of prescribed conditions.

## **8. Tax on Capital Gains**

Post the amendments made by Finance (No. 2) Act, 2024, capital gains arising from transfer of long-term capital assets u/s 112A of the Act is to be taxed at the rate of 12.5% plus applicable surcharge and cess, with effect from 23 July 2024 (without the benefit of indexation). Further, it is worthwhile to note that tax shall be levied where such aggregate capital gains exceed INR 1,25,000 in a FY.

Short-term capital gains ('STCG') arising from the transfer of listed equity shares, unit of an equity-oriented fund or unit of a business trust covered u/s 111A of the Act is to be taxed at the rate of 20% (plus applicable surcharge and cess). However, STCG arising from short-term capital assets (other than listed equity shares, unit of an equity-oriented fund or unit of a business trust covered u/s 111A of the Act), is to be taxed at the normal tax rate of the company.

## **B. Special direct tax benefits available to the Shareholders of the Company**

### **1. Taxation of dividend**

Dividend income earned by the Shareholders would be taxable in their hands at the applicable tax rates, surcharge, and cess. Further, in the case of a domestic corporate shareholder, deduction u/s 80M of the Act would be available as discussed above. The shareholders would be entitled to take credit for the Tax Deducted at Source on Dividend, by the Company.

### **2. Taxation of Capital Gains**

- **Tax on Long-term Capital Gain ('LTCG') – Section 112A**

As per the provisions of Section 112A of the Act, LTCGs arising from the transfer of listed equity shares on or after 23 July 2024 on which securities transaction tax ('STT') is paid at the time of acquisition and transfer and fulfilment of other prescribed conditions shall be taxed at 12.5% (plus applicable surcharge and cess). It is worthwhile to note that tax shall be levied where such aggregate capital gains exceed INR 1,25,000 in a FY.

- **Tax on STCG – Section 111A**

As per the provisions of Section 111A of the Act, STCGs arising from the transfer of equity shares of a Company through a recognized stock exchange on or after 23 July 2024 which is subject to STT at the time of sale, shall be taxed at the rate of 20% (plus applicable surcharge and cess). This is subject to fulfilment of prescribed conditions under the Act.

### **3. Taxation in case of non-resident shareholders**

- The first proviso to Section 48 of the Act entitles a non-resident to factor in the effects of exchange rate fluctuation while computing the capital gains in the manner prescribed in the Income tax regulations, where the shares are purchased in foreign currency. Further, as per the third proviso to Section 48 of the Act, the benefits of first proviso [i.e., effects of exchange rate fluctuation to Non-resident] are not available in case of long-term capital gain on sale of listed equity shares or a unit of an equity-oriented fund or a unit of a business trust u/s 112A of the Act.
- As per section 115A of the Act, dividend income earned by a non-resident (not being a company) or by a foreign company, shall be taxed at the rate of 20% (plus applicable surcharge and cess) subject to fulfilment of prescribed conditions under the Act.
- Section 90(2) of the Act entitles a non-resident shareholder to be governed by the beneficial provisions under the Double Taxation Avoidance Agreement ('DTAA'), if any, executed between India and the country of resident of the shareholder, in accordance with and subject to fulfilment of conditions as laid out in the section.
- Any income by way of capital gains/ dividends accruing to non-residents may be subject to withholding tax per the provisions of the Act or under the relevant DTAA, whichever is beneficial to such non-resident. However, where such non-residents have obtained a lower withholding tax certificate from the tax authorities, the withholding tax rate would be as per the said certificate. The non-resident shareholders may be able to avail credit of any taxes paid in India, in their respective country of residence, subject to local laws of that country in which such shareholder is resident.

#### **4. Capping on surcharge rate:**

The surcharge payable by shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of Individuals, whether incorporated or not and every artificial juridical person, ranges from 0% to 37% based on their respective total income and subject to provisions of 115BAA of the Act. However, the surcharge on dividend and capital gains would be restricted to 15%, irrespective of the quantum of dividend and capital gains.

#### **Notes:**

Dear Sir/Madam,

1. We hereby confirm that the enclosed **Annexure 1** prepared by PBG ASSOCIATES LTD, describes the special tax benefits available to Capillary Technologies Europe Limited as per the UK tax laws as stated in the enclosed Annexure -1.
2. This statement of possible special tax benefits is required as per Schedule VI (Part A)(9)(L) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended (‘**SEBI ICDR Regulations**’). Certain of these benefits are dependent on Capillary Technologies Europe Limited satisfying conditions prescribed under the relevant provisions of the Code and/or other applicable law. Therefore, the ability of Capillary Technologies Europe Limited to derive the special tax benefits may be dependent upon the satisfaction of such conditions which, based upon various factors, that Capillary Technologies Europe Limited may or may not ultimately satisfy.
3. The benefits discussed in the enclosed Annexure(1) are not exhaustive and cover the possible special tax benefits available to Capillary Technologies Europe Limited and do not cover any general tax benefits available to Capillary Technologies Europe Limited. We are informed that the Annexure(1) is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares (the “**Proposed IPO**”) by Capillary Technologies India Limited (“**Issuer**”), of which each of Capillary Technologies Europe Limited are material subsidiaries. Neither are we suggesting nor advising the investor to make any investment based on this statement of special tax benefits.
4. We do not express any opinion or provide any assurance as to whether:
  - (i) Capillary Technologies Europe Limited will continue to obtain these benefits in the future;
  - (ii) the conditions prescribed for availing the benefits have been / would be satisfied; and
  - (iii) the revenue authorities/courts will concur with the views expressed herein.
5. The contents of the enclosed **Annexure 1** are based on information, explanations and representations obtained from Capillary Technologies Europe Limited and on the basis of their understanding of each of its business activities and operations. We have relied up on the information and documents obtained being true, correct and complete and have not audited or tested them. Our view, under no circumstances is to be considered as an audit opinion under any regulation or law.

6. This Statement is issued to the Board of Directors of the Issuer and BRLMs solely in connection with the proposed initial public offering of equity shares of Capillary Technologies India Limited (the “Offer”) and for disclosure in materials used in connection with the Offer (together, the “Offer Documents”) to be filed by Capillary Technologies India Limited in respect of the Offer with the Securities and Exchange Board of India, the Registrar of Companies, Karnataka at Bangalore, the Stock Exchanges pursuant to the provisions of the Companies Act, 2013 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as required by law in connection with the Offer and in accordance with applicable law, and is not to be used, referred to or distributed for any other purpose.
7. This report may be delivered to SEBI, the stock exchanges, to the Registrar of Companies, Karnataka at Bengaluru or to any other regulatory and statutory authorities by the BRLMs only when called upon by SEBI or the stock exchanges in connection with any inspection, enquiry or investigation, as the case may be, to evidence BRLMs due diligence obligations pertaining to subject matter of this report or for any defence that the BRLMs may wish to advance in any claim or proceeding with SEBI or stock exchanges in connection with due diligence obligations of the BRLMs in the Offer pertaining to subject matter of this report. It should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing. We confirm that this letter/statement can also be uploaded on the repository portal of the stock exchanges/ SEBI as required pursuant to the SEBI circular dated December 5, 2024 and the subsequent requirements of the Stock Exchanges/ SEBI, as applicable.
8. These Annexure(1) cover representations with respect to tax laws in the United Kingdom, based solely on prior engagements with Capillary Technologies Europe Limited.
9. We also consent to the inclusion of this letter as a part of “*Material Contracts and Documents for Inspection*” in connection with this Offer, which will be available for public for inspection from date of the filing of the RHP until the Bid/ Offer Closing Date. We further consent to include our statement/ letter, in full or in parts, in the Offer Documents or such other documents to be issued by the Issuer in relation to the Offer.
10. We confirm that we will immediately communicate any changes in writing in the above information to the BRLMs based on written intimation received from the management until the date when the Equity Shares allotted and transferred in the Offer commence trading on the relevant stock exchanges. In the absence of any such communication from the management, BRLMs and the legal counsels, each to the Issuer and the BRLMs, can assume that there is no change to the above information.

**Re: The statement of special tax benefits available to Capillary Technologies LLC and its US Subsidiary, namely, Capillary Brierley Inc.**

Dear Sir/Madam,

1. We TruAnalyst Solutions LLP, Certified Public Accountants, hereby confirm that the enclosed Annexure 1 and Annexure II prepared and issued by us, describes the special tax benefits available to the Capillary Technologies LLC and Capillary Brierley Inc., the material subsidiaries of the Issuer (defined below) any under tax laws as stated in the enclosed Annexure I.
2. Certain of these benefits are dependent on Capillary Technologies LLC and Capillary Brierley Inc. satisfying conditions prescribed under the relevant provisions of the Code and/or other applicable law. Therefore, the ability of Capillary Technologies LLC and Capillary Brierley Inc. to derive the special tax benefits may be dependent upon the satisfaction of such conditions which, based upon various factors, that Capillary Technologies LLC and Capillary Brierley Inc. may or may not ultimately satisfy.
3. The benefits discussed in the enclosed Annexure(s) are not exhaustive and cover the possible special tax benefits available to Capillary Technologies LLC and Capillary Brierley Inc. and do not cover any general tax benefits available to Capillary Technologies LLC and Capillary Brierley Inc. and each of its shareholders. We are informed that the Annexure(s) is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares (the "Proposed IPO") by Capillary Technologies India Limited ("Issuer"), of which each of Capillary Technologies LLC and Capillary Brierley Inc. are material subsidiaries. Neither are we suggesting nor advising the investor to make any investment based on this statement of special tax benefits.
4. We do not express any opinion or provide any assurance as to whether:
  - (i) Capillary Technologies LLC and Capillary Brierley Inc. will continue to obtain these benefits in the future;
  - (ii) the conditions prescribed for availing the benefits have been / would be satisfied; and
  - (iii) the revenue authorities/courts will concur with the views expressed herein.

5. The contents of the enclosed Annexure(s) are based on information, explanations and representations obtained from Capillary Technologies LLC and Capillary Brierley Inc and on the basis of our understanding of each of its business activities and operations. We have relied up on the information and documents obtained being true, correct and complete and have not audited or tested them. Our view, under no circumstances is to be considered as an audit opinion under any regulation or law.
6. This Statement is addressed to Board of Directors and issued at specific request of the Issuer. This Statement is intended solely for your information and issued solely in connection with the proposed initial public offering of equity shares of Capillary Technologies India Limited (the "Offer") and for disclosure in materials used in connection with the Offer (together, the "Offer Documents") to be filed by Capillary Technologies India Limited in respect of the Offer with the Securities and Exchange Board of India, the Registrar of Companies, the Stock Exchanges pursuant to the provisions of the Companies Act, 2013 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as required by law in connection with the Offer and in accordance with applicable law, and is not to be used, referred to or distributed for any other purpose.
7. These Annexure(s) cover representations with respect to tax laws in the USA.
8. This report may be delivered to SEBI, the stock exchanges, to the Registrar of Companies, Karnataka at Bengaluru or to any other regulatory and statutory authorities by the BRLMs only when called upon by SEBI or the stock exchanges in connection with any inspection, enquiry or investigation, as the case may be, to evidence BRLMs due diligence obligations pertaining to subject matter of this report or for any defence that the BRLMs may wish to advance in any claim or proceeding with SEBI or stock exchanges in connection with due diligence obligations of the BRLMs in the Offer pertaining to subject matter of this report. It should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing. We confirm that this certificate can also be uploaded on the repository portal of the stock exchanges/ SEBI as required pursuant to the SEBI circular dated December 5, 2024 and the subsequent requirements of the Stock Exchanges/ SEBI, as applicable
9. We confirm that we will immediately communicate any changes in writing in the above information to the BRLMs based on written intimation received from the management until the date when the Equity Shares allotted and transferred in the Offer commence trading on the relevant stock exchanges. In the absence of any such communication from the management, BRLMs and the legal counsels, each to the Issuer and the BRLMs, can assume that there is no change to the above information.
10. We also consent to the inclusion of this letter as a part of "Material Contracts and Documents for Inspection" in connection with this Offer, which will be available for public for inspection from date of the filing of the RHP until the Bid/ Offer Closing Date. We further consent to include our reports/ certificates/ letters, in full or in parts, in the Offer Documents or such other documents to be issued by the Issuer in relation to the Offer.
11. All capitalized terms used herein and not specifically defined shall have the same meaning as ascribed to them in the Offer Documents.

Yours faithfully,

## LIST OF TAX LAWS

Sr. No:	Details of Tax laws
1	Internal Revenue Code of 1986 (IRC) - Title 26 of the United States Code (26 USC)
2	Treasury Regulations issued by the U.S. Department of Treasury

## **STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO CAPILLARY TECHNOLOGIES LLC AND CAPILLARY BRIERLEY INC. UNDER THE TAX LAWS OF THE UNITED STATES OF AMERICA**

### **Bonus Depreciation – IRC Section 168(k)**

Capillary Technologies LLC and **Capillary Brierley Inc.** (“the Consolidated US Group”) may be allowed to deduct 60% of the cost of qualifying tangible depreciable property placed in service during the tax year 2024. This applies to property with a recovery period of 20 years or less, including machinery, equipment, computers, and furniture. Bonus depreciation is available regardless of whether the asset is new or used, provided it meets the IRS acquisition and use criteria.

### **Section 179 Expensing – IRC Section 179**

The Consolidated US Group may elect to expense up to \$1,220,000 of the cost of qualifying property placed in service in 2024, subject to a phase-out threshold of \$3,050,000. While Section 179 benefits are often more favorable for smaller businesses, C Corporations may leverage this provision for eligible business-use assets such as technology systems, office furniture, and certain non-residential real property improvements.

### **Research and Development (R&D) Tax Credit – IRC §41**

If the Consolidated US Group engage in developing proprietary marketing analytics tools or innovative platforms, they may be eligible for the federal R&D tax credit. Qualified expenditures include wages, supplies, and contract research costs.

### **De Minimis Safe Harbor Election – Reg. §1.263(a)-1(f)**

The Consolidated US Group may elect to expense purchases of tangible property costing up to \$5,000 per item under the De Minimis Safe Harbor, simplifying fixed asset accounting for low-value acquisitions.

### **Global Intangible Low-Taxed Income (GILTI) Deduction – IRC §§951A & 250**

To the extent the Consolidated US Group owns or controls foreign subsidiaries classified as Controlled Foreign Corporations (CFCs), it must include its pro rata share of GILTI in gross income. However, as a C Corporation, the Consolidated US Group is entitled to a 50% GILTI deduction under §250, reducing the effective tax rate on such income.

### **Foreign Tax Credit (FTC) – IRC §§901, 960**

Foreign taxes paid by foreign affiliates on income included in the Consolidated US Group’s consolidated taxable income (e.g., GILTI, Subpart F) may be used to claim a foreign tax credit, mitigating double taxation. This is subject to various limitations, including foreign tax credit baskets and expense allocation rules.

### **Foreign-Derived Intangible Income (FDII) Deduction – IRC §250**

The Consolidated US Group may claim a 37.5% deduction on eligible income earned from providing marketing consulting services to foreign clients for foreign use, resulting in a reduced effective federal tax rate of 13.125% on such income. Proper documentation and economic substance are required.

### **Tax Treaty-Based Withholding Reductions**

Where the Consolidated US Group engages in cross-border payments to or from affiliated entities in treaty jurisdictions, it may benefit from reduced U.S. withholding tax rates on dividends, interest, and royalties under applicable U.S. tax treaties, provided appropriate documentation (e.g., IRS Form W-8BEN) is maintained

## SECTION IV: ABOUT OUR COMPANY

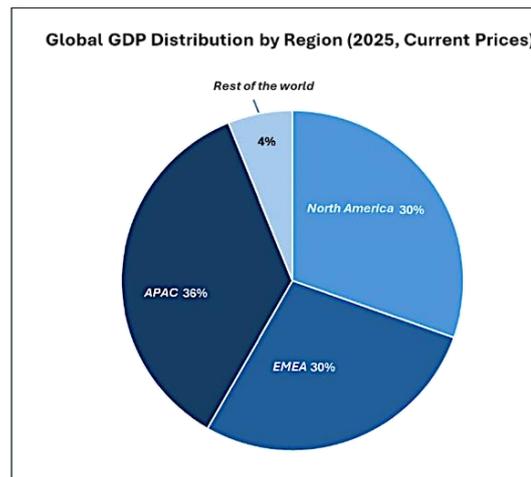

### INDUSTRY OVERVIEW

Unless otherwise indicated, industry and market data used in this section has been derived from industry publications, in particular, the report titled “*Customer Loyalty and Engagement Software Market Overview*” dated October, 2025 (the “**Zinnov Report**”) prepared and issued by Zinnov. The Zinnov Report has been exclusively commissioned and paid for by us pursuant to the engagement letter dated February 19, 2025, in connection with the Offer. A copy of the Zinnov Report is available on the website of our Company at <https://www.capillarytech.com/investors/> and has also been included in “*Material Contracts and Documents for Inspection –Material Documents*” on page 621. ### GLOBAL MACRO ECONOMIC OUTLOOK

According to the IMF’s long-term projections, global growth is expected to remain moderate in the coming years, with APAC continuing to account for the largest share of global GDP. However, APAC is projected to outpace EMEA and North America in growth, with a CAGR of 5.5% from 2025 to 2029, compared to 4.05% for North America and 3.9% for EMEA.

Technological advancements, especially in cloud adoption, artificial intelligence, and digital transformation, will reshape the global economic landscape. These shifts will redefine consumption patterns, with rising demand for personalized tech enabled services in developed markets and scalable, affordable digital solutions in emerging economies.

### Global Drivers of Change

With digital acceleration, evolving trade dynamics, and SaaS-led disruption redefining GDP trajectories, businesses are capitalizing on new consumption patterns, rising disposable incomes, rapid technology adoption, and cross-border digital expansion

### Global Consumption Growth

#### *Increasing Disposable Income Across the Globe*

Over the past decade, global disposable income levels have been rising, particularly in emerging markets like India, China, and Southeast Asia. (Source : OECD, World Bank, Zinnov Analysis)

*Disposable Income of North America, APAC and EMEA for the period 2021-2029*

This rise is fueled by:

**Increasing Urbanization and Middle-Class Expansion:** With over 4.4 billion people already in urban areas (2023) and the urban population projected to more than double by 2050. (World Bank Group), coupled with nearly 50% of the global population in the economically active 25 to 65 age group (United Nations), rising incomes and lifestyle aspirations will drive sustained demand across housing, mobility, healthcare, and digital services.

*Growth in consumption enabling the boost in the consumer-driven industries*

**Increase in final consumption expenditure:** According to the World Bank, final consumption expenditure has recorded a cumulative increase of 10% over the past two years, indicating a sustained recovery in household demand. (World Bank).

### **Large Scale Digitization**

#### *Rapid Digital Transformation*

With nearly 75% of the world owning mobile phones and connected devices expected to reach 50 billion by 2025 (ITU), digital infrastructure is expanding rapidly. Accelerated adoption of new technologies is reshaping industries, with 70% of global GDP growth over the next five years projected to be driven by digitalization, supported by national strategies in 170+ countries (The World Economic Forum).

### **GLOBAL CONSUMER INDUSTRY OVERVIEW**

The global consumer landscape is evolving rapidly, shaped by shifting demographics, digital adoption, and the growing importance of customer engagement.

This section provides an overview of the scale and dynamics of seven key consumer-driven industries—Retail, Quick Service Restaurants (QSR), Energy, Travel & Hospitality, BFSI, Healthcare, and Consumer Packaged Goods (CPG) and long-term growth potential.

Industry Vertical	Definition	Sub-Verticals
 <b>Retail Goods and Services</b>	Retail goods sold in-store, online, and via catalogs, covering both durable (long-lasting) and non-durable (frequently purchased) goods	Fashion & Apparel, Department Stores, Convenience Stores, Consumer Electronics, Furniture, Luxury Goods, Pharmacy & Wellness, etc.
 <b>Healthcare</b>	Businesses offering medical and wellness services, including hospitals, and digital health solutions.	Hospitals & Clinics, Telemedicine, Health Insurance, Wellness & Fitness.
 <b>Travel &amp; Hospitality</b>	Industry focused on providing accommodation, transportation, and food services for business and leisure travelers.	Hotels & Lodging, Airlines & Railways, Cruises, Car Rentals, Food Services, OTAs.
 <b>Consumer Packaged Goods (CPG)</b>	Fast-moving consumer goods (FMCG) that are frequently purchased, including food, beverages, household, and personal care products.	Food & Beverages, Beauty & Personal Care, Household Goods, Health & Hygiene Products.
 <b>Quick Service Restaurants (QSR)</b>	Food service outlets providing meals with minimal preparation time and quick delivery through counter service or drive-thru.	Fast-food chains, Cafeterias, Small Table Services, Takeaway & Delivery-focused Brands, Cloud Kitchens.
 <b>BFSI (Banking, Financial Services &amp; Insurance)</b>	Sector covering retail banking, insurance, and financial products such as credit cards catering to both individuals and businesses.	Retail Banking, Digital Payments, Credit Cards, InsurTech.
 <b>Energy</b>	Energy, including oil, natural gas, and electric charging, consumed for both domestic and commercial vehicle use.	Retail Fuel Gas Stations, Fleet Fuel Solutions, Home LPG & CNG Fuel, EV Charging Networks.

*Definition and Overview of consumer facing industry verticals*

## Growth Drivers Across Consumer-Facing Industries

**Urbanization and Demographic Shifts** - As global urbanization accelerates, consumer behavior is being reshaped by younger, fast-paced, and working-class populations. This urban transition fuels appetite for quick, convenient, and on-the-go products across retail, QSR, healthcare, and mobility sectors.

**Rise of Smaller Households** - Declining household sizes and the growth of nuclear families are driving demand for compact, personalized, and convenience-led products and services. From smaller appliances to subscription-based personal care, industries are adapting to individual-centric consumption patterns.

**Increased Consumer Spending & Rising Affluence** - Higher disposable incomes and lifestyle aspirations are pushing consumers to spend more on discretionary categories like retail, dining, entertainment, and travel. This growth is reinforced by a global middle-class expansion and changing consumption habits.

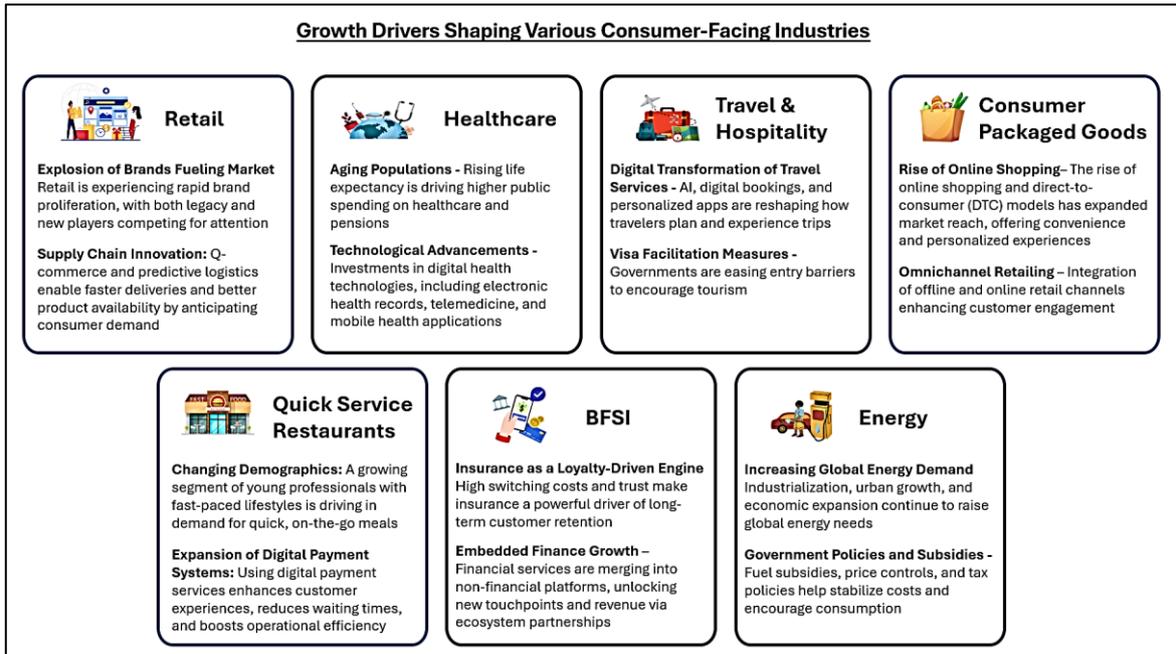

**Personalization as the New Standard** – Consumers increasingly expect tailored experiences. Brands leveraging AI, analytics, and data-driven personalization see higher conversion rates, stronger loyalty, and improved customer lifetime value. This trend spans sectors from e-commerce to healthcare, where hyper-personalized engagement is replacing generic approaches.

**Accelerated Digital Transformation** – AI, automation, and advanced analytics are transforming industries end-to-end. Retail is adopting autonomous checkout stores; healthcare is deploying telemedicine and digital health records; BFSI is moving to AI-driven risk and fraud detection. Digital transformation is no longer optional but a core driver of competitiveness.

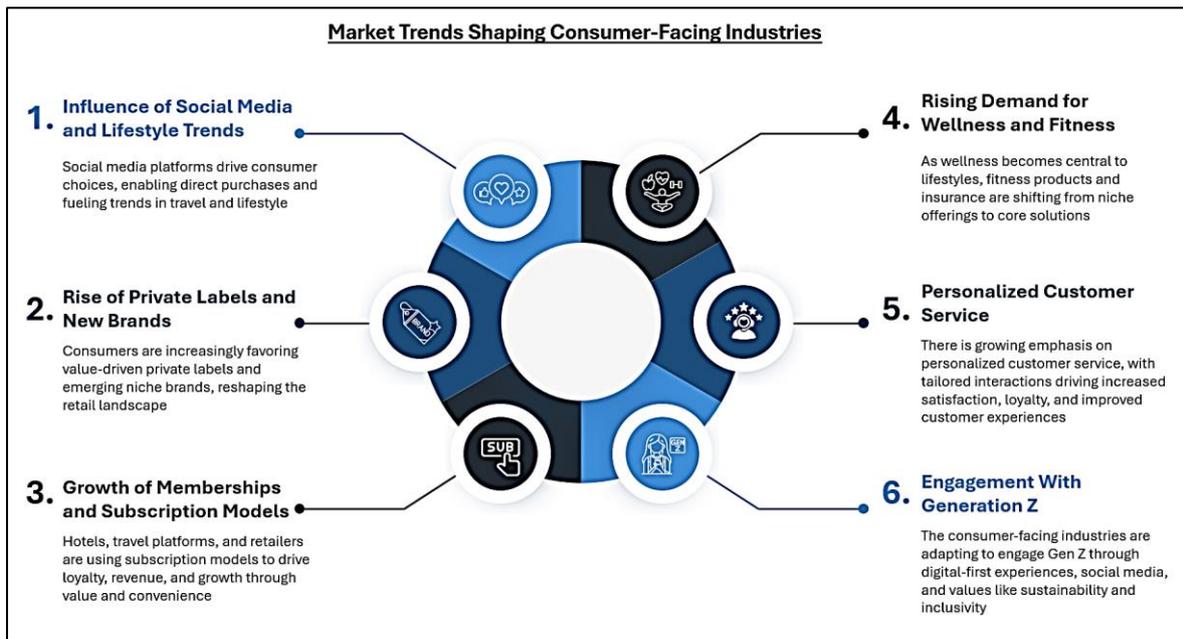

**Digital Payments Revolution** - Cashless adoption is rising sharply— approximately 10% in developed economies and approximately 18% in emerging ones—enabling frictionless transactions. Beyond convenience, digital payments create new opportunities for loyalty programs, cross-selling, and micro-purchases, fueling broader industry growth.

**Omnichannel Integration & Quick Commerce** - Consumers now expect seamless transitions between online and offline touchpoints. Quick commerce, promising delivery within minutes, is reshaping retail and F&B by offering unprecedented convenience. Omnichannel strategies are central to engagement, retention, and sales conversion.

**Embedded Ecosystem Partnerships** - Cross-industry collaborations are unlocking new value streams. Retailers, fintechs, and tech players are integrating services—such as e-commerce platforms linking with payment wallets or fuel retailers partnering with QSR chains—creating broader ecosystems that enhance stickiness, scale, and consumer spend.

## Growth in Market Size of Consumer Facing Industries

Driven by the key trends and growth drivers outlined earlier, consumer-facing industries have experienced notable expansion in market size. The ongoing shifts in urbanization, digital transformation, and consumer behavior have

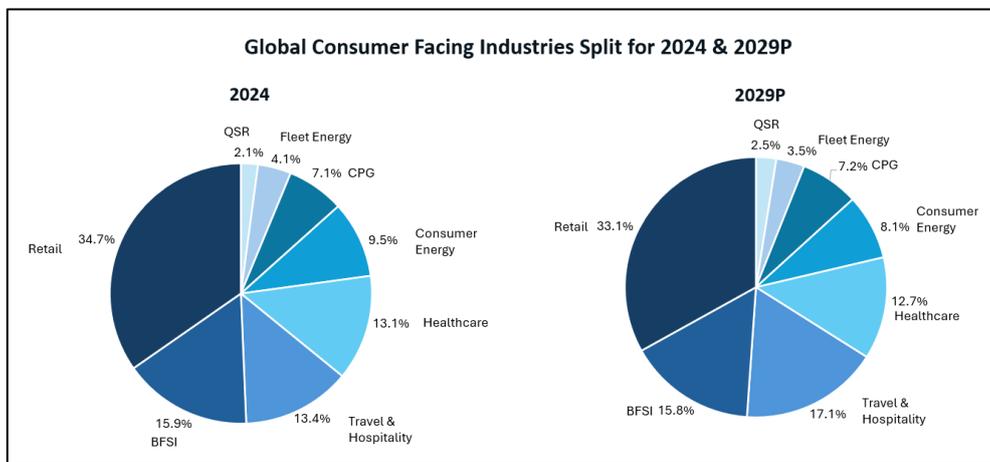

contributed to the growth of sectors like retail, healthcare, travel, and more. This chart illustrates the evolution of multiple industries within the consumer-facing space, highlighting their growth over time.

Split of Consumer Facing Industries - Market Size

\*Note: The Travel and Hospitality CAGR has been calculated using pre-pandemic growth rates assuming a post pandemic normalization. The BFSI market size only includes retail banking, digital payments, InsurTech, and credit cards

The consumer-facing industries are collectively on an upward growth path, with all verticals showing expansion rather than stagnation. Some sectors like travel and hospitality stand out for a recovery-led growth pattern, while others like healthcare and BFSI reflect more steady, structural growth.

2024 and 2029P Split of Consumer Facing Industries

### Evolving Priorities in Consumer-Facing Industries

Retail continues to dominate the consumer-facing industry landscape, anchoring overall market size, while Healthcare and BFSI are steadily rising in strategic importance. QSR and CPG act as daily touchpoints, while Energy and Travel, though niche, highlight opportunities beyond traditional retail and services.

The challenge now extends beyond scale. As markets mature and competition intensifies, growth is being shaped not only by macroeconomic factors but also by how effectively companies can connect with and retain their customers. Rising expectations for personalization, seamless digital experiences, and meaningful brand relationships are redefining what it takes to convert market potential into long-term value.

### AI's Influence on Consumer-Facing Industries

AI is redefining how consumer-facing industries build engagement and loyalty. Predictive analytics and automation are enabling brands to deliver personalized, real-time experiences at scale-enhancing marketing precision, optimizing operations, and driving lasting customer relationships. As personalization and agility become central to growth, AI has evolved from a support tool into a strategic differentiator.

## CUSTOMER ENGAGEMENT AND LOYALTY

In today’s competitive landscape, consumer industries are grappling with several challenges related to acquiring and retaining customers while trying to maximize the returns on their investments. As traditional methods no longer guarantee long-term success, businesses must rethink their approaches to customer engagement, focusing on improving Lifetime Value (LTV) and optimizing retention to offset rising costs.

### Challenges Faced by Consumer Industries in Maximizing Customer Returns: A Focus on Acquisition and Retention

#### *Higher Customer Acquisition Cost (CAC)*

With CAC steadily increasing, businesses are shifting focus from pure acquisition to customer-centric metrics like NPS, retention, and lifetime value. In 2025, Forbes reported that e-commerce brands were losing USD 29 per new customer, reflecting a decade-long CAC surge. It is now significantly more expensive to acquire a new customer than to retain an existing one, with loyalty program members demonstrating 15% to 40% higher Customer Lifetime Value (CLTV) compared to non-members. As customer acquisition costs steadily rise, businesses are shifting their focus from pure acquisition strategies to customer-centric metrics such as Net Promoter Score (NPS), retention, and LTV.

A study by Optimove indicates that acquiring a new customer can be five times more expensive than retaining an existing one. A study by Shopify Inbeat suggests that costs vary by sector—USD 127 in Health & Beauty, USD 377 in Electronics, and reaching up to USD 784 in Financial Services- making retention strategies more critical than ever for sustainable growth.

#### *Limitations of Organic Growth*

Another challenge is the inherent limitations of organic growth in customer acquisition. While organic growth relies heavily on factors like word-of-mouth, SEO, and social media presence, it becomes difficult to scale without heavy investment in marketing. Companies may struggle to achieve meaningful customer acquisition, upselling, or engagement without consistently spending on new initiatives to capture attention. This highlights the growing need for personalized, data-driven engagement to foster long-term loyalty and maximize customer returns.

Industry	Organic Growth Limitation	Impact
<b>Retail</b>	Heavy reliance on paid advertising for customer acquisition instead of repeat purchases	Brands spending more on acquisition rather than retention and repeat
<b>CPG</b>	Struggles to increase purchase frequency or expand product adoption	Limited cross-selling of new products to existing customers
<b>QSR</b>	Inability to drive repeat visits beyond promotions	Dependency on discounts rather than habit formation
<b>Energy</b>	Few ways to retain customers without pricing incentives	Customers switching based on price differences
<b>Travel &amp; Hospitality</b>	Over-reliance on seasonal spikes rather than year-round engagement	Hotels dependent on peak seasons instead of loyalty programs
<b>BFSI</b>	Struggles to deepen wallet share of existing customers	Low cross-selling of wealth management or credit card upgrades
<b>Healthcare</b>	Low patient retention beyond episodic care	Patients not engaging in preventive care programs

*List of organic growth limitations by industries*

#### *Changing Consumer Behaviour*

**Economical Pressure** – Few economic challenges indirectly have led consumers to seek value through loyalty programs. For example, in Australia, households have increasingly used the Flybuys loyalty scheme to offset grocery costs amid rising living expenses, leading to a 5.3% growth in membership.

**Personalization** - Customers demand personalized tailored rewards based on their buying behavior. For example, Starbucks Rewards leverages AI to offer hyper-personalized discounts based on past orders.

**Instant Gratification** - Waiting months to redeem points is outdated. Instant cashback or tier-based perks increase engagement.

**Emotional Connection & Brand Values** - Many consumers now prefer programs that align with sustainability, social responsibility, or personal interests.

### ***Industry Wide Customer Retention Challenges***

Customer retention continues to be a pressing challenge across industries, with each sector experiencing unique pain points that hinder sustained engagement. Retention isn't just about reducing churn—it's about building enduring, personalized relationships at scale.

**Retail & CPG** – Fragmented offline-online engagement and limited D2C touchpoints hinder consistent brand experiences.

**QSR** – Intense price wars and evolving tastes render traditional loyalty models ineffective. Dynamic, gamified, and personalized engagement is needed to drive repeat visits and relevance.

**Energy** – With pricing regulation and commoditized offerings, differentiation is tough. Loyalty must extend beyond fuel—through C-store tie-ins, cross-category engagement, and personalized offers.

**Travel & Hospitality** – Seasonal demand swings and external shocks strain loyalty. Emotional loyalty built on hyper-personalization, lifecycle communication, and seamless omnichannel engagement is essential.

**BFSI** – Legacy players face churn amid digital-first competition, trust gaps, and commoditized products.

**Healthcare** – Fragmented care journeys, complex insurance, and rising expectations challenge loyalty.

### ***Omnichannel Integration Gaps***

Fragmented customer experiences across digital (web/app), physical (in-store), and support touchpoints are a growing concern. Inconsistent branding, disconnected promotions, and lack of seamless transitions between channels can frustrate users and lead to churn. According to Shopify, 73% of customers use multiple channels during their shopping journey, and any disconnect can increase acquisition costs undermining customer trust. This highlights the urgency of unified omnichannel strategies to maintain loyalty and acquisition efficiency.

### ***Role of Customer Engagement in Maximizing LTV***

As customer acquisition costs continue to rise, engagement has evolved from a marketing function to a strategic growth driver. Leading enterprises now view customer engagement as an orchestrated, data-driven process that maximizes customer lifetime value (LTV) rather than relying on isolated campaigns.

### From Push to Orchestration:

Customer engagement has shifted from reactive, campaign-based marketing to continuous, insight-led orchestration. Brands now coordinate interactions across touchpoints to deliver contextual, connected experiences that drive long-term value.

### Engagement Across the Customer Lifecycle:

Modern engagement strategies span the entire customer journey—from acquisition and activation to conversion, retention, and loyalty—ensuring consistent value delivery and sustained emotional connection.

### Omnichannel Experience:

Customers expect seamless, personalized engagement across physical, digital, and social channels. Omnichannel strategies help unify these touchpoints to maintain continuity and trust.

### Data and Identity Foundations:

Unified customer data platforms and identity management frameworks form the backbone of modern engagement, enabling privacy-compliant, personalized experiences at scale.

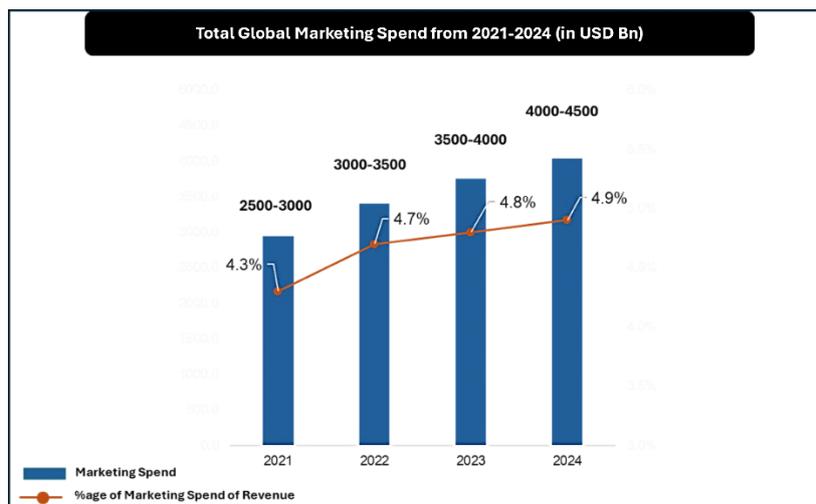

### AI-Native Engagement:

Artificial intelligence powers predictive targeting, real-time personalization, and adaptive journeys that evolve with customer behaviour—transforming engagement into a continuous, self-optimizing process.

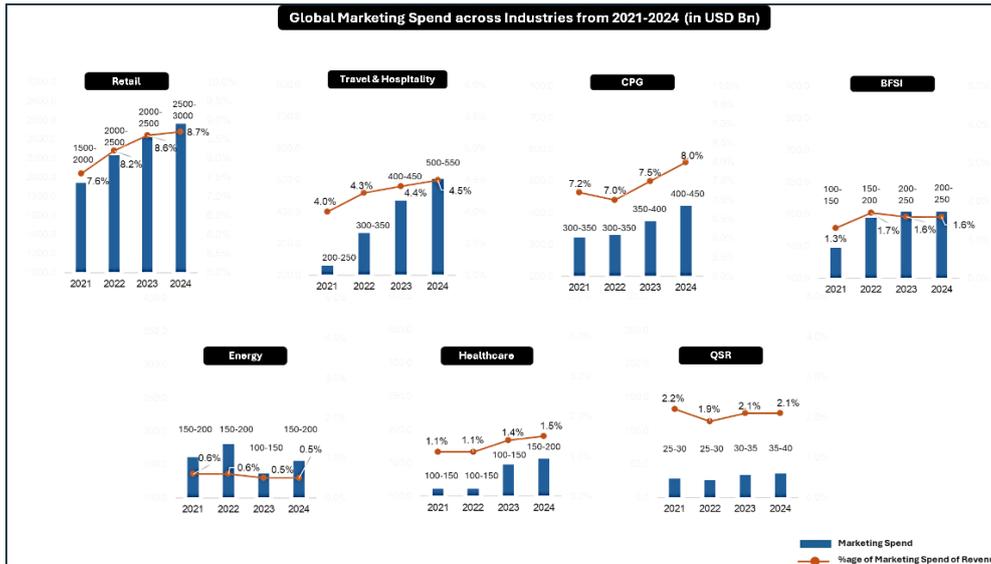

### Commerce and Conversion Integration:

Engagement now directly links to commerce outcomes. By connecting content, offers, and transactions, brands are turning engagement moments into measurable conversions and long-term loyalty.

### Global Trend of Marketing Spend across Consumer Industries from 2021-2024

Global Marketing Spend from 2021-2024

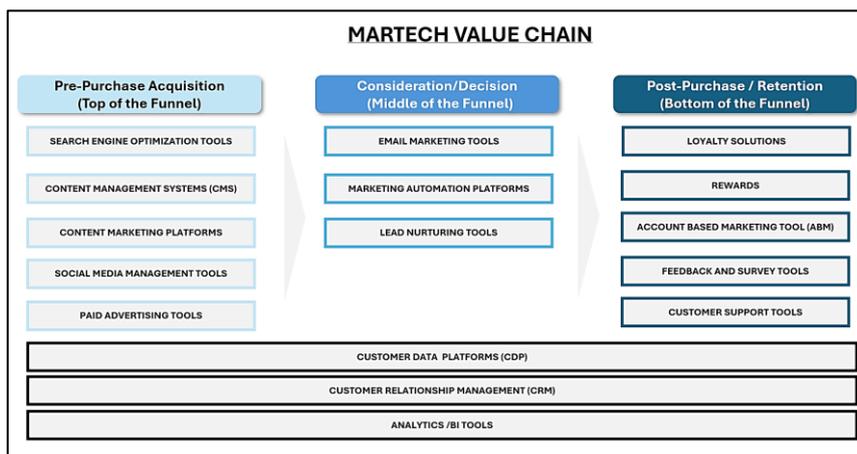

Global Marketing Spend from 2021-2024

As marketing investments continue to climb, organizations are realizing that traditional approaches alone can't deliver the speed, scale, or precision required in today's dynamic landscape. This is where MarTech—the convergence of marketing and technology—steps in as a game-changer. From automation and personalization engines to customer data platforms and AI-driven insights, MarTech enables brands to move beyond mass messaging to truly intelligent engagement.

According to the CMO Council's Loyalty That Lasts report, emotional loyalty—characterized by trust, affinity, and attachment - has emerged as a key growth driver. The study highlights those fostering emotional connections, rather than relying solely on transactional loyalty programs, significantly boosting customer retention and lifetime value (LTV)

### Marketing Technology (MARTECH) as a cornerstone for Customer Engagement

The MarTech stack illustrated here maps out the key tools supporting customer engagement across the entire funnel—from acquisition to retention. At the top, tools like SEO, CMS, and social media platforms drive awareness and traffic. In the consideration stage, automation and email tools nurture leads toward conversion. Post-purchase, loyalty programs, feedback mechanisms, and support tools strengthen retention. Underpinning all of this are foundational systems like CDPs, CRMs, and analytics platforms that unify data and power intelligent, personalized engagement at every step.

### MarTech tools at 3 key stages of customer journey

Through tools like marketing automation, journey orchestration, push notifications, and dynamic content delivery, brands are now able to speak directly to their customers—at the right time, on the right channel, with the right

message. The real power of this layer is in its ability to foster lasting relationships, and that's where Loyalty Solutions come in.

### **Understanding Loyalty**

Consumer loyalty refers to both a conscious and subconscious preference that a customer holds toward a brand, its products, or services. The most successful loyalty programs today go beyond transactional rewards—they focus on nurturing the overall customer relationship by building trust, driving sustained engagement, and cultivating brand advocacy. Loyalty is fundamentally about engaging consumers across their entire journey and consistently prioritizing their needs.

Loyal consumers typically exhibit the following characteristics:

- Default to certain “go-to” brands across key categories
- Trust that the brand will consistently act in their best interest
- Recognize tangible value in remaining loyal to the brand
- Are not easily swayed by competing prices or availability
- Rarely explore alternative brands or options
- Are more likely to refer the brand to friends and family
- Show openness to purchasing other goods or services from the same brand
- Exhibit patience during service failures and trust the brand to resolve them
- Provide constructive feedback to help improve offerings
- Demonstrate an ongoing intention to repurchase when needs arise

### **Loyalty Solutions**

While loyalty is rooted in customer behavior and brand affinity, loyalty solutions represent the strategic and technological enablers that translate that loyalty into measurable business value. Moving beyond traditional rewards like points and discounts, modern solutions aim to deepen customer relationships through personalized experiences, emotional engagement, and exclusivity—turning transactional buyers into long-term brand advocates.

In the modern MarTech stack, loyalty solutions are essential, not just as an add-on but as a core component of a broader engagement strategy. Integrated with other marketing technologies like CRM platforms and AI analytics, they deliver personalized, real-time interactions that drive deeper customer loyalty and contribute to sustainable business growth.

Loyalty programs have proven to be a key driver of customer engagement and brand preference, with 70% of consumers considering such programs a major factor in brand selection and 72% likely to join before their first purchase.

The strategic significance of loyalty solutions is underscored by substantial investments and measurable returns across industries. For instance, Optum leverage Capillary's solution to enhance its loyalty programs, aiming to improve patient engagement and satisfaction. Similarly, Azerbaijan Airlines partnered with Comarch to upgrade its Azal Miles loyalty program, demonstrating a commitment to enhancing customer engagement through advanced loyalty platforms.

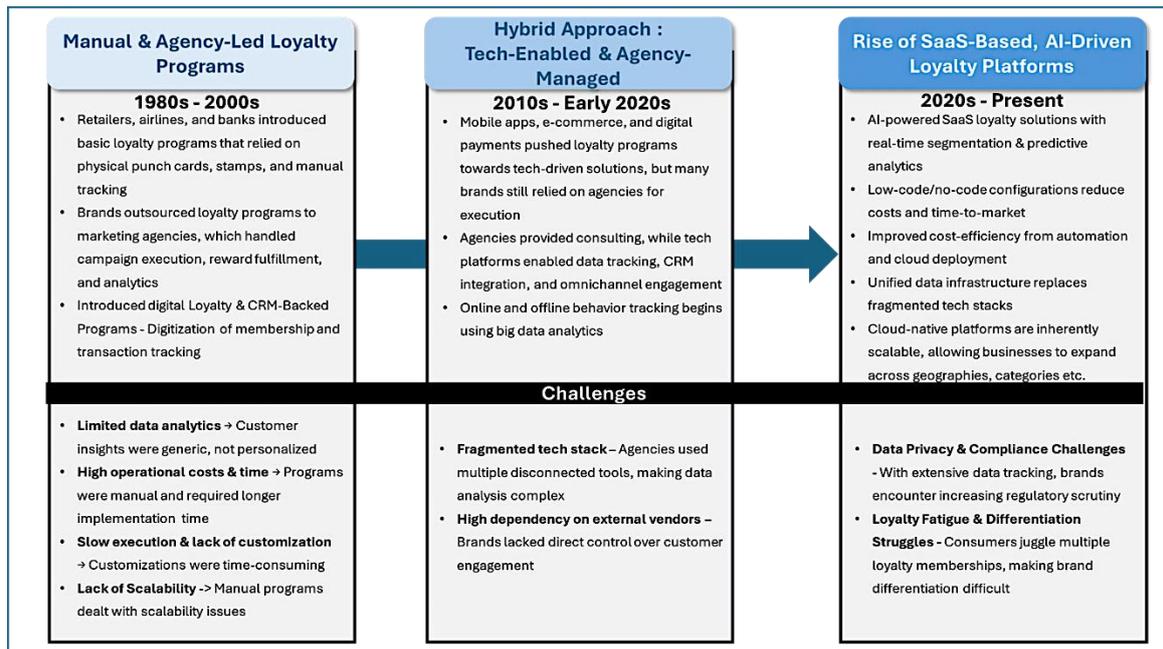

According to the Association of National Advertisers (ANA), approximately 60% of U.S client-side marketers (refers to professionals employed directly by brands or organizations to manage and execute marketing strategies) indicated that loyalty marketing would be more important to them in 2025. Nearly every Fortune 500 company has implemented some form of loyalty marketing program, underscoring the widespread adoption of loyalty initiatives among leading enterprises.

Changing end-user demographics, growing expenditure on loyalty programs, rapid growth in the applications of AI and analytics, and appreciation for online reward management solutions are adding to the loyalty market growth.

### **Evolution of Loyalty Solutions**

Loyalty programs have been around for decades, evolving through multiple phases to keep pace with changing consumer behavior. What began as simple transactional reward systems has now transformed—driven by rising customer expectations, digital acceleration, and data-led strategies—into sophisticated engagement ecosystems.

A major shift in this evolution is the decline of traditional agency-led loyalty models and the rise of SaaS-based technology platforms that automate, scale, and optimize loyalty management.

*Evolution of Loyalty programs over decades*

### **Foundational Era (Pre-1990s to Early 2000s): Manual, Agency-Led Loyalty**

This phase was defined by rudimentary, paper-based systems like punch cards, stamps, and plastic loyalty cards. Customer data tracking was virtually non-existent, and programs were largely execution-driven, handled by external marketing agencies. These programs were successful in initiating loyalty thinking but lacked scalability and real personalization. Loyalty was treated as a promotional add-on rather than a strategic lever.

Technology involvement was minimal. Brands relied heavily on offline engagement, and loyalty initiatives were siloed, with little or no integration into customer journey strategies. CRM systems were just emerging but were not widely integrated into loyalty frameworks.

### **Transitional Era (Mid-2000s to Early 2020s): Tech-Enabled, Agency-Managed Hybrid Models**

With the rise of digital platforms, mobile commerce, and CRM systems, loyalty programs began embracing technology—but often in a fragmented way. Brands started to digitize their rewards, integrate CRM platforms, and track consumer behavior both online and offline using early-stage analytics tools.

While technology allowed for greater data capture, most brands continued to depend on external agencies for strategy and campaign execution, leading to siloed tech stacks and limited agility. Big Data and early omnichannel systems enabled behavior-based targeting, but execution complexity remained a bottleneck.

### **Modern Era (2020s – Present): AI-Driven SaaS Loyalty Platforms**

The current wave is defined by the rise of cloud-native SaaS platforms and AI-powered loyalty engines. These platforms are deeply embedded in enterprise MarTech stacks and are designed to deliver real-time segmentation, predictive analytics, and omnichannel orchestration.

Loyalty today is not just about retention—it is a growth enabler. Leading platforms leverage technologies like AI, blockchain, gamification engines, and APIs to create hyper-personalized, emotionally resonant engagement journeys. Programs can now dynamically tailor rewards based on behavioral data, predict churn, and integrate seamlessly with mobile apps, e-commerce, and CDPs.

This shift also reflects a move from external dependency to in-house orchestration, with brands gaining strategic control over customer experience.

### **How Technology is Powering Modern Loyalty Programs Today**

With the help of advanced technologies available today, loyalty programs have evolved into sophisticated, technology-driven engagement ecosystems, leveraging AI, Blockchain, IoT, and Gamification to maximize customer retention and brand loyalty.

### Flowchart for a technology enabled loyalty program

The journey begins with AI-powered onboarding, ensuring seamless enrollment and personalized customer experiences. As customers engage with brands, AI and IoT track their transactions and behaviors, offering dynamic, real-time rewards and personalized offers based on past interactions. Blockchain secures loyalty points, preventing fraud and enabling interoperable rewards across multiple brands. Gamification further enhances engagement through challenges, tiered incentives, and streak-based rewards, fostering repeat interactions and deeper emotional connections with the brand.

Type of Loyalty Program	How It Works	Example
<b>Points-based</b>	Customers earn points per purchase, redeemable for discounts or products	<b>Tesco Clubcard (UK)</b> – Shoppers accumulate points that translate into savings
<b>Tiered System</b>	Customers unlock better rewards as they reach higher tiers	<b>Emirates Skywards (UAE)</b> – Higher tiers grant exclusive airport perks
<b>Cashback-based</b>	Customers receive a percentage of their spending as cashback	<b>Commonwealth Bank (Australia)</b> – Cashback rewards on card purchases
<b>Subscription/Membership Based</b>	Customers pay a fee for premium benefits	<b>Amazon Prime (Global)</b> – Paid membership offers exclusive deals and free shipping

### Different types of loyalty programs existing in the market

Loyalty programs have evolved into powerful tools for building lasting customer relationships. Their success lies in key characteristics that drive engagement, incentivize repeat behavior, and deepen brand affinity across channels.

## **Characteristics of Modern Loyalty Programs**

### ***Omnichannel Engagement for Real-Time Customer Interaction***

Modern loyalty programs leverage omnichannel engagement, enabling brands to interact with customers seamlessly across multiple touchpoints in real time.

### ***High Scalability, Speed and Customization***

Modern SaaS powered loyalty programs are lot easier to scale based on the business needs, can be quick due to its digital nature and offers flexibility to customize or modify it real time.

### ***AI-Driven Personalization***

Loyalty programs leverage AI and data analytics to offer personalized rewards, recommendations, and promotions based on customer behavior and preferences.

### ***Ecosystem & Cross-Brand Integration***

Loyalty programs are evolving beyond single-brand use cases to accommodate broader ecosystems and cross-brand networks. Platforms like Tata Neu exemplify this shift, offering a unified loyalty experience across multiple brands within a conglomerate. This approach not only deepens customer engagement but also amplifies value by connecting rewards across diverse purchase categories.

### ***Decline of Traditional Managed Service Models***

The advent of AI agents has led to a shift from traditional, high-touch managed service models to more autonomous, AI-driven customer interactions. These agents can handle complex tasks with minimal human intervention, providing instant assistance and streamlining customer service processes. Forbes AI agents will not only recommend actions, but execute real-time campaigns, optimize reward value, and adjust journeys based on live behavior—making loyalty orchestration intelligent and self-learning.

### ***Adoption of No-Code/Low-Code Platforms to Drive Automation***

The emergence of low-code and no-code development platforms empowers business users, or "citizen developers," to create and modify applications without extensive coding knowledge. This democratization of application development accelerates the deployment of customer engagement solutions, allowing for rapid adaptation to market changes and customer needs. Forbes

### ***Modern Loyalty Programs Adapting to Data Privacy and Trust Demands***

As data privacy regulations tighten and third-party cookies phase out, modern loyalty programs are evolving to prioritize trust, transparency, and direct data relationships with customers.

- Emphasis on First-, Second-, and Zero-Party Data – Loyalty programs are increasingly crucial for collecting first-party data, providing valuable behavioral and transactional insights from members. Additionally, some programs leverage second-party data through strategic partnerships and incentivize customers to share zero-party data, like preferences and intent, by offering personalized rewards and experiences.
- Responding to Ad-Tech & Privacy Pressures - To maintain consumer trust, loyalty ecosystems are moving away from opaque third-party tracking, focusing instead on building direct, consent-based relationships. Transparency around how AI and algorithms drive personalized offers is becoming essential.

### ***Growing Adoption of Vertical SaaS-Enabled Loyalty Programs***

Modern loyalty strategies are increasingly leveraging Vertical SaaS platforms tailored to specific industries - such as retail, healthcare, or QSR. These solutions offer pre-built workflows, domain-specific integrations, and loyalty features aligned with unique sector needs. By aligning closely with industry-specific requirements, Vertical SaaS loyalty programs enable faster deployment, improved customer insights, and higher ROI compared to one-size-fits-all platforms.

## **The Potential Impact and Benefits of Loyalty Programs on Business**

Loyalty programs have evolved into strategic assets for businesses, driving higher customer lifetime value (CLTV), increased spending, deeper engagement, and strong ROI. Well-designed programs go beyond transactional discounts, fostering long-term relationships that translate into sustained revenue growth and brand loyalty.

### ***Increased Customer Spending & Engagement***

Loyal customers will spend more per visit and engage with brands more frequently. According to a Snappy's 70% of consumers consider loyalty program offerings a key factor when choosing which companies and brands to engage with. Furthermore, 72% of customers are likely to join a loyalty program before making their first purchase.

### ***ROI of Loyalty Investment***

Loyalty programs drive measurable returns through higher retention, repeat purchases, and reduced acquisition costs. According to a Queue.it, a significant majority (90%) of loyalty program owners report a positive ROI, with an average return of 4.8 times their initial investment. For example, Sephora's Beauty Insider loyalty program contributes to 80% of its annual revenue, proving its high ROI on engagement investments.

### ***Increased Average Order Value (AOV) & Upselling Opportunities***

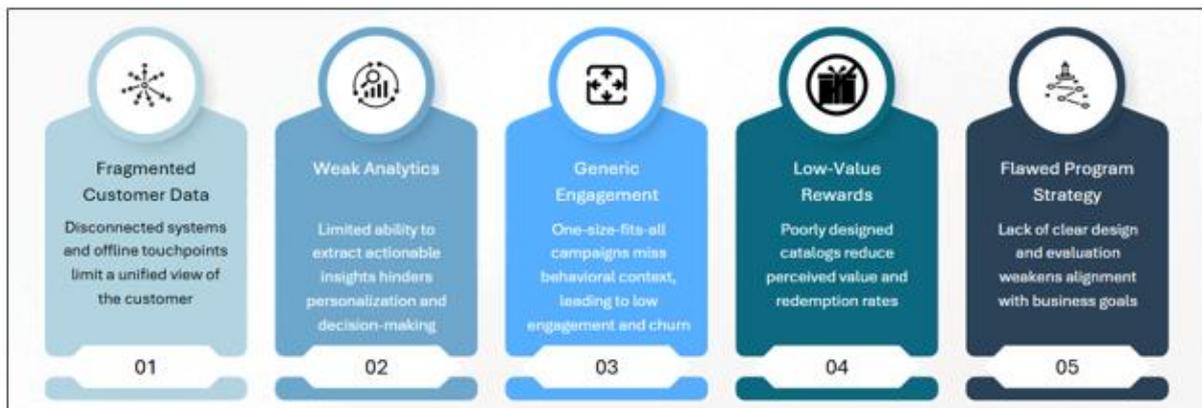

Loyalty programs that offer immediate rewards or tiered benefits can significantly boost customer spending. For example, a study showed that customers in an "Instant Cash" rewards program increased their spending by 68% over two weeks. Similarly, tiered loyalty programs motivate customers to spend more to unlock higher-tier benefits, encouraging continued purchases to access more valuable perks.

### ***Higher Customer Lifetime Value (CLTV) & Brand Loyalty Growth***

Loyalty programs directly enhance CLTV by increasing purchase frequency, retention, and basket size. Study by Umbrex indicates that customers enrolled in loyalty programs exhibit a 15% to 40% higher CLTV compared to non-members.

Thus, loyalty programs have emerged as strategic assets for businesses, driving higher customer lifetime value ("CLTV"), increased spending, deeper engagement, and strong return on investment ("RoI"). Well-designed programs go beyond transactional discounts, fostering long-term relationships that translate into sustained revenue growth and brand loyalty. As loyalty programs evolve, brands that continuously innovate their value propositions and adopt modern engagement levers increasingly position themselves as trusted product authorities in the eyes of their customers.

### **Challenges of Traditional Loyalty Programs**

In a hyper-competitive world, brands and enterprises find it increasingly difficult to build and maintain loyalty of consumers. The loyalty management space is undergoing significant changes, with brands facing several challenges:

#### **Challenges faced by brands and enterprises within the loyalty space**

These challenges highlight the need for robust information technology infrastructure, digitalization, and innovative solutions to meet evolving consumer expectations and company preferences.

#### **Trends Driving Transformation of Loyalty Programs**

##### ***Incumbents' Adoption of Loyalty Programs***

Traditional retailers and service providers across sectors are rapidly adopting or revamping loyalty programs to stay competitive with digital-first and D2C brands. Retailers like Walmart (Walmart+), Target (Target Circle), and CVS (ExtraCare) continue to invest heavily in loyalty platforms. Airlines such as Delta (SkyMiles), United (MileagePlus), and American Airlines (AAdvantage), hotel giants like Marriott (Bonvoy) and Hilton (Honors),

and QSR brands including Starbucks Rewards and McDonald's MyMcDonald's Rewards have built some of the most successful loyalty programs in the world.

### ***Shift towards Vertical-Focused Solutions***

The loyalty landscape is undergoing a marked shift from generic, one-size-fits-all approaches to vertical-specific loyalty solutions. By tailoring program design, rewards, and engagement mechanics to the unique operational realities and consumer behaviors within sectors such as retail, quick-service restaurants (QSR), healthcare, and travel, brands can drive greater resonance and long-term loyalty. This vertical focus enables brands to address nuanced challenges—such as regulatory compliance in healthcare, high-frequency repeat behavior in QSR, or tiered privilege in travel- thereby increasing program effectiveness and stickiness.

### ***Role of Technology in Loyalty Modernization***

Loyalty programs have transformed from transactional reward systems into strategic, technology-led enablers of customer lifetime value. The modern loyalty stack is powered by cloud-native architectures, AI-driven personalization engines, and real-time analytics platforms that deliver dynamic, context-aware engagement across channels. Technologies like predictive AI enable real-time analytics such as identifying which consumers are most likely to make a purchase within a defined time period-allowing marketers to proactively shape engagement and drive conversion.

### ***Role of System Integrators***

System Integrators play a critical role in ensuring seamless implementation, integration, and scalability. Unlike standalone MarTech platforms, loyalty programs must function within a brand's existing CRM, e-commerce, marketing automation, and data infrastructure. SIs enable this by bridging technology gaps, standardizing deployments, and ensuring interoperability across systems.

### ***Why SIs Are Crucial for Loyalty Management***

#### *Technical Expertise*

#### *Domain Expertise in Seamless Integration with Enterprise Systems*

Loyalty platforms need to connect with CRM, ERP, e-commerce, and customer data platforms (CDPs) to ensure unified experience.

#### *Fraud Prevention & Security*

System integrators bring expertise in seamless blockchain implementation, multi-system authentication, and real-time fraud monitoring, ensuring tamper-proof, secure loyalty transactions. Their ability to integrate blockchain with existing CRM, POS, and payment systems strengthens fraud prevention and enhances trust in loyalty ecosystems.

#### *Cross-Brand & Multi-Region Implementation*

For global brands, SIs standardize loyalty program deployments across multiple markets while ensuring compliance with regulations (GDPR, CCPA)

### ***Loyalty Market Consolidation accelerated through M&A***

The loyalty industry is undergoing a marked phase of consolidation, driven by its highly fragmented structure and an urgent need for technological modernization. The smaller vendors often lack the necessary scale, capital, and talent to transition to modern, cloud-native architectures, leaving them ill-equipped to address the growing complexity and personalization demands of enterprise customers. Key factors influencing this trend include:

- **Fragmented Market with Niche Players:** Numerous small to mid-sized companies have cultivated dedicated customer bases within the loyalty sector, However, their limited resources often hinder their ability to invest in modernizing platforms.
- **Technological Obsolescence and Investment Constraints:** Many of these smaller firms operate on outdated systems and lack the capital necessary for essential technological upgrades, making them prime candidates for acquisition by larger entities seeking to enhance their service offerings.
- **Mutual Benefits of Consolidation:** Acquisitions enable smaller companies to access advanced technologies and broader networks, while larger corporations expand their client portfolios and market presence, fostering rapid inorganic growth.

### ***Notable Industry Acquisitions***

- In February 2025, Enigmatic Smile, a rewards and loyalty software company, acquired Lux Rewards, a UK-based loyalty platform enabling businesses to offer card-linked rewards, at an “eight-figure valuation”. This acquisition is part of Enigmatic Smile's strategy to consolidate the payments-linked rewards industry.
- In 2023, Capillary Technologies, a global customer loyalty and engagement SaaS platform, acquired Texas-headquartered Brierley+Partners, a globally recognized leader in loyalty technology, strategy, and execution. Post-acquisition, Capillary reported a 3.5x growth in the U.S. market over three years, attributing this surge to both organic growth and strategic acquisitions.
- In June 2023, Capillary Technologies acquired Tenerity's Digital Connect, enhancing its intelligent loyalty platform with a powerful rewards network. This acquisition further propelled Capillary Technologies’ foothold in the U.S. and European markets and enhanced the brand’s recognition as a global leader in loyalty and engagement technology solutions.
- In 2019, Oracle acquired CrowdTwist, the leading cloud-native customer loyalty solution to empower brands to offer personalized customer experiences. The solution offers over 100 out-of-the-box engagement paths, providing rapid time-to-value for marketers to develop a more complete view of the customer.
- Bond, a major global loyalty and customer experience firm, acquired rDialogue in 2021, a U.S.-based loyalty strategy consultancy. This acquisition bolstered Bond's expertise in strategic advisory services to help brands strengthen relationships and optimize the customer journey across all human and digital touchpoints.
- In 2021, Customer relationship management company Merkle acquired LiveArea, a global commerce services provider, to expand its experience-led commerce capabilities. This acquisition enriched Merkle's end-to-end personalization and loyalty offerings, allowing for more integrated and seamless customer experiences.

## Overview of Loyalty Market across Industries

### In Retail

Loyal consumers play a pivotal role in driving revenue within the retail goods and services. Some of the unique trends are shaping the whole customer experience as well as loyalty market in retail industry.

#### *Hyper-Personalization through Data Analytics*

Retailers are increasingly turning to advanced analytics and AI to personalize loyalty experiences at scale. By tailoring offers and experiences to individual behaviors, retailers are seeing higher engagement and repeat purchases. According to an Accenture study, over 91% of consumers prefer personalized interactions, making it a key driver of loyalty effectiveness.

#### *Seamless Omnichannel Experience*

Consumers expect seamless loyalty experiences across online, offline, and mobile touchpoints. As per a Wall Street Journal study, omnichannel shoppers are spending 1.5 times more. This has led to brands integrating loyalty systems that unify customer journeys and ensure consistent recognition across channels.

#### *Gamification enhancing engagement*

Game mechanics like milestones, badges, and spin-the-wheel rewards are boosting program participation and emotional loyalty. With Starbucks Rewards loyalty program attributing 40% of revenue to gamified loyalty, brands are tapping into these tactics to drive frequency and cross-category adoption.

#### *Sustainability-Linked Loyalty Initiatives Gaining Popularity*

As environmental concerns grow, consumers are favoring brands that demonstrate a commitment to sustainability. Retailers are integrating eco-friendly practices into their loyalty programs, rewarding customers for sustainable behaviors and purchases.

### ***Corporate Reward Programs Fueling Retail Spend Growth***

An emerging trend is the rise of corporate-driven rewards and prepaid card solutions which are actively encouraging employees to spend across retail categories. Platforms like Pineperks, Enkash, and Zaggie are driving new retail spend, prompting the need for modular, high-ROI loyalty systems.

### **In Healthcare**

Loyalty programs in healthcare cultivate long-term relationships between providers and patients by offering rewards such as discounts on services, free health screenings, or access to exclusive events. These incentives encourage patients to remain engaged with their healthcare providers, leading to improved retention rates and overall satisfaction.

#### ***Personalized Health Incentives***

Healthcare loyalty programs are shifting toward individualized rewards that align with patient health goals and behaviors. From personalized coupons to condition-specific milestones, these programs encourage adherence to care plans and healthier lifestyle choices. CVS's ExtraCare Rewards and Aetna's Health Rewards exemplify how personalization drives sustained engagement and long-term patient loyalty.

#### ***Implementation of Diverse Program Structures***

Healthcare organizations are adopting flexible loyalty models—from VIP programs offering priority scheduling and exclusive discounts to point-based systems that reward preventive behaviors. These structures increase patient retention and satisfaction, with VIP schemes shown to lift revenue by 15-25% annually. Co-branded initiatives with wellness and retail partners further expand reward ecosystems, enhancing patient stickiness through community-based value.

#### ***Loyalty Program's Emphasis on Preventive Care and Wellness***

Loyalty strategies now prioritize proactive care. Programs reward patients for participating in screenings, wellness activities, and condition management. Blue365 by Blue Cross and Optum's Engage Platform are leading examples as they offer tailored wellness incentives, lifestyle discounts, and integrated care navigation tools that reduce long-term costs while improving health outcomes.

### **In Travel & Hospitality**

As travelers seek greater flexibility and richer rewards, the industry is responding with powerful cross-sector collaborations that amplify value and deepen engagement. From eco-conscious adventures to curated luxury getaways, these evolving loyalty ecosystems are redefining how brands connect with their customers.

#### ***Lifestyle-Centric Loyalty Models***

Traditional earn-and-burn systems tied to flights or stays are being replaced by programs offering year-round benefits. Subscription-based models like eDreams ODIGEO's Prime, with 7 Million+ members, reflect this shift—offering always-on discounts that remain valuable even outside travel periods.

#### ***Tiered & Personalized Engagement***

Programs are embracing AI and data to tailor experiences and introduce personalized tier structures. Air India's post-merger loyalty revamp into Maharaja Club, with four tiers and over 10 Million members, shows how data-driven personalization boosts reward redemption and customer retention.

#### ***Integration of Non-Travel & Co-Branded Rewards***

Loyalty is becoming more relevant to daily life through co-branded credit cards and non-travel reward linkages. IndiGo's 6E Rewards program allows members to earn points on groceries, dining, and fuel, expanding utility and frequency of engagement well beyond flights.

#### ***Expanding Value through Strategic Partnerships***

Hospitality loyalty programs are partnering with Retail, F&B, and fintech brands to drive engagement and cross-brand stickiness. For example, IndiGo and Swiggy have partnered to integrate Swiggy's services with IndiGo's BluChip loyalty program. IndiGo BluChip members can earn 1 BluChip point for every ₹100 spent on Swiggy's platforms, including food delivery, Instamart, and Dineout. IAG Loyalty's Avios program lets customers earn

points via shopping, credit cards, and dining, redeemable for flights, retail vouchers, etc. This drove a 17% rise in profits to USD 352.8 million and added 4.9 million new members.

## **In CPG**

With limited access to end-consumer data, CPG brands are using loyalty to gather insights, encourage habitual buying, and foster emotional connections through gamification, marketing, and smart retail partnerships.

### ***Zero-Party Data Collection via Loyalty Touchpoints***

Loyalty programs are a critical gateway to consumer insights that retailers typically don't share—such as usage behavior, preferences, and lifestyle choices. P&G's "Good Everyday" program, for example, incentivizes surveys, receipt scans, and content interaction across 60+ product lines to build rich first-party data at scale.

### ***Subscription-Based Loyalty Models***

Subscription-based loyalty, especially in personal care and nutrition, drives recurring revenue and retention. These programs offer tiered perks like early access, custom bundles, and replenishment discounts. A report by Queue.it said 37% of consumers will spend more money with brands with which they have a retail subscription, as will 28% of consumers belonging to membership programs, and 27% of loyalty program members.

### ***Retailer-Integrated, Brand-Driven Loyalty Hybrid Programs***

CPG loyalty is evolving from being retailer-dependent to brand-owned with strategic retailer collaboration. Programs are increasingly integrated across physical and digital retail networks while keeping the brand front and center in the engagement loop. Nestlé's Purina integrates with Walmart and PetSmart to let customers earn rewards while keeping the brand at the forefront. Pidilite drives dealer engagement through its gamified Genie app, Polycab targets electricians with its 'Bandhan' loyalty program.

## **In QSR**

In the QSR industry, where customer frequency and brand preference drive revenue, loyalty programs have evolved into powerful engines of engagement and growth.

### ***Strong focus on frictionless digital experiences***

QSRs are prioritizing seamless digital experiences—integrating rewards directly into apps, kiosks, and drive-thru systems. Whether it's instant redemption via a code at Dairy Queen or flexible earn-and-redeem options like McDonald's and Domino's, the goal is to reduce friction and boost satisfaction across all touchpoints.

### ***Zeroing in on Community Building and Emotional Engagement***

Modern QSR loyalty strategies go beyond discounts—focusing on building emotional bonds through brand-aligned values and community-driven experiences. Whether through surprise-and-delight moments, birthday treats, or experiential rewards, programs are becoming platforms for emotional resonance, not just rational benefits.

### ***The Rise of Gamification & Engagement Strategies***

Loyalty programs are moving beyond transactions to become interactive. Weekly challenges, streak bonuses, and surprise rewards are encouraging higher engagement. Campaigns like Chick-fil-A's "Code Moo" and tier missions add playfulness and make loyalty fun, driving stronger behavioral loyalty.

### ***Inclusive Omnichannel Flexibility***

While digital is the future, loyalty must be inclusive. Successful programs, like Carrabba's, offer hybrid options—allowing customers to engage using their preferred method, even offline. Flexibility to engage via mobile, web, or in-store without barriers is essential to sustaining broad-based participation.

## **In BFSI**

Customer loyalty management in the Banking, Financial Services, and Insurance (BFSI) sector is crucial for fostering long-term relationships and maintaining a competitive edge. Effective loyalty strategies not only enhance customer retention but also drive growth by encouraging repeat business and increasing lifetime customer value.

### ***Modernization of Legacy Loyalty Infrastructure***

With digital transformation accelerating, legacy loyalty platforms are being replaced with modular, cloud-native solutions. These new platforms offer phased rollouts, agile integrations, and real-time engagement—enabling BFSI firms to evolve without disrupting regulatory or operational frameworks.

### ***Rise of Secure, Compliant, and Scalable Architecture***

Operating under strict regulatory regimes like GDPR, BFSI firms require loyalty platforms that ensure full compliance, consent management, and secure data handling. Modern systems provide audit-ready data flows, privacy control, and seamless integration with fraud detection and payment systems.

### ***Expansion of reward and redemption option***

Financial institutions are expanding reward catalogs to include travel, wellness, fitness, and daily-use benefits—responding to 77% of banking customers who expect loyalty recognition. From credit card perks to insurer-linked discounts, rewards are now designed to complement everyday life, not just financial services.

### ***Emphasis on Hyper-Personalization in Banking and Insurance***

Banks and insurers are leveraging advanced analytics to deliver **tailored offers, personalized messaging, and behavior-based benefits**. **Hyper-personalized journeys not only** boost relevance but also deepen emotional loyalty in a market where products are otherwise commoditized.

### ***Insurance as a Loyalty-Driven Growth Engine***

The insurance sector, with high switching costs and embedded trust factors, is doubling down on loyalty. Digital policy issuance, flexible coverage, and reward-linked behavior (like fitness-based premium discounts) are helping insurers drive long-term engagement and renewal intent. Insurance is inherently sticky—once a customer signs up, switching costs and trust factors drive long-term loyalty.

### ***In Energy***

As consumer expectations evolve, fuel retailers are adopting innovative strategies to differentiate themselves and provide added value.

### ***Shift towards Experience-Based rewards***

Fuel brands are shifting from product-based rewards to experiential benefits that elevate brand perception—like priority access, exclusive deals, or digital service subscriptions. For example, BP's loyalty program rewards customers per liter and per in-store purchase, allowing redemption on fuel or brand vouchers (e.g., Amazon, M&S). Onboarded over 1 million members in the UK within a year of launch.

### ***Strategic Partnerships for Cross-Redemption***

Fuel retailers are extending loyalty benefits via partnerships with lifestyle brands, QSRs, and banks. UAE's ADNOC Rewards allows redemption across fuel, car washes, and retail partners—turning fuel brands into ecosystem hubs and increasing wallet share across categories. This has in turn become one of the largest integrated fuel loyalty ecosystems in the Middle East.

### ***Sustainability and Behaviour-First Incentives***

Eco-conscious rewards like EV charging credits and carbon offset points are becoming mainstream. Programs from Shell and Chevron highlight this shift, as energy brands align loyalty with responsible usage and behavior nudges, creating brand affinity beyond price or convenience.

### ***Mobile-First Omnichannel Loyalty Infrastructure***

Fuel loyalty programs are built on seamless mobile-first platforms integrated with POS systems, fleet cards, and digital payment interfaces. These unified ecosystems support both retail and commercial users, enabling real-time point tracking, in-app transactions, and differentiated rewards based on customer type and interaction channel—ensuring a frictionless, high-utility experience across fuel and non-fuel touchpoints.

### ***In Conglomerate/Multi-Brands***

Conglomerates are increasingly adopting unified loyalty platforms that span multiple brands, enabling customers to earn and redeem rewards across various products and services. This approach not only enhances customer convenience but also fosters deeper brand engagement

### ***Unified Programs to Drive Cross-Spend***

Group-wide loyalty platforms enable customers to earn and redeem rewards across categories like fashion, groceries, and electronics—driving frequency, higher spend, and deeper engagement. Programs like Starbucks Rewards, where members contribute 60% of sales, illustrate this impact. At the same time, shared infrastructure lowers entry barriers for smaller brands within the group, allowing them to participate in a broader rewards ecosystem, gain visibility, and attract new consumers without the cost of running standalone programs.

### ***Strategic Partnerships and Coalition Programs***

Conglomerates are forming coalitions with third-party brands to broaden the loyalty footprint. An example is the partnership between Hilton Honors and various resorts, increasing the number of participating locations from 584 to 5,900, thereby offering members more opportunities to earn and redeem points.

### **ADDRESSABLE MARKET FOR LOYALTY MANAGEMENT PROGRAMS**

#### **Methodology and approach for Total Addressable Market (TAM) and Serviceable Addressable Market (SAM)**

The estimated TAM for loyalty management is derived using the following methodology.

#### **Market size for target industries in NA, APAC, and EMEA**

Assessment of market size of industry verticals from 2022-2026.

- Retail – Food & Beverages, Home Furniture, e-Commerce, Grocery, Consumer Electronics, Fashion & Apparel, Pharmacy & Wellness, Luxury & Jewellery, Convenience Stores.
- Quick Service Restaurants (QSR).
- Travel & Hospitality – Travel & Tourism and Hospitality.
- Consumer Packaged Goods (CPG)
- Energy
- Banking and Financial Services
- Healthcare

#### **TAM Estimation**

##### ***Step 1: Determining Global Market Size for the Industry***

The first step involved identifying the Global Market Size for each of the 7 industries (e.g., Retail, Travel & Hospitality, QSR, etc.).

##### ***Step 2: Segmenting the Market by Region***

The global market size was then broken down into regional markets based on the share of each region (NA, EMEA, and APAC)

##### ***Step 3: Applying the Penetration Rate for the Organized Market***

The Penetration Rate for the organized market was applied, which reflected the proportion of the market that was organized and formalized (where loyalty management systems are relevant)

##### ***Step 4: Calculating Spend on Loyalty***

We derived the annual loyalty spend as a percentage of revenue based on survey responses, where participants indicated the proportion of their revenue allocated to loyalty programs

##### ***Step 5: Aggregating Across Regions***

The spend on loyalty management for each region (APAC, NA, and EMEA) was aggregated to arrive at the Global Spend on Loyalty Management for each industry

##### ***Step 6: Applying Growth Rate (CAGR) for Future Years***

To estimate the future TAM for loyalty management, the CAGR (Compound Annual Growth Rate) was applied to the Global Spend on Loyalty Management for each region, projecting the TAM for subsequent years (2025, 2026, etc.)

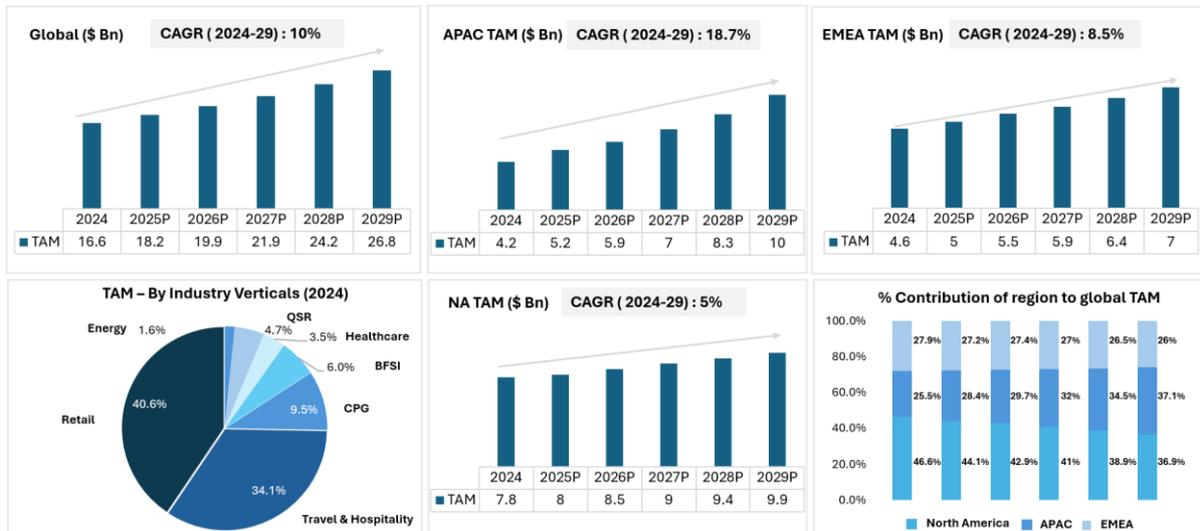

**TAM** = Summation of TAM for different industry verticals, calculated as **(Market Size of the industry X Current Penetration \* % of Revenue spent on Loyalty Management)**

**North America TAM** = US TAM + Canada TAM + Mexico TAM

**APAC TAM** = Asia Pacific TAM

**EMEA TAM** = Europe TAM + Middle East TAM + Africa TAM

The overall global market is projected to grow at 10% in the next five years and North America holds the largest market share, followed by Asia-Pacific and Europe

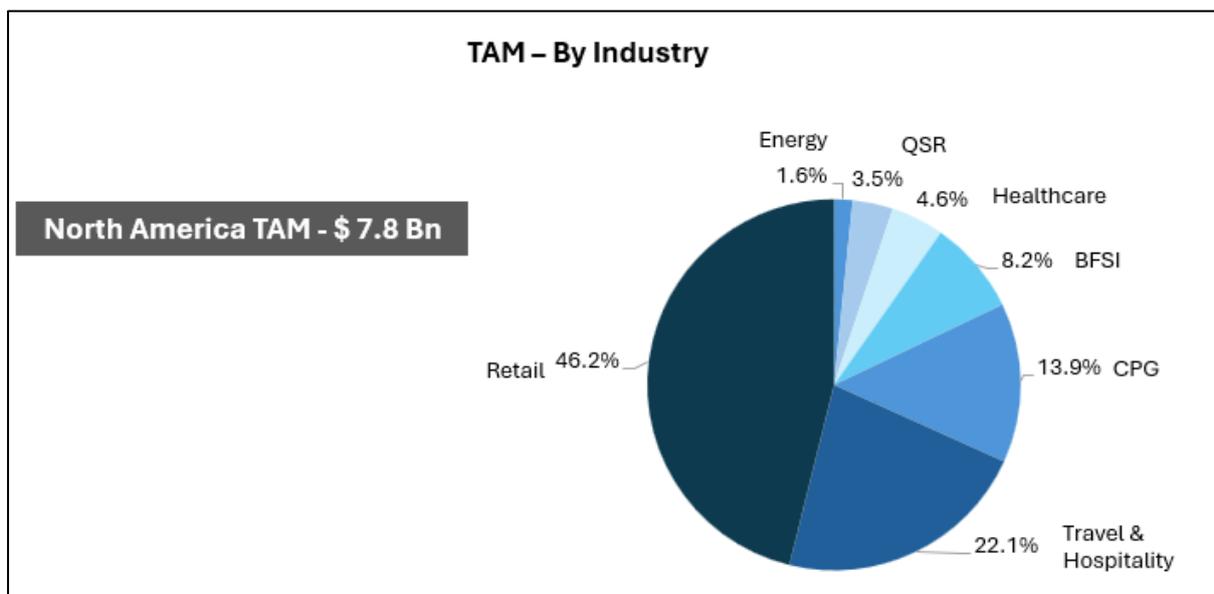

**Global SaaS TAM by Geography for the period 2024-29**

The total addressable market size for loyalty management is estimated to be USD 16.6 Billion in Fiscal 2024 and is expected to reach USD 26.8 Billion by Fiscal 2029, projecting a growth rate of 10%, with all the regions across the globe registering a growth rate of more than 5% from years 2024-2029, with Asia-pacific region projecting a significant growth rate of 18.7% from years 2024-2029. North America holds the largest market share, followed by Europe and Asia-pacific

The nature of the loyalty market is characterized by its vast and diverse consumer base, with India and Asia alone constituting a 4 billion consumer market. In contrast, the US, despite having a smaller number of consumers, has a highly mature and well-recognized loyalty market. Given the global nature of loyalty, companies aiming to address these markets must establish a global physical presence to effectively manage and deliver loyalty programs. The total addressable market (“TAM”) for loyalty management for industry segments such as retail, travel and hospitality and CPG is estimated at 40.6%. 34.1% and 9.5%, respectively, in Fiscal 2024

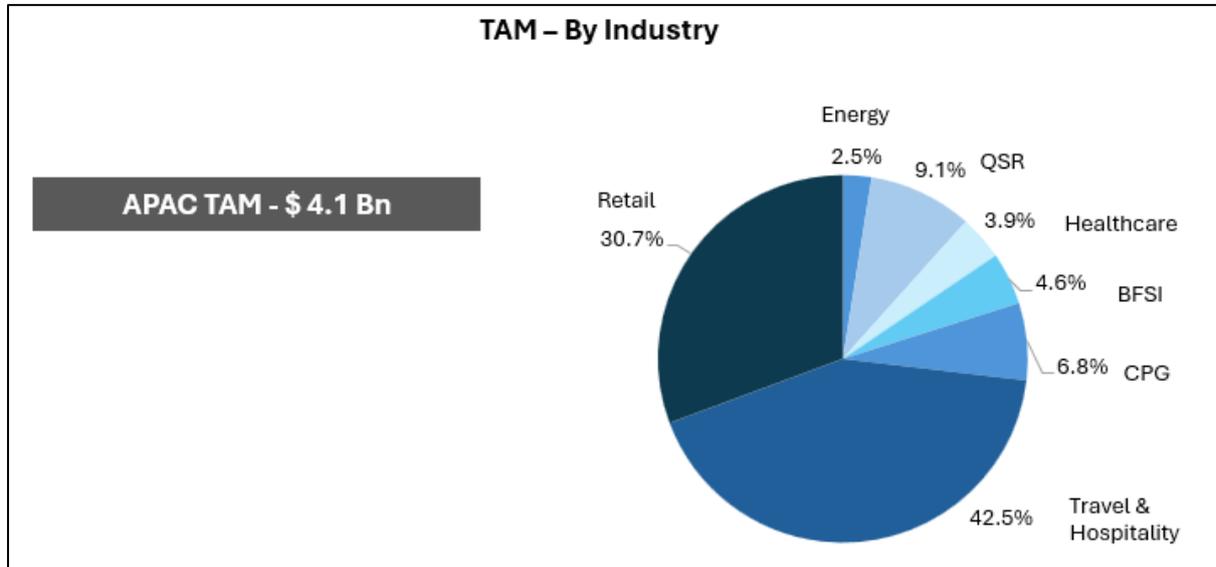

**Capillary Technologies has an addressable opportunity of more than U.S.D 7.8 Billion in the North America region**

**Capillary’s addressable opportunity in North America by Industry**

The total addressable market size for loyalty management in North America is estimated to be U.S.D 7.8 Billion in 2024 and is expected to reach U.S.D 9.9 Billion by 2029 projecting growth rate of 5%. North America accounts for the largest share of the market in 2024. North America is home to developed economies such as the US and Canada, which are known for aggressive adoption of the latest and advanced technologies, such as AI, cloud computing, and data analytics.

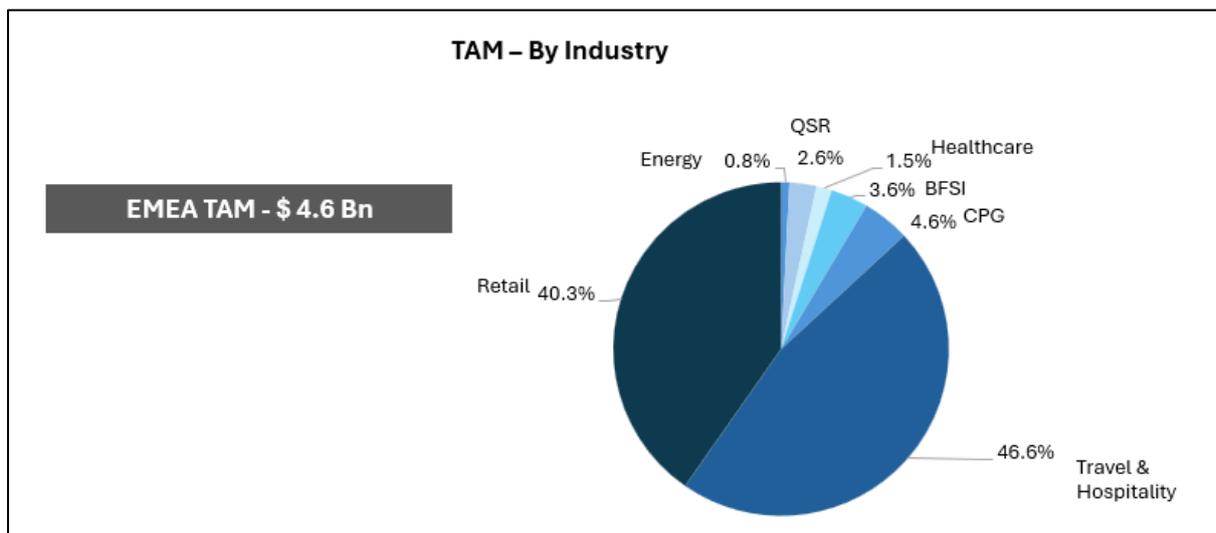

**Capillary Technologies has an addressable opportunity of U.S.D 4.1 Billion in the APAC region**

**Capillary’s addressable opportunity in APAC by Industry**

Changing end-user demographics, growing expenditure on loyalty programs, rapid growth in the applications of AI and analytics, and appreciation for online reward management solutions are adding to the loyalty market growth.

There is an untapped potential in the enterprise market in Asia-Pacific, EMEA and the North American regions, projecting a significant growth rate of 18.7%, 8.5% and 5.0%, respectively from years 2024 to 2029.

## UNDERSTANDING THE EVOLVING SAAS LANDSCAPE

Software as a Service (SaaS) is a cloud-based delivery model that allows enterprises to access applications over the internet without requiring on-premises installations. Instead of purchasing and maintaining software on local servers, businesses subscribe to SaaS platforms, which are hosted and managed by third-party providers.

### Key Drivers of SaaS Adoption

#### *Drivers for Global SaaS adoption*

Over the past decade, SaaS has become the default model for enterprise software across industries. The appeal is straightforward — lower upfront investment, faster deployment, regular updates, enhanced security, and minimal IT overhead. Businesses increasingly demand solutions that support distributed workforces, automate workflows, and scale with business growth.

- **Cost Efficiency and Predictable Spending:** SaaS eliminates the need for significant upfront investments in hardware and software. Its subscription-based model allows businesses to manage budgets effectively, making it especially attractive for startups and SMEs seeking to optimize their IT expenditures.
- **Rapid Deployment and Seamless Updates:** Unlike traditional software that requires extensive setup, SaaS solutions can be quickly implemented. Providers handle maintenance and updates, ensuring that businesses always operate with the latest features without additional downtime or IT intervention.
- **Scalability and Flexibility:** SaaS platforms offer the ability to scale services up or down based on demand. This flexibility supports business growth and seasonal fluctuations without the need for significant infrastructure changes.
- **Enhanced Accessibility and Collaboration:** Being cloud-based, SaaS applications can be accessed from anywhere with an internet connection. This facilitates remote work and real-time collaboration among distributed teams, aligning with the modern workforce's needs.

### Characteristics of SaaS Platforms

SaaS platforms are defined by a set of structural advantages that drive scalability, customer retention, and capital efficiency. While some metrics remain under-reported in the Indian context, key characteristics are consistently observed across global and domestic players:

- **Recurring revenue streams** ensure predictable cash flows and long-term financial visibility.
- **High customer stickiness**, driven by upsell and cross-sell motions, contributes to strong Net Revenue Retention (NRR).
- **Rapid growth trajectories** are supported by rising digital adoption and global market access.
- **Efficient payback cycles** help optimize customer acquisition spend and reinvestment velocity.
- **Sustained R&D investments** fuel continuous product innovation and competitive differentiation.

R&D is critical for SaaS companies because it drives innovation, improves product quality, enhances user experience, and ultimately helps achieve competitive advantage and sustainable growth, hence making R&D a necessary on-going and strategic activity. By investing in R&D, SaaS companies develop new features, explore emerging technologies, address industry specific challenges and constantly evolving market needs. This activity involves developing new products, integrating new technologies and building advanced functionalities.

It is crucial to maintain high cost-efficiency levels, especially around product development and R&D. Leading global SaaS companies like Adobe (18%), Salesforce (14%), and Microsoft (12%) invest a considerable portion of their revenue in R&D to maintain product leadership. The weighted average R&D spend across top global SaaS companies, namely Adobe, Salesforce, Microsoft, Oracle, ServiceNow, Intuit, SAP, Workday, and Atlassian is approximately 15% of revenue, underlining the scale of investment required for sustained innovation.

There has also been a notable increase of 7.1% YoY in the aforementioned top global SaaS companies' engineering costs from April to August 2025. This uptick signals a strong commitment to enhancing product capabilities, accelerating innovation cycles, and staying ahead in an increasingly competitive market. The focus on R&D underscores the industry's shift toward building more intelligent, scalable, and customer-centric solutions.

### *India's Rising SaaS Advantage*

India has evolved from being a global delivery center to a hub for SaaS product innovation. What sets India apart is a combination of factors: a deep and affordable engineering talent pool, strong founder ambition, and increasing maturity in product design and global GTM strategies. Indian SaaS companies are building high-quality products at significantly lower operating costs, allowing them to serve global markets at competitive price points without compromising on quality and functionality.

**India-to-the-World: Built for Global, Delivered from India**

The current wave of Indian SaaS companies is built for global markets, not just local relevance. These startups are solving deep pain points across horizontals like ERP and workflow management, as well as verticals like travel, logistics, and fintech. The success stories are compelling:

- **Freshworks** – IT and customer support SaaS provider.
- **Postman** – API lifecycle management, now a global DevTool of choice.
- **MapMyIndia** – Geospatial platform powering digital maps, navigation, and IoT solutions for enterprises and governments.
- **Zoho** – Full-suite enterprise SaaS with global user base.
- **RateGain** – Travel-tech SaaS serving global airlines and hotel chains.
- **Chargebee** – Subscription billing and revenue ops platform.

Indian SaaS players are increasingly adopting a “**Built-for-the-World**” approach, designing products from day one to serve global users across industries and geographies. These companies are prioritizing multi-tenant, API-first platforms, building for scale, localization, and compliance from the outset. With lean, digital-first sales engines, they are able to acquire and support customers remotely, often without a large on-ground presence.

**Global SaaS Market Size**

From 2024 to 2029, the SaaS market is projected to grow nearly 2.5X, highlighting the sector's sustained momentum. With a CAGR of 20% from 2019 to 2023, the market expansion underscores the increasing reliance on SaaS for operational agility, scalability, and digital transformation.

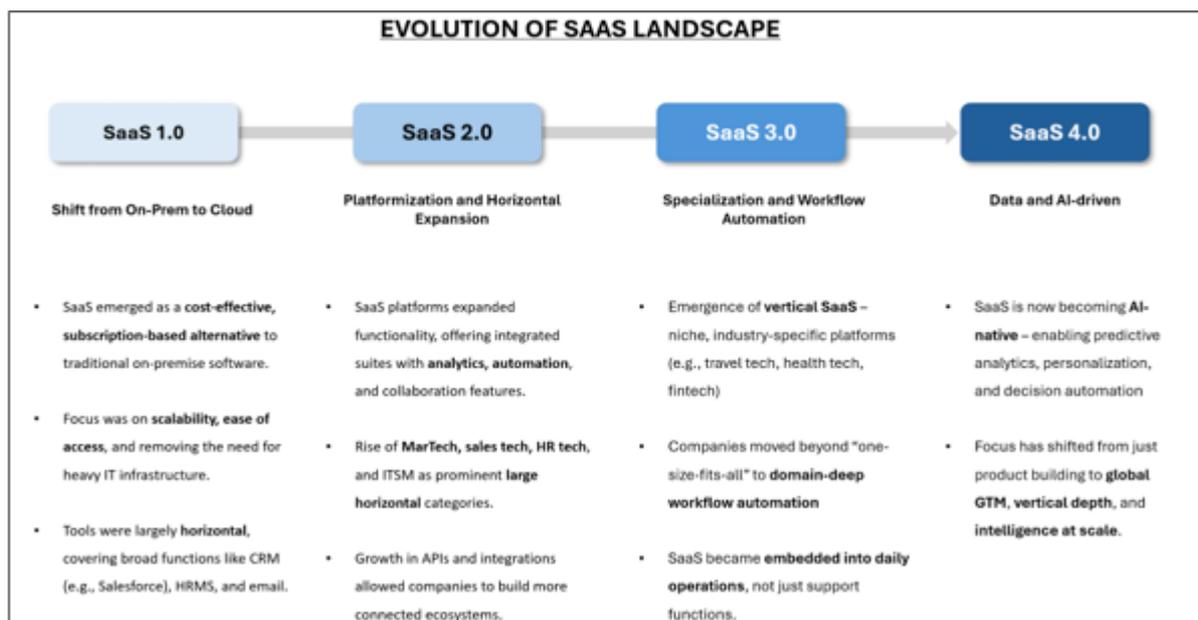

Global SaaS Market Size for the period 2021-2029

Source : Zinnov Chiratae report on 'India SaaSonomics: Navigating Growth and Efficiency'; The total market size is represented as the total Indian SaaS revenues.

**Evolution of SaaS**

From being seen primarily as a cost-efficient alternative to on-premise software, SaaS has evolved into a powerful enabler of business transformation. What began as a shift to subscription-based models has now matured into a diverse ecosystem of platforms driving automation, personalization, and agility across every industry.

Today's SaaS is no longer monolithic — it's modular, API-driven, and deeply embedded into core workflows. A standout trend in this evolution has been the rise of India-to-the-world SaaS players like MapMyIndia, Zoho, and Postman, who have built globally competitive products rooted in cost advantage, engineering depth, and GTM innovation.

**Evolution of SaaS maturity ; The SaaS evolution illustrated above is indicative and highlights broad industry trends over time. Timelines and phases may overlap depending on regional maturity and sector-specific dynamics.**

A notable trend in the SaaS landscape is the increasing adoption of **vertical-focused, niche platforms** that address specific marketing functions. In the MarTech space, this shift is reflected in the evolution from broad, integrated suites to specialized solutions such as loyalty management systems, customer data platforms (CDPs), engagement automation tools, and personalization engines. These offerings are gaining momentum as organizations seek to automate marketing workflows, minimize manual intervention, and deliver data-driven, personalized customer experiences.

This transition is further supported by the growing preference for modular, API-first architectures that integrate seamlessly with existing enterprise systems. These solutions enable faster deployment, targeted functionality, and improved adaptability to business needs. As marketing teams prioritize measurable outcomes, operational efficiency, and scalable engagement strategies, niche platforms are emerging as viable alternatives to traditional, all-encompassing MarTech suites.

### **The SaaS-Led Transformation of Customer Engagement & Loyalty**

The evolution of CRM and loyalty solutions has transitioned from traditional, heavily customized, agency-led models to modern, automated, scalable, and data-driven SaaS approaches.

#### ***Expansion of Omnichannel Engagement Strategies***

SaaS platforms are facilitating seamless interactions across physical stores, mobile apps, websites, and social media, ensuring consistent and personalized engagement that meets customers where they are.

#### ***Adoption of Subscription-Based Loyalty Models***

Subscription-based loyalty programs are gaining traction as businesses seek to provide continuous value and foster deeper customer relationships. These models offer predictable revenue streams and enhance customer lifetime value by delivering personalized, ongoing benefits.

### **Rise of hybrid SaaS models as the best of both vertical and horizontal worlds**

As the customer engagement and loyalty landscape matures, SaaS players are evolving beyond traditional models, embracing hybrid strategies that combine the scale of horizontal solutions with the depth of vertical specialization. This dual approach allows platforms to serve cross-industry loyalty needs while still offering deep, domain-specific capabilities.

Salesforce, Atlassian, Slack, Comarch, and Capillary Technologies are strong examples of hybrid SaaS companies that combine the broad applicability of horizontal platforms with the depth of vertical solutions—offering core functionalities that scale across industries, while also providing tailored features and integrations to meet the specific needs of sectors like retail, healthcare, finance, and travel

### **Why is Hybrid SaaS the Future?**

#### ***Horizontal Scalability for Broad Reach***

Hybrid SaaS platforms offer core functionalities—such as campaign management, analytics, and omnichannel execution—that are applicable across various industries. This horizontal scalability allows businesses to deploy solutions rapidly and cost-effectively.

#### ***Vertical Specialization for Contextual Relevance***

Beyond core features, hybrid SaaS platforms provide industry-specific modules tailored to the unique requirements of sectors like retail, healthcare, finance, and travel. For instance, Salesforce’s specialized healthcare offering via Agentforce comes pre-built with industry specific roles built on healthcare industry data.

### **Hybrid SaaS platforms are well-positioned to succeed in the loyalty-tech domain:**

#### ***Modular, API-First Deployment***

Hybrid SaaS platforms are designed with modular architectures and API-first approaches, facilitating seamless integration with existing systems. This design enables quick, low-code implementations across diverse industries, reducing onboarding time and opening up cross-vertical monetization opportunities.

#### ***Expanded TAM with Customization at Scale***

By supporting diverse use cases—such as rewards in retail or wallets in fintech—through a shared core, hybrid SaaS platforms allow for tailored front-end features. This flexibility enhances relevance and market reach, enabling businesses to cater to a broader audience without compromising on specificity.

#### ***Superior Customer Experience & Engagement***

Leveraging real-time insights and omnichannel orchestration, hybrid SaaS platforms deliver personalized loyalty journeys. This personalization drives deeper customer connections and higher program ROI.

#### ***Faster Go-to-Market with Reusable Components***

Shared backend capabilities, such as rewards engines and analytics, reduce development time and accelerate rollout. This efficiency ensures flexibility and allows businesses to respond swiftly to market demands.

#### ***High Stickiness & Retention***

Deep integrations into customer touchpoints—like apps, POS systems, and CRMs—increase switching costs and foster long-term loyalty through continuous value delivery.

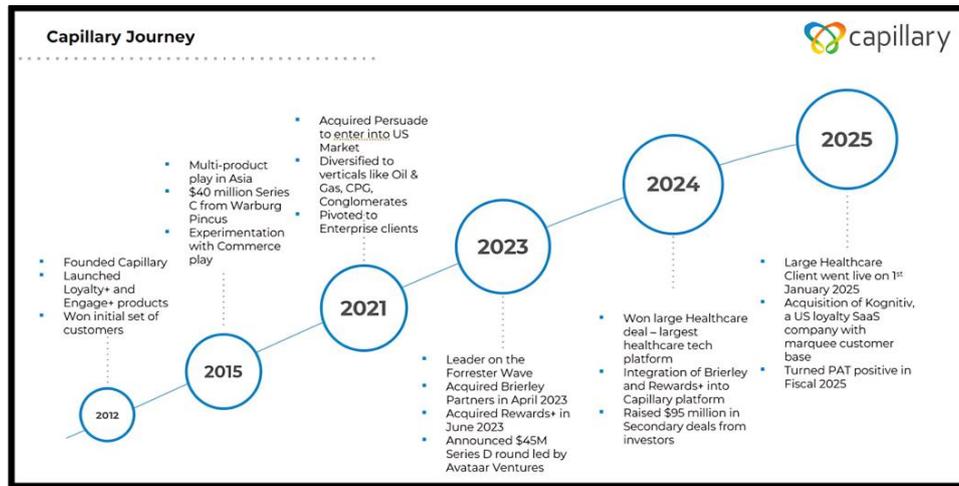

## **OVERVIEW OF CAPILLARY TECHNOLOGIES**

### **About the Company**

Capillary Technologies, established in 2012 and headquartered in Bengaluru, India, is a software product company offering artificial intelligence (“AI”)-based cloud-native Software-as-a-Service (“SaaS”) products and solutions to large enterprise customers globally to develop loyalty of their consumers and channel partners. **Acquisitions**

Capillary Technologies has strategically expanded its global presence and loyalty solution capabilities through targeted acquisitions aligned with a CAC substitution model—focusing on acquiring enterprise customer relationships rather than building them solely through traditional sales and marketing. This approach has allowed Capillary to onboard long-standing, high-value clients at a faster and more capital-efficient pace.

Zinnov analysis indicates that customers acquired through Capillary’s acquisitions of Brierley and Kognitiv exhibit average engagement durations of 8 to 11 years. This finding reinforces the inherent stickiness of loyalty solution providers, where deep technical integration, the operational complexity of switching, and the need for continuity in program design and data analytics make vendor transitions rare.

In a fragmented loyalty landscape, where many smaller players deliver short-term value but lack the scale or infrastructure for sustained growth, Capillary’s acquisition-led model has positioned it as a long-term partner of choice—backed by durable, enterprise-grade client relationships.

Company	Acquisition Date	Benefits for Acquirer	Benefits for Target
---------	------------------	-----------------------	---------------------

	April-2025	Access to target’s omnichannel expertise, strengthening position in North America; enhances AI-powered loyalty platform	Platform modernization, sustained commercial continuity, and global market expansion
Acquired the Digital Connect Assets of 	June-2023	Broadened rewards and engagement ecosystem; deeper penetration into U.S. and EU markets.	Platform modernization, tech investment, and sustained commercial continuity
	April-2023	Deepened presence in the U.S. with strong loyalty strategy and execution capabilities	Operational scale, technology infusion, and entry into emerging markets
	September-2021	Entry into the U.S. loyalty market and expanded loyalty tech stack	Access to global resources, technology stack, and expanded clientele

## COMPETITIVE ANALYSIS

While Zinnov identified several industry peers, there are no Indian or Global listed SaaS companies comparable to Capillary Technologies within the loyalty management-focused line of business. Given that there are no standalone SaaS firms globally offering loyalty management solutions—and since loyalty is a subsegment of the broader customer engagement landscape—we have considered listed CRM and customer engagement SaaS companies as proxies. As there are no such firms listed in India, the peer set comprises global players. To provide a comprehensive view of the landscape, players in the space have been segmented into two strategic buckets based on geography, market presence, and focus on loyalty and marketing technology.

- The first bucket comprises leading Global CRM and Customer Engagement SaaS platforms. Major players in the space include mid-market independent software vendors such as HubSpot, and technology giants such as Salesforce.
- The second bucket consists of Global Loyalty SaaS providers such as Kobie, Comarch, Loyalty Juggernaut, Bond Brand Loyalty, Annex Cloud, Epsilon, and Merkle who are unlisted players focused on loyalty solutions.

Salesforce reports higher revenue levels relative to HubSpot, indicating differences in organizational maturity and market presence. Salesforce reflects a combination of revenue growth and positive profitability, suggesting

operational scalability. HubSpot shows early-stage characteristics, including limited revenue and negative profitability, consistent with firms prioritizing investment and growth over short-term returns. All three companies derive the majority of their revenue from subscription-based services, consistent with standard SaaS operating models. Salesforce, Adobe, and HubSpot generate a larger share of revenue from North America. Braze reports the majority of revenue from USA. Salesforce records higher efficiency across margin and return metrics, showcasing positive EBITDA and earnings.

Analysis of the solutions offered by the selected loyalty management companies; Source: Company websites, reports, press releases

Note: Analysis of the solutions was done based on the descriptions of all the loyalty management offerings present in the company's websites, reports and press releases.

The loyalty management market is characterized by a strong presence of players focusing on Post-Purchase/Retention (Bottom of the Funnel) and Horizontal offerings, with specialized emphasis on Marketing Automation Platforms, Loyalty Solutions, Personalized Marketing, and Customer Data Analysis.

Key players like Epsilon, Comarch, and Merkle offer comprehensive suites that integrate loyalty management with broader marketing and data analytics tools. While their loyalty solutions are robust, they are often part of larger, multi-faceted platforms, which may limit the depth and vertical specialization compared to dedicated loyalty management providers.

Capillary Technologies, in contrast, focuses almost exclusively on loyalty management. They are one of the few players in the loyalty management space that offer end-to-end loyalty solutions. As of September 2025, based on benchmarking with their peer group and the breadth of their offerings, they stand out as one of the global leaders in loyalty and engagement management. While larger players integrate loyalty management into a wider array of services, Capillary's specialized approach enables a more focused and tailored solution for businesses aiming to optimize their customer loyalty.

As the loyalty management landscape continues to evolve, platforms are increasingly recognizing the importance of strategic partnerships. These collaborations enable them to provide more comprehensive, integrated solutions that enhance the customer journey and drive long-term loyalty.

A key trend emerging in this space is the focus on integration/connector partnerships, wherein loyalty management platforms collaborate with a wide range of partner companies to provide more holistic solutions. These partnerships span across the entire value chain, enabling companies to offer seamless, end-to-end solutions that cover every aspect of the customer journey.

From customer acquisition and engagement to retention and loyalty, the ability to integrate various functionalities into a single platform has become essential for delivering a cohesive and personalized customer experience. The collaborative nature of these partnerships ensures that loyalty programs are not isolated but are part of a broader ecosystem that drives deeper customer engagement and long-term retention.

Several major players in the loyalty management space have forged strong value chain-spanning partnerships, solidifying their position as market leaders. Capillary Technologies, Epsilon, Annex Cloud, and Merkle are standout companies that have successfully integrated their loyalty management platforms with a variety of complementary tools and services.

These companies have established partnerships that enhance their existing offerings, whether through integrations with CRM systems, customer engagement platforms, or loyalty management solutions. By leveraging such collaborations, these players can deliver more comprehensive, customizable solutions that address the evolving needs of their clients.

*Note: Analysis and tagging of the acquisitions was done based on an analysis of the core offerings of the acquired companies as well as the details of the acquisitions available on the company websites, reports and press releases.*

The loyalty management space has seen limited acquisitions, particularly among the top players. However, the acquisitions that have occurred have been concentrated in Post-Purchase/Retention (Bottom of the Funnel), Horizontal functions, and Consulting areas.

These acquisitions are focused on expanding capabilities in customer retention, data analytics, and providing consulting services to enhance the overall loyalty management offering. The acquisitions reflect the growing demand for more integrated, data-driven solutions that can manage and optimize the entire customer journey.

Merkle, in particular, has followed an inorganic route, making several strategic acquisitions aimed at strengthening its analytics and data management capabilities. These acquisitions have enabled Merkle to expand its personalized, data-driven solutions for customer engagement and loyalty programs.

Similarly, Capillary Technologies, Epsilon, and Bond Brand Loyalty have made a few strategic acquisitions to enhance their loyalty solutions and broaden their service offerings. These acquisitions help these companies to grow their capabilities in customer engagement, loyalty management, and consulting, positioning them to provide more comprehensive, integrated solutions to their clients.

*Note: Analysis of the geographic presence was done based on the selected company's office locations and other mentions of geographic presence available on the company websites, reports, press releases and customer success stories.*

In the loyalty management space, North America is a key market where all major players have a significant presence, driven by high digital adoption and demand for personalized customer experiences. Additionally, APAC (Asia-Pacific) stands out, with almost all key players establishing a presence in the region, driven by the expanding digital landscape and growing middle class.

Merkle, Capillary Technologies, Comarch, and Epsilon have expanded their reach across North America, EMEA (Europe, the Middle East, and Africa), and APAC. In terms of loyalty management capabilities, Capillary Technologies have surpassed regional players. They are the market leader in the loyalty management in terms of the geographies in which they operate in 2024 and include customer loyalty. Loyalty management capabilities are determined based on parameters such as functionalities, CDP offering, analyst mentions, supported integrations and partnerships, investments/acquisitions, and non-transactional engagements. Their acquisition of Tenergy's Digital Connect Assets was part of their strategic move to expand their presence in the European Union ("EU") market, a region with significant growth potential for loyalty and customer engagement solutions. The EU market represents a substantial opportunity for the company to expand their customer base and drive revenue growth.

### RECENT IPOs IN INDIA OF SAAS COMPANIES

In the past 2 to 4 years, several SaaS firms have gone public in India's secondary markets. Among them, MapMyIndia and Unicommerce were analyzed for comparison. These companies, operating in distinct sectors—MapMyIndia in travel and hospitality and Unicommerce in e-commerce and supply chain management—showed limited overlap with Capillary's offerings.

This highlights Capillary's unique positioning in the market. Capillary is focused specifically on loyalty, customer experience (CX), and customer relationship management (CRM) utilizing its AI-powered platform to enhance customer experiences and retention. This reinforces Capillary's specialized value proposition and its ability to deliver AI-driven solutions that set it apart in the marketplace.

## THREATS AND CHALLENGES TO CAPILLARY PRODUCTS AND SERVICES

As Capillary continues to scale its operations and expand its global footprint, it operates within a dynamic and competitive environment that presents certain business, operational, and market-related risks. These challenges are inherent to the rapidly evolving SaaS landscape and the company’s positioning in the loyalty-tech and customer engagement domains. Identifying and proactively managing these risks is essential to sustaining growth, protecting stakeholder interests, and maintaining long-term strategic advantage.

### Intense Competition in the Loyalty-Tech and Martech Space

The market for platform loyalty-tech and Martech solutions is highly competitive, rapidly evolving and fragmented, and subject to changing technology, shifting customer needs, and rapid cycles of product and service innovation. Capillary faces competition from global SaaS providers (such as Salesforce) as well as niche players like Annex Cloud, Epsilon, Merkle, and newer startups offering modular or AI-native solutions. This competition is further exacerbated by traditional loyalty agencies adopting AI and automation, thus intensifying market pressure. Capillary must continue to invest in differentiated capabilities, strengthen its innovation pipeline, and sharpen its value proposition across target segments.

### Rapid Technology Disruption and Changing Customer Expectations

As enterprises increasingly adopt AI-powered personalization and real-time engagement tools, Capillary must consistently evolve its offerings to match these expectations. Failure to keep pace with advancements in AI, automation, and data privacy may reduce the relevance of existing solutions. Capillary should continuously modernize its tech stack, embed AI-driven features, and maintain strong product-market alignment.

### Customer Retention Challenges

A significant portion of revenue for players in this ecosystem is derived from long-term enterprise contracts. Any inability to retain key customers, delays in contract renewals, or reduced customer spending due to macroeconomic pressures could adversely affect financial performance. Capillary should continue to enhance its customer success motion, invest in analytics-led renewal forecasting, and offer value-linked pricing models.

### Reliance on Global Expansion and Cross-Border Operations

Operating across multiple markets exposes the company to legal, regulatory, and geopolitical risks, including data sovereignty and forex volatility. Capillary should continue building local compliance expertise, diversify revenue across regions, and implement robust cross-border risk management practices.

### Talent Acquisition and Retention in a Competitive SaaS Market

Capillary’s ability to scale depends on attracting and retaining skilled talent across engineering, product, and customer success functions. Increasing competition for SaaS talent — especially in India and Singapore — may

lead to rising employee costs and execution bottlenecks. They should continue investing in talent retention strategies to drive employee loyalty.

#### **Security, Privacy, and Data Governance Risks**

Capillary handles sensitive customer and consumer data across sectors like retail, F&B, and lifestyle. Any breach or failure in safeguarding this data, whether due to internal lapses or external cyberattacks, could lead to reputational damage, legal liabilities, and regulatory scrutiny. Capillary should reinforce its information security framework and maintain rigorous data governance protocols.

#### **Risk of Missed Opportunities from Inorganic Growth**

Failure to integrate and extract synergies from acquisitions can limit revenue growth, dilute strategic focus, and reduce overall ROI. Capillary should continue institutionalizing a robust post-merger integration framework to align offerings, streamline operations, and accelerate value capture.

Despite the evolving risks inherent to the SaaS and loyalty-tech landscape, Capillary is well-positioned to navigate these challenges and capitalize on emerging opportunities. Its proven track record across global markets, deep specialization in customer loyalty and engagement, and ability to blend horizontal scale with vertical depth provide a strong foundation for sustained growth. With continued focus on innovation, customer success, and operational resilience, Capillary is poised to strengthen its leadership in the loyalty-tech space and drive long-term value for all stakeholders.

## OUR BUSINESS

*Some of the information in this section, including information with respect to our plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read “Forward-Looking Statements” on page 21 for a discussion of the risks and uncertainties related to those statements and also “Risk Factors”, “Industry Overview”, “Restated Consolidated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 34, 229, 398, and 467, respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements.*

*We have included various operational and financial performance indicators in this Red Herring Prospectus, certain of which may not be derived from our Restated Consolidated Financial Information. The manner in which such operational and financial performance indicators are calculated and presented, and the assumptions and estimates used in such calculations, may vary from that used by other companies in India and other jurisdictions. Investors should consult their own advisors in making an investment decision and evaluate such information in the context of the Restated Consolidated Financial Information and other information relating to our business and operations included in this Red Herring Prospectus.*

*Unless otherwise indicated or the context otherwise requires, the financial information included in this Red Herring Prospectus for the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 are derived from our Restated Consolidated Financial Information (collectively referred to as the “**Restated Consolidated Financial Information**”). For further information, see “Certain Conventions, Use of Financial Information, Industry and Market Data and Currency of Presentation – Financial and Other Data” on page 17. During Fiscal 2025, we changed our business model for campaign services and entered into new arrangements with our service providers pursuant to which, we act as an agent and not as a principal for campaign services transactions. Accordingly, the revenue generated from campaign services during the six-month period ended September 30, 2025 and September 30, 2024 and Fiscal 2025 has been recorded on a net basis (i.e., net of cost of campaign services) in our Restated Consolidated Statement of Profit and Loss. However, in Fiscal 2024 and Fiscal 2023, income from cost of campaign services was recognized on a gross basis as we acted as principals for campaign services transactions. Accordingly, the corresponding cost of campaign services was recognized as an expense in our Restated Consolidated Statement of Profit and Loss for the said period/Fiscals. Unless the context indicates otherwise and to ensure comparability of revenue from operations for the period/years presented in our Restated Consolidated Financial Information, ‘Net Revenue’ (defined as revenue from operations less cost of campaign services) has been disclosed for all the presented periods/years in the section “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Results of Operations for the six-month period ended September 30, 2025 and September 30, 2024 and Fiscal 2025, 2024, and 2023” on page 496. Any reference in this section to ‘Revenue’ or ‘revenue from operations’ is to revenue from operations as appearing in our Restated Consolidated Financial Information while any reference to ‘Net Revenue’ is to revenue from operations less cost of campaign services. Our financial year commences on April 1 and ends on March 31, and references to a particular financial year are to the 12 months ended March 31 of that year. Unless the context otherwise indicates, all references to the terms “we”, “us” and “our” are to our Company and our Subsidiaries on a consolidated basis. References to our “Company” refers to Capillary Technologies India Limited on a standalone basis.*

## OVERVIEW

### WHO WE ARE

We are a software product company offering artificial intelligence (“AI”)-based cloud-native Software-as-a-Service (“SaaS”) products and solutions primarily to Enterprise Customers (defined as customers contributing more than ₹ 4.00 million in revenue from operations in the six-month period ended September 30, 2025 and September 30, 2024 and ₹ 8.00 million in revenue from operations in a Fiscal) globally to develop loyalty of their consumers and channel partners. According to the Zinnov Report, as of September 2025, based on benchmarking with our peer group and the breadth of our offerings, we stand out as one of the global leaders in loyalty and engagement management. (Source: Zinnov Report, page 262)

According to the Zinnov Report, we are among one of the few players in the loyalty management space that offer end-to-end loyalty solutions. (Source: Zinnov Report, page 262) Our diversified product suite which includes our advanced loyalty management platform (*Loyalty+*), connected engagement platform (*Engage+*), predictive analytics platform (*Insights+*), rewards management platform (*Rewards+*) and customer data platform (“CDP”) allow our customers to run end-to-end loyalty programs, get a comprehensive view of consumers and offer unified, cross-channel strategies that deliver a real-time omni-channel, personalized, and consistent experience for consumers. Our solutions assist customers in generating engagement, drive conversions and boost repeat sales.

Headquartered in India with a significant global footprint with offices in locations across the United States, United Kingdom, United Arab Emirates and other Asian countries, we support over 410 brands in 47 countries, as of September 30, 2025, with the aim that businesses build consumer value using our innovative solutions.

### CAPILLARY AT A GLANCE\*

### UNDERSTANDING CUSTOMER LOYALTY

Under our operating model, enterprise customers are organizations that license and manage our loyalty management platforms (e.g., *Loyalty+*, *Engage+*, *Insights+*, *Rewards+* and CDP), whereas, consumers are the end users who engage with these platforms through the offerings of our Enterprise Customers, typically by participating in loyalty programs, receiving rewards, and experiencing personalized engagement facilitated by our solutions.

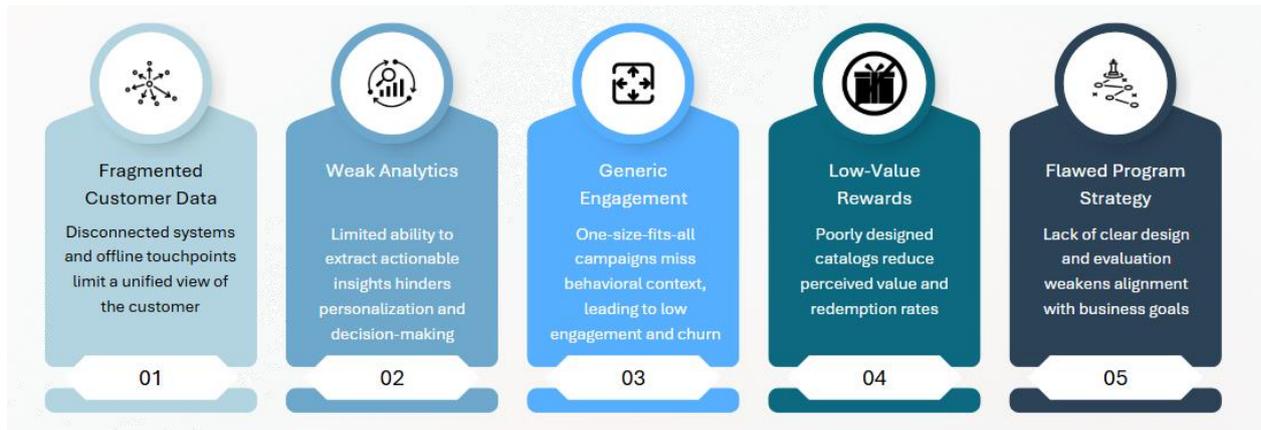

According to the Zinnov Report, consumer loyalty refers to both a conscious and subconscious preference that a customer holds towards a brand, its products or services. The most successful loyalty programs today go beyond transactional rewards — they focus on nurturing the overall customer relationship by building trust, driving sustained engagement, and cultivating brand advocacy. Loyalty is fundamentally about engaging consumers across their entire journey and consistently prioritizing their needs. Loyal consumers typically exhibit characteristics such as default to certain “go-to” brands across key categories, trust that the brand will consistently act in their best interest, rarely explore alternative brands or options and demonstrate an ongoing intention to repurchase when needs arise. (Source: Zinnov Report, page 238)

### CHALLENGES AND OUR SOLUTIONS

In a hyper-competitive world, brands and enterprises find it increasingly difficult to build and maintain loyalty of consumers. According to the Zinnov Report, the loyalty management space is undergoing significant changes,

with brands facing several challenges. (Source: Zinnov Report, page 242) Challenges faced by brands and enterprises within the loyalty space are set out below:

(Source: Zinnov Report, page 242)

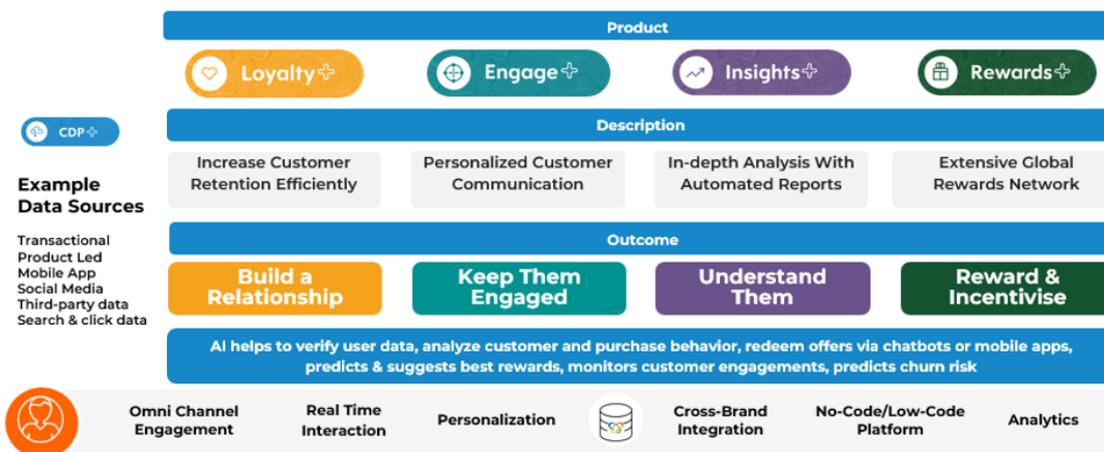

Our solutions are set out below:

	The challenge	Our solution
 <b>Data collection</b>	Difficulty in collection consumer data across channels, especially offline customers	Our platform collects consumer data from various channels including in-store, online, mobile applications, social media platforms of our customers across a variety of industries, by securely integrating with customers' point-of-sale systems, e-commerce websites, mobile applications, and social media platforms. Using encrypted mechanisms such as Software Development Kits ("SDKs"), webhooks, and server-to-server APIs, we capture consented consumer transaction and interaction data across these channels. This multi-source integration enables a comprehensive view of consumer behaviour while ensuring data privacy and regulatory compliance through consent management and secure data transmission protocols.
 <b>Data consolidation</b>	Fragmentation of consumer data - Across different databases and in silos	We offer a consolidated single view of consumer data including demographics, transaction history, interaction data, the willingness of consumers to recommend a company's products or services to others and feedback on a unified platform.
 <b>Data analytics</b>	Inability to mine data and generate customer insights	Our platform gathers real-time insights on consumer behaviour, preferences and trends based on data analytics. Increasing number of enterprises are seeing significant increase in customer retention and loyalty by leveraging customer analytics
 <b>Automated &amp; Personalised Engagement</b>	Poor understanding of the main drivers of longer term consumer loyalty (as compared to short term sales growth from constant discount campaigns) to holistically 'farm' existing customers fully	Our products use proprietary AI and ML-based models to segment consumers and personalize engagement. Our customers are able to tailor offers and promotions in real-time to a specific consumer profile and communicate with them across their preferred channels (including email, SMS, social media, mobile apps, web push notifications and messaging apps) to make purchases with the consumer compelling.
 <b>Rewards redemption</b>	Inadequate rewards solutions and lack of quality redemption options	Our customers are also able to run a variety of Omni-channel loyalty programs (including points-based programs, milestone-based programs, gamification and badges, subscription-based programs and coalition-based programs) and manage their loyalty programs with ease, to provide consumers a more cohesive experience.
 <b>Design and strategy</b>	Inefficient program design and obscurity in efficacy and ROI assessment of programs	Our Rewards+ product is a comprehensive loyalty and rewards solution offering a wide range of curated rewards and redemption options (including gift cards, cashback, travel vouchers, and exclusive offers). The platform leverages AI and machine learning to deliver personalized experiences, ensuring that each customer receives relevant and engaging rewards.
		We help businesses design and optimize customer-centric loyalty programs with program assessment, strategic planning, and implementation support to align with business objectives. Using the Brierley Loyalty Quotient (BLQ), we evaluate loyalty programs, providing data-driven insights to enhance engagement and customer retention

According to the Zinnov Report, these challenges highlight the need for robust information technology infrastructure, digitalization, and innovative solutions to meet evolving consumer expectations and company preferences. (Source: Zinnov Report, page 242) Built using a modern technology stack and powered by AI and machine learning ("ML"), our comprehensive AI-enabled platform delivers tangible results for customers across industries. We allow businesses to leverage their existing infrastructure to identify and understand each consumer while engaging with them across multiple channels.

## OUR PRODUCTS

Set out below are brief details of our product offerings along with certain key features and capabilities.

For further information, see “– Business Operations – Our Products” on page 270.

Our SaaS products enable our customers to build engaged relationship with their consumers, help them reward their consumers and offer them analysis and insights using our CDP. Leveraging our numerous application programming interfaces (“APIs”), our products integrate with our customers’ existing technology stack including their enterprise resource planning (“ERP”) systems, point of sale (“POS”) systems, e-commerce, social media platforms and multiple such consumer and transaction touch points in addition to seamlessly integrating with other third party data, marketing, and analytics platforms to provide extensibility of features for our customers. The scalability, architecture and security of our technology platforms allow for integration with other existing platforms such as security systems, identity verification, access management and data analytics. For further information see, “– Scalable Cloud-Based Infrastructure with Seamless Integration” on page 288. According to the Zinnov Report, our platform offers competitive implementation speed, which serves as a key differentiator and adds value for customers. (Source: Zinnov Report, page 255) Our API integrates into third party data, marketing, and analytics platforms to provide extensibility of features for our customers.

We also leverage AI and ML technologies to deliver personalized experiences to our customers. Our AI-driven SaaS products help streamline marketing processes. According to the Zinnov Report, technologies like predictive AI, enable real time analytics such as identifying which consumers are most likely to make a purchase within a given time period allowing marketers to proactively shape engagement and drive conversion. (Source: Zinnov Report, page 243) Engage+ employs generative and agentic AI capabilities and enables hyper-personalized interactions and marketing campaigns. Further, our co-pilot services include AI-powered tools designed to assist users by leveraging their insights in customizing messages and creating or editing promotions, thereby enhancing customer engagement. Our Creatives Co-Pilot generates tailored messages with customizable emotions and multilingual support and our Promotions Co-Pilot creates and edits promotions while ensuring precise execution.

### Our Product Roadmap

Our three-year strategic product roadmap focuses on developing a generative loyalty platform powered by AI, which autonomously generates and improves promotions and incentives. We aim to achieve this through automated insights, allowing continuous updates. The platform is intended to support personalized, scalable loyalty programs, with features such as AI driven campaign setup, rapid data and insights access, and AI-based customer support. A key priority is the launch of a loyalty language model that uses historical data with contextual information on loyalty programs, offers, products, and customers to predict individual behavior and tailor experiences. The roadmap also includes developments in gamification, emotional loyalty, support for multiple loyalty currencies and ledgers, real-time personalization, AI-based forecasting, simulation and strategy optimization, a self-serve advertiser/brand portal, and fraud detection. We aim to make loyalty management a streamlined, AI-enabled process by building an efficient loyalty platform.

## CUSTOMER BASE

We count certain global retailers and conglomerates as our customers. As of September 30, 2025, March 31, 2025, 2024 and 2023, we served 110, 98, 111 and 112 customers and 413, 393, 398 and 339 brands, respectively. Our customers and brands are diversified across verticals and include conglomerates and businesses engaged in retail,

consumer packaged goods (“CPG”), healthcare, apparel, departmental stores, luxury and lifestyle, travel, auto and hospitality, and energy retail verticals.

Over the years, we have been diversifying the industry verticals that we cater to and in the last three Fiscals have added customers in the energy retail, CPG, healthcare and banking, financial services, and insurance (“BFSI”) and telecommunications verticals. The following table presents the contribution from verticals to our revenues in the relevant periods/ years:

### OUR PRESENCE AND OPERATIONS

According to the Zinnov Report, the nature of the loyalty market is characterized by its vast and diverse consumer base, with India and Asia alone constituting a 4 billion consumer market. In contrast, the US, despite having a smaller number of consumers, has a highly mature and well-recognized loyalty market. Given the global nature of loyalty, companies aiming to address these markets must establish a global physical presence to effectively manage and deliver loyalty programs. (Source: Zinnov Report, page 250) Our global reach allows us to tap into the unique needs and preferences across different regions.

As of September 30, 2025, we had 16 offices including in key markets of India, United States, United Kingdom, Canada, United Arab Emirates, Singapore, Indonesia, Vietnam and Malaysia, and provided services in 47

countries. For further information on our offices, see “- Properties” on page 320. The following table sets forth the countries in which we have a presence and/or provide services, according to the geographies we operate in:

We believe that our diversified product portfolio, domain focused verticalized solutions, multi-geography capabilities, SaaS-based model approach, demonstrated scalability, solutions for evaluating efficacy and return on investment of loyalty programs and industry thought leadership distinguishes us from our competition.

## THE LOYALTY MARKET

According to the Zinnov Report, the total addressable market (“TAM”) size for loyalty management is estimated to be USD 16.6 billion in Fiscal 2024 and is expected to reach USD 26.8 billion by Fiscal 2029, projecting a growth rate of 10%, with all the regions across the globe registering a growth rate of more than 5% from years 2024 to 2029, with Asia-pacific region projecting a significant growth rate of 18.7% from years 2024 to 2029. North America holds the largest market share, followed by Europe and Asia-Pacific. Changing end-user demographics, growing expenditure on loyalty programs, rapid growth in the applications of AI and analytics, and appreciation for online reward management solutions are adding to the loyalty market growth. (Source: Zinnov Report, page 250)

(Source: Zinnov Report, page 250)

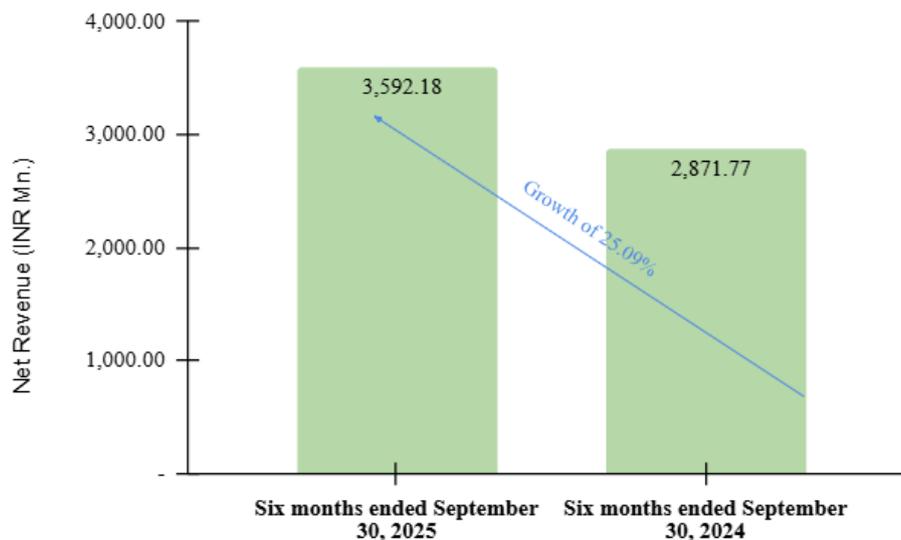

According to the Zinnov Report, loyalty programs have evolved into strategic assets for businesses, driving higher

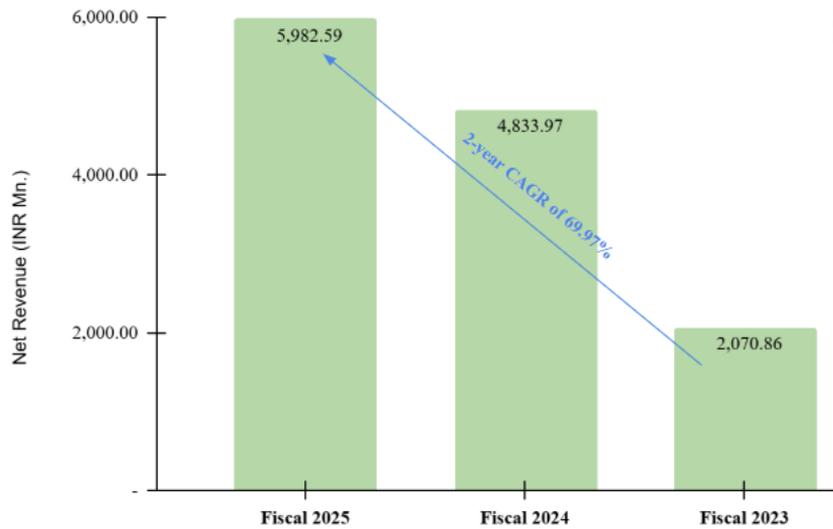

customer lifetime value (“CLTV”), increased spending, deeper engagement, and strong return on investment (“RoI”). Well-designed programs go beyond transactional discounts, fostering long-term relationships that translate into sustained revenue growth and brand loyalty. Over 90% of companies with loyalty management programs report a positive RoI, with an average return of 4.8 times on their initial investment. (Source: Zinnov Report, page 242)

In addition, according to the Zinnov Report, as customer acquisition costs are steadily increasing, businesses are shifting focus from pure acquisition strategies to customer-centric metrics such as Net Promoter Score (“NPS”), retention, and lifetime value (“LTV”). It is now significantly more expensive to acquire a new customer than to retain an existing one, with loyalty program members demonstrating 15% to 40% higher CLTV compared to non-members. Nearly every Fortune 500 company has implemented some form of loyalty marketing program, underscoring the widespread adoption of loyalty initiatives among leading enterprises, with approximately 60% of US client-side marketers indicating that loyalty marketing will be more important to them in 2025. Loyalty programs have proven to be a key driver of customer engagement and brand preference, with 70% of consumers considering such programs a major factor in brand selection, 72% of customers are likely to join a loyalty program before their first purchase. ### OUR GROWTH PATH

Our growth path focuses on three key areas, (i) maximizing organic growth through (a) improving Net Revenue Retention (“NRR”) (computed as Net Revenue for the current Fiscal from all customers existing at the end of previous Fiscal divided by the Net Revenue generated from the same customers in the previous Fiscal) from existing customers through our ‘land and expand’ approach (defined below); and (b) new customer acquisition, and (ii) inorganic growth to integrate complementary technologies and access new customer segments. Our multi-pronged approach to growth ensures that we retain and expand our existing customer base, introduce new features, and achieve operational synergies. The chart below reflects our period/year-on-period/year growth.

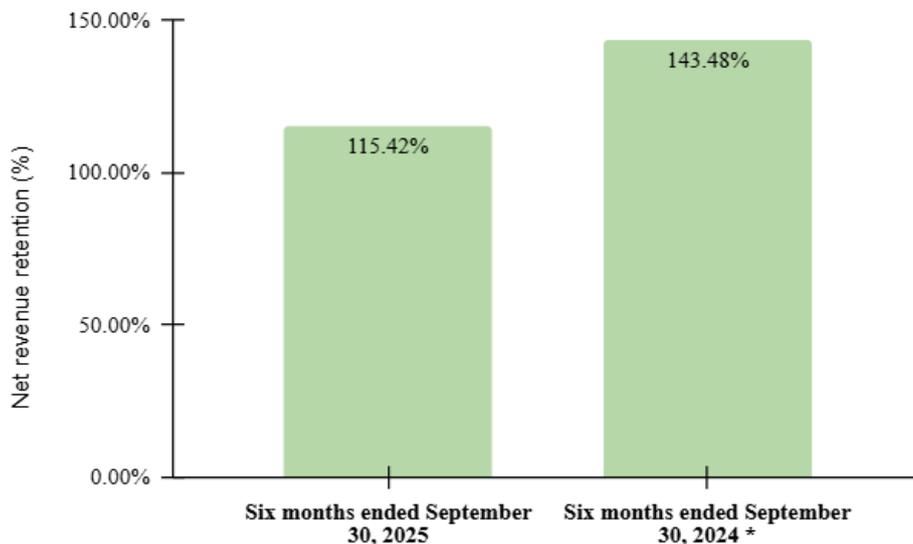

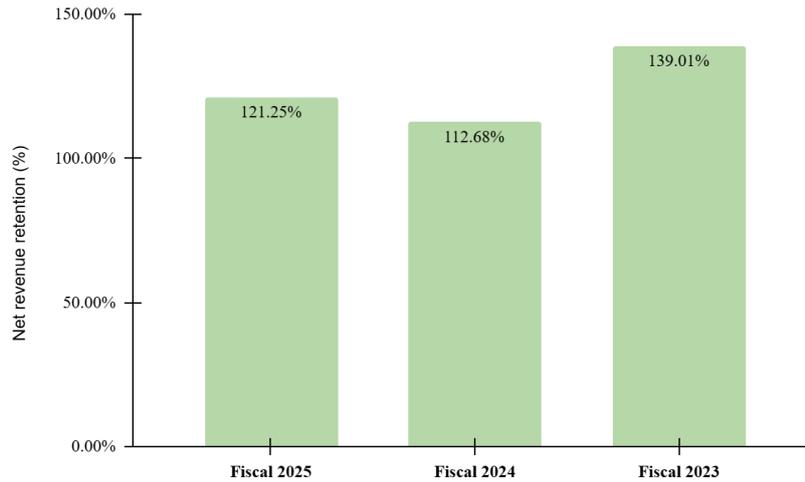

## Organic Growth

### Improving Net Revenue Retention from Existing Customers

We are committed to driving growth through our NRR from existing customers. Our NRR rate i.e., ability to retain existing customers and expand revenue from those customers over time was 115.42%, 143.48%, 121.25%, 112.68% and 139.01% for the six-month period ended September 30, 2025 and September 30, 2024, Fiscals 2025, 2024 and 2023, respectively. We have focused on expanding our footprint within Enterprise Customers by leveraging following growth levers. We have delivered consistent NRR rates from existing customers, with our ‘Land and Expand’ approach focusing on landing Enterprise Customer accounts and expanding further through deeper engagements through providing upgrades to existing solutions, immersive loyalty experience, cross-selling and upselling opportunities. The chart below depicts our robust NRR.

\* The Net revenue retention % in six-month period ended September 30, 2024 includes the impact of our B+P and Rewards+ acquisitions earning revenue from operations in all twelve months ending September 30, 2024 whereas B+P had earned only six months of revenue from operations since its acquisition in April, 2023 in twelve months ending September 30, 2023, and Rewards+ had earned only four months of revenue from operations since its acquisition in June, 2023 in twelve months ending September 30, 2023.

Our strategy to increase our NRR is structured around three key categories.

In Category I, we focus on expansion through inflationary increases, cost of living adjustments, transactional/member count-based excess usage charges – referring to additional charges incurred when the usage exceeds the limits set by the subscription plan, and variable rates to align pricing with market conditions and usage patterns.

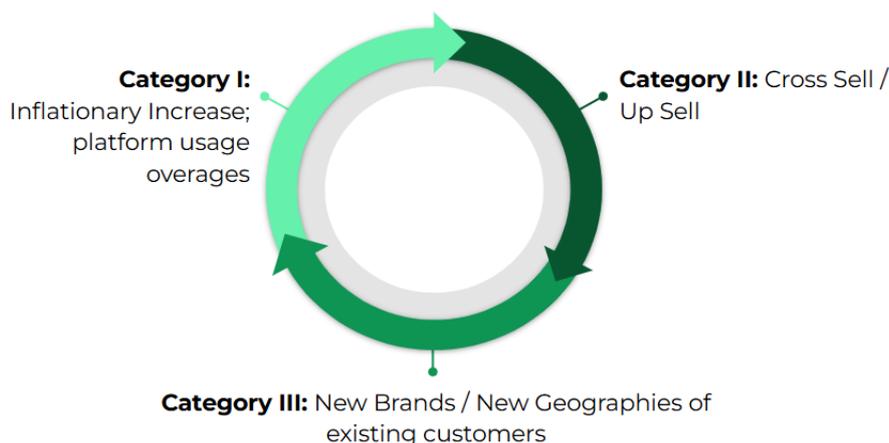

Category II involves growth through product upgrades and service upsells, addressing evolving customer needs and encouraging higher engagement.

Category III targets expansion through new brands, geographic expansion and new business units, enabling us to enter new markets and diversify our customer base.

Our contract with one of our customers, Indonesia’s integrated omnichannel distributor and retailer of technology and lifestyle products, is priced using a transaction-linked model. Revenue from operations from this customer has grown through Category I factors, pursuant to increase in loyalty transactions processed annually. The revenue from operations from this customer due to these transaction-based excess usage charges has increased by 75.26% from ₹ 11.47 million in the six-month period ended September 30, 2024 to ₹ 20.11 million in the six-month period ended September 30, 2025 and increased by 38.73% from ₹ 17.59 million in Fiscal 2023 to ₹ 24.40 million in Fiscal 2024 further grew by 26.67% to ₹ 30.91 million in Fiscal 2025 due to these transaction-based excess usage charges, demonstrating a CAGR of 32.56% between Fiscal 2023 to 2025. Whereas, one of our Global 500 customers, a technology and digital transformation company, providing scalable IT solutions to businesses and consumers, has increased its revenue contribution to us through Category II expansion factors, namely through launch of a new program and expanded support. Revenue from operations from this customer increased by 1.44% from ₹ 251.28 million in the six-month period ended September 30, 2024 to ₹ 254.89 million in the six-month period ended September 30, 2025 and increased by 118.23% from ₹ 164.10 million in Fiscal 2023 to ₹ 358.11 million in Fiscal 2024 and further grew by 41.18% to ₹ 505.57 million in Fiscal 2025, demonstrating a CAGR of 75.52% between Fiscal 2023 to 2025.

Further, one of our customers, one of Europe’s fashion retailers, operating an extensive network of stores and digital platforms, has expanded into new countries in Fiscal 2025 expanding its revenue contribution to us through Category III factors. With its expansion into four new countries in Europe in Fiscal 2025, revenue from operations from this customer increased by 11.04% from ₹ 66.14 million in the six-month period ended September 30, 2024 to ₹ 73.44 million in the six-month period ended September 30, 2025 and increased by 62.92% from ₹ 84.17 million in Fiscal 2024 to ₹ 137.14 million in Fiscal 2025.

The infographic below sets out our strategy to increase NRR across our key categories:

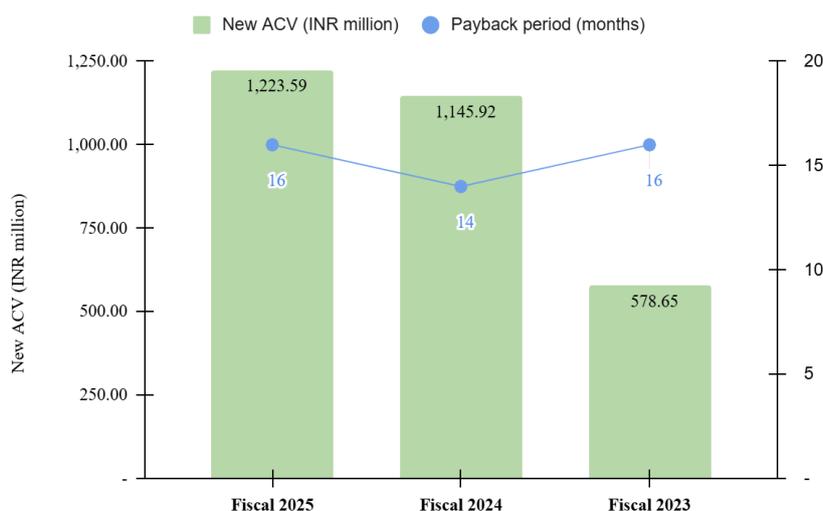

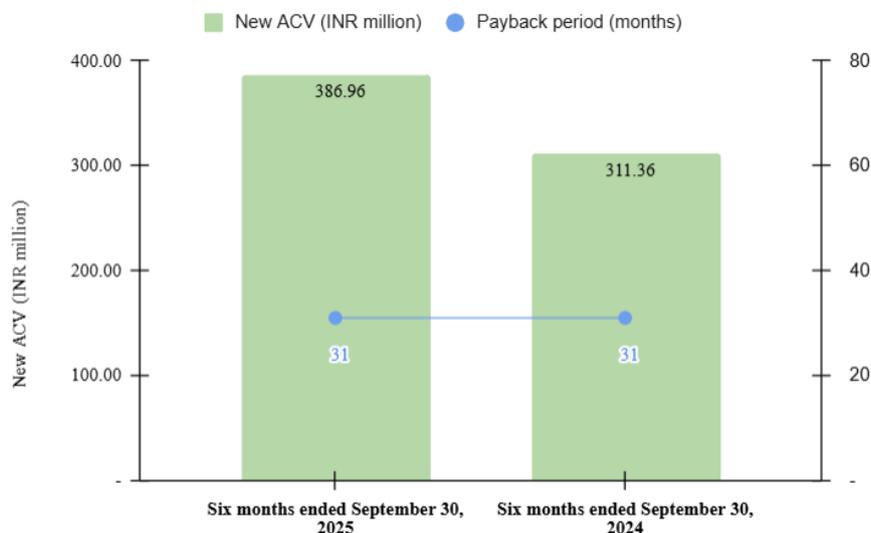

We deepen our relationships by expanding our solutions across additional brands, business units, and geographies within the same organization. In our experience, this approach has been successful and in the six-month period ended September 30 2025, and September 30 2024 and Fiscals 2025, 2024 and 2023, our farming as a percentage of New Annual Contract Value (“**New ACV**”) (defined as the aggregate of all annual recurring revenues contracted during the respective Fiscal, where annual recurring revenues represent the active recurring contract values over a twelve month period from licensed subscriptions and committed professional services)” was 58.18%, 73.99%, 75.26%, 25.56% and 66.85%, respectively.

Our SaaS subscription pricing model is linked to loyalty transactions processed in a Fiscal/year, active loyalty members on the platform or the number of stores live on our platform. Other subscription revenues earned from our *Rewards+* platform are linked to the type and quantum of various offers redeemed on the platform. Further, campaign service net margins are directly linked to quantum and type of campaigns run on platforms of service providers. Linking our prices to metrics associated with activity on and usage of the platform and our services ensures that our revenue scales as customers grow and extend our solutions across multiple regions or divisions, thereby allowing for long-term account value expansion. Additionally, certain of our contracts incorporate inflation-adjusted pricing, which enables revenue growth over time and our modular product suite also allows us to introduce complementary solutions to existing customers, increasing engagement and overall account value through cross-selling and upselling opportunities. For further information, see “*Diverse Long-Term Customer Relationships with High Net Revenue Retention*” on page 290.

#### *New customer acquisition*

As part of our ongoing customer acquisition strategy, we have maintained our focus on acquiring new Enterprise Customers, particularly in the United States, Europe, and Asia. Our sales model involves maximizing sales and profitability by leveraging our existing SaaS platform, AI and analytics capabilities, and consulting expertise. This model allows us to scale, as the cost of adding new customers is relatively low on our existing platform and penetration to industry verticals provide exposure to new customers. In the six-month period ended September 30, 2025 and September 30, 2024, Fiscal 2025, 2024 and 2023, our New ACV were ₹ 386.96 million, ₹ 311.36 million, ₹ 1,223.59 million, ₹1,145.92 million and ₹578.65 million, respectively. In the six-month period ended September 30, 2025 and Fiscal 2025, 63.61% and 54.88%, respectively, of our new customers were referred by large systems integrators and consulting partners pursuant to our Business Alliance Agreements and Referral Agreements. Our agreements typically allow us to partner with other businesses to refer customers who need advanced loyalty management solutions, thereby expanding our customer base. In the six-month period ended September 30, 2025, and September 30, 2024, and Fiscals 2025, 2024 and 2023, our customer acquisition cost (“**CAC**”) to acquire a new customer in a particular period/Fiscal and take the respective customers live on the platform was ₹ 654.81 million, ₹ 505.74 million, ₹ 1,067.95 million, ₹ 872.57 million and ₹ 535.85 million, respectively. Our Payback Period (defined as CAC divided by the result of New ACV multiplied by Subscription Gross Margin earned during the respective Fiscal. The overall result then is represented in number of months by multiplying the same by twelve) was 31 months, 31 months, 16 months, 14 months and 16 months in the six-month period ended September 30, 2025, and September 30, 2024 and Fiscals 2025, 2024 and 2023, respectively representing efficient utilization of sales and marketing and implementation efforts required to acquire new customers and take them live on our platform. We have expanded into new verticals in the last three Fiscals such

as healthcare with an American healthcare company as our customer that provides technology services, pharmacy care services and various direct healthcare services and also broadened our customer base in the CPG and BFSI verticals with the addition of Polycab India Limited (“Polycab”), an Indian adhesives manufacturing company and a European bank offering financial services focused on supporting personal and business growth. For further information, see “- Strong Sales Engine and Partnership Network Resulting in Addition of New Brands” on page 292. The chart below depicts our New ACV and Payback Period over the six-month period ended September 30, 2025 and September 30, 2024 and the last three Fiscals.

## Inorganic Growth

### *Scaling Through Strategic Acquisitions*

We have established a dedicated mergers and acquisitions (“M&A”) function to accelerate growth through strategic acquisitions in fragmented, high-value markets. With our last three acquisitions outside India, we have demonstrated our ability to migrate businesses onto our platform. We use a disciplined approach to acquisitions to scale and integrate them into our broader ecosystem. By selecting acquisitions that complement our existing capabilities, we ensure seamless integration and synergy through our suite of solutions and cross-selling options. Our methodical execution and focus on strategic fit enable us to expand while maintaining operational efficiency and coherence within our ecosystem. For instance, our strategic rationale for M&As is grounded in the significant potential of the North American market. According to the Zinnov Report, the TAM size for loyalty management is estimated to be USD 16.6 billion in Fiscal 2024 and is expected to reach USD 26.8 billion by Fiscal 2029. (Source: Zinnov Report, page 250). According to the Zinnov Report, the loyalty industry is undergoing a marked phase of consolidation, driven by its highly fragmented structure and an urgent need for technological modernization. The smaller vendors often lack the necessary scale, capital, and talent to transition to modern,

cloud-native architectures, leaving them ill-equipped to address the growing complexity and personalization demands of enterprise customers. (Source: Zinnov Report, page 243)

We believe we have the capability to further penetrate into this market with our API-first platform built for scale, already powering loyalty programs for 19 Fortune 500 companies, as of September 30, 2025.

We target companies with Enterprise Customers which have license subscription revenue models, with enterprise sales and prevalent presence in North America, for acquisition. According to the Zinnov Report, technological obsolescence and investment constraints remain an urgent issue in this fragmented market with smaller firms operating on outdated systems and lacking the capital necessary for essential technological upgrades. (Source: Zinnov Report, page 243) For our Company, acquiring contracts and migrating customers also acts as a CAC substitute, where the length of time taken for value extraction from migration of acquired customers is comparable to organic sales and marketing efficiencies represented by our CAC as a % of Net Revenue and Payback Period.

By migrating acquired customers to our platform, we aim to boost EBITDA and gross margins and generate additional free cash flows. We believe we achieve these by a) transitioning all the central functions which include finance, human resources, information security, information technology support, work place services and other corporate functions to India b) transitioning parts of research and technology development and maintenance functions to India c) migration of technology platform where most service-based deliverables are automated through software solutions as opposed to dedicated human workforce. We focus on the acquisition Payback Period. Integration of acquired companies, significantly through migration of acquired customers from their legacy platforms operating on on-premise data centres to our scalable cloud-native loyalty platform, enables us to expand the scope of our service offerings to newer geographies and industry verticals. For further information, see “ – Proven Playbook to Integrate and Turnaround Acquired Businesses” on page 294.

### Persuade Group

Given the nature of the United States loyalty market, we evaluated acquisition opportunities and completed our acquisition of Persuade Group in the United States in September 2021. Our acquisition of Persuade Group strengthened our presence in the United States and added certain Fortune 500 companies as our customers which

continue to be our customers, as of September 30, 2025. Our technology-first approach coupled with the experience of the Persuade Group's leadership team has helped enhance our presence in the United States. The acquisition of Persuade Group involved an investment of ₹ 1,858.33 million, and the total acquired revenue through Persuade Group acquisition was ₹ 388.94 million (where total acquired revenue represents revenue from operations earned by the Persuade Group from continuing operations in the fiscal in which the acquisition was completed, i.e., Fiscal 2022). Following acquisition, revenues of Persuade Group increased by 1.20% from ₹ 1,007.47 million in the six-month period ended September 30, 2024 to ₹ 1,019.52 million in the six-month period ended September 30, 2025 and by 113.26% from ₹ 505.52 million in Fiscal 2023 to ₹ 1,078.08 million in Fiscal 2024, by 96.83% to ₹ 2,121.95 million in Fiscal 2025, representing 35.08%, 28.38%, 19.80%, 20.53% and 35.47% of our revenue from operations in such Fiscals/ periods, respectively. Of the ₹ 2,121.95 million revenues generated by the Persuade Group in Fiscal 2025, 62.52%, i.e., ₹ 1,326.70 million was from new customers acquired post acquisition of Persuade Group. The remaining 37.48%, i.e., ₹ 795.25 million, earned from customers existing at the time of the acquisition in Fiscal 2022, represents a 3-year CAGR of 26.92% over the acquired revenue through Persuade Group acquisition of ₹ 388.94 million in Fiscal 2022. Of the ₹ 1,019.52 million revenues generated by the Persuade Group in the six-month period ended September 30, 2025, 62.48%, i.e., ₹ 636.98 million was from new customers acquired post acquisition of the Persuade Group. The remaining 37.52%, i.e., ₹ 382.54 million was earned from customers existing at the time of the acquisition in Fiscal 2022. For further information, see “ – Focus Our Go-to-Market Strategy on Larger Enterprises and Penetrate Further in the United States ” on page 300.

### Brierley and Partners

The acquisition of Brierley and Partners, Inc. (“B+P”) (renamed as Capillary Brierley Inc.) in April 2023 aligns with our strategy to strengthen our presence in the North American market. B+P helps companies grow their capabilities in customer engagement and loyalty and design consulting offerings, positioning them to provide more comprehensive integrated solutions to their consumers. B+P's brand recognition and expertise in loyalty strategy and design consulting complement our existing offerings. B+P has over 30 years of expertise in loyalty strategy and design consulting. Additionally, their proprietary Brierley Loyalty Quotient (“BLQ”) framework, a scoring system developed to evaluate and benchmark the effectiveness of loyalty programs across several key dimensions, further strengthens our offerings. This integration allows us to provide insightful loyalty solutions to our customers. The acquisition of B+P involved an investment of ₹826.30 million, including buyout costs, severance payouts, and migration expenses and the total acquired revenue through B+P acquisition was ₹ 1,450.06 million in Fiscal 2024. We believe this investment will yield returns through enhanced market presence and increased revenue streams.

The leadership team at B+P has personnel with experience in loyalty and customer engagement. B+P's customer base includes well-known brands such as Hertz, a Canadian-American chain of convenience stores, and an American multinational mass media corporation. Integrating these customers onto our platform has enhanced our market presence and customer reach. We are in the process of migrating B+P's customers to our platform, ensuring transition and minimal disruption.

### Rewards+ Acquisition

We developed a new product named *Rewards+*, utilising the assets of Digital Connect business acquired from Tenery LLC in June 2023. This acquisition allowed us to enhance our product suite with a rewards and redemption platform, enhancing our ability to offer personalized and engaging customer experiences and enable us to offer end-to-end loyalty solutions. This acquisition was also part of our strategic move to expand our presence in the European Union (“EU”) market, which according to the Zinnov Report, is a region with significant growth potential for loyalty and customer engagement solutions. (Source: Zinnov Report, page 265). We believe that the EU market represents a substantial opportunity for us to expand our customer base and drive revenue growth. *Rewards+* has a customer base that includes BFSI and telecommunication companies such as a Spanish multinational financial services company, a Canadian multinational banking and financial services corporation, and a British multinational telecommunications company. This acquisition involved an upfront investment of ₹ 277.33 million and the total acquired revenue was ₹ 852.30 million in Fiscal 2024. Following acquisition, revenues of *Rewards+* increased by 26.02% from ₹ 480.18 million in the six-month period ended September 30, 2024 to ₹ 605.10 million in the six-month period ended September 30, 2025 and increased by 19.86% from ₹ 852.30 million in Fiscal 2024 to ₹ 1,021.57 million in Fiscal 2025, representing 16.72%, 16.84%, 16.23% and 17.08% of our revenue from operations in such periods/years, respectively.

Of the ₹ 1,021.57 million revenues generated by *Rewards+* in Fiscal 2025, 91.12%, i.e., ₹ 930.82 million was

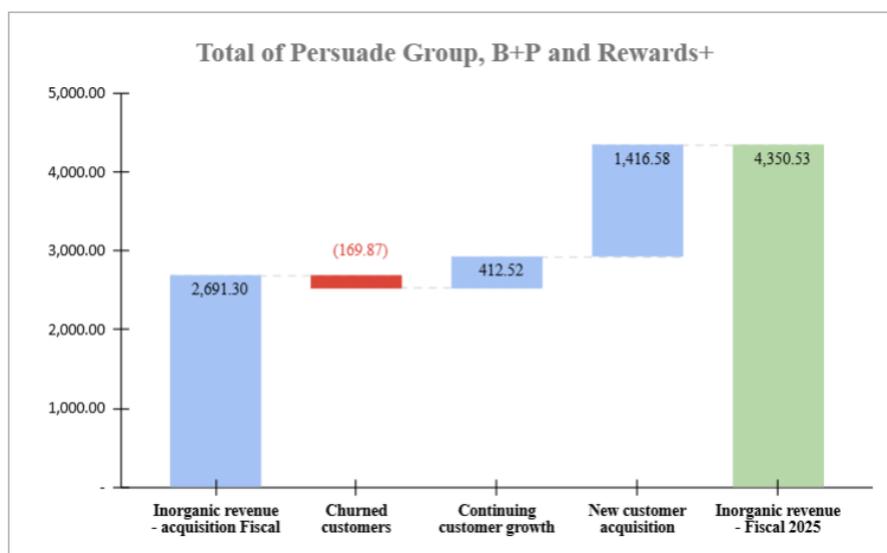

earned from customers existing at the time of the acquisition in June 2023 and that have continued their relationship with us post integration, which grew at 39.73% from ₹ 666.16 million earned from the same customers in Fiscal 2024, representing 78.16% of Rewards+ acquired revenue in Fiscal 2024. The remaining 21.84%, i.e., ₹ 186.14 million of acquired revenue in Fiscal 2024 was earned from customers who terminated their contracts with us through non-renewals leading to reduced revenues of ₹ 0.87 million from these customers in Fiscal 2025. Of the ₹ 605.10 million revenues generated by Rewards+ in the six-month period ended September 30, 2025, 80.80%, i.e., ₹ 488.94 million was earned from customers existing at the time of the acquisition in June 2023 and that have continued their relationship with us post integration.

### ***Overall inorganic growth in the last three acquisitions***

In Fiscal 2025, our three acquisitions, namely, Persuade Group, B+P, and the Rewards+ Acquisition, collectively generated revenues of ₹ 4,350.53 million, representing a 61.65% increase over the aggregate acquired revenue from operations of ₹ 2,691.30 million in the respective Fiscals in which the acquisitions were consummated. This expansion further demonstrates the efficacy of our post-merger integration strategy and the scalability of our platform. In the six-month period ended September 30, 2025, these acquisitions collectively generated revenues of ₹ 2,371.24 million.

Of the ₹ 4,350.53 million of revenues collectively generated in Fiscal 2025 by the aforementioned three acquisitions, 67.03%, i.e., ₹ 2,916.18 million was earned from customers that were existing at the time of the respective acquisitions and have continued their relationship with us post integration. This represents an average annual compounded growth rate of 16.48% over the acquired revenue earned from the same customers in the respective Fiscals in which the acquisitions were consummated and reflects our ability to retain and expand revenue from acquired customer relationships and validates the durability of our platform-led value proposition. Of the ₹ 2,371.24 million of revenues collectively generated in the six-month period ended September 30, 2025 by the aforementioned three acquisitions, 67.09%, i.e., ₹ 1,590.97 million was earned from customers that were existing at the time of the respective acquisitions and have continued their relationship with post integration. New customers acquired post acquisition contributed to ₹ 748.82 million and ₹ 1,416.58 million in the six-month period ended September 30, 2025 and in Fiscal 2025 of the ₹ 2,371.24 million and ₹ 4,350.53 million of revenues collectively generated in the six-month period ended September 30, 2025 and in Fiscal 2025 by the aforementioned three acquisitions underscoring the synergy between our core sales engine and acquired teams. This represents 31.58% and 32.56% of total inorganic revenue in the six-month period ended September 30, 2025 and in Fiscal 2025 and underscores our ability to derive incremental value beyond the existing customers acquired by embedding acquired assets into our go-to-market framework. The balance ₹ 31.45 million and ₹ 17.77 million of revenue from operations in the six-month period ended September 30, 2025 and in Fiscal 2025 was generated from customers who have churned through non-renewals or transition-related attrition. Along with the aforementioned ₹ 185.27 million revenue lost in Fiscal 2025 in Rewards+, the total inorganic churn represents a significant portion of the impact of loss of customers in our overall business. Given the nature of our platform-led migration strategy, churn will continue to be a structural feature of our inorganic growth model as is observed in the Rewards+ Acquisition and in ongoing discussions with acquired customers through the Persuade Group and B+P acquisitions. In particular, acquired customers operating on legacy, service-heavy platforms may not always align with our cloud-native, product-first delivery model, especially as we transition service-based deliverables to software-driven automation. This risk is factored into our mergers and acquisitions approach and acquisition pricing, and we remain focused on maximizing near-term value realization and margin improvement, while ensuring long-term alignment with our scalable technology stack.

Overall, the ₹ 2,371.24 million and ₹ 4,350.53 million revenue from operations earned in the six-month period ended September 30, 2025 and in Fiscal 2025 from these acquisitions is composed of: (i) ₹ 1,590.97 million and ₹ 2,916.18 million from continuing acquired customers, (ii) ₹ 748.82 million and ₹ 1,416.58 million from new customers acquired post acquisition, and (iii) ₹ 31.45 million and ₹ 17.77 million from churned customers, against an initial acquired revenue of ₹ 2,691.30 million. These performance vectors, namely, initial acquisition revenue, retained customer revenue, New ACV addition and churned customer monetization enable us to evaluate acquisition effectiveness. Reinforcing our strategy to not just acquire revenue, but to improve its quality, retention, and scalability through platform integration and operating leverage. The below infographic depicts our inorganic revenue from the following three acquisitions:

## Kognitiv group

We acquired Kognitiv group in May 2025. Kognitiv group is an established loyalty technology provider operating primarily in the North American market. Kognitiv group provides an enterprise-grade loyalty SaaS solution that powers programs across multiple sectors, including retail, travel, auto and hospitality, BFSI and telecommunications. Its customer base include prominent BFSI and telecommunication companies and geographically it has also added a few additional countries where we had no presence such as Australia and New Zealand.

Our post-acquisition strategy is designed in two distinct phases. Initially, we plan to operate Kognitiv group's flagship loyalty platform independently while we build feature parity and necessary enhancements into our own platform to ensure uninterrupted service for existing customers and enable a smooth transition. Subsequently, we will initiate migration of customers onto our own platform and thereby eliminate duplicate platform costs, achieve other operational synergies, and improve scalability across the unified customer base. In the six-month period ended September 30, 2025, Kognitiv group has generated ₹ 385.08 million of our revenues, representing 10.72% of our revenue from operations in the six-month period ended September 30, 2025.

## OUR STRENGTHS

### *Trusted Partner in Loyalty Solutions*

As of September 2025, we provide a comprehensive set of AI-led SaaS products for customer relationship management ("CRM") and the loyalty management industry. With a decade-long track record, according to the Zinnov Report, we have established ourselves as a leader in the global loyalty solutions industry in terms of email marketing tools, marketing automation platforms, loyalty solutions, rewards programs, account-based marketing tool ("ABM"), customer support tools, CDP, CRM and analytics / business intelligence tools. (Source: Zinnov Report, page 255). For further information see, "Industry Overview" on page 229. According to the Zinnov Report, our expertise, advanced technology, and ability to deliver measurable business impact have enabled a significant client base including Fortune 500 companies across industries. (Source: Zinnov Report, page 256) According to the Zinnov Report, unlike traditional solutions that focus on isolated aspects of loyalty (Source: Zinnov Report, page 256), our loyalty management platform (*Loyalty+*), connected engagement platform (*Engage+*), predictive analytics platform (*Insights+*), rewards management platform (*Rewards+*) and a CDP allow our customers to run end-to-end loyalty programs throughout the customer value chain, and provide an integrated approach that combines customer data, advanced analytics, and AI-driven engagement. This holistic

approach enables businesses to foster consumer relationships, drive customer retention, and increase revenue, reinforcing our market leadership.

We have been identified as a leader and a strong performer in various reports by Forrester in Fiscal 2023. We have been featured in multiple reports by Forrester, Gartner, Everest and Quadrant Knowledge Solutions. Some of the mentions are as below:

In our experience, we create exit barriers for customers by offering solutions that provide value and convenience. Our loyalty programs include instant rewards, personalized benefits, and robust security measures. These features make it difficult for customers to switch to competitors, as they would lose out on these incentives. This approach not only helps us avoid losing our customers to competitors but also expands share of wallet by fostering deeper loyalty and ongoing engagement. Our NRR rate was 115.42%, 143.48%, 121.25%, 112.68% and 139.01% for the six-month period ended September 30, 2025, and September 30, 2024, and Fiscals 2025, 2024 and 2023, respectively, with churn rate of 9.64%, 8.50%, 5.98%, 5.61% and 9.68% for the respective Fiscals. Our solutions have contributed to a consistent increase in the number of consumers on our platform consistently over the years. Number of consumers hosted by our platform has increased to 1.82 billion as of September 30, 2025 and 1.46 billion as of September 30, 2024 and 1.26 billion as of March 31, 2025 from over 1.13 billion, as of March 31, 2024 and over 0.97 billion, as of March 31, 2023.

### ***Comprehensive Solutions for Diverse Segments***

We provide a full-spectrum loyalty management platform designed to address a wide range of use cases across industries. Our core offerings include:

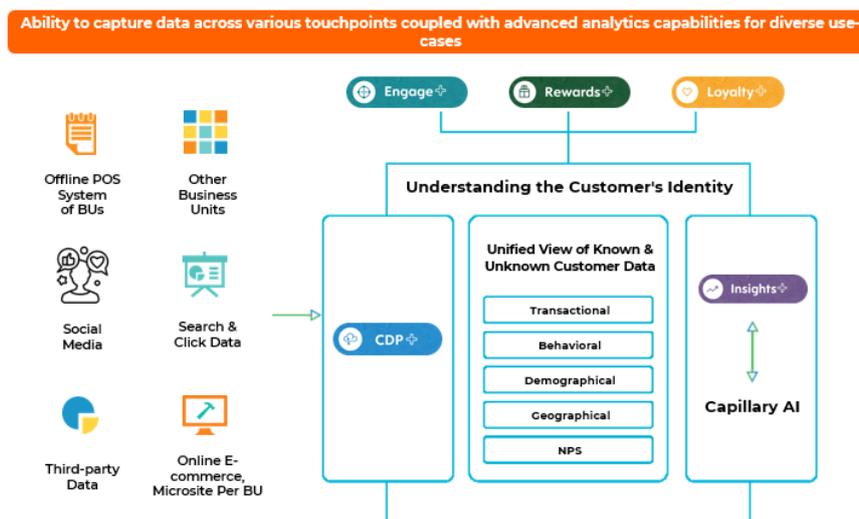

## Full-Stack Technology and Services Solution

- *Loyalty+*. A configurable, AI-powered loyalty program software that enhances brand engagement and repeat purchases.
- *Insights+*. An analytics platform that aggregates multi-channel consumer data, cleanses and enriches it, and provides actionable insights.
- *Engage+*. An advanced customer engagement tool leveraging AI to enable hyper-personalized interactions and marketing campaigns.
- *Rewards+*. A dynamic rewards marketplace offering gift cards, cashbacks, travel redemptions, and exclusive partner deals.
- *CDP*. Our customers are offered a comprehensive view of each consumer along with their transactional and behavioral activity across channels through our underlying CDP. It helps our customers decipher real-time interactions of consumers by applying AI and ML capabilities.

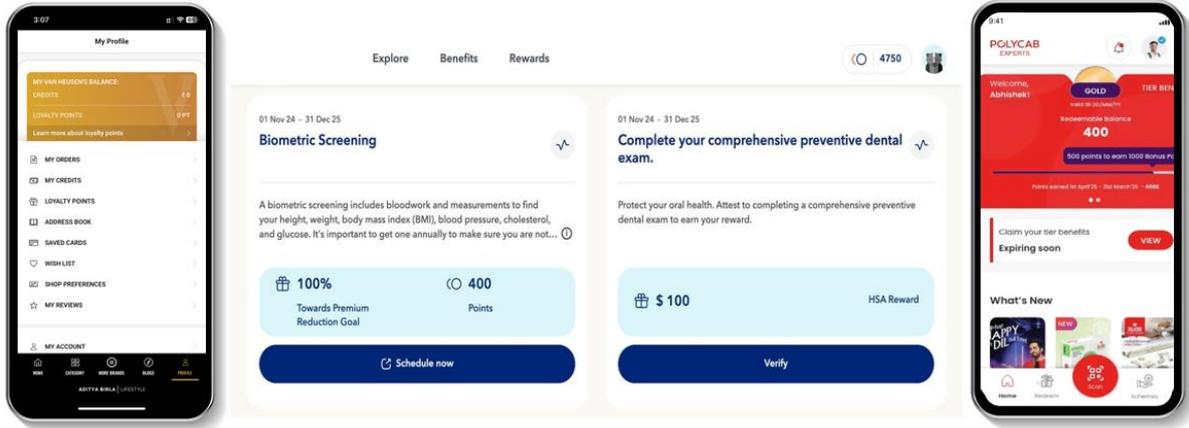

For further information see, “– Our Products” on page 270.

Our solutions are adaptable and scalable and are used across a diverse range of industries including retail, financial services, travel, hospitality, healthcare and consumer packaged goods.

Loyalty is different for different verticals. Our platform supports multiple use cases, enabling enterprises to integrate loyalty programs with their broader customer engagement strategies. Certain of these use cases are set out below:

- **Multiple loyalty program and coalitions for retailers and conglomerates.** Our multiple loyalty program functionality allows retailers and conglomerates to manage multiple loyalty schemes under one platform, and helps to customize rewards and integrate with existing systems. Additionally, our coalition loyalty programs enable strategic partnerships between non-competing brands, allowing consumers to earn and redeem points across all participating businesses. This approach enhances customer engagement and satisfaction by providing diverse and attractive rewards while maintaining flexibility and ownership for each business. This functionality has enabled us to secure Enterprise Customers including Tata Digital, one of UAE’s diversified conglomerates, and ABFRL. For further information, see “*Case Studies – Aditya Birla Fashion and Retail Limited*” on page 310.
- **Customer and fleet loyalty for energy retail.** Our ability to run customer loyalty and fleet loyalty simultaneously on the same platform has helped us acquire notable customers in the energy retail industry including global energy and petrochemical companies. Our loyalty programs for customers of energy retail outlets enable oil and gas companies to retain their consumers not only through their products and services but also through the overall experience of a fuel station. Whereas, fleet loyalty is similar but focuses on businesses with large vehicle fleets, such as trucking companies. These programs offer benefits like discounts to keep fleet operators satisfied and loyal to the platform. Both types of loyalty programs help businesses retain consumers and improve their operations.
- **Channel loyalty for consumer packaged goods.** In the CPG vertical, channel loyalty refers to strategies aimed at building relationships with retailers, distributors, and other intermediaries who help bring products to market. We offer a comprehensive loyalty management solution for CPG brands that focuses on engaging and incentivizing these channels. Our platform captures valuable data across various touchpoints, using AI and ML to provide predictive recommendations, and offers personalized incentives to drive desired behaviors. A number of CPG brands use influencer loyalty programs to reward people who help promote and sell a company's products, such as electricians, and electrical goods retailers. We introduced instant rewards, medical insurance, and scholarships, in their influencer loyalty program, making the program more attractive and beneficial. For further information, see “*Case Studies – Influencer loyalty program for a prominent Indian electrical goods company*” on page 309.
- **Earn-and-burn mechanism for healthcare loyalty programs.** We provide a comprehensive loyalty platform featuring an earn/burn mechanism linked to consumers’ health and fitness milestones, encouraging sustained healthy behavior. The platform supports both direct payers and those enrolled through employer programs, offering personalized incentives and a redemption marketplace. Consumers can earn rewards by achieving fitness goals and other wellness activities, which can then be redeemed across a curated catalog. This not only boosts engagement and retention but also aligns with preventative care objectives of consumers.
- **Card linked offers in banking, financial services, and insurance.** Our *Rewards+* platform powers loyalty solutions for commercial banks. Offering an ecosystem of rewards and redemption options, the platform also enables a suite of next-generation engagement features, personalized offers and messaging powered by AI and customer behavior analytics. These features enhance the consumer experience, turning routine banking interactions into dynamic, rewarding journeys that boost both retention and brand affinity. Additionally, our vast partner network allows banks to provide their consumers with a wide array of benefits, including card-linked offers, coupons, gift cards, cashback, and discounts and other offers on categories such as entertainment, travel, retail, and dining. These capabilities help financial institutions drive consumer engagement, retention, and transaction frequency.

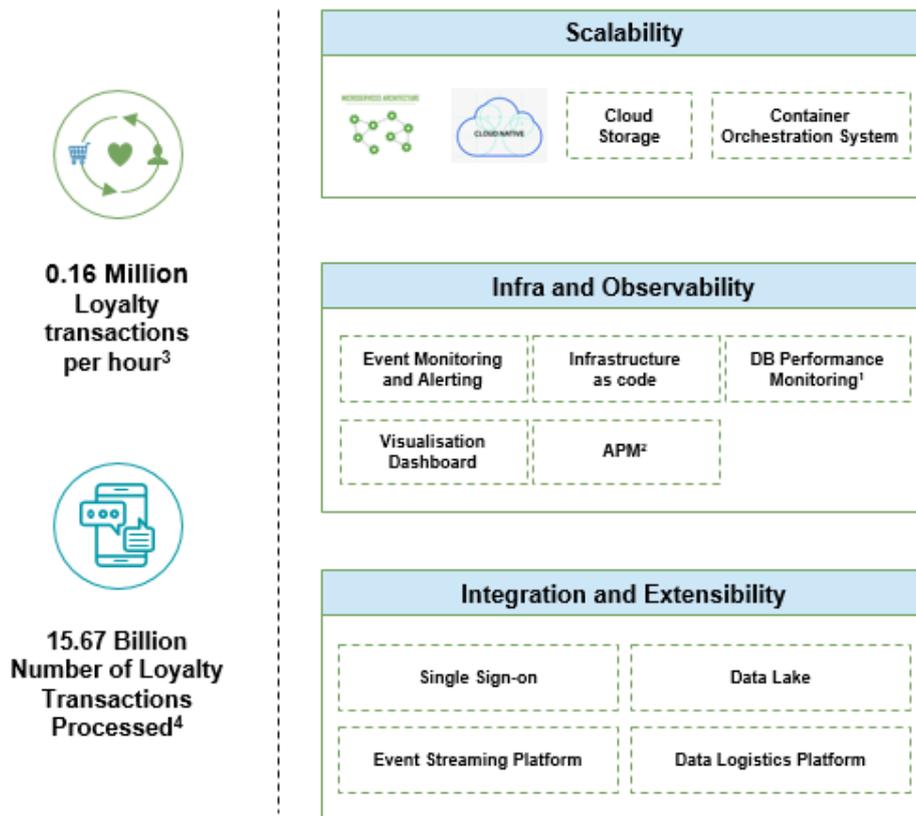

Positioning ourselves at the intersection of these areas with specialized use cases enables us to offer consolidated value to our customers. Further, our co-innovation model, involving collaboration with customers to design and improve loyalty programs leverages the insights and ideas of those who use the programs, ensuring they meet real time needs and preferences. By involving customers in the innovation process, we help create more effective and engaging loyalty solutions that drive satisfaction and retention. This provides our customers with the benefit of a consumer friendly, configurable platform and extensibility of an API-first platform that enables them to innovate and build on top of their existing solutions.

***Scalable Cloud-Based Infrastructure with Seamless Integration***

Our technology infrastructure is built on a scalable, cloud-based architecture that allows our customers to process large volumes of data on a real-time basis and ensure speed and stable performance on a large scale to accommodate and support the increased complexity and diversity of their business operations. Our cloud platform is built to integrate seamlessly with the customer’s existing technology stack.

The infographic below sets out the scalability of our platform.

(As of September 30, 2025)

As of September 30, 2025, we served 413 brands. The number of consumers on our platform have also increased consistently over the years. Number of consumers hosted by our platform was 1.82 billion, 1.26 billion, over 1.13 billion and over 0.97 billion, as of September 30, 2025, March 31, 2025, 2024 and 2023, respectively. We processed 0.16 million, 0.18 million, 0.15 million and 0.10 million loyalty transactions per hour in the six-month period ended September 30, 2025 and Fiscals 2025, 2024 and 2023, respectively. According to the Zinnov Report, our platform is proven to handle large volume of transactions and dynamic swings in usage thus garnering a significant client base including Fortune 500 companies. (Source: Zinnov Report, page 256) We have built an ecosystem that drives consumer loyalty and satisfaction. According to the Zinnov Report, the scale of our operations, coupled with brand trust, have contributed to our positioning as a loyalty partner for enterprises globally. (Source: Zinnov Report, page 256)

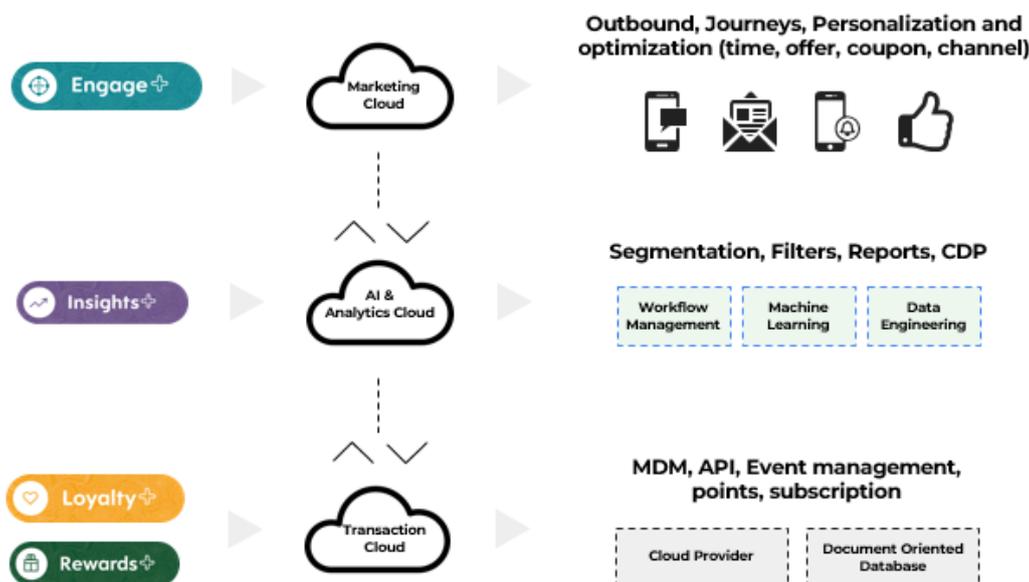

Key factors that differentiate our platform include:

- **Scalable cloud-based architecture.** Our cloud-native platform supports real-time data processing, ensuring speed and stable performance at scale.
- **Enterprise-grade security and compliance.** Our solutions comply with global standards such as Service Organization Control Type 2 (SOC2), Payment Card Industry Data Security Standard (PCI DSS), and ISO 27001:2013, offering superior security and reliability.
- **Vertical Focused Solutions.** We offer diverse vertical wide loyalty solutions. In the last three Fiscals added customers in the energy retail, CPG, healthcare and BFSI and telecommunications verticals.

- *Seamless API integrations.* Our API-first architecture ensures smooth interoperability with existing enterprise systems, enabling effortless deployment and customization.

We are able to integrate solutions offered by payments providers, marketing platform players, and analytics platforms with our platform. We amalgamate transactional systems that payment providers typically focus on with seamless workflow management, and AI-driven efficient data management and analytics.

### **Diverse Long-Term Customer Relationships with High Net Revenue Retention**

We serve a diverse customer base spanning a range of verticals including departmental stores, apparel, lifestyle and luxury, conglomerates, travel, auto and hospitality, consumer goods, healthcare and energy retail.

The following infographic depicts percentage of revenue from operations split across our customers in terms regions and percentage of revenue of operations concentration among top customers for the periods/years indicated:

In the six-month period ended September 30, 2025, and September 30, 2024, and Fiscals 2025, 2024 and 2023, revenue from our top 5 customers was ₹ 1,386.50 million, ₹ 1,177.97 million, ₹ 2,593.00 million, ₹ 1,604.65 million and ₹ 930.60 million, respectively while revenue from our top 10 customers was ₹ 2,000.67 million, ₹ 1,620.67 million, ₹ 3,511.78 million, ₹ 2,502.11 million and ₹ 1,392.18 million, respectively. The strength of our relationships with our customers allows us to generate additional revenues through up-selling and cross-selling opportunities.

Set forth below are details of our revenues derived from Enterprise Customers in the corresponding periods/years:

Particulars	Six-month period ended September 30, 2025		Six-month period ended September 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percent age of Revenue from Operations (%)	Amount (₹ million)	Percent age of Revenue from Operations (%)	Amount (₹ million)	Percent age of Revenue from Operations (%)	Amount (₹ million)	Percent age of Revenue from Operations (%)	Amount (₹ million)	Percent age of Revenue from Operations (%)
Revenue from Operations from Enterprise Customers	3,528.57	98.23%	2,793.18	97.26%	5,818.44	97.26%	5,125.64	97.61%	2,342.97	91.75%

We typically enter into long-term engagements with our customers. We have a history of high customer retention and derive a significant proportion of our revenues from repeat business built on our successful execution of prior engagements. The agreements we enter into with our customers are typically renewed on an annual basis or in some cases are for a period of three to ten years or unless terminated by either party to an agreement. The minimum term of contracts with our Company's top 10 customers during the six-month period ended September 30, 2025 and Fiscal 2025 is three years. Our long-term relationships with marquee clientele is demonstrated by the average length of our relationship of over 2.5 years with our top 10 customers, as of September 30, 2025.

A key aspect of our success is our ability to forge long-term relationships with global brands. A significant portion of our NRR is driven by growth of our existing customers, demonstrating our ability to grow alongside our customers. Our NRR has been robust and was 115.42% in the six-month period ended September 30, 2025, 143.48% in the six-month period ended September 30, 2024, and 139.01% in Fiscal 2023, 112.68% in Fiscal 2024, 121.25% in Fiscal 2025. Further, set forth below are details regarding our NRR for top 10 customers for the periods/years indicated:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023
NRR for top 10 customers (%)	126.57%	117.21%	155.26%	147.26%	158.93%

Our NRR underscores our effectiveness in increasing customer spend through upselling and cross-selling of solutions; enhancing engagement with existing brands, resulting in long-term contract renewals; and consistently adding new Enterprise Customers to our expanding portfolio.

We serve a number of customers that includes both enterprise and small and medium-sized businesses across industries and geographies and as September 30, 2025, we served enterprise customers including 19 Global Fortune 500 companies present across 47 countries. Certain of our key customers include Tata Digital, ABFRL, Dominos Pizza Indonesia, PT Blue Bird Tbk, Aditya Birla Fashion Limited, Arvind Fashions Limited, Metro Brands Limited, Puma Sports India Private Limited, Vishal Mega Mart and InterGlobe Aviation Limited. In the last three Fiscals, we have added Global Fortune 500 companies such as an American healthcare company that provides technology services, pharmacy care services and various direct healthcare services and a global energy and petrochemical company to our portfolio of customers.

We believe that we are core to our customers' success, well embedded in our customers' workflow and processes,

and therefore, resulting in entry barriers and switching costs. We experienced negligible churn rates of 9.64%, 8.50%, 5.98%, 5.61% and 9.68% for the six-month period ended September 30, 2025, and September 30, 2024, and Fiscals 2025, 2024 and 2023, respectively. Our multiple API integrations enable seamless connectivity with various brand systems, ensuring smooth operations and data flow. Our deep integration with brands ensures a high level of customer stickiness, with multi-year engagements reinforcing our value proposition.

### ***Strong Sales Engine and Partnership Network Resulting in Addition of New Brands***

We have a successful track record of adding new brands through organic growth and strategic acquisitions. Our customer acquisition strategy is driven by a combination of direct sales efforts and an extensive partner network. The acquisition and integration of Persuade Group in Fiscal 2021 enabled us to enhance our capabilities and expand our reach in new verticals such as healthcare, with the notable entry of an American healthcare company that provides technology services, pharmacy care services and various direct healthcare services. Over the last three Fiscals, we have added multiple new customers including Masan Group Corporation, a Spanish multinational financial services company, a Canadian multinational banking and financial services corporation, a British multinational telecommunications company, a retail and commercial bank in the United Kingdom, an Indian adhesives manufacturing company and an American healthcare company that provides technology services, pharmacy care services and various direct healthcare services. As of September 30, 2025, March 31, 2025, 2024 and 2023, we served 110, 98, 111 and 112 customers and 413, 393, 398 and 339 brands, respectively.

We are able to drive customer additions through:

- *Sales Infrastructure.* A dedicated go-to-market team across multiple geographies focusing on enterprise-level sales and strategic partnerships. As of September 30, 2025, our sales team comprised 14 employees and present across North America, Middle East, and South East Asia.
- *Partner Ecosystem.* Collaborations with system integrators and channel partners enhance our reach and credibility in the industry. As of September 30, 2025 we had 12 collaborations (system integrators and channel partners) and New ACV added from these collaborations were ₹ 246.16 million, nil, ₹ 671.53 million, ₹ 335.07 million, and ₹ 132.75 million in the six-month period ended September 30 2025, and September 30 2024 and Fiscals 2025, 2024 and 2023, respectively. Our partners are large system integrators and channel partners which have relationships with corporates across Asia.
- *Cross-Sell and Upsell Opportunities.* Our modular platform enables enterprises to scale their loyalty solutions, creating opportunities for expanded engagement.

Our ability to leverage both direct and indirect sales channels ensures consistent business growth and revenue potential.

### ***Artificial Intelligence-driven Innovation***

We leverage AI-driven innovation to enhance customer engagement and loyalty. Our solutions are powered by Artificial Intelligence Retail Analytics (“**aiRA**”), an advanced AI-powered assistant designed to enhance customer engagement, launched in May 2023. It uses generative artificial intelligence and retrieval-augmented generation to provide real-time answers to customer queries by accessing complex databases.

Over the last three years we have enhanced our AI-capabilities through feature enhancements like introducing both *Creatives Co-Pilot* and *Promotions Co-Pilot* in Fiscal 2024 our solutions portfolio. Our AI-driven innovations help us increase customer retention and engagement.

Our campaign and promotions AI co-pilots include:

*Creatives Co-Pilot.* Our *Creatives Co-Pilot* allows customers to provide instructions to our content recommendation bot. This bot generates a variety of messages based on requirements. Customers can adjust emotions, tonality, and other subtleties of each message to meet specific needs. Additionally, features such as multilingual support and availability across different campaign streams including email, SMS, social media and push notifications, enable customers to create effective and relevant marketing content. Our co-pilot mode supports real-time feedback capture and continuous improvement.

*Promotions Co-Pilot.* Our *Promotions Co-Pilot* creates promotions, milestones, rewards, and complex workflows,

saving time typically required in manual execution. The co-pilot generates inference based on the use case entered by the promotion builder and sets up the desired promotion with relevant rules, fields, points, and coupons.

To further our focus on improving our AI-capabilities we host events such as *Captivate* to explore how digital innovation is reshaping customer loyalty management.

We leverage AI to automate complex analytical solutions such as:

*Propensity modelling.* Used to predict customer behaviors and actions, such as the likelihood of making a purchase, redeeming a reward, or discontinuing a service. By analyzing historical data, these models help understand and anticipate customer actions. For example, we use propensity modeling to identify which customers are most likely to respond to a specific promotion or to predict which customers are at risk of churning. Enabling us to optimize marketing strategies, personalize customer experiences, and improve overall customer retention.

*Personalization, and micro-segmentation.* Personalization tailors programs to individual customer preferences using data like purchase history and online behavior, enhancing engagement and satisfaction.

*Offer and channel propensity.* Offer propensity predicts the likelihood of a customer responding to a specific offer, while channel propensity predicts the most effective communication channels for reaching them. These techniques help us deliver personalized and effective loyalty programs.

*Recency, Frequency and Monetary (“RFM”) segmentation.* Recency refers to how recently a customer made a purchase. Frequency measures how often a customer makes purchases, and monetary value indicates how much a customer spends. Together, these metrics form RFM segmentation, technique used to categorize customers based on their purchasing behavior, helping us tailor marketing strategies.

*K-means clustering.* A technique used to segment customers into distinct groups based on shared characteristics. By analyzing data points like purchase history, frequency, and spending, we identify patterns and create targeted loyalty programs for different customer segments. This method helps us in understanding customer behavior and tailoring marketing strategies to enhance engagement and retention

These functionalities help customers personalize their consumer engagement better and we believe that this sets us apart from our competitors.

Our approach to AI and ML innovation is led by:

*AI-Powered Copilots to Drive User Productivity:* We embed co-pilots across our product suite to assist marketers, CRM managers, and analysts. These co-pilots streamline workflows such as campaign creation, customer journey orchestration, and performance analysis – reducing execution time while increasing effectiveness.

*Proprietary ML Models for Customer Intelligence:* Our platform leverages proprietary ML models to power predictive use cases including churn risk, next-best action, and customer lifetime value. These models are trained on multiple data points across industries, helping brands deliver personalized and revenue-maximizing experiences.

*Conversational and Generative Interfaces:* We are integrating generative AI and large language models into our user interface to enable conversational experiences. This lowers the barrier for non-technical users, allowing them to perform complex tasks—such as audience segmentation or report generation—through intuitive, natural language interactions.

Enablers to effective AI and ML innovation include:

*Data Flywheel and Continuous Learning:* Our integrations across offline and digital channels create a virtuous data loop, where every consumer interaction enriches our ML models. We believe this self-reinforcing flywheel improves prediction accuracy and contextual recommendations over time.

*AI-First Product Development Approach:* We follow an AI-native product strategy where features like autonomous campaign suggestions, predictive offers, and automated testing are not add-ons but central to product design. This ensures our customers see measurable outcomes such as increased return on investment and stronger consumer retention.

*Scalable and Modular AI Infrastructure:* Our AI stack is designed to be modular, scalable, and compliant across geographies. This allows rapid deployment of models tailored to specific industries and use cases.

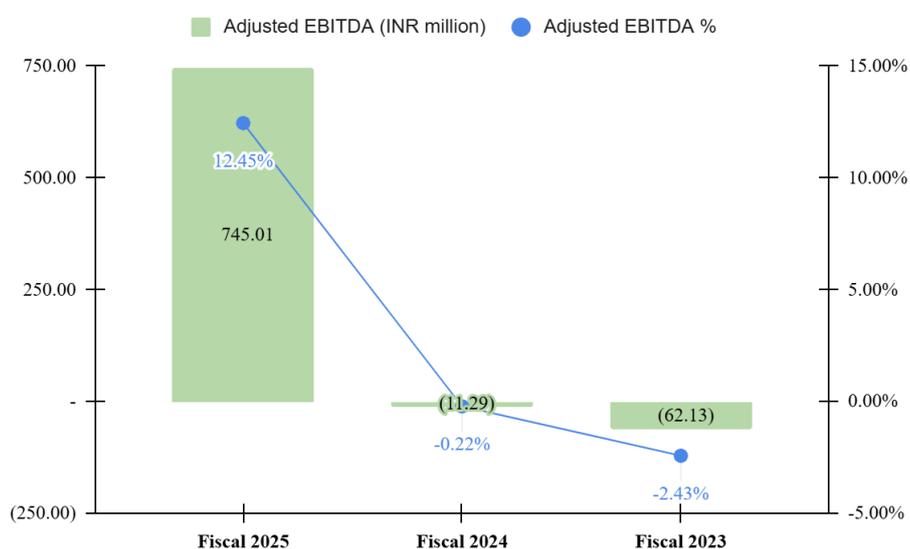

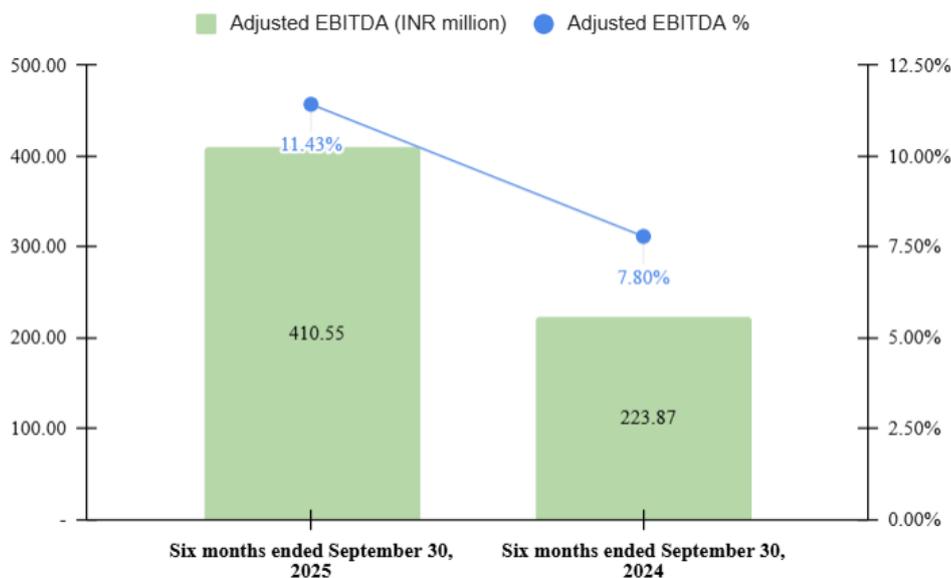

### ***Proven Playbook to Integrate and Turnaround Acquired Businesses***

According to the Zinnov Report, the TAM size for loyalty management market in North America is estimated to be USD 7.8 billion in Fiscal 2024 and is expected to reach USD 9.9 billion by Fiscal 2029. The loyalty industry is undergoing a marked phase of consolidation, driven by its highly fragmented structure and an urgent need for technological modernization. The overall global market is projected to grow at 10% in the next five years and North America holds the largest market share, followed by Europe and Asia Pacific. (Source: Zinnov Report, page 250)

Our disciplined approach to acquisitions has allowed us to scale businesses and integrate them into our broader ecosystem. For instance, following our acquisition of Persuade Group in September 2021, we established a significant presence in the United States. Persuade Group has multiple Fortune 500 companies as its customers. Certain customers of Persuade Group include an American sporting goods and entertainment chain store and a Japanese company manufacturing optical products. Our revenues from operations have grown from ₹ 2,553.72 million in Fiscal 2023 to ₹ 5,982.59 million in Fiscal 2025 at a CAGR of 53.06%, while Persuade Group has delivered revenues of ₹ 1,007.47 million, ₹ 1,019.52 million, ₹ 2,121.95 million, ₹ 1,078.08 million and ₹ 505.52 million for the six-month period ended September 30 2025, and September 30 2024 and Fiscals 2025, 2024 and 2023, respectively. We have scaled our operations to handle increased transaction volumes and optimize costs.

In addition, our acquisition of B+P in Fiscal 2024 resulted in the business improving its contribution margin to ₹ 314.35 million at 42.10% in the six-month period ended September 30, 2025 and ₹ 134.53 million at 11.15% in Fiscal 2025 from ₹ 10.27 million at 1.69% in the six-month period ended September 30, 2024 and ₹ (51.95) million at (3.58)% in Fiscal 2024, respectively, thereby enhancing our overall profitability. Similarly, following the addition of *Rewards+* to our product suite following the acquisition of assets of Digital Connect business of Tenergy LLC in June 2023 (subsequently developed and named as *Rewards+*), the business achieved break-even post-acquisition through operational efficiencies and revenue expansion, the contribution margin for *Rewards+* improved from ₹ 20.01 million at 4.17% in the six-month period ended September 30, 2024 to ₹ 177.49 million at 29.33% in the six-month period ended September 30, 2025 and ₹ (16.26) million at (1.91)% in Fiscal 2024 to ₹ 151.85 million at 14.86% in Fiscal 2025.

We have achieved the turnaround in EBITDA and contribution margin by transitioning all the central functions which include finance, human resources, information security, information technology support, workplace services and other corporate functions to India, transitioning parts of research and technology development and maintenance functions to India, and migration of technology platform where most service-based deliverables are automated through software solutions as opposed to dedicated human workforce. The infographic below depicts our Adjusted EBITDA and Adjusted EBITDA Margins for the periods/years indicated.

Further, migrating B+P customers to our platform has led to significant synergies, enabling these customers to leverage our advanced AI-driven solutions, enhancing our marketing and customer engagement strategies. By integrating with our platform, B+P customers benefited from personalized campaign automation, real-time insights, and improved efficiency. This migration fostered customer loyalty, streamlined operations, and drove business growth through collaboration and innovation.

\*Kognitiv includes acquisition of shares of Kognitiv Solutions Inc., incorporated in Canada and assets consisting of business intellectual property rights of Loyalty Solutions Holdings US Inc. and certain assets and liabilities of Kognitiv US LLC with effect from May 1, 2025.

<sup>^</sup> We developed a new product named Rewards+, utilising the assets of Digital Connect business acquired from Tenerity LLC

# The entity was closed on June 2, 2023 on account of internal restructuring and there was no continuing business in the entity.

This acquisition from one of our promoters was for the purposes of consolidation of businesses in the United States and does not form part of our strategic acquisitions under our inorganic growth path.

For further information, see “History and Certain Corporate Matters - Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamation, any revaluation of assets, etc. in the last 10 years” on page 340.

We have developed a playbook for managing acquisitions and their integration. This framework includes strategies for offering discounts and managing customer transitions. Our ability to identify acquisition targets, integrate them seamlessly, and drive sustained growth underscores our strength in market consolidation and strategic expansion.

### **Strong Financial Performance with Consistent Growth and Operating Leverage**

We have demonstrated consistent growth and operational efficiency, driven by our strategic initiatives and a strong market presence. Our revenue from operations increased to ₹ 3,592.18 million in the six-month period ended September 30 2025 from ₹ 2,871.77 million in the six-month period ended September 30 2024 and increased to ₹ 5,982.59 million in Fiscal 2025 from ₹ 5,251.00 million in Fiscal 2024 and ₹ 2,553.72 million in Fiscal 2023, at a CAGR of 53.06%, while our restated profit/ (loss) before tax for the year turned positive in Fiscal 2025 and increased to ₹5.16 million in the six-month period ended September 30 2025 from ₹ (112.12) million in the six-month period ended September 30 2024 and increased to ₹ 106.82 million in Fiscal 2025 from ₹ (752.60) million in Fiscal 2024 and ₹ (948.89) million in Fiscal 2023 at a CAGR of 45.35%. Our Net Revenue increased to ₹ 3,592.18 million in the six-month period ended September 30 2025 from ₹ 2,871.77 million in the six-month period ended September 30 2024 and increased to ₹ 5,982.59 million in Fiscal 2025 from ₹ 4,833.97 million in Fiscal 2024 and ₹ 2,070.96 million in Fiscal 2023, at a CAGR of 69.97%.

We have a significant improvement in our EBITDA performance, turning positive with an EBITDA of ₹ 398.22 million in the six-month period ended September 30 2025 from ₹ 240.72 million in the six-month period ended September 30 2024, ₹785.73 million in Fiscal 2025 from ₹ (14.91) million and ₹ (583.39) million in Fiscal 2024 and 2023, respectively. This turnaround reflects our growth and operational focus as we have scaled through our organic businesses demonstrating efficiencies in our net revenue retention and new customer acquisition growth paths, with our strategic cost optimizations also beginning to yield results enabling margins to expand meaningfully. Our inorganic businesses have also witnessed a turnaround in EBITDA achieved through transitioning central functions which include finance, human resources, information security, information technology support, workplace services and other corporate functions to India, transitioning parts of research and technology development and maintenance functions to India, and migration of technology platform where most service- based deliverables are automated through software solutions as opposed to dedicated human workforce.

Our business model is anchored by multi-year subscription agreements, ensuring a stable and predictable revenue stream. We focus on acquiring customers and retaining them and increasing their spending with us through expanding the number of users, and transactions that rely on our platform, up-selling and cross-selling additional solutions. This long-term commitment from our customers reflects their trust in our solutions and our ability to deliver sustained value. For instance, provide Tata Digital with a platform that integrates into multiple workflows of the Tata Neu ecosystem, thereby, allowing customers to earn rewards in the form of 'neu coins' across various brands and redeem the earned rewards across specified brands on the platform. We have leveraged expansion in the number of users, and transactions of our customers, which has significantly contributed to our revenue growth.

With senior management from our prior acquisitions continuing to stay in our Company further strengthens our leadership team. The addition in Fiscal 2024 of our United States go-to-market team who have expertise in the United States loyalty management space will enable us to ramp up our operations and foray deeper into the United States loyalty market. We are supported by our diverse employee base spread across nine countries and as of September 30, 2025, we had a team of over 737 full-time employees which includes 260 employees of the research, development and maintenance team.

We have also benefited from investments by Peak XV Partners and AVP I Fund in our Promoter, AVP Fund II, Ronal Holdings LLC and Trudy Holdings in our Company and Filter Capital India Fund I in both our Company and our Promoter. Our investors provide financial backing and strategic guidance, reinforcing our position in the loyalty industry.

## **Strategies**

The strategies described below have been approved by way of a board resolution passed by our Board of Directors at their meeting held on June 18, 2025 and October 28, 2025, respectively.

### ***Focus Our Go-to-Market Strategy on Larger Enterprises***

According to the Zinnov Report, the TAM size for loyalty management is estimated to be USD 16.6 billion in Fiscal 2024 and is expected to reach USD 26.8 billion by Fiscal 2029, projecting a growth rate of 10%, with all the regions across the globe registering a growth rate of more than 5% from years 2024 to 2029. (*Source: Zinnov Report, page 250*). According to the Zinnov Report, the TAM for loyalty management for industry segments such as retail, travel and hospitality and CPG is estimated at 40.6%, 34.1% and 9.5% of the global loyalty market, respectively, in Fiscal 2024. (*Source: Zinnov Report, page 250*)

Our revenue from operations for the six-month period ended September 30, 2025 and Fiscal 2025 was ₹ 3,592.18 million and ₹ 5,982.59 million, respectively, the latter was less than 0.45% of the TAM for loyalty management. We intend to capitalize on this opportunity by focusing our go-to-market strategy on new Enterprise Customers and on our existing Enterprise Customers such as Tata Digital, ABFRL, and one of UAE's diversified conglomerates. This focus on Enterprise Customers will help us continue growing profitably and improve key financial metrics such as New ACV added, Payback Period and Subscription Gross Margin.

Further, we believe in our experience, working with partners helps us get entry into large enterprises that are focused on digital transformation. A dedicated team is focused on building relationships with potential partners to gain access to their customer base. We are also strengthening relationships with industry analysts to increase pipeline visibility and improve New ACV contribution. Additionally, in Fiscal 2025, we have established one customer advisory board for India and Middle East and are building two more customer advisory boards to cater to South-east Asia and US/UK customers. These customer advisory boards comprise a group of selected customers who provide strategic insights and feedback to help shape our products and services. This board helps us ensure that our solutions align with customer needs and industry trends. Members of the advisory board share their experiences, challenges, and suggestions, enabling us to continuously improve and innovate our offerings.

### ***Focus on Improving Revenue from Existing Clients***

Our NRR remained consistent in the six-month period ended September 30, 2025, and September 30, 2024, and the last three Fiscals and was 115.42%, 143.48%, 121.25%, 112.68% and 139.01%, respectively. We have significant headroom for growth within our existing customer base and plan to improve NRR by gradually removing discounts, increasing usage-based revenues, and transitioning more customers to a loyalty value delivery-based model or a transaction slab-linked pricing model, wherein a loyalty value delivery-based model charges based on the value provided through rewards and personalized experiences, while a transaction slab-linked pricing model sets prices based on the number of transactions, adjusting in tiers as activity increases. Both models ensure fair pricing aligned with benefits or business volume. These pricing models will help drive revenue

expansion from our existing accounts.

We also intend to grow through a 'land-and-expand' strategy, cross-selling additional products and services to existing customers. Our farming as a percentage of New ACV was 58.18% in the six-month period ended September 30, 2025 and 73.99% in the six-month period ended September 30, 2024, 75.26% in Fiscal 2025, compared to 25.56% in Fiscal 2024 and 66.85% in Fiscal 2023, wherein Farming refers to incremental ARR derived from existing customers by way of additional brands, geographic coverage and incremental product offerings. The introduction of additional products and new product features such as promotion engine, development of *Rewards+*, aiRA and AI-capabilities including promotions and creatives co-pilots, will enhance this approach. Additionally, our transaction-linked pricing model enables revenue growth as customers expand geographically or into new business lines. For instance, one of our customers, one of Europe's fashion retailers, operating an extensive network of stores and digital platforms, has expanded into new countries in Fiscal 2025 expanding its revenue contribution to us through Category III factors. With its expansion into four new countries in Europe in Fiscal 2025, revenue from operations from this customer increased by 11.04% to ₹ 73.44 million in the six-month period ended September 30, 2025 and 62.92% to ₹ 137.14 million in Fiscal 2025.

### ***Expand Presence in the United States and Pursue Further Acquisitions in North America and Other Regions***

According to the Zinnov Report, the North American loyalty management market is estimated to be USD 7.8 billion in 2024. Numerous small to mid-sized companies have cultivated dedicated customer bases within the loyalty sector, However, their limited resources often hinder their ability to invest in modernizing platforms. Many of these smaller firms operate on outdated systems and lack the capital necessary for essential technological upgrades, making them prime candidates for acquisition by larger entities seeking to enhance their service offerings. (Source: Zinnov Report, page 243) As part of our strategy, we will target companies that have a strong enterprise sales presence and a well-established US footprint and selectively expand into evolved markets such as Europe, following a similar strategy.

Pursuant to acquiring Persuade Group in September 2021, we have experienced significant growth in North America. Persuade Group's revenues increased from ₹ 1,007.47 million in the six-month period ended September 30, 2024 and ₹ 1,019.52 million in the six-month period ended September 30, 2025 and from ₹ 505.52 million in Fiscal 2023 to ₹ 1,078.08 million in Fiscal 2024, ₹ 2,121.95 million in Fiscal 2025, representing 35.08%, 28.38%, 19.80%, 20.53% and 35.47%, of our revenue from operations in such years/ periods, respectively. Given Persuade Group's strong customer base, including Fortune 500 companies, and cash-positive operations, we intend to further invest in North America by expanding partnerships with system integrators and channel partners.

Focusing on our expansion in the United States we acquired B+P in April 2023 and Kognitiv in May 2025 operating primarily in the United States and North American markets. We also plan to increase brand awareness through industry events, marketing initiatives, and analyst engagement. A major milestone for our Company has been securing a contract with an American healthcare company that provides technology services, pharmacy care services and various direct healthcare services, which marks a significant step in strengthening our US market presence. This contract reinforces our credibility in the healthcare and enterprise loyalty space, allowing for further expansion and partnerships within the sector.

Our M&A function continues to follow a disciplined approach to evaluate acquisition opportunities aligned with our growth objectives. A key part of our strategy is CAC substitution by leveraging acquired companies' customer bases to reduce our cost of customer acquisition. Post-acquisition, we aim to enhance profit margins by improving operational efficiencies, integrating customer data, and streamlining processes. Our financial strategy involves a balanced use of debt and equity to optimize capital structure and maximize returns. We closely monitor financial metrics such as return on capital employed, internal rate of return, and payback period to ensure strong financial performance from our acquisitions. We will continue exploring inorganic growth opportunities in North America including evaluation of potential acquisition opportunities in the loyalty management space and related businesses to cater to customers in key verticals such as food and beverages, travel and hospitality and consumer packaged goods and selectively expand into evolved markets such as Europe, following a strategy similar to our US market approach. The *Rewards+* Acquisition aligns with this vision, and we plan further roll-ups in adjacent markets.

### ***Drive Expansion through Addition of New Industry-Specific Solutions***

We are expanding our platform capabilities by developing industry-specific loyalty solutions that cater to the unique needs of sectors such as conglomerates, energy retail, BFSI and travel and hospitality. In 2025, we added healthcare as a new vertical and we generated revenues ₹ 1,509.08 million in the six-month period ended

September 30, 2025 and ₹ 2,780.90 million in Fiscal 2025 from our healthcare, BFSI, telecommunications and CPG verticals, representing 42.01% and 46.48% of our revenue from operations in the six-month period ended September 30, 2025 and Fiscal 2025. Our entry into new verticals is through a combination of inorganic expansion and organic growth through new customer acquisitions. These enhancements allow us to diversify our revenue streams beyond the retail sector and strengthen our value proposition. Over the last three Fiscals, we have expanded our verticals to healthcare, energy retail, CPG and BFSI and telecommunications and we intend to enter into new verticals such as logistics, gaming and entertainment.

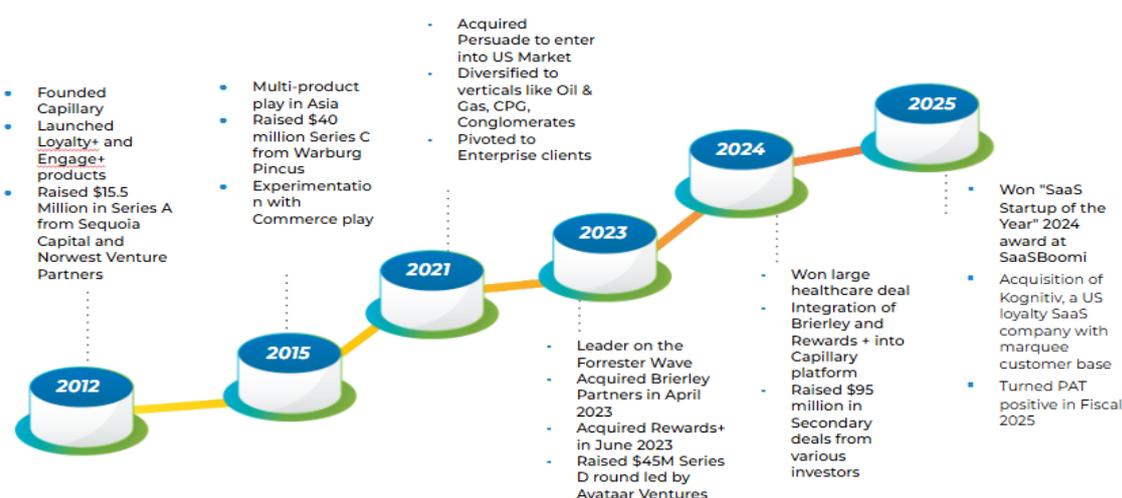

**Continue Investing in Artificial Intelligence-Driven Enhancements and Advanced Customer Engagement Solutions**

Our continued success is driven by our technology platform, AI-powered capabilities, and advanced analytics. We have built proprietary intellectual property, including having granted patents and several ongoing patent applications. To sustain our technology leadership, we are investing in research and development and AI-driven product development.

In in the six-month period ended September 30, 2025, and September 30, 2024 and Fiscals 2025, 2024, and 2023, we invested ₹ 788.48 million, ₹ 665.46 million, ₹ 1,286.08 million, ₹ 1,472.33 million, and ₹ 641.61 million, respectively, in research and design, product and platform development and maintenance, which accounted for 21.95%, 23.17%, 21.50%, 28.04%, and 25.12% of our revenue from operations in the respective Fiscals. Our technology team, comprising 260 full-time employees, as of September 30, 2025, has developed AI-driven personalization tools, a next-generation CDP, and a promotion engine that differentiate us from competitors. Our research development and maintenance team has grown from 190 employees in Fiscal 2023 to 260 employees in the six-month period ended September 30, 2025. Further, we differentiate ourselves by offering CDP as a complementary solution, enhancing our overall service offering. By leveraging AI and machine learning, we help brands gain actionable insights, improve targeting, and create more effective marketing strategies. We will continue expanding our product suite by integrating predictive analytics, ML models for customer insights, and automated engagement workflows. These enhancements will enable more precise customer segmentation, real-time offer personalization, and smarter loyalty program management across industries and geographies.

By executing these strategic initiatives, we aim to solidify our leadership in the global loyalty market, drive sustainable growth, and achieve long-term profitability.

**OUR JOURNEY**

**OUR PRODUCTS AND SERVICES**

Our product suite provides an omni-channel experience for consumers. All our products are powered by Artificial Intelligence Retail Analytics (“aiRA”) which is our next-generation AI engine. aiRA solves complex analytical problems using advanced data science and ML algorithms and feeds the stream of actionable insights to all the products on the platform enabling personalized loyalty program initiatives and customer engagement.

Our comprehensive loyalty and engagement product suite includes:

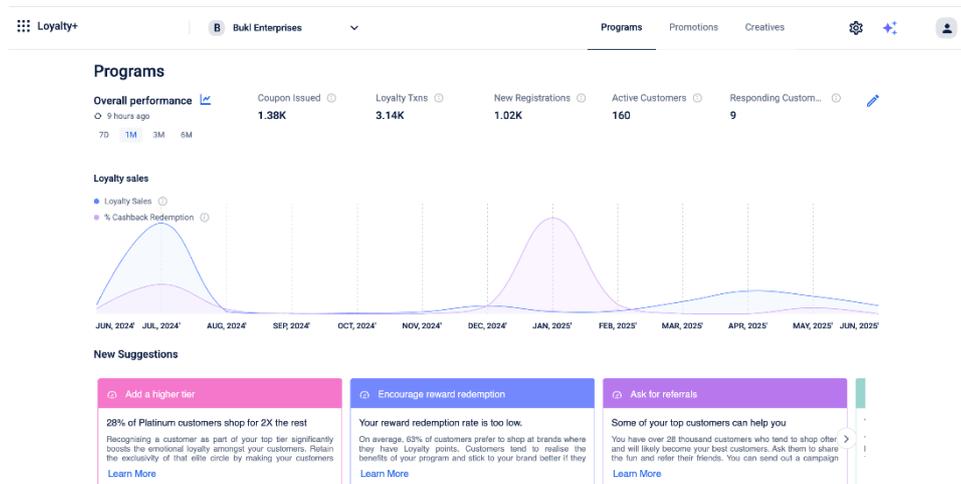

## Loyalty Program Management Platform

### Loyalty+

*Loyalty+* is a configurable product module that enables our customers to drive customer advocacy through personalised loyalty programs. It focuses on mobile device management, API, event management and point subscription.

#### Key capabilities include:

- **Loyalty Nudges.** The AI-powered smart insights and suggestions powered by the aiRA platform enable *Loyalty+* to provide actionable nudges to the marketers and loyalty program managers to optimize the programs and improve the customer experience to deliver better value to the businesses as well as the customers.

- **Incentives Manager.** *Loyalty+* allows marketers to customize rule-based reward schemes and configure various incentives with the incentives manager such as points, coupons, stamps, coins, cashbacks, social rewards like badges and paid subscription program options to design loyalty programs that work for their brand and consumers. The incentives can also be expanded by adding any other sponsored rewards and allowing businesses to choose from a catalog of external rewards from our rewards marketplace.
- **Program Manager.** The product comes with in-built support for different types of loyalty programs that can be configured by marketers to drive personalized loyalty consumer journeys across multiple channels. *Loyalty+* rewards customers for their transactional and non-transactional behavior (like checking into a store, playing a game and updating their profile). The product can connect to multiple other systems through APIs and has an in-built event management framework to identify, ingest and trigger actions on transactional, non-transactional and behavioral events.
- **Advanced Loyalty Templates.** The advanced loyalty templates enable programs like loyalty programs for B2B businesses- channel loyalty, multi-loyalty programs, coalition or partner loyalty programs, supplementary, and group loyalty programs like friends and family or employee loyalty programs.
- **Gamification.** The incentives manager also powers gamification mechanics by enabling milestones-based conquests, competitive leaderboards and referral bonuses to drive customer progression and also allows creating standard and custom chance-based games for customer engagement and rewards.

## Retail Analytics Platform

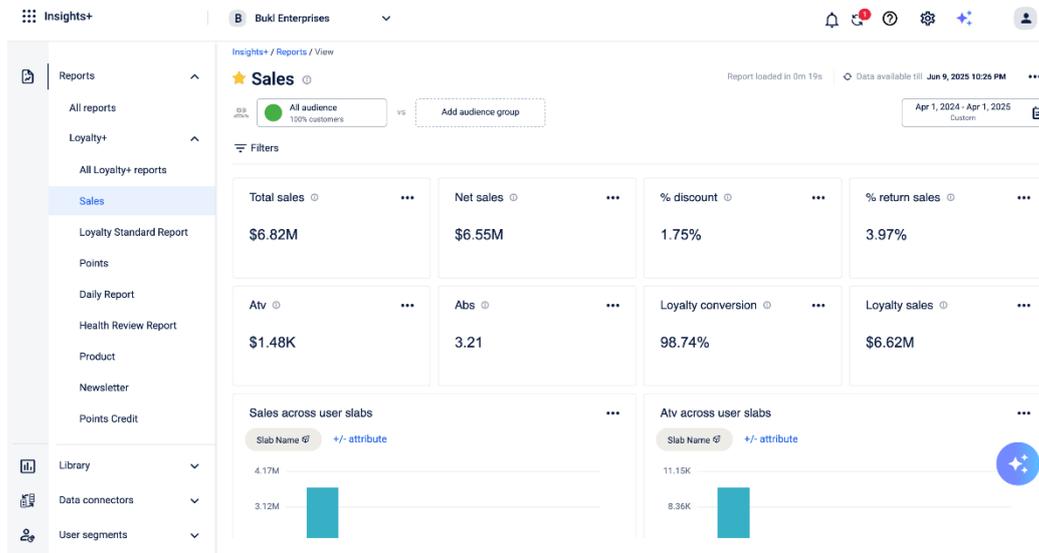

### Insights+

*Insights+* helps our customers attain a deeper understanding of their consumers by using data analytics and

methodologies to understand the true impact of loyalty on brands and profile consumers for more efficient marketing strategies.

Key capabilities include:

- **1-Click Segmentation and Audience Filtering.** Our in-built tracking tool offers various segmentation tools such as the segmentation of customer profiles using a combination of filters covering transactional and behavioral parameters for detailed analysis of customer cohorts. The comprehensive set of customer attribute-based filters powered by *Insights+* also help in executing optimized and personalized customer engagement.

- **Propensity Modeling.** The various propensity models created on *Insights+* using our aiRA engine also help analyze and refine customer targeting. Possible propensity models include the propensity to make a transaction/ buy a particular product, lapse, redeem points or coupon, transact at a particular store, transact at a particular channel, and transact/respond to a communication.
- **AI for next best Action.** Based on the trends/movements of consumer metrics, marketers can save user segments from the *Insights+* dashboard or launch a marketing campaign or a new promotion and take corrective action to improve the right metrics.

## Omni-channel Marketing Automation Platform

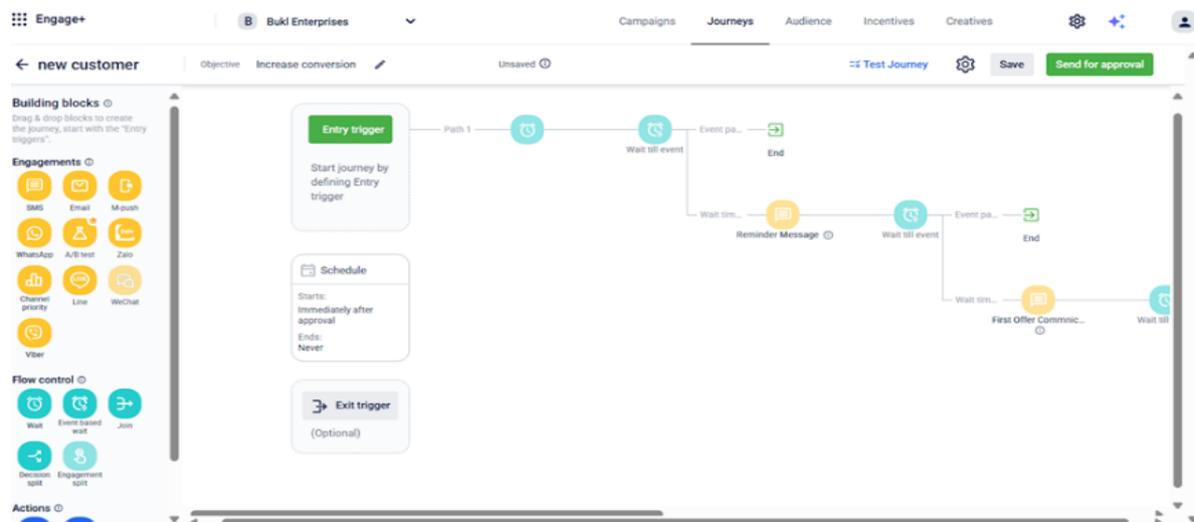

### Engage+

*Engage+* is an AI-powered solution for customers to increase the effectiveness of their marketing efforts and customer engagement with end-to-end campaign management. With *Engage+*, customers are able to accurately target customers on channels where they are most active and improve conversion by personalizing products, content and offers based on demography, browsing pattern, purchase history and product preferences.

Key capabilities include:

- **AI Personalization.** Our AI-personalization module X-Engage powered by aiRA picks the best channel mix for each customer by analysing multiple factors like reachability, responsiveness score and conversion probability. Our cross channel marketing platform brings together social media ads and other digital campaigns to offer collective insights for customers in their plans to scale up campaigns for thousands of consumers with the right cross-channel messaging mix. aiRA also powers various advanced audience filters based on the propensity modelling that personalize the campaigns by picking the customers to target with the personalized messages and offers.

- **Omni-channel Promotions.** Omni-channel promotions enable personalized promotions at customer, cart, catalogue and or store/channel level. Targeted offers and real-time evaluations of customer activities & purchases enable brands to optimize discounts and delight the customers with seamless incentivization at the point of sale- online or at offline stores.
- **Lifecycle Journeys.** Lifecycle journey builder helps brand build relationships and drive customer loyalty through a planned always-on marketing approach of integrated communications across multiple digital channels. With various templated lifecycle journeys, marketers ensure customers are engaged in the most personalized manner possible depending on the lifecycle stages they are in.

## Rewards Management and Engagement Platform

### Rewards+

*Rewards+* is a comprehensive loyalty and rewards solution designed to enhance customer engagement and drive profitability for businesses. It offers a wide range of curated, high-quality rewards and redemption options, including gift cards, cashback, travel vouchers, and exclusive offers from global brands. The platform leverages AI and ML to deliver personalized experiences, ensuring that each customer receives relevant and engaging rewards.

Key features of *Rewards+* include:

- *Extensive Global Rewards Network.* Access to a vast array of rewards and offers tailored to customer preferences.
- *Personalized Customer Communication.* AI-driven personalization to enhance customer interactions and increase engagement.
- *In-depth Analysis and Reporting.* Advanced analytics and automated reporting to provide actionable insights.
- *Customer Retention.* Tools to build and maintain strong relationships with customers, driving loyalty and repeat business.
- *Omni-channel Engagement.* Seamless integration across multiple channels to reach customers wherever they are.
- *Behavioral Targeting.* Use of customer data creates targeted campaigns and offers that resonate with individual preferences.
- *Modular and Customizable Platform.* Flexible design to fit seamlessly into existing tech stacks and support diverse business needs.
- *24/7 Support.* Hybrid contact center offering round-the-clock assistance to ensure a delightful customer experience.

In addition to being a reward marketplace, *Rewards+* is a tool for developing relationships with customers, driving long-term engagement, and fostering emotional loyalty.

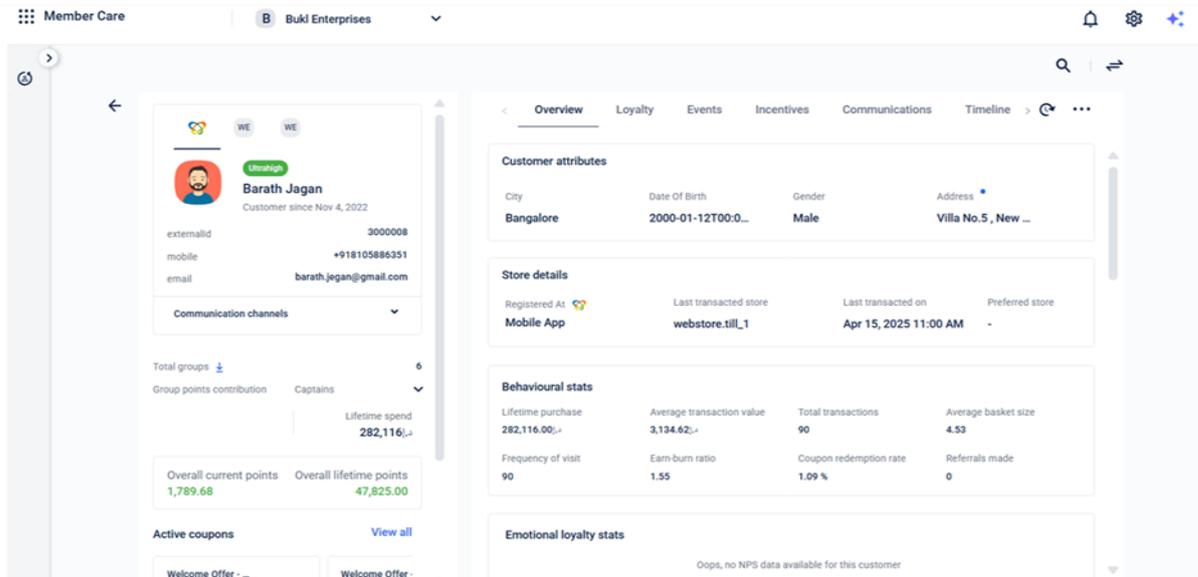

### Customer Data Platform

Our CDP creates persistent, unified and enriched customer data that is accessible to other products and systems. Our CDP also ensures adherence to regional and industry-specific customer data privacy and security regulations. Having a CDP helps enhance our proposition for our other offerings.

- *Customer single-view.* Consumer data collected across various first-party and third-party sources is cleansed

and deduplicated for multiple consumer records, and enriched with consumer attributes based on behavioural and transactional activity to create every customer's rich profile. This single-view of every customer empowers the marketers to incentivize and engage with the customers in the most meaningful manner with *Loyalty+* and *Engage+* solutions.

- **Enrich Customer Data with aiRA.** The various customer attributes and propensities computed by aiRA-driven AI and data sciences models are updated for every customer's profile automatically and updated regularly to create an updated and enriched customer profile with actionable customer-level insights.

- **Data Integration.** Our CDP allows real-time, scheduled, bulk and API based data integration options for integrating with various internal and external data systems to provide a secure way of data ingress and egress for customer data.

### Loyalty Consulting and Design Services

Post acquisition of B+P, we also offer loyalty consulting and design services aimed at enhancing customer engagement. Our approach combines strategic expertise with data-driven insights to create effective loyalty programs. The BLQ helps brands measure and balance emotional and behavioral loyalty, providing actionable insights to improve customer retention

### OUR EFFECTIVENESS AND LOYALTY VALUE DELIVERY FRAMEWORK

We have been in the loyalty management space for more than 12 years and have helped over 410 brands launch their loyalty program across the globe. With our extensive experience, domain expertise in loyalty management, and advantage of hosting our suite of products on our cloud platform, we believe we have developed a deep understanding of the drivers of success for any loyalty program at scale.

We analyze large datasets and have adopted a data-driven methodology to measure value from incremental sales to assess the true impact of loyalty for brands. Leveraging data collected from a particular group of redeemers, our ML algorithms are able to identify a statistically similar group of non-redeemers and the effectiveness of the customized loyalty program on that group. Additionally, our platform allows customers to track their campaign performances with a live dashboard, and convert extensive datasets into analytical insights as to consumer behavior and preferences by data-profiling the consumer.

The aspects that drive performance in loyalty programs include:

**Product/Offering Innovation.** According to the Zinnov Report, as loyalty programs evolve, brands that continuously innovate their value propositions and adopt modern engagement levers increasingly position themselves as trusted product authorities in the eyes of their customers. (Source: Zinnov Report, page 242)

Features that have benefited brands and continuously helped them clock exceptional performance include:

- Real time incentivization - Ability to reward customers instantly for their purchase
- Tier structuring - Differential rewards and attractive benefits for more loyal customers
- Cross channel targeting - Target communications to relevant channels
- Personalized recommendations - Target communication relevant to customer buying behavior
- Social engagements - Effective use of social networks for customer engagement
- Cross-partner redemptions

**Adoption.** These are input parameters to the program for assessing the effectiveness of loyalty program. We typically suggest the following two metrics to assess the value proposition and excitement quotient for the customers:

- Enrollments - Number of people enrolling into the loyalty program
- Generosity - Dollar value equivalent cashback that the programs return back to the customer in the form of points on every purchase

**Intrinsic Factors.** These represent the brand's commitment towards the execution of program which ultimately affects the success of a loyalty program.

- People - Strength of team managing the program for the brand, skills, target effectiveness and ability to achieve them. The brand runs the engagement with a focus on profit and loss.
- Budget - Cost earmarked for the customer engagement initiatives.

We believe that effective utilization of these levers can uplift the performance of any loyalty program to a product expert performance level.

We call this model the loyalty value delivery framework and are moving our pricing models to charge customers a small percentage of the incremental benefits they see from our platform.

## CASE STUDIES

### Industry Vertical – Conglomerate

#### **The connected ecosystem: Group loyalty by a prominent Indian conglomerate**

##### **Objective**

One of India's prominent conglomerates' offering, an all-encompassing application providing an integrated rewards experience across various consumer categories including groceries, fashion, electronics, travel and hospitality, health and fitness, and financial services on a single platform. Its loyalty program enables its consumers to earn and redeem rewards across multiple brands, encourage cross-category participation and provide personalised progression paths through dynamic tiered structures.

##### **Solution**

- Multi Loyalty Program ('MLP'): With our *Loyalty+* platform integrated into workflows of the conglomerate's consumer platform, a MLP was developed which allows customers to earn coins across

various brands and redeem the earned rewards across all brands available on the platform.

- **Goal Based Program:** The program allows the conglomerate to define milestones based on spends, transaction count, or any other activity and reward customers on completion of the milestones.
- **Gamification:** The platform leverages gamification on its platform to drive multi-category activation using different modes of gamification (such as badges, spin-the-wheel, scratch cards).
- **Tiered Program Structure:** The program assigns each customer a tier based on the customer's spending and order history over the past year.

Through our solutions and deep platform integration, we enabled the conglomerate to develop their personalised loyalty and rewards suite.

## Industry Vertical – Consumer Goods

### *Influencer loyalty program for a prominent Indian electrical goods company*

#### Objective

The influencer loyalty program aims to reward electricians, and electrical goods retailers for promoting and selling their products. This program drives brand loyalty and advocacy by offering incentives and tiered benefits for electricians, and electrical goods retailers in the purchasing journey.

#### Solution

- **Human centred redesign:** A streamlined mobile interface now enables:
  - Instant gratification through real-time point issuance and redemptions, driving day-to-day engagement.
  - Smooth onboarding with automated KYC and real-time validations.
  - Transparent points and reward journeys.
- **Community empowerment with initiatives and rewards opportunities:** The platform's foundation rests on three pillars:
  - Empowering electricians through instant rewards and KYC verification.
  - Introducing medical insurance and scholarships directly within a mobile app.
  - For electricians, and electrical goods retailers, it has personalised schemes running periodically, with personalised and exclusive gifts.
- **Security as a foundation for trust:** Security measures for fraud prevention are also a key part of the program like strict mobile number-based user verification during onboarding.

## Industry Vertical – Healthcare

### *Abbott Laboratories (Singapore) Private Limited (“Abbott”)*

Abbott, established in 1888 is a multinational health care company with products in diagnostics, medical devices, nutrition and branded generic pharmaceuticals.

Abbott had a requirement to establish a loyalty program for its nutritional products to improve consumer engagement.

### **Solution**

We enabled frontend member engagement utilising a customer web application which was supported by our core *Loyalty+* platform.

### **Industry Vertical – Retail**

### **Aditya Birla Fashion and Retail Ltd. (“ABFRL”)**

### **Objective**

ABFRL is one of India’s leading fashion companies, housing some of the country’s iconic brands across the lifestyle and retail segments. With a portfolio spanning menswear, womenswear and ethnic wear, ABFRL is at shaping India's fashion landscape. ABFRL was looking for a one-stop solution that would cater to all of the following:

- Full stack loyalty including front-end user interface, the back-end database and server-side logic (including (i) business logic execution - how points are earned, redeemed, expired - validation of user actions, etc.; (ii) APIs and data handling logics; (iii) security and authentication logics; (iv) performance and scaling logics) runs on the cloud server as opposed to the user's device / browser and is responsible for handling the core functionality of the platform and CRM management tailored to the needs and business models of multiple brands;
- Thought leadership and assistance for value creation;
- Single consolidated view of customer data; and
- Reliable and scalable tech stack offering performance and platform metrics - Mean Time to Repair and uptime.

### **Solution**

We approached the challenges faced by ABFRL and solutioned the same in the following ways:

- Our platform enabled ABFRL with a group level consolidated single view of consumer data capturing demographic and logo tagging;
- We built over 12 individual Loyalty programs tailored to brands’ requirements with custom earn and burn conditions along with end-to-end consumer segmentation, rewards and liability management;
- We enabled onboarding and implementation of new brands significantly increasing transaction volumes for ABFRL; and
- Streamlined omni channel experience at the brand level with separate controls and levers to drive online and offline behavior.

By providing a single consolidated view of consumer data, customizing loyalty programs with tailored earn-and-

burn conditions, and enabling seamless onboarding of new brands, we helped ABFRL enhance consumer engagement and drive growth. The platform's ability to streamline omnichannel experiences and support both group-level and brand-specific loyalty programs ensures that ABFRL is equipped for continued success in the evolving retail landscape.

## Industry Vertical – Banking, Financial Services and Insurance

### *Loyalty and Rewards platform for a prominent European Bank*

We are serving a UK headquartered bank with operations across Europe, serving customers across retail, commercial, and private banking markets.

#### Solution

- **Parallel System Operation and Data Synchronization.** To ensure continuity, data was synchronized, and a shadow testing environment was used to simulate consumer journeys before full migration. This allowed business units to validate user flows, and performance under production-like conditions.
- **Agile Integration and Modular Deployment.** APIs were leveraged to abstract legacy systems and modernize interfaces enabling smooth replacement.
- **Data Governance and Compliance Alignment.** A compliance workstream ensured alignment with data protection regulations.
- **Consumer Experience Evolution.** The new platform enabled a suite of engagement features which was previously unfeasible with the legacy system. Additionally, gamification elements were introduced to drive sustained engagement.

These features enabled evolution of the consumer experience, turning routine banking interactions into rewarding journeys.

## Industry Vertical – Travel, automobile and hospitality

### *Hertz Global Holdings Inc.*

#### Overview

Hertz Global Holdings Inc. is one of the world's leading car rental and mobility solutions providers. Its subsidiaries and licensees operate the Hertz, Dollar, Thrifty and Firefly vehicle rental brands with more than 11,000 rental locations in 160 countries around the globe, as well as the Hertz Car Sales brand, which offers a range of quality, competitively priced used cars for sale online and at locations across the US, and the Hertz 24/7 car sharing business in Europe.

Hertz Gold Plus Rewards®, designed and implemented over 35 years ago with support from B+P, was the first loyalty program in the car rental space, allowing customers to skip the counter and walk right to their car, appealing to the speed and convenience desired by business travellers. Points and Tiers were natural evolutions to the core benefits and over the years the program has evolved to meet the needs and desires of both leisure and business travellers alike.

Acquisition of B+P by us resulted in opportunity for Hertz to migrate to our platform.

**Hertz' objective:** transition to a modern, loyalty platform that would continue to enable their world class loyalty program without disrupting existing operations, and provide a solid, efficient foundation for future enhancements

toward creating the best loyalty program in the travel industry - without requiring significant customizations or a bespoke solution.

## Key Challenges

The migration posed several significant challenges:

- **Deep Integration with Core Systems-** Deeply embedded within Hertz' global ecosystem, the loyalty platform is a critical part of the member rental experience, touching multiple internal systems including data sources, multiple counter systems, reservation systems, ecommerce and communications platforms. The member rental experience simply cannot function without the integration of the loyalty platform with Hertz' internal systems.
- **Point Liability Management-** The loyalty platform is system of record for all point earning and redemption activity and the management of point currency and point liability is a critical element of Hertz' corporate financial reporting. All point management, including point balances, FIFO redemption, point liability, and a suite of point reporting, a critical element of corporate financial reporting, had to transition to the new system with fidelity – meaning minimal changes to balances in customer accounts or represented on reports.
- **Adhering to the Global Regulatory Landscape-** Operating globally, Hertz had to maintain complex data privacy compliance and data localization requirements – all while ensuring secure data handling and minimal operational risk.
- **Customer Experience Evolution-** With over 11 million program members globally, any disruption to the platform could disrupt the customer rental experience – member rentals cannot occur efficiently without proper integration with the loyalty platform. The new system had to support the customer experience uninterrupted while also providing foundation for new loyalty program features and benefits that would continue to engage customers and drive revenue.
- **Technology Project Priorities-** Supporting a global company managing many technology platforms requires solutions that minimize impact on the internal technology team and partners.

## Solution

Hertz partnered with us to lead the transformation which was designed to ensure data fidelity and minimize any disruption to the customer experience or corporate financial reporting.

- **Maintaining Core System Integration-** An integration layer was created to allow legacy APIs to remain intact through the migration to a more modern, cloud based solution while minimizing any changes by Hertz to core system integrations in place and reducing effort required by Hertz technology and third-party teams.
- **Point Liability Management-** To ensure continuity, data was synchronized to a test environment which was used to evaluate data fidelity and simulate customer experience before full migration. This allowed business units to validate point balances, user flows, earning and redemption logic, and performance under production-like conditions.
- **Data Governance and Compliance-** Historical data stores were managed through databricks on the new platform to ensure maintenance of full audit trails for customer consents – for GDPR and rental compliance requirements – and to ensure continuity in reporting that supports Hertz' audit requirements and accounting practices.
- **Customer Experience Evolution-** The new platform enables a suite of next-generation engagement features as core product features such as gamification, multi-program and coalition capabilities, personalized offers and segmentation. These features can be leveraged to enhance the loyalty program and customer experience without requiring customization or heavy development previously needed for enhancements on the legacy platform, allowing Hertz to bring new program features and benefits to the market more quickly and efficiently.

## DATA STORAGE AND COMPUTATION

Our platform is hosted on external cloud servers, ensuring reliability, security, and scalability with minimal additional investment. This infrastructure supports large volumes of transactional and customer data across various industries. Designed for scalability, security, integration, and extensibility, our cloud infrastructure powers AI-driven customer engagement and loyalty solutions, seamlessly integrating with customers' existing technology stacks. Key features of our cloud-based infrastructure include:

- **Scalable architecture:** Supports real-time data processing and delivers high-speed, stable performance at scale.
- **Enterprise-grade security:** Complies with global standards to ensure robust security.
- **Seamless API integrations:** Facilitates interoperability with existing enterprise systems, enabling effortless deployment and customization.

Our advanced offerings like segmentation, workflow management, event streaming, and data engineering are all supported by the cloud ecosystem featuring container orchestration, infrastructure as code, document-oriented databases, cloud storage, and comprehensive monitoring tools. This setup ensures optimal performance, reliability, and agility across our customer engagement solutions.

We avail services such as compute services and container solutions, storage and data services, and networking services from a prominent third-party cloud infrastructure provider.

*Compute Services.* It provides scalable computing capacity in the cloud and allows users to run virtual machines with customisable configurations or run code in response to events without provisioning servers.

*Container Services.* Helps in deploying, managing, and scaling containerised applications.

*Storage and Data Services.* Offers secure, scalable, and durable storage options and is widely used object storage service, ideal for backup, archival, and big data.

*Networking Services.* Enables secure, scalable, and high-performance connectivity and lets users create isolated networks within the cloud computing platform, defining IP ranges, subnets, and routing rules along with container solutions, and storage and data services.

We, from time to time, enter into private pricing agreements and arrangements with technology service providers for the provision of technology and cloud infrastructure services. For instance we through one of our Material Subsidiaries, Capillary Pte. Ltd had executed two private pricing addendums, with a prominent third-party cloud infrastructure provider (“**Service Provider**”) each dated September 22, 2023 one of which was amended through an amendment agreement dated October 30, 2024, (“**Erstwhile Technology Agreements**”), for a period of five years from October 1, 2023 until September 30, 2028, pursuant to which we had made annual spend commitment. However, given the increased usage requirement of technology and cloud infrastructure services over the historical years, two renewed private pricing addendums have been entered into with the Service Provider each dated September 30, 2025, (“**Technology Agreements**”), for a period of five years from October 1, 2025 until September 30, 2030, pursuant to which we have made the certain annual spend commitment (“**Annual Commit**”) that applies to our Company and Subsidiaries. This commitment is the minimum amount required to be spent for each contract year, failing which we are required to pay the shortfall amount to the third-party cloud infrastructure provider.

For further information, see “*Objects of the Offer - Funding our cloud infrastructure*” on page 160.

## **DATA PROTECTION AND CYBERSECURITY**

Data security is crucial to our business operations. We process collected customer information as a critical aspect of our offerings. We have internal rules and policies to govern how we may use and share personal information, as well as protocols, technologies and systems in place to ensure that such information will not be accessed or disclosed improperly. Our business-to-business (“**B2B**”) customers are required to acknowledge the terms and conditions of their user agreements before they are allowed access to our products and services. The B2B customer terms and conditions obtain consent to the collection, use, and disclosure of their data in compliance with applicable laws and regulations, and we will only use the data of our users under the conditions agreed by our

users.

We maintain an information security team headed by a data protection officer, that is responsible for implementing and maintaining our internal control protocols which cover the full lifecycle of data processing including data collection, data quality management, data encryption and transportation, data storage security, data backup and recovery, data processing and analytics, proper use of data, and data destruction and disposition. We adopt a data encryption system intended to ensure the secured storage and transmission of data, and prevent any unauthorized member of the public or third parties from accessing or using our data in any unauthorized manner. We use firewalls to protect access to our networks and to the servers and databases on which we store confidential data, restrict access to our network by virtual private network, and conduct periodic audits of data access and modifications of our network. In addition, we have developed and use internal procedures to protect the personal information of our users. We also work with third party security companies to help us with regular yearly audits of our infrastructure, websites and apps. We continuously monitor our risk and compliance and make an assessment of the cloud environment to maximize our security coverage and also provides us with continuous compliance monitoring of all our applications, regardless of where they are running.

Our data protection and privacy policies are focused on ensuring that: (i) our collection of personal data is conducted in accordance with applicable laws and regulations; (ii) personal data we collect are reasonable for the purposes for which they are collected; and (iii) our users are informed of the purposes for which their personal data are collected and used and their rights with respect to such data. In addition, to minimize the risk of data loss or leakage, we conduct regular data backup and data recovery tests. We are subject to various laws and regulations, including the Digital Personal Data Protection Act, 2023, EU General Data Protection Regulation and the Singapore Personal Data Protection Act, relating to data protection and privacy, and the processing of personal and behavioral data.

We provide assurance to our stakeholders for cybersecurity and data privacy independently through third party annual security audits for global standards. We are ISO 27001:2013 and PCI DSS certified for all customer servicing and internal processes and technologies and SOC 2 Type 2 Attested for the CRM and Loyalty services.

For further information, see “Key Regulations and Policies” and “Risk Factors – We are subject to various Indian and international laws and regulations regarding privacy and data security, and we or our customers may be subject to regulations related to the handling and transfer of certain types of sensitive and confidential information. Any failure to comply with these laws and regulations could impose significant compliance burdens.” on pages 325 and 55, respectively.

## CUSTOMER AND CUSTOMER ACQUISITIONS

We serve a number of customers that includes both enterprise and small and medium sized businesses across industries and geographies and as of September 30, 2025, we served Enterprise Customers including 19 Global Fortune 500 companies present across 47 countries. Certain of our key customers include Tata Digital, ABFRL, Dominos Pizza Indonesia, PT Blue Bird Tbk, Aditya Birla Fashion Limited, Arvind Fashions Limited, Metro Brands Limited, Puma Sports India Private Limited and Vishal Mega Mart.

Set forth below are certain details regarding revenues derived from our top customer, top five customers and top ten customers for the periods/years indicated:

\*References to 'Customer' are to customers in a particular Fiscal and does not refer to the same customers across all periods/Fiscals.

For customer acquisition we focus on our 'Land and Expand' approach by retaining existing customers and expanding revenue from those same customers, by evolving our relationships by expanding our solutions across additional brands, business units, and geographies within the same organization.

We have a dedicated team focused on building our presence in large system integrators and consulting companies and helping these partners propose our solutions/ products in their conversations with their customers. We typically enter into Business Alliance Agreements with large systems integrators for customer referrals for a term ranging from one to three years. Pursuant to these agreements we partner with other businesses to refer us to customers who need advanced loyalty management solutions, thereby expanding our customer base. These services are provided to us on a commission basis.

## CONTRACTUAL TERMS AND PRICING

### Contractual Terms

Our contracts with our customers are mainly for providing SaaS based solutions to our customers. We enter into long term contracts with our customers. The length of our contracts varies from one to five years and is typically for a period of three years. We typically bill our customers on a quarterly basis in advance.

- **System maintenance / downtime of services.** Under these contracts, if the system maintenance or downtime of services including customer support hours, exceed a certain number of hours, such pro-rata number of days of downtime is required to be adjusted against the monthly retainer fees.
- **Indemnity.** Our Company is required to indemnify customers for any claims, losses, damages and expenses on account of its sub-contractors, vendors, suppliers and third parties in undertaking the performance under these agreements.
- **Pricing.** We typically follow the following approaches of pricing our services:
- **Subscription.** Our SaaS subscription pricing model is based on the number of loyalty transactions processed annually, the active loyalty members on the platform, and the number of stores using our platform. In addition, subscription revenues from our *Rewards+* platform depend on the type and volume of offers redeemed. Whereas, campaign service net margins are tied to the quantity and type of campaigns run on our network of campaign service providers. By dynamically linking our prices to metrics related to platform activity and service usage, we ensure that our revenue grows as customers expand their use of our solutions across multiple regions or divisions, supporting long-term account value growth.
- **Campaigns.** Campaign revenues are fees paid by customers to us for every message including text messages, email or ad-words that they send out from our platform.
- **Setup.** Setup revenues are one-time revenues we charge customers for the integration / configurations to our platform to take a customer live.
- **Cancellation Policy/Termination.** Our contracts cannot be terminated simply because one party wants to (for convenience). Instead, termination is only allowed for a cause, such as a breach of contract or failure to fulfill obligations.

## COMPETITION

According to the Zinnov Report, the TAM size for loyalty management is estimated to be USD 16.6 billion in Fiscal 2024 and is expected to reach USD 26.8 billion by Fiscal 2029, projecting a growth rate of 10%, with all the regions across the globe registering a growth rate of more than 5% from years 2024 to 2029. The Asia-Pacific, EMEA and the North American regions, are projecting a significant growth rate of 18.7%, 8.5% and 5.0%, respectively from years 2024 to 2029. The North American enterprise loyalty market is valued at approximately USD 7.8 billion in 2024. Since loyalty is a subsegment of the broader customer engagement landscape, we consider CRM and customer engagement SaaS companies as proxies, these include mid-market independent software vendors such as Hubspot and technology giants such as Salesforce. (Source: Zinnov Report, page 260)

Our Company does not have any competitors in India. For further information, see “*Industry Overview*” on page 229. We believe we are well-placed to capture this growth and maintain a competitive edge within the region.

## INTELLECTUAL PROPERTY

We have created intellectual property in the form of patents and proprietary algorithms and frameworks. We regard our proprietary domain names, trademarks and patents as essential to our business operations. We rely on a combination of patents, trademarks, trade secret laws and restrictions on disclosure to protect our intellectual property. Our success and ability to compete depend in part upon our ability to protect our technology and to establish and adequately protect our intellectual property rights.

As on the date of this Red Herring Prospectus, our Company owns ten valid and registered trademarks in India, which were initially assigned to our Material Subsidiary, CPL by our Promoter under the deed of assignment of intellectual property dated November 20, 2021 and February 26, 2023 and further assigned by CPL to our Company pursuant to the deed of assignment of intellectual property dated February 28, 2023, for which we have valid registration certificates from the Trade Marks Registry, Government of India under the Trade Marks Act, 1999, as amended (“**Trade Marks Act**”). Additionally, as on the date of this Red Herring Prospectus, our Company has made applications for registration/renewal of 23 trademarks under various classes before the Trade Marks Registry under the Trade Marks Act, which are pending at various stages in India. Further, our Company has made applications for the registration of three trademarks under various classes before the United States Patent and Trademark Office, which are pending under the status “LIVE/APPLICATION/Awaiting Examination”. Additionally, Capillary Brierley and Capillary Technologies Inc. have provided their consent to our Company to use any of its intellectual property rights under the respective consent letters each dated April 1, 2024. Furthermore, CTIPL and CPL have provided consent under consent letter dated April 1, 2024 to our Company to use two patents, one registered in the United States and one registered in Singapore. For further information, see, “*Government and Other Approvals – Intellectual Property of our Material Subsidiaries*” on page 538.

We have implemented a set of comprehensive measures to protect our intellectual property, in addition to making trademark and patent registration applications. Key measures include: (i) establishing a dedicated intellectual property legal consultant to guide, manage, supervise and monitor our daily work regarding intellectual property; (ii) applying for registration of our intellectual property before commercialization; (iii) timely registration, filing and application for ownership of our intellectual property; (iv) actively tracking the registration and authorization status of intellectual property and taking action in a timely manner if any potential conflicts with our intellectual property are identified; (v) clearly stating all rights and obligations regarding the ownership and protection of intellectual property in all employment contracts and commercial contracts we enter into; and (vi) quarterly review of measures by senior management personnel of our Company.

For further information, see “*Risk Factors – Failure to protect our intellectual property rights could adversely affect our business and our brand.*” on page 76.

## TECHNOLOGY

We put technology at the forefront for solving problems for our customers. Our products, and platforms have been built with advanced tools and technologies. Technology has been a key driver for supporting customers, and delivering loyalty, and AI powered solutions at scale with optimum costs, and high availability. We are committed to investing in our technology and product roadmaps to push the envelope on innovation and give all global businesses the best possible customer engagement solutions. We continuously customize and enhance our product offerings, striving to build industry-specific SaaS solutions. This involves introducing new products for customers, developing existing technology in-house, and investing in revenue-generating technologies. We are dependent on

our in-house development team of 260 employees, as of September, 2025 and third-party service providers for assisting and execution of product development.

### Scale of the Infrastructure

Our products are designed for cloud native environments that allow us to scale our products as per the customer needs while optimizing the costs. This allows us to process large number of transactions and customer data points seamlessly in real time. All data is pushed into our data platform which allows powerful slicing, and dicing capabilities on this large data set. This data platform computes rich segments, facts, and key performance indicators that are used for reporting, and analytics. These computed data points are also fed into our AI and ML algorithms that are trained over neural networks. Our infrastructure is managed via infrastructure as code paradigm. These automation workflows allow us to manage several global deployments.

Along with scalability, we operate a secure infrastructure. We frequently upgrade our infrastructure with regular security audits, and certifications. Our products comply with international standards such as ISO 27001, EU General Data Protection Regulation and PCI-DSS.

### Open Platform - Extensibility and Ease of Integration

We have always believed that a good product is open for integration and extension. This belief has led to an API first architecture that allows us to integrate easily with external systems, and touch points of data collection with minimum effort. Furthermore, we allow our customers to take their data back to their systems as needed via powerful data exports and event streaming pipelines built on top of an open-source distributed event streaming platform.

### Innovations

We have invested in innovating new technologies using AI and ML to study consumer behaviour in both offline stores, and online assets. Set forth below are certain details regarding our technology development expenses for the periods/ years indicated:

Particulars	Six-month period ended September 30, 2025	Six-month period ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023

The expenditure in relation to manpower cost for research and design and product and platform development through employees and professionals engaged by us through third party agencies is ₹ 219.85 million, ₹ 247.67 million, ₹ 507.86 million, ₹346.98 million and ₹ 270.65 million in the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 respectively.

These allow us to predict consumer behaviour with high degree of accuracy for various business verticals, and design powerful, and capable loyalty programs. Our loyalty product has been developed over the years to cater the potential use-cases for the verticals we operate in. These innovations have resulted in a number of patents that we have filed and obtained over the years.

## SALES AND MARKETING

### Sales

We have decentralized sales teams that focus on the regions where they operate. Our sales team members are based in the United States, United Kingdom, United Arab Emirates, Malaysia and India.

We use automated reports from our sales CRM for monitoring and tracking the sales metrics and monitor progress and real-time customer and opportunity visibility. We have a dedicated sales operations team which enables this for us.

**Pre-Sales:** Our pre-sales team understands our customers’ requirements and maps them to our solutions and helps our customers decide which of our products would best solve their problems, additionally our pre-sales team also help us in deciding the pricing that we should propose to our customers.

**Field Sales:** We have geography specific field sales teams. Our field sales teams build relationships with our customers and own the sales process end-to-end and act as the bridge between the customers and our internal teams during the sales process.

## Marketing

We have a centralized marketing team that focuses on global marketing. Our team members are based in the United States, United Arab Emirates, Malaysia and India. We deploy several marketing strategies like producing content, email marketing, social media, account based marketing and such to generate leads and create brand awareness.

**Demand Generation:** Our demand generation team understands the market and is updated with latest SaaS solutions marketing and accordingly creates demand for our solutions through inbound and outbound marketing.

## CUSTOMER SUCCESS

We have developed a dedicated customer success team that is primarily responsible for ensuring that the relevant customers derive measurable value as a result of using our products and solutions. Our existing customer accounts are segregated based on existing contract value and potential for additional sales and engagements. We follow a streamlined engagement model that includes quarterly business review and monthly interaction with customers. These customer engagement measures enable us to align our products and solutions offerings to customers’ business objectives and thereby further expand the existing customer accounts with additional opportunities that can be serviced through our broader products and solutions portfolio.

Our sales efforts are focused on both generating new customers as well as cross-selling and upselling our broader suite of products and solutions. Key account management is also facilitated by a local representative. Our sales teams are distributed across various geographies we focus on, and we actively leverage existing customer relationships to gain referrals. We continue to focus on deepening our relationship with customers through providing our broad suite of products and solutions. Therefore we educate and train our sales teams on the features and value drivers for our full suite of products and solutions. We have also introduced incentive plans for different levels of sales professionals that vary across geographies.

We offer customer support through our in-house customer support team, whereby customers may seek assistance through system tickets and emails. All customer support requests are categorized based on the level of impact, with specific measures relating to resolution timelines. We use a common sales, service and marketing cloud which provides a single view of the customer, which can be leveraged to understand their current engagement while generating new opportunities from existing customer base. We measure customer satisfaction on ticket closures and turn-around times, re-opening of issues and ticket volume to improve our support function.

We focus on attracting, developing and retaining personnel with varied expertise including business, technical and sales and marketing backgrounds, across various experience levels. Our hiring practice includes technical interviews, aptitude assessments, and managerial interview rounds. We conduct thorough background verifications of candidates through third party vendors to verify details regarding previous employment, education, and identity checks. We provide learning and development programs for our employees to prepare them for their roles and facilitate internal career mobility aiming at creating a high-performing workforce.

As part of the employee benefits initiative, we provide term insurance and life insurance to all our employees. We also provide medical insurance to our employees including their families. We also offer a 24x7 health helpline for our employees and employee assistance programmes which provide the requisite technical, psychological and operational support for our employees. Our maternity and paternity programs include 26 calendar weeks of leave on full pay for mothers and 2 calendar weeks of leave on full pay for fathers to care for their child. We provide director's and officers' liability insurance to our employees. To incentivize our employees, we also provide employee stock options to select eligible employees under our employee stock option plan. For further information, see "*Capital Structure – Employee Stock Option Scheme*" on page 152.

## CORPORATE SOCIAL RESPONSIBILITY ("CSR")

We seek to integrate our business values with our operations so we may undertake our business activities in an ethical and transparent manner. Further, we seek to improve our fulfilment of social responsibilities and enhance our economic practices in an attempt to create a positive impact on the society. We are committed towards our obligations to society and have a defined corporate social responsibility policy that is aimed at improving the lives of the communities in which we operate in a sustainable way. Our Company has constituted a Corporate Social Responsibility Committee on December 10, 2021 and the same was re-constituted on September 26, 2022 and May 23, 2025.

Our Company has net worth exceeding ₹ 5,000.00 million and net profits exceeding ₹ 50.00 million as at the end of Fiscal 2025. However, our average net profits during Fiscals 2025, 2024, and 2023 do not exceed ₹50.00 million. Accordingly, in terms of Section 135 of the Companies Act, 2013, our Company was not required to spend any amount on corporate social responsibility (CSR) activities during the six-month period ended September 30, 2025, and September 30, 2024, and Fiscals 2025, 2024, and 2023.

### LAWS APPLICABLE TO OUR COMPANY

#### Industry-specific legislations applicable to our Company

##### *The Digital Personal Data Protection Act, 2023 (“DPDP Act”)*

The DPDP Act received the assent of the President on August 11, 2023. The DPDP Act, has replaced the existing data protection provision, as contained in Section 43A of the IT Act. The DPDP Act provides for the processing of digital personal data in a manner that recognises both the rights of individuals to protect their personal data and the need to process personal data for lawful purposes and matters incidental thereto. The DPDP Act provides that personal data may be processed only for a lawful purpose after obtaining the consent of the data principal to whom the personal data relates, or for certain legitimate uses. A notice must be given before seeking consent. The consent obtained shall be free, specific, informed, unconditional and unambiguous with a clear affirmative action, and shall signify an agreement to the processing of her personal data for the specified purpose and be limited to such personal data as is necessary for such specified purpose. It further imposes certain obligations on data fiduciaries including (i) ensuring the accuracy, consistency and completeness of personal data processed, (ii) building reasonable security safeguards to prevent a data breach, (iii) informing the Data Protection Board of India (the “DPB”) and affected persons in the event of a breach, and (iv) unless retention is necessary for compliance with any law, personal data is to be erased upon the data principal withdrawing consent or as soon as the purpose has been met and retention is not necessary for legal purposes (storage limitation). In case of government entities, storage limitation and the right of the data principal to erasure will not apply. The Central Government will establish the DPB. Key functions of the DPB include: (i) on receipt of an intimation of personal data breach, to direct any urgent remedial or mitigation measures in the event of a personal data breach, and to inquire into such personal data breach and impose penalty; (ii) on a complaint received in respect of a personal data breach or a breach in observance by a data fiduciary of its obligations in relation to her personal data or the exercise of her rights, or on a reference made to it by the central government or a state government, or in compliance of the directions of any court, to inquire into such breach and impose penalty, and (iii) the DPB may, on a representation made to it by a person affected by a direction, or on a reference made by the Central Government, modify, suspend, withdraw or cancel such direction and, while doing so, impose such conditions as it may deem fit. The DPB members will be appointed for two years and will be eligible for re-appointment. The Central Government will prescribe details such as the number of members of the DPB and the selection process.

##### *Draft Digital Personal Data Protection Rules, 2025*

The Indian Ministry of Electronics and Information Technology has released the Draft Digital Personal Data Protection Rules, 2025 (“**Draft DPDP Rules**”) for public consultation. The Draft DPDP Rules regulate the processing of personal data in India, ensuring that the privacy rights of individuals are protected. The Draft DPDP Rules applies to all entities that process digital personal data, both within India and abroad. It focuses on the principles of data protection, such as transparency, accountability, and the necessity of obtaining explicit consent from data subjects. It also provides individuals with rights to access, correct, and request deletion of their data. The Draft DPDP Rules provide that any entity processing personal data within India or outside India (in relation to offering goods/services to data principals in India) may only transfer personal data to any country/ territory outside India subject to restrictions imposed by the Government of Indian on making such personal data available

to a foreign state or entities or agencies under its control. Additionally, the Draft DPDP Rules require significant data fiduciaries to undertake measures to ensure that they do not transfer any personal data (and traffic data related to its flow) outside India as may be identified by the Government of India upon recommendations of a committee it constitutes. It mandates the conduct of data protection impact assessments for high-risk processing activities and requires the notification of data breaches within a stipulated timeframe. The Draft DPDP Rules will be gradually enforced, with timelines for implementation set by the GoI.

### ***The Information Technology Act, 2000 (the “IT Act”) and the rules made thereunder***

The IT Act seeks to: (i) provide legal recognition to transactions carried out by various means of electronic data interchange involving alternatives to paper-based methods of communication and storage of information; (ii) facilitate electronic filing of documents; and (iii) create a mechanism for the authentication of electronic documentation through digital signatures. The IT Act provides for extraterritorial jurisdiction over any offence or contravention under the IT Act committed outside India by any person, irrespective of their nationality, if the act or conduct constituting the offence or contravention involves a computer, computer system or computer network located in India. Additionally, the IT Act empowers the Government of India to direct any of its agencies to intercept, monitor or decrypt any information in the interest of sovereignty, integrity, defence and security of India, among other things. The Information Technology (Procedure and Safeguards for Blocking for Access of Information by Public) Rules, 2009 specifically permit the Government of India to block access of any information generated, transmitted, received, stored or hosted in any computer resource by the public, the reasons for which are required to be recorded by it in writing. The IT Act facilitates electronic commerce by recognizing contracts concluded through electronic means, protects intermediaries in respect of third-party information liability and ensures that a body corporate failing to protect sensitive personal data is liable to pay damages by way of compensation. The IT Act also prescribes civil and criminal liability including fines and imprisonment for computer related offences including those related to unauthorized access to computer systems, tampering with or unauthorised manipulation of any computer, computer system or computer network and damaging computer systems and creates liability for negligence in dealing with or handling any sensitive personal data or information in a computer resource and in maintaining reasonable security practices and procedures in relation thereto, among others.

The IT Act empowers the Government of India to formulate rules with respect to reasonable security practices and procedures and sensitive personal data. In exercise of this power, the Department of Information Technology, (“DoIT”) Ministry of Electronics and Information Technology, Government of India, in April 2011, notified the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011 (“**IT Security Rules**”) which prescribe directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate. The IT Security Rules require every such body corporate to provide a privacy policy for handling and dealing with personal information, including sensitive personal data, ensuring security of all personal data collected by it and publishing such policy on its website. The IT Security Rules further require that all such personal data be used solely for the purposes for which it was collected and any third-party disclosure of such data is made with the prior consent of the information provider, unless contractually agreed upon between them or where such disclosure is mandated by law. The IT Security Rules define sensitive personal data or information to include passwords, financial information such as bank account, credit card and payment instrument details, medical records and any detail relating to the aforementioned categories as provided to a body corporate for providing services and/or stored or processed by the body corporate under lawful contract or otherwise, however, any information that is freely available or accessible in public domain or furnished under law is not regarded as sensitive personal data or information under these rules. In the alternative, the IT Security Rules are deemed to be complied with if the requirements of the international standard “IS/ISO/IEC 27001” on “Information Technology–Security Techniques–Information Security Management System–Requirements” are complied with including any codes of best practices for data protection of sensitive personal data or information approved by the Government of India and formulated by any industry association of whose membership such body corporates holds.

The DoIT also notified the Information Technology (Intermediaries Guidelines and Digital Media Ethics Code) Rules, 2021 (“**IT Intermediary Rules**”) requiring intermediaries receiving, storing, transmitting or providing any service with respect to electronic messages to not knowingly host, publish, transmit, select or modify any information prohibited under these IT Intermediaries Rules and to disable hosting, publishing, transmission, selection or modification of such information once they become aware of it. The IT Intermediary Rules further require the intermediaries to provide a grievance redressal mechanism and appoint a nodal officer and a resident grievance officer.

### ***CERT-In Directions***

The Indian Computer Emergency Response Team (“**CERT-In**”) has issued directions dated April 28, 2022 under Section 70(B)(d) of the IT Act relating to information security practices, procedure, prevention, response and reporting of cyber incidents (“**CERT-In Directions**”) which stipulate a number of cyber-security related requirements upon service providers, intermediaries, data centres, body corporate, and Government organizations. Key measures include: (i) synchronizing ICT systems clocks with the Network Time Protocol, Server of National Informatics Centre, or National Physical Laboratory; (ii) mandatory reporting of specific types of cyber incidents to CERT-In within 6 hours of noticing such incidents; (iii) designating a point of contact to interface with CERT-In; (iv) enabling and securely maintaining logs of all ICT systems for a rolling period of 180 days within Indian jurisdiction; (v) registering and maintaining accurate information of subscribers/customers by data centres, VPS providers, cloud service providers, and VPN Service providers for a period of 5 years or longer; (vi) Maintaining KYC and financial transaction records by virtual asset service providers, virtual asset exchange providers, and custodian wallet providers for a period of five years.

### ***Software Technology Parks Scheme (“STP Scheme”)***

To implement the STP Scheme, a 100% export-oriented scheme for the development and export of computer software, Software Technology Parks of India (“**STPI**”) was established and registered as an autonomous society under the Societies Registration Act, 1860, under the Ministry of Electronics and Information Technology, Government of India on June 5, 1991. The STP Scheme covers export of professional services using communication links or physical media and any entity desiring to export its entire production of goods and services (except permissible sales in the domestic tariff area) is eligible to register with the relevant STPI.

### ***Government Initiatives***

There have been certain initiatives undertaken by government agencies in India regarding the regulation of AI such as the National Strategy for Artificial Intelligence, introduced by NITI Aayog in June 2018, which emphasizes the need to align India’s regulatory standards with global norms to ensure that its AI technologies are globally competitive and compliant with international human rights standards by proposing a two-tiered structure to address India’s AI research aspirations. These include (a) the Centre of Research Excellence focused on developing better understanding of existing core research and pushing technology frontiers through creation of new knowledge, and (b) International Centres of Transformational Artificial Intelligence (“**ICTAI**”) with a mandate of developing and deploying application-based research. Private sector collaboration is envisioned to be a key aspect of ICTAIs.

### **General laws pertaining to compliance to be followed by our Company**

#### ***The Companies Act 1956 and the Companies Act, 2013 (“Acts”)***

The Companies Act 1956 is still applicable to the extent it is not repealed and the Companies Act, 2013 (and the amendments thereof) is applicable to the extent notified. The Acts along with the relevant rules, clarifications and modifications made thereunder deals with the incorporation of companies, the procedure for incorporation and governance and regulation of companies post incorporation. The provisions of the Acts shall apply to all the companies incorporated either under it or under any other previous law.

#### **Labour law legislations**

The employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws, including the Employee’s State Insurance Act, 1948, the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, Payment of Gratuity Act, 1972, the Contract Labour (Regulation and Abolition) Act, 1970, the Shops and Establishments Act, 1953, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996, the Maternity Benefit Act, 1961, the Child Labour (Prohibition and Regulation) Act, 1986 and the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

In order to rationalize and reform labour laws in India, the Government has enacted the following codes:

- (a) **Code on Wages, 2019**, which regulates and amalgamates wage and bonus payments and subsumes four existing laws namely – the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of

Bonus Act, 1965 and the Equal Remuneration Act, 1976. It regulates, *inter alia*, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees.

- (b) **Industrial Relations Code, 2020**, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes. It subsumes the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.
- (c) **Code on Social Security, 2020**, which amends and consolidates laws relating to social security, and subsumes various social security related legislations, *inter alia* including the Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the Employee's Provident Fund and the Employee's State Insurance Corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees may suffer, among others.
- (d) **The Occupational Safety, Health and Working Conditions Code, 2020**, consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Contract Labour (Regulation and Abolition) Act, 1970 and received the presidential assent on September 28, 2020.

The provisions of these codes shall become effective on the day that the Government shall notify for this purpose. Certain portions of the Code on Wages, 2019, have come into force upon notification by the Ministry of Labour and Employment.

#### **Other labour law legislations**

In addition to the aforementioned material legislations which are applicable to our Company, some of the other labour legislations that maybe applicable to the operations of our Company include:

1. State-wise Labour Welfare Fund Acts and rules made thereunder;
2. The Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959 and the rules made thereunder;
3. The Industrial Employment (Standing Orders) Act, 1946 and the rules made thereunder;
4. Industrial Disputes Act, 1947 and the rules made thereunder;
5. Rights of Persons with Disabilities Act, 2016 and the rules made thereunder;
6. Child and Adolescent Labour (Prohibition and Regulation) Act, 1986 and the rules made thereunder; and
7. Contract Labour (Regulation and Abolition) Act, 1970 and the rules and the state legislations made thereunder.

#### **Shops and establishments legislations**

Under the provisions of local shops and establishments legislations applicable in the states in which establishments are set up, establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees. All industries have to be registered under the shops and establishments legislations of the state where they are located. There are penalties prescribed in the form of monetary fine or imprisonment for violation of the legislations.

#### **Tax laws**

In addition to the aforementioned material legislations which are applicable to our Company, some of the tax legislations that may be applicable to the operations of our Company include:

1. Income Tax Act 1961, the Income Tax Rules, 1962, as amended by the Finance Act in respective years;
2. Central Goods and Service Tax Act, 2017, the Central Goods and Service Tax Rules, 2017 and various state-wise legislations made thereunder;
3. The Integrated Goods and Service Tax Act, 2017 and Integrated Goods and Services Tax Rules, 2017;
4. Professional Tax state-wise legislations; and
5. Indian Stamp Act, 1899 and various state-wise legislations made thereunder.

## **Intellectual Property Laws**

### ***The Trademarks Act, 1999 (“Trademarks Act”) and Trade Mark Rules, 2017 (“Trade Mark Rules”)***

The Trade Marks Act governs the statutory protection of trademarks and prevention of the use of fraudulent marks in India. Indian law permits the registration of trademarks for both goods and services. Under the provisions of the Trade Marks Act, an application for trademark registration may be made with the Trade Marks Registry by any person or persons claiming to be the proprietor of a trade mark, whether individually or as joint applicants, and can be made on the basis of either actual use or intention to use a trademark in the future. Once granted, a trademark registration is valid for 10 years unless cancelled, subsequent to which, it can be renewed. If not renewed, the mark lapses and the registration is required to be restored to gain protection under the provisions of the Trade Marks Act. The Trade Marks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks among others. The Trade Marks Rules, lay down certain guidelines regarding procedure. Some of the salient features of the Trade Marks Rules include the process for determination of ‘well-known’ trademarks, representation of sound marks, recognition of e-mail as a mode of service, new registration fees and mandatory filing of statements of users. Further, pursuant to the notification of the Trade Marks (Amendment) Act, 2010, simultaneous protection of trademark in India and other countries has been made available to owners of Indian and foreign trademarks. It also seeks to simplify the law relating to the transfer of ownership of trademarks by assignment or transmission and to bring the law in line with international practices.

### ***The Patents Act, 1970 (the “Patents Act”)***

The Patents Act governs the patent regime in India. Being a signatory to the World Trade Organisation’s Agreement on Trade Related-Aspects of Intellectual Property Rights, effective January 1 1995, India is required to recognize product patents as well as process patents. In addition to the broad requirement that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. Section 39 of the Patents Act also prohibits any person resident in India from applying for a patent for an invention outside India without making an application for a patent for the same invention in India. The term of a patent granted under the Patents Act pursuant to Section 53 is for a period of twenty years from the date of filing of the application for the patent. A patent shall cease to have effect if the renewal fee is not paid within the period prescribed for the payment of such renewal fee. Further, the Patents Act also provides for the recognition of product patents in respect of food, medicine and drugs; that import of patented products will not be considered as an infringement; and that under certain circumstances, the burden of proof in case of infringement of process patents may be transferred to the alleged infringer.

### ***The Copyright Act, 1957 and the Copyright Rules, 2013 (the “Copyright Laws”)***

The Copyright Laws governs copyright protection in India. Even while copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration under the Copyright Laws acts as prima facie evidence of the particulars entered therein and helps expedite infringement proceedings and reduce delay caused due to evidentiary considerations. The intellectual property protected under the Copyright Laws includes literary works, dramatic works, musical works, artistic works, cinematography and sound recordings. The Copyright Laws prescribe a fine, imprisonment or both for violations, with enhanced penalty on second or subsequent convictions.

## **Foreign Investment Laws**

### ***The Foreign Trade (Regulation and Development) Act, 1992 and the rules framed thereunder (“FTA”)***

The FTA is the main legislation concerning foreign trade in India. The FTA, read along with Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the Act, the Government: (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorised to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorised to appoint a 'Director General of Foreign Trade' for the purpose of the Act, including formulation and implementation of the Export-Import Policy (“**EXIM Policy**”). The FTA read with the Foreign Trade Policy, 2023 prohibits anybody from undertaking any import or export except under an Importer-Exporter Code number (“**IEC**”) granted by the Director General of Foreign Trade pursuant to section 7. Hence, every entity in India engaged in any activity involving import/export is required to obtain an IEC unless specifically exempted from doing so. An application for an importer exporter code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce. The IEC shall be valid until it is cancelled by the issuing authority.

### ***The Foreign Exchange Management Act, 1999 (“FEMA”) and regulations framed thereunder***

Foreign investment in India is governed primarily by the provisions of the FEMA, and the rules, regulations and notifications thereunder, as issued by the RBI from time to time and the FEMA Rules and the consolidated FDI Policy (“**FDI Policy**”) issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India from time to time. Further, the RBI has enacted the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 which regulate the mode of payment and reporting requirements for investments in India by a person resident outside India. Under the current Foreign Exchange Management (Non-Debt Instruments) Rules 2019 (“**NDI Rules**”) and FDI Policy (effective October 15, 2020), 100% foreign direct investment in companies engaged in the information and technology sector, under the automatic route, i.e., without requiring prior government approval, subject to compliance with certain prescribed conditions.

In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which the foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA has now been entrusted to the concerned administrative ministries/departments.

The RBI, with an aim to operationalize a new overseas investment regime, has introduced the new Foreign Exchange Management (Overseas Investment) Rules, 2022 (“**OI Rules**”) and the Foreign Exchange Management (Overseas Investment) Regulations, 2022 (“**OI Regulations**”), vide Notification No. G.S.R. 646(E) and Notification No. FEMA 400/2022-RB each dated August 22, 2022. Further, the Foreign Exchange Management (Overseas Investment) Directions, 2022 were introduced to be read with the OI Rules and the OI Regulations. The new regime simplifies the framework to cover wider economic activity and thereby, significantly reducing the need for specific approvals. Investment may be made by an Indian entity only in a foreign entity engaged in activities permissible under the law in force in India and the host jurisdiction. Any manner of Overseas Direct Investment by an Indian entity shall be made as prescribed in the OI Rules.

### ***Competition Act, 2002 (“Competition Act”)***

The Competition Act, 2002 aims to foster and maintain market competition, protect consumer interests and prevent anticompetitive practices that cause or are likely to cause adverse effect on competition in the relevant markets of India. It also ensures freedom of trade carried on by other participants in markets in India. In order to achieve these objectives, it regulates anti-competitive agreements, abuse of dominance, combinations and also focusses on competition advocacy and reference. The Competition Commission of India, operational since May 20, 2009, was established under the Competition Act and equipped to deal with inquires relating to anti-competitive agreements, regulate combinations and abuse of dominant position. It has the jurisdiction to inquire into and pass orders, in relation to the aforementioned areas, even if they have been entered into, or are arising out of, or taking place outside India, or signed between one or more non-Indian parties, since they are capable of causing an appreciable adverse effect in the relevant market in India. The Competition (Amendment) Act, 2023

brings in numerous changes to the Competition Act, 2002, aiming to strengthen the regulation and foster a business-friendly environment.

### ***Other laws***

In addition to the above, our Company is also required to comply with the provisions of the Companies Act and rules framed thereunder, Indian Contract Act, 1872, Transfer of Property Act, 1882, Indian Stamp Act, 1899, and other applicable statutes imposed by the central and state governments and other authorities for our day-to-day business and operations.

## **LAWS APPLICABLE TO OUR MATERIAL SUBSIDIARIES**

### ***1. Capillary Technologies Europe Limited, our Material Subsidiary located in England, UK:***

#### ***Companies Act, 2006***

The Companies Act, 2006 received Royal Assent on November 8, 2006, and is the primary source of company law in the United Kingdom. It consolidates and replaces much of the previous company legislation and introduces comprehensive provisions relating to company formation, operation, and governance. It seeks to simplify company law and improve the regulatory framework for businesses while ensuring accountability and transparency in corporate conduct. Key features of the Companies Act, 2006 include the codification of directors' duties, revised rules on company decision-making and shareholder rights, streamlined procedures for company formation and maintenance, and enhanced reporting requirements. It also establishes the framework for derivative claims, company re-registration, and corporate restructuring, with the overarching aim of fostering good corporate governance and effective stakeholder engagement.

#### ***Data Protection Act, 2018 r/w UK General Data Protection Regulation (EU) 2016/679 ("UK GDPR")***

The Data Protection Act, 2018 received Royal Assent on May 23, 2018, and constitutes the primary legislative framework for data protection in the United Kingdom. Following the UK's withdrawal from the European Union, the EU General Data Protection Regulation (Regulation (EU) 2016/679) was retained in domestic law as the UK GDPR, with necessary amendments made by the Data Protection, Privacy and Electronic Communications (Amendments etc.) (EU Exit) Regulations, 2019. The Data Protection Act, 2018 supplements the UK GDPR by providing additional national rules on the processing of personal data, including provisions concerning public interest, national security, law enforcement, and intelligence services. It further sets out conditions for lawful processing, outlines the rights of data subjects, and details the obligations of data controllers and processors. It also establishes the Information Commissioner's Office as the UK's independent data protection authority, with enforcement powers including audits, fines, and civil penalties. Together, the UK GDPR and the Data Protection Act, 2018 provide a comprehensive legal framework for safeguarding personal data while enabling responsible data processing in both public and private sectors.

#### ***Employment Rights Act, 1996***

The Employment Rights Act, 1996 received Royal Assent on July 22, 1996, and serves as a foundational statute governing employment law in the United Kingdom. It consolidates and builds upon various pieces of earlier legislation relating to the rights and obligations of employees and employers. It provides for a broad range of statutory protections, including the right to a written statement of employment particulars, protection against unfair dismissal, redundancy rights, and provisions for maternity, paternity, and other family-related leave. It also addresses employee grievances, working time regulations, and entitlement to statutory minimum notice periods. Furthermore, it sets out mechanisms for enforcing these rights through employment tribunals and serves as a cornerstone in maintaining fair and equitable employment practices across the UK.

#### ***Immigration Act, 2016***

The Immigration Act, 2016 received Royal Assent on May 12, 2016, and forms part of the UK's legislative framework for controlling immigration and reinforcing compliance with immigration rules. It introduces a series of measures aimed at tackling illegal immigration and ensuring that only individuals with lawful status may access work, housing, and public services. Key provisions include the introduction of criminal offences for illegal working, expanded powers for immigration enforcement officers, and enhanced sanctions against employers and

landlords who fail to comply with right-to-work or right-to-rent requirements. It also establishes new arrangements for the enforcement of labour market regulations, creates the position of the Director of Labour Market Enforcement, and introduces a mandatory immigration skills charge on employers hiring skilled workers from outside the UK. The legislation underscores the government's commitment to a controlled and fair immigration system.

### ***National Minimum Wage Act, 1998***

The National Minimum Wage Act, 1998 received Royal Assent on July 31, 1998, and established for the first time a statutory minimum wage across the United Kingdom. It provides that workers are entitled to receive at least the national minimum wage, the rate of which is reviewed annually and varies depending on the worker's age and employment status (including apprentices). It imposes obligations on employers to pay eligible workers at or above the prescribed rates and to maintain appropriate records as evidence of compliance. Enforcement mechanisms under this legislation include investigation powers granted to HM Revenue and Customs (“HMRC”), the imposition of penalties for non-compliance, and provisions allowing workers to recover underpayments. The legislation is a cornerstone of UK labour law and aims to promote fairness in pay, prevent exploitation, and reduce income inequality.

### ***Equality Act, 2010***

The Equality Act, 2010 received Royal Assent on April 8, 2010, and consolidates and replaces over 100 previous pieces of anti-discrimination legislation in the United Kingdom. It provides a comprehensive legal framework to protect individuals from discrimination, harassment, and victimisation on the basis of certain protected characteristics, which include age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, and sexual orientation. It applies across a range of sectors, including employment, education, provision of goods and services, and the exercise of public functions. It imposes positive duties on employers, service providers, and public bodies to advance equality and foster good relations between people who share a protected characteristic and those who do not. The legislation also introduces the public sector equality duty and strengthens the ability of individuals to seek legal redress for discriminatory treatment.

### ***Worker Protection (Amendment of Equality Act 2010) Act, 2023***

The Worker Protection (Amendment of Equality Act 2010) Act, 2023 received Royal Assent on October 26, 2023, and amends the Equality Act, 2010 to enhance protections against workplace harassment. It introduces a proactive duty on employers to take reasonable steps to prevent sexual harassment of their employees during the course of employment. Failure to comply with this duty may result in an uplift in compensation awards in employment tribunal claims. The amendment seeks to strengthen the legal framework by shifting the focus from reactive measures to preventive action, thereby encouraging employers to foster safer and more respectful workplace environments. The legislation reflects broader societal efforts to address workplace misconduct and promote equality, dignity, and respect at work.

### ***The Working Time Regulations, 1998***

The Working Time Regulations, 1998 came into force on October 1, 1998, and implement the European Working Time Directive into domestic law within the United Kingdom. It provides a statutory framework governing working hours, rest periods, and annual leave entitlements for workers. Key provisions include the maximum average working week of 48 hours (subject to an individual opt-out), entitlement to a minimum daily and weekly rest period, rest breaks during working hours, and a statutory minimum of 5.6 weeks' paid annual leave. Special rules apply to night workers and to sectors with specific operational requirements. Employers are obligated to ensure compliance with this legislation and may face enforcement actions or claims in employment tribunals for breaches. It aims to protect health and safety in the workplace by promoting adequate work-life balance and safeguarding workers' rights.

### ***Employment Act, 2002***

The Employment Act, 2002 received Royal Assent on July 8, 2002, and introduced a number of significant reforms to UK employment law. It aims to promote fairness and flexibility in the workplace while supporting both employer and employee responsibilities. Key provisions include statutory rights to paid paternity and adoption

leave, extensions to maternity leave rights, and the establishment of statutory disciplinary and grievance procedures. It also introduced employment tribunal reforms, including provisions for fixed penalties and deposit orders, and measures to discourage weak claims and defences. Additionally, it laid the foundation for the statutory right to request flexible working for parents of young or disabled children. The legislation reflects a policy shift towards a more balanced and inclusive labour market.

### ***Social Security Contributions and Benefits Act, 1992***

The Social Security Contributions and Benefits Act, 1992 received Royal Assent on February 13, 1992, and forms a fundamental part of the UK's social security framework. It consolidates earlier legislation concerning national insurance contributions and entitlements to various social security benefits. It outlines the legal basis for the collection of contributions from employers, employees, and the self-employed, and establishes entitlement criteria for a range of contributory and non-contributory benefits, including jobseeker's allowance, employment and support allowance, maternity allowance, and state pension. It also includes provisions for statutory sick pay and statutory maternity pay. It serves as the legislative foundation for ensuring income security and social protection for individuals in the UK, particularly during periods of unemployment, illness, maternity, or retirement.

### ***Value Added Tax Act, 1994***

The Value Added Tax Act, 1994 received Royal Assent on July 5, 1994, and serves as the principal statute governing the imposition and administration of Value Added Tax ("VAT") in the United Kingdom. It consolidates prior value added tax legislation and implements the European Union's Sixth VAT Directive as it applied prior to the UK's withdrawal from the European Union. It provides for the chargeability, collection, and recovery of VAT on the supply of goods and services, imports, and intra-community acquisitions. It defines taxable persons, taxable supplies, and the applicable rates, including standard, reduced, and zero rates. It also outlines registration requirements, invoicing obligations, input tax recovery mechanisms, and penalties for non-compliance. HM Revenue and Customs is empowered to administer and enforce the provisions of the legislation. The legislation plays a central role in the UK's indirect taxation regime and constitutes a significant source of public revenue.

### ***Corporation Tax Act, 2010***

The Corporation Tax Act, 2010 received Royal Assent on March 3, 2010, and is part of a wider project to simplify and restate UK tax legislation. It consolidates and re-enacts various provisions relating to corporation tax in a more accessible and coherent format. It governs the assessment, calculation, and payment of corporation tax by companies resident in the UK and non-resident companies with UK-source income. Key provisions include rules on trading profits, capital allowances, group relief, losses, and distributions. It operates alongside the Corporation Tax Act, 2009 and the Taxation (International and Other Provisions) Act, 2010 to form the core legislative framework for corporate taxation. The legislation aims to facilitate tax compliance, reduce administrative complexity, and enhance clarity in the application of corporate tax law.

### **Acquisition of CPL by our Company**

#### **Details of all the agreements through which CPL became the Subsidiary of our Company**

1. ***Subscription agreement between our Company and CPL dated August 30, 2021 (“CPL Subscription Agreement”)***

Our Company entered into a subscription agreement with CPL, wherein CPL agreed to issue, and our Company agreed to subscribe to 1,385,135,135 shares, free from all encumbrances and as fully paid for a consideration of USD 0.0074 for each share aggregating to ₹750.04 million, amounting to 99.99% of the issued, subscribed and paid-up share capital of CPL. This CPL Subscription Agreement was entered into by our Company to hold majority shareholding of CPL, pursuant to which CPL became a subsidiary of our Company.

The effective date on which CPL became our Subsidiary was September 1, 2021.

In connection with the transfer, CPL obtained valuation report dated August 25, 2021 from Resurgent India Limited, which valued per share of CPL at ₹ 0.55 based on net asset value methodology.

2. ***Business and loan transfer agreement dated November 1, 2021, entered into between CTIPL and CPL (the “BTA”), as amended through deed of amendment dated December 21, 2021***

Our Material Subsidiary, CPL, entered into a BTA with one of our Promoter, CTIPL, on November 1, 2021. Under the BTA, CPL purchased the ‘business’, ‘business assets’ and ‘business liabilities’ of CTIPL up to and including the closing date of November 1, 2021. ‘Business’, ‘business assets’ and ‘business liabilities’ under the BTA include guarantees, intellectual property rights, insurance policies, employees, claims, tax benefits etc., along with encumbrances, if any, over such assets for a consideration of ₹16.13 million (USD 215,582). Thereafter, on December 21, 2021, CTIPL and CPL entered into a deed of amendment for amending the scope of “business assets” and “business liabilities” as mentioned in schedule 1 of the BTA. Under the BTA, CPL has assumed liabilities in relation to business of CTIPL arising both before as well as after November 1, 2021. In addition, CPL has indemnified CTIPL for any tax arising out of the transfer of the business.

CPL and CTIPL also agreed on a novation of the loan amounting to ₹224.49 million (USD three million) from Innoven Capital Singapore Pte. Ltd. to CTIPL as borrower under that loan to CPL with effect from November 1, 2021. Accordingly, CPL is now obliged to repay the loan and meet other obligations under the loan arising both prior as well as after November 1, 2021. CPL’s subsidiaries, Capillary Dubai, Capillary Malaysia, Capillary Shanghai, Capillary Technologies Inc., and CTIPL, became guarantors in relation to CPL’s performance of its obligations under the loan. There was no valuation report obtained for the purpose of such transfer.

The effective date of the transaction is November 1, 2021.

3. ***Deed of assignment dated November 20, 2021 entered into between CTIPL and CPL (the “Assignment Deed”)***

Pursuant to the business transfer, one of our promoter, CTIPL entered into the Assignment Deed with our Material Subsidiary, CPL, wherein CTIPL has assigned, assured, and transferred, unto CPL, absolutely, irrevocably and in perpetuity with full title guarantee, all rights, title, interests and benefits (whether vested, contingent or future) of CTIPL in Singapore and throughout the world, in its registered and unregistered trademarks and patents intellectual property, with effect from November 1, 2021.

4. ***Deed of Assignment dated February 26, 2023 entered into between CTIPL and CPL (the “CTIPL Assignment Deed”)***

Our Promoter, CTIPL and our Material Subsidiary, CPL, entered into an assignment deed dated February 26, 2023 whereby CTIPL assigned, assured and transferred unto our Company, absolutely, irrevocably and in perpetuity, with full guarantee and free and clear from all encumbrances all rights, title, interest and benefit in the intellectual property as set out in the CTIPL Assignment Deed with effect from 1 November 2021.

5. ***Deed of Assignment dated February 28, 2023 entered into between our Company and CPL (the “CPL Assignment Deed”)***

Our Material Subsidiary, CPL and our Company entered into an assignment deed dated February 28, 2023 whereby CPL assigned, assured and transferred unto our Company, absolutely, irrevocably and in perpetuity, with full guarantee and free and clear from all encumbrances all rights, title, interest and benefit in the intellectual property as set out in the CPL Assignment Deed with effect from 1 April 2022.

For details of our intellectual properties, see “Government and Other Approvals – Intellectual Property Rights” on page 537.

The effective date of the gift pursuant to which Capillary Shanghai became our Subsidiary is November 30, 2021.

#### **Acquisition of Persuade Loyalty, LLC (now known as Capillary Technologies LLC) and Persuade Holdings, Inc. by CPL**

##### ***Acquisition agreement dated September 1, 2021, entered into between Persuade Loyalty, LLC, Persuade Holdings, Inc. (collectively, the “Sellers”), CTIPL, CPL & Vessel Merger Sub, Inc. (the “Acquisition Agreement”)***

Pursuant to the Acquisition Agreement, our Subsidiary, CPL agreed to purchase and acquire, and the Sellers agreed to sell, transfer and assign 100% of their membership interests to CPL and its nominee, Jim Sturm. Further, pursuant to the Acquisition Agreement, CTIPL, the parent company of CPL, has acquired ownership of Persuade Holdings, Inc. (“PHI”) by way of a merger of PHI and Vessel Merger Sub, Inc. (wholly owned by CPL), wherein the separate corporate existence of Vessel Merger Sub, Inc. has ceased and PHI continued as the surviving entity post the merger as a wholly owned subsidiary of CPL. This merger qualifies as an “outbound reorganization” within the meaning of Section 367 of the United States Internal Revenue Code of 1986, and as a “reorganization” within the meaning of Section 368(a)(1)(A) and Section 368(a)(2)(E) of the United States Internal Revenue Code of 1986. The consideration, payable for both the acquisition as well as the merger, is subject to a maximum amount of ₹ 2,189.10 million (USD 30 million) payable in multiple tranches in calendar year 2021 (including a cash consideration payable at the closing date and by December 31, 2021) and calendar year 2023 respectively in terms of the Acquisition Agreement.

The total consideration amount for acquisition of Persuade Loyalty, LLC (“PLC”) and PHI (“Persuade Group”) were up to ₹1,076.25 million (USD 15.00 million) and up to ₹ 782.08 million (USD 10.90 million), respectively.

The acquisition price for acquisition of PLC and PHI were determined based on the projected total revenue and total EBITDA of the Persuade Group during the calendar year 2022. The modes of consideration for acquisitions of PLC and PHI were cash and issue of shares, respectively. Under the Acquisition Agreement, the total consideration for the acquisition of the Persuade Group included certain amounts to be paid based on an earn out variable model: (a) ₹179.38 million (USD 2.50 million) out of the total ₹1,076.25 million (USD 15.00 million) consideration amount for acquisition of PLC (“**Balance Consideration**”); (b) the consideration amount of ₹ 782.08 million (USD 10.90 million) for acquisition of PHI (“**PHI Consideration**”); and (c) the stock options amounting up to ₹ 299.51 million to be issued to employees of the Persuade Group. Under the defined earn out variable model, if the Persuade Group achieved a total revenue of at least ₹1,176.70 million (USD 16.40 million) during calendar year 2022 the Sellers were entitled to the Balance Consideration, the PHI Consideration, and the employees of the Persuade Group were entitled to the stock options amounting to ₹299.51 million. If the total revenue of at least ₹1,176.70 million (USD 16.40 million) was not achieved by the Persuade Group during calendar year 2022, then the earn out payable would be determined in proportion to the revenue achieved by the Persuade Group during Calendar year 2022 based on the formula prescribed under the Acquisition Agreement, and the remaining purchase consideration (after discharge of ₹ 896.87 million (USD 12.50 million) in cash for acquisition of PLC) was payable in the form of cash, and / or in the form of stock of CPL, and / or through issue of stock options to employees of PLC and PHI, in accordance with the terms of the Acquisition Agreement.

The effective date from which PLC (*now known as Capillary Technologies LLC*) and PHI became our Subsidiaries is September 1, 2021. PHI was closed on June 2, 2023 on account of internal restructuring. There existed no relationship between the Promoters and Directors of our Company with PLC and PHI.

As of March 31, 2023, the acquired enterprises i.e., Capillary Technologies LLC (formerly PLC), did not achieve the earn out condition mentioned in the Acquisition Agreement and hence the contingent consideration was no longer payable. The management of our Company, vide a waiver and consent letter granted an agreed ₹68.42 million (USD 0.83 million) in form of shares of CTIPL and a cash payout of ₹31.47 million (USD 0.38 million) as a final settlement with the erstwhile shareholders and the investors of the acquired enterprises. The balance cash payout of ₹113.82 million (USD 2.12 million), which was no longer payable had been written back to the consolidated statement of profit and loss as exceptional items.

There was no valuation report obtained for the purpose of such transfer.

**Capillary Technologies India Limited (formerly known as Capillary Technologies India Private Limited)**  
**Annexure V – Material Accounting Policies and Other Explanatory Notes to the Restated Consolidated Financial Information**  
**All amounts are in ₹ Million unless otherwise stated**

These Restated Consolidated Financial Information has been compiled by the Management of the Group from:

- (i) the audited special purpose consolidated interim financial statements of the Group as at and for the six months ended September 30, 2025 and September 30, 2024, prepared in accordance with the Indian Accounting Standard 34 ('Ind AS 34') "Interim Financial Reporting" as prescribed under Section 133 of the Act and other accounting principles generally accepted in India.
- (ii) the audited consolidated financial statements of the Group as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended from time to time and other accounting principles generally accepted in India.

The Restated Consolidated Financial Information have been prepared on a historical cost basis, except for certain financial assets and liabilities, (refer accounting policy regarding financial instruments) which have been measured at fair value.

**Measurement of Earnings before interest expense, tax, depreciation and amortisation before exceptional items (EBITDA)**

As permitted by the Guidance Note on Division II- Ind AS Schedule III to the Companies Act, 2013, the Group has elected to present Earnings before interest expense, tax, depreciation and amortization before exceptional items (EBITDA) as a separate line item on the face of the restated consolidated statement of profit and loss. In its measurement of EBITDA, the Group includes other income but does not include depreciation and amortization expense, finance costs and tax expenses/ (credit), net.

These Restated Consolidated financial statements are presented in ₹ and all values are rounded to the nearest millions (₹ 000,000), except when otherwise indicated.

**2.2 Functional and presentation currency**

These Restated Consolidated Financial Information are presented in Indian Rupees, which is the Parent Company's functional and presentation currency. The functional currency of foreign subsidiaries is the currency of the primary economic environment in which the entity operates. All the amounts have been rounded off to the nearest millions, unless otherwise indicated.

**2.3 Use of estimates and judgements**

The preparation of the Restated Consolidated Financial Information in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities as at the date of the Restated Consolidated Financial Information and reported amounts of revenues and expenses during the year. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the Restated Consolidated Financial Information in the period in which changes are made and, if material, their effects are disclosed in the notes to the Restated Consolidated Financial Information.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

**a. Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the Restated Consolidated Statement of Assets and Liabilities cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cashflows Model (DCF model). The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer note 37 for further disclosures.

**b. Contingencies**

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Group, including legal and contractual claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence and potential quantum of contingencies inherently involves the exercise of significant judgement and the use of estimates regarding the outcome of future events. Refer note 34 for further disclosures.

**c. Defined benefit plans (gratuity benefits)**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plan operated in India, the management considers the interest rates of government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for India.

Further details about gratuity obligations are given in note 31.

**d. Provision for expected credit losses of trade receivables and contract assets**

The Group estimates the credit allowance as per practical expedient based on the historical credit loss experience as enumerated in note 9.1.

**e. Leases - Estimating the incremental borrowing rate**

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates. Refer note 33 for further disclosures.

#### **f. Share-based payments**

The Group measures the cost of equity settled transactions with employees at the grant date using a Black Scholes model for 'Capillary Employees Stock Option Scheme' - 2021 (CESP). This estimation also requires determination of the most appropriate inputs to the valuation model including the expected life of the share options, risk free interest rate, volatility, dividend yield and time value of money and making assumptions about them. The assumptions and model used for estimating the fair value of the share-based payments are disclosed in note 32.

#### **g. Taxes**

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the same can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Refer note 29 for further disclosures.

The Group has carried forward tax losses. These losses relate to subsidiaries that have a history of losses and may not be used to offset taxable income elsewhere in the Group. The subsidiaries neither have any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the Group has determined that it cannot recognise deferred tax assets on the tax losses carried forward.

#### **h. Impairment of Goodwill**

Determining whether goodwill is impaired requires an estimation of the value in use of the respective asset or the relevant cash generating units. The value in use calculation is based on Discounted Cashflows Model ("DCF model"). The cash flows projections are based on estimates and assumptions which are considered as reasonable by the management and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate (i.e. 27.70% p.a) used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Group (refer note 5).

#### **i. Capitalisation of internally generated assets**

The Group has identified certain intangibles which are being internally generated. In the research phase of an internal project, an entity cannot demonstrate that an intangible asset exists that will generate probable future economic benefits. Therefore, this expenditure is recognised as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) shall be recognised if, and only if, an entity can demonstrate all of the following:

- (a) the technical feasibility of completing the intangible asset so that it will be available for use or sale.
- (b) its intention to complete the intangible asset and use or sell it.
- (c) its ability to use or sell the intangible asset.
- (d) how the intangible asset will generate probable future economic benefits. Among other things, the entity can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset.
- (e) the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset.
- (f) its ability to measure reliably the expenditure attributable to the intangible asset during its development.

The Group had completed the research and acceptance phase and the projects are in the development phase. The Group has done evaluation of the internally generated software and concluded on being treated as intangible assets. Refer note 05 for further disclosure.

#### **j. Cash flow statement**

Cash flows are reported using indirect method, whereby net profits/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

Restated Consolidated Statement of Cash Flows presented includes cash flows from both continuing and discontinued operations; amounts related to discontinued operations are disclosed in Note 42.

### **2.4 Operating Cycle**

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. The Group has ascertained its operating cycle being a period of 12 months for the purpose of classification of assets and liabilities into current and non-current. Accordingly, current assets do not include elements which are not expected to be realised within 12 months and current liabilities do not include items where the Group does not have an unconditional right to defer settlement beyond a period of 12 months, the period of 12 months being reckoned from the reporting date.

The Group presents assets and liabilities in the restated consolidated balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- ▶ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ▶ Held primarily for the purpose of trading
- ▶ Expected to be realised within twelve months after the reporting period; or
- ▶ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current

A liability is current when:

- ▶ It is expected to be settled in normal operating cycle
- ▶ It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period; or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Advance tax paid is classified as non-current assets.

**2.5 Fair value measurement**

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Restated Consolidated Financial Information are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Restated Consolidated Financial Statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- ▶ Disclosures for valuation methods, significant estimates and assumptions
- ▶ Quantitative disclosures of fair value measurement hierarchy
- ▶ Financial instruments (including those carried at amortised cost)

**3. Material accounting policy information**

This note provides a list of the material accounting policies adopted in the preparation of these Restated Consolidated Financial Information.

**3.1. Basis of Consolidation**

The Group determines the basis of control in line with the requirements of Ind AS 110 – Consolidated Financial Statements. The Restated Consolidated Financial Information comprise the financial statements of the Company and its subsidiaries as disclosed in Note 1.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- ▶ Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- ▶ Exposure, or rights, to variable returns from its involvement with the investee, and
- ▶ The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- ▶ The contractual arrangement with the other vote holders of the investee
- ▶ Rights arising from other contractual arrangements
- ▶ The Group's voting rights and potential voting rights
- ▶ The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Restated Consolidated Financial Statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Restated Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the Restated Consolidated Financial Statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the Restated Consolidated Financial Statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent Company, i.e., period ended on March 31. When the end of the reporting period of the Parent Company is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the Parent Company to enable the Parent Company to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the Consolidated Financial Statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the Parent's investment in each subsidiary and the Parent Company's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an

**Annexure V – Material Accounting Policies and Other Explanatory Notes to the Restated Consolidated Financial Information**  
**All amounts are in ₹ Million unless otherwise stated**

impairment that requires recognition in the Consolidated Financial Statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

**3.1. Basis of Consolidation (cont'd)**

(d) Non-controlling interest represents that part of the total comprehensive income and net assets of subsidiaries attributable to interests which are not owned, directly or indirectly, by the Parent Company.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- ▶ Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost
- ▶ Derecognises the carrying amount of any non-controlling interests
- ▶ Derecognises the cumulative translation differences recorded in equity
- ▶ Recognises the fair value of the consideration received
- ▶ Recognises the fair value of any investment retained
- ▶ Recognises any surplus or deficit in profit or loss
- ▶ Recognise that distribution of shares of subsidiary to Group in Group's capacity as owners
- ▶ Reclassifies the Parent Company's share of components previously recognised in OCI to profit or loss or transferred directly to retained earnings, if required by other Ind ASs as would be required if the Group had directly disposed of the related assets or liabilities.

**3.2 Business combinations including goodwill**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- ▶ Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- ▶ Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- ▶ Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- ▶ Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.
- ▶ Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Business combinations arising from transfers of interests in entities that are under the common control are accounted using pooling of interest method. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the Group recognises the gain directly in equity as capital reserve, without routing the same through OCI.

### **3.2 Business combinations including goodwill (cont'd)**

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal.

Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

### **3.3 Revenue recognition**

Revenue from operations is recognised when control of the promised services are transferred to the customer at a transaction price that reflects the consideration to which the Group expects to be entitled in exchange for those services.

To determine when to recognise revenue, the Company follows the following 5-step process:

- ▶ Identify the contract with a customer
- ▶ Identify the underlying performance obligation
- ▶ Determining the transaction price
- ▶ Allocating the transaction price to the performance obligation
- ▶ Recognising revenue when/ as performance obligation(s) are satisfied.

The transaction price of services rendered is net of variable consideration. The transaction price for a contract excludes any amounts collected on behalf of third parties. The Group has generally concluded that it is the principal in its revenue arrangements, except for the agency services below, because it typically controls the services before transferring them to the customer.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised service to the customer, which is when the customer obtains control of the service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the transaction price allocated to the satisfied performance obligation.

The specific recognition criteria described below must be met before revenue is recognised:

#### **Income from services**

##### **(i) Retainer services**

The Group is engaged in the business of providing cloud based intelligent customer engagement software solutions to retail chain operators. Revenue is recognized over the period as and when services are rendered in accordance with the arrangement with the customers.

##### **(ii) Campaign services**

The Group provides SMS campaign services that are bundled together with the retainer services. The Group recognises revenue based on the usage of messaging services i.e., when the Group's services are used based on the specific terms of the contract with customers. The Group recognises revenue either on a gross or net basis depending on the nature of its role in the transaction, in accordance with Ind AS 115. Revenue is recorded on a gross basis when the Company acts as a principal in the transaction, meaning it has control over the services before they are transferred to the customer.

Revenue is recorded on a net basis when the Company acts as an agent, facilitating a transaction between a supplier and the customer. In this case, the revenue is recorded as the net amount retained after deducting the cost of goods or services provided by the supplier.

The determination of whether revenue is recognised on a gross or net basis is assessed on a transaction-by-transaction basis, considering specific terms and conditions of each arrangement.

##### **(iii) Installation services**

The Group provides a one-time installation services that are bundled together with the retainer services. The Group recognises revenue from installation services over time because the customer simultaneously receives and consumes the benefits provided to them. The Group uses an input method in measuring progress of the installation services because there is a direct relationship between the Group's effort and the transfer of service to the customer. The Group recognises revenue on the basis of the milestone achieved which correlates with hours expended relative to the total expected hours to complete the service.

In contracts with customers where the retainership, campaign services and installation services are bundled together, the Group has applied the guidance in Ind AS 115 by applying the revenue recognition criteria for each distinct performance obligation. For allocating the transaction price, the Group has measured the revenue in respect of each performance obligation of a contract and its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Group is unable to determine the standalone selling price, the Group uses the expected cost-plus margin approach in estimating the standalone selling price.

The Group has assessed its revenue arrangements based on the substance of the transaction and business model against specific criteria to determine if it is acting as principal or agent.

## **Other income**

### **(i) Interest income**

For all financial instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in finance income in the Restated Consolidated Statement of Profit and Loss.

### **(ii) Dividend income**

Dividend income is recognized when the right to receive payment is established, which is generally when shareholders approve the dividend, provided it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

## **Contract balances**

### **Contract assets**

A contract asset is the right to consideration in exchange for services transferred to the customer. If the Group performs by transferring services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognized as and when the performance obligation is satisfied.

Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section (m) Financial instruments – initial recognition and subsequent measurement below

### **Trade receivables**

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section(m) Financial instruments – initial recognition and subsequent measurement below.

### **Deferred contract costs**

Deferred contract costs are incremental costs that are associated with acquiring customer contracts and consists primarily of sales commissions to employees and certain referral fees paid to third-party resellers. Incremental costs of obtaining a contract are capitalised if these costs are recoverable. Costs to fulfil a contract are capitalised if the costs relate directly to the contract, generate or enhance resources used in satisfying the contract and are expected to be recovered. Other contract costs are expensed as incurred.

Capitalised contract costs are subsequently amortised on a systematic basis as the Group recognises the related revenue. An impairment loss is recognised in profit or loss to the extent that the carrying amount of the capitalised contract costs exceeds the remaining amount of consideration that the Group expects to receive in exchange for the services to which the contract costs relate less the costs that relate directly to providing the goods and that have not been recognised as expenses. The maximum period over which the Group expects to derive benefit from contracts entered into with customers is 3 years. The Group has elected to apply the practical expedient to recognise the incremental costs of obtaining a contract as an expense when incurred where the amortisation period of the asset that would otherwise be recognised is over year or less.

### **Contract liabilities**

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related services to the customer).

## **3.4. Taxes on income**

### **Current income tax**

Tax expense comprises current and deferred tax during the year. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the Restated Consolidated Statement of Profit and Loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The Group's liability for current tax is calculated using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

### **Deferred tax**

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the Restated Consolidated Financial Statements and the corresponding tax bases used in the computation of the taxable profit and is accounted for using the liability model. Deferred tax liabilities are generally recognised for all the taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that is probable that future taxable profits will be available against which the temporary differences can be utilised.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Un-recognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

### 3.4. Taxes on income (cont'd)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

### 3.5. Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset are derecognised when replaced. All other repairs and maintenance are charged to restated consolidated profit and loss during the reporting period in which they are incurred.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset having useful life that is materially different from that of the remaining asset. These components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset.

Depreciation is calculated on a straight-line method the estimated useful lives of the assets as follows which is as per Schedule II of Companies Act, 2013

Sl. No.	Block	Useful lives estimated by the management (in years)
1	Office Equipment	5
2	Computers	3
3	Furniture and fixtures	10

Leasehold improvements are depreciated over the period of lease or estimated useful life, whichever is lower, on straight line basis

Based on internal assessment, the management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Consolidated Statement of Profit and Loss when the asset is derecognised.

### 3.6 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or infinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period with the effect of any change in the estimate being accounted for on a prospective basis. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the restated consolidated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the restated consolidated statement of profit and loss. when the asset is derecognised.

### Intellectual property rights and customer relationships

Intellectual property rights and customer relationships acquired on the acquisition of a subsidiary are measured initially on the basis of fair valuation determined in the Purchase Price Allocation as determined by an independent valuer. Following initial recognition, these intangibles are carried at the initial recognition value less accumulated amortisation and accumulated impairment losses, if any.

### 3.6 Intangible assets (cont'd)

#### Patents

Patents and licenses are measured on initial recognition at professional charges incurred on registration of such patents in connection with the Group customer servicing methodology and if the registration of the patent is under progress, the same is recognised as Intangible assets under development.

#### Internally generated intangible assets

Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the profit or loss in the year in which the expenditure is incurred.

Software product development are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete and use or sell the software and the cost can be measured reliably. The costs which can be capitalised including the cost of employees and overhead costs that are directly attributable to preparing the asset for its intended use.

The Group has identified certain intangibles which are being internally generated. In the research phase of an internal project, an entity cannot demonstrate that an intangible asset exists that will generate probable future economic benefits. Therefore, this expenditure is recognised as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) shall be recognised if, and only if, an entity can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale.
- its intention to complete the intangible asset and use or sell it.
- its ability to use or sell the intangible asset.
- how the intangible asset will generate probable future economic benefits. Among other things, the entity can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset.
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset.
- its ability to measure reliably the expenditure attributable to the intangible asset during its development.

The Group had completed the research and acceptance phase and the projects are in the development phase. The Group has done evaluation of the internally generated software and concluded on being treated as intangible assets. Refer note 4 for further disclosure.

Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit from the related project. Amortisation expense is recognised in the Restated Consolidated Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset.

#### Goodwill

Goodwill (i.e. intangible assets with indefinite useful lives) are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Amortisation is calculated on a straight line basis over the estimated useful lives of the assets as follows:

Sl. No.	Block	Useful lives estimated by the management (in years)
1	Computer software	3
2	Intellectual property rights and customer relationships	2 to 5
3	Patents	1 to 3
4	Internally generated intangible assets	3

### 3.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset until such time as the assets are substantially ready for the intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs

### 3.8. Leases

The Group has lease contracts for office spaces. The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies stated under 'Impairment of non-financial assets'.

### **3.8. Leases (cont'd)**

#### **Lease liabilities**

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

#### **Short term leases and leases of low-value assets**

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

### **3.9 Impairment of non-financial assets**

As at the end of each accounting year, the Group reviews the carrying amounts of its property plant and equipment and intangible assets determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the said assets are tested for impairment so as to determine the impairment loss, if any. Intangible assets with indefinite life are tested for impairment each year.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- (i) in the case of an individual asset, at the higher of the fair value less costs of disposal and the value in use; and
- (ii) in the case of a cash generating unit (CGU) (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit's net fair value less costs of disposal and the value in use.

The amount of value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life. For this purpose, the discount rate (pre-tax) is determined based on the weighted average cost of capital of the Group suitably adjusted for risks specified to the estimated cash flows of the asset.

For this purpose, a cash generating unit is ascertained as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Restated Consolidated Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. For this purpose, the impairment loss recognised in respect of a cash generating unit is allocated first to reduce the carrying amount of any goodwill allocated to such cash generating unit and then to reduce the carrying amount of the other assets of the cash generating unit on a pro-rata basis.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the Group operates, or for the market in which the asset is used.

Impairment losses are recognised in the Restated Consolidated Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Restated Consolidated Statement of Profit and Loss.

### **3.10 Provisions and contingent liabilities**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Restated Consolidated Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

If the Group has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. However, before a separate provision for an onerous contract is established, the Group recognises any impairment loss that has occurred on assets dedicated to that contract.

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Group cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

### **3.10 Provisions and contingent liabilities (cont'd)**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the Restated Consolidated Financial Information.

Provisions and contingent liability are reviewed at each restated consolidated balance sheet.

In respect of financial guarantees provided by the Group to third parties, the Group considers that it is more likely than not that such an amount will not be payable under the guarantees provided.

### **3.11 Retirement and other employee benefits**

#### **Short-term employee benefits**

All employee benefits expected to be settled wholly within twelve months of rendering the service are classified as short-term employee benefits. When an employee has rendered service to the Group during an accounting period, the Group recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as an expense unless another Ind AS requires or permits the inclusion of the benefits in the cost of an asset. Benefits such as salaries, wages and short-term compensated absences, bonus and ex-gratia etc. are recognised in Restated Consolidated Statement of Profit and Loss in the period in which the employee renders the related service.

#### **Defined contribution plans**

Eligible employees of the Group in the United States participate in a savings plan under Section 401(k) (“Plan”) of the United States Internal Revenue Code (the “Code”). The Plan allows employees to defer a portion of their annual earnings on a pre-tax basis through voluntary contributions to the Plan. The Group has a 401(k) plan that provides defined contribution retirement benefits for all the employees in the United States.

Eligible employees of the Group in India, Singapore, Indonesia and Malaysia participate in a defined contribution plan (Provident Fund, Social Security, Indonesia and Malaysia respectively) in accordance with the regulatory requirements in the respective jurisdictions. Both the employee and the relevant Company in the Group contribute to the fund at a specified percentage of the employee’s salary

The Group has no further obligation under defined contribution plans beyond the contributions made under these plans.

#### **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount based on the respective employee’s salary and the tenure of employment. The Group accounts for the liability for gratuity benefits payable in future based on an independent actuarial valuation report using the projected unit credit method as at the year end.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Restated Consolidated Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- a) The date of the plan amendment or curtailment, and
- b) The date that the Parent Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Restated Consolidated Statement of Profit and loss

- a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- b) Net interest expense or income.

### **3.12 Financial instruments**

Financial assets and financial liabilities are recognised when the Group becomes a party to the contract embodying the related financial instruments. All financial assets, financial liabilities and financial guarantee contracts are initially measured at transaction cost and where such values are different from the fair value, at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are immediately recognised in the Restated Consolidated Statement of Profit and Loss.

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Group’s business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price as disclosed under revenue recognition policy.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are ‘solely payments of principal and interest (SPPI)’ on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

#### **Effective interest method**

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

#### **(i) Financial assets**

##### **Financial assets at amortised cost**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### **3.12 Financial instruments (cont'd)**

#### **Financial assets measured at fair value**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial asset not measured at amortised cost or at fair value through other comprehensive income is carried at fair value through the Restated Consolidated Statement of Profit and Loss.

For financial assets maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### **Impairment of financial assets**

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through the Restated Consolidated Statement of Profit and Loss.

The Group recognises impairment loss on trade receivables using life time expected credit loss model, which involves use of provision matrix constructed on the basis of historical credit loss experience as permitted under Ind AS 109 – Financial Instruments.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

For financial assets maturing within one year from the balance sheet date, the carrying amounts approximates fair value due to the short maturity of these instruments.

#### **De-recognition of financial assets**

The Group de-recognises a financial asset only when the contractual rights to the cash flows from the financial asset expire, or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the carrying amount measured at the date of de-recognition and the consideration received is recognised in Restated Consolidated Statement of Profit or Loss.

#### **(ii) Financial liabilities and equity instruments**

##### **Classification as debt or equity**

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

##### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

##### **Financial liabilities**

Financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant. Interest bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the restated consolidated Statement of Profit and Loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

##### **b) De-recognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the restated consolidated Statement of Profit and loss.

##### **Off-setting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Restated Consolidated Statement of Assets and Liabilities if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

### **3.13 Segment reporting**

Operating segments are identified as those components of the Group (a) that engage in business activities to earn revenues and incur expenses (including transactions with any of the Group's other components); (b) whose operating results are regularly reviewed by the Group's Chief Operating Decision Maker (CODM) to make decisions about resource allocation and performance assessment and (c) for which discrete financial information is available. The accounting policies consistently used in the preparation of Restated Consolidated Financial Information are also applied to record revenue and expenditure in individual segments. Assets, liabilities, revenues and direct expenses in relation to segments are categorised based on items that are individually identifiable to that segment, while other items, wherever allocable, are apportioned to the segment on an appropriate basis. Certain items are not specifically allocable to individual segments as the underlying services are used interchangeably. The Group therefore believes that it is not practical to provide segment disclosures relating to such items and accordingly such items are separately disclosed as 'unallocated'.

### **3.13 Segment reporting (cont'd)**

An operating segment is classified as reportable segment if reported revenue (including inter-segment revenue) or absolute amount of result or assets exceed 10% or more of the combined total of all the operating segments.

CODM evaluates the performance of the Group based on the single operative segment as cloud based intelligent customer engagement software solutions to retail chain operators. Therefore, there is only one reportable segment called CRM services in accordance with the requirement of Ind AS 108 "Operating Segments".

### **3.14 Cash and cash equivalents**

Cash and cash equivalent in the Restated Consolidated Statement of Assets and Liabilities comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

### **3.15 Share-based payments**

Certain employees of the Group are entitled to share-based payments, whereby employees render services as consideration for equity instruments of the Parent Company (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate Black-Scholes valuation model.

That cost is recognised, together with a corresponding increase in capital contribution from the parent reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the Restated Consolidated statement of profit and loss for a year represents the movement in cumulative expense recognised as at the beginning and end of that year and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the Group or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

### **3.16 Foreign currency translation**

The Group's Restated Consolidated Financial Statements are presented in ₹, which is also the Parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

### **Transactions and balances**

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following:

- ▶ Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity (e.g., Restated Consolidated Financial Statements when the foreign operation is a subsidiary), such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.
- ▶ Exchange differences arising on monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.
- ▶ Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

### **Translations**

On consolidation, the assets and liabilities of foreign operations are translated into ₹ at the rate of exchange prevailing at the reporting date and their restated consolidated statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the Group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in the Restated Consolidated Statement of Profit and Loss.

### **3.16 Foreign currency translation (cont'd)**

Any goodwill arising in the acquisition/ business combination of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

### **3.17 Earnings per share**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders of the Parent Company by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Parent Company and the weighted average number of shares outstanding during the period are adjusted for the effects of all potential dilutive equity shares.

### **3.18 Initial Public Offering (IPO) Transaction cost**

The costs of an IPO that involves both issue and listing of new shares and listing the existing equity shares has been accounted for as follows:

- Incremental costs that are directly attributable to issuing new shares has been deferred until successful consumption of IPO upon which it shall be deducted from equity (net of any income tax benefit).
- Costs that relate to the stock market listing or are otherwise not incremental and directly attributable to issuing new shares, has been recorded as an expense in the restated consolidated statement of profit and loss as and when incurred.
- Costs that relate to both share issuance and listing has been allocated between those functions on a rational and consistent basis i.e. based on proportion of new shares issued to the total number of (new and existing) shares listed.

### **3.19 Discontinued operations**

A discontinued operation is a component of the Group, the operations and cash flow of which can be clearly distinguished from the rest of the Group and which:

- ▶ represents a separate major line of business or geographical area of operations,
- ▶ is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- ▶ is a subsidiary acquired exclusively with a view to resale

Classification as a discontinued operations occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale.

When an operation is classified as a discontinued operation, the comparative restated consolidated statement of profit and loss is re-presented as if the operation had been discontinued from the start of the comparative periods.

### **3.20 Exceptional items**

Exceptional items refer to items of income or expense within the restated consolidated statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company.

### **3.21 Recent accounting pronouncements**

#### **Amendments effective for the annual reporting periods beginning on or after 1 April 2026**

The recent amendments to Ind AS 1 have removed the carve-out from IFRS Accounting Standards which allowed entities to classify liabilities as non-current on account of breach of material provision for which the lender has agreed to waive the breach after the end of the reporting period but before the approval of the financial statements for issue. The amendment should be applied retrospectively in accordance with the principles of Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors.

These amendments are not expected to have a material impact on the Group in the current or future reporting periods and on the foreseeable future transactions.

<sup>1</sup>The Group has only one Cash Generating Unit (CGU) to which the goodwill (with indefinite life) acquired in earlier years through acquisition of business, has been entirely allocated. The carrying amount of goodwill as at the end of the each reported period is ₹ 2,910.53 million (September 30, 2024: ₹ 1,847.66 million, March 31, 2025: ₹ 1,884.98 million, March 31, 2024: ₹ 1,838.44 million, March 31, 2023: ₹ 1,652.92 million) respectively. As at September 30, 2025, the addition to goodwill amounting to ₹ 909.53 million pertains to acquisition of Kognitiv Solutions Inc., (refer note 39)

As at September 30, 2025, the goodwill amount pertains to Kognitiv Solutions Inc., acquired w.e.f May 1, 2025 amounting to ₹ 953.62 million, Capillary Technologies LLC (formerly known as Persuade Loyalty LLC), acquired w.e.f. September 1, 2021 amounting to ₹ 1,785.87 million and the balance amount of ₹ 171.04 million pertains to acquisition of Capillary Brierley Inc (formerly known as Brierley & Partners Inc., acquired w.e.f. April 1, 2023).

**5 Other Intangible assets and Intangible Assets Under Development (IAUD) (cont'd)**

Following key assumptions were considered while performing impairment testing annually

The recoverable amount has been calculated based on its value in use, estimated as the present value of projected future cash flows.

Key Assumption	March 31, 2025	March 31, 2024	March 31, 2023
Annual growth rate for next 5 financial year	4-10%	30-35%	30%
Terminal growth rate*	4%	4%	4%
Weighted average cost of capital % (WACC) after tax (Discount rate)	27.70%	28.00%	28.00%

\*growth rate has been considered after the end of respective financial years.

The Group performs an annual impairment assessment of the goodwill and had accordingly performed impairment assessment for the years ended March 31, 2025, March 31, 2024 and March 31, 2023. The Group has for the purpose of preparation of these restated consolidated financial information evaluated indicators which adversely impacts the assessment done for annual financial statements. The Group has not identified any such adverse indicators.

The growth rate used to estimate future performance are based on the conservative estimates from past performance.

The Group has conducted sensitivity analysis including sensitivity in respect of discount rate on the impairment assessment of goodwill.

The projections cover a period of five years, as the Group believes this to be the most appropriate time period over which to review and consider annual performances and thereafter fixed terminal value has been considered. The cash flow projection included specific estimates for five years and a terminal growth rate thereafter. The terminal growth rate was determined based on management estimate of the long term compound annual EBITDA growth rate, consistent with the assumption that the market participants would market.

Weighted Average Cost of Capital % (WACC) = Risk free return + ( Market risk premium x Beta for the Group)

The Group believes that any reasonably possible change in the key assumptions on which a recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

\*\* Total charge for the period/ year includes amortisation of ₹ Nil ( September 30, 2024- ₹ 20.95 million; March 31, 2025- ₹ 20.95 million; March 31, 2024- ₹ 21.59 million; March 31, 2023- ₹ 28.75 million) related to discontinued operations. Refer note 42.

Impairment analysis was performed for the goodwill on consolidation. The recoverable amount was determined using the value in use of the cash generating units. The recoverable amount exceeds the carrying value, accordingly no impairment charges were identified for the period / year ended September 30, 2025; September 30, 2024; March 31, 2025; March 31, 2024 and March 31, 2023.

### 30 Earnings / (Loss) per share (EPS)

Basic EPS is calculated by dividing the profit/ (loss) for the year attributable to equity shareholders of the Parent Company by the weighted average number of equity shares outstanding during the period/year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting periods/years. The weighted average number of equity shares outstanding during the periods/years is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted EPS is calculated by dividing the profit attributable to equity shareholders by the weighted average number of equity shares outstanding during the periods/years plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

Potential ordinary shares are anti-dilutive when their conversion to ordinary shares would increase earnings per share or decrease loss per share from continuing operations. The calculation of diluted earnings per share does not assume conversion, exercise, or other issue of potential ordinary shares that would have an antidilutive effect on earnings per share.

The following table reflects the income and share data used in the basic and diluted EPS computations:

	For the six-month period ended September 30, 2025	For the six-month period ended September 30, 2024	For the year ended March 31, 2025	For the year ended March 31, 2024	For the year ended March 31, 2023

*Considering the Group has incurred losses for the period ended September 30, 2024 and years ended March 31, 2024 and March 31, 2023, the effect of dilution on account of shares to be issued as per Capillary Employees Stock Option Scheme' - 2021 ('CESP') has been ignored as same would be anti-dilutive.					

### 31 Gratuity and other post-employment benefit plans

#### I) Defined contribution plan

The Group's contribution to provident fund and other funds are considered as defined contribution plans. The contributions are charged to the Restated Consolidated Statement of Profit and Loss as they accrue. Contributions to provident and other funds included in employee benefit expenses (refer note 25) are as under:

	For the six-month period ended September 30, 2025	For the six-month period ended September 30, 2024	For the year ended March 31, 2025	For the year ended March 31, 2024	For the year ended March 31, 2023

#### II) Defined benefit plan

##### Gratuity

The Parent Company operates an unfunded defined benefit gratuity plan for all of its qualifying employees in India. Gratuity is calculated as 15 days' salary for every completed year of service or part thereof in excess of 6 months and is payable on retirement / termination/ resignation. The benefit vests on completing 5 years of service by the employee. The Parent Company makes provision of such gratuity liability in the books of account on the basis of actuarial valuation as per projected unit credit method.

The Group also operates an unfunded defined benefit gratuity plan for all of its qualifying employees in Dubai. The Company has determined estimated liabilities for employee benefits for meeting the minimum benefits required to be paid to the qualifying employees as required under UAE Labour Law. Under UAE Labour Law, if an employee served for more than 1 year but less than 5 years, the employee is entitled to 21 days' salary for each completed year of service and if an employee has served for more than 5 years, the employee is entitled to 30 days' of salary for each completed year of service.

The following tables summarise the components of net benefit expenses recognised in the Restated Consolidated Statement of Profit and Loss and amounts recognised in the Restated Consolidated Balance Sheet for gratuity benefit:

vi. The principal assumptions used in determining gratuity obligations for the Parent Company's plan are shown below:

	As at September 30, 2025	As at September 30, 2024	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023

Retirement age	58	58	58	58	58
Mortality rate	Indian Assured Lives Mortality (2012-14) Ultimate				

Notes:

- i) The estimate of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market.  
ii) Plan characteristics and associated risks:

The Gratuity scheme is a Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

- a. Discount rate risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase  
b. Salary inflation risk : Higher than expected increases in salary will increase the defined benefit obligation  
c. Demographic risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

(This space has been intentionally left blank)

31 Gratuity and other post-employment benefit plans (cont'd)

vii. A quantitative sensitivity analysis for significant assumption is as shown below:

	As at September 30, 2025	As at September 30, 2024	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
<b>Discount rate</b>					
Impact on defined benefit obligation due to 1% increase in discount rate	(6.22)	(4.49)	(4.89)	(3.31)	(2.57)
Impact on defined benefit obligation due to 1% decrease in discount rate	7.18	5.12	5.57	3.70	2.86
<b>Salary escalation rate</b>					
Impact on defined benefit obligation due to 1% increase in salary escalation rate	3.52	2.63	2.81	1.96	1.57
Impact on defined benefit obligation due to 1% decrease in salary escalation rate	(3.62)	(2.68)	(2.84)	(1.94)	(1.62)
<b>Attrition rate</b>					
Impact on defined benefit obligation due to 1% increase in attrition rate	(0.48)	(0.46)	(0.62)	(0.31)	(0.23)
Impact on defined benefit obligation due to 1% decrease in attrition rate	0.47	0.45	0.63	0.30	0.21

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Restated Consolidated Statement of Assets and Liabilities. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous year.

32 Share-based payments

Description of the share based payment arrangements

The Group has Capillary Employee Stock Option Scheme – 2021 ("CESP") plan. The share-based payment arrangements of the Group is as below:

A Capillary Employee Stock Option Scheme - 2021 ("CESP")

The shareholders of Parent Company on October 29, 2021 had approved the 'Capillary Employees Stock Option Scheme' - 2021 (CESP). The plan provides for the issue of 7,175,000 options to eligible employees and eligible directors of the Capillary Group. Capillary Group shall mean the Parent Company, its wholly owned subsidiary and step-subidiaries, either existing or as may be incorporated from time to time and its Ultimate Holding Company and any successor company thereof.

The plan is administered by a Board of Directors of the Parent Company / nomination and remuneration committee constituted by the Board (as the case may be) (Administrator). Under CESP, all employees of the Group are entitled to a grant of options once they have been in service and eligible based on conditions determined by the Administrator. The exercise price shall be as may be determined by the Administrator at the time of grant of options provided that the exercise price shall not be more than the fair market value of the shares as on the date of grant of options.

There shall be a minimum period of one (1) year between the grant of options and vesting of options, with a maximum period of Seven (7) to ten (10) years from the date of grant of such options. Vesting of options would be subject to continued employment with the Group and the options would vest on a quarterly / yearly basis. The option grantee may exercise the vested options as per the scheme.

Measurement of fair values

The fair value of the share options granted under the CESP is estimated at the grant date using Black-Scholes method, taking into account the terms and conditions upon which the share options were granted. The model outputs the implied total value of the enterprise when the valuation accounts for all share class rights and preferences, as of the date of the latest financing by the Parent Company.

The following table lists the inputs to the option pricing models for the period/year ended:

	September 30, 2025	September 30, 2024	March 31, 2025	March 31, 2024	March 31, 2023
Dividend yield (%)	0%	0%	0%	0%	0%
Expected volatility (%)	31.21%- 31.82%	62.40%	61.90%	62.40%	62.40%
Risk-free interest rate (% p.a.)	6.28%-6.48%	7.12%	6.60%	7.12%	7.27%
Expected life of option (years)	6.75- 9.00	5.5	5.5	5.5	5.57 - 6.25
Weighted average share price as per Pre discount for lack of marketability ("DLOM")	₹ 500.10	₹ 308.00	₹ 526.70	₹ 307.80	₹ 376- ₹ 308
Weighted average share price as per Post discount for lack of marketability ("DLOM")	₹ 500.10	₹297.25	₹509.51	₹297.25	₹355.96 - ₹ 298.8

The expected life of the share options is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

Movements during the period

The following table illustrates the number and Weighted Average Exercise Price (WAEP) of, and movements in, CESP plan during the period/year:

	September 30, 2025		September 30, 2024

The weighted average remaining contractual life of vested option as at September 30, 2025 is 7.06 years (March 31, 2025- 7.19 years and 8.61 years), (September 30, 2024 - 7.22 years and 8.87 years), (March 31, 2024- 7.72 years and 8.27 years), (March 31, 2023- 8.92 years and 9.20 years) for unvested options.

(This space has been intentionally left blank)

### 32 Share-based payments (cont'd)

B Effective July 1, 2025, the Company has amended its existing CESP plan, whereby the options granted to employees shall vest only upon the achievement of market linked condition of share price and continued employment with the Group at any time during the vesting period with a maximum period of ten (10) years. The options are granted at an exercise price of 20% discount on the fair market value of share price at the grant date of options other than USA employees wherein those are granted at an exercise price of fair market value of share price. The option grantee may exercise the vested options as per the scheme.

#### Measurement of fair values

The Fair Value of the Options has been calculated using the 'Black-Scholes Option Pricing' methodology and combination of 'Binomial model' & 'Monte Carlo Simulation' methodology.

The following table lists the inputs to the models used for the period ended September 30, 2025:

	For the six-month period ended 30 September 2025
Dividend yield (%)	0%
Expected volatility (%)	31.17%- 31.41%
Risk-free interest rate (% p.a.)	6.46%-6.74%
Expected life of option (years)	8.70- 9.00 years
Weighted average share price	₹500.10

The expected life of the share options is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

### 33 Leases

#### Company as a lessee

The Group has lease contracts for office facilities. The lease term of the office facilities is generally 1-3 years. The Group also has certain leases of offices with lease terms of 12 months or less or low value. The Group applies the leases of low value assets and short term leases recognition exemptions for these leases.

The Group has lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

**34 Contingent liabilities**

In the ordinary course of business, the Group faces claims and assertions by various parties. The Group assesses such claims and assertions and monitors the legal environment on an ongoing basis with the assistance of external legal counsel, wherever necessary. The Group records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its Restated Consolidated Financial Information, if material. For potential losses that are considered possible, but not probable, the Group provides disclosure in the Restated Consolidated Financial Information but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Group believes that none of the contingencies described below would have a material adverse effect on the Group's financial condition, results of operations or cash flows.

(i) The Honourable Supreme Court of India in the month of February 2019 had passed a judgement relating to definition of wages under the Provident Fund Act, 1952. The management is of the view that there are interpretative challenges on the application of the judgement retrospectively. In the absence of reliable measurement of the provision for earlier years, the Group has made a provision for provident fund contribution pursuant to the judgement only from the date of Supreme Court Order. The Group will evaluate its position and update its provision, if required, on receiving further clarity on the subject. The Group does not expect any material impact of the same.

Notes:-

- The transactions with related parties are made by the Group on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year end are unsecured and settlement occurs in cash.
- As the liability for gratuity and leave encashment is provided on an actuarial basis for the Group as a whole, the amount pertaining to remuneration to the key managerial personnel are not ascertainable and, therefore, not disclosed above.
- Refer note 15 for borrowings with regard to securities given by the Ultimate Holding Company for the loan facility availed by the Parent Company.
- In respect of the transactions with the related parties, the Company has complied with the provisions of Section 188 and Section 177 of the Companies Act, 2013 where applicable, and the details have been disclosed above, as required by the applicable accounting standards.
- The above information has been determined to the extent such parties have been identified on the basis of information available with the Group.

36 Segment information - Disclosure pursuant to Ind AS 108 'Operating Segments'

(a) Information about reportable segments

Basis of identifying operating segments / reportable segments:

(i) Basis of identifying operating segments:

Operating segments are identified as those components of the Group (a) that engage in business activities to earn revenues and incur expenses (including transactions with any of the Group's other components); (b) whose operating results are regularly reviewed by the Group's Management Team who are Chief Operating Decision Maker (CODM) to make decisions about resource allocation and performance assessment and (c) for which discrete financial information is available. The accounting policies consistently used in the preparation of these restated consolidated financial information are also applied to record revenue and expenditure in individual segments. Assets, liabilities, revenues and direct expenses in relation to segments are categorised based on items that are individually identifiable to that segment, while other items, wherever allocable, are apportioned to the segment on an appropriate basis. Certain items are not specifically allocable to individual segments as the underlying services are used interchangeably. The Group therefore believes that it is not practical to provide segment disclosures relating to such items and accordingly such items are separately disclosed as 'unallocated'.

(ii) Reportable segments:

An operating segment is classified as reportable segment if reported revenue (including inter-segment revenue) or absolute amount of result or assets exceed 10% or more of the combined total of all the operating segments.

Two or more operating segments may be aggregated into a single operating segment if aggregation is consistent with the core principle of Ind AS 108 - 'Operating Segments' i.e. the segments have similar economic characteristics and the segments are similar in the nature of services, type or class of customer for their services etc. CODM evaluates the performance of the Group based on the single operative segment as cloud based intelligent customer engagement software solutions to retail chain operators ('CRM Services'). Therefore, there is only one reportable segment called CRM services in accordance with the requirement of Ind AS 108 "Operating Segments".

(iii) Major Customers greater than 10% of total revenue:

Revenue from one customer for September 30, 2025, September 30, 2024, March 31, 2025, and March 31, 2023 each that individually accounted for more than 10% of the total revenue. No customer for March 31, 2024 individually accounted for more than 10% of the total revenue.

37 Financial instruments

This section gives an overview of the significance of financial instruments for the Group and provides additional information on Restated Consolidated Balance Sheet items that contain financial instruments.

The details of material accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 3.12.

(a) Financial assets and liabilities

The management assessed that cash and bank balances, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Non-current financial assets and liabilities are discounted using an appropriate discounting rate where the time value of money is material. There are financial instruments which are measured at fair value through profit and loss as at September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023.

The following tables presents the carrying value and fair value of each category of financial assets and liabilities as at September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023:

**(b) Fair value hierarchy**

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

(i) Short-term financial assets and liabilities are stated at carrying value which is approximately equal to their fair value.

(ii) Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Group could have realised or paid in sale transactions as of respective dates. As such, fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date.

(iii) There have been no transfers between Level 1, Level 2 and Level 3 for the year ended September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023.

**(c) Financial risk management objectives and policies**

The Group's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade receivables, other financial assets and cash and bank balances derived from its operations.

In the course of its business, the Group is exposed primarily to fluctuations in foreign currency exchange rates, interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments. The Group has a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

- (i) create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Group's business plan.
- (ii) achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

**Market risk**

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

**(1) Market risk- Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates. Thus profits and cash flows from financing activities are dependent on market interest rates. Further, any decline in the credit rating of the Group will have an adverse impact on the interest rates.

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows:

Particulars	September 30, 2025	September 30, 2024	March 31, 2025	March 31, 2024	March 31, 2023
<b>Fixed rate instruments:</b>					
Financial liabilities	13.93	191.26	13.54	366.38	935.63
<b>Variable rate instruments:</b>					
Financial liabilities	875.45	269.00	987.4	405.28	539.08

**Interest rate sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on the portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Increase/decrease in basis points	For the six-month period ended September 30, 2025	For the six-month period ended September 30, 2024	For the year ended March 31, 2025	For the year ended March 31, 2024	For the year ended March 31, 2023
Interest rate fluctuation	+50	(4.38)	(1.35)	(4.94)	(2.03)	(2.70)
Interest rate fluctuation	-50	4.38	1.35	4.94	2.03	2.70

(2) Market risk- Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating and financing activities. The Group's exposure to foreign currency changes from operating activities is not material.

The following table shows foreign currency exposure at the end of reporting period:

The sensitivity analysis has been based on the composition of the Group's financial assets and liabilities at September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023. The period/year end balances are not necessarily representative of the average debt outstanding during the period/year.

(ii) Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 1,770.35 million, ₹ 1,595.97 million, ₹ 1,611.21 million, ₹ 1,456.51 million and ₹ 801.11 million as at September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023 respectively. Trade receivable includes both secured and unsecured receivables and are derived from revenue earned from domestic and overseas customers. Credit risk has always been managed by the Group through taking security deposits and bank guarantees from customers, credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit terms in the normal course of business. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime expected credit losses at each reporting date, right from initial recognition. The company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix takes into account, available external and internal credit risk factors and the Company's historical experience with customers. An impairment analysis is performed at each reporting date on an individual basis based on historical data of credit losses. Credit risk on cash and cash equivalents including other bank balances, investment in mutual funds and debt securities is limited as the Company generally invest in deposits with banks, financial institutions and counterparties with high credit ratings assigned by international and domestic credit rating agencies. For ageing analysis of the trade receivables, refer note 9.

Credit risk from balances with bank and financial institutions and in respect to loans and security deposits is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Credit risk on liquid funds and Inter Corporate deposits is limited because the counterparties are banks and companies with high credit-ratings assigned by credit-rating agencies.

Credit risk exposure

The allowance for lifetime expected credit loss on customer balances amounts to ₹ 137.57 million, ₹ 135.76 million, ₹ 128.28 million, ₹ 53.33 million and ₹ 10.53 million as at year ended September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023 respectively.

(d) Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group has obtained fund based working capital limits from a bank. The Group invests its surplus funds in bank fixed deposit, which carry no or low market risk. The Group monitors its risk of shortage of funds on a regular basis. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, etc. The Group assessed the concentration of risk with respect to refinancing its debt and concluded it to be medium.

Notes:

1. The above disclosure excludes interest to be paid on the borrowings, by the Group.

38 Capital management

The Group's capital management is intended to create value for shareholders by facilitating the meeting of long-term and short-term goals of the Group.

The Group determines the amount of capital required on the basis of annual business plan coupled with long term and short term strategic investment and expansion plans. The funding needs are met through equity, cash generated from operations, long-term and short-term borrowings and support from the Ultimate Holding Company.

For the purpose of the Group's capital management, capital includes issued equity capital, and all other equity reserves attributable to the equity share holders of the Group.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors debt equity ratio, which is Net debt i.e. total debts less funds divided by total equity. The Group's policy is to keep the gearing ratio at an optimum level to ensure that the debt related covenants are complied with.

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings.

During the period ended September 30, 2025, September 30, 2024 and year ended March 31, 2025, March 31, 2024 and March 31, 2023, the Group had repaid certain borrowings with the amount of funds generated during the period/year raised during the previous year in order to de-leverage the balance sheet. Further, owing to right issues by the parent company and certain advances received from the customer in a subsidiary at the end of March 2024, the Cash and cash equivalents have increased considerably, leading to Gearing ratio being in the negative. No changes were made in the objectives, policies or processes for managing capital during the period ended September 30, 2025, September 30, 2024, year ended March 31, 2025, March 31, 2024 and March 31, 2023.

### 39 Business Combinations

#### (a) Acquisitions during the period ended September 30, 2025

On March 31, 2025, Capillary Technologies LLC, a subsidiary of Capillary Pte. Ltd. (which is wholly owned by the Parent Company), entered into a Sale and Purchase Agreement with Loyalty Solutions Holdings US Inc. (LSI) to acquire 100% equity interest in Kognitiv Solutions Inc., a company incorporated in Ontario, Canada which is a wholly owned subsidiary of LSI and to purchase the rights, title and interest of the Intellectual property.

As part of the transaction, Capillary Technologies LLC also entered into a separate Asset Purchase Agreement with Kognitiv US LLC (another wholly owned subsidiary of LSI) to acquire customer contracts, customer relationships, and associated receivables. These agreements jointly constitute a business combination in accordance with the principles of Ind AS 103 w.e.f. May 1, 2025 for a consideration of Canadian dollar 23.44 million (net of net working capital amounting to Canadian dollar 0.56 million). This strategic acquisition is expected to enhance the Company's loyalty business operations in the United States and establish a presence in the Canada location.

**43 Assessment of arm's length for related party transactions**

The Group is subject to local transfer pricing regulations in each of the geographies in which it operates for determining the arm's length income and expenditure as derived from the related party transactions. These regulations, require maintenance of prescribed documents and/or furnishing the certificate by the management or an external accountant within the specified due date under the regulations to support the arm's length outcome determination by the Group. Based on these guidelines, the management is of the opinion that the related party transactions are at arm's length and does not warrant any adjustment, on the part of the management, on the amount of tax expense and tax provision reported in the Restated Consolidated Financial Information. The Parent Company is in the process of conducting a transfer pricing study as required by the transfer pricing regulations under the Income Tax Act 1961 ('regulations') to determine whether the transactions entered during the period ended March 31, 2025 with the associated enterprises were undertaken at "arm's length price". The management confirms that all the transactions with associate enterprises are undertaken at negotiated prices on usual commercial terms and is confident that the aforesaid regulations will not have any impact on the Restated Consolidated Financial Statements, particularly on the amount of tax expense and that of provision for taxation.

The audited standalone financial statements of our Company, our Subsidiaries, namely Capillary Pte. Limited, Capillary Technologies Europe Limited, Capillary Brierley Inc., Capillary Technologies LLC, and Capillary Dubai, as at and for the Fiscals 2025, 2024 and 2023, respectively (“**Group’s Financial Statements**”) are available at <https://www.capillarytech.com/investors/>.

Our Company is providing these links to its website solely to comply with the requirements specified in the SEBI ICDR Regulations. The Group’s Financial Statements do not constitute, (i) a part of this Red Herring Prospectus; or (ii) a prospectus, a statement in lieu of a prospectus, an offering circular, an offering memorandum, an advertisement, an offer or a solicitation of any offer or an offer document to purchase or sell any securities under the Companies Act, the SEBI ICDR Regulations, or any other applicable law in India or elsewhere. The Group’s Financial Statements should not be considered as part of information that any investor should consider subscribing for or purchase any securities of our Company, or any entity in which its shareholders have significant influence (collectively, the “**Group**”) and should not be relied upon or used as a basis for any investment decision. None of the Group or any of its advisors, nor the BRLMs or the Promoters, nor any of their respective employees, directors, affiliates, agents or representatives accept any liability whatsoever for any loss, direct or indirect, arising from any information presented or contained in the Group’s Financial Statements or the opinions expressed therein.

The accounting ratios required under Clause 11 of Part A of Schedule VI of the SEBI ICDR Regulations are given below:

Particulars	As on/ For the six months period ended September 30, 2025	As on/ For the six months period ended September 30, 2024	As on/ For Fiscal 2025	As on/ For Fiscal 2024	As on/ For Fiscal 2023
Basic Earnings/ (loss) per Equity Share from continuing operations (₹)	0.14	(1.40)	1.93	(12.15)	(17.63)
Diluted Earnings/ (loss) per Equity Share from continuing operations (₹)	0.14	(1.40)	1.91	(12.15)	(17.63)
Net Worth (₹ in million)	5,093.75	4,511.53	4,814.24	4,521.29	997.46
Return on Net Worth (%)	0.22%	(1.51%)	2.85%	(21.52)%	(135.93)%
Net Asset Value Per Equity Share (₹)	68.59	60.62	65.03	79.20	19.77
Earnings before interest expense, taxes, depreciation and amortisation before exceptional items (EBITDA) (₹ in million)	398.22	240.72	785.73	(14.91)	(583.39)

The ratios have been computed as under:

- Basic earnings per share (₹) is calculated by dividing Profit/ (loss) attributable to equity shareholders of the Parent Company for basic/ diluted EPS for continuing operations by the weighted average number of equity shares outstanding during the period/year. The weighted average number of equity shares outstanding for the periods ended September 30, 2025, September 30, 2024, during Fiscal 2025, 2024 and 2023 was 73.32 million, 73.23 million, 73.25 million, 56.27 million and 50.24 million respectively.
- Diluted earnings per share (₹) is calculated by dividing Profit/ (loss) attributable to equity shareholders of the Parent Company for basic/ diluted EPS for continuing operations by the weighted average number of equity shares adjusted for the effect of dilution. Weighted average number of equity shares adjusted for the effect of dilution are computed as a sum of weighted average number of equity shares outstanding during the period/year and effect of dilution due to employee share options. Weighted average number of equity shares adjusted for the effect of dilution for the periods ended September 30, 2025, September 30, 2024, during Fiscal 2025, 2024 and 2023 was 74.26 million, 74.42 million, 74.03 million, 57.09 million and 50.46 million respectively.
- “net worth” means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation, amalgamation and capital reserve. For further details, see Note 13 and 14 of the “Restated Consolidated Financial Information” on pages 427 and 429, respectively, and “Other Financial Information - Reconciliation of Non-GAAP Measures” on page 466.
- Return on Net Worth (%) is Restated profit/ (loss) for the period/ year for the Fiscal divided by the average of Net Worth of the relevant period/ Fiscal and previous period/ Fiscal.
- Net asset value per equity share is Net worth as of the end of the Fiscal divided by the weighted average outstanding equity shares considered for diluted EPS as the end of the Fiscal. For further details, see Note 30 of the “Restated Consolidated Financial Information” on page 440.

6. *EBITDA refers to Earnings before interest expense, taxes, depreciation and amortisation and Exceptional Items as disclosed in our Restated Consolidated Financial Information.*

#### **Reconciliation of Non-GAAP measures**

For details in relation to reconciliation of non-GAAP measures, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Financial Measures - Reconciliation of Non-GAAP Measures*” on page 476.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*This Red Herring Prospectus may include forward-looking statements that involve risks and uncertainties, and our actual financial performance may materially vary from the conditions contemplated in such forward-looking statements as a result of various factors, including those described below and elsewhere in this Red Herring Prospectus. For further information, see "Forward-Looking Statements" on page 21. Also read "Risk Factors" and "- Significant Factors Affecting our Results of Operations and financial condition" on pages 34 and 467, respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations.*

*Our Company's financial year commences on April 1 and ends on March 31 of the subsequent year, and references to a particular Fiscal are to the 12 months ended March 31 of that year. Unless otherwise stated or the context otherwise requires, the financial information for the six-month period ended September 30, 2025 and September 30, 2024 and Fiscal 2025, 2024 and 2023 included in this section has been derived from our Restated Consolidated Financial Information included in this Red Herring Prospectus. For further information, see "Restated Consolidated Financial Information" on page 398. During Fiscal 2025, we changed our business model for campaign services and entered into new arrangements with our service providers pursuant to which, we act as an agent and not as a principal for campaign services transactions. Accordingly, the revenue generated from campaign services during the six-month period ended September 30, 2025, September 30, 2024 and Fiscal 2025 has been recorded on a net basis (i.e., net of cost of campaign services) in our Restated Consolidated Statement of Profit and Loss. However, Fiscal 2024 and Fiscal 2023, income from cost of campaign services was recognized on a gross basis as we acted as principals for campaign services transactions. Accordingly, the corresponding cost of campaign services was recognized as an expense in our Restated Consolidated Statement of Profit and Loss for the said periods and Fiscals. To ensure comparability of revenue from operations for the periods/years presented in our Restated Consolidated Financial Information, 'Net Revenue' (defined as revenue from operations less cost of campaign services) has also been disclosed for all the presented periods/years in this section.*

### PRESENTATION OF FINANCIAL INFORMATION

Our Restated Consolidated Financial Information for the six-month period ended September 30, 2025 and September 30, 2024 and Fiscals 2025, 2024 and 2023 are derived from our audited financial statements as at and for the six-month period ended September 30, 2025 and September 30, 2024 and the years ended March 31, 2025, 2024, 2023 which were prepared in accordance with Indian Accounting Standard as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India and restated in accordance with the SEBI ICDR Regulations from time to time and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India.

### SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

***Our ability to retain existing customers and acquire new customers***

Our revenue from operations is significantly dependent on our ability to maintain our relationship with our key customers and expand our existing customer base. We serve a number of customers that includes both enterprise and small and medium sized businesses across industries and geographies and as of September 30, 2025, we served Enterprise Customers (defined as customers contributing more than ₹ 4.00 million in revenue from operations in the six-month period ended September 30, 2025 and September 30, 2024 and ₹ 8.00 million in revenue from operations in a Fiscal) including 19 Global Fortune 500 companies' present across 47 countries. Certain of our key customers include Tata Digital, ABFRL, Dominos Pizza Indonesia, PT Blue Bird Tbk, Aditya Birla Fashion Limited, Arvind Fashions Limited, Metro Brands Limited, Puma Sports India Private Limited, Vishal Mega Mart and InterGlobe Aviation Limited.

Set forth below are certain details regarding revenues derived from our top customer, top five customers and top ten customers for the periods/years indicated:

Particulars	Six-month period ended September 30, 2025		Six-month period ended September 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023

\*References to 'Customer' are to customers in a particular Fiscal and does not refer to the same customers across all periods/Fiscals.

We typically enter into long-term engagements with our customers and generate significant revenues from repeat business based on our successful prior engagements. The agreements we enter into with our customers are typically renewed/ automatically renewed, either on an annual basis or in some cases are for a period of three to ten years or unless terminated by either party to an agreement. The minimum term of contracts with the Company's top 10 customers during the six-month period ended September 30, 2025 and Fiscal 2025 is three years. Our long-term relationships with marquee clientele is demonstrated by the average length of our relationship of over 2.5 years with our top 10 customers, as of September 30, 2025.

Maintaining customer relationships is crucial for our growth and profitability. If customers terminate contracts, negotiate adverse terms, or choose not to renew, it could significantly impact our business. Factors such as economic conditions, socio-political situations, financial changes, and internal restructuring can affect our ability to retain customers. The loss of any major customer or a significant decrease in services provided could materially affect our financial performance.

We have expanded into new verticals in the last three Fiscals such as healthcare with an American healthcare company as our customer that provides technology services, pharmacy care services and various direct healthcare services and also broadened our customer base in the CPG and BFSI verticals with the addition of Polycab India Limited ("Polycab"), an Indian adhesives manufacturing company and a European bank offering financial services focused on supporting personal and business growth. Contribution to our revenues from healthcare, consumer packaged goods and BFSI and telecommunications verticals increased from 16.65% in Fiscal 2023 to 46.48% in Fiscal 2025 and 45.13% in six-month period ended September 30, 2024 to 42.01% in six-month period ended September 30, 2025. For further information, see " – Strong Sales Engine and Partnership Network Resulting in Addition of New Brands" on page 292. Acquiring new customers and realizing anticipated benefits involves several challenges. These challenges include high cost of acquisition, competition from competitors, delays in onboarding, and time-consuming integration activities. We aim to acquire and retain new customers and in particular Enterprise Customers by, among others, enhancing the quality and efficiency of our existing products

and solutions, offering additional innovative products and solutions and implementing effective sales strategies.

### ***Inorganic expansion in the US through strategic acquisitions***

According to the Zinnov Report, the North American loyalty management market is estimated to be USD 7.8 billion in 2024. Numerous small to mid-sized companies have cultivated dedicated customer bases within the loyalty sector. However, their limited resources often hinder their ability to invest in modernizing platforms. Many of these smaller firms operate on outdated systems and lack the capital necessary for essential technological upgrades, making them prime candidates for acquisition by larger entities seeking to enhance their service offerings. (Source: Zinnov Report, page 243) We believe we have the capability to further penetrate into this market with our API-first platform built for scale, already powering loyalty programs for 19 Fortune 500 companies, as of September 30, 2025.

We target companies with Enterprise Customers which have license subscription revenue models, with enterprise sales and prevalent presence in North America, for acquisition. According to the Zinnov Report, technological obsolescence and investment constraints remain an urgent issue in this fragmented market with smaller firms operating on outdated systems and lacking the capital necessary for essential technological upgrades. (Source: Zinnov Report, page 243) By migrating acquired customers to our platform, we aim to boost EBITDA, gross margins and generate additional free cash flows. We achieve these objectives by: (a) transitioning all central functions which include finance, human resources, information security, information technology support, work place services and other corporate functions to India to ensure a lower cost base; (b) transitioning parts of research and technology development and maintenance functions to India; and (c) migration of technology platform where most service-based deliverables are automated through software solutions with limited reliance on dedicated human workforce. Given the nature of the United States loyalty market, we evaluated acquisition opportunities and completed our acquisition of Persuade Loyalty, LLC (renamed to Capillary Technologies LLC) and Persuade Holdings, Inc. (which was since wound-up on June 2, 2023) (together “**Persuade Group**”) in the United States in October 2021. Pursuant to acquiring Persuade Group in September 2021, we have experienced significant growth in North America. Persuade Group’s revenues increased from ₹ 505.52 million in Fiscal 2023 to ₹ 1,078.08 million in Fiscal 2024 and ₹ 2,121.95 million in Fiscal 2025 and ₹ 1,007.41 million in the six-month period ended September 30, 2024 to ₹ 1,019.52 million in the six-month period ended September 30, 2025, representing 19.80%, 20.53% , 35.47%, 35.08% and 28.38% of our revenue from operations in such periods/years, respectively. Given Persuade Group’s strong customer base, including Fortune 500 companies, and cash-positive operations, we intend to further invest in North America by expanding partnerships with system integrators and channel partners. For instance, the Persuade Group acquisition and our subsequent partnership with one channel partner in the United States has enabled us to enhance our capabilities and expand our reach in new verticals such as healthcare, with the notable entry of an American healthcare company that provides technology services, pharmacy care services and various direct healthcare services.

We acquired Brierley and Partners, Inc. (renamed as Capillary Brierley Inc.) (“**B+P**”) with effect from April 1, 2023 to further strengthen our presence in North America and enhance our consulting capabilities. B+P has over 30 years of experience in loyalty strategy and design consulting and has enabled us to enhance our market presence and customer reach. Additionally, we developed a new product named *Rewards+*, utilising the assets of Digital Connect business acquired from Tenergy LLC in June 2023 with the aim to expand our presence in the European Union. Through this acquisition, we have also been able to enhance our product suite with a rewards and redemption platform and have forayed into the EU market, offering us significant growth potential and enabling us to offer a comprehensive loyalty solution. With our last three acquisitions outside India, we have demonstrated our ability to migrate businesses onto our platform and will continue exploring inorganic growth opportunities. Recently, we acquired certain shares/ assets and liabilities from Kognitiv, a loyalty technology provider operating primarily in the North American markets. This acquisition provides us with an enterprise-grade loyalty SaaS solution that powers programs across multiple sectors, including retail, travel, auto and hospitality, BFSI and telecommunications, supporting our expansion in North America and Europe, the Middle East and Africa.

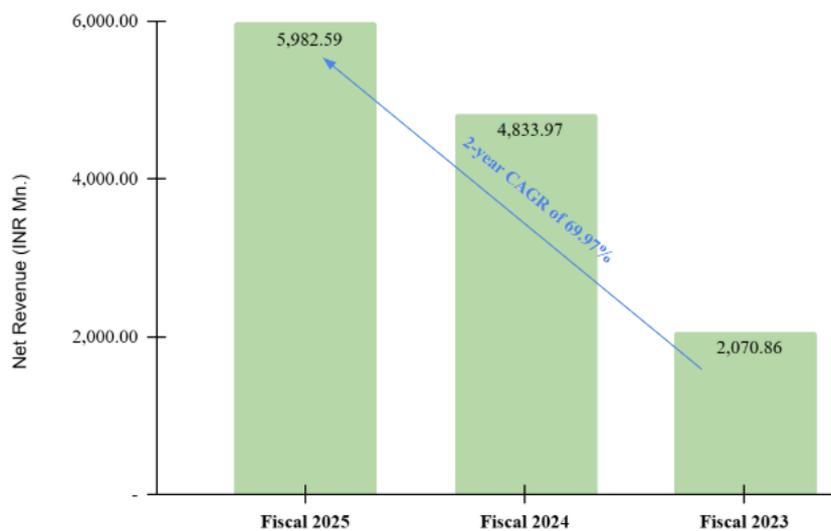

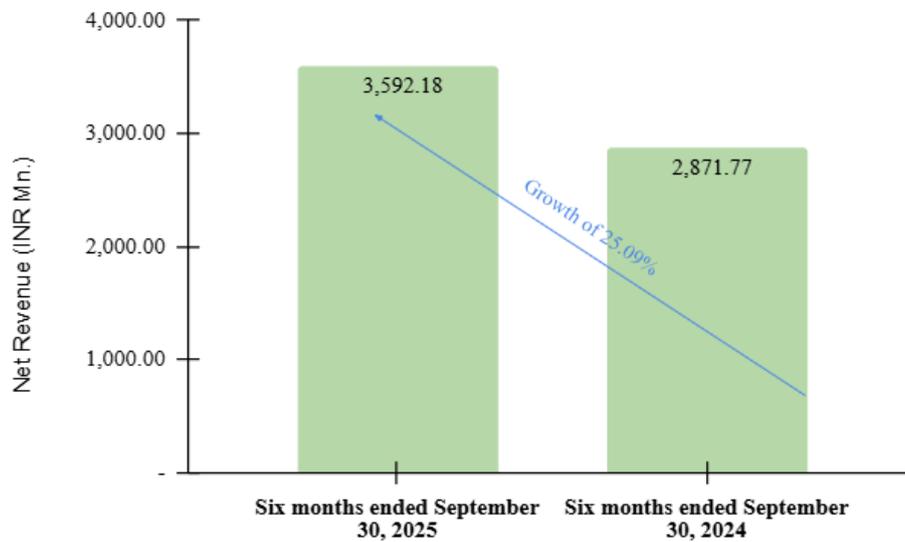

We expect to continue making acquisitions and entering into new business ventures or initiatives as part of our strategy. For further information about our inorganic growth strategy, see “*Our Business – Strategies – Expand Presence in the United States and Pursue Further acquisitions in North America and Other Regions*” on page 301. Integrating acquired businesses successfully and realizing anticipated benefits involves several challenges. These include potential disagreements regarding migration plans of customers, loss of customers on account of a failure to migrate, time-consuming integration activities, and unexpected difficulties. In addition, the inability to achieve anticipated operating synergies, diversion of management attention, unforeseen liabilities, and integration costs could also impact our ability to successfully integrate such acquisitions. Additionally, target businesses may have undiscovered liabilities or adverse operating issues that we may not discover as part of our diligence process.

Prior owners' non-compliance with laws or contractual obligations may also result in financial loss or reputational harm. Towards this, we intend to continue to evaluate potential acquisitions in order to achieve anticipated benefits and avoid incurring excess costs.

The successful and timely integration of such acquisitions will enable us to capture relevant synergies from team, operations and technology teams and from a profitability perspective. We will seek to integrate such acquired businesses into our current operations in a manner that maximizes such synergies.

***Driving organic growth from existing customers***

We are committed to driving organic growth through increasing revenues from our existing customers and increasing our Net Revenue Retention (“NRR”) rate. Our NRR rate was 115.42%, 143.48%, 121.25%, 112.68% and 139.01%, for the six-month period ended September 30, 2025 and September 30, 2024, Fiscals 2025, 2024 and 2023, respectively. We invest significant resources in understanding the needs and trends of our customers and markets through research and development efforts. This helps us to have a unique perspective that we can use to improve our offerings for them. The chart below reflects our period on period and period/year-on-period/year growth.

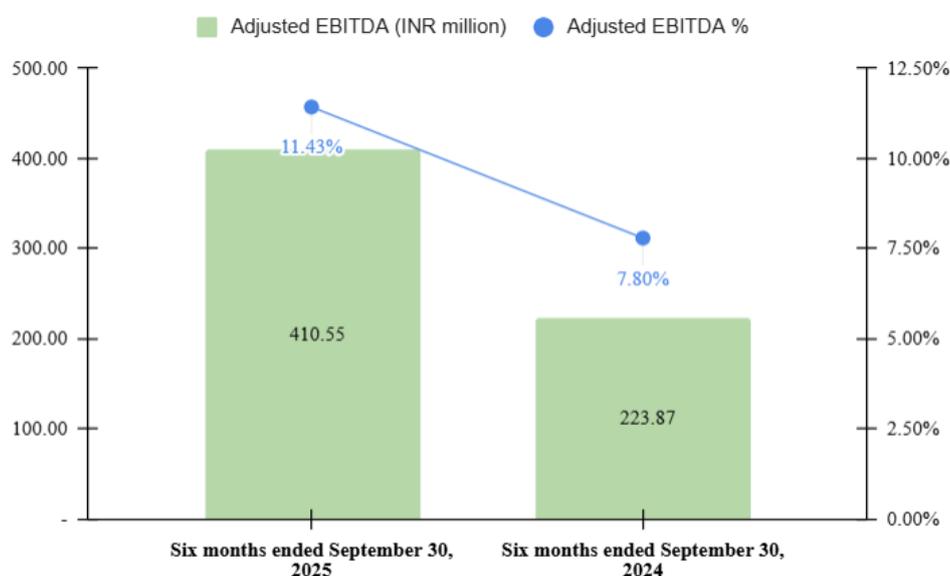

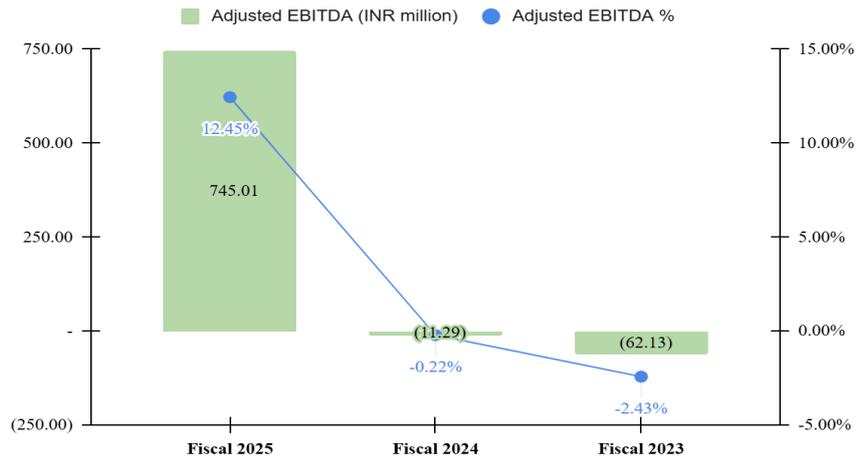

***Ability to improve our gross margins, profitability and sales efficiency***

Our results of operations depends on our ability to improve our technology and other central functions and enhance our profitability and sales efficiency. In order to improve profitability, we deployed a business model that is

anchored by multi-year subscription agreements, ensuring a stable and predictable revenue stream. Our strategic focus on cross-selling and upselling has enabled us to deepen our relationships with existing customers. Our ability to attract new customers and maintain existing customers, depends in large part on our ability to continually enhance and improve our service offerings, timing of development, integrations, and capabilities we offer, our continued market acceptance, successfully develop new features, integrations, and capabilities to enhance our services to meet requirements of our customers, in a timely manner or at all, and our ability to identify use cases for our existing features and capabilities that are attractive to different categories of customers. More than one-third of our New ACV is derived from farming existing customers, while we also expand into additional geographies and brands within the same enterprise. Our efforts in new customer acquisition have continued to focus on Enterprise Customers in the United States, Europe and Asia. We believe we have a substantial opportunity to grow our customer base and our ability to establish and strengthen customer relationships and expand the scope of our operations will be an important factor in our future growth.

Our revenue from operations was ₹ 3,592.18 million, ₹ 2,871.77 million, ₹ 5,982.59 million, ₹ 5,251.00 million and ₹ 2,553.72 million in the six-month period ended September 30, 2025 and September 30, 2024, Fiscal 2025, 2024 and 2023, respectively. In the six-month period ended September 30, 2025 and September 30, 2024, Fiscals 2025, 2024 and 2023, our New ACV was ₹ 386.96 million, ₹ 311.36 million, ₹ 1,223.59 million, ₹ 1,145.92 million and ₹ 578.65 million, respectively, while our Subscription Gross Margin were 64.81%, 62.84%, 66.36%, 65.99%, and 69.66% respectively in similar periods. We witnessed a decline in our Subscription Gross Margin in Fiscal 2024 due to acquisitions undertaken in the particular Fiscal, where lower gross margins were observed in acquired customers running on low-technology and service-heavy legacy platforms. Our Subscription Gross Margin subsequently rebounded in Fiscal 2025, on account of margin stabilization post customer migration following our acquisitions. Our Adjusted EBITDA Margin (Net Revenue) improved from (3.00)% in Fiscal 2023 to (0.23)% in Fiscal 2024 to 12.45% in Fiscal 2025 to 7.80% in the six-month period ended September 30, 2024 and to 11.43% in the six-month period ended September 30, 2025. This turnaround reflects our growth and operational focus as we have scaled through our organic and inorganic growth paths, with strategic cost optimization beginning to yield results enabling margins to expand meaningfully. For further information, see “Our Business – Our Growth Path” on page 276. The infographic below depicts our Adjusted EBITDA and Adjusted EBITDA Margins for the periods/years indicated.

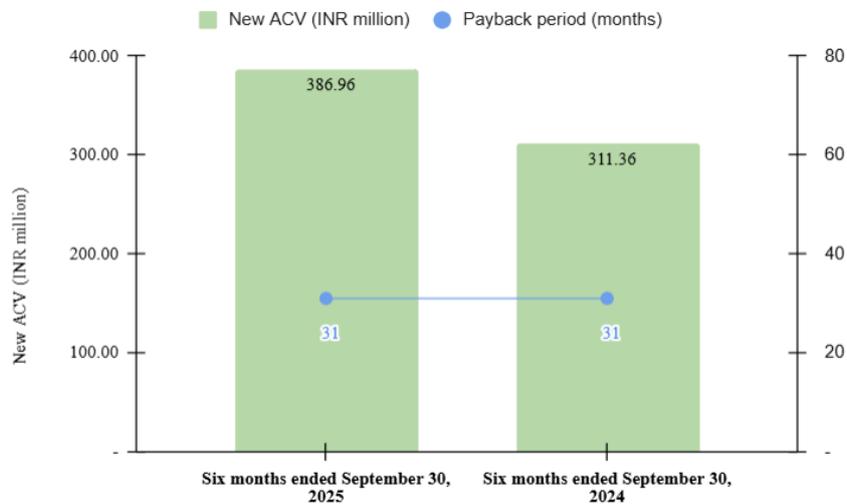

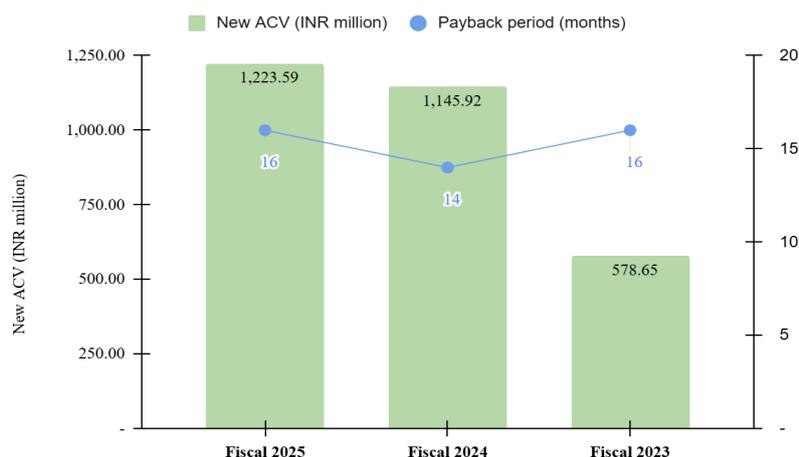

*Notes:*

\*Adjusted EBITA is computed as EBITDA as per restated financial statements plus employee stock option expenses minus Interest income on bank deposits, Interest income on security deposits, Interest income on corporate deposits, Gain on fair valuation of investments carried at fair value through profit and loss, Profit on sale of investments, Profit on sale of property, plant and equipment (net), Interest income on income tax refund.

^Adjusted EBITDA Margin is computed as percentage of Adjusted EBITDA divided by Revenue from operations for the respective Fiscal.

We intend to continue to grow by increasing our New ACV through our go-to-market initiatives. To deliver on this strategy, in addition to our account-based marketing efforts, we are investing in partnerships with large system integrators and consulting companies. We have also refocused our sales teams to target large enterprises. In the six-month period ended September 30, 2025 and September 30, 2024, Fiscals 2025, 2024 and 2023, New ACV added was ₹ 246.16 million, nil, ₹ 671.53 million, ₹ 335.07 million and ₹ 132.75 million, respectively. The infographic below depicts New ACV and Payback Period for the periods/years indicated.

**Notes:**

\*New ACV is calculated as aggregate of all annual recurring revenues contracted during the respective Fiscal, where annual recurring revenues represent the active recurring contract values over a twelve month period from licensed subscriptions and committed professional services.

^Payback Period is computed as CAC divided by the result of New ACV multiplied by Subscription Gross Margin earned during the respective Fiscal. The overall result then is represented in number of months by multiplying the same by twelve.

**Product, revenue and geographic mix**

We generate revenue primarily from providing SaaS-based products and solutions to our customers. Our product suite provides an omni-channel experience for consumers and helps enhance the returns on investment for our customers. Our single point product offering includes *Loyalty+*, loyalty management, connected engagement platform (*Engage+*), predictive analytics platform (*Insights+*), rewards management platform (*Rewards+*) and a CDP. We provide campaign services through *Engage+*, our AI-powered solution that assists customers with end-to-end campaign management. We have enhanced our product suite with the addition of *Rewards+*, a rewards and redemption platform, enhancing our ability to offer personalized and engaging customer experiences.

A substantial portion of our customers are conglomerates and businesses engaged in retail, consumer packaged goods (“CPG”), healthcare, apparel, departmental stores, luxury and lifestyle, travel, auto and hospitality, and energy retail verticals. We provide a full-spectrum loyalty management platform designed to address a wide range of use-cases across industries. Our business is therefore largely dependent on the demand for our services from customers in these industries. The following table presents the contribution from verticals to our revenues in the relevant periods/years:

Our revenues are accordingly impacted by developments in such verticals and our results of operations are particularly sensitive to factors affecting the geographies where we operate including but not limited to competition, regulatory actions, pricing pressures, fluctuations in the demand for our platform, products or solutions. Further, a portion of our revenue is dependent on campaign revenues, we may be impacted by any change in marketing plans of our customer, changes in budget allocation or a decision by customers to use alternate modes of campaign management. Any disruptions in these verticals or shifts in revenue streams could significantly impact our financial performance. The interconnected nature of our revenue sources means that adverse changes in one area can affect our overall results of operations.

Our results of operations also depend on our ability to cater to the various international markets we serve. As of September 30, 2025, we had 16 offices including in key markets such as India, United States, United Kingdom, United Arab Emirates, Singapore, Indonesia, Malaysia, and Vietnam, and provided services in 47 countries. The following table presents the contribution by geography to our revenues in the relevant periods/years:

Variations in economic conditions, political stability, and regulatory environments across regions can influence our operations and financial outcomes. Regions with robust economic growth may offer greater opportunities for subscription and usage-based revenue, while economic downturns pose challenges. Differences in consumer behavior and preferences necessitate tailored marketing and sales strategies. Additionally, logistical considerations, such as data center locations and local support infrastructure, vary by region, impacting our cost structure and profitability.

### ***Ability to enhance operating efficiency through investments in technology***

Our results of operations have been, and will continue to be, affected by our ability to improve our operating efficiency, especially through investment in technology. As our business continues to grow, it is essential to improve operating efficiency to maintain the competitiveness of our technology platform, AI-powered capabilities, and advanced analytics. We intend to continue to invest in further developing and applying advanced technologies in the fields of R&D and AI-driven product development.

In the six-month period ended September 30, 2025 and September 30, 2024, Fiscals 2025, 2024, and 2023, we invested ₹ 788.48 million, ₹ 665.46 million, ₹ 1,286.08 million, ₹ 1,472.33 million, and ₹ 641.61 million, respectively, in research and design, product and platform development and maintenance, which accounted for 21.95%, 23.17%, 21.50%, 28.04%, and 25.12% of our revenue from operations in the respective periods/Fiscals. The increase in Fiscal 2024 was on account of platform migrations and transitioning central functions and research and technology development and maintenance functions to India, pertaining to our earlier acquisition of the Persuade Group in Fiscal 2022. For instance, we have developed AI-driven personalization tools, a next-generation CDP, and a promotion engine that differentiate us from competitors, by offering CDP as a complementary solution, enhancing our overall service offering. By leveraging AI and machine learning, we help brands gain actionable insights, improve targeting, and create more effective marketing strategies. We will continue expanding our product suite by integrating predictive analytics, machine learning models for customer insights, and automated engagement workflows. Going forward, we intend to continue to prudently invest resources in technology in a cost-effective manner to support the long-term growth of our business.

### ***Fluctuations in currency exchange rates***

We are affected by fluctuations in currency exchange rates with respect to our contracts with our customers. A majority of our revenues are generated in currencies other than the Indian Rupee. The Indian rupee is our functional currency and our Restated Consolidated Financial Information are prepared in Indian rupees. However, the US dollar, Pound Sterling, Euro, Australian Dollar, Hong Kong Dollar, Singapore Dollar, Bangladeshi Taka, Emirati Dirham, Japanese Yen, Renminbi, Thai Baht, Philippine Peso, Malaysian Ringgit and Canadian Dollar are the currencies for our operations across geographies outside India. We translate foreign currencies into Indian rupees, our monetary and non-monetary transactions in foreign currencies are initially recorded in the functional currency at the exchange rates at the date of the transactions. Monetary foreign currency assets and liabilities remaining unsettled on reporting date are translated at the rates of exchange prevailing on reporting date. Gains or losses arising on account of realisation or settlement of foreign exchange transactions and on translation of monetary foreign currency assets and liabilities are recognised in the Restated Consolidated Statement of Profit and Loss. In the six-month period ended September 30, 2025 and Fiscal 2025 and 2024, we recorded loss on account of foreign exchange fluctuations (net) of ₹ 3.79 million, ₹ 7.24 million and ₹ 26.85 million, while in the six-month period ended September 30, 2024 gain on account of foreign exchange fluctuations (net) was ₹ 12.36 million and in Fiscal 2023, we recorded gain on account of foreign exchange fluctuations (net) of ₹ 25.40 million, respectively, with such increases and decreases being mainly driven by fluctuations in the foreign currency.

Depreciation of the Indian Rupee against the U.S. Dollar and other foreign currencies may affect our results of

operations including by increasing the cost of financing any debt denominated in foreign currency that we may enter into or proposed capital expenditure, if any, in foreign currencies. We hedge a substantial portion of our foreign currency exposure naturally through our overseas subsidiaries where the revenue and costs are in foreign currencies. We also use foreign currency forward contracts to hedge risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions, we designate these hedging instruments as cash flow hedges.

## NON-GAAP MEASURES

Net Revenue, Revenue (net of campaign service cost), EBITDA, EBITDA Margin, EBITDA Margin (Net Revenue), Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted EBITDA Margin (Net Revenue), Restated Profit/(Loss) before tax Margin, Restated Profit / (Loss) before tax (Net Revenue) Margin, Restated Profit / (Loss) for the Periods/Year, Restated Profit / (Loss) for the Periods/Year (Net Revenue) Margin, Debt to Equity Ratio, Return on Capital Employed, Net Worth, Return on Net Worth and Net Asset Value per Equity Share (together, “Non-GAAP Measures”), presented in this section is a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the periods/years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, these Non-GAAP Measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company’s operating performance.

## MATERIAL ACCOUNTING POLICIES

### Business combinations including goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Business combinations arising from transfers of interests in entities that are under the common control are accounted using pooling of interest method. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the Group recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal.

Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

### **Revenue recognition**

Revenue from operations is recognised when control of the promised services are transferred to the customer at a transaction price that reflects the consideration to which the Group expects to be entitled in exchange for those services.

To determine when to recognise revenue, the Company follows the following 5-step process:

- Identify the contract with a customer
- Identify the underlying performance obligation
- Determining the transaction price

- Allocating the transaction price to the performance obligation
- Recognising revenue when/ as performance obligation(s) are satisfied.

The transaction price of services rendered is net of variable consideration. The transaction price for a contract excludes any amounts collected on behalf of third parties. The Group has generally concluded that it is the principal in its revenue arrangements, except for the agency services below, because it typically controls the services before transferring them to the customer.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised service to the customer, which is when the customer obtains control of the service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the transaction price allocated to the satisfied performance obligation.

The specific recognition criteria described below must be met before revenue is recognised:

### **Income from services**

- **Retainer services**

The Group is engaged in the business of providing cloud based intelligent customer engagement software solutions to retail chain operators. Revenue is recognized over the period as and when services are rendered in accordance with the arrangement with the customers.

- **Campaign services**

The Group provides SMS campaign services that are bundled together with the retainer services. The Group recognises revenue based on the usage of messaging services i.e., when the Group's services are used based on the specific terms of the contract with customers. The Group recognises revenue either on a gross or net basis depending on the nature of its role in the transaction, in accordance with Ind AS 115. Revenue is recorded on a gross basis when the Company acts as a principal in the transaction, meaning it has control over the services before they are transferred to the customer. Revenue is recorded on a net basis when the Company acts as an agent, facilitating a transaction between a supplier and the customer. In this case, the revenue is recorded as the net amount retained after deducting the cost of goods or services provided by the supplier.

The determination of whether revenue is recognised on a gross or net basis is assessed on a transaction-by-transaction basis, considering specific terms and conditions of each arrangement.

- **Installation services**

The Group provides a one-time installation services that are bundled together with the retainer services. The Group recognises revenue from installation services over time because the customer simultaneously receives and consumes the benefits provided to them. The Group uses an input method in measuring progress of the installation services because there is a direct relationship between the Group's effort and the transfer of service to the customer. The Group recognises revenue on the basis of the milestone achieved which correlates with hours expended relative to the total expected hours to complete the service.

In contracts with customers where the retainership, campaign services and installation services are bundled together, the Group has applied the guidance in Ind AS 115 by applying the revenue recognition criteria for each distinct performance obligation. For allocating the transaction price, the Group has measured the revenue in respect of each performance obligation of a contract and its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Group is unable to determine the standalone selling price, the Group uses the expected cost-plus margin approach in estimating the standalone selling price.

The Group has assessed its revenue arrangements based on the substance of the transaction and business model against specific criteria to determine if it is acting as principal or agent.

### **Other income**

- **Interest income**

For all financial instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly

discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in finance income in the Restated Consolidated Statement of Profit and Loss.

- **Dividend income**

Dividend income is recognized when the right to receive payment is established, which is generally when shareholders approve the dividend, provided it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

## **Contract balances**

### **Contract assets**

A contract asset is the right to consideration in exchange for services transferred to the customer. If the Group performs by transferring services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognized as and when the performance obligation is satisfied.

Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section (m) Financial instruments – initial recognition and subsequent measurement below.

### **Trade receivables**

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section(m) Financial instruments – initial recognition and subsequent measurement below.

### **Deferred contract costs**

Deferred contract costs are incremental costs that are associated with acquiring customer contracts and consists primarily of sales commissions to employees and certain referral fees paid to third-party resellers. Incremental costs of obtaining a contract are capitalised if these costs are recoverable. Costs to fulfil a contract are capitalised if the costs relate directly to the contract, generate or enhance resources used in satisfying the contract and are expected to be recovered. Other contract costs are expensed as incurred.

Capitalised contract costs are subsequently amortised on a systematic basis as the Group recognises the related revenue. An impairment loss is recognised in profit or loss to the extent that the carrying amount of the capitalised contract costs exceeds the remaining amount of consideration that the Group expects to receive in exchange for the services to which the contract costs relate less the costs that relate directly to providing the goods and that have not been recognised as expenses. The maximum period over which the Group expects to derive benefit from contracts entered into with customers is 3 years. The Group has elected to apply the practical expedient to recognise the incremental costs of obtaining a contract as an expense when incurred where the amortisation period of the asset that would otherwise be recognised is over year or less.

### **Contract liabilities**

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related services to the customer).

## **Taxes on income**

### **Current income tax**

Tax expense comprises current and deferred tax during the year. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the Restated Consolidated Statement of

Profit and Loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The Group's liability for current tax is calculated using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

### **Deferred tax**

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the Restated Consolidated Financial Statements and the corresponding tax bases used in the computation of the taxable profit and is accounted for using the liability model. Deferred tax liabilities are generally recognised for all the taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Un-recognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

### **Property, plant and equipment**

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset are derecognised when replaced. All other repairs and maintenance are charged to restated consolidated profit and loss during the reporting period in which they are incurred.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset having useful life that is materially different from that

of the remaining asset. These components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset.

Depreciation is calculated on a straight-line method the estimated useful lives of the assets as follows which is as per Schedule II of Companies Act, 2013

S. No.	Block	Useful lives estimated by the management (in years)
1	Office Equipment	5
2	Computers	3
3	Furniture and fixtures	10

Leasehold improvements are depreciated over the period of lease or estimated useful life, whichever is lower, on straight line basis

Based on internal assessment, the management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Consolidated Statement of Profit and Loss when the asset is derecognised.

### **Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or infinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period with the effect of any change in the estimate being accounted for on a prospective basis. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the restated consolidated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the restated consolidated statement of profit and loss. when the asset is derecognised.

### **Intellectual property rights and customer relationships**

Intellectual property rights and customer relationships acquired on the acquisition of a subsidiary are measured initially on the basis of fair valuation determined in the Purchase Price Allocation as determined by an independent

valuer. Following initial recognition, these intangibles are carried at the initial recognition value less accumulated amortisation and accumulated impairment losses, if any.

## Patents

Patents and licenses are measured on initial recognition at professional charges incurred on registration of such patents in connection with the Group customer servicing methodology and if the registration of the patent is under progress, the same is recognised as intangible assets under development.

## Internally generated intangible assets

Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the profit or loss in the year in which the expenditure is incurred.

Software product development are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete and use or sell the software and the cost can be measured reliably. The costs which can be capitalised including the cost of employees and overhead costs that are directly attributable to preparing the asset for its intended use.

The Group has identified certain intangibles which are being internally generated. In the research phase of an internal project, an entity cannot demonstrate that an intangible asset exists that will generate probable future economic benefits. Therefore, this expenditure is recognised as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) shall be recognised if, and only if, an entity can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale.
- its intention to complete the intangible asset and use or sell it.
- its ability to use or sell the intangible asset.
- how the intangible asset will generate probable future economic benefits. Among other things, the entity can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset.
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset.
- its ability to measure reliably the expenditure attributable to the intangible asset during its development.

The Group had completed the research and acceptance phase and the projects are in the development phase. The Group has done evaluation of the internally generated software and concluded on being treated as intangible assets. Refer note 4 for further disclosure.

Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit from the related project. Amortisation expense is recognised in the Restated Consolidated Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset.

## Goodwill

Goodwill (i.e. intangible assets with indefinite useful lives) are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Amortisation is calculated on a straight line basis over the estimated useful lives of the assets as follows:

S. No.	Block	Useful lives estimated by the management (in years)
1	Computer software	3
2	Intellectual property rights and customer relationships	2 to 5
3	Patents	1 to 3
4	Internally generated intangible assets	3

## **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset until such time as the assets are substantially ready for the intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs

## **Leases**

The Group has lease contracts for office spaces. The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

## **Group as a lessee**

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

## **Right-of-use assets**

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies stated under 'Impairment of non-financial assets'.

## **Lease liabilities**

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

## **Short term leases and leases of low-value assets**

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be

low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

### **Impairment of non-financial assets**

As at the end of each accounting year, the Group reviews the carrying amounts of its property plant and equipment and intangible assets determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the said assets are tested for impairment so as to determine the impairment loss, if any. Intangible assets with indefinite life are tested for impairment each year.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- in the case of an individual asset, at the higher of the fair value less costs of disposal and the value in use; and
- in the case of a cash generating unit (CGU) (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit's net fair value less costs of disposal and the value in use.

The amount of value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life. For this purpose, the discount rate (pre-tax) is determined based on the weighted average cost of capital of the Group suitably adjusted for risks specified to the estimated cash flows of the asset.

For this purpose, a cash generating unit is ascertained as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Restated Consolidated Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. For this purpose, the impairment loss recognised in respect of a cash generating unit is allocated first to reduce the carrying amount of any goodwill allocated to such cash generating unit and then to reduce the carrying amount of the other assets of the cash generating unit on a pro-rata basis.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the Group operates, or for the market in which the asset is used.

Impairment losses are recognised in the Restated Consolidated Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Restated Consolidated Statement of Profit and Loss

### **Provisions and contingent liabilities**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Restated Consolidated Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

If the Group has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. However, before a separate provision for an onerous contract is established, the Group recognises any impairment loss that has occurred on assets dedicated to that contract.

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Group cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the Restated Consolidated Financial Information.

Provisions and contingent liability are reviewed at each restated consolidated balance sheet.

In respect of financial guarantees provided by the Group to third parties, the Group considers that it is more likely than not that such an amount will not be payable under the guarantees provided.

## **Retirement and other employee benefits**

### **Short-term employee benefits**

All employee benefits expected to be settled wholly within twelve months of rendering the service are classified as short-term employee benefits. When an employee has rendered service to the Group during an accounting period, the Group recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as an expense unless another Ind AS requires or permits the inclusion of the benefits in the cost of an asset. Benefits such as salaries, wages and short-term compensated absences, bonus and ex-gratia etc. are recognised in Restated Consolidated Statement of Profit and Loss in the period in which the employee renders the related service.

### **Defined contribution plans**

Eligible employees of the Group in the United States participate in a savings plan under Section 401(k) (“Plan”) of the United States Internal Revenue Code (the “Code”). The Plan allows employees to defer a portion of their annual earnings on a pre-tax basis through voluntary contributions to the Plan. The Group has a 401(k) plan that provides defined contribution retirement benefits for all the employees in the United States.

Eligible employees of the Group in India, Singapore, Indonesia and Malaysia participate in a defined contribution plan (Provident Fund, Social Security, Indonesia and Malaysia respectively) in accordance with the regulatory requirements in the respective jurisdictions. Both the employee and the relevant Company in the Group contribute to the fund at a specified percentage of the employee’s salary

The Group has no further obligation under defined contribution plans beyond the contributions made under these plans.

### **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of

employment of an amount based on the respective employee's salary and the tenure of employment. The Group accounts for the liability for gratuity benefits payable in future based on an independent actuarial valuation report using the projected unit credit method as at the year end.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Restated Consolidated Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- (a) The date of the plan amendment or curtailment, and
- (b) The date that the Parent Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Restated Consolidated Statement of Profit and loss.

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

## **Financial instruments**

Financial assets and financial liabilities are recognised when the Group becomes a party to the contract embodying the related financial instruments. All financial assets, financial liabilities and financial guarantee contracts are initially measured at transaction cost and where such values are different from the fair value, at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are immediately recognised in the Restated Consolidated Statement of Profit and Loss.

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price as disclosed under revenue recognition policy.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

## **Effective interest method**

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

## ***Financial assets***

### **Financial assets at amortised cost**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms

of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### **Financial assets measured at fair value**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial asset not measured at amortised cost or at fair value through other comprehensive income is carried at fair value through the Restated Consolidated Statement of Profit and Loss.

For financial assets maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### **Impairment of financial assets**

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through the Restated Consolidated Statement of Profit and Loss.

The Group recognises impairment loss on trade receivables using life time expected credit loss model, which involves use of provision matrix constructed on the basis of historical credit loss experience as permitted under Ind AS 109 – Financial Instruments.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

For financial assets maturing within one year from the balance sheet date, the carrying amounts approximates fair value due to the short maturity of these instruments.

### **De-recognition of financial assets**

The Group de-recognises a financial asset only when the contractual rights to the cash flows from the financial asset expire, or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the carrying amount measured at the date of de-recognition and the consideration received is recognised in Restated Consolidated Statement of Profit or Loss.

### ***Financial liabilities and equity instruments***

#### **Classification as debt or equity**

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

## **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

## **Financial liabilities**

Financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant. Interest bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the Restated Consolidated Statement of Profit and Loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## **De-recognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Restated consolidated Statement of Profit and loss.

## **Off-setting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Restated Consolidated Statement of Assets and Liabilities if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

## **Segment reporting**

Operating segments are identified as those components of the Group (a) that engage in business activities to earn revenues and incur expenses (including transactions with any of the Group's other components); (b) whose operating results are regularly reviewed by the Group's Chief Operating Decision Maker (CODM) to make decisions about resource allocation and performance assessment and (c) for which discrete financial information is available. The accounting policies consistently used in the preparation of Restated Consolidated Financial Information are also applied to record revenue and expenditure in individual segments. Assets, liabilities, revenues and direct expenses in relation to segments are categorised based on items that are individually identifiable to that segment, while other items, wherever allocable, are apportioned to the segment on an appropriate basis. Certain items are not specifically allocable to individual segments as the underlying services are used interchangeably. The Group therefore believes that it is not practical to provide segment disclosures relating to such items and accordingly such items are separately disclosed as 'unallocated'.

An operating segment is classified as reportable segment if reported revenue (including inter-segment revenue) or absolute amount of result or assets exceed 10% or more of the combined total of all the operating segments.

CODM evaluates the performance of the Group based on the single operative segment as cloud based intelligent customer engagement software solutions to retail chain operators. Therefore, there is only one reportable segment called CRM services in accordance with the requirement of Ind AS 108 "Operating Segments".

## **Cash and cash equivalents**

Cash and cash equivalent in the Restated Consolidated Statement of Assets and Liabilities comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

## **Share-based payments**

Certain employees of the Group are entitled to share-based payments, whereby employees render services as consideration for equity instruments of the Parent company (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate Black-Scholes valuation model.

That cost is recognised, together with a corresponding increase in capital contribution from the parent reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the Restated Consolidated statement of profit and loss for a year represents the movement in cumulative expense recognised as at the beginning and end of that year and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the Group or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

### **Foreign currency translation**

The Group's Restated Consolidated Financial Statements are presented in ₹, which is also the Parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

### **Transactions and balances**

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following:

- Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that

include the foreign operation and the reporting entity (e.g., Restated Consolidated Financial Statements when the foreign operation is a subsidiary), such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

- Exchange differences arising on monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.
- Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

### **Translations**

On consolidation, the assets and liabilities of foreign operations are translated into ₹ at the rate of exchange prevailing at the reporting date and their restated consolidated statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the Group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in the Restated Consolidated Statement of Profit and Loss.

Any goodwill arising in the acquisition/ business combination of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

### **Earnings per share**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders of the Parent Company by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Parent Company and the weighted average number of shares outstanding during the period are adjusted for the effects of all potential dilutive equity shares.

### **Initial Public Offering (IPO) Transaction cost**

The costs of an IPO that involves both issue and listing of new shares and listing the existing equity shares has been accounted for as follows:

- Incremental costs that are directly attributable to issuing new shares has been deferred until successful consummation of IPO upon which it shall be deducted from equity (net of any income tax benefit).
- Costs that relate to the stock market listing or are otherwise not incremental and directly attributable to issuing new shares, has been recorded as an expense in the restated consolidated statement of profit and loss as and when incurred.

- Costs that relate to both share issuance and listing has been allocated between those functions on a rational and consistent basis i.e. based on proportion of new shares issued to the total number of (new and existing) shares listed.

### **Discontinued operations**

A discontinued operation is a component of the Group, the operations and cash flow of which can be clearly distinguished from the rest of the Group and which:

- represents a separate major line of business or geographical area of operations,
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

**Classification as a discontinued operations occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale.**

When an operation is classified as a discontinued operation, the comparative restated consolidated statement of profit and loss is re-presented as if the operation had been discontinued from the start of the comparative periods.

### **Exceptional items**

Exceptional items refer to items of income or expense within the restated consolidated statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company.

### **CHANGES IN ACCOUNTING POLICIES**

There have been no changes in our accounting policies in the six-month period ended September 30, 2025 and September 30, 2024 and Fiscal 2025, 2024 and 2023.

### **PRINCIPAL COMPONENTS OF INCOME AND EXPENDITURE**

#### **Total Income**

Our total income comprises our revenue from operations and other income.

#### ***Revenue from Operations***

Revenue from operations comprises (i) retainership and other services (for revenue from subscription to our cloud software products and solutions over the period in accordance with the arrangement with the customers); (ii) installation revenue (for integration / configurations to our platform to take a customer live on our platform); (iii) income from campaign services on a principal basis; and (iv) income from campaign services on an agent basis (for revenue based on the usage of messaging services i.e., when our services are used based on the specific terms of the contract with customers.)

During the year ended March 31, 2025, we changed our business model for the campaign services and entered into a new arrangement with service providers by which we act as the agent and not as a principal for these transactions. Accordingly, the revenue for the year ended March 31, 2025 for the income from campaign services has been recorded on a net basis i.e., revenue from operations less cost of campaign services. For further information, see “*Restated Consolidated Financial Information – Note 23 – Revenue from Operations*” on page 435.

#### ***Other Income***

Other income comprises (i) interest income under effective interest rate method, which includes (a) interest income on bank deposits, (b) interest income on security deposits, and (c) interest income on corporate deposits; and (ii) other non-operating income, which includes (a) gain on fair valuation of investments carried at fair value through profit and loss, (b) profit on sale of investments, (c) gain on account of foreign exchange fluctuations (net), (d) profit on sale of property, plant and equipment (net), (e) provisions/ liabilities no longer required written back, (f) interest income on income tax refund, and (g) other miscellaneous income.

## Expenses

Expenses comprise (i) cost of campaign services; (ii) professional and consultancy expenses; (iii) software and server charges; (iv) employee benefits expense; (v) finance costs; (vi) depreciation and amortisation expenses; and (vii) other expenses.

### *Cost of Campaign Services*

Cost of campaign services comprise costs incurred towards media costs for the messages sent out from the platform including short message services, WhatsApp and e-mail.

### *Professional and Consultancy Expenses*

Professional and consultancy expenses include costs incurred for services provided by individuals or firms with specialized expertise including third-party contractors or consultants (such as IT consultants, marketing strategists, legal advisors), technical experts or engineers hired for specific projects, designers, developers, or creative professionals engaged for specialized tasks, advisory services (such as financial, tax or compliance). These expenses are typically project-based or time-based i.e., on hourly/daily rates and are considered operational rather than permanent staffing costs.

### *Software and Server Charges*

Software and server charges comprise of expenses primarily related to usage and maintenance of software systems and server infrastructure. These charges relate to licensing fees, subscription fees, cloud hosting, data storage, server maintenance and security.

### *Employee Benefits Expense*

Employee benefits expense comprise (i) salaries, wages and bonus; (ii) contribution to provident and other funds; (iii) gratuity expenses; (iv) share based payments; and (v) staff welfare and training and recruitment expenses.

### *Finance Costs*

Finance costs comprise (i) interest on borrowings; (ii) interest on lease liabilities; (iii) interest – others; and (iv) bank charges.

### *Depreciation and Amortisation Expenses*

Depreciation and amortization expenses comprise (i) depreciation of property, plant and equipment; (ii) amortization of intangible assets; and (iii) depreciation of right-of-use assets.

### *Other Expenses*

Other expenses comprise (i) travelling and conveyance; (ii) business promotions expenses; (iii) loss allowances under expected credit loss model; (iv) property, plant and equipment written off; (v) rent; (vi) rates and taxes; (vii) auditor's remuneration; (viii) loss on account of foreign exchange fluctuations (net); (ix) sitting fees to non-executive directors; (x) insurance expenses; and (xi) miscellaneous expenses.

The movement is primarily due cost pertaining to acquisition of Kognitiv Solutions Inc.

### ***Finance Costs***

Finance costs decreased by 35.04% from ₹ 45.20 million in the six-month period ended September 30, 2024 to ₹ 29.36 million in the six-month period ended September 30, 2025, primarily due to a decrease in interest on borrowings from ₹ 39.24 million in the six-month period ended September 30, 2024 to ₹ 19.01 million in the six-month period ended September 30, 2025 primarily due to repayment of non-convertible debentures on a monthly basis, leading to a lower interest cost accrued every month.

### ***Depreciation and Amortisation Expenses***

Depreciation and amortisation expenses increased by 18.22% from ₹ 307.64 million in the six-month period ended September 30, 2024 to ₹ 363.70 million in the six-month period ended September 30, 2025, primarily due to an increase in amortisation of intangible assets from ₹ 281.79 million in the six-month period ended September 30, 2024 to ₹ 323.15 million in the six-month period ended September 30, 2025, primarily due to increase in addition of intangible assets and movement of ₹ 208.69 million from intangible assets under development to internally generated intangible assets capitalised during the Fiscal 2025 pursuant to which the internally generated assets, is subject to amortization in the six-month period ended September 30, 2025.

### ***Other Expenses***

Other expenses decreased by 10.07% from ₹ 256.36 million in the six-month period ended September 30, 2024 to ₹ 230.54 million in the six-month period ended September 30, 2025, primarily due to a decrease in:

- Loss allowances under expected credit loss model from ₹ 80.98 million in the six-month period ended September 30, 2024 to ₹ 33.08 million in the six-month period ended September 30, 2025 primarily due to visibility of recovery of receivables from a customer, leading to lower allowances in the six-month period ended September 30, 2025; and
- Business promotion expenses from ₹ 60.95 million in the six-month period ended September 30, 2024 to ₹ 55.24 million in the six-month period ended September 30, 2025.

This was partially offset by an increase in loss on account of foreign exchange fluctuations (net) from nil in the six-month period ended September 30, 2024 to ₹ 3.79 million in the six-month period ended September 30, 2025 due to an unfavourable movement of currencies dealt in by our Company in the six-month period ended September 30, 2025 as against six-month period ended September 30, 2024.

### **Restated profit/ (loss) before Exceptional Items and Tax from Continuing Operations**

As a result of the foregoing, restated profit before exceptional items and tax from continuing operations was ₹5.16 million in the six-month period ended September 30, 2025 compared to restated loss before exceptional items and tax from continuing operations ₹ 112.12 million in the six-month period ended September 30, 2024.

### **Tax Expenses**

Current tax expense was ₹ 7.79 million in the six-month period ended September 30, 2025 compared to current tax of ₹ 4.18 million in the six-month period ended September 30, 2024 on account of increase in profit in Persuade Holdings Inc. Deferred tax credit was ₹ (12.96) million in the six-month period ended September 30, 2025 compared to ₹ (13.51) million in the six-month period ended September 30, 2024 primarily on account of differences arising from ESOP expenses. As a result, total tax credit decreased by 44.59% from ₹ (9.33) million in the six-month period ended September 30, 2024 to ₹ (5.17) million in the six-month period ended September 30, 2025.

## **Restated Profit/ (Loss) for the Period from Continuing Operations**

We recorded a restated profit for the period from continuing operations of ₹ 10.33 million in the six-month period ended September 30, 2025 as compared to a restated loss for the period from continuing operations of ₹ 102.79 million in the six-month period ended September 30, 2024.

## **Discontinued Operations**

Pursuant to board resolution dated January 27, 2025, we decided to discontinue our operations in the Anywhere Commerce Platform (“ACP”) with effect from October 1, 2024. The ACP business comprised operations and cashflow that were clearly distinguished from the operations of the rest of our Company. Accordingly, the Company has derecognised the net carrying value of assets of ₹ 6.49 million to the restated statement of profit and loss for the year ended March 31, 2025.

In addition, pursuant to board resolution dated March 12, 2025, we decided to discontinue our operations in the ‘digital business’ effective from March 31, 2025. The digital business of our Company comprised operations and cashflow that were clearly distinguished from the operations of the rest of our Company. The business did not have any assets which were not recoverable and accordingly, no amount was derecognised to the restated statement of profit and loss for the year ended March 31, 2025.

Accordingly, the demerged cash generating unit and the attributable unallocated assets and liabilities represent discontinued operations and have been accounted for in accordance with the stipulations of Ind AS 105 - Non-current assets held for sale and discontinued operations. The comparative years have also been adjusted in line with the requirements of the standard. For further information, see “*Restated Consolidated Financial Information – Discontinued Operations – Note 42*” on page 459.

We recorded a restated (loss)/profit before tax from discontinued operations of nil in the six-month period ended September 30, 2025 as compared to a restated profit before tax from discontinued operations of ₹ 34.57 million in the six-month period ended September 30, 2024. Tax expense on discontinued operations was nil in both the six-month period ended September 30, 2025 and September 30, 2024. Accordingly, restated (loss)/profit from discontinued operations after tax was nil in the six-month period ended September 30, 2025 and restated profit from discontinued operations after tax was ₹ 34.57 million in the six-month period ended September 30, 2024.

## **Restated Profit/ (Loss) for the Period**

For the reasons discussed above, restated profit for the period was ₹ 10.33 million in the six-month period ended September 30, 2025 as compared to a restated loss for the period of ₹ 68.22 million in the six-month period ended September 30, 2024.

## **Fluctuation in EBITDA**

In the six-month period ended September 30, 2025, our EBITDA increased to ₹398.22 million, representing 11.09% of our revenue from operations. This increase was due to increase in our revenue from operations, by 25.09% from ₹ 2,871.77 million in the six-month period ended September 30, 2024 to ₹ 3,592.18 million in the six-month period ended September 30, 2025 primarily on account of an increase in retainership and other services by 40.86% from ₹ 2,279.55 million in the six-month period ended September 30, 2024 to ₹ 3,211.06 million in the six-month period ended September 30, 2025, and a decrease in installation revenue by 37.58% from ₹ 552.15 million in the six-month period ended September 30, 2024 to ₹344.64 million in the six-month period ended September 30, 2025, primarily due to churn of existing customers and decrease in acquisition of new customers. Total expenses marginally increased by 18.35% from ₹ 2,727.11 million in the six-month period ended September 30, 2024 to ₹ 3,227.41 million in the six-month period ended September 30, 2025, primarily on account of an increase in business operations. This increase of was primarily due to scaling of organic and inorganic business. As a result, our Company experienced an increase in EBITDA.

## **Adjusted Earnings before Interest expenses, Taxes, Depreciation and Amortisation before Exceptional Items (Adjusted EBITDA)**

Adjusted EBITDA was ₹ 410.55 million in the six-month period ended September 30, 2025 as compared to ₹223.87 million in the six-month period ended September 30, 2024, while Adjusted EBITDA Margin was 11.43% in the six-month period ended September 30, 2025 as compared to 7.80% in the six-month period ended September 30, 2024.

## FISCAL 2025 COMPARED TO FISCAL 2024

### Income

Total income increased by 14.27% from ₹ 5,354.40 million in Fiscal 2024 to ₹ 6,118.69 million in Fiscal 2025, primarily due to an increase in revenue from operations and other income.

### Revenue from Operations

Our revenue from operations, increased by 13.93% from ₹ 5,251.00 million in Fiscal 2024 to ₹ 5,982.59 million in Fiscal 2025 primarily on account of an increase in retainership and other services by 19.64% from ₹ 4,021.29 million in Fiscal 2024 to ₹ 4,811.05 million in Fiscal 2025, and an increase in installation revenue by 47.36% from ₹ 746.69 million in Fiscal 2024 to ₹ 1,100.31 million in Fiscal 2025, primarily due to an increase in revenue contribution from North America consequent to our new customer acquisition of an American healthcare company that provides technology services, pharmacy care services and various direct healthcare services in Fiscal 2024, and due to improving NRR with other existing customers.

During Fiscal 2025, we changed our business model for campaign services and entered a new arrangement with our service providers pursuant to which, we act as an agent and not as a principal for campaign services transactions. Accordingly, the revenue generated from campaign services during Fiscal 2025 has been recorded on a net basis (i.e., net of cost of campaign services) in our Restated Consolidated Statement of Profit and Loss. However, in Fiscal 2024 and Fiscal 2023, income from campaign services was recognized on a gross basis as we acted as principals for campaign services transactions. Accordingly, the corresponding cost of campaign services was recognized as an expense in our Restated Consolidated Statement of Profit and Loss.

The increase in the aggregate of retainership and other services and installation revenue by 23.98% from ₹4,767.98 million in Fiscal 2024 to ₹ 5,911.36 million in Fiscal 2025 was partially offset by the aforementioned change in our business model for campaign services transactions. A reduction of ₹ 411.79 million in Fiscal 2025 representing a decrease by 85.25% from ₹ 483.02 million in Fiscal 2024 to ₹ 71.23 million in Fiscal 2025 was effected through this change in our business model, thereby resulting in the overall 13.93% increase in total revenue from operations.

To ensure comparability of revenue from operations for the periods/years presented in our Restated Consolidated Financial Information, 'Net Revenue' (defined as revenue from operations less campaign service cost) has also been disclosed for all the presented periods/years in this section. Our Net Revenues in Fiscal 2025 and Fiscal 2024 was ₹ 5,982.59 million and ₹ 4,833.97 million, respectively, representing a 23.76% year-on-year growth. This growth is primarily led by increasing revenues generated from existing customers represented by our NRR increasing from 112.68% in Fiscal 2024 to 121.25% in Fiscal 2025, and increased revenue generated from newly acquired customers represented by our New ACV increasing by 6.78% from ₹ 1,145.92 million in Fiscal 2024 to ₹ 1,223.59 million in Fiscal 2025.

The following table sets forth certain information relating to our sale of services presented in accordance with the types of services we offer in the years indicated:

Particulars	Fiscal 2025	Fiscal 2024	Percentage increase / (decrease) (%)
	(₹ million)

Notes:

1. Net Revenue is computed as Revenue from operations less cost of campaign services.
2. Net Revenue Growth is calculated as a percentage of Net Revenue of the relevant period/year minus Net Revenue of the preceding period/year, divided by Net Revenue of the preceding period/year.
3. EBITDA Margin (Net Revenue) is calculated as percentage of EBITDA divided by Net Revenue for the respective Fiscal. Net Revenue is computed as Revenue from operations less cost of campaign services.
4. Adjusted EBITDA Margin (Net Revenue) is defined as Adjusted EBITDA as a percentage of Adjusted EBITDA divided by Net Revenue for the respective Fiscal.
5. Profit/(loss) before tax refers to Restated profit/ (loss) before tax as disclosed in our Restated Consolidated Financial Information.
6. Restated profit/(loss) before tax Margin (Net Revenue) is defined as restated profit/ (loss) before tax divided by Net Revenue for the respective Fiscal.
7. ARR (Net Revenue) refers to aggregate of all Net Revenue from the most recent quarter multiplied by 4. Annual Recurring Revenues refers to the active recurring contract values over a 12 month period.
8. New ACV refers as aggregate of all annual recurring revenues contracted during the respective Fiscal, where annual recurring revenues represent the active recurring contract values over a twelve month period from licensed subscriptions and committed professional services.
9. CAC as a percentage of Net Revenue is computed as sales and marketing spends plus / (minus) the loss / (profit) earned on installation income divided by Net Revenue multiplied by 100 for the respective Fiscal.
10. NRR rate is computed as Net Revenue for the current Fiscal from all customers existing at the end of previous Fiscal divided by Net Revenue generated from the same customers in the previous Fiscal multiplied by 100.

### Other Income

Other income increased by 31.62% from ₹ 103.40 million in Fiscal 2024 to ₹ 136.10 million in Fiscal 2025 primarily due to an increase in profit on sale of investments from ₹ 17.55 million in Fiscal 2024 to ₹ 76.53 million in Fiscal 2025 and an increase in interest income on corporate deposits from ₹ 6.50 million in Fiscal 2024 to ₹ 25.18 million in Fiscal 2025. These were partially offset by a decrease in provisions/ liabilities no longer required written back from ₹ 26.07 million in Fiscal 2024 to ₹ 0.18 million in Fiscal 2025 and a decrease in other miscellaneous income from ₹ 27.61 million in Fiscal 2024 to ₹ 17.62 million in Fiscal 2025.

### Expenses

Total expenses marginally decreased by 0.68% from ₹ 5,369.31 million in Fiscal 2024 to ₹ 5,332.96 million in Fiscal 2025. This was primarily due to change in our business model for campaign services where through new arrangements entered into with our service providers, we act as an agent and not as a principal for these transactions leading to cost of campaign services being reduced from income from such services and not included as part of total expenses in Fiscal 2025. Total expenses excluding cost of campaign services increased by 7.69% from ₹ 4,952.28 in Fiscal 2024 to ₹ 5,332.96 in Fiscal 2025, primarily on account of an increase in business

operations. This increase of 7.69% was primarily due to scaling of our organic business through efficiencies in our net revenue retention and new customer acquisition. Our inorganic businesses have also witnessed a reduction in total expenses through transitioning central functions which include finance, human resources, information security, information technology support, workplace services and other corporate functions to India, transitioning parts of research and technology development and maintenance functions to India, and migration of technology platform where most service-based deliverables are automated through software solutions as opposed to dedicated human workforce.

### ***Cost of Campaign Services***

Cost of campaign services decreased from ₹ 417.03 million in Fiscal 2024 to nil in Fiscal 2025 primarily on account of change in business model from gross accounting to net accounting. For further information see, “- Fiscal 2025 compared to Fiscal 2024 – Revenue from Operations” on page 502.

### ***Professional and Consultancy Services Expense***

Professional and consultancy services increased by 13.95% from ₹ 873.15 million in Fiscal 2024 to ₹ 994.93 million in Fiscal 2025 primarily on account of increase in business operations.

### ***Software and Server Charges***

Software and server charges decreased by 1.49% from ₹ 935.84 million in Fiscal 2024 to ₹ 921.85 million in Fiscal 2025 primarily due to optimization of software charges pursuant to migration to our platform of customers acquired through our Persuade Group and B+P acquisitions.

### ***Employee Benefits Expense***

Employee benefits expense increased by 8.67% from ₹ 2,719.43 million in Fiscal 2024 to ₹ 2,955.20 million in Fiscal 2025, primarily due to an increase in salaries, wages and bonus from ₹ 2,336.26 million in Fiscal 2024 to ₹ 2,583.31 million in Fiscal 2025. This was partially offset by a decrease in staff welfare and training and recruitment expenses from ₹ 152.94 million in Fiscal 2024 to ₹ 94.23 million in Fiscal 2025, primarily due to a lower in-office workforce under the work-from-home policy.

### ***Finance Costs***

Finance costs decreased by 56.02% from ₹ 177.08 million in Fiscal 2024 to ₹ 77.88 million in Fiscal 2025, primarily due to a decrease in interest on borrowings from ₹ 166.91 million in Fiscal 2024 to ₹ 62.66 million in Fiscal 2025, primarily due to repayment of non-convertible debentures on a monthly basis amounting to ₹ 30.00 million leading to a lower interest cost accrued every month.

### ***Depreciation and Amortisation Expenses***

Depreciation and amortisation expenses increased by 7.21% from ₹ 560.61 million in Fiscal 2024 to ₹ 601.03 million in Fiscal 2025, primarily due to an increase in amortisation of intangible assets from ₹ 510.83 million in Fiscal 2024 to ₹ 539.03 million in Fiscal 2025, primarily due to increase in addition of intangible assets year on year, which is a consequence of an increase in development of internally generated intangible assets for our expanding business operations.

### ***Other Expenses***

Other expenses increased by 8.76% from ₹ 423.86 million in Fiscal 2024 to ₹ 460.98 million in Fiscal 2025, primarily due to an increase in:

- Business promotion expenses from ₹ 110.85 million in Fiscal 2024 to ₹ 117.81 million in Fiscal 2025 primarily due to strategic decisions to improve recognition of our brand “Capillary” globally;
- Loss allowances under expected credit loss model from ₹ 41.21 million in Fiscal 2024 to ₹ 78.42 million in Fiscal 2025 primarily due to non-recovery of receivables from a customer who had filed for bankruptcy, leading to higher allowances in Fiscal 2025; and
- Miscellaneous expenses increased from ₹ 60.25 million in Fiscal 2024 to ₹ 81.54 million in Fiscal 2025 primarily due to increase in communication expenses. This increase is attributable to a contract entered into by one of our Subsidiary, Capillary Technologies Europe Limited in February 2024, resulting in only two

months of expenses being recorded in Fiscal 2024, compared to a full twelve months in Fiscal 2025.

This was partially offset by a decrease in loss on account of foreign exchange fluctuations (net) from ₹ 26.85 million in Fiscal 2024 to ₹ 7.24 million in Fiscal 2025 due to a favorable movement of currencies dealt in by our Company in Fiscal 2025 as against Fiscal 2024.

### **Restated profit/ (loss) before Exceptional Items and Tax from Continuing Operations**

As a result of the foregoing, restated profit before exceptional items and tax from continuing operations was ₹106.82 million in Fiscal 2025 compared to restated loss before exceptional items and tax from continuing operations ₹ 752.60 million in Fiscal 2024.

### **Tax Expenses**

Current tax credit was ₹ 12.90 million in Fiscal 2025 compared to current tax charge of ₹ 1.93 million in Fiscal 2024 on account of actualization of tax expenses per income tax return filed in Fiscal 2024. Deferred tax credit was ₹ 21.82 million in Fiscal 2025 compared to ₹ 71.02 million in Fiscal 2024 primarily on account of increase in tax effect on intangibles on account of acquisition of a subsidiary, Capillary Brierley Inc. in Fiscal 2024. As a result, total tax credit decreased by 49.75% from ₹ 69.09 million in Fiscal 2024 to ₹ 34.72 million in Fiscal 2025.

### **Restated Profit/ (Loss) for the Year from Continuing Operations**

We recorded a restated profit for the year from continuing operations of ₹ 141.54 million in Fiscal 2025 as compared to a restated loss for the year from continuing operations of ₹ 683.51 million in Fiscal 2024.

### **Discontinued Operations**

Pursuant to board resolution dated January 27, 2025, we decided to discontinue our operations in the Anywhere Commerce Platform (“ACP”) with effect from October 1, 2024. The ACP business comprised operations and cashflow that were clearly distinguished from the operations of the rest of our Company. Accordingly, the Company has derecognised the net carrying value of assets of ₹ 6.49 million to the restated statement of profit and loss for the year ended March 31, 2025.

In addition, pursuant to board resolution dated March 12, 2025, we decided to discontinue our operations in the ‘digital business’ effective from March 31, 2025. The digital business of our Company comprised operations and cashflow that were clearly distinguished from the operations of the rest of our Company. The business did not have any assets which were not recoverable and accordingly, no amount was derecognised to the restated statement of profit and loss for the year ended March 31, 2025.

Accordingly, the demerged cash generating unit and the attributable unallocated assets and liabilities represent discontinued operations and have been accounted for in accordance with the stipulations of Ind AS 105 - Non-current assets held for sale and discontinued operations. The comparative years have also been adjusted in line with the requirements of the standard. For further information, see “*Restated Consolidated Financial Information – Discontinued Operations – Note 42*” on page 459.

We recorded a restated loss before tax from discontinued operations of ₹ 8.54 million in Fiscal 2025 as compared to a restated profit before tax from discontinued operations of ₹ 113.58 million in Fiscal 2024. Tax expense on discontinued operations was ₹ 0.20 million in Fiscal 2025 compared to ₹ 23.85 million in Fiscal 2024. Accordingly, restated loss from discontinued operations after tax was ₹ 8.74 million in Fiscal 2025 and restated profit from discontinued operations after tax ₹ 89.73 million in Fiscal 2024.

### **Restated Profit/ (Loss) for the Year**

For the reasons discussed above, restated profit for the year was ₹ 132.80 million in Fiscal 2025 as compared to a restated loss for the year of ₹ 593.78 million in Fiscal 2024.

### **Fluctuation in EBITDA**

In Fiscal 2025, our EBITDA increased to ₹785.73 million, representing 13.13% of our revenue from operations. This increase was due to increase in our revenue from operations, by 13.93% from ₹ 5,251.00 million in Fiscal 2024 to ₹ 5,982.59 million in Fiscal 2025 primarily on account of an increase in retainership and other services by 19.64% from ₹ 4,021.29 million in Fiscal 2024 to ₹ 4,811.05 million in Fiscal 2025, and an increase in

installation revenue by 47.36% from ₹ 746.69 million in Fiscal 2024 to ₹ 1,100.31 million in Fiscal 2025, primarily due to an increase in revenue contribution from North America consequent to new customer acquisition of an American healthcare company that provides technology services, pharmacy care services and various direct healthcare services in Fiscal 2024, and due to improving NRR with other existing customers. Total expenses excluding cost of campaign services increased by 7.69% from ₹ 4,952.28 in Fiscal 2024 to ₹ 5,332.96 in Fiscal 2025, primarily on account of an increase in business operations. This increase of 7.69% was primarily due to scaling of organic business through efficiencies in net revenue retention and new customer acquisition. Inorganic businesses also witnessed a reduction in total expenses through transitioning central functions which include finance, human resources, information security, information technology support, workplace services and other corporate functions to India, transitioning parts of research and technology development and maintenance functions to India, and migration of technology platform where most service-based deliverables are automated through software solutions as opposed to dedicated human workforce. These factors, reflecting the realization of post-acquisition synergies, contributed to enhanced geographical diversification and improved cost absorption. As a result, our Company experienced a significant shift in EBITDA, due to a turnaround in operating profitability.

### **Adjusted Earnings before Interest expenses, Taxes, Depreciation and Amortisation before Exceptional Items (Adjusted EBITDA)**

Adjusted EBITDA was ₹ 745.01 million in Fiscal 2025 as compared to ₹ (11.29) million in Fiscal 2024, while Adjusted EBITDA Margin was 12.45% in Fiscal 2025 as compared to (0.22)% in Fiscal 2024.

### **FISCAL 2024 COMPARED TO FISCAL 2023**

#### **Income**

Total income increased from ₹ 2,662.53 million in Fiscal 2023 to ₹ 5,354.40 million in Fiscal 2024, primarily due to an increase in revenue from operations.

#### **Revenue from Operations**

Our revenue from operations increased from ₹ 2,553.72 million in Fiscal 2023 to ₹ 5,251.00 million in Fiscal 2024, primarily due to an increase in retainership and other services from ₹ 1,564.31 million in Fiscal 2023 to ₹ 4,021.29 million in Fiscal 2024 primarily due to acquisition of our Subsidiaries, B+P and the Rewards+ Acquisition and organic growth through retention of existing customers and new customer acquisitions, and an increase in installation revenue from ₹ 419.56 million in Fiscal 2023 to ₹ 746.69 million in Fiscal 2024 primarily due to the aforementioned acquisitions and installation revenue from migration of acquired customers to our platform.

To ensure comparability of revenue from operations for the periods/years presented in our Restated Consolidated Financial Information, 'Net Revenue' (defined as revenue from operations less campaign service cost) has also been disclosed for all the presented periods/years in this section. Our Net Revenues in Fiscal 2024 and Fiscal 2023 was ₹ 4,833.97 million and ₹ 2,070.86 million, respectively, representing a 133.43% year-on-year growth. This growth is primarily led by revenues generated from the acquisition of B+P and the Rewards+ Acquisition in Fiscal 2024 generating aggregate revenues of ₹ 2,302.35 million, which represents 47.63% of revenue from operations in Fiscal 2024, and increased revenue generated from newly acquired customers represented by our New ACV increasing by 98.03% from ₹ 578.65 million to ₹ 1,145.92 million in Fiscal 2024.

The following table sets forth certain information relating to our sale of services presented in accordance with the types of services we offer in the years indicated:

### Other Income

Other income decreased by 4.97% from ₹ 108.81 million in Fiscal 2023 to ₹ 103.40 million in Fiscal 2024 primarily due to a decrease in gain on account of foreign exchange fluctuations (net) from ₹ 25.40 million in Fiscal 2023 to nil in Fiscal 2024 primarily due to a favorable movement of currencies dealt in by our Company in Fiscal 2025 as against Fiscal 2024. This was partially offset by an increase in profit on sale of investments from nil in Fiscal 2023 to ₹ 17.55 million in Fiscal 2024 and an increase in gain on fair valuation of investments carried at fair value through profit and loss from nil in Fiscal 2023 to ₹ 9.59 million in Fiscal 2024.

### Expenses

Total expenses increased by 65.42% from ₹ 3,245.92 million in Fiscal 2023 to ₹ 5,369.31 million in Fiscal 2024, primarily due to an increase in the scale of our operations pursuant to our strategic acquisitions in Fiscal 2024. This resulted in increase in professional and consultancy services, software and server charges, employee benefit

expenses and other expenses. Cost of campaign services, decreased by 13.63% from ₹ 482.86 million in Fiscal 2023 to ₹ 417.03 million in Fiscal 2024. Total expenses excluding cost of campaign services, increased by 79.23% from ₹ 2,763.06 million in Fiscal 2023 to ₹ 4,952.28 million in Fiscal 2024. Of the total year-on-year increase, ₹2,518.91 million was attributable to the acquisition of B+P and Rewards+ Acquisition, representing 46.91% of total expenses in Fiscal 2024. Further, excluding cost of campaign services and the aforementioned ₹ 2,518.91 attributable to acquisition of B+P and Rewards+ Acquisition, there has been a reduction of ₹ 329.69 million in total expenses, representing a reduction in the cost of operations of our continuing business through our cost optimization measures and synergies achieved through platform migrations and transitioning central functions and research and technology development and maintenance functions to India, pertaining to our earlier acquisition of the Persuade Group in Fiscal 2022.

### ***Cost of Campaign Services***

Cost of campaign services decreased by 13.63% from ₹ 482.86 million in Fiscal 2023 to ₹ 417.03 million in Fiscal 2024 primarily due to decrease in revenues for the campaign services from our customers.

### ***Professional and Consultancy Services Expense***

Professional and consultancy services expense increased by 180.17% from ₹ 311.65 million in Fiscal 2023 to ₹ 873.15 million in Fiscal 2024 primarily due to increase in operations on account of acquisition of B+P and Rewards+ Acquisition in Fiscal 2024.

### ***Software and Server Charges***

Software and server charges increased by 213.30% from ₹ 298.71 million in Fiscal 2023 to ₹ 935.84 million in Fiscal 2024 primarily due to increase in operations on account of acquisition of B+P and Rewards+ Acquisition in Fiscal 2024.

### ***Employee Benefits Expense***

Employee benefits expense increased by 44.34% from ₹ 1,884.10 million in Fiscal 2023 to ₹ 2,719.43 million in Fiscal 2024, primarily due to an increase in salaries, wages and bonus from ₹ 1,206.46 million in Fiscal 2023 to ₹ 2,336.26 million in Fiscal 2024, primarily due to increase in headcount pursuant to our acquisition of B+P and Rewards+ Acquisition and due to salary increments during Fiscal 2024. This was partially offset by a decrease in Share based payments from ₹ 536.57 million in Fiscal 2023 to ₹ 53.34 million in Fiscal 2024, on account of a significant one-time recognized in Fiscal 2023 pursuant to the grant of new stock options towards the end of the Fiscal 2021.

### ***Finance Costs***

Finance costs increased by 57.56% from ₹ 112.39 million in Fiscal 2023 to ₹ 177.08 million in Fiscal 2024, primarily due to an increase in interest on borrowings from ₹ 98.87 million in Fiscal 2023 to ₹ 166.91 million in Fiscal 2024 primarily due to issue of non-convertible debentures at the end of Fiscal 2023 and increase in utilization of overdraft facilities availed from the banks.

### ***Depreciation and Amortisation Expenses***

Depreciation and amortisation expenses increased by 52.78% from ₹ 366.93 million in Fiscal 2023 to ₹ 560.61 million in Fiscal 2024, primarily due to an increase in amortisation of intangible assets from ₹ 321.25 million in Fiscal 2023 to ₹ 510.83 million in Fiscal 2024 primarily due to increase in additions of internally generated and other intangible assets year on year.

### ***Other Expenses***

Other expenses increased by 57.80% from ₹ 268.60 million in Fiscal 2023 to ₹ 423.86 million in Fiscal 2024, primarily due to an increase in:

- Travelling and conveyance expense from ₹ 53.88 million in Fiscal 2023 to ₹ 122.54 million in Fiscal 2024 primarily due to increase in travelling expenses incurred by employees of newly acquired entities, namely Capillary Brierley Inc. and Capillary Technologies Europe Limited.
- Loss allowances under expected credit loss model from ₹ 19.19 million in Fiscal 2023 to ₹ 41.21 million in Fiscal 2024 on account of primarily due to non-recovery of receivables from a customer undergoing financial

- crisis leading to higher allowances in Fiscal 2024;
- Loss on account of foreign exchange fluctuations (net) from nil in Fiscal 2023 to ₹ 26.85 million in Fiscal 2024 primarily due to unfavorable movement of currencies dealt in by the Company in Fiscal 2024 as against Fiscal 2023; and
- Miscellaneous expenses from ₹ 32.34 million in Fiscal 2023 to ₹ 60.25 million in Fiscal 2024.

### **Restated Profit/ (Loss) before Exceptional Items and Tax from Continuing Operations**

As a result of the foregoing, restated loss before exceptional items and tax from continuing operations was ₹1,062.71 million in Fiscal 2023 compared to ₹ 752.60 million in Fiscal 2024.

### **Exceptional Items**

Exception items were ₹ 113.82 million in Fiscal 2023 compared to nil in Fiscal 2024. As of March 31, 2023, Capillary Technologies LLC (formerly Persuade Loyalty LLC) did not meet the earn-out condition specified in the Acquisition Agreement. Consequently, the contingent consideration was no longer payable. Our Company's Management, through a Waiver and Consent Letter, granted fully vested options worth USD 0.83 million of the Ultimate Holding Company and a cash payout of USD 0.38 million as a final settlement with the former shareholders and investors of the Persuade Group. The remaining cash payout of USD 2.12 million (₹ 113.82 million), which was no longer payable, has been written back to the restated consolidated statement of profit and loss as "Exceptional items".

### **Restated Profit/(Loss) before Tax**

For the reasons discussed above, loss before tax was ₹ 948.89 million in Fiscal 2024 as compared to ₹ 752.60 million in Fiscal 2023.

### **Tax Expenses**

Current tax charge was ₹ 1.93 million in Fiscal 2024 compared to current tax credit of ₹ 17.26 million in Fiscal 2023 on account of recognition of profit in our Subsidiaries, namely, Capillary Technology LLC and PT Capillary Technologies Indonesia in Fiscal 2024. Deferred tax credit was ₹ 71.02 million in Fiscal 2024 compared to ₹46.07 million in Fiscal 2023 on account of primarily on account of increase in tax effect on intangibles on account of acquisition of a subsidiary, Capillary Brierley Inc. in Fiscal 2024. As a result, total tax credit increased by 9.10% from ₹ 63.33 million in Fiscal 2023 to ₹ 69.09 million in Fiscal 2024.

### **Restated Profit/ (Loss) for the Year**

We recorded a restated loss for the year of ₹ 593.78 million in Fiscal 2024 as compared to restated loss for the year of ₹ 877.19 million in Fiscal 2023.

### **Restated Profit/ (Loss) for the Year from Continuing Operations**

We recorded a restated loss for the year from continuing operations of ₹ 683.51 million in Fiscal 2024 as compared to a restated loss for the year from continuing operations of ₹ 885.56 million in Fiscal 2023.

### **Discontinued Operations**

We recorded a restated profit before tax from discontinued operations of ₹ 113.58 million in Fiscal 2024 as compared to a restated profit before tax of ₹ 21.62 million in Fiscal 2023. Tax expense on discontinued operations was ₹ 23.85 million in Fiscal 2024 compared to ₹ 13.25 million in Fiscal 2023. Accordingly, restated profit from discontinued operations after tax was ₹ 89.73 million in Fiscal 2024 and ₹ 8.37 million in Fiscal 2023.

### **Restated Profit/ (Loss) for the Year**

For the reasons discussed above, restated loss for the year was ₹ 593.78 million in Fiscal 2024 as compared to a restated loss for the year of ₹ 877.19 million in Fiscal 2024.

### **Fluctuation in EBITDA**

Between Fiscal 2023 and Fiscal 2024, our Company reported a reduction in EBITDA loss, from ₹(583.39) million in Fiscal 2023, representing (22.84)% of our revenue from operations to ₹(14.91) million in Fiscal 2024,

representing (0.28)% of our revenue from operations. Negative EBITDA in Fiscal 2023 was due to lower revenue of operations of ₹2,553.72 million significantly offset due to employee benefits expenses of ₹1,884.10 million.

In Fiscal 2024, our revenue from operations increased to ₹5,251.00 million, primarily due to an increase in retainership and other services from ₹ 1,564.31 million in Fiscal 2023 to ₹ 4,021.29 million in Fiscal 2024 primarily due to acquisition of Subsidiaries, B+P and the Rewards+ Acquisition and organic growth through retention of existing customers and new customer acquisitions, and an increase in installation revenue from ₹ 419.56 million in Fiscal 2023 to ₹ 746.69 million in Fiscal 2024 primarily due to the aforementioned acquisitions and installation revenue from migration of acquired customers to our platform. Operating expenses, excluding cost of campaign services, increased by 79.23% to ₹4,952.28 million, of which ₹2,518.91 million was attributable to acquisition related costs, accounting for 46.91% of total expenses. Further, excluding cost of campaign services and the aforementioned ₹ 2,518.91 million attributable to acquisition of B+P and Rewards+ Acquisition, there has been a reduction of ₹ 329.69 million in total expenses, representing a reduction in the cost of operations of continuing business through our cost optimization measures and synergies achieved through platform migrations and transitioning central functions and research and technology development and maintenance functions to India, pertaining to our earlier acquisition of the Persuade Group in Fiscal 2022. These factors contributed to the narrowing of its EBITDA loss over the period.

### Adjusted Earnings before Interest, Taxes, Depreciation and Amortisation (Adjusted EBITDA)

Adjusted EBITDA was ₹(11.29) million in Fiscal 2024 as compared to ₹(62.13) million in Fiscal 2023, while Adjusted EBITDA Margin was (0.22)% in Fiscal 2024 as compared to (2.43)% in Fiscal 2023.

### Liquidity and Capital Resources

We finance our operations and capital requirements primarily through equity infusion of our Promoter entity funded by investors, cash flows from operations and borrowings under credit facilities from certain banks. We believe that with our credit facilities, expected cash to be generated from operations and the proceeds from the Offer, we will have sufficient liquidity for our present requirements and anticipated requirements for capital expenditure and working capital for at least the next 12 months. We expect that these sources will continue to be our principal sources of cash in the medium term. However, there can be no assurance that additional financing will be available, or if available, that it will be available on terms acceptable to us.

## RELATED PARTY TRANSACTIONS

We enter into various transactions with related parties in the ordinary course of business. These transactions principally include service income from our Group Companies, finance costs, trade payables, other receivables from related parties, collections made on behalf of other companies in Capillary Group, expenses incurred on behalf of other companies in Capillary Group and remuneration to executive Directors and Key Managerial Personnel.

For further information on our related party transactions, see “*Restated Consolidated Financial Information – Note 35 – Related Party Disclosures*” on page 445. Also, see “*Risk Factors – We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders*” on page 75.

## AUDITOR’S OBSERVATIONS

Our Statutory Auditors have included certain qualifications which do not require any adjustments in the Restated Consolidated Financial Information, as at and for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 and included the following paragraphs in relation to reporting on other legal and regulatory requirements:

### ***For the year ended March 31, 2025***

*“In our opinion, proper books of accounts as required by law relating to the preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except that the back-up of the books of accounts and other books and paper maintained in electronic mode has not been maintained on servers physically located in India, on a daily basis by the Holding Company.*

*Based on our examination which included test checks, except for instance mentioned below, the Holding Company, in respect of financial year commencing on or after April 1, 2023, has used accounting software for maintaining its books of accounts which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, other than the consequential impact of the exceptions given below and furthermore, except for matters mentioned below, the audit trail has been preserved by the Holding Company as per the statutory requirements for record retention. The Holding Company has used an accounting software operated by a third-party service provider for maintenance of accounting records. In the absence of any information on existence of audit trail (edit logs) for any direct changes made at the database level in the ‘Independent Service Auditor’s Assurance Reports on the Description of Controls, their Design and Operating Effectiveness’ [‘Type 2 report’ issued in accordance with ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information] and ISAE 3402, Assurance Reports on Controls at a Service Organization], we are unable to comment on whether the audit trail feature with respect to the database of this software was enabled and operated throughout the year.”*

### ***For the year ended March 31, 2024***

*“In our opinion, proper books of accounts as required by law relating to the preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except that the back-up of the books of accounts and other books and paper maintained in electronic mode has not been maintained on servers physically located in India, on a daily basis by the Holding Company.*

## **QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Our principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance our operations. Our principal financial assets include trade receivables, other financial assets and cash and bank balances derived from our operations.

In the course of our business, we are exposed primarily to fluctuations in foreign currency exchange rates, interest rates, liquidity and credit risk, which may adversely impact the fair value of our financial instruments. We have a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. Our risk management policy is approved by our Board of Directors. Our risk management framework aims to:

- create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on our business plan; and
- achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

### **Market Risk**

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

### ***Interest Rate Risk***

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our exposure to the risk of changes in market interest rates relates primarily to our debt obligations with floating interest rates. Thus, profits and cash flows from financing activities are dependent on market interest rates. Further, any decline in our credit rating will have an adverse impact on the interest rates.

### ***Foreign currency risk***

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Our exposure to the risk of changes in foreign exchange rates relates primarily to our operating and financing activities. Our exposure to foreign currency changes from operating activities is not material.

### **Credit Risk**

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to

₹1,851.01 million, ₹ 1,595.97 million, ₹ 1,611.21 million, ₹ 1,456.51 million and ₹ 801.11 million as at September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023, respectively. Trade receivable includes both secured and unsecured receivables and are derived from revenue earned from domestic and overseas customers. Credit risk has always been managed by our Company through taking security deposits and bank guarantees from customers, credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which we grant credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis based on historical data of credit losses. Credit risk on cash and cash equivalents including other bank balances, investment in mutual funds and debt securities is limited as we generally invest in deposits with banks, financial institutions and counterparties with high credit ratings assigned by international and domestic credit rating agencies.

Credit risk from balances with bank and financial institutions and in respect to loans and security deposits is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Credit risk on liquid funds and Inter Corporate deposits is limited because the counterparties are banks and companies with high credit-ratings assigned by credit-rating agencies.

### **Liquidity Risk**

Liquidity risk refers to the risk that we cannot meet our financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. We have obtained fund based working capital limits from banks. We invest our surplus funds in liquid/ short duration mutual funds or bank fixed deposit, which carry no or low market risk.

We monitor our risk of shortage of funds on a regular basis. Our objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, etc. We assessed the concentration of risk with respect to refinancing our debt and concluded it to be medium.

### **UNUSUAL OR INFREQUENT EVENTS OR TRANSACTIONS**

Except as described in this Red Herring Prospectus, to our knowledge, there have been no unusual or infrequent events or transactions that have in the past or may in the future affect our business operations or future financial performance.

### **SIGNIFICANT ECONOMIC CHANGES THAT MATERIALLY AFFECT OR ARE LIKELY TO AFFECT INCOME FROM CONTINUING OPERATIONS**

Our business has been subject, and we expect it to continue to be subject, to significant economic changes that materially affect or are likely to affect income from continuing operations identified above in "*Management's Discussion and Analysis of Financial Condition and Results of Operations – Significant Factors Affecting our Results of Operations*" and the uncertainties described in "*Risk Factors*" on pages 467 and 34, respectively.

### **KNOWN TRENDS OR UNCERTAINTIES**

Our business has been subject, and we expect it to continue to be subject, to significant economic changes arising from the trends identified above in "*Management's Discussion and Analysis of Financial Condition and Results of Operations – Significant Factors Affecting our Results of Operations*" and the uncertainties described in "*Risk Factors*" on pages 467 and 34, respectively. To our knowledge, except as discussed in this Red Herring Prospectus, there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

### **FUTURE RELATIONSHIP BETWEEN COST AND INCOME**

Other than as described in "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 34, 268 and 467 respectively, to our knowledge there are no known factors that may adversely affect our business prospects, results of operations and financial condition.

### **NEW PRODUCTS OR BUSINESS SEGMENTS**

Except as set out in this Red Herring Prospectus, we have not announced and do not expect to announce in the

near future any new business segments other than in the normal course of business.

## COMPETITIVE CONDITIONS

We operate in a competitive environment. See “*Risk Factors*”, “*Industry Overview*”, “*Our Business*” on pages 34, 229 and 268, respectively, for further details on competitive conditions that we face across our various business segments.

## EXTENT TO WHICH MATERIAL INCREASES IN NET SALES OR REVENUE ARE DUE TO INCREASED SALES VOLUME, INTRODUCTION OF NEW PRODUCTS OR SERVICES OR INCREASED SALES PRICES

Changes in revenue in the last three Fiscals are as described in “– *Six-month period ended September 30, 2025 compared to six-month period ended September 30, 2024*”, “– *Fiscal 2025 compared to Fiscal 2024*”, and “– *Fiscal 2024 compared to Fiscal 2023*” above on pages 499, 502 and 506, respectively.

## SEGMENT REPORTING

Our business activity primarily falls within cloud based intelligent customer engagement software solutions to retail chain operators. Therefore, there is only one reportable segment called CRM services in accordance with the requirement of Ind AS 108 – Operating Segments. For further information, see “*Restated Consolidated Financial Information – Note 36 – Segment Information*” on page 451.

## SIGNIFICANT DEPENDENCE ON SINGLE OR FEW CUSTOMERS

We have derived and believe that in the foreseeable future will continue to derive a significant portion of our revenues from a limited number of customers which may not be the same every year. Set forth below are certain details regarding revenues derived from our top customer, top five customers and top ten customers for the periods/years indicated:

Particulars	Six-month period ended September 30, 2025		Six-month period ended September 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023

\*References to ‘Customer’ are to customers in a particular Fiscal and does not refer to the same customers across all periods/Fiscals.

For further information, see “*Risk Factors – We generate a significant portion of our revenues from a limited number of customers. Our top five and top 10 customers contributed to 38.60% and 55.70% of our revenue from operations in the six-month period ended September 30, 2025, and 43.35% and 58.71%, in Fiscal 2025, respectively. Any loss or reduction of business or termination of contracts from/by these customers could reduce our revenues and materially adversely affect our business, results of operations, financial condition, and cash flows.*” on page 35.

## SEASONALITY/ CYCLICALITY OF BUSINESS

While our business is not seasonal, however, our business prospects and future financial performance depend on the demand of our loyalty solutions.

**SIGNIFICANT DEVELOPMENTS AFTER SEPTEMBER 30, 2025 THAT MAY AFFECT OUR FUTURE RESULTS OF OPERATIONS**

Except as disclosed above and elsewhere in this Red Herring Prospectus, to our knowledge no circumstances have arisen since September 30, 2025 that could materially and adversely affect or are likely to affect, the trading or profitability, or the value of our assets or our ability to pay our liabilities within the next 12 months.

### Principal terms of the borrowings availed by our Company and CTL:

The details provided below are indicative and there may be additional terms, conditions and requirements under the various financing documentation executed by our Company and CTL in relation to our indebtedness that may require the consent of the relevant lender, the breach of which may amount to an event of default under the various borrowing arrangements entered into by us. See “*Risk Factors – We are required to comply with certain restrictive covenants under our financing agreements. Any non-compliance may lead to, amongst others, accelerated repayment schedule, enforcement of security and suspension of further drawdowns, which may adversely affect our business, results of operations, financial condition and cash flows.*” on page 76.

1. **Interest:** The applicable rate of interest for the sales invoice discounting and the working capital facilities availed by our Company are typically linked to the secured overnight financing rate (“**SOFR**”), or marginal cost of lending rate or treasury bills over a specific period of time and are subject to mutual discussions between the relevant lenders and our Company, along with spreads ranging from 1.75% to 2.50% with varying reset options. Commission payable for the bank guarantee facilities availed by our Company and CTL is 0.75% per annum. The rate of interest for our bank overdraft facilities is typically the underlying fixed deposit interest along with a mark-up interest of 1.50%.

The rate of interest for the credit facility availed by our subsidiary, CTL is linked to the SOFR daily floating rate along with a spread of 2.13%.

2. **Penal Interest:** The default penal interest payable on the facilities availed by our Company and CTL is typically 6% - 24% per annum over and above the applicable interest rate.
3. **Pre-payment penalty:** The facilities availed by us generally have prepayment provisions which allow for prepayment of the outstanding loan amount on providing prior notice to the concerned lender or receiving prior approval from such concerned lender, subject to a prepayment premium of 2% to 4% per annum, or as laid down in the facility document, as the case may be.

4. **Validity/Tenor:** The tenor of overdraft facilities availed by our Company and CTL are up to 12 months and that of our pre and post-shipment credit facility and sales invoice discounting facility is 4 and 6 months respectively. The tenor of our bank guarantee is 12 months.
5. **Security:** The sales invoice discounting and the working capital facilities availed by our Company is typically secured by way of:
  - (a) first pari passu charge over all the existing and future current assets (excluding receivables discounted by other banks) and moveable fixed assets.
  - (b) exclusive charge on our entire receivables discounted by the relevant lender; and
  - (c) charge on our immovable properties and fixed deposits.

The bank guarantees and the over-draft facilities are secured by cash margin by way of fixed deposits placed under lien in favour of the lender.

The credit facility availed by CTL has been secured by way of pari passu charge by way of hypothecation over the current assets of CTL both present and future, including tangible and intangible personal property such as inventory, equipment, instruments, chattel paper, and other assets.

6. **Repayment:** While the overdraft facility is repayable on demand, the payment for sales invoice discounting facilities shall be made on the due date based on the disbursement against invoices raised to the agreed upon customer. The payment for pre/post-shipment credit facility shall be made on the due date as per the facility letter.
7. **Key Covenants:** Certain of our borrowing arrangements provide for covenants restricting certain corporate actions, and we are required to take the prior approval of the relevant lender before undertaking such corporate actions, *inter alia* the following:
  - (a) Change in capital structure or shareholding pattern or ownership or control of our Company;
  - (b) Change in the management or management set up of our Company;
  - (c) Creation of further charge or any other encumbrance on the security provided for our borrowings;
  - (d) Amendment or modification of constitutional documents of our Company;
  - (e) Formulation of scheme of merger, demerger, reconstruction, amalgamation or corporate reconstruction; and
  - (f) Dilution or transfer of promoters shareholding and non-maintenance of shareholding of promoters/directors at the prescribed threshold.
8. **Events of default:** Borrowing arrangements entered into by us, contain standard events of default, *inter alia* the following:
  - (a) Default in payment of interest or instalment amount due;
  - (b) Being adjudicated as insolvent or a receiver being appointed in respect of the whole or any part of the property;
  - (c) Breach of any terms and conditions as mentioned under the borrowing agreements;
  - (d) If our company ceases or threatens in writing to cease to carry on its business or gives notice in writing of its intention to do so;
  - (e) Any change in the condition or circumstances of the company that has resulted in a material adverse effect;
  - (f) Any default under any other agreements or other writings with the lender; and
  - (g) Occurrence of any circumstances which could materially jeopardize, the security created in favour of the bank

9. ***Consequences of events of default:*** In terms of our borrowing arrangements, as a consequence of events of occurrence of events of default, our lenders may, *inter alia*:
- (a) Declare the outstanding amount of the facility respect of facility due and payable;
  - (b) Appoint nominee director or observer on the board of directors of the company;
  - (c) Conversion of outstanding loan obligations into equity or other securities;
  - (d) Enforce the security in case of payment default; and
  - (e) Suspend or cancel further drawings under the facility.

## SECTION VI: LEGAL AND OTHER INFORMATION

### OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except as stated below there are no outstanding (i) criminal proceedings (including any notices received for such criminal proceedings and matters at FIR stage or police complaints even if no cognizance has been taken by any court) involving our Company, Subsidiaries, Directors, or Promoters (the “**Relevant Parties**”); (ii) actions taken by statutory or regulatory authorities involving the Relevant Parties (iii) claims relating to direct and indirect taxes in a consolidated manner, involving the Relevant Parties; and (iv) other pending litigations or arbitration proceedings involving the Relevant Parties which has been determined to be material pursuant to the Materiality Policy (as disclosed herein below). Further, there are no disciplinary actions (including penalties) imposed by SEBI or stock exchanges against our Promoters in the last five Fiscals immediately preceding the date of this Red Herring Prospectus, including any outstanding action. Further, except as disclosed in this section, there are no outstanding (i) criminal proceedings; and (ii) actions by regulatory or statutory authorities involving our Key Managerial Personnel and members of our Senior Management.

For the purpose of (iv) above, our Board has considered and adopted the following policy on materiality for identification of material outstanding litigation involving the Relevant Parties pursuant to Board resolution dated April 20, 2025.

All outstanding litigation, including any litigation involving the Relevant Parties, other than criminal proceedings, actions by regulatory authorities and statutory authorities, and tax matters (direct or indirect), will be considered material if: (a) the monetary amount of claim/dispute, to the extent quantifiable, involved in any such outstanding litigation is equivalent to or in excess of (i) 2% of turnover, as per the latest Fiscal included in the Restated Consolidated Financial Information of the Company; or (ii) 2% of net worth, as per the latest Fiscal included in the Restated Consolidated Financial Information of the Company, except in case the arithmetic value of the net worth is negative; or (iii) 5% of average of absolute value of profit or loss after tax, as per the Restated Consolidated Financial Information of the Company for the last three Fiscals, whichever is lower, in this case being 5% of the average of absolute value of profit or loss after tax, as per the Restated Consolidated Financial Information of the Company for the last three Fiscals, i.e., ₹ 26.73 million (“**Materiality Threshold**”); or (b) any outstanding litigation/arbitration proceeding, where the monetary impact is not determinable or quantifiable or does not exceed the Materiality Threshold, but an adverse outcome of which would materially and adversely affect the business, prospects, operations, performance, financial position or reputation of the Company or where a decision in one proceeding is likely to affect the decision in similar proceedings, such that the cumulative monetary impact in such proceedings exceeds the Materiality Threshold even though the monetary impact in the individual proceedings may not exceed the Materiality Threshold or pertaining to the title of the portfolio (held directly/indirectly by the Company) will be deemed material.

Additionally, any pending litigation involving the group companies, as identified in accordance with provisions of SEBI ICDR Regulations would be considered to have a ‘material impact’ on our Company, if an adverse outcome from such pending litigation would materially and adversely affect the business, prospects, operations, performance or financial position or reputation of our Company.

For the purposes of the above, pre-litigation notices received by the Relevant Parties from third parties (excluding those notices issued by statutory or regulatory or governmental or tax or judicial authorities or notices threatening criminal action) have not and shall not be considered material until such time that the Relevant Party is impleaded before any judicial forum. Except as stated below, there are no findings/observations of any inspections by SEBI or any other regulator involving the Relevant Parties, which are material, and which need to be disclosed, or non-disclosure of which may have bearing on the investment decision in relation to the Offer.

Unless stated to the contrary, the information provided below is as of the date of this Red Herring Prospectus. All terms defined in a particular litigation disclosure below are for that particular litigation only.

#### LITIGATION INVOLVING OUR COMPANY

**(b) *Actions by statutory or regulatory authorities***

1. A notice dated July 30, 2025 (“**Notice 1**”) was issued by the Office of the Labour Officer and Cess Assessment Authority, Sub-Division-7, Bangalore (“**Authority**”) to our Company stating that our Company is liable to pay cess under Section 3(1) of the Building and Other Construction Workers Welfare Cess Act, 1996, read with Karnataka Government Order No. ID-300/LET-2000 dated January 18, 2007, and Karnataka Government Notification No. LED-62/LET-2007/[II] dated April 4, 2007, in respect of construction, interior, electrical, and heating, ventilation, and air conditioning (“**HVAC**”) and other works carried out at the premises where our Registered Office is located. The Notice also directed our Company to furnish certain documents for the purpose of assessment of cess.

By way of a response dated September 4, 2025 our Company submitted *inter alia* that it has not undertaken any construction, interior, electrical, HVAC or related works at our Registered Office. The premises of our Registered Office was obtained as a ready-to-occupy office space from the landlord / service provider, namely Hanto Workspace Technologies Private Limited (“**Landlord**”), with all construction, civil and interior works being completed by Landlord. It was further submitted that our Company, being the tenant has not engaged any contractors, subcontractors, or workers in relation to such works. Accordingly, it was prayed for the Notice to be withdrawn. The matter is currently pending.

2. A notice dated August 11, 2025 (“**Notice 2**”) was issued by the Senior Labor Inspector, Office of the Labor Commissioner (“**Labor Inspector**”) to our Company requiring submission of certain records maintained under various labor laws including the Karnataka Shops and Commercial Establishments Act, 1961, Minimum Wages Act, 1948, Payment of Gratuity Act, 1972 and respective rules under such labor laws.

By way of a response dated August 26, 2025, our Company submitted *inter alia* each of the records under the specified labor laws along with prayer to dispose of the matter before the Labor Inspector. The Labor Inspector duly acknowledged and there has been no further communication in the current matter thereafter.

(ii) *Material civil proceedings*

As on the date of this Red Herring Prospectus there are no material civil proceedings initiated by our Company.

(iii) *Other material proceedings*

As on the date of this Red Herring Prospectus there are no other material proceedings initiated by our Company.

**(d) *Tax proceedings involving our Company***

Except as mentioned below, there are no pending claims related to direct and indirect taxes involving our Company as on the date of this Red Herring Prospectus:

Nature of proceeding	Number of proceedings outstanding	Amount involved* (in ₹ million)
Direct tax	2	Not quantifiable <sup>#</sup>
Indirect tax	4	354.91 <sup>&amp;</sup>
<b>Total</b>	<b>6</b>	<b>354.91</b>

\* To the extent quantified.

<sup>#</sup>The following proceedings are not quantifiable: (i) the first case pertains to a notice that has been issued to Capillary Technologies India Limited, under section 92CA(2) of Income Tax Act, 1961, Computation of Arm's Length Price-Assessment Year 2023-24. The amount in dispute or demand cannot be quantified at this stage of proceedings; and (ii) the second case pertains to a notice that has been issued to our Company under section 142(1) of Income Tax Act, 1961, for the assessment year 2023-24 seeking submission of certain documents including audit reports, bank statements, agreements and information pertaining to certain intangible assets and unsecured loans of our Company. The amount in dispute or demand cannot be quantified at this stage of proceedings.

<sup>&</sup>Includes two cases pertaining to notices for GST audit that have been issued to our Company under Section 65 of CGST Act, 2017, for the Fiscals 2024 and 2023 to furnish books of accounts and necessary information pertaining to our Company, as may be required, for timely completion of the audit. The amount in dispute or demand cannot be quantified at this stage of proceedings.

Our Company received a notice in Form GST ADT-01 (“**Notice 1**”) from the Office of Deputy Commissioner of Commercial Taxes, Bangalore (“**Authority**”) pursuant to an audit conducted by the Authority under Section 65 of the Karnataka Goods and Services Tax Act, 2017 (“**KGST Act**”) for the financial year 2021–22. Our Company had all submitted the requisite records and documents as sought in Notice 1. Further, the Authority issued a summary of audit observations (“**Audit Observations**”), pursuant to which our Company submitted a detailed response to each of the observations stated in the Audit Observations. Subsequently, the Authority issued a summary of show cause notice dated August 12, 2025 (“**Notice 2**”) under Section 73(1) of the KGST Act, demanding payment of good and services taxes aggregating to ₹194.76 million, the particulars of which are as follows: (i) demand of Integrated Goods and Services Tax (“**IGST**”) amounting to ₹12.38 million and Central Goods and Services Tax (“**CGST**”) and State Goods and Services Tax (“**SGST**”) amounting to ₹1.42 million each on account of credit note related turnover wrongly reduced from taxable turnover under Section 34 of the Central Goods and Services Tax Act, 2017; (ii) demand of IGST amounting to ₹34.98 million due to non- submission of foreign inward remittance certificates evidencing zero-rated supply; (iii) non- payment of interest amounting to ₹0.20 million of CGST and SGST each on account of payments made to vendors beyond one hundred and eighty days; (iv) demand of IGST amounting to ₹125.16 million due to non- submission of foreign inward remittance certificates evidencing zero-rated supply mainly to related parties; (v) demand of CGST and SGST each amounting to ₹5.08 million under reverse charge mechanism on expenditure incurred on behalf of the Company by related parties; and (vi) demand of IGST amounting to ₹9.24 million under reverse charge mechanism on import of services relating to software and server charges. Additionally, the Notice 2 also demanded an interest amount aggregating to ₹140.63 million under Section 50 of the KGST Act, along with a penalty of ₹19.48 million under Section 73(9) of the KGST Act. In response to Notice 2, our Company submitted a reply in Form GST DRC - 06 dated September 8, 2025, categorically denying the demands made therein in the Notice on the grounds of such demands being factually incorrect and legally unsustainable and thereby praying for the Notice to be withdrawn. The matter is currently pending.

"Net Worth" means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation, amalgamation and capital reserve; and
4. "Restated Operating Profit/(Loss)" means Profit/(Loss) before tax, excluding, exceptional items, finance cost and other income, as per Restated Statement of Profit and Loss Account.

For more details, please refer to "Other Financial Information" on page 465.

Our Company is required to meet the conditions detailed in Regulation 6(2) of the SEBI ICDR Regulations, as set forth below:

*"An issuer not satisfying the condition stipulated in Regulation 6(1) of the SEBI ICDR Regulations shall be eligible to make an initial public offer only if the offer is made through the book-building process and the issuer undertakes to allot at least seventy-five per cent of the offer to qualified institutional buyers and to refund the full subscription money if it fails to do so."*

We are therefore required to allot not less than 75% of the Offer to QIBs to meet the conditions as detailed under Regulation 6(2) of the SEBI ICDR Regulations. Further, not more than 15% of the Offer shall be available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion shall be available for allocation to Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million and two-thirds of the Non-Institutional Portion shall be available for allocation to Bidders with an application size of more than ₹1.00 million provided that under-subscription in either of these two sub-categories of the Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. Further, not more than 10% of the Offer shall be available for allocation to RIIs in accordance with the SEBI ICDR Regulations, subject

to valid Bids being received at or above the Offer Price. In the event we fail to do so, the full application monies shall be refunded to the Bidders, in accordance with the SEBI ICDR Regulations and other applicable laws. Please see “*Offer Structure*” on page 567.

Our Company confirms that it is in compliance with the conditions specified in Regulation 5 and 7(1) of the SEBI ICDR Regulations, to the extent applicable, and will ensure compliance with the conditions specified in Regulation 7(2) of the SEBI ICDR Regulations, to the extent applicable.

Further, our Company confirms that it is not ineligible to make the Offer in terms of Regulation 5 of the SEBI ICDR Regulations, to the extent applicable. The details of compliance with Regulation 5 and 7(1) of the SEBI ICDR Regulations are as follows:

- (a) Neither our Company nor the Promoters, members of the Promoter Group, or the Directors or any of the Selling Shareholders are debarred from accessing the capital markets by SEBI.
- (b) None of the Promoters or the Directors are promoters or directors of companies which are debarred from accessing the capital markets under any order or direction passed by the SEBI or any other authorities.
- (c) None of the Promoters or the Directors has been declared a Fugitive Economic Offender.
- (d) Except for the outstanding options granted pursuant to the ESOP 2021, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments convertible into, or which would entitle any person any option to receive Equity Shares, as on the date of this Red Herring Prospectus. For more details, please refer to section “*Capital Structure – Notes to the Capital Structure*” on page 121.
- (e) None of our Company, our Promoters or Directors is a Wilful Defaulter or Fraudulent Borrower.
- (f) All the Equity Shares of our Company held by our Promoters are in dematerialised form.
- (g) Our Company has entered into tripartite agreements with NSDL and CDSL, respectively, for dematerialisation of the Equity Shares.
- (h) The Equity Shares are fully paid-up and there are no partly paid-up Equity Shares as on the date of filing of this Red Herring Prospectus.
- (i) There is no requirement for us to make firm arrangements of finance under Regulation 7(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the Fresh Issue and existing identifiable accruals.

Each of the Selling Shareholders, severally and not jointly, confirms that the Equity Shares offered by them as part of the Offer for Sale have been held in compliance with Regulations 8 of the SEBI ICDR Regulations and that they are the legal and beneficial owners of the Offered Shares.

In accordance with Regulation 8A of the SEBI ICDR Regulations; (i) the number of Equity Shares offered for sale by each of the Selling Shareholders holding, individually or with persons acting in concert, more than 20% of pre-Offer shareholding of our Company (on a fully- diluted basis), does not exceed more than 50% of their respective pre-Offer shareholding (on a fully- diluted basis); and (ii) the number of Equity Shares offered for sale by each of the Selling Shareholders holding, individually or with persons acting in concert, less than 20% of pre-Offer shareholding of our Company (on a fully- diluted basis), does not exceed more than 10% of the pre-Offer shareholding of our Company (on a fully- diluted basis). Further, the limits set out in (i) and (ii) above shall be calculated with reference to the shareholding as on the date of filing of the Draft Red Herring Prospectus and shall apply cumulatively to the total number of shares offered for sale to the public and any secondary sale transactions prior to the issue.

For details on the authorisations of each of the Selling Shareholders in relation to the Offer, see “*The Offer*” on page 103.

Further, in accordance with Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Allottees under the Offer shall be not less than 1,000, failing which, the entire application money will be refunded forthwith in accordance with the SEBI ICDR Regulations and applicable law.

Any person into whose possession the Draft Red Herring Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions. Invitations to subscribe to or purchase the Equity Shares in the Offer will be made only pursuant to this Red Herring Prospectus for the Offer if the recipient is in India or the preliminary offering memorandum for the Offer, which comprises this Red Herring Prospectus and the preliminary international wrap for the Offer, if the recipient is outside India. **No person outside India is eligible to Bid for Equity Shares in the Offer unless that person has received the preliminary offering memorandum for the Offer, which contains the selling restrictions for the Offer outside India.**

No action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that this Red Herring Prospectus was filed with SEBI for its observations. Accordingly, the Equity Shares represented hereby may not be offered or sold, directly or indirectly, and this Red Herring Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable

in such jurisdiction. Neither the delivery of this Red Herring Prospectus, nor any offer or sale hereunder, shall, under any circumstances, create any implication that there has been no change in our affairs or in the affairs of any of the Selling Shareholders (severally and not jointly) from the date hereof or that the information contained herein is correct as of any time subsequent to this date.

### **Eligibility and Transfer Restrictions**

**The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or any state securities laws in the United States, and unless so registered may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, such Equity Shares are being offered and sold (i) outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur; and (ii) within the United States to “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act), pursuant to the private placement exemption set out in Section 4(a) of the U.S. Securities Act.**

## **Listing**

The Equity Shares offered through this Red Herring Prospectus and the Prospectus are proposed to be listed on BSE and NSE. Applications will be made to the Stock Exchanges for obtaining permission for listing and trading of the Equity Shares. BSE will be the Designated Stock Exchange with which the Basis of Allotment will be finalised.

If the permission to deal in and for an official quotation of the Equity Shares is not granted by the Stock Exchanges, our Company shall forthwith repay, without interest, all monies received from the applicants in pursuance of this Red Herring Prospectus in accordance with applicable law. Our Company shall ensure that all steps for the completion of the necessary formalities for listing and commencement of trading of Equity Shares at the Stock Exchanges are taken within three Working Days from the Bid/Offer Closing Date or such period as may be prescribed by SEBI.

If our Company does not Allot Equity Shares pursuant to the Offer within two Working Days from the Bid / Offer Closing Date or within such timeline as prescribed by the SEBI, the Company shall refund the money raised in the Offer, together with any interest on such money as required under applicable laws, to the Bidders if required to do so for any reason under applicable laws, including due to failure to obtain listing or trading approval or pursuant to any direction or order of SEBI or any other governmental authority. Any expense incurred by our Company on behalf of any of the Selling Shareholders with regard to interest on such refunds as required under the Companies Act, 2013 and any other applicable law will be reimbursed by such Selling Shareholder as agreed among our Company and the Selling Shareholders in writing, in proportion to its respective portion of the Offered Shares and as per Applicable Law. Provided that no Selling Shareholder shall be responsible or liable for payment of any expenses or interest, unless such delay is solely and directly attributable to an act or omission of such Selling Shareholder.

Each of the Selling Shareholders undertake to provide such reasonable assistance as may be requested by our Company, in relation to timely completion of the Offer within the timelines as per the Applicable Law, to the extent such reasonable support and cooperation is in relation to such Selling Shareholder and its respective Offered Shares.

## Mechanism for redressal of investor grievances

SEBI ICDR Master Circular, has identified the need to put in place measures, in order to manage and handle investor issues arising out of the UPI Mechanism *inter alia* in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries/SCSBs and failure to unblock funds for cancelled / withdrawn / deleted cases in the stock exchange platforms, failure to unblock funds in cases of partial allotment by the next working day from the finalisation of basis of allotment, failure to unblock the funds in cases of non-allotment by the Issue Closing Date, SCSBs blocking multiple amounts for the same UPI mechanism, and SCSBs blocking more amount in the investors’ accounts than the application amount. The compensation to investors for delay in unblocking of ASBA application monies (if any) shall be computed from T+3 day.

As per the SEBI ICDR Master Circular, SEBI has prescribed certain mechanisms to ensure proper management of investor issues arising out of the UPI Mechanism, including (i) identification of a nodal officer by SCSBs for the UPI Mechanism; (ii) delivery of SMS alerts and invoice in the inbox by SCSBs for blocking and unblocking of UPI Mandate Requests; (iii) periodic sharing of statistical details of mandate blocks/unblocks, performance of apps and UPI handles, network latency or downtime, etc., by the Sponsor Bank to the intermediaries forming part of the closed user group vide email; (iv) limiting the facility of reinitiating UPI Bids to Syndicate Members only to once per Bid; and (v) mandating SCSBs to ensure that the unblock process for non-allotted/partially allotted applications is completed by the closing hours of one Working Day subsequent to the finalisation of the Basis of Allotment.

In case of any delay in redressal of the investor grievance in relation to unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid / Offer Closing Date, in accordance with the SEBI ICDR Master Circular, the Bidder shall be compensated at a uniform rate of ₹100 per day or 15% per annum of the application amount, whichever is higher for the entire duration of delay exceeding two Working Days from the Bid / Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of SEBI ICDR Master Circular and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum or such other rate of interest as may be prescribed under applicable law for any delay beyond this period of 15 days.

Anchor Investors are required to address all grievances in relation to the Offer to the BRLMs.

The following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism for public issues, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount; and 2. ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount; and 2. ₹100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted/ partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From three Working Days from Bid/Offer Closing Date till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the post-Offer BRLM shall be liable to compensate the investor ₹100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI RTA Master Circular.

Further, in terms of SEBI ICDR Master Circular, read with SEBI RTA Master Circular, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The agreement between the Registrar to the Offer, our Company and the Selling Shareholders provides for retention of records with the Registrar to the Offer for a minimum period of eight years from the last date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, in order to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

**Bidders can contact the Company Secretary and Compliance Officer of our Company, the BRLMs and/or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Offer related queries and for redressal of complaints, Bidders may also write to the BRLMs or the Registrar to the Offer, in the manner provided below.**

All grievances in relation to the Bidding process, other than those of the Anchor Investors may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary to whom the Bid cum Application Form was submitted. The Bidder should give full details such as name of the sole or First Bidder, Bid cum Application Form number, Bidder DP ID, Client ID, UPI ID, PAN, date of the submission of Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for and the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the Bidder.

All grievances relating to Bids submitted with Registered Brokers, may be addressed to the Stock Exchanges, with a copy to the Registrar to the Offer. Further, Bidders shall also enclose a copy of the Acknowledgment Slip received from the Designated Intermediaries in addition to the information mentioned hereinabove.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or first Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the BRLMs with whom the Bid cum Application Form was submitted by the Anchor Investor. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders. Our Company, the BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, commission of any acts of Designated Intermediaries including any defaults in complying with its obligations under applicable SEBI ICDR Regulations. Investors can contact the Company Secretary and Compliance Officer, the BRLMs or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days.

Our Company has obtained SCORES authentication in terms of SEBI circular SEBI/HO/OIAE/IGRD/CIR/P/2023/156 dated September 20, 2023 read with SEBI circular bearing reference number SEBI/HO/OIAE/IGRD/CIR/P/2023/183 dated December 1, 2023 in relation to redressal of investor grievances through SCORES.

Our Company, the Selling Shareholders, the BRLMs, and the Registrar to the Offer accept no responsibility for errors, omissions, commission of any acts of the Designated Intermediaries, including any defaults in complying with its obligations under the SEBI ICDR Regulations.

#### **Disposal of investor grievances by our Company**

Our Company has also constituted a Stakeholders' Relationship Committee to review and redress the shareholders and investor grievances such as transfer of Equity Shares, non-recovery of balance payments, declared dividends, approve subdivision, consolidation, transfer, and issue of duplicate shares. Each of the Selling Shareholders have, severally and not jointly, authorised the Company Secretary and Compliance Officer of the Company, and the Registrar to the Offer to redress any complaints received from Bidders in respect of their respective portion of the Offered Shares in the Offer for Sale.

Our Company has also appointed Gireddy Bhargavi Reddy, Company Secretary and Compliance Officer of our Company, as the compliance officer for the Offer. For details, "*General Information- Company Secretary and Compliance Officer*" on page 111.

Our Company has not received any investor complaint during the three years preceding the date of this Red Herring Prospectus. Further, no investor complaint in relation to our Company is pending as on the date of this Red Herring Prospectus.

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be 10 Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has constituted a Stakeholders Relationship Committee comprising Neelam Dhawan (Chairperson), Aneesh Reddy Boddu (Member), and Farid Lalji Kazani (Member). For details, see "*Our Management – Committees of our Board - Stakeholders Relationship Committee*" on page 371.

#### **Other confirmations**

Any person connected with the Offer shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise, to any person for making a Bid in the Offer, except for fees or commission for services rendered in relation to the Offer.

As on the date of this Red Herring Prospectus there are no conflicts of interest between the suppliers/vendors of raw materials, third party service providers or lessors of immovable properties (crucial for operations of our Company) and our Company.

### **Jurisdiction**

The competent courts/authorities of Bengaluru, Karnataka, India will have sole and exclusive jurisdiction in relation to this Offer.

### **Period of operation of subscription list**

See “– *Bid/Offer Programme*” on page 563.

### **Nomination facility to investors**

In accordance with Section 72 of the Companies Act, 2013, read with the Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole or First Bidder, along with other joint Bidders, may nominate any one person in whom, in the event of the death of the sole Bidder or in case of joint Bidders, the death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of death of the original holder(s), shall, in accordance with Section 72 of the Companies Act, 2013, be entitled to the same advantages to which such person would be entitled if such person were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to the Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or varied by nominating any other person in place of the present nominee by the holder of the Equity Shares who has made the nomination by giving a notice of such cancellation or variation to our Company in the prescribed form. A buyer will be entitled to make a fresh nomination in the manner prescribed. A fresh nomination can be made only on the prescribed form, which is available on request at our Registered and Corporate Office or with the registrar and transfer agents of our Company.

Further, any person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 as mentioned above, shall, upon the production of such evidence as may be required by our Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of the Equity Shares in the Offer will be made only in dematerialised form, there shall be no requirement for a separate nomination with our Company. Nominations registered with the respective Collecting Depository Participant of the applicant will prevail. If Bidders wish to change their nomination, they are requested to inform their respective Collecting Depository Participant.

Our Company shall comply with such disclosure and accounting norms as may be specified by SEBI from time to time.

The processing fees for applications made by the UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI ICDR Mater circular and the SEBI RTA Master Circular.

**The above timetable, other than the Bid/Offer Closing Date, is indicative in nature and does not constitute any obligation or liability on our Company, any of the Selling Shareholders or the BRLMs. While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days from the Bid / Offer Closing Date, or such other period as prescribed by the SEBI, the timetable may be extended due to various factors, such as extension of the Bid / Offer Period by our Company in consultation with the BRLMs, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchanges, and delay in respect of final certificates from SCSBs. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws. Each of the Selling Shareholders, severally and not jointly, confirm that they shall extend complete co-operation required by our Company and the BRLMs for the completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges within three Working Days from the Bid / Offer Closing Date, or within such other period as prescribed by SEBI.**

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working Days from the Bid / Offer Closing Date or such other time as prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Any circulars or notifications from SEBI after the date of this Red Herring Prospectus may result in changes to the listing timelines. Further, the offer procedure is subject to change to any revised SEBI circulars to this effect.

Upward Revision of Bids by QIBs and Non-Institutional Investors categories <sup>###</sup>	Only between 10.00 a.m. on the Bid/Offer Opening Date and up to 4.00 p.m. IST on Bid/Offer Closing Date
Upward or downward Revision of Bids or cancellation of Bids by RIIs	Only between 10.00 a.m. on the Bid/Offer Opening Date and up to 5.00 p.m. IST on Bid/Offer Closing Date

<sup>#</sup>UPI mandate end time and date shall be at 5:00 pm on the Bid/Offer Closing Date.

<sup>###</sup>QIBs and Non-Institutional Investors can neither revise their Bids downwards nor cancel/withdraw their Bids.

**On the Bid/Offer Closing Date, the Bids were required to be uploaded until:**

- (i) 4:00 p.m. IST for Bids by QIBs and Non-Institutional Investors; and
- (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail and reserved category.

On the Bid/Offer Closing Date, extension of time may be granted by the Stock Exchanges only for uploading Bids received from Retail Individual Investors and Eligible Employees Bidding in the Employee Reservation Portion after taking into account the total number of Bids received up to closure of timings for acceptance of Bid cum Application Forms as stated herein and as reported by the BRLMs to the Stock Exchanges.

**The Registrar to the Offer shall submit the details of cancelled/withdrawn/deleted applications to the SCSB’s on daily basis within 60 minutes of the Bid closure time from the Bid/ Offer Opening Date till the Bid/Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSB’s shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the Book Running Lead Managers and the RTA on a daily basis, as per the format prescribed in SEBI ICDR Master Circular. To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.**

**It is clarified that Bids shall be processed only after the application monies are blocked in the ASBA Account and Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.**

Due to limitation of time available for uploading the Bids on the Bid/ Offer Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/ Offer Closing Date, and are advised to submit their Bids no later than 1:00 p.m. IST on the Bid/ Offer Closing Date. Any time mentioned in this Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/ Offer Closing Date, as is typically experienced in public offerings in India, it may lead to some Bids not being uploaded due to lack of sufficient time to upload. Such Bids that cannot be uploaded will not be considered for allocation under this Offer. Bids and any revision to the Bids, will be accepted only during Working Days, during the Bid/ Offer Period. Bids will be accepted only during Monday to Friday (excluding any public holiday), during the Bid/Offer period. Investors may please note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays, Sundays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period till 5.00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

Our Company, in consultation with the BRLMs, reserve the right to revise the Price Band during the Bid/ Offer Period in accordance with the SEBI ICDR Regulations. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price will not be less than the face value of the Equity Shares. In all circumstances, the Cap Price shall be less than or equal to 120% of the Floor Price, subject to minimum 105% of the Floor Price.

**In case of revision in the Price Band, the Bid/ Offer Period shall be extended for at least three additional Working Days after such revision, subject to the Bid/ Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the BRLMs, for reasons to be recorded in writing, extend the Bid/ Offer Period for a minimum of one Working Day, subject to the Bid/ Offer Period not exceeding 10 Working Days, in compliance with the SEBI ICDR Regulations.**

**Any revision in Price Band, and the revised Bid/ Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a press release and also by indicating the change on the websites of the BRLMs and terminals of the Syndicate Members and by intimation to the Designated Intermediaries. In case of revision of price band, the Bid lot shall remain the same.**

In case of discrepancy in data entered in the electronic book *vis-à-vis* data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

### **Minimum Subscription**

In the event our Company does not receive a minimum subscription of 90% of the Fresh Issue on Bid / Offer Closing Date, or a subscription in the Offer as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, as applicable, within sixty (60) days from the date of Bid Closing Date, or if the subscription level falls below the thresholds mentioned above after the Bid Closing Date, on account of withdrawal of applications or after technical rejections or any other reason, or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares being offered under this Red Herring Prospectus, our Company shall forthwith refund the entire subscription amount received in accordance with applicable law. If there is a delay beyond four days, our Company and every Director of our Company who is an officer in default, to the extent applicable, shall pay interest as prescribed under applicable law.

In the event of under-subscription in the Offer, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, the Allotment for the valid Bids will be made in the following order: (i) in the first instance towards subscription for 90% of the Fresh Issue; and (ii) if there remain any balance valid Bids in the Offer, the Allotment for the balance valid Bids will be made: (a) first towards Equity Shares offered by the Promoter Selling Shareholder in proportion to the Offered Shares being offered by the Promoter Selling Shareholder; (b) secondly, towards Equity Shares offered by the Investor Selling Shareholder in proportion to the Offered Shares being offered by the Investor Selling Shareholder; and (c) only after the sale of all of the Offered Shares, towards the balance Fresh Issue.

Further, in accordance with Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of prospective Allottees to whom the Equity Shares will be Allotted will be not less than 1,000, failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, our Company and the Selling Shareholders, only to the extent of their respective portion of the Offered Shares, shall be liable to pay interest on the application money in accordance with applicable laws.

The Selling Shareholders shall reimburse any expenses and interest incurred by our Company on behalf of them for any delays in making refunds as required under the Companies Act and any other applicable law, provided that the Selling Shareholders shall not be responsible or liable for payment of such expenses or interest, unless such delay is solely and directly attributable to an act or omission of the Selling Shareholders and any expenses and interest shall be paid to the extent of their respective portion of the Offered Shares.

#### **Arrangements for disposal of odd lots**

Since our Equity Shares will be traded in dematerialised form only and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

#### **New financial instruments**

Our Company is not issuing any new financial instruments through this Offer.

#### **Restriction on transfer and transmission of Equity Shares**

Except for the lock-in of the pre-Offer Equity Shares, the Promoters' Contribution and Equity Shares allotted to Anchor Investors pursuant to the Offer, as detailed in "*Capital Structure*" on page 120, and except as provided in our Articles, there are no restrictions on transfers and transmission of Equity Shares or on their consolidation or splitting. See, "*Description of Equity Shares and Terms of the Articles of Association*" at page 594.

#### **Option to receive Equity Shares in Dematerialized Form**

Allotment of Equity Shares to successful Bidders will only be in the dematerialized form. Bidders will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only in the dematerialized segment of the Stock Exchanges.

#### **Withdrawal of the Offer**

The Offer shall be withdrawn in the event the requirement of the minimum subscription as prescribed under Regulation 45 of the SEBI ICDR Regulations is not fulfilled. Our Company in consultation with the BRLMs, reserves the right not to proceed with the entire or portion of the Offer for any reason at any time after the Bid / Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the same newspapers, in which the pre-Offer advertisements were published, within two days of the Bid / Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. Further, the Stock Exchanges shall be informed promptly in this regard by our Company and the BRLMs, through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Bank(s) to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification and also inform the Bankers to the Offer to process refunds to the Anchor Investors, as the case may be. The notice of withdrawal will be issued in the same newspapers where the pre-Offer advertisements have appeared and the Stock Exchanges will also be informed promptly.

If our Company, in consultation with the Book Running Lead Managers, withdraw the Offer after the Bid/Offer Closing Date and thereafter determines that they will proceed with a public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI and the Stock Exchanges. Notwithstanding the foregoing, this Offer is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days or such other period as may be prescribed, and the final RoC approval of the Prospectus after it is filed with the RoC. If Allotment is not made within the prescribed time period under applicable law, the entire subscription amount received will be refunded/unblocked within the time prescribed under applicable law.

For further details, see "Terms of the Offer" on page 560.

Bids by FPIs with certain structures as described under "Offer Procedure - Bids by Foreign Portfolio Investors" on page 579 and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares Allocated and Allotted to such successful Bidders (with same PAN) may be proportionately distributed.

## OFFER PROCEDURE

All Bidders should read the General Information Document which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations which is part of the Abridged Prospectus accompanying the Bid cum Application Form. The General Information Document is available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer, especially in relation to the process for Bids by UPI Bidders through the UPI Mechanism. The investors should note that the details and process provided in the General Information Document should be read along with this section.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of CAN and Allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) submission of Bid cum Application Form; (viii) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (ix) applicable provisions of the Companies Act, 2013 relating to punishment for fictitious applications; (x) mode of making refunds; (xi) Designated Date; (xii) interest in case of delay in Allotment or refund; and (xiii) disposal of applications and electronic registration of Bids. Further, our Company, each of the Selling Shareholders and the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Offer.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and any subsequent circulars or notifications issued by SEBI in this regard has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for UPI Bidders applying through Designated Intermediaries was made effective along with the timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by UPI Bidders through Designated Intermediaries (other than SCSBs), issued by SEBI, the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). The applicability of UPI Phase II was extended from time to time. Thereafter, pursuant to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, the final reduced timeline of T+3 days using the UPI Mechanism for applications by UPI Bidders (“UPI Phase III”) was implemented by SEBI, voluntarily for all public issues opening on or after September 1, 2023 and has been made mandatory for all public issues opening on or after December 1, 2023. Accordingly, the Offer will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time. Additionally, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 (“UPI Streamlining Circular”) has instituted certain mechanisms towards the streamlining of applications made through the UPI Mechanism as well as redressal of investor grievances. The UPI Streamlining Circular came into force for initial public offers opening on/or after May 1, 2021, and the provisions of the UPI Streamlining Circular are deemed to form part of this Red Herring Prospectus.

Further, the SEBI ICDR Master Circular consolidated the aforementioned circulars and rescinded these circulars to the extent they relate to the SEBI ICDR Regulations. Furthermore, pursuant to SEBI ICDR Master Circular, all individual bidders in initial public offerings whose application size are up to ₹0.50 million shall use the UPI Mechanism and provide their UPI ID in the Bid-cum-Application Form for bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers. In terms of the SEBI ICDR Master Circular, applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI RTA Master Circular, shall continue to form part of the agreements being signed between the

*intermediaries involved in the public issuance process and lead managers shall continue to coordinate with intermediaries involved in the said process.*

*In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated in accordance with applicable law. The Book Running Lead Managers shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, Investors shall be entitled to compensation in the manner specified in the SEBI ICDR Master Circular, in case of delays in resolving investor grievances in relation to blocking/unblocking of funds.*

*Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Draft Red Herring Prospectus, this Red Herring Prospectus and the Prospectus.*

*Further, our Company, each of the Selling Shareholders and the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Offer.*

### **Book Building Procedure**

The Offer is being made in terms of Rule 19(2)(b) of the SCRR through the Book Building Process in accordance with Regulation 6(2) of the SEBI ICDR Regulations, wherein not less than 75% of the Net Offer shall be available for allocation to QIBs on a proportionate basis, provided that our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from them at or above the Anchor Investor Allocation Price. In case of under-subscription or non-allocation in the Anchor Investor Portion, the remaining Equity Shares will be added back to the QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not more than 15% of the Net Offer shall be available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million and two-thirds of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹1.00 million and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion. Further, not more than 10% of the Net Offer shall be available for allocation to Retail Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Furthermore, up to [●] equity shares of face value ₹2 each, aggregating up to ₹20.00 million shall be made available for allocation on a proportionate basis only to Eligible Employees Bidding in the Employee Reservation Portion, subject to valid Bids being received at or above the Offer Price, net of Employee Discount.

Under-subscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories, as applicable, at the discretion of our Company in consultation with the BRLMs and the Designated Stock Exchange, subject to receipt of valid Bids received at or above the Offer Price.

In accordance with Rule 19(2)(b) of the SCRR, the Offer will constitute at least [●]% of the post Offer paid-up Equity Share capital of our Company.

Investors must ensure that their PAN is linked with Aadhar prior to June 30, 2023 and are in compliance with the notification by the Central Board of Direct Taxes dated February 13, 2020 read with read with press release dated June 25, 2021, September 17, 2021 and March 28, 2023 and any subsequent press releases in this regard.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

For details of withdrawal of the Offer, see “*Terms of the Offer*” on page 560.

**Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders’ depository account,**

**including DP ID, Client ID and PAN, and UPI ID (for UPI Bidders Bidding through the UPI Mechanism), as applicable, shall be treated as incomplete and will be liable to be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialised subsequent to Allotment of the Equity Shares in the Offer, subject to applicable law.**

### **Phased implementation of Unified Payment Interface Mechanism as per the UPI Circulars**

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 (“**Previous UPI Circular**”), SEBI ICDR Master Circular and the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars and the Previous UPI Circular have introduced the UPI Mechanism in three phases in the following manner:

**Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

**Phase II:** This phase was applicable from July 1, 2019 and the continuation of this phase was extended until March 31, 2020 vide SEBI circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019. Under this phase, submission of the ASBA Form by UPI Bidders through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase. Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, this phase was extended till further notice. Under this phase, submission of the ASBA Form without UPI by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase

**Phase III:** This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (rescinded by the SEBI ICDR Master Circular) . In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the SEBI ICDR Master Circular as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer is being made under Phase III of the UPI (on a mandatory basis) in accordance with the SEBI ICDR Master Circular. All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders using the UPI.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation on compliance with the SEBI ICDR Master Circular. NPCI vide circular reference no. NPCI/UPI/OC No. 127/ 2021-22 dated December 09, 2021, inter alia, has

enhanced the per transaction limit in UPI from more than ₹0.20 million to ₹0.50 million for UPI based ASBA in initial public offerings.

For further details, please refer to the General Information Document available on the websites of the Stock Exchanges and the BRLMs.

### **Electronic registration of Bids**

- (a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Offer.
- (b) On the Bid/Offer Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in this Red Herring Prospectus.
- (c) Only Bids that are uploaded on the Stock Exchanges platform are considered for allocation/Allotment. The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange platform during the Bid/Offer Period till 5.00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

The Sponsor Bank(s) shall host a web portal for intermediaries (closed user group) from the date of Bid/ Offer Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/ unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/ bearing on the Offer bidding process.

### **Bid cum Application Form**

Designated Intermediaries (other than SCSBs) shall submit/deliver the ASBA Forms (except Bid cum Application Forms submitted by UPI Bidders) to the respective SCSB, where the Bidder has a bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Pursuant to NSE circular dated July 22, 2022 with reference no. 23/2022 and BSE circular dated July 22, 2022 with reference no. 20220722-30, has mandated that Trading Members, Syndicate Member(s), RTA and Depository Participants shall submit Syndicate ASBA bids above ₹0.50 million and NII & QIB bids above ₹0.20 million through SCSBs only.

For UPI Bidders, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis to enable the Sponsor Bank(s) to initiate a UPI Mandate Request to such UPI Bidders for blocking of funds. The Sponsor Bank(s) shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Bank(s), NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank(s) and the issuer bank. The Sponsor Bank(s) and the Bankers to the Offer shall provide the audit trail to the BRLMs for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in SEBI ICDR Master Circular.

Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis through API integration and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

In accordance with BSE Circular No: 20220803-40 and NSE Circular No: 25/2022, each dated August 3, 2022, for all pending UPI Mandate Requests, the Sponsor Bank(s) shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Offer Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Bank(s) will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank(s) will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLMs in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank(s) and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

The Sponsor Banks and the issuer banks shall provide the audit trail to the Book Running Lead Managers for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in circulars prescribed by SEBI, from time to time.

The processing fees for applications made by the UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such SCSBs provide a written confirmation in compliance with the SEBI RTA Master Circular, in a format prescribed by SEBI or applicable law.

Pursuant to NSE circular dated August 3, 2022, the following is applicable to all initial public offers:

The BRLMs and the Syndicate Member(s) shall not be allowed to purchase/subscribe to the Equity Shares in this Offer in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLMs and the Syndicate Member(s) may purchase/subscribe to the Equity Shares in the Offer in the QIB Portion or in the Non-Institutional Portion, as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the BRLMs and Syndicate Member(s), shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Neither the BRLMs or any associates of the BRLMs (except Mutual Funds sponsored by entities which are associates of the BRLMs or insurance companies promoted by entities which are associate of BRLMs or AIFs sponsored by the entities which are associate of the BRLMs or FPIs other than individuals, corporate bodies and family offices sponsored by the entities which are associates of the BRLMs) or pension fund sponsored by entities which are associate of the BRLMs, nor; (ii) any person related to the Promoters or Promoter Group can apply in the Offer under the Anchor Investor Portion.

Further, an Anchor Investor shall be deemed to be an “associate of the Book Running Lead Manager” if: (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting

rights in the other; or (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or (iii) there is a common director, excluding nominee director, amongst the Anchor Investors and the BRLMs.

Further, the Promoters and members of the Promoter Group shall not participate by applying for Equity Shares in the Offer, except in accordance with the applicable law. Furthermore, persons related to the Promoters and the Promoter Group shall not apply in the Offer under the Anchor Investor Portion. It is clarified that a qualified institutional buyer who has rights under a shareholders' agreement or voting agreement entered into with any of the Promoters or members of the Promoter Group of our Company, veto rights or a right to appoint any nominee director on our Board, shall be deemed to be a person related to a Promoters or member of the Promoter Group of our Company.

### **Bids by Mutual Funds**

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, the Company in consultation with the BRLMs reserve the right to reject any Bid without assigning any reason thereof. Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid may be made in respect of each scheme of a Mutual Fund registered with the SEBI and such Bids in respect of more than one scheme of a Mutual Fund will not be treated as multiple Bids, provided that such Bids clearly indicate the scheme concerned for which the Bid is submitted.

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in case of index funds or exchange traded fund or sector or industry specific scheme. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

### **Bids by Eligible Non-Resident Indians**

Eligible NRIs may obtain copies of Bid cum Application Form from the offices of the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs applying on a repatriation basis should authorise their respective SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders) to block their Non-Resident External Accounts ("**NRE Account**") (including UPI ID, if activated), or Foreign Currency Non-Resident Accounts ("**FCNR Account**"), and Eligible NRIs bidding on a non-repatriation basis by using Resident Forms should authorise their respective SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders) to block their Non-Resident Ordinary ("**NRO**") accounts for the full Bid amount, at the time of submission of the Bid cum Application Form. NRIs applying in the Offer through the UPI Mechanism are advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (blue in colour). Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white in colour). Eligible NRIs will be permitted to apply in the Offer through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs may use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Offer, provided the UPI facility is enabled for their NRE/NRO accounts.

Participation by Eligible NRIs in the Offer shall be subject to the FEMA Rules.

- (a) In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a

special resolution to that effect is passed by the general body of the Indian company. For details, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 592.

### **Bids by Hindu Undivided Families**

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the Karta. The Bidder/applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form as follows: “Name of sole or first Bidder/applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids/applications by HUFs will be considered at par with Bids/applications from individuals.

### **Bids by Foreign Portfolio Investors**

In terms of the SEBI FPI Regulations, investment in the Equity Shares by a single FPI or an investor group (which means multiple entities registered as foreign portfolio investors and directly and indirectly having common ownership of more than 50% or common control) must be below 10% of our post-Offer Equity Share capital on a fully diluted basis. Further, in terms of the applicable FEMA Rules the total holding by each FPI or an investor group cannot exceed 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis, as applicable and the aggregate holdings of all the FPIs, including any other direct and indirect foreign investments in our Company, shall not exceed 24% of the total paid-up Equity Share capital on a fully diluted basis, as applicable.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non-Residents (blue in colour).

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions specified under the FEMA Rules and as specified by the GoI from time to time.

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the capital of an Indian company is subject to certain limits, i.e. the individual holding of an FPI (including its investor group) is restricted to below 10% of the total paid-up share capital of the company. In case the total holding of an FPI or investor group increases beyond 10% of the total paid-up equity share capital of our Company, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants that may be issued by our Company, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included. Our Company has increased the aggregate limit of investment by non-resident Indians in the Company from 10% to 24% of the paid-up equity share capital by a resolution of our Board dated May 23, 2025 and a resolution by our Shareholders dated May 29, 2025. In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

To ensure compliance with the above requirement, SEBI, pursuant to SEBI ICDR Master Circular and RTA Master Circular, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI is permitted to issue, subscribe to, or otherwise deal in offshore derivative instruments, directly or indirectly, only if it complies with the following conditions:

- (A) such offshore derivative instruments are issued only by persons registered as Category I FPIs;
- (B) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs;

- (C) such offshore derivative instruments are issued after compliance with the 'know your client' norms as specified by SEBI; and
- (D) such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (a) to (d)); including the conditions to deal in overseas direct instruments and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations (such structure referred to as “**MIM Structure**”), provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs.

Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected. Please note that in terms of the General Information Document, the maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under applicable laws. Further, MIM Bids by an FPI Bidder utilising the MIM Structure shall be aggregated for determining the permissible maximum Bid. Further, please note that as disclosed in this Red Herring Prospectus read with the General Information Document, Bid Cum Application Forms are liable to be rejected in the event that the Bid in the Bid cum Application Form exceeds the Offer size and/or investment limit or maximum number of the Equity Shares that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of this Red Herring Prospectus.

Participation of FPIs in the Offer shall be subject to the FEMA Rules.

### **Bids by Securities and Exchange Board of India registered Alternative Investment Funds and Venture Capital Funds**

The SEBI AIF Regulations prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI (Venture Capital Funds) Regulations, 1996 until the existing fund or scheme managed by the fund is wound up.

Category I and II AIFs cannot invest more than 25% of the corpus in one investee company. Category III AIF cannot invest more than 10% of the corpus in one investee company. A VCF registered as a category I AIF, cannot invest more than one-third of its investible funds, in the aggregate, in certain specified instruments, including by way of subscription to an initial public offering of a venture capital undertaking. The holding in any company by any individual VCF registered with SEBI should not exceed 25% of the corpus of the VCF. A VCF can invest only up to 33.33% of its investible funds, in the aggregate, in certain specified instruments, which includes subscription to an initial public offering of a venture capital undertaking or an investee company (as defined under the SEBI AIF Regulations).

In terms of Regulation 20(20) of SEBI AIF Regulations, every AIF, manager of the AIF and key management personnel of the manager and the AIF shall exercise specific due diligence, with respect to investors and investments of the AIF, to prevent facilitation of circumvention of such laws, as may be specified by SEBI from time to time. In this regard, SEBI through its circular dated October 8, 2024 mandates that for every scheme of AIFs having an investor, or investors belonging to the same group, who contribute(s) 50% or more to the corpus of the scheme, necessary due diligence as per the implementation standards formulated by Standard Setting Forum for AIFs (“SFA”), shall be carried out prior to availing benefits available to QIBs under SEBI ICDR Regulations and other SEBI regulations.

There is no reservation for Eligible NRI Bidders, AIFs, FPIs and FVCIs. All Bidders will be treated on the same basis with other categories for the purpose of allocation.

All NRIs should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company, each of the Selling Shareholders and the Book Running Lead Managers will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Participation of AIFs and VCFs shall be subject to the FEMA Rules. For details, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 592.

**All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.**

**Our Company, each of the Selling Shareholders or the BRLMs shall not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.**

#### **Bids by limited liability partnerships**

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

#### **Bids by banking companies**

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company’s investment committee is required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLMs reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949 (the “**Banking Regulation Act**”), and Master Direction – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016 is 10% of the paid-up share capital of the investee company or 10% of the bank’s own paid-up share capital and reserves, whichever is less. Further, the aggregate investment in subsidiaries and other entities engaged in financial and non-financial services company cannot exceed 20% of the bank’s paid-up share capital and reserves. A banking company may hold up to 30% of the paid-up share capital of the investee company with the prior approval of the RBI, provided that the investee company is engaged in non-financial activities in which banking companies are permitted to engage under the Banking Regulation Act or the additional acquisition is through restructuring of debt/corporate debt restructuring/strategic debt restructuring, or to protect the bank’s interest on loans/investments made to a company. The bank is required to submit a time-bound action plan for disposal of such shares within a specified period to the RBI. A banking company would require a prior approval of the RBI to make investment in excess of 30% of the paid-up share capital of the investee company, investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and investment in a non-financial services company in excess of 10% of such investee company’s paid-up share capital as stated in the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended. Bids by banking companies should not exceed the investment limits prescribed for them under the applicable laws.

#### **Bids by Self Certified Syndicate Banks**

SCSBs participating in the Offer are required to comply with the terms of the SEBI ICDR Master Circular. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such Bids.

#### **Bids by insurance companies**

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, the Company, in consultation with BRLMs, reserve the right to reject any Bid without assigning any reason thereof.

The exposure norms for insurers are prescribed under the Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024 (“**IRDA AFIFI Regulations**”) based on the investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies are entitled to invest only in other listed insurance companies and Bidders are advised to refer to the IRDA AFIFI Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Further, where the fraud involves an amount less than ₹1.00 million or one per cent of the turnover of the company, whichever is lower, and does not involve public interest, any person guilty of such fraud shall be punishable with imprisonment for a term which may extend to five years or with fine which may extend to ₹5.00 million or with both.

## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991 unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry (formerly Department of Industrial Policy and Promotion), Government of India (“**DPIIT**”), issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”), which, with effect from October 15, 2020, subsumes and supersedes all press notes, press releases, clarifications, circulars issued by the DPIIT, which were in force as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Bidders are advised to make their independent investigations, seek independent legal advice about its ability to participate in the Offer and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that: (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. In the event such prior approval of the GoI is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the FDI Policy and the FEMA Rules, the sectoral cap for foreign investment in companies engaged in the sector that we operate in is up to 100% of the paid-up share capital of such company under the automatic route. For further details, see “*Key Regulations and Policies*” on page 325.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer. For further details, see “*Offer Procedure*” on page 572.

For details of the aggregate limit for investments by NRIs and FPIs in our Company, please see sections titled “*Offer Procedure –Bids by Eligible Non-resident Indians*” and “*Offer Procedure –Bids by Foreign Portfolio Investors*” on pages 578 and 579 respectively.

The above information is given for the benefit of the Bidders. Our Company, the Selling Shareholders and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent

investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.

**The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or any state securities laws in the United States, and unless so registered may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, such Equity Shares are being offered and sold (i) outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur; and (ii) within the United States to “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act), pursuant to the private placement exemption set out in Section 4(a) of the U.S. Securities Act. The above information is given for the benefit of the Bidders.**

applicable Laws; or

- (iii) any Persons, whether or not those Persons include the Persons referred to in (i) or (ii) above, either for cash or for a consideration other than cash, if the price of such Shares is determined by the valuation report of a registered valuer, subject to compliance with the applicable provisions of Chapter III of the Act and any other conditions as may be prescribed, if a Special Resolution to this effect is passed by the Company in a General Meeting.
11. Nothing in Article 10 above shall apply to the increase of the subscribed capital of the Company caused by the exercise of an option as a term attached to the Debentures issued or loan raised by the Company to convert such Debentures or loans into Shares in the Company or to subscribe for Shares in the Company; *provided that* the terms of issue of such Debentures or loan containing such an option have been approved before the issue of such Debentures or the raising of loan by a Special Resolution adopted by the Company in a General Meeting.
  12. Notwithstanding anything contained in Article 11 above, where any debentures have been issued, or loan has been obtained from any Government by our Company, and if that Government considers it necessary in the public interest so to do, it may, by order, direct that such debentures or loans or any part thereof shall be converted into shares in the Company on such terms and conditions as appear to the Government to be reasonable in the circumstances of the case even if terms of the issue of such debentures or the raising of such loans do not include a term for providing for an option for such conversion; *provided that* where the terms and conditions of such conversion are not acceptable to the Company, it may, within 60 (sixty) days from the date of communication of such order, appeal to the National Company Law Tribunal which shall after hearing the Company and the Government pass such order as it deems fit.
  13. Save as otherwise provided in the Articles, the Company shall be entitled to treat the registered holder of the Shares in records of the depository as the absolute owner thereof as regards receipt of dividend or bonus or service of notices and all or any other matters connected with the Company, and accordingly, the Company shall not, except as ordered by a Court of competent jurisdiction, or as by Law required, be bound to recognize any equitable, contingent, future or other claim to or any interest in any fractional part of such Shares or any other right in respect of such Shares on the part of any other Person.
  14. Any Debentures, debenture-stock or other Securities may be issued at a discount, premium or otherwise, if permissible under the Act, and may be issued on the condition that they shall be convertible into Shares of any denomination and with any privileges and conditions as to redemption, surrender, drawings, allotment of Shares, attending (but not voting) at General Meetings, appointment of Directors and otherwise. Debentures with the rights to conversion into or allotment of Shares shall not be issued except with the sanction of the Company in General Meeting by a Special Resolution and subject to the provisions of the Act.
  15. The Company shall, subject to the applicable provisions of the Act, compliance with all the Laws, consent of the Board, and consent of its Shareholders' by way of Special Resolution, have the power to issue American Depository Receipts or Global Depository Receipts on such terms and in such manner as the Board deems fit including their conversion and repayment. Such terms may include at the discretion of the Board, limitations on voting by holders of American Depository Receipts or Global Depository Receipts, including without limitation, exercise of voting rights in accordance with the directions of the Board.
  16. If at any time the Share Capital is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may, subject to the provisions of Section 48 of the Act, and whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued Shares of that class, or with the sanction of a Special Resolution passed at a separate meeting of the holders of the Shares of that class accordingly. To every such separate General Meeting of the holders of the Shares of that class, the provisions of these Articles relating to General Meetings shall *mutatis mutandis* apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued Shares of the class in question.
  17. The rights conferred upon the holders of the Shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the Shares of that class, be deemed to be varied by the creation or issue of further Shares ranking *pari passu* therewith.

18. Subject to the provisions of the Act, the Company may issue bonus Shares to its Members out of (i) its free reserves; (ii) the securities premium account; or (iii) the capital redemption reserve account, in any manner as the Board may deem fit.
19. Subject to the provisions of the Act, the Company shall have the power to make compromise or make arrangements with creditors and Members, consolidate, demerge, amalgamate or merge with other company or companies in accordance with the provisions of the Act and any other applicable Laws.
20. Subject to the provisions of the Act, the Company may, from time to time, by Special Resolution reduce in any manner and with, and subject to, any incident authorised and consent required under applicable Law:
  - (i) the Share Capital;
  - (ii) any capital redemption reserve account; or
  - (iii) any securities premium account.

#### **V. CAPITALISATION OF PROFITS**

21. The Company in General Meeting may, upon the recommendation of the Board, resolve –
  - (i) that it is desirable to capitalise any part of the amount for the time being standing to the credit of any of the Company's reserve accounts, or to the credit of the profit and loss account or otherwise available for distribution; and
  - (ii) that such sum be accordingly set free for distribution in the manner specified in Article 22 below amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.
22. The sum aforesaid shall not be paid in cash, but shall be applied, subject to the provision contained in Article 24 below, either in or towards:
  - (i) paying of any amounts for the time being unpaid on any Shares held by such Members respectively; or
  - (ii) paying up in full, un-issued Shares of the company to be allotted and distributed, credited as fully paid, to and amongst such Members in the proportions aforesaid; or
  - (iii) partly in the way specified in Article 22(i) and partly in that specified in Article 22(ii) above.
  - (iv) A securities premium account and a capital redemption reserve account may, for the purposes of this Article, only be applied in the paying up of un-issued Shares to be issued to Members of the Company as fully paid bonus Shares.
  - (v) The Board shall give effect to the resolution passed by the Company in pursuance of this Article.
23. Whenever such a resolution as specified in Article 22 above is passed, the Board shall:
  - (i) make all appropriations and applications of the undivided profits resolved to be capitalised thereby, and all allotments and issues of fully paid Shares, if any; and
  - (ii) generally, do all acts and things required to give effect thereto.
24. The Board shall have power to:
  - (i) make such provision, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of Shares or Debentures becoming distributable in fractions; and
  - (ii) authorise any Person to enter, on behalf of all the Members entitled thereto, into an agreement with the Company providing for the allotment to them respectively, credited as fully paid up, of any further Shares to which they may be entitled upon such capitalisation, or (as the case may require) for the payment by the Company on their behalf, by the application thereto of their

respective proportions of profits resolved to be capitalised, of the amount or any part of the amounts remaining unpaid on their existing Shares.

25. Any agreement made under such authority shall be effective and binding on such Members.

#### **VI. COMMISSION AND BROKERAGE**

26. The Company may exercise the powers of paying commissions conferred by Section 40(6) of the Act (as amended from time to time), *provided that* the rate per cent or amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.
27. The rate or amount of the commission shall not exceed the rate or amount prescribed under the applicable rules made under Section 40(6) of the Act.
28. The commission may be satisfied by the payment of cash or the allotment of fully or partly paid Shares or partly in the one way and partly in the other.
29. The Company may also, on any issue of Shares or Debentures, pay such brokerage as may be lawful.

#### **VII. SHARES AND SHARE CERTIFICATES**

30. The Company shall cause to be kept a register of Members in accordance with Section 88 of the Act. The Company shall be entitled to maintain in any country outside India a “foreign register” of Members or Debenture holders resident in that country.
31. A Person subscribing to Shares of the Company shall have the option either to receive certificates for such Shares or hold the Shares with a Depository in electronic form. Where the Person opts to hold any Share with the Depository, the Company shall intimate such Depository of details of allotment of the Shares to enable the Depository to enter in its records the name of such Person as the beneficial owner of such Shares.
32. Unless the Shares have been issued in dematerialized form, every person whose name is entered as a member in the register of members shall be entitled to receive within two months after incorporation, in case of subscribers to the memorandum or after allotment or within one month after the application for the registration of transfer or transmission or sub-division or consolidation or renewal of any of its Shares as the case may be or within a period of six months from the date of allotment in the case of any allotment of Debenture or within such other period as the conditions of issue shall be provided –
- (i) one certificate for all his Shares without payment of any charges; or
  - (ii) several certificates, each for one or more of his Shares, upon payment of 20 (twenty) rupees for each certificate after the first.
33. Every Member shall be entitled, without payment to one or more certificates in marketable lots, for all the shares of each class or denomination registered in his name, or if the Directors so approve (upon paying such fee as the Directors so determine) to several certificates, each for one or more of such shares and the Company shall complete and have ready for delivery such certificates, unless prohibited by any provision of law or any order of court, tribunal or other authority having jurisdiction, within three (3) months from the date of allotment, or within two (2) month of the receipt of application of registration of transfer, transmission, sub division, consolidation or renewal of any of its shares as the case may be. Every certificate of Shares shall be under the seal of the Company, if any, and shall specify the number and distinctive numbers of Shares to which it relates and amount paid-up thereon and shall be signed by two Directors or by a Director and the Company Secretary. Further, out of the two Directors there shall be at least one director other than managing or whole- time director, where the composition of the Board so permits. *Provided that* in respect of a Share or Shares held jointly by several Persons, the Company shall not be bound to issue more than one certificate and delivery of a certificate for a Share to one of several joint-holders shall be sufficient delivery to all such holders.
34. If any Share stands in the names of 2 (two) or more Persons, the Person first named in the Register of Members of the Company shall as regards voting at General Meetings, service of notice and all or any matters connected with the Company, except the transfer of Shares and any other matters herein otherwise provided, be deemed to be sole holder thereof but joint holders of the Shares shall be severally

as well as jointly liable for the payment of all deposits, instalments and calls due in respect of such Shares and for all incidents thereof according to these Articles.

35. The Board may subject to the provisions of the Act, accept from any member on such terms and conditions as they think fit, a surrender of his Shares or stock or any part thereof.
36. If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer or in case of sub-division or consolidation of Shares, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deems adequate, a new certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate. Every certificate under this Article shall be issued on payment of Rs. 20 for each certificate. *Provided that* no fee shall be charged for issue of new certificates in replacement of those which are old, defaced or worn out or where there is not further space on the back thereof for endorsement of transfer or in case of sub-division or consolidation of Shares. *Provided that* notwithstanding what is stated above, the Directors shall comply with such rules or regulations and requirements of any stock exchange or the rules made under the Act or the rules made under Securities Contracts (Regulation) Act, 1956, as amended or any other act or rules applicable in this behalf.

The provisions of this Article shall *mutatis mutandis* apply to issue of certificates for any other Securities, including Debentures, of the Company.

37. The Board may, in its discretion, allow for sub-division or consolidation of Share certificates.
38. Subject to the provisions of Section 89 of the Act, a Person whose name is entered in the register of Members of the Company as the holder of the Shares but who does not hold the beneficial interest in such Shares shall file with the Company, a declaration to that effect in the form prescribed under the Act and the Company shall make necessary filings with the Registrar as may be required, within a prescribed period as set out in the Act and the rules framed thereunder.
39. Subject to provisions of Section 90 of the Act, every individual, who acting alone or together, or through one or more persons or trust, including a trust and Persons resident outside India, holds beneficial interests, of not less than twenty-five per cent. or such other percentage as may be prescribed under the Act, in Shares of the Company or the right to exercise, or the actual exercising of significant influence or control as defined in clause (27) of Section 2 of the Act, over the Company shall make a declaration to the Company, specifying the nature of his interest and other particulars, in such manner and within such period of acquisition of the beneficial interest or rights and any change thereof. The Company shall maintain a register of the interest declared by such individuals and changes therein which shall include the name of individual, his date of birth, address, details of ownership in the company and such other details as may be prescribed under the Act.

#### VIII. LIEN

40. The Company shall have a first and paramount lien upon all the Shares/ Debentures (other than fully paid up Shares/ Debentures) registered in the name of each Member (whether solely or jointly with others) to the extent of monies called or payable in respect thereof, and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such Shares/ Debentures and no equitable interest in any Share shall be created except upon the footing and condition that this Article will have full effect. Such lien shall extend to all dividends and bonuses from time to time declared in respect of such Shares/ Debentures. Fully paid up Shares shall be free from all liens. Unless otherwise agreed, the registration of a transfer of Shares/ Debentures shall operate as a waiver of the Company's lien if any, on such Shares/ Debentures. In case of partly-paid Shares, Company's lien shall be restricted to the monies called or payable at a fixed time in respect of such Shares. *Provided that* the Board may at any time declare any Shares/ Debentures wholly or in part to be exempt from the provisions of this Article. *Provided further that* the Board of directors may at any time declare any share to be wholly or in part exempt from the provisions of this clause.
41. Subject to the provisions of the Act, the Company may sell, in such manner as the Board thinks fit, any Shares on which the Company has a lien. *Provided that* no sale shall be made -

- (i) unless a sum in respect of which the lien exists is presently payable; or
  - (ii) until the expiration of 14 (fourteen) days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the Share or the person entitled thereto by reason of his death or insolvency.
42. A Member shall not exercise any voting rights in respect of the Shares in regard to which the Company has exercised the right of lien.
43. To give effect to any such sale, the Board may authorise some Person to transfer the Shares sold to the purchaser thereof.
- (i) The purchaser shall be registered as the holder of the Shares comprised in any such transfer.
  - (ii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
44. (i) The proceeds of the sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.
- (ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the Shares before the sale, be paid to the Person entitled to the Shares at the date of the sale.

#### **IX. CALLS ON SHARES**

45. Subject to the provisions of the Act, the Board may, from time to time, make calls upon the Members in respect of any money unpaid on their Shares (whether on account of the nominal value of the Shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times.
- Provided that* no call shall exceed one-fourth of the nominal value of the Share or be payable at less than one month from the date fixed for the payment of the last preceding call.
46. Each Member shall, subject to receiving at least 14 (fourteen) days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his Shares.
47. A call may be revoked or postponed at the discretion of the Board.
48. A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed and may be required to be paid by instalments.
49. The joint-holders of a Share shall be jointly and severally liable to pay all calls in respect thereof.
50. If a sum called in respect of a Share is not paid before or on the day appointed for payment thereof, the Person from whom the sum is due shall pay interest thereof from the day appointed for payment thereof to the time of actual payment at 10% (ten per cent) per annum or at such lower rate, if any, as the Board may determine. The Board shall be at liberty to waive payment of any such interest wholly or in part.
51. Any sum which by the terms of the issue of a Share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the Share or by way of premium, shall, for the purposes of these Articles, be deemed to be a call duly made and payable on the date on which by the terms of issue, such sum becomes payable. In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.
52. The Board may, if it thinks fit, subject to the provisions of the Section 50 of the Act, agree to and receive from any Member willing to advance the same, whole or any part of the moneys due upon the Shares held by him beyond the sums actually called for and upon the amount so paid or satisfied in advance, or so much thereof as from time to time exceeds the amount of the calls then made upon the Shares in respect of which such advance has been made, the Company may pay interest at twelve per cent per

annum. *Provided that* money paid in advance of calls shall not confer a right to dividend or to participate in profits. The Board may at any time repay the amount so advanced.

The Member shall not be entitled to any voting rights in respect of the moneys so paid by him until the same would, but for such payment, become presently payable.

The provisions of these Articles shall *mutatis mutandis* apply to any calls on Debentures of the Company.

53. The option or right to make calls on shares shall not be given to any person, except with the approval of the Company in the General Meeting.

#### **X. DEMATERIALIZATION OF SHARES**

54. The Company shall be entitled to treat the Person whose name appears on the register of Members as the holder of any Share or whose name appears as the beneficial owner of Shares in the records of the Depository, as the absolute owner thereof Provided however that provisions of the Act or these Articles relating to distinctive numbering shall not apply to the Shares of the Company, which have been dematerialized.
55. Notwithstanding anything contained herein, the Company shall be entitled to dematerialize its Shares, Debentures and other Securities pursuant to the Depositories Act and offer its Shares, Debentures and other Securities for subscription in a dematerialized form. The Company shall be further entitled to maintain a register of Members with the details of Members holding Shares both, in material and dematerialized form, in any medium as permitted by Law including any form of electronic medium.
56. Every Person subscribing to the Shares offered by the Company shall receive such Shares in dematerialized form. Such a Person who is the beneficial owner of the Shares can at any time opt-out of a Depository, if permitted by the Law, in respect of any Shares in the manner provided by the Depositories Act and the regulations made thereunder and the Company shall in the manner and within the time prescribed, issue to the beneficial owner the required certificate of Shares.
57. If a Person opts to hold his Shares with a depository, the Company shall intimate such Depository the details of allotment of the Shares, and on receipt of the information, the Depository shall enter in its record the name of the allottee as the beneficial owner of the Shares.
58. All Shares held by a Depository shall be dematerialized and shall be in a fungible form.
- (i) Notwithstanding anything to the contrary contained in the Act or the Articles, a depository shall be deemed to be the registered owner for the purposes of effecting any transfer of ownership of Shares on behalf of the beneficial owner.
  - (ii) Save as otherwise provided in (i) above, the depository as the registered owner of the Shares shall not have any voting rights or any other rights in respect of Shares held by it.
59. Every Person holding Shares of the Company and whose name is entered as the beneficial owner in the records of the Depository shall be deemed to be the owner of such Shares and shall also be deemed to be a Shareholder of the Company. The beneficial owner of the Shares shall be entitled to all the liabilities in respect of his Shares which are held by a Depository.
60. Notwithstanding anything in the Act or the Articles to the contrary, where Shares are held in a Depository, the records of the beneficial ownership may be served by such Depository on the Company by means of electronic mode or by delivery of disks, drives or any other mode as prescribed by Law from time to time.
61. In the case of transfer of Shares or other marketable Securities where the Company has not issued any certificates and where such Shares or Securities are being held in an electronic and fungible form, the provisions of the Depositories Act shall apply.

#### **XI. TRANSFER OF SHARES**

62. The Securities or other interest of any Member shall be freely transferable, *provided that* any contract or

arrangement between 2 (two) or more Persons in respect of transfer of Securities shall be enforceable as a contract. The instrument of transfer of any Share in the Company shall be duly executed by or on behalf of both the transferor and transferee. The transferor shall be deemed to remain a holder of the Share until the name of the transferee is entered in the register of Members in respect thereof. A common form of transfer shall be used in case of transfer of Shares. The instrument of transfer shall be in writing and shall be executed by or on behalf of both the transferor and transferee and shall be in conformity with all the provisions of Section 56 of the Act and of any statutory modification thereof for the time being shall be duly complied with in respect of all transfers of Shares and the registration thereof.

63. Where Shares are converted into stock:

- (i) the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the Shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit; *Provided that* the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the Shares from which the stock arose.
- (ii) the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the Company, and other matters, as if they held the Shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in Shares, have conferred that privilege or advantage.
- (iii) such of the Articles of the Company as are applicable to paid-up shares shall apply to stock and the words “share” and “shareholder” in these Articles shall include “stock” and “stock-holder” respectively.

64. Save as otherwise provided in the Act or any applicable Law, no transfer of a Share shall be registered unless a proper instrument of transfer duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee has been delivered to the Company together with the certificate or certificates of Shares, and if no such certificate is in existence, then the letter of allotment of the Shares. Application for the registration of the transfer of a Share may be made either by the transferor or by the transferee *provided that* where such application is made by the transferor, no registration shall, in the case of a partly paid Share be affected unless the Company gives notice of the application to the transferee in the manner prescribed under the Act, and subject to the provisions of these Articles, the Company shall, unless objection is made by the transferee, within 2 (two) weeks from the date of receipt of the notice, enter in the register the name of the transferee in the same manner and subject to the same conditions as if the application for registration of the transfer was made by the transferee. On giving not less than 7 (seven) days previous notice in accordance with the Act or any other time period as may be specified by Law, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine, *provided that* such registration shall not be suspended for more than 30 (thirty) days at any one time or for more than 45 (forty-five) days in the aggregate in any year.

65. Subject to the provisions of the Act, these Articles, the Securities (Contracts) Regulation Act, 1956, as amended, any listing agreement entered into with any recognized stock exchange and other applicable provisions of the Act or any other law for the time being in force, the Board may refuse whether in pursuance of any power of the Company under these Articles or otherwise to register the transfer of, or the transmission by operation of law of the right to, any Shares or interest of a Member in or Debentures of the Company. The Company shall within 1 (one) month from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to Company, send notice of the refusal to the transferee and the transferor or to the person giving intimation of such transmission, as the case may be, giving reasons for such refusal. *Provided that* the registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except where the Company has a lien on Shares or other securities.

66. Only fully paid Shares or Debentures shall be transferred to a minor acting through his/ her legal or natural guardian. Under no circumstances, Shares or Debentures be transferred to any insolvent or a person of unsound mind.

67. The instrument of transfer shall after registration be retained by the Company and shall remain in their custody. All instruments of transfer which the Directors may decline to register, shall on demand be returned to the persons depositing the same. The Directors may cause to be destroyed all transfer deeds lying with the Company after such period as they may determine.
68. The Board may, subject to the right of appeal conferred by Section 58 of the Act decline to register—
- (i) the transfer of a Share, not being a fully paid Share, to a person of whom they do not approve; or
  - (ii) any transfer of Shares on which the company has a lien.
69. The Board may decline to recognize any instrument of transfer unless—
- (i) the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56 of the Act;
  - (ii) the instrument of transfer is accompanied by the certificate of the Shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and
  - (iii) the instrument of transfer is in respect of only one class of Shares
70. No fee shall be charged for registration of transfer, transmission, probate, succession certificate and letters of administration, certificate of death or marriage, power of attorney or similar other documents.
71. The Company may close the register of Members or the register of debenture- holders or the register of other security holders for any period or periods not exceeding in the aggregate forty-five days in each year, but not exceeding thirty days at any one time, subject to giving of previous notice of at least 7 (seven) days or such lesser period as may be specified by SEBI.

## **XII. TRANSMISSION OF SHARES**

72. On the death of a Member, the survivor or survivors where the Member was a joint holder of the Shares, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only Person(s) recognised by the Company as having any title to his interest in the Shares. Nothing in this Article shall release the estate of the deceased joint holder from any liability in respect of any Share which had been jointly held by him with other Persons.
73. Any Person becoming entitled to a Share in consequence of the death or insolvency of a Member may, upon such evidence being produced as the Board may from time to time require, and subject as hereinafter provided, elect, either:
- (i) to be registered as holder of the Share; or
  - (ii) to make such transfer of the Share as the deceased or insolvent Member could have made.
- All the limitations, restrictions and provisions of these Articles relating to the right to transfer and the registration of transfers of Shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the Member had not occurred and the notice or transfer were a transfer signed by that Member.
74. The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent Member had transferred the Share before his death or insolvency.
75. If the Person so becoming entitled shall elect to be registered as holder of the Shares, such person shall deliver or send to the Company a notice in writing signed by him stating that he so elects.
76. If the Person aforesaid shall elect to transfer the Share, he shall testify his election by executing an instrument of transfer in accordance with the provisions of these Articles relating to transfer of Shares.
77. All the limitations, restrictions and provisions contained in these Articles relating to the right to transfer and the registration of transfers of Shares shall be applicable to any such notice or transfer as aforesaid

as if the death or insolvency of the Member had not occurred and the notice or transfer were a transfer signed by that Member.

78. A Person becoming entitled to a Share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the Share, except that he shall not, before being registered as a Member in respect of the Share, be entitled in respect of it to exercise any right conferred by membership in relation to the General Meetings of the Company, *provided that* the Board may, at any time, give notice requiring any such Person to elect either to be registered himself or to transfer the Share, and if the notice is not complied with within 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Share, until the requirements of the notice have been complied with.

### **XIII. FORFEITURE OF SHARES**

79. If a Member fails to pay any call, or instalment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or instalment remains unpaid, serve a notice on him requiring payment of so much of the call or instalment as is unpaid, together with any interest which may have accrued.
80. The notice issued under Article 70 shall:
- (i) name a further day (not being earlier than the expiry of 14 (fourteen) days from the date of service of the notice) on or before which the payment required by the notice is to be made; and
  - (ii) state that, in the event of non-payment on or before the day so named, the Shares in respect of which the call was made will be liable to be forfeited.
81. If the requirements of any such notice as aforesaid is not complied with, any Share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.
82. A forfeited Share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.
83. At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.
84. A Person whose Shares have been forfeited shall cease to be a Member in respect of the forfeited Shares, but shall, notwithstanding the forfeiture, remain liable to pay to the Company all monies which, at the date of forfeiture, were presently payable by the Person to the Company in respect of the Shares.
85. The liability of such Person shall cease if and when the Company shall have received payment in full of all such monies in respect of the Shares.
86. A duly verified declaration in writing that the declarant is a Director, the manager or the Secretary of the Company, and that a Share in the Company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all Person claiming to be entitled to the Share.
87. The Company may receive the consideration, if any, given for the Share on any sale or disposal thereof and may execute a transfer of the Share in favour of the Person to whom the Share is sold or otherwise disposed of.
88. The transferee shall thereupon be registered as the holder of the Share.
89. The transferee shall not be bound to ascertain or confirm the application of the purchase money, if any, nor shall his title to the Share be affected by any irregularity to invalidity in the proceedings in reference to the forfeiture, sale or disposal of the Share.
90. The provision of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a Share, become payable at a fixed time, whether on account of the nominal value of the Share or by way of premium, as the same had been payable by virtue of a call duly made

and notified.

#### **XIV. BUY-BACK OF SHARES**

91. Subject to the provisions of Sections 68 to 70 and other applicable provisions of the Act or any other law for the time being in force, the Company shall have the power to buy-back its own Shares or other Securities, as it may consider necessary.

#### **XV. GENERAL MEETINGS**

92. An Annual General Meeting shall be held each year within the period specified by the Law. Not more than 15 (fifteen) months shall elapse between the date of one Annual General Meeting of the Company and that of the next. Nothing contained in the foregoing provisions shall be taken as affecting the right conferred upon the Registrar under the provisions of Section 96 of the Act to extend the time within which any Annual General Meeting may be held. Every Annual General Meeting shall be called during business hours on a day that is not a national holiday (declared as such by the Central Government), and shall be held either at the registered office or at some other place within the city in which the registered office of the Company is situate, as the Board may determine. Every Member of the Company shall be entitled to attend every General Meeting either in person or by proxy.
93. All notices of, and other communications relating to, any General Meeting shall be forwarded to the auditor of the Company, and the auditor shall, unless otherwise exempted by the Company, attend either by himself or through his authorised representative, who shall also be qualified to be an auditor, any General meeting and shall have right to be heard at such meeting on any part of the business which concerns him as the auditor.
94. All General Meetings other than the Annual General Meeting shall be called extraordinary General Meetings.
95. The business of an Annual General Meeting shall be the consideration of financial statements and the reports of the Board of Directors and auditors; the declaration of any dividend; the appointment of Directors in place of those retiring; the appointment of, and the fixing of the remuneration of, the auditors; in the case of any other meeting, all business shall be deemed to be special.
96. No business shall be discussed at any General Meeting except election of a Chairperson while the chair is vacant.
97. (i) The Board may, whenever it thinks fit, call an extraordinary General Meeting.
- (ii) If at any time Directors capable of acting who are sufficient in number to form a quorum are not within India, any Director or any two Members of the Company may call an extraordinary General Meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.
- (iii) The Board shall on the requisition of such number of Member or Members of the Company as is specified in Section 100 of the Act, forthwith proceed to call an extra-ordinary General Meeting of the Company and in respect of any such requisition and of any meeting to be called pursuant thereto, all other provisions of Section 100 of the Act shall for the time being apply.
- (iv) A General Meeting of the Company may be convened by giving not less than clear 21 (twenty-one) days' notice either in writing or through electronic mode in such manner as prescribed under the Act, *provided that* a General Meeting may be called after giving a shorter notice if consent is given in writing or by electronic mode by majority in number of members entitled to vote and who represent not less than 95% (ninety- five percent) of such part of the paid-up Share Capital of the Company as gives a right to vote at such General Meeting.
- (v) Notice of every General Meeting shall be given to the Members and to such other Person or Persons as required by and in accordance with Section 101 and 102 of the Act and it shall be served in the manner authorized by Section 20 of the Act.
- (vi) A General Meeting may be called after giving shorter notice if consent, in writing or by electronic mode, is accorded thereto in accordance to the provisions of Section 101 of the Act.

*Provided that* where any Member of the Company is entitled to vote only on some resolution or resolutions to be moved at a meeting and not on the others, those Members shall be taken into account for the purposes of this Article in respect of the former resolution or resolutions and not in respect of the latter.

- (vii) Any accidental omission to give notice to, or the non-receipt of such notice by, any Member or other Person who is entitled to such notice for any meeting shall not invalidate the proceedings of the meeting.
- (viii) Subject to the provisions contained under Section 115 of the Act, where, by any provision contained in the Act or in these Articles, special notice is required of any resolution, notice of the intention to move such resolution shall be given to the Company by such number of Members holding not less than one per cent of total voting power or holding Shares on which such aggregate sum not exceeding five lakh rupees, has been paid-up and the Company shall immediately after receipt of the notice, give its members notice of the resolution at least 7 (seven) days before the meeting, exclusive of the day of dispatch of notice and day of the meeting, in the same manner as it gives notice of any General Meetings.

#### **XVI. PROCEEDINGS AT GENERAL MEETINGS**

- 98. No business shall be transacted at any General Meeting, unless a quorum of Members is present at the time when the meeting proceeds to transact business.
- 99. Save as otherwise provided herein, the quorum for the General Meetings shall be as provided in Section 103 of the Act.
- 100. In the event a quorum as required herein is not present within 30 (thirty) minutes of the appointed time, then subject to the provisions of Section 103 of the Act, the General Meeting shall stand adjourned to the same place and time 7 (seven) days later or to such other date and such other time and place as the Board may determine, *provided that* the agenda for such adjourned General Meeting shall remain the same. The said General Meeting if called by requisitionists under Section 100 of the Act shall stand cancelled.
- 101. In case of an adjourned meeting or of a change of day, time or place of meeting, the Company shall give not less than 3 (three) days' notice to the Members either individually or by publishing an advertisement in the newspapers (one in English and one in vernacular language) which is in circulation at the place where the registered office of the Company is situated.
- 102. The required quorum at any adjourned General Meeting shall be the same as that required at the original General Meeting.
- 103. If at the adjourned meeting also a quorum is not present within 30 (thirty) minutes from the time appointed for holding such meeting, the Members present shall be the quorum and may transact the business for which the meeting was called.
- 104. Before or on the declaration of the results of the voting on any resolution on a show of hands, a poll may be ordered to be taken by the Chairperson of the meeting on his/ her own motion and shall be ordered to be taken by him/ her on a demand made in accordance with Section 109 of the Act.
- 105. The demand for a poll may be withdrawn at any time by the person or persons who made the demand.
- 106. Notwithstanding anything contained elsewhere in these Articles, the Company:
  - (i) shall, in respect of such items of business as the Central Government may, by notification, declare or which are under any other applicable Law required to be transacted only by means of postal ballot; and
  - (ii) may, in respect of any item of business, other than ordinary business and any business in respect of which Directors or auditors have a right to be heard at any meeting, transact by means of postal ballot, in such manner as may be prescribed, instead of transacting such business at a General Meeting and any resolution approved by the requisite majority of the Members by means of such postal ballot, shall be deemed to have been duly passed at a General Meeting convened in that behalf and shall have effect accordingly.

107. Directors may attend and speak at General Meetings, whether or not they are Shareholders.
108. A body corporate being a Member shall be deemed to be personally present if it is represented in accordance with Section 113 of the Act and the Articles.
109. The Chairperson of the Board of Directors or in his absence the vice- Chairperson of the Board shall, preside as chairperson at every General Meeting, annual or extraordinary.
110. If there is no such Chairperson or if he is not present within 15 (fifteen) minutes after the time appointed for holding the General Meeting or is unwilling to act as the Chairperson of the General Meeting, the Directors present shall elect one of their members to be the Chairperson of the General Meeting.
111. If at any General Meeting no Director is willing to act as the Chairperson or if no Director is present within 15 (fifteen) minutes after the time appointed for holding the General Meeting, the Members present shall choose one of their Members to be the Chairperson of the General Meeting. If a poll is demanded on the election of the Chairperson, it shall be taken forthwith in accordance with the provisions of the Act and the Chairperson elected on show of hands, shall exercise all the powers of the Chairperson under the said provisions. If some other person is elected Chairperson as a result of the poll, he shall be the Chairperson for the rest of the meeting.

#### **XVII. ADJOURNMENT OF MEETINGS**

112. The Chairperson may, with the consent of Members at any meeting at which a quorum is present, and shall, if so directed at the meeting, adjourn the meeting, from time to time and from place to place.
113. No business shall be transacted at any adjourned General Meeting other than the business left unfinished at the meeting from which the adjournment took place.
114. When a meeting is adjourned for 30 (thirty) days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.
115. Save as aforesaid, and as provided in Section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

#### **XVIII. VOTING RIGHTS**

116. Subject to any rights or restrictions for the time being attached to any class or classes of Shares:
- (i) on a show of hands, every Member present in Person shall have 1 (one) vote; and
  - (ii) on a poll, the voting rights of Members shall be in proportion to their Share in the paid-up Share Capital.
117. The Chairperson shall have a second or casting vote in the event of an equality of votes at General Meetings of the Company.
118. At any General Meeting, a resolution put to vote of the meeting shall be decided on a show of hands, unless a poll is (before or on the declaration of the result of the voting on any resolution on show of hands) demanded by any Member or Members present in Person or by proxy, and having not less than one-tenth of the total voting power or holding Shares on which an aggregate sum of not less than Rs. 5,00,000 (Rupees five lakh) or such higher amount as may be prescribed has been paid up.
119. Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.
120. A Member may exercise his vote at a meeting by electronic means in accordance with Section 108 of the Act and shall vote only once.
121. In case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders. For this purpose, seniority shall be determined by the order in which the names are stated in the register of Members of the Company.
122. A Member of unsound mind, or in respect of whom an order has been made by any court having

jurisdiction, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.

123. No Member shall be entitled to exercise any voting rights either personally or by proxy at any General Meeting or meeting of a class of Shareholders either upon a show of hands or upon a poll in respect of any Shares registered in his/ her name on which any calls or other sums presently payable by him in respect of Shares in the Company have not been paid.
124. No objection shall be raised to the qualification of any voter except at the General Meeting or adjourned General Meeting at which the vote objected to is given or tendered, and every vote not disallowed at such General Meeting and whether given personally or by proxy or otherwise shall be deemed valid for all purpose. Any such objection made in due time shall be referred to the Chairperson of the General Meeting whose decision shall be final and conclusive.
125. A declaration by the Chairperson of the meeting of the passing of a resolution or otherwise by show of hands and an entry to that effect in the books containing the minutes of the meeting of the Company shall be conclusive evidence of the fact of passing of such resolution or otherwise.
126. Any poll duly demanded on the question of adjournment shall be taken forthwith. A poll demanded on any other question (not being a question relating to the election of a Chairperson or adjournment of the meeting) shall be taken at such time not exceeding 48 (forty-eight) hours from the time when the demand was made, as the Chairperson may direct.
127. The Chairperson of a General Meeting, may with the consent of the meeting, adjourn the same from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.
128. The demand of a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question of which a poll has been demanded.
129. Where a poll is to be taken, the Chairperson of the meeting shall appoint two scrutinisers to scrutinise the votes given on the poll and to report thereon to him/ her in accordance with Section 109 of the Act.
130. The Chairperson shall have power, at any time before the result of the poll is declared to remove a scrutiniser from office and to fill vacancies in the office of scrutiniser arising from such removal or from any other cause.
131. Of the two scrutinisers, one shall always be a Member (not being an officer or employee of the Company) present at the meeting, provided such a Member is available and willing to be appointed.
132. The Chairperson of the meeting shall have power to regulate the manner in which a poll shall be taken.
133. The result of the poll shall be deemed to be decision of the meeting on the resolution on which the poll was taken.
134. The Chairperson of any meeting shall be the sole judge of the validity of every vote tendered at such meeting.
135. On a poll taken at meeting of the Company, a member entitled to more than one vote, or his proxy or other person entitled to vote for him, as the case may be, need not, if he votes, use all his votes or cast in the same way all the votes he uses.
136. Where a resolution is passed at an adjourned meeting of the Company, the resolution shall, for all purposes, be treated as having been passed on the date on which it was in fact passed and shall not be deemed to have been passed on any earlier date.
137. At every Annual General Meeting of the Company, there shall be laid on the table the Directors' report, audited statements of accounts, auditor's report (if not already, incorporated in the audited statements of accounts), the proxy register with proxies and the register of Directors' holdings.

## **XIX. PROXY**

138. Subject to the provisions of the Act and these Articles, any Member of the Company entitled to attend and vote at a General Meeting of the Company shall be entitled to appoint a proxy to attend and vote instead of himself and the proxy so appointed shall have no right to speak at the meeting.
139. The proxy shall not be entitled to vote except on a poll.
140. The instrument appointing a proxy and the power of attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office not less than 48 (forty- eight) hours before the time for holding the meeting or adjourned meeting at which the Person named in the instrument proposes to vote; or in the case of a poll, not less than 24 (twenty-four) hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.
141. An instrument appointing a proxy shall be in the form as prescribed under Section 105 of the Act and the rules framed thereunder.
142. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the Shares in respect of which the proxy is given; *provided that* no intimation in writing of such death, insanity, revocation or transfer shall have been received by the Company at its office before the commencement of the meeting or the adjourned meeting at which the proxy is used.

## XX. BOARD OF DIRECTORS

143. The business of the Company shall be managed by the Directors who may pay all expenses incurred in setting up and registering the Company and may exercise all such powers of the Company as are not restricted by the Act or by these Articles. The Board may pay all expenses incurred in getting up and registering the Company.
144. The number of the Directors and the names of the first Directors shall be determined in writing by the subscribers of the Memorandum of Association or a majority of them.
145. \*5-6 Subject to the provisions of the Act, the number of Directors shall not be less than 3 (three) and more than 15 (fifteen), Provided further that the Company may appoint more than 15 (fifteen) directors after passing a Special Resolution. 146. The Directors need not hold any qualification Shares in the Company.
147. Subject to the provisions of the Act, each Director shall be paid sitting fees for each meeting of the Board or a Committee thereof attended by him, subject to the ceiling prescribed under the Act.
148. The remuneration of the Directors shall, insofar as it consists of a monthly payment, be deemed to accrue from day-to-day. The Directors shall also be paid travelling and other expenses for attending and returning from meeting of the Board of Directors or any committee thereof or General Meetings of the Company (including hotel expenses) and any other expenses properly incurred by them in connection with the business of the Company. The Directors may also be remunerated for any extra services done by them outside their ordinary duties as Directors, subject to the provisions of Section 197 of the Act.
149. Subject to the applicable provisions of the Act, if any Director, being willing shall be called upon to perform extra services for the purposes of the Company, the Company shall remunerate such Director by such fixed sum or percentage of profits or otherwise as may be determined by the Directors and such remuneration may be either in addition to or in substitution for his remuneration provided above.

150. Subject to the provisions of Section 197 and the other applicable provisions of the Act, the remuneration of Directors may be fixed at a particular sum or a percentage of the net profits or partly by one way and partly by the other.
151. In the event that a Director is absent for a continuous period of not less than 3 (three) months from India (an “**Original Director**”), subject to these Articles, the Board may appoint another Director (an “**Alternate Director**”), not being a person holding any alternate directorship for any other Director or holding directorship in the Company, for and in place of the Original Director. The Alternate Director shall be entitled to receive notice of all meetings and to attend and vote at such meetings in place of the Original Director and generally to perform all functions of the Original Director in the Original Director’s absence. Any Person so appointed as Alternate Director shall not hold office for a period longer than that permissible to the Original Director and shall vacate the office if and when the Original Director returns to India. No Person shall be appointed or continue as an Alternate Director to an Independent Director.
152. The office of a Director shall automatically become vacant, if he is disqualified under any of the provisions of the Act. Further, subject to the provisions of the Act, a Director may resign from his office at any time by giving a notice in writing to the Company and the Board shall on receipt of such notice take note of the same and the Company shall intimate the Registrar and also place the fact of such resignation in the report of Directors laid in the immediately following General Meeting. Such Director may also forward a copy of his resignation along with detailed reasons for the resignation to the Registrar within 30 (thirty) days of resignation. The resignation of a Director shall take effect from the date on which the notice is received by the Company or the date, if any, specified by the Director in the notice, whichever is later.
153. At any Annual General Meeting at which a Director retires, the Company may fill up the vacancy by appointing the retiring Director who is eligible for re- election or some other Person if a notice for the said purpose has been left at the office of the Company in accordance with the provisions of the Act.
154. No Person shall be appointed as a Director unless he furnishes to the Company his Director Identification Number under Section 154 of the Act or any other number as may be prescribed under Section 153 of the Act and a declaration that he is not disqualified to become a Director under the Act.
155. No Person appointed as a Director shall act as a Director unless he gives his consent to hold the office as a Director and such consent has been filed with the Registrar within 30 (thirty) days of his appointment in the manner prescribed in the Act.
156. Subject to the provisions of the Act, the Directors shall have the power, at any time and from time to time to appoint any Persons as Additional Director in addition to the existing Directors so that the total number of Directors shall not at any time exceed the number fixed for Directors in these Articles. Any Director so appointed shall hold office only until the next following Annual General Meeting or the last date on which the Annual General Meeting should have been held, whichever is earlier, but shall be eligible for re-appointment as Director.
157. The Company, may by Ordinary Resolution, of which special notice has been given in accordance with the Section 169 of the Act, remove any Director including the managing director, if any, before the expiration of the period of his office. Notwithstanding anything contained in these Articles or in any agreement between the Company and such Director, such removal shall be without prejudice to any contract of service between him and the Company.
158. If the office of any Director appointed by the Company in General Meeting, is vacated before his term of office expires in the normal course, the resulting casual vacancy may be filled up by the Board at a meeting of the Board but any Person so appointed shall retain his office so long only as the vacating Director would have retained the same if such vacancy had not occurred.
159. If at any meeting at which an election of Directors ought to take place, the places of the vacating directors are not filled up, the meeting shall stand adjourned till the same day in next week at the same time and place, and if at the adjourned meeting the place of the vacating Directors is not filled up the vacating directors or such of them as have not had their places filled, shall be deemed to have been re-elected at the adjourned meeting.
160. The Company may from time to time in General Meeting increase or reduce the number of Directors and

may make any appointments necessary for affecting such increase.

161. In the event of the Company borrowing any money from any financial corporation or institution or government or any government body or a collaborator, bank, Person or Persons or from any other source, while any money remains due to them or any of them the lender concerned may have and may exercise the right and power to appoint, from time to time, any Person or Persons to be a Director or Directors of the Company and the Directors so appointed, shall not be liable to retire by rotation, subject however, to the limits prescribed by the Act. Any Person so appointed may at any time be removed from the office by the appointing authority who may from the time of such removal or in case of death or resignation of Person, appoint any other or others in his place. Any such appointment or removal shall be in writing, signed by the appointee and served on the Company. Such Director need not hold any qualification Shares.
162. The Company may take and maintain any insurance as the Board may think fit on behalf of its present and/ or former Directors and key managerial personnel for indemnifying all or any of them against any liability for any acts in relation to the Company for which they may be liable but have acted honestly or reasonably.
163. The Company may exercise the powers as prescribed under Section 88 of the Act, with regards to the keeping of a foreign register; and the Board may (subject to the provisions of the section) make and vary such Articles as it may think fit respecting the keeping of any such register.
164. Subject to the provisions of the Act, so long as any moneys remain owing by the Company to financial institutions regulated by the Reserve Bank of India, State Financial Corporation or any financial institution owned or controlled by the Central Government or State Government or any non-banking financial company regulated by the Reserve Bank of India or any such company from whom the Company has borrowed for the purpose of carrying on its objects or each of the above has granted any loans / or subscribes to the debentures of the Company or so long as any of the aforementioned companies of financial institutions holds or continues to hold debentures /shares in the Company as a result of underwriting or by direct subscription or private placement or so long as any liability of the Company arising out of any guarantee furnished on behalf of the Company remains outstanding, and if the loan or other agreement with such institution/ corporation/ company (the “**Corporation**”) so provides, the Corporation may, in pursuance of the provisions of any law for the time being in force or of any agreement, have a right to appoint from time to time any person or persons as a Director or Directors, whether whole-time or otherwise (“**Nominee Director**”) on the Board of the Company and to remove from such office any person or person so appointed and to appoint any person or persons in his place. The Nominee Director appointed under this Article shall be entitled to receive all notices of and attend all General Meetings, Board meetings and of the meetings of the committee of which Nominee Director/s is/are member/s as also the minutes of such Meetings. The Corporation shall also be entitled to receive all such notices and minutes. The Company may pay the Nominee Director (or the nominee appointer) sitting fees and expenses to which the other Directors of the Company are entitled.

## XXI. PROCEEDINGS OF THE BOARD

165. The Board may meet for the conduct of business, adjourn and otherwise regulate its meetings, as it thinks fit.
166. A Director may, and the manager or the Secretary of the Company upon the requisition of a Director shall, at any time convene a meeting of the Board.
167. Subject to the provisions the Act, the Board shall meet at least 4 (four) times in a year in such a manner that not more than 120 (one hundred and twenty) days shall intervene between 2 (two) consecutive meetings of the Board.
168. The quorum for the meeting of the Board shall be one third of its total strength or 2 (two) Directors, whichever is higher, and the participation of the Directors by video conferencing or by other audio visual means shall also be counted for the purpose of quorum. *Provided that* where at any time the number of interested Directors is equal to or exceeds two-thirds of the total strength of the Board, the number of remaining Directors, that is to say the number of Directors who are not interested and present at the meeting being not less than 2 (two), shall be the quorum during such time.

169. The continuing Directors may act notwithstanding any vacancy in the Board; but if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing Directors or Director may act for the purpose of increasing the number of Directors to that fixed for the quorum, or of summoning a General Meeting of the Company, but for no other purpose.
170. If quorum is found to be not present within 30 (thirty) minutes from the time when the meeting should have begun or if during the meeting, valid quorum no longer exists, the meeting shall be reconvened at the same time and at the same place 7 (seven) days later. At the reconvened meeting, the Directors present and not being less than 2 (two) Persons shall constitute the quorum and may transact the business for which the meeting was called and any resolution duly passed at such meeting shall be valid and binding on the Company.
171. Subject to the provisions of the Act allowing for shorter notice periods, a meeting of the Board shall be convened by giving not less than 7 (seven) days' notice in writing to every Director at his address registered with the Company and such notice shall be sent by hand delivery or by post or by electronic means.
172. Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.
173. In case of equality of votes, the Chairperson and the vice-Chairperson of the Board shall decide unanimously at Board meetings of the Company.
174. The Board may elect a Chairperson for its meetings and determine the period for which he is to hold office. The Board may likewise appoint a vice-chairman of the Board of Directors to preside over the meeting at which the chairman shall not be present. If at any meeting the Chairperson is not present within 5 (five) minutes after the time appointed for holding the meeting, the Directors present may choose one of their Member to be Chairperson of the meeting.
175. The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such Member or Members of its body as it thinks fit.
176. Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.
177. A committee may elect a Chairperson of its meetings and may also determine the period for which he is to hold office. If no such Chairperson is elected, or if at any meeting the Chairperson is not present within 5 (five) minutes after the time appointed for holding the meeting, the Members present may choose one of their Members to be Chairperson of the meeting.
178. A committee may meet and adjourn as it thinks fit.
179. Questions arising at any meeting of a committee shall be determined by a majority of votes of the Directors present and in case of equality of votes the Chairman of the meeting shall have a second or casting vote.
180. Subject to these Articles and Sections 175, 179 and other applicable provisions of the Act, a circular resolution in writing, executed by or on behalf of a majority of the Directors or members of the Committee, shall constitute a valid decision of the Board or committee thereof, as the case may be, *provided that* a draft of such resolution together with the information required to make a fully-informed good faith decision with respect to such resolution and appropriate documents required to evidence passage of such resolution, if any, was sent to all of the Directors or members of the committee (as the case may be) at their addresses registered with the Company in India by hand delivery or by post or by courier, or through such electronic means as may be prescribed under the Act, and has been approved by a majority of the Directors or members who are entitled to vote on the resolution.
181. All acts done in any meeting of the Board or of a committee thereof or by any Person acting as a Director shall, notwithstanding that it may be afterwards discovered that his appointment was invalid by reason of any defect for disqualification or had terminated by virtue of any provisions contained in the Act, or in these Articles, be as valid as if every such Director or such Person had been duly appointed and was qualified to be a Director.

182. Subject to the provisions of the Act, no Director shall be disqualified by his office from contracting with the Company, nor shall any such contract entered into by or on behalf of the Company in which any Director shall be in any way interested be avoided, nor shall any Director contracting or being so interested be liable to account to the Company for any profit realized by any such contract by reason only of such Director holding that office or of the fiduciary relations thereby established; *provided that* every Director who is in any way whether directly or indirectly concerned or interested in a contract or arrangement, entered into or to be entered into by or on behalf of the Company, shall disclose the nature of his concern or interest at a meeting of the Board and shall not participate in such meeting as required under Section 184 and other applicable provisions of the Act, and his presence shall not count for the purposes of forming a quorum at the time of such discussion or vote.

## **XXII. POWERS OF THE DIRECTORS**

183. The Directors shall have powers for the engagement and dismissal of managers, engineers, clerks and assistants and shall have power of general directions, management and superintendence of the business of the Company with full power or do all such acts, matters and things deemed necessary, proper or expedient for carrying on the business of the Company and to make and sign all such contracts, and other government papers and instruments that shall be necessary, proper or expedient, for the authority and direction of the Company except only such of them as by the Act or by these Articles are expressly directed to be exercised by the Members in the General Meeting.
184. Subject to Section 179 of the Act, the Directors shall have the right to delegate any of their powers covered under Section 179(3)(d) to Section 179(3)(f) to any committee of the Board, managers, or any other principal officer of the Company as they may deem fit and may at their own discretion revoke such powers.
185. The Board of Directors shall, or shall authorize Persons in their behalf, to make necessary filings with governmental authorities in accordance with the Act and other applicable Law, as may be required from time to time.
186. Subject to the provisions of the Act and these Articles, the Board shall be entitled to exercise all such powers, and to do all such acts and things as the Company is authorized to exercise and do; *provided that* the Board shall not exercise any power or do any act or thing which is directed or required, whether by the Act, or any other statute or by the Memorandum of Association or by these Articles or otherwise, to be exercised or done by the Company in a General Meeting; provided further that in exercising any such power or doing any such act or thing, the Board shall be subject to the provisions in that behalf contained in the Act or any other statute or in the Memorandum of Association of the Company or in these Articles, or in any regulations not inconsistent therewith and duly made thereunder, including regulations made by the Company in General Meeting, but no regulation made by the Company in General meeting shall invalidate any prior act of the Board which would have been valid if that regulation had not been made.
187. Subject to the provisions of the Act and any other applicable Law for the time being in force, the Directors shall have the power, from time to time and at their discretion, to borrow, raise or secure the payment of any sum of money for and on behalf of the Company in such manner and upon such terms and conditions in all respects as they think fit and through the issue of Debentures or bonds of the Company or by mortgage or charge upon all or any of the properties of the Company both present and future including its uncalled capital then available.
188. The Directors shall have the power to open bank accounts, to sign cheques, promissory notes on behalf of the Company and to operate all banking accounts of the Company and to receive payments, make endorsements, draw and accept negotiable instruments, *hundies* and bills or may authorise any other Person or Persons to exercise such powers.

## **CHIEF EXECUTIVE OFFICER, MANAGER, COMPANY SECRETARY OR CHIEF FINANCIAL OFFICER**

189. The Board may, from time to time, subject to Section 196 and other applicable provisions of the Act, appoint one or more of their body to the office of the managing director or whole time director for such period and on such remuneration and other terms, as they think fit and subject to the terms of any agreement entered into in any particular case, may revoke such appointment.

190. Subject to the provisions of any contract between him and the Company, the managing director/ whole-time director, shall be subject to the same provisions as to resignation and removal as the other Directors and his appointment shall automatically terminate if he ceases to be a Director.
191. Subject to the provisions of the Act, a managing director or whole time director may be paid such remuneration (whether by way of salary, commission or participation in profits or partly in one way and partly in other) as the Board may determine.
192. The Board, subject to Section 179 and any other applicable provisions of the Act, may entrust to and confer upon a managing director or whole time director any of the powers exercisable by them upon such terms and conditions and with such transfers, as they may think fit and either collaterally with or to the exclusion of their own powers and may, from time to time, revoke, withdraw or alter or vary all or any of such powers.
193. Subject to the provisions of the Act —
- (a) A chief executive officer, company secretary and chief financial officer may be appointed by the Board for such term, at such remuneration and upon such conditions as it may think fit; and any chief executive officer, company secretary and chief financial officer so appointed may be removed by means of a resolution of the Board.
  - (b) A director may be appointed as chief executive officer, company secretary or chief financial officer. Further, an individual may be appointed or reappointed as the chairperson of the Company as well as the managing Director or chief executive officer of the Company at the same time.
  - (c) A provision of the Act or the Articles requiring or authorizing a thing to be done by or to a Director and chief executive officer, company secretary or chief financial officer shall not be satisfied by its being done by or to the same person acting both as a Director and as, or in place of, chief executive officer, company secretary or chief financial officer.

### **XXIII. THE SEAL**

194. (i) The Board shall provide for the safe custody of the seal of the Company.
- (ii) The seal shall not be affixed to any instrument except by the authority of resolution of the Board or a committee of the Board authorised by it in that behalf, and except in the presence of at least 2 (two) Directors and the Company Secretary or any other official of the Company as the Board may decide and that 2 (two) Directors and the Company Secretary or such official shall sign every instrument to which the Seal of the Company is so affixed in their presence. The Share certificates will, however, be signed and sealed in accordance with Rule 5 of the Companies (Share Capital and Debentures) Rules, 2014, as amended.

### **XXIV. DIVIDENDS AND RESERVE**

195. The Company in a General Meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
196. Subject to the provisions of Section 123 of the Act, the Board may, from time to time, pay to the Members such interim dividends as appear to it to be justified by the profits of the Company.
197. The Board may, before recommending any dividend, set aside out of the profits of the Company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the Company may be properly applied, including provision for meeting contingencies or for equalising dividends; and pending such application, may, at a like discretion, either be employed in the business of the Company or be invested in such investments (other than Shares of the Company) as the Board may, from time to time, think fit. The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.
198. Subject to the rights of Persons, if any, entitled to Shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the Shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the Shares in the Company,

dividends may be declared and paid according to the amounts of the Shares.

199. No amount paid or credited as paid on a Share in advance of calls shall be treated for the purpose of these Articles as paid on the Share.
200. All dividends shall be apportioned and paid proportionately to the amounts, paid or credited as paid on the Shares during any portion or portions of the period in respect of which the dividend is paid, but if any Share is issued on terms providing that it shall rank for dividend as from a particular date such Share shall rank for dividend accordingly.
201. The Board may deduct from any dividend payable to any Member all sums of money, if any, presently payable by him to the Company on account of calls or otherwise in relation to the Shares.
202. Any dividend, interest or other monies payable in cash in respect of Shares may be paid by electronic mode or by cheque, demand draft or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of Members of the Company, or to such Person and to such address as the holder or joint holders may in writing direct.
203. Every such cheque or warrant shall be made payable to the order of the Person to whom it is sent.
204. Any one of two or more joint holders of a Share may give effectual receipts for any dividends, bonuses or other payments in respect of such Share.
205. Notice of any dividend, whether interim or otherwise, that may have been declared shall be given to the Persons entitled to Share therein in the manner mentioned in the Act.
206. No dividend shall bear interest against the Company.
207. A Shareholder can waive/ forgo the right to receive the dividend (either final and/ or interim) to which he is entitled, on some or all the equity Shares held by him in the Company. However, the Shareholder cannot waive/ forgo the right to receive the dividend (either final and/ or interim) for a part of percentage of dividend on Share(s).
208. Where a dividend has been declared by the Company but has not been paid or claimed within 30 (thirty) days from the date of the declaration to any Shareholder entitled to the payment of the dividend, the Company shall, within 7 (seven) days from the date of expiry of the said period of thirty days, transfer the total amount of dividend which remains unpaid or unclaimed to a special account to be opened by the Company in that behalf in any scheduled bank to be called the 'Unpaid Dividend Account'.
209. Any money transferred to the 'Unpaid Dividend Account' of the Company which remains unpaid or unclaimed for a period of 7 (seven) years from the date of such transfer, shall be transferred by the Company along with the interest accrued, if any, to the Fund known as Investor Education and Protection Fund established under section 125 of the Act. There shall be no forfeiture of unclaimed dividends before the claim becomes barred by law.
210. All Shares in respect of which the Dividend has not been paid or claimed for 7 (seven) consecutive years or more shall be transferred by the Company in the name of Investor Education and Protection Fund along with a statement containing such details as may be prescribed. *Provided that*, any claimant of Shares so transferred shall be entitled to claim the transfer of Shares from Investor Education and Protection Fund in accordance with such procedure and on submission of such documents as may be prescribed.
211. The Company shall comply with the provisions of the Act in respect of any dividend remaining unpaid or unclaimed with the Company.

## XXV. ACCOUNTS

212. (i) The Board shall cause proper books of account to be maintained under Section 128 and other applicable provisions of the Act.
- (ii) The Board shall, from time to time, in accordance with the Act, determine whether and to what

extent and at what times and places and under what conditions or regulations all books of the Company or any of them, shall be open to the inspection of Members not being Directors.

- (iii) No Member (not being a Director) or other Person shall have any right of inspecting any account book or document of the Company except as conferred by Law or authorised by the Board or by the Company in General Meetings.
- (iv) Each Director shall be entitled to examine the books, accounts and records of the Company, and shall have free access, at all reasonable times and with prior written notice, to any and all properties and facilities of the Company.

#### **XXVI. WINDING UP**

213. Subject to the provisions of Chapter XX of the Act and rules made thereunder:

- (i) If the Company shall be wound up, the liquidator may, with the sanction of a Special Resolution of the Company and any other sanction required by the Act, divide amongst the Members, in specie or in kind, the whole or any part of the assets of the Company, whether they shall consist of property of the same kind or not.
- (ii) For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the Members or different classes of Members.
- (iii) The liquidator may, with a like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories if he considers necessary, but so that no Member shall be compelled to accept any shares or other securities whereon there is any liability.

214. The Company may be wound up in accordance with the Act and the Insolvency and Bankruptcy Code, 2016, as amended.

#### **XXVII. INDEMNITY**

Every officer of the Company shall be indemnified out of the assets of the Company against any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in which relief is granted to him by the court or the National Company Law Tribunal.

#### **XXVIII. OTHERS**

#### **XXIX. BORROWING POWERS**

215. Subject to the provisions of the Act, the Board may from time to time, at their discretion raise or borrow or secure the payment of any sum or sums of money for and on behalf of the Company. Any such money may be raised or the payment or repayment thereof may be secured in such manner and upon such terms and conditions in all respect as the Board may think fit by promissory notes or by opening loan or current accounts or by receiving deposits and advances at interest with or without security or otherwise and in particular by the issue of bonds, perpetual or redeemable Debentures of the Company charged upon all or any part of the property of the Company (both present and future) including its uncalled capital for the time being or by mortgaging or charging or pledging any lands, buildings, machinery, plant, goods or other property and Securities of the Company or by other means as the Board deems expedient.

216. The Board of Directors shall not, except with the consent of the Company by way of a Special Resolution, borrow moneys where the moneys to be borrowed together with the moneys already borrowed by the Company (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) exceeds the aggregate of paid-up Share Capital, free reserves and securities premium of the Company.

#### **XXX. SECRECY**

217. Every manager, auditor, trustee, member of a Committee, officer, servant, agent, accountant or other

Persons employed in the business of the Company shall, if so required by the Board, before entering upon the duties, sign a declaration pledging himself to observe strict secrecy respecting all *bona fide* transactions of the Company with its customers and the state of accounts with individuals and in matters relating thereto and shall by such declaration pledge himself not to reveal any of the matters which may come to his knowledge in the discharge of his duties except when required to do so by the Directors or by any General Meeting or by the Law of the country and except so far as may be necessary in order to comply with any of the provisions in these Articles and the provisions of the Act.

#### **XXXI. MEMBERS BOUND BY DOCUMENT GIVEN TO PREVIOUS HOLDERS**

218. Every person, who by the operation of law, transfer or other means whatsoever, shall become entitled to any shares, shall be bound by every document in respect of such share which, previously to his name and address being entered in the Register of Members, shall have been duly served on or sent to the person from whom he derived his title to such share.

#### **XXXII. APPLICATION OF ASSETS**

219. Subject to the provisions of the Act as to preferential payment, the assets of the Company shall, on its winding up, be applied in satisfaction of its liabilities *pari passu* and, subject to such application shall be distributed among the Members according to their rights and interests in the Company.

#### **XXXIII. AUDIT**

220. Subject to the provisions of the Act, the Company shall appoint an auditor at an Annual General Meeting to hold office from the conclusion of that Annual General Meeting until the conclusion of the sixth Annual General Meeting from such Annual General Meeting, and every auditor so appointed shall be informed of his appointment within 15 days.
221. The Directors may fill up any casual vacancy in the office of the auditors within 30 (thirty) days subject to the provisions of Section 139 and 140 of the Act and the rules framed thereunder.
222. The remuneration of the auditors shall be fixed by the Company in the Annual General Meeting or in such manner as the Company may in the General Meeting determine.

#### **XXXIV. GENERAL AUTHORITY**

223. Wherever in the Act, it has been provided that the Company shall have any right, privilege or authority or that the Company cannot carry out any transaction unless the Company is so authorized by its Articles then in that case, these Articles hereby authorize and empower the Company to have such rights, privilege or authority and to carry out such transaction as have been permitted by the Act, without there being any specific Article in that behalf herein provided.
